The following individuals spoke in opposition of the Home Depot project for several reasons, some being, but are not limited to: within a half-mile radius, there are three similar businesses (84 Lumber company, Moore's Building Supplies and Lumber and a new Lowe's Mega-Store); increased traffic problems; no police presence in the area now; need for traffic calming measures to slow down speeding traffic on Monte Vista Road; property values will decrease; stormwater run-off problems; no one has addressed the projected growth rate; exiting onto Acton Circle and Monte Vista Road from the proposed Home Depot has not been addressed in that there will be no traffic light to aid them from entering onto those roads; what will happen to the natural stream that runs alongside Acton Circle if road improvements are made; what will happen from the run-off from the project onto Acton Circle; tractor trailers will not be able to negotiate the curve on Acton Circle; need for competitive wages for our residents, not minimum wages; Sand Hill School Road traffic; erosion control problems on Sand Hurst Drive; a 50-foot buffer is not adequate; noise concerns; a smaller structure with a higher pay scale would be preferred on the property; and, the need for some kind of retention pond or wetland areas to filter water run-off:

Mr. Jerry Jones, Candler resident
Mr. Larry Rockman, Candler resident
Mr. Chris Jordan, resident on Monte Vista Road
Ms. Judy Jones, resident on Monte Vista Road
Ms. Julie Fisher, neighborhood resident
Ms. Connie Jones, resident on Sand Hurst Drive (Public Exhibit 1)
Ms. Helen Saunders, neighborhood resident
Ms. Carrie Becker, neighborhood resident (Public Exhibit 2)
A resident on Sand Hill Road

Mr. Paul Young, owner of Shoney's land and building, felt that Home Depot is going out of their way to be a good neighbor in addition to all their road improvements.

Upon inquiry of Councilwoman Field, Mr. Baechtold said the property is zoned Highway Business which allows a wide range of retail and commercial uses. He explained what type of projects would be required to come before City Council for a conditional use permit (Level III projects). He also explained that on Level II projects, which are only required to be approved by the TRC, City Council has no authority to improve additional conditions as they can on Level III projects.

When Councilwoman Field asked if City staff considered the traffic from the proposed soccer complex, Mr. Moule said that the complex will mainly generate traffic on weekends and that the TIA did not analyze Saturday. He explained why there was no need to analyze the Saturday traffic.

Mr. Ken Putnam, Division Traffic Engineer for the NC DOT, explained the traffic signal upgrades in the area and Home Depot's willingness to pay for the improvements to change out their equipment. Presently NC DOT staff in Raleigh is analyzing the TIA to come up with a timing plan. With Home Depot willing to pay for it, they will be able to implement the changes and they will try to coordinate all of this in conjunction with when the proposed store opens.

Mr. Charles Tremel, Real Estate Manager for Home Depot Corporation, explained the difference between the three retail businesses in the home improvement type lumber business. 84 Lumber and Moore's strictly tend to work more with the professional builders than does a Lowe's or a Home Depot. Their demographic studies show that they can well support a store in this market.

Mr. Will Buie, engineer with Lapsley & Associates, said that this site plan does include providing a stormwater detention pond and they will meet all City and State requirements for sedimentation and erosion control and stormwater detention.

When Councilman Hay asked if the City can impose a condition to require Home Depot pay to upgrade the traffic signals, Mr. Moule responded that City Council can make that a condition. Mr. Moule was satisfied that the NC DOT will do something with the amount of money that Home Depot is willing to pay to coordinate the traffic signals because it is to their benefit.

Councilman Hay asked if tractor trailer traffic on Acton Circle was considered. Mr. Moule replied that it was taken into account. One of the conditions that staff has recommended is that the NC DOT and the City of Asheville review all the final design plans for the roadway improvements. That review could include truck turning and possibly that should be added to the condition for the review - in making sure that trucks can turn at intersections or around the curve on Acton Circle without encroaching on opposing traffic lanes. He recommended modifying that condition in that fashion.

Councilwoman Whitmire agreed that the tractor trailer traffic on Acton Circle needed to be considered. She also stressed that if there is, in fact, no police presence in that area that that issue be addressed as well.

When Councilwoman Whitmire asked if the City could initiate some traffic calming measures on Acton Circle and Monte Vista Road, Mr. Moule said that they are state maintained roads but that he would ask the NC DOT to evaluate the speed.

Upon inquiry of Councilman Worley, Mr. Baechtold explained how a TIA would be triggered if staggered developed occurred on a piece of property.

When Councilman Worley asked how much tractor trailer traffic would be generated, Mr. Hughes Thompson, representing Greenberg Farrow Architects & Engineers, said he expected this store to have a range of 8 to 12 trips a day - 3 or 4 of those trucks delivery about 5 a.m. or 6 a.m. and the remaining trips would be spread out during the day.

Councilman Peterson was concerned about what conditions can be placed on the outparcels once they are developed and whether any TIA's took into account the traffic the outparcels might generate once they are developed. Mr. Shuford said the extent to which the outparcels can be developed may actually be constrained by future traffic patterns. Mr. Moule said that there hasn't been any analysis yet of how the outparcels will affect the traffic in the vicinity. However, in Condition No. 6 states that a revised TIA shall be required at the time of development of any of the sites identified as future outparcels.

Upon inquiry of Councilman Peterson, Mr. Shuford suggested adding a condition no. 8 "Landscaped areas shown on the landscape plan shall not be altered or removed except to the minimum extent necessary to accommodate the requirements of condition no. 5 above, as determined by the City Traffic Engineer. That replacement landscaping shall be provided to an equal or greater extent than the landscaping that is removed elsewhere on the individual site or sites as applicable, as determined by the Planning & Development Director."

In response to Councilman Peterson, Mr. Shuford said that if this property was subdivided into three or more parcels and they remained under one ownership, they would have to be treated as one development and we would retain control over issues such as access. But, if they were sold after the subdivision, then that control would be lost.

Upon inquiry of Councilwoman Field, Mr. Shuford said that approximately 700 residential units could be built on this site and approximately 6-7,000 one way trips per day would be generated. The proposed Home Depot is expected to generate 4,600 one way trips per day.

Mayor Sitnick closed the public hearing at 9:02 p.m.

Assistant City Attorney Meldrum said that City Council will need a motion to either approve the permit or to deny the permit. If Council approves it, they will need to list the conditions they would like included in the written order. If Council denies it, they should state the reasons for that denial. Then, Council will need to direct the City Attorney's Office to come back in two weeks on February 22, 2000, with a written order including the findings and conditions that they have set out based on approval or denial.

Councilwoman Whitmire said that she is satisfied that Home Depot has met the seven standards in addition to the eighth one suggested by Mr. Shuford, However, she did want to see the issues of the widening the curve on Acton Circle and traffic calming measures for Acton Circle and Monte Vista Road be addressed.

Councilman Peterson was concerned with Standard No. 4, however, considering how large the parcel is, he felt he could give the developer the benefit of the doubt. He did not think that Condition No. 7 has been met. He explained his concern about the traffic in the area and without further improvements along that stretch of Acton Circle, he felt there is clearly going to be a traffic hazard that will need to be addressed in a couple of years.

Councilwoman Field moved to approve the conditional use permit with (1) the conditions suggested by City staff, (2) Condition No. 8 as suggested by Mr. Shuford; and (3) some type of condition regarding improvements to the curve on Acton Circle. This motion was seconded by Councilwoman Whitmire.

Councilman Hay said that Council has never imposed conditions on developers that go as far as this one does. The 22 acres will definitely be developed, if not now, then in the future. At this time we have an opportunity to not only address the traffic congestion that this will cause, but also to improve the situation in the area if our traffic studies are correct. He does feel that the traffic conditions will be improved with these various improvements. He would like to add in the additional condition Mr. Moule said that he wanted to work up that had to do with tractor trailer traffic on the curve on Monte Vista Road.

Councilwoman Field said that she intended to add into her motion the condition Mr. Moule was going to work up dealing with tractor trailer traffic on the curve on Acton Circle.

Councilwoman Whitmire said that the motion did not mention the traffic calming issues she wanted addressed.

Councilman Worley stated that he was satisfied that the roadway improvements will improve the traffic congestion in the area.

Mayor Sitnick said the major concern here is the traffic and she felt that whatever Council can do to the curve on Acton Circle, traffic calming measures in the area are all very important. She has a special concern about the back-up of traffic onto I-40 mainly because of the speeds people travel on I-40. She reviewed some of the other uses permitted in the Highway Business District. She felt that Home Depot has gone beyond what we have required of them and she would like to see the NC DOT do something about the back-up on I-40 that presently occurs. Considering the potential uses for that property, this is probably the best kind of development we could get for that acreage. With the additional conditional provisions for traffic calming, doing something better with Acton Circle and the curve and having the NC DOT try to alleviate the back-up of traffic onto I-40, she would vote in favor of the project.

Assistant City Attorney Meldrum reviewed the conditions to be included in the written order: (1) conditions recommends by staff; (2) Condition No. 8 as suggested by Mr. Shuford; and (3) some type of condition regarding improvements to the curve on Acton Circle. She asked for clarification of other conditions suggested by Council: (1) condition addressing tractor trailer traffic; (2) traffic calming on Monte Vista Road; and (3) NC DOT addressing the backing up of traffic on the exit ramp off of I-40.

Councilwoman Field said that we can only request NC DOT to address the backing up of traffic on the exit ramp off of I-40 and not make it a condition of Home Depot's conditional use permit.

City Manager Westbrook felt that traffic calming is something that needs to take place after traffic patterns are well established and you go through a very well fine routine to determine what traffic calming is needed. Councilwoman Whitmire asked if the residents will have to go through the petition process after that traffic pattern is established. City Manager Westbrook responded that the process can be City initiated or community initiated but there does need to be a problem and it does need to come with help from the community to explain the problem as they experience it. Mr. Moule felt that the City's traffic calming policy does not necessarily address this type of road because it's residential on one side and commercial on the other side.

Councilman Hay did point out that Mr. Moule said that he would get with Mr. Putnam and review at least speed limits on Acton Circle in particular. Mr. Moule said that a condition could be that we would begin looking at the speeds now and then after Home Depot is built, evaluate the speed to see if there are some appropriate traffic calming measures that would fit.

In response to a concern of Councilwoman Whitmire, City Manager Westbrook said that the Asheville Police Department does patrol that area and he would be happy to provide documented information to Mr. Jordan.

Assistant City Attorney Meldrum stated that the condition Mr. Moule suggested about reducing the speed limit and future traffic calming measures should not be a condition of this project because changing the speed limit is a legislative decision that Council needs to take up separately.

The motion made by Councilwoman Field and seconded by Councilwoman Whitmire carried on a 5-1 vote, with Councilman Peterson voting "no".

Assistant City Attorney Meldrum said that the written order granting the conditional use permit will be voted on February 22, 2000.

At 9:25 p.m., Mayor Sitnick announced a short break.

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL USE PERMIT FOR NETTLEWOOD PROFESSIONAL PARK LOCATED OFF OF HENDERSONVILLE ROAD IN THE VICINITY OF WAL-MART

Assistant City Attorney Meldrum reviewed with Council the conditional use permit process by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. It has been Council's practice to have two separate votes, one today to either grant or denial of the request. At the next formal meeting, staff would prepare a written Order summarizing the finding and conclusions either granting or denying issuance of the permit and there would be a separate vote on that written Order.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 9:25 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Ms. Stacy Merten, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); City Exhibit 3 (Staff Report dated 1/11/00); City Exhibit 4 (Staff Report revised on 1/13/00); City Exhibit 5 (Staff Report dated 1/25/00); and City Exhibit 6 (Staff Report revised on 2/3/00).

She said that that this is the consideration of a conditional use permit as outlined in the Unified Development Ordinance (UDO) for the Nettlewood Professional Park located off of Hendersonville Road in the vicinity of Wal-Mart.

Nettlewood Associates, LLC, has submitted development plans for Level III site plan review. The project is a new 180,600 sq. ft. office development to be located on four parcels with a total of 28.09 acres. The property is split zoned with Highway Business and Institutional and is currently undeveloped. (City Exhibit 7) The developer has asked that the Master Plan be reviewed at this time to confirm the City's approval to proceed with the development. As each building site is specifically identified a more detailed plan will be submitted for staff review. The Tree Commission has urged the developer to protect as much of the mature tree population on site as possible in order to enhance the effectiveness of the buffer and to minimize soil erosion and storm water runoff. Access to the site is proposed to be from Deerlake Drive with additional access points at the Wal-Mart Shopping Center and the Hollywood Cinemas parking lot through easements through those areas. Most of the concerns raised by the residents have to do with access to the site.

City Council must take formal action as set forth in section 7-5-5(e) of the UDO, and must make the following findings based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case [UDO 7-16-2 (c)]:

1. That the proposed use or development of the land will not materially endanger the public health or safety.

   The proposed development is a new office park to be located on a total of 28.09 acres. Extensive grading of the site will not be necessary to accommodate the proposed development. All open space requirements as well as all requirements for storm water and erosion control must be met. If any wetlands are disturbed, permits will be required by the Army Corp of Engineers.

2. That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region.

   The proposed development will enhance the successful operation of the surrounding community in its basic function by providing needed office space and facilities for new business to locate or existing business to expand or relocate.

3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.

   Residential uses border the proposed development on two sides, the Deerwood condominium development to the north and the Carson Creek apartments to the south. Mixed commercial development borders the property to the west. The plans show a buffer that will need to be enhanced in order to meet the landscaping requirements of the UDO. In the area where a fence is proposed to reduce the buffer width, more space should be allowed on the outside of the fence. This will mitigate any possible negative impacts of the new development on the surrounding properties.

4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.

   The site is split zoned, with three parcels zoned Highway Business and one zoned Institutional. This project conforms to the existing zoning. Most of the proposed development on the site will be concentrated behind the existing commercial uses that will minimize any impact on the neighboring residential uses.

5. That the proposed use or development of the land will generally conform to the Comprehensive Plan and other official plans adopted by the City.

   The proposed development is in conformance with the Asheville City Plan 2010 which indicates commercial development for this area.

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.

   The proposed development is located in an existing developed area. The project received technical approval from the Water Resources Department, the Fire Department, MSD, Engineering and Public Works.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

   The UDO requires that a Traffic Impact Analysis (TIA) be prepared for this development. A TIA, which assesses the impact of this development, was submitted for this site and the City's Traffic engineer has reviewed the TIA and concurs with the findings.

The Technical Review Committee (TRC) reviewed the plans at their meeting on December 20, 1999, and took action to approve with the conditions outlined below.

- Parking exceeds maximum. This must be reduced or pervious paving and additional landscaping must be provided. Parking calculations must be provided.
- Square footage notes must match sq. footage of buildings shown.
- Zoning boundaries must be shown on the site plan as the property is split zoned.
- Indicate neighboring uses on site plan.
- Show required setbacks on site plan.
- No activity can occur in the bufferyard. Part of a parking lot and road are located within the required bufferyard on north side of property. If this is necessary due to physical constraints, then a request for alternative compliance may be submitted.
- A 30 ft., type 'D' buffer is required which can be reduced to 15 feet with the construction of a fence. The buffer size shown on the plans is adequate, however the notes are incorrect.
- Street trees and sidewalks are required along all public streets and must be shown on the site plans.
- A railroad encroachment agreement is required from Norfolk Southern Railroad.
- Open space calculations must be provided and areas indicated on the site plan.
- Any access to the development through residentially zoned property must be via a public street. Sufficient right of way of 50 ft. must be obtained along Deerlake Dr before the City will accept as a public street. If the site is redesigned the Traffic Impact Analysis must reflect these changes.
- Additional information is needed for the proposed street, including a profile, cross sections, typical section prior to approving the project.
- Curb & gutter, 5' planting strip and 5' sidewalk required along the proposed street.
- NCDOT encroachment agreement required prior to cutting Hendersonville Highway.

- Street lighting and signage is required prior to the City accepting the street for maintenance. Designs of these features must be approved by the City's Traffic Engineer prior to installation.
- Plans need to clarify how Peach Tree Road and/or the Wal-Mart property connects to the project. If Peach Tree Road is used as an access point, road improvements may be necessary prior to full build out of the project.
- A driveway permit from the NCDOT and the City of Asheville must be obtained for any new or modified connections to Hendersonville Road. A driveway permit from the City of Asheville must be obtained for any connections to Peach Tree Road.
- The Traffic Impact Analysis must be reviewed and approved by the City of Asheville and the NCDOT prior to approval of this development. Any new traffic signals proposed for this project must have warrant analyses completed and approved by the NCDOT. If a signal is proposed at or near the existing intersection of Deerlake Drive and Hendersonville Road, Valley Springs Road must be reconstructed to connect into this signal.
- Please submit a copy of the plat entitled "Property of Charles W. McCrary and wife, Ruth Fern McCrary" dated August 19, 1971.
- Please submit a survey plat for the right-of-way deed recorded in Deed Book 1765, Page 070 and the deed referred to in that document recorded in Deed Book 1737, Page 335.
- Please submit a copy of the plat recorded in plat Book 53 at Page 128 (the Grantor's Parcel) referred to in the easement agreement recorded in Book 2012, Page 348.

Most of the conditions identified by TRC have been met with a few minor exceptions. Staff recommends that the outstanding conditions as recommended by TRC in addition to the others identified below be attached to the approval of the conditional use permit:

1. The typographical error on the plans which indicate a type B buffer where a type D is required should be corrected.
2. A driveway permit from the NCDOT and the City of Asheville must be obtained for any new or modified connections to Hendersonville Road. A driveway permit from the City of Asheville must be obtained for any connections to Peach Tree Road.
3. Street lighting and signage is required prior to the City accepting any streets for maintenance. Designs of these features must be approved by the City's Traffic Engineer prior to installation.
4. TRC also recommended that the following items be addressed when detailed plans are submitted for building construction and occupancy:
    - A location for bicycle parking must be shown on the site plans.
    - Handicapped parking spaces must be shown on the site plans.
    - Dimension lot aisle widths and parking spaces, including handicapped spaces.
    - Detailed drawings of the proposed fence for bufferyard reduction must be provided.
    - Plant materials and landscaping details must be provided.
    - Location of streetlights needs to be shown on the plans.
    - If dumpsters are to be used, locations and screening should be shown.
    - Details for sidewalks, ADA ramps, and drive entrances should be included in the plans.
    - Submitted are missing almost all the items required for storm water management and erosion control approval. Appendix J under section 10 in the Asheville Standard Specifications and Details Manual, as well as Appendix 7-A in the UDO, contain itemized checklists exclusively for storm water management and soil erosion/sedimentation control for design professionals to reflect on in the preparation of their submittals. Verify compliance with sub-section 7-12-2 f.4. applicability of sub-section 7-12-2 e.2. in regards to slope stability as well as sub-section 7-12-2 q.3. in terms of plan submittal sequence-all of which are contained in the UDO.

5. A buffer is required to protect the residential uses on Peachtree Road and should be shown on the Master Plan.
6. Where a fence is to be constructed to allow a buffer reduction, the fence should be set back 10 feet from the property line. This will give the buffer plantings more room to grow and enhance the effectiveness of the buffer.
7. There are wetlands on the site. If any disturbance is necessary in these areas then a permit will be required from the Army Corp of Engineers.
8. Staff level approval will allow minor revisions to roadways, buildings and parking lot locations.
9. The Planning Director has made the interpretation that access to the site via Deerlake Drive at the northern end of the property should be permitted only upon the occurrence of one of the following options:

   (1) Nettlewood Associates, LLC, uses only that thirty foot strip of property which fronts on Hendersonville Road, which is a portion of the property known as the "McCrary Property" and which is owned by Nettlewood in fee simple, for access as a private driveway to the McCrary Property and the other properties which constitute Nettlewood Business Park, provided access is maintained for property owners in the Deerwood Condominiums development over a single driveway entrance off of Hendersonville Road; or

   (2) Nettlewood Associates, LLC, uses that thirty foot strip of property, which fronts on Hendersonville Road, which is a portion of the property known as the "McCrary Property" and which Nettlewood owns in fee simple, and the right-of-way granted to McCrary in that right-of-way agreement recorded in Deed Book 1275 at Page 171 in the Office of the Register of Deeds for Buncombe County for a private driveway from Hendersonville Road to only that portion of Nettlewood Business Park which is included within the McCrary Property, provided that the site plan is revised to show and the recorded plat of Nettlewood Business Park shows clearly that legal access is so limited and that access is maintained for property owners in he Deerwood Condominiums development over a single driveway entrance off of Hendersonville Road; or

   (3) Nettlewood Associates, LLC, enters into agreement with Deerwood Homeowners Association, to use the right-of-way granted to McCrary and the thirty foot strip on the McCrary Property as either a private driveway or as a dedicated public street to serve both Nettlewood Business Park and the Deerwood Condominiums development.

   Further, that if any of the access options used creates a change of circumstances from those contemplated by the Traffic Impact Analysis, a revised Traffic Impact Analysis be prepared and the developer comply with any and all requirements of a revised Traffic Impact Analysis.

Planning & Development Director Scott Shuford said that this item has been continued in order to address basically the access issue of Condition No. 9. The question is how do you handle the legal issues associated with access that pertain to both the Deerwood development and the proposed Nettlewood development. Staff has had numerous meetings with the developer and the Deerwood community to try to determine how the access issue could be resolved. Using a hand-drawn map (City Exhibit 8), Mr. Shuford explained the access concerns. Mr. Shuford then summarized the options for Condition No. 9 as follows (City Exhibit 9): (1) Relocate the Deerlake access road to the Nettlewood property, allowing access to entire Nettlewood site so long as Deerwood is also allowed access; or (2) Keep the road as is and access only the "McCrary portion" of the Nettlewood property from Deerlake; or (3) Both parties agree to work out an access arrangement.

Councilman Hay asked if it would not take an agreement from Deerwood to relocate the Deerwood access road. Assistant City Attorney Meldrum said that is the reason the option is stated as Nettlewood uses only that 30-foot strip on their property and provided that they maintain access to Deerwood. It doesn't tell them how to do it, or how to reach the agreement, but it only says it's one option of being able to achieve access.

At the request of Councilman Hay, Assistant City Attorney Meldrum explained the difference between Option No. 1 and Option No. 3.

Upon inquiry of Councilwoman Whitmire, Assistant City Attorney Meldrum said that the McCrarys initially owned more than this four acre tract. They owned the front part of the Deerwood tract and then an additional tract in the back part which is also part of Deerwood now. The McCrarys sold off to a predecessor in interest of Deerwood the front part of Deerwood that fronts on Hendersonville Road and then later the back part was sold. At the time the front part was sold, a right-of-way agreement was entered into to provide access across a 40-foot wide strip to the McCrary property. That is one of the options to getting on the Nettlewood property, but that was only to serve the McCrary property (the Nettlewood property consists of other properties that wrap back around behind Wal-Mart, the Cinemas and back down to Hendersonville Road). That's why one option is to use that 40-foot right-of-way only for the McCrary portion. And then one option is using only the 30-foot strip to serve the McCrary tract and the rest of the properties. The third option is if the two parties can reach an agreement to use all of that 40-foot strip either as a private driveway or dedicate it as a public street.

Mr. Jerry Grant, partner of Nettlewood Associates, said that Nettlewood Associates is trying to develop an office park where residential, office, retail, entertainment, and restaurants can all be accessed in a walking community. Nettlewood is the last key to a pod in this area. The office park will have sidewalks that will allow people to walk to whatever services they might need that are available in the park. He said the taxes now are less than $14,000 a year on this 28-acre property. When this project is complete, the difference in what the taxes would be is that you can hire five new teachers for a year every year. He said they have met with Deerwood formally on five occasions and they will continue to make efforts to work with them. He noted this is not their only access and he would not want to see this project judged on whether or not there is a legal definition that all the attorneys can agree on.

Mr. Thomas Pugh, resident of 142 Deerlake Drive and former president of the Board of Directors of Deerwood, said that he is currently serving on an ad hoc committee to study the impact of this proposal on Deerwood. They are not protesting an office park in their backyard. However, they are concerned about the impact of the inordinate amount of traffic proposed for their private entryway. Their current road was constructed by Deerwood to fulfill a deed contract with the McCrary family to prevent the McCrary property from becoming land-locked. The contract was executed in 1981 and is still in force to 3-4 acres of McCrary property. The current Nettlewood design would attempt to extend the contract to an additional 25 acres of office park traffic. It is true that for some reason, that the actual road is located slightly off the mutual right-of-way and part of it is on Deerwood's private property but the McCrary's have never been denied use of the roadway - which was the intent of the road. He then gave some statistics about the Deerwood community and noted that they have been a big contributor to the beauty of the City and on their own initiative they have provided their residents with a lot of services that the City would normally be expected to provide. If their entranceway is commercialized by becoming part of the Nettlewood Office Park, the quality of life and the property values of Deerwood will be severely diminished. It has been conservatively estimated that this loss in property values could be a minimum $1.7 Million. At a meeting with some Board members, Mr. Grant said that the traffic impact study indicated the amount of traffic out of Nettlewood would only have a slight impact. He challenged that study and wondered how long it will take to get out of Deerwood with 10-12 cars from Nettlewood blocking their entry onto the highway. As far as the possibility of a traffic signal, the current assessment of the City's Traffic Engineer is that projected traffic from Deerwood and Nettlewood alone would not warrant a traffic signal. They are protesting the attempt to tie their private contract roadway into a commercial endeavor. They are not blocking the entry into the professional park because Deerlake Drive is not the only entry into the proposed park. There are at least four other entryways and they believe the plans should be re-submitted to utilize one or more of those other entryways as their main entrance into the professional park. They feel that there are too many other conditions which should be resolved before approval of the conditional use permit by City Council. Another concern is they feel there should be a unified stormwater runoff system, however, they really want to focus on the entryway concern.

Mr. Robert Dungan, attorney representing Deerwood, addressed Condition No. 9. He explained their positions on all three options. Their position is that Option No. 1 ultimately would be found to be illegal and that the Council should not consider it. He felt that the law is clear and that the scope of an expressed easement is controlled by the terms of the conveyance, if the conveyance is precise. This conveyance is precise. (Applicant Exhibit 1 - Easement recorded in Deed Book 1274 at page 171) The easement states that the McCrarys and the predecessor in interest or developer of Deerwood agreed that this entryway would be a private roadway for ingress, egress, and regress to those properties hereinabove described - thus being only the three tracts and not including the 24 acres that are in addition to the four acre tract. Private must be construed here as not open or accessible to the general public. (Attachment to City Exhibit 5 - Master Development Plan - Grading, Stormwater Drainage and Landscape Plan) He pointed out that there are other entrances, but to traverse that tract, he believe would violate the easement. In addition, since the road is private, he felt the stop sign which will be necessary at the "Y" will face the people on Deerlake so they will have to wait for the traffic from the office park.

Mr. Dungan addressed Councilman's Hay question about the difference of Option No. 3. He said the declaration of covenants, conditions and restrictions of Deerwood as initially recorded in 1982 (Applicant Exhibit 2) and as restated and amended in 1993 (Applicant Exhibit 3) require that if there is any dedication of common area, which is what the City street would require, then it must be approved by 2/3 of the owners at Deerwood. He said the same attorney that drafted the easement, drafted the original covenants. He also pointed out that Nettlewood does not own the McCrary tract at this time - they have contract to purchase it. (Applicant Exhibit 4 - Survey prepared for Nettlewood which shows the current easement and entryway) (Applicant Exhibit 5 - Copy of Plat for Deerwood in Plat Book 48 at page 133)

The following residents spoke in opposition of the proposed access at the north entrance for several reasons, some being, but are not limited to: Deerwood is already a walkable neighborhood; speeding on Hendersonville Road; more traffic turning into the proposed office park will create a safety hazard; two or three other entrances can be used for this project and the Deerwood residents do not want their entranceway destroyed; Deerwood residents take a lot of pride in their community and they don't want any more foot or car traffic; Deerwood has rights with respect to the entranceway; Nettlewood's primary objective is to make a profit; Nettlewood wants Deerwood to join with them in asking the City to take over the maintenance into Deerwood and into the McCrary property and accept it and the remainder of Nettlewood streets as City streets - you cannot use public funds for private purpose (and it may be a matter of just compensation for the taking away of that right) and it would impair the obligation of contract that Deerwood has with the McCrarys and its assigns; can the 30 feet become a City street and where will the other 20 feet come from if it is proposed to be a 50-foot street; if Nettlewood does not own the McCrary property, why this is before City Council; and another option has been proposed:

A resident of Deerwood
Mr. Harry Martin
Mr. Russell Burns, resident of Deerwood
Ms. Patricia Pugh

Mr. Peter Best, attorney representing Nettlewood, briefly described the history of this property. He pointed out that when Deerwood was being developed and his client went to the McCrarys, the McCrarys owned that piece of property in fee. What happened was that Valley Springs Property, in developing Deerwood, discovered that with the location of the 30-foot strip owned by McCrary and the lake did not have enough room to put in the road they wanted to put in. They entered into this agreement with the McCrarys whereby several things were agreed. The McCrarys continued to own their 30 feet, but their access was expanded by 10 feet so that they have the 30 feet of land they own, plus a 10-foot wide right-of-way across the Deerwood property for as much distance as it takes to get into the remainder of their property. There were some other parts of that, one of which was that Deerwood did agree in perpetuity to maintain that right-of-way. Deerwood was given a right of first refusal to buy the McCrary property and they have turned down that right. The McCrarys were simply expanding what they already had - they owned 30 feet of land which fronted on Hendersonville Road and extended to the property in the rear. If you take Option No. 1 (which is really the only one that needs to be discussed), they are simply saying that Nettlewood (when it is the owner of the McCrary property) will have a right to go over its property and access any other property that it wants to. There can be no overburdening argument and no argument that you are overwhelming the use of the easement that has been contemplated by that agreement when Nettlewood is staying on its own property. Option No. 1 is the simplest because it says to let Nettlewood stay on the 30 feet of land that is included in the McCrary property and let Nettlewood relocate the roadway. One of the things the agreement says is that the road would be built within the 40 foot area that was described and it was not. So historically they say they have the right to relocate the roadway onto their property, still maintaining access for Deerwood. If that cannot be worked out, Nettlewood can live with a 30 foot private roadway to access the McCrary property and the other property that Nettlewood owns. All of the discussion of the public road is unnecessary because that depends on an agreement with Deerwood.

When Councilman Worley asked how cut-through traffic would be prevented, Mr. Best said a lot of what would have to do with the design of the office park and the way the traffic pattern is designed.

When Councilman Hay asked about Option No. 1, Mr. Best said that since they can only have one road and part of that road is on the McCrary property, they would simply have to relocate the roadway to the south to put it completely on the McCrary property and Deerwood would be provided continuous access through that whole process.

Upon inquiry of Councilwoman Field, Mr. Best said that this north entrance is the only egress and ingress into Deerwood's property.

Discussion occurred regarding the possible relocation of the roadway.

Councilwoman Field felt that this whole access issue is not a zoning issue - more of a legal question - and she didn't see how this is an issue City Council can resolve since Council can't direct someone to do something on private property.

Assistant City Attorney Meldrum said that is why the option is worded the way this it is. It says that they would use the 30 foot strip - it's not saying that the road should be relocated and it's not declaring either party's rights with regard to the 1981 right-of-way agreement. The parties still may have to go to court to resolve their issues, but one of the options is to be able to use their own property for access. Now if there are other issues that are unrelated to this matter about the use of that property, then they have to solve that outside of this hearing.

Mr. Best explained that Nettlewood is requesting a conditional use permit granted which would recognize Nettlewood's right to access it's property over it's 30 foot strip. If they have issues that are contractual in nature with Deerwood, then that is certainly their problem and they are not asking the City to solve that problem. But they are simply saying that there is no reason to limit the access into their property and the right to add other properties to it so long as Nettlewood uses only Nettlewood property.

Upon inquiry of Councilwoman Whitmire, Mr. Shuford said that the access issue would still be there, regardless of whether they were developing the property with residential, retail or office.

It was Vice-Mayor Cloninger's understand that the Planning staff is not saying that whether we approve a conditional use permit for use of this property for an office complex should be contingent upon access being provided through this particular area. Even if Council decides not to allow access through the north entrance, Council can still approve the project given there are other access areas. He understood that if Council decides to grant access through the north entrance, they should do it by way of the three options.

Mr. Shuford said that staff thinks access through the north entrance is very important because the property is second tier property. Staff's point is that there appear to be at least three different options for access to occur at this point and because it deals with a contractual issue between two different parties and they can't come to an agreement, then staff is at the point saying let's leave these three options open to the Nettlewood development and see how it turns out as it goes through the further process. He'd like to see a public street built by the Nettlewood development to public street standards that would allow access to Deerwood as well loop the entire road through the project and maximize the potential for there to be a light at this location, but that doesn't seem to be an agreement that can be reached.

Vice-Mayor Cloninger asked what would happen if Council passed the conditional use permit including the three options and then it turned out that none of the three options panned out. He asked what would staff's position be then - should the project still go forward or should that be the determining factor that prevents that project from being built. Mr. Shuford said if that northern access is not provided, since it is a key one from the standpoint of emergency vehicle access and general automotive access and their TIA is based upon having that access, then staff would come back to Council and ask the developer to provide a revised site plan that would address the concerns of not being able to access that spot.

Councilman Hay understands that the permit could be granted without any northern access at all - that having the northern access is not a condition. But Mr. Shuford feels like northern access is a condition of approval. Mr. Shuford responded that they think that's an important access for this property and obviously the developer does as well. Councilman Hay then wondered if the language should read that one of the conditions be that there be northern access.

Vice-Mayor Cloninger felt if there was a way to approve the conditional use permit so that the developer could go forward regardless of where he ultimately was able to gain access at the north entrance, that would facilitate things, rather than if the parties have to wait for a lawsuit that may take 2-3 years. He wondered if Council could approve the conditional use permit in such a way that even if they don't get access at the north entrance they can go forward with the project. Mr. Shuford responded that if Council were to do that, then in effect Council would be approving the Master Development Plan that would allow a certain intensity of office development to occur at this site with some proposed accesses. But, if access at the north entrance cannot be achieved, then there would be substantial internal changes to the circulation pattern that would be handled by staff to work out. The revised site plan would then have to come back to City Council for review.

Mr. Steve Barden, attorney representing Nettlewood, stated that no one disputes the fact that Nettlewood, pursuant to their contract with McCrary, will own a fee simple title to the 30-foot strip of property that will give them full legal access to the entire project. The only question presented was the overburdening of the 10 feet just to the north of that, that if they were to expand, the question is can they use that 10 feet to access the rest of the property behind the McCrary property. It's Nettlewood's position that they don't care to use that additional 10 feet, therefore, there is really no legal question, because they have that 30 foot access to all of their property.

Vice-Mayor Cloninger asked if Nettlewood has the absolute right to use that 30 foot strip as an access point to Hendersonville Road regardless of what Council does, or does Council have the authority to prevent access to Hendersonville Road through that 30-foot strip. Assistant City Attorney Meldrum said that she couldn't say they have an absolute right to use that because that is not for City Council to decide here. As far as a zoning matter and whether or not they can access their property via the frontage that they have, yes they would. The other limitation that Council could make is to limit the accesses to properties.

Mayor Sitnick felt that this should never should have come to City Council until the access issue was resolved. She felt we are trying to determine a legal question that should have been determined initially. We are being asked to approve a conditional use project and clearly Council is stymied in doing that because this issue hasn't been resolved.

Councilman Peterson felt City Council cannot apply the seven standards when the access issue is so undecided.

Assistant City Attorney Meldrum explained what the problems would be with this site plan if the northern access through some option is not approved. The technical standards of the Fire Department require a turn-around for fire trucks and the site plan would have to be revised to have some turn-around before you get out to what would be the northern entrance near Deerwood. The other thing is the TIA would have to be revised to show that the northern access is not being used. Generally for major revisions, she recommends the revised site plan come back through the process. However, if Council wanted to authorize staff review, then she felt Council do that. Through the conditions, Council can require that if no northern access can be achieved, then the site plan and the TIA be revised to take out that access and that all other required standards be met and if the revised TIA requires any other measures that they be complied with as well.

Mayor Sitnick closed the public hearing at 11:31 p.m.

Vice-Mayor Cloninger wanted to get back to the point of whether it is feasible to go ahead and approve the project with the conditions recommended by staff in such a way that the project could go forward if it turns out there are only two access points rather than three - and not decide anything on the north entrance because it sounds like it needs to be determined by the courts or the parties have to agree. He'd hate to see the project held up completely just on that one issue.

Councilmen Hay and Worley agreed with Vice-Mayor Cloninger.

Councilman Peterson felt that one project was evaluated (the proposal with the northern access) and now Council is being asked to approve another project. Mr. Shuford said that this project was analyzed with this access arrangement before Council now. However, he doesn't think that it's infeasible for other access arrangements to be considered because it's just a matter of moving where some of the traffic goes. It's entirely feasible that a new TIA would be favorable to the development of this property because the first one didn't show any major traffic impacts. Staff had suggested earlier the possibility of allowing the project to go forward and if the northern access proves infeasible, then Council would authorize staff by Council's approval to go ahead and take it through the technical process to see if the other accesses would work. In the event they do not, then perhaps City staff will come back to Council with something radically different, of course that would be at the developer's option. He felt Council could approve this with the details to be worked out with staff since the main features of the site is not in dispute. He said that there are technically feasible ways the project can work without the Deerlake access.

Mayor Sitnick said that there are internal traffic controls that may be applied. She felt that maybe a majority of the traffic using the businesses in the office park could be directed out a different way to eliminate a major percentage of traffic on Deerlake Drive.

Vice-Mayor Cloninger hoped to see the project approved with or without that northern access. Mr. Shuford suggested leaving the three potential access options in Condition No. 9 and add a fourth option. That option would indicate that if none of the other three options can be accommodated, then the item would be referred back to the Technical Review Committee with a requirement that a TIA be performed for the revisions. If it turns out pretty much the same way, then that would be the alternative that could be pursued. That way it doesn't hold up the project but still leaves open the other three options.

Assistant City Attorney Meldrum said that part of the problem is the way the plan is drawn. It shows it using the 40 feet and so the City wants to make it clear that Council is not approving a plan that allows using all of that 40 feet to access the whole property.

Councilman Peterson felt that what is submitted with all the conditions is impossible to apply the seven standards City Council legally has to find that the project meets.

Councilman Hay liked the proposal that approves the project with the additional provision that in the event northern access doesn't work that staff is to review revised plans and if they meet all standards, that it can go forward with approval. If Mr. Shuford runs into a problem that he feels is beyond his scope of authority, he can bring it back to City Council.

Vice-Mayor Cloninger said that it could take 2-3 years in order for it to be determined whether northern access is feasible. He would like to see staff work with the developer to develop a plan that they can approve with or without northern access. If it's ultimately determined in the courts that the developer is entitled to northern access, he can put it in because it's already been approved. If it's determined that he doesn't have it, in the meantime he can go ahead with the project.

Assistant City Attorney Meldrum clarified Vice-Mayor Cloninger's proposal - the project would be approved with the other accesses and not the northern access, but if they are able to secure it, then that would also be approved.

Because Mayor Sitnick wanted to ask Mr. Grant a question, Vice-Mayor Cloninger moved to re-open the public hearing at 11:44 p.m. This motion was seconded by Councilwoman Whitmire and carried on a 6-1 vote with Councilwoman Whitmire voting "no."

Upon inquiry of Mayor Sitnick, Mr. Grant said that without northern access, the proposed office park becomes economically unfeasible and they would have to sell the property for whatever use they could.

Mayor Sitnick closed the public hearing at 11:46 p.m.

Upon inquiry of Councilwoman Whitmire, Assistant City Attorney said that the other conditions would stay in place. Two options have been discussed. One is to include the eight conditions set out in the staff report with the ninth condition with the three options that have been discussed and a further provision that if northern access can't be achieved that the project be approved with the other accesses shown on the site plan, provided that the site plan and TIA be revised and the City staff, through the Technical Review Committee, ensure compliance with other Code provisions. The other option is that the project be approved without the northern entrance and if the northern entrance could be achieved through some means then the project be approved with the addition of that northern entrance. She said that if the site plan has to be revised through either one of these processes, all eight conditions would stay in effect because the only condition that would be impacted by the change would be the ninth condition.

Assistant City Attorney Meldrum felt that either option could work with our processes. If Council's approval includes the northern entrance, then she recommended that it be subject to certain options because the options haven't been worked out yet for that northern entrance. The three options in Condition No. 9 are what the City Attorney's Office and the Planning & Development Department staff have been able to come up with for the northern entrance. If Council takes out the northern entrance, then Council wouldn't have any of the three options. She suggested that if the developer wants to maintain the northern entrance possibility as part of the approval, then to include some options which the developer would chose from and it would be subject to whatever rights there are outside of our process being determined. The Council needs to stay focused on the site plan showing a northern entrance and how can that be allowed with the other questions. Staff has tried to say that there are some options where it could be allowed just relating to land use questions and not relating to the separate legal issues outside of it. We are not telling the developer which one of these options to choose and we are not deciding the rights of the two parties with regard to the right-of-way agreement from 1981.

Vice-Mayor Cloninger moved to approve the conditional use permit along with Condition No. 9 and it's three options and the fourth option suggested by Mr. Shuford. This motion was seconded by Councilman Worley.

Again Councilman Peterson felt that what is submitted with all the conditions is impossible to apply the seven standards City Council legally has to find that the project meets.

The motion made by Vice-Mayor Cloninger and seconded by Councilman Worley passed on a 5-2 vote, with Councilman Peterson and Councilwoman Whitmire voting "no".

Mayor Sitnick announced at short break at 12:07 a.m.

D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD DELETE THE DEFINITION OF CHURCH, ADD THE DEFINITIONS FOR A PLACE OF WORSHIP AND SANCTUARY, AND CREATE STANDARDS FOR PLACES OF WORSHIP

ORDINANCE NO. 2662 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD DELETE THE DEFINITION OF CHURCH, ADD THE DEFINITIONS FOR A PLACE OF WORSHIP AND SANCTUARY

ORDINANCE NO. 2663 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CREATE STANDARDS FOR PLACES OF WORSHIP

Mayor Sitnick opened the public hearing at 12:15 a.m.

Senior Planner Gerald Green said that this is the consideration of two amendments to the Unified Development Ordinance which would establish definitions for place of worship and sanctuary and establish standards for places of worship in residential districts. This public hearing was legally advertised on January 28 and February 4, 2000.

The Planning and Zoning Commission, at their January 5, 2000, meeting, reviewed and recommended approval of amendments to the Unified Development Ordinance which would establish definitions for place of worship and sanctuary and establish standards for places of worship located in residential districts. The definitions and standards are the result of several months of work by a committee composed of representatives of neighborhoods and the religious community, the Planning and Zoning Commission, and the Planning and Development staff. The definitions established by the proposed amendment would be applicable throughout the City's jurisdiction; the standards would apply to places of worship located in residential zoning districts only. As proposed, the definition of place of worship would make it clear that schools, day cares, recreational facilities, and other facilities could be developed in conjunction with a place of worship but would have to meet applicable development standards. The proposed standards for places of worship in residential districts establish three categories for places of worship based upon the number of seats in the sanctuary(ies):

- Small - Not more than 300 seats;
- Medium - 301 to 800 seats; and
- Large - More than 800 seats.

Locational requirements, with regard to the functional classification of the abutting street, are established for the three categories. In addition, standards are established which address:

- Lot size;
- Setbacks;
- Access points;
- Parking;
- Landscaping and buffering;
- Impervious surfaces
- Building height;
- Lighting;
- Space devoted to office use;
- Commercial activities;
- Grading; and
- Outdoor speaker systems.

The intent of the proposed standards is to permit the expansion and development of places of worship in residential districts while minimizing their impact on adjacent residential uses.

The Planning and Zoning Commission voted 7 to 0 to recommend approval of the wording amendments. The Planning and Development staff recommends approval of the amendments.

Councilman Peterson clarified that the grandfather clause was not considered by the church committee. Mr. Green said that was correct, that it was a Planning & Zoning Commission recommendation.

Councilman Peterson asked if there are other provisions in the UDO that give other uses similar sort of exceptions? Mr. Green said there is a general grandfather clause with regard to non-conforming uses and non-conforming structures, but none that he was aware of that would allow an existing building to expand beyond a limit otherwise established if they own the land or the property on which they wish to expand at a certain time.

Upon inquiry of Councilman Peterson, Assistant City Attorney Meldrum said that there is a definition of major and minor thoroughfares in the UDO. Mr. Green also said that staff is looking at revised definitions for major and minor thoroughfares and for residential collector streets.

Vice-Mayor Cloninger clarified that there is no limit of the size of new churches on minor thoroughfares.

In response to Vice-Mayor Cloninger, Mr. Green said that if the church wanted to do other things, like a school, they would have to meet the standards established elsewhere in the ordinance - regardless of whether it's a church or a private enterprise.

Ms. Betty Garofano, member of the Church Committee, said that they did not discuss the grandfather clause. She asked which churches fit into the category which fit the criteria of the grandfather clause. She also asked if the grandfather clause added to allow Trinity Baptist Church to build it's commercial development in the RM-6 low density residential neighborhood.

Mr. Green responded that he doesn't know how many churches fit into the category for the grandfather clause. Regarding Ms. Garofano's second question, Mr. Green said that Planning & Zoning Commissioner Koon (who made the recommendation for the grandfather clause) never mentioned Trinity Baptist Church.

Ms. Jessie Corpening, resident on Shelburne Road, urged Council to put a limit or a cap on the size of a church that can be built in residential areas. She used Trinity Baptist Church as an example of what kind of negative impact to the neighborhood can occur.

Ms. Ann Anderson, resident on Shelburne Road, said that large churches have to be located on major thoroughfares in other places and the City should postpone this issue until they have had sufficient time within which to research what other cities have done.

Mr. Green responded to Ms. Anderson in that a general survey of other cities in North Carolina was conducted and the information was given to the Planning & Zoning Commission prior to their recommendation.

Mr. Robert C. McCarthy, representing the Carrier Heights Neighborhood Association, talked about the Trinity Baptist Church project and how they proceeded without prior approval. He noted that the standards state that a large place of worship shall be located on property which abuts a major or minor thoroughfare. He felt it strange that the standards for a medium place of worship shall be located on property which abuts a major or minor thoroughfare or on a residential collector street provided that the property (if located on a residential collector street) is located within 1,000 feet of a major or minor thoroughfare if that part of the collector street passes through an area with only non-residential. He urged City Council to vote against the proposed ordinance.

Mr. Bill Sizemore felt that the proposed ordinances are fair for all churches.

Ms. Carol Collins, representing the Community Council for Biblical Values, said that the Planning & Zoning Commission did an outstanding and thorough job in their research and discussion on this topic. She felt the Commission had a sense of closure as seen by their unanimous vote on the standards. She urged Council to adopt the ordinances in their entirety. With regard to the grandfathering, Commissioner Koon did a study of 39 churches (out of 120 churches that were sent the questionnaire) which responded to a questionnaire. Of the 39 churches, Commissioner Koon said that based upon street location, other standard requirements based on that location, number of pew seats, and number of parking spaces, that nearly 89% of the responding churches were out of compliance with the UDO as the Planning & Zoning Commission was discussing it at the time (what is basically before City Council now). She said that if the grandfather clause is withdrawn from the ordinance, nearly 90% of the churches will be out of compliance with the UDO. It was her understanding that the grandfathering clause covers every church in the City.

Rev. Jerry Grant, Trinity Baptist Church, spoke in support of the two proposed ordinances and felt they were fair for both the churches and neighborhoods.

Discussion surrounded the grandfathering clause.

Mayor Sitnick closed the public hearing at 1:07 a.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinances and they would not be read.

Councilwoman Field moved to adopt Ordinance No. 2662. This motion was seconded by Councilman Peterson and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 115

Councilwoman Field moved to adopt Ordinance No. 2663. This motion was seconded by Councilman Hay.

Councilman Hay felt this is the end of a long process that has resulted in a collaborative effort.

Vice-Mayor Cloninger appreciated the hard work that has gone into this ordinance, however, he would vote against this ordinance. He is concerned about the grandfathering issue and also the fact that large churches are allowed on minor thoroughfares.

Councilman Peterson moved to amend Councilwoman Field's motion to delete "or minor" from 10 33 d. 3 so that it would read " Large places of worship shall be located on property which abut a major thoroughfare, as identified in the City of Asheville's Thoroughfare Plan." This motion was seconded by Vice-Mayor Cloninger and carried on a 4-3 vote, with Councilwomen Field and Whitmire and Councilman Hay voting "no".

Councilman Peterson moved to amend Councilwoman Field's motion to delete the grandfather clause from the ordinance. This motion was seconded by Vice-Mayor Cloninger and failed on a 2-5 vote with Mayor Sitnick, Councilwomen Field and Whitmire and Councilmen Hay and Worley voting "no".

The original motion, as amended by Councilman Peterson, carried on a 5-2 vote, with Vice-Mayor Cloninger and Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 - PAGE 117

E. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A PROCESS FOR THE PAYMENT OF A FEE IN LIEU OF CONSTRUCTION OR REHABILITATION OF SIDEWALKS

ORDINANCE NO. 2664 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A PROCESS FOR THE PAYMENT OF A FEE IN LIEU OF CONSTRUCTION OR REHABILITATION OF SIDEWALKS

RESOLUTION NO. 00-26 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL

Mayor Sitnick opened the public hearing at 1:30 a.m.

Ms. Cathy Ball, City Engineer, said City staff is requesting that the amendment to the Unified Development Ordinance (UDO) to revise requirements for construction of sidewalks and to establish requirements for the rehabilitation of sidewalks be removed from City Council's consideration at this time. She said that since the City Council worksession on January 18, 2000, staff has met with both the development community and affordable housing advocates and both of those groups are very interested in working with City staff to try to come up with a better resolution for the requirements for sidewalks. For that reason, they requested the City move forward only with the process for the payment of a fee in lieu of construction or rehabilitation of sidewalks. This public hearing was legally advertised on January 28 and February 5, 2000.

The only exception to the fee in lieu of process is the affordable housing advocates did ask that they be exempt from paying that fee in the event they were developing over 10 units or over 20 single-family units and for some reason City staff did not require a sidewalk to be installed at that time. Staff, however, felt that in keeping in line with what the City is doing with permit fees, is if the developer builds the units and they end up selling them or renting them as affordable housing, the City would reimburse them 50% of the cost.

Councilwoman Whitmire and Vice-Mayor Cloninger both felt the fee should be waived completely for affordable housing.

Councilwoman Field asked how long do the units have to stay affordable and when would the City refund the fee? Community Development Director Charlotte Caplan responded that for single-family housing there is a definition that is based on the sales price. For rental housing, City staff has accepted only rental housing where there are affordability restrictions on rents for other reasons and typically it is about 20-30 years when it has that sort of funding in it.

When Mayor Sitnick asked why the City just doesn't charge the fee instead of refunding the fee, Ms. Caplan said that in the case of single family homes, you don't know until they sell what they are going to sell for.

Upon inquiry of Mayor Sitnick, Ms. Ball said that if the affordable home needs a sidewalk, it will be put in at the time of the development. This doesn't do anything that would not require a sidewalk be installed. She felt that it will be unusual to find a situation where we would allow a fee in lieu of for that many units.

Councilman Worley said that he hasn't had time to think about the effect of this and would prefer City Council continue the public hearing.

Councilwoman Field had no problem with waiving the fee 100% but was concerned about how we guarantee that particular property, especially rental property, will stay affordable for a period of time.

Ms. Ball suggested if Council wants staff to look at the "guarantee that the property stays affordable" issue, in addition to the requirements for sidewalks, staff can revisit this item again and report back to Council when staff makes their presentation on the sidewalk requirements.

Assistant City Attorney Meldrum said that the City has a policy of not including fees or charges in the Code of Ordinances. Therefore, she recommended any language in the ordinance regarding fees be deleted. Then the Code provision can be adopted. The Fees and Charges Manual can be adopted at this time and then later amended with regard to whatever Council decides in the future about these fees.

Mayor Sitnick closed the public hearing at 1:40 a.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and resolution and they would not be read.

Councilman Hay moved to adopt Ordinance No. 2664 with the deletion of two paragraphs on page 3 regarding fees. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 129

Councilman Worley moved to adopt Resolution No. 00-26, which will set fees other than affordable housing. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 418

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

Due to the lateness of the hour, Councilman Worley moved to (1) reschedule the Resolution Adopting the Neighborhood Traffic Calming Policy and the Approval of the City Council Goals to the February 22, 2000, formal meeting; and (2) reschedule the Resolution appointing members to the Public Access Channel Commission to the February 15, 2000, worksession. This motion was seconded by Councilwoman Whitmire and carried unanimously.

VI. OTHER BUSINESS:

A. DISCLOSURE STATEMENT

Assistant City Attorney Meldrum read the following option from the Department of Housing and Urban Development into the minutes:

"Under North Carolina law, all Council members are precluded from voting on matters in which they have financial interest or that affects their own official conduct. They are also prohibited from contracting with the City. Under State law, all that is required is that a Council member not participate in certain votes where his or her interest may be questioned.

"Where an employee of an agency that receives funds from the U.S. Department of Housing and Urban Development becomes a member of a unit of local government that makes decisions regarding those funds, federal regulations require the additional step of reporting the situation to HUD, and requesting an opinion as to whether that employee's governmental service is consistent with the intent of the regulations. Such opinions are routinely requested and routinely given.

"Council member Terry Whitmire is an employee of Mountain Housing Opportunities. Although she is not directly involved in any HUD-funded activities, her election to Council has resulted in the application of this regulation. Our review -- including analysis of the regulation, conversations with HUD officials, Ms. Whitmire and other officials at MHO -- has indicated that Ms. Whitmire, because of the nature of her job, is not in a position to benefit directly from the receipt of HUD funds by MHO. Even so, as a Council member, State law would preclude her from voting on any matters that directly affected MHO.

"On the advice of HUD officials, we propose to write to HUD to request an opinion as to the application of the regulation to Ms. Whitmire and, depending on that opinion, request an exception or some other action by HUD that will permit Ms. Whitmire to serve on Council while working at MHO.

"This is brought to your attention now because public disclosure is one of the prerequisites of requesting the opinion from HUD. Unless Council has questions or an objection, the City Attorney's office will send out the appropriate correspondence this week."

B. CLAIMS

The following claims were received by the City of Asheville during the period of January 21-27, 2000: Jeanette Jones (Water), Wesley Gray (Streets), Gregg Darity (Streets), Thomas E. Merrill (Water), Terry Miller (Water), Jack Casey (Water) and Barbara Aanonsen (Civic Center).

The following claims were received during the period of January 28-February 3, 2000: Robert McElrath (Sanitation), Carol Winter (Water), John Long (Water), Enterprise (Streets), Clay Property Management (Inspections) and Tom Jones (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

511

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 1:45 a.m.

Magdalen Burleson
CITY CLERK

Loni Sitnick
MAYOR

City Council Annual Retreat

Friday - January 28, 2000 - 1:00 p.m. -
Saturday - January 29, 1999 - 12:40 a.m.
Highland Lake Inn, Flat Rock, N.C.

Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Friday, January 28, 2000

Fiscal Year 1999/00 Strategic Plan - City Council was updated on the Fiscal Year 1999-00 Strategic Plan goals and objectives.

Assessment of Street Conditions and Future Funding - City Council heard a review from staff involving street conditions and the recent rating of streets by ITRE. Mark Combs' recommendation was for increasing funding for increased maintenance and preventive maintenance in the sum of $800,000 per year. The Council discussed the issue in depth. Staff advised the only practical funding that would yield this much money for this type of infrastructure maintenance was a property tax rate increase of approximately $.02. Council agreed with and approved of the plan for increased maintenance and preventive maintenance, and deferred to a later time the issue of funding.

Assessment of Transit System Services and Funding - Council received a briefing on staff's recommended direction for future funding and operations of the transit system including alternative fuel, vehicles, smaller vehicles for custom routes and amenities such as park benches, signage and shelters. Also discussed was the need to establish a reserve fund for the future purchase of replacement buses. Potential sources of funding for the transit system plan were property taxes and a special $5.00 vehicle license fee assessment. The City of Asheville has been given authority by the General Assembly for Council to levy the $5.00 fee specifically for transit system improvements noted by Interim Transit Services Director Bruce Black in his presentation. The consensus of Council was that the improvements discussed by Bruce during the briefing were what was needed to have the kind of transit system that would be more responsive to the public's needs yet more efficient and effective through the use of alternate fuels and smaller vehicles, where appropriate. Council also favored levying the $5.00 vehicle license fee for the upgrades to the transit system as a funding source, although no approvals were sought or received by staff on the funding source.

Streamlining and Improving the Development Process - City Council was briefed on improvements made in the permitting portion of the development review process by Director of Building Safety Terry Summey and an outlook for additional improvements the City is working on at the current time. Planning & Development Director Scott Shuford presented some initial concepts for Council's review in working with the Unified Development Ordinance and the new urbanism concepts of urban planning. The Council was enthusiastically supportive of both reports and asked staff to pursue those directions.

Diversity in the Workplace - Human Resources Director Jeff Richardson briefed Council on our diversity efforts. The change in Civil Service Law really allowed the City to initiate a tremendous diversity program because we no longer had the Rule of Three to contend with. Although the increased emphasis on diversity just started in August 1999, changes are already seen, particularly in the number of minority applicants for City positions.

Traffic Signal Feasibility Study/DOT - City Engineer Cathy Ball briefed Council on the possibility of computerizing all the traffic signals within the City so that signalization City-wide would be coordinated. This would be a joint project with the N. C. Dept. of Transportation; the approximate cost would be $1 million. The City's financial responsibility would be for $200,000 based on 20% of the project cost. This program is not scheduled for the upcoming budget but would be scheduled for Fiscal Year 2001-2002. Council agreed with the direction staff was taking and gave initial approval to carry forward with the planning process to place this issue in the Fiscal Year 2001-2002 budget.

Fire Protection at Biltmore Square Area - Fire Chief John Rukavina updated City Council on the City's efforts to provide additional fire coverage to the area near the Biltmore Square Mall which is rapidly developing. Basically, the City needs to build an additional fire station, equip it with fire apparatus and personnel to provide fire service to that area. We need to start on this project prior to 2002 since Insurance Services Office will conduct its next evaluation during that year. After hearing the briefing, Council gave general direction to proceed with plans to build a station in that area understanding that this will be multi-year planning and budget commitment to do so. The Fire Chief estimated the total project cost to be $1.2 million for the fire station, $215,000 for the apparatus, and $485,000 annually for 14.5 full-time equivalent firefighters.

Legislative Issues - City Attorney Bob Oast reviewed the past year's legislative successes in the General Assembly and discussed the current issue we have before the General Assembly which is non-betterment costs of the N. C. Dept. of Transportation projects. (This is a Water Resources Department and Water Authority issue which the City is leading.) Since this is a short session, controversial issues are not normally brought to the General Assembly for action.

Saturday, January 20, 2000

Budget Outlook:

Fund Balance Position - Finance Director Bill Schaefer reported the City's fund balance has gradually declined over the past five years. The City's fund balance as a percentage of operating expenditures, however, remains sufficiently above the legal limit.

Current Budget - Budget Director Ben Durant reviewed the City's current budget with Council, and in particular the following two issues that impact the current budget and, therefore, future fund balances: (1) Change in sales tax distribution from the County - As City staff updated City Council, Buncombe County made an error in its calculation of sales tax distribution to the City which meant we received approximately $700,000 less than was projected; and (2) Reimbursements to MSD - As Assistant City Attorney Doug Spell briefed Council, the City owes MSD approximately $223,000 which represents the portion of the Enka-Candler Water and Sewer District annexed by the City in 1994. Our portion on an annual basis is approximately $37,000. Currently we owe MSD approximately $260,000 for years since 1994 and the current year. After being briefed on this particular issue, Council requested that staff work with MSD to see if we could receive an extended length of time to make this payment since MSD has not requested it prior to this time.

Budget Forecast - Budget Director Ben Durant said that based on anticipated revenue growth of 2.5 percent and expenditure growth of 3.02 percent, he presented his budget projections for next year showing that expenditures for maintaining existing services are currently outpacing revenue growth. As a part of those projections, we presented areas where we see unfunded needs, in addition to the street conditions and transit system needs which were already presented.

Unfunded Priorities:

Lake Craig Recreation/Beneficial Fill Facility - Council received a briefing on staff actions to date which were based on Council approvals. Council gave direction for staff to proceed with the current planning in order to purchase the land in the future based on the option which we currently have. Although funding is not available in the budget to develop the property fully, purchase of the property will give the City control and secure the valuable flat area for recreational and beneficial purposes in the future.

Battery Park Parking Deck - City Engineer Cathy Ball updated Council on the current status of the Battery Park parking deck issue including the most recent Council action involving approval for engineering and design services. Council also received from Finance Director Bill Schaefer a recommendation for funding the difference between parking deck revenues generated and the debt service needed for the Certificates of Participation by the annual increase in the sales tax.

Civic Center Improvements - Civic Center Director David Pisha briefed Council on Civic Center improvements that are needed. There have been many numbers used recently and staff wanted to present Council with the factual numbers as we know them at the current time. Council discussed the problems associated with the Civic Center and the need to receive the consultant's report, and for the Task Force to make recommendations to Council.

Due to weather conditions, it was the consensus of City Council to continue the City Council goal setting process and the recycling initiative to it's worksession on February 1, 2000.

Tuesday, February 1, 2000

Waste Management Coordinator Karen Rankin briefed Council on providing an upgraded service by including mixed paper in our recycling program. The impact of including mixed paper in our recycling program would be to increase the recycling tonnage by 27% based on a biweekly collection schedule. The cost for our current service is $1.59 per month. The cost for adding mixed paper is $2.06 per month, or a $.47 per month increase. The Council approved of the change in the recycling program and directed staff to bring the program back to Council on February 22, 2000, for approval and implementation as soon as possible. Staff's original recommendation was implementation on July 1, 2000.

Because of the absence of Councilwoman Whitmire, it was the consensus of City Council to move their goal setting process to Sunday, February 6, 2000.

Sunday, February 6, 2000

City Council tentatively agreed upon the following Fiscal Year 2000-01 Goals:

1) Aggressively implement the Sustainable Economic Development Strategic Plan.

2) Adopt policies and ordinances that promote "Smart" growth:

- Continue to review the UDO and make changes consistent with greater utilization of the property tax base and the concept of new urbanism.
- Continue to implement the Housing Action Plan.
- Expand recycling program in accordance with staff proposals.
- Review and adopt recommendations of the Waste Reduction Plan.
- Maintain and expand Asheville's quality of life.
- Work with MSD and Regional Water Authority to promote cooperative growth policies.
- Increase diversity on boards and commissions and City work-force.
- Communicate effectively with the Citizens of Asheville.

3) Improve all transportation systems through innovative and cost effective planning.

- Adopt and implement the Transit Improvement Program.
- Approve an additional five dollar motor vehicle tax dedicated to the transit system capital improvement program.
- Improve traffic flow by updating the traffic signalization system.
- Continue to install traffic calming devices in residential areas.

4) Provide new resources to increase street and sidewalk maintenance and repair so as to address the needs identified in the ITRE study.

5) Improve the quality of life for Asheville residents through identification of resources to fund parks and recreation capital needs.

6) Develop a multi-year operational and capital improvement program designed to provide adequate capital funding for the Civic Center as an interim approach pending a decision about the future direction of the Civic Center.

It was the consensus of City Council to review and approve the goals at their February 8, 2000, formal meeting.

Tuesday, February 8, 2000

Due to the length of the City Council meeting held on February 8, 2000, a motion was made and carried unanimously to review and approve the City Council's goals at their meeting on February 15, 2000.

Tuesday, February 22, 2000

Councilwoman Field reviewed with Council a re-worded set of goals as follows:

1) Create opportunities for Sustainable Economic Development

- Aggressively implement the Sustainable Economic Development Strategic Plan.
- Develop an interim multi-year operational and capital improvement program designed to provide adequate funding for the Civic Center pending decisions on the long-term future of the Civic Center.
- Continue Downtown initiatives that support the strong private sector revitalization effort.

2) Adopt policies and ordinances that promote “Smart Growth”

- Define “Smart Growth” for the City of Asheville.
- Maintain and expand Asheville's quality of life.
- Review the UDO and make changes consistent with the concept of “new urbanism” and greater utilization of the property tax base.
- Implement the Housing Action Plan.
- Expand the recycling program in accordance with staff proposals.
- Review and adopt recommendations of the Waste Reduction Plan.
- Work with MSD and the Regional Water Authority to promote cooperative growth policies.

3) Improve all transportation systems through innovative and cost effective planning.

- Adopt and implement the Transit Improvement Program.
- Approve an additional five-dollar motor vehicle tax dedicated to the transit system capital improvement program.
- Update the traffic signalization system to improve traffic flow.
- Install traffic calming devices in residential areas based on the Traffic Calming Policy.

4) Provide new resources to increase street and sidewalk maintenance and repair.

- Address the needs identified in the ITRE study.
- Implement the Pedestrian Thoroughfare Plan as funds become available.

5) Develop resources to fund parks and recreation needs that improve the quality of life for Asheville residents.

- Implement the Greenway Master Plan as funding becomes available.
- Construct phase I of Pritchard Park.
- Develop the Lake Craig property per the staff's recommendations.
- Build the Skateboard Park.

6) Work towards common sense governance.

- Communicate more effectively with the Citizens of Asheville.
- Work to find better and meaningful participation processes.
- Increase diversity in the City workforce and in City Council appointments.
- Resolve conflicts between new ordinances and existing local, state or federal regulations.
- Adopt new ordinances and resolutions only when there are resources to implement them.
- Examine and revise the "Conditions Use" process, implement the Planning Director's recommendations presented to us at the 2000 retreat.

Councilman Worley moved to adopt the revised goals as presented by Councilwoman Field. This motion was seconded by Councilwoman Field and carried unanimously.

Budget Director Ben Durant confirmed with Council that the adopted goals would provide direction to staff during the budget process. Council further indicated that staff would have the discretion to recommend alternative strategies to achieve those goals.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

6

Tuesday - February 15, 2000 - 3:00 p.m.

Worksession

Present: Vice-Mayor M. Charles Cloninger, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; Assistant City Attorney S. Patterson Brison Meldrum; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

CONSENT:

Budget Amendment for Facility Maintenance

Summary: The consideration of a budget amendment, in the amount of $250,000, to appropriate additional funds for necessary repairs to various City facilities.

The Parks and Recreation Department has been working for several months on identifying urgent needs to existing City-owned facilities. In the current budget, $250,000 was appropriated for maintenance repair to over 100 facilities currently under City ownership. Due to a number of emergency situations which included preparation for Y2K emergency shelter service, new HVAC system for Senior Opportunity Center, renovations to the Murphy-Oakley Resource Center, and replacement of the sewer line in City Hall, the current budget has been depleted. The costs associated with those emergency situations total approximately $160,000.

In addition, staff has identified that Fire Stations #2 and #5 are in desperate need of roof replacement. Both facilities cannot continue to be patched and a complete roof replacement is necessary in order to continue occupancy of these facilities. In addition, the boiler at Murphy-Oakley Resource Center needs to be replaced. The estimated costs for the above work represents approximately $106,200. Staff is requesting a budget amendment of $250,000 in order to implement and supplement the above mentioned improvements.

The Parks and Recreation Department is requesting City Council approval of the budget amendment in the amount of $250,000.

Festivals and Special Events for 2000

Summary: The consideration of a motion to approve the Parks and Recreation Department's 2000 festival and special events schedule.

In March of 1995, the Asheville City Council adopted a "Festivals Policy." A segment of that policy requires that City Council approve the list of festivals on an annual basis. Therefore the Parks and Recreation Department is recommending the approval of the following festivals and special events (Please note 3 new events applying for co-sponsorship this year include: Bike for the Bell, Come-Unity Asheville and Earth Day 2000 Festival): Special Olympics; Holiday Luncheon; Buncombe County Appreciation Day; Movies in the Park; Very Special Arts Festival; Youth 5K Run; Martin Luther King Peace Walk; Unity in Diversity; Earth Day 2000; Festival; Easter Eggstravaganza; Walk America; Come-Unity Asheville; Senior Games; Friends for Animals Anti-Cruelty Animal Walk; Bike for the Bell/Strive Not to Drive; Hershey's Track n' Field; Symphony on the Block; 3rd Annual "Biltmore Estate 15K Classic" Foot Race; Moonlight over Downtown; Sunday in the Park; RiverLink Triathlon; Honda Hoot Wall Street Policy; Honda Hoot Downtown After Five; Shindig on the Green; Downtown After Five; French Broad River

Wildlife Art & Craft Show; Burton Street Gospel Jubilee; Goombay Festival; 4th Annual "Brew Grass Festival"; La Fiesta Latina; Asheville Greek Festival; Walk Into History (Urban Trail); Westfest; Asheville Merchants Corporation Christmas Parade; Light Up Your Holidays; and 2000 Arby's Reindeer Romp.

The Parks and Recreation Department recommends approval of the above festivals and special events for 2000.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UDO AMENDMENT REVIEW

Assistant City Attorney Meldrum said that this Unified Development Ordinance amendment is being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on Tuesday, February 22, 2000. She advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Parks and Open Space District

Urban Planner Carl Ownbey said that this is the consideration of an ordinance amendment to the Unified Development Ordinance to establish a new zoning district entitled "Parks and Open Space."

After direction from City Council to establish a new parks and open space zoning district, the Planning and Development staff met several times with staff from the Parks and Recreation Department and the Public Works Department to compile guidelines and development standards for the new zoning district. In addition to City staff review, the draft of the ordinance was given to the Greenway Commission and RiverLink for their input.

During the Planning & Zoning Commission's public hearing, the Commissioners discussed at great length the need to add to the Parks and Open Space District a provision that only the property owner or their authorized agent be permitted to file a request to have their parcel of land rezoned.

The Commissioners raised issues concerning: the grandfathering of uses on the property, creating non-conforming uses, changing the economic benefit of the property, possible government "takings claim," and fairness to the property owner. The main concern seemed to be that any City Council could change the zoning on a parcel of land to this classification against the wishes of the property owner; thereby eliminating the economic benefit of the land to the landowner.

The Commissioners voted to recommend that this zoning district incorporate specific wording to permit only the property owner or their authorized agent to request the rezoning of a parcel of land to this particular zoning classification.

The Planning and Development staff presented this new zoning district to the Planning and Zoning Commission at their February 2, 2000, regular meeting. After presentation by staff and the lengthy discussion, the Commissioners voted 5 to 1 to recommend to City Council the adoption of this new zoning district with the additional wording regarding the initiation of an amendment.

8

However, the Planning staff feels strongly that the inclusion of this particular wording to this one zoning district limits the ability of the City Council to apply this zoning classification at its discretion. Staff recommends the adoption of the ordinance without the additional wording.

City Council discussed the issue regarding whether to permit only the property owner or their authorized agent to request the rezoning vs. City Council rezoning the property against the property owner's wishes.

Councilman Peterson requested that in the future City staff present City Council with what the Planning & Zoning Commission recommended and if staff disagrees with the Commission, a version of the proposed ordinance as recommended by staff.

Conditional Use District Zoning

Senior Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) which would establish a Conditional Use District.

The Planning and Zoning Commission, at their February 2, 2000, meeting, reviewed and recommended approval of an amendment to the UDO which would establish Section 7-9-9 to create a Conditional Use District. This district will provide a level of flexibility in the rezoning process which is not available with the existing zoning districts. The new district could be applied anywhere within the City and its jurisdiction. Unlike conventional rezoning, a rezoning to a Conditional Use District would permit review and approval of detailed site plans, building designs and elevations, and floor plans as well as identification of specific uses. Conditions could be attached to the rezoning to further mitigate impacts on surrounding properties. Upon application by the property owner or authorized representative, the Conditional Use District zoning request would be subject to a review process involving the following steps:

- Review and recommendation by the Technical Review Committee (with public notification);
- Review and recommendation by the Planning and Zoning Commission (public hearing); and
- Review and action by City Council (public hearing).

In acting upon the Conditional Use District zoning request, the City Council would be charged with changing the zoning of the site to a conditional use zoning and issuing a conditional use permit for the proposed development. The City Council may attach conditions to ensure that the proposed development does not adversely impact the surrounding properties. Any violation of the conditional use permit or other failure to comply with the conditions imposed would be treated as a violation of the City's Zoning Ordinance.

The Planning and Zoning Commission voted 6 to 0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Upon inquiry of Councilman Peterson, Mr. Green said that the protest petition standards would apply to this district.

Assistant City Attorney Meldrum responded to questions from Councilman Peterson relative to the questions of spot zoning.

Councilwoman Field wanted to make sure that this district would be available to all segments of the population.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on February 22, 2000.

RESOLUTIONS OF INTENT TO ANNEX

Planning & Development Director Scott Shuford said that this is the consideration of adoption of resolutions of intent so as to begin the process to annex six areas which are first priority areas.

In 1998 the City entered into an agreement with Benchmark, Inc., to develop a Five Year Annexation Plan. The first phase of this project consisted of the consultant identifying first priority areas and Council authorized staff to proceed with formulating plans to annex those areas. Six areas have been identified as qualifying for annexation under Part 3, Article 4A, Chapter 160-A of the North Carolina General Statutes. Adoption of the resolutions of intent sets forth a process that will result in the annexation of the six areas effective June 30, 2001. Steps in the process are proposed according to the following schedule:

Adoption of the Resolutions of Intent	February 22, 2000
Approval of Plans of Services	March 15, 2000
Public Information Meeting	May 2, 2000
Public Hearing(s)	May 23, 2000
Adoption of Annexation Ordinances	June 13, 2000
Effective date of Annexations	June 30, 2001

Staff recommends that the resolutions of intent be adopted by City Council to set in motion the process of consideration of annexation of the six areas.

Mr. Richard Flowe, President of Benchmark Inc., reviewed with City Council the proposed six areas for annexation stating that they are to clean up some inequity issues, service boundary issues and economic based diversity issues. He reviewed the procedural and technical phases with regard to these annexations. After briefly reviewing some annexation area data for each of the six areas, he proceeded to review the areas as follows: Area 01-A is generally located east of Chunns Cove Road and including properties abutting Piney Mountain Road and I-240; Area 01-B is generally located north of US 70 east of Riceville Road and west of Lower Grassy Branch Road, including properties on both sides of Arnold Road and Park Vista Drive; Area 01-C is generally located east of I-26 surround Lake Julian including properties located both north and south of Long Shoals Road, west of Hendersonville Road and north of Glen Bridge Road; Area 01-D generally consists of the Ridgefield Business Center and surrounding properties east and west of Brevard Road; Area 01-E generally consists of properties located on the east side of New Leicester Highway south of Westwood Drive; and Area 01-F generally consists of properties located on the north and south side of Rocky Ridge Road and the west side of Wedgefield Drive 1000 or less feet west of Brevard Road. He explained that alternations and deletions of the proposed areas can occur, but no areas can be expanded once the process is in place. He then reviewed the following financial plan for the annexation areas: Ad Valorem Property Tax Revenues, North Carolina Utilities Franchise Tax, Sales and Use Tax and Powell Bill allocation.

Councilman Peterson asked that the new Lowe's on Smokey Park Highway be included in the Phase 2 annexation process. He also wanted to make sure that any water and sewer districts that apply to any of these areas is taken into account.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PACK SQUARE CONCEPTUAL PLAN CONSULTANT

Ms. Carol King, Chair of the Pack Square Task Force, said that this is the consideration of a resolution to approve the execution of a contract for the Pack Square conceptual design and associated budget amendment.

The Pack Square Task Force has sent requests for qualifications (RFQs) to a number of design firms for the Pack Square Renaissance Project. Based upon their qualifications, past projects and other criteria, one firm will be selected to work with the Task Force and community to develop a conceptual design for Pack Square/City-County Plaza. The RFQ packets were sent to the following firms:

Urban Design Associates (Pittsburgh)
Olin Partnership (Philadelphia)
Design Workshop, Inc. (Aspen)
Cooper, Robertson & Partner (New York)
Streetworks (Alexandria)
Wallace, Roberts & Todd (Philadelphia)
Duany, Plater-Zyberk & Co. (Charlotte)

The list of firms selected to receive the RFQ was established based upon recommendations from members of the Design Subcommittee of the Pack Square Task Force (which includes several architects). It was felt that there are a limited number of firms nationally with the ability to provide this type of design assistance.

Responses to the RFQ are due on Monday, February 14, 2000. At this point, it is anticipated that at least four firms will respond to the RFQ. On Friday, February 18, 2000, the Downtown Commission will meet jointly with the Pack Square Task Force to select the firm for recommendation to Council. On February 22, 2000, City Council will be asked to approve the execution of a contract for this conceptual design.

The Task Force is in the process of raising $40,000 for this design process, which will include significant public participation in the form of a public forum on the design of public spaces as well as two public design workshops. Fifteen thousand dollars has been provided from the public sector ($7,500 from both the City and the County). The remaining $25,000 will come from private sector fundraising. A list of private sector contributors will be furnished to Council at the February 22, 2000, City Council meeting.

A special account has been established within the Planning and Development Department budget for this project. In addition to approval of the contract execution, Council will be asked to approve a budget amendment, which is necessary in order to receive and disperse funds through this account.

City staff recommends City Council adopt a resolution to approve the execution of a contract for the Pack Square conceptual design and associated budget amendment.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PUBLIC ACCESS CHANNEL

Ms. Robin Nix, Public and Community Information Coordinator, said that this is the consideration of a proposal received from the League of Women Voters to operate the public access channel.

The Cable Franchise Agreement adopted by City Council designates three initial access channels to be used for public, educational and/or government programming. In November 1998, the Asheville City Council directed staff to prepare a Request For Proposal (RFP) to solicit non-profit organizations who were interested in managing the public access channel. The City of Asheville sent out this RFP in August 1999 after receiving input from staff and the community on the document.

On January 26, 2000, a proposal was received from the League of Women Voters (LWV) indicating interest in managing the channel and providing a timeline for activities. In their letter they stated "it is with much regret that we advise that we are unable to present a technical response to your RFP. There are multiple reasons. Not the least of these is our concern as to financing the endeavor so long as the City refuses to assume any responsibility for operating expenses" Although they did submit a response, it was not the technical response that the City requested in the RFP. This was the only proposal received by the City.

Mr. Talmadge Neece, representing the LWV, passed out a statement and stressed that the LWV is eager to add their effort to bring to our community a well-designed and sound operational public access operation. He reviewed the following key issues where the LWV can be effective: community acceptance, community commitment and community involvement. He said that the LWV " stands ready to aid the Commission in developing community awareness of the potential of public access television to facilitate dialog within our community and with the Commission which should lead to a sound plan of operation supported by the broader community. This should provide strong support for timely development and implementation of an operational philosophy. There should then be an easy and prompt transition to an operating entity that will ensure a successful community supported public access station for all the people of our city."

Vice-Mayor Cloninger said that in a meeting held earlier in the day regarding the response received by the LWV. Since no complete RFP was received, the LWV did respond by expressing an interest in assisting the City of Asheville with developing a method for establishing the public access channel. It was determined that the LWV could provide advice and assistance to the Public Access Channel Commission in order to facilitate the establishment and management of a public access channel on the cablevision system. It was recommended that the LWV be appointed to act as an advisory group to the Public Access Channel Commission. It was also recommended that the membership of the Public Access Channel Commission be expanded to include a position for a representative of the LWV as a non-voting, ex-officio member.

Discussion surrounding allowing the LWV a seat on the Commission when there may be other non-profits that would like to have a seat as well.

Further discussion surrounding a potential conflict of interest for the LWV if another RFP were developed. Mr. Neece said that the LWV would absent themselves from that process.

It was the consensus of City Council that if the ordinance is expanded to include a seat for the LWV that a sunset provision be included in that the LWV appointment would terminate after the City Council has entered into a contract with a third party to operate the public access channel.

12

Councilwoman Whitmire asked that the funding for the Educational Access Channel be a future worksession item.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

Councilman Worley moved to suspend the rules and take formal action on the following two items: (1) resolution appointing members to the Public Access Channel Commission; and (2) approval of City Council goals. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION NO. 00-27 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ACCESS CHANNEL COMMISSION

Vice-Mayor Cloninger said that on January 25, 2000, City Council interviewed Raphael Peter, Jim Torpey, Wally Bowen, Andrew Reed, Lisa Michie, Orpheus Allison, Mark Rosenstein, John Hayes, Beth Lazer, Rebecca Em Campbell, Allan Goodstadt, Marianna Bailey, Clifford Davids, Mark Goldstein and Mary Ellen Brown.

Jim Torpey received 6 votes; John Hayes received 6 votes; Mary Ellen Brown received 6 votes; Beth Lazer received 5 votes; Mark Goldstein received 5 votes; Mark Rosenstein received 5 votes; Raphael Peter received 4 votes; Andrew Reed received 4 votes; Orpheus Allison received 3 votes; Marianna Bailey received 3 votes; Allan Goodstadt received 3 votes; Wally Bowen received 2 votes; Rebecca Em Campbell received 1 vote; Clifford Davids received 1 vote; and Lisa Michie received 0 votes. Therefore, a resolution will be prepared (1) appointing Jim Torpey, John Hayes, Mary Ellen Brown, Beth Lazer and Mark Goldstein to each serve a three year term respectively, terms beginning on March 1, 2000, and expiring on March 1, 2003, or until their successors have been appointed, and (2) appointing Mark Rosenstein, Raphael Peter and Andrew Reed to each serve a two year term respectively, terms beginning on March 1, 2000, and expiring on March 1, 2002, or until their successors have been appointed.

Because of a tie vote, City Council voted again. Orpheus Allison received 2 votes; Allen Goodstadt received 2 votes; and Marianna Bailey received 2 votes.

Because of the remaining tie vote for the ninth seat, it was the consensus of City Council to place the names of Orpheus Allison, Allan Goodstadt and Marianna Bailey on the City Council agenda for February 22, 2000, for consideration of appointment to the remaining seat on the Public Access Channel Commission.

RESOLUTION BOOK NO. 25 - PAGE 420

APPROVAL OF CITY COUNCIL GOALS

Budget Director Ben Durant presented City Council with the following proposed goals:

1) Aggressively implement the Sustainable Economic Development Strategic Plan.

2) Adopt policies and ordinances that promote "Smart" growth:

   - Continue to review the UDO and make changes consistent with greater utilization of the property tax base and the concept of new urbanism.
   - Continue to implement the Housing Action Plan.

- Expand recycling program in accordance with staff proposals.
- Review and adopt recommendations of the Waste Reduction Plan.
- Maintain and expand Asheville's quality of life.
- Work with MSD and Regional Water Authority to promote cooperative growth policies.
- Increase diversity on boards and commissions and City work-force.
- Communicate effectively with the Citizens of Asheville.

3) Improve all transportation systems through innovative and cost effective planning.

- Adopt and implement the Transit Improvement Program.
- Approve an additional five dollar motor vehicle tax dedicated to the transit system capital improvement program.
- Improve traffic flow by updating the traffic signalization system.
- Continue to install traffic calming devices in residential areas.

4) Provide new resources to increase street and sidewalk maintenance and repair so as to address the needs identified in the ITRE study.

5) Improve the quality of life for Asheville residents through identification of resources to fund parks and recreation capital needs.

6) Develop a multi-year operational and capital improvement program designed to provide adequate capital funding for the Civic Center as an interim approach pending a decision about the future direction of the Civic Center.

Councilwoman Field said that she re-worded some of the proposed goals as follows:

1) Create opportunities for Sustainable Economic Development

- Aggressively implement the Sustainable Economic Development Strategic Plan.
- Develop an interim multi-year operational and capital improvement program designed to provide adequate funding for the Civic Center pending decisions on the long-term future of the Civic Center.
- Continue Downtown initiatives that support the strong private sector revitalization effort.

2) Adopt policies and ordinances that promote "Smart Growth"

- Define "Smart Growth" for the City of Asheville.
- Maintain and expand Asheville's quality of life.
- Review the UDO and make changes consistent with the concept of "new urbanism" and greater utilization of the property tax base.
- Implement the Housing Action Plan.
- Expand the recycling program in accordance with staff proposals.
- Review and adopt recommendations of the Waste Reduction Plan.
- Work with MSD and the Regional Water Authority to promote cooperative growth policies.

3) Improve all transportation systems through innovative and cost effective planning.

14

- Adopt and implement the Transit Improvement Program.
- Approve an additional five-dollar motor vehicle tax dedicated to the transit system capital improvement program.
- Update the traffic signalization system to improve traffic flow.
- Install traffic calming devices in residential areas based on the Traffic Calming Policy.

4) Provide new resources to increase street and sidewalk maintenance and repair.

- Address the needs identified in the ITRE study.
- Implement the Pedestrian Thoroughfare Plan as funds become available.

5) Develop resources to fund parks and recreation needs that improve the quality of life for Asheville residents.

- Implement the Greenway Master Plan as funding becomes available.
- Construct phase I of Pritchard Park.
- Develop the Lake Craig property per the staff's recommendations.
- Build the Skateboard Park.

6) Work towards common sense governance.

- Communicate more effectively with the Citizens of Asheville.
- Work to find better and meaningful participation processes.
- Increase diversity in the City workforce and in City Council appointments.
- Resolve conflicts between new ordinances and existing local, state or federal regulations.
- Adopt new ordinances and resolutions only when there are resources to implement them.
- Examine and revise the "Conditions Use" process, implement the Planning Director's recommendations presented to us at the 2000 retreat.

With regard to the Housing Action Plan, Councilwoman Whitmire felt that if a plan is funded and implemented by the City, that the City should not rely on outside agencies to do the work for us.

Councilman Worley moved to adopt the revised goals as presented by Councilwoman Field. This motion was seconded by Councilwoman Field and carried unanimously.

Budget Director Ben Durant confirmed with Council that the adopted goals would provide direction to staff during the budget process. Council further indicated that staff would have the discretion to recommend alternative strategies to achieve those goals.

OTHER BUSINESS

School Buses

At the request of Councilwoman Whitmire, Interim Transit Services Director Bruce Black updated City Council on the school bus operation. She asked that she be kept abreast of what happens to the buses.

Civic Center

Councilmen Hay and Worley briefly updated City Council on the consultant's report with regard to the future of the Civic Center. Councilman Hay said that the Future of the Civic Center Task Force will be making a formal report to City Council in the near future.

Some discussion occurred about the location of an arena and the need for it to remain in downtown Asheville.

Councilman Peterson hoped that the City can look for some private funding for not only the convention center, but the arena as well.

Length of City Council Meetings

In response to the February 8, 2000, City Council meeting which was nine hours, City Council briefly discussed the length of City Council meetings. It was the consensus of City Council that since Mayor Sitnick was not present at this meeting that discussion would continue on this matter on the April 4, 2000, worksession.

Councilman Worley proposed a policy that when the City Council meeting reaches 10:00 p.m., that Council finish the item they are considering and continue the remainder of the meeting to perhaps the following Wednesday or Thursday. He also pointed out that if Council did not want to have a policy regarding the length of Council meetings, that at some appropriate time (around 10:00 p.m.) a motion could just be made to continue the meeting to a time, place and date specific.

Councilwoman Whitmire asked City staff to explore ways to improve their staff reports so information presented to them is concise.

Councilman Peterson suggested that conditional use permits be reviewed by the Planning & Zoning Commission prior to their being brought before City Council.

Councilwoman Field also suggested that if the formal meeting runs past 10:00 p.m. that perhaps the meeting can be continued to the following Tuesday. Assistant City Attorney Meldrum noted that if Council does intend to take formal action at a worksession, that a motion suspending the rules will be necessary.

City Council also instructed the City Manager to suggest ideas to streamline the Council meetings.

Council discussed tools for City staff to use when presenting their reports to Council, e.g., in-house training, review the video tape of the meeting.

Mayor's Absence

Vice-Mayor Cloninger said that he has been advised by the City Attorney's Office that there are some documents that need to be executed and he needs to be authorized to sign them in the Mayor's absence.

Councilman Worley moved to suspend the rules and take formal action at this meeting. This motion was seconded by Councilwoman Field and carried unanimously.

Due to Mayor Sitnick being out of town, Councilwoman Field moved to temporarily confer the powers of the Mayor to Vice-Mayor Cloninger. This motion was seconded by Councilman Worley and carried unanimously.

Boards & Commissions

It was the consensus of City Council to instruct the City Clerk to arrange interviews (1) with Scott Fowler, Tom Tarrant and Headlee Howard for vacancies for an alternate position on the Board of Adjustment; and (2) with Judith Hamill, Crystal Pace and Phyllis Stiles for a vacancy on the Greenway Commission.

It was the consensus of City Council to instruct the City Clerk to prepare the proper paperwork to appoint Robert Jackson to serve on the Tree Commission, term to expire December 31, 2000, or until his successor has been appointed.

ADJOURNMENT:

Vice-Mayor Cloninger adjourned the meeting at 6:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 22, 2000 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor M. Charles Cloninger, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

INVOCATION

Councilman Worley gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE WEEK OF FEBRUARY 20-26, 2000, AS "NATIONAL SURVEYOR'S WEEK"

Vice-Mayor Cloninger proclaimed February 20-26, 2000, as "National Surveyor's Week" in the City of Asheville. He presented the proclamation to Mr. Jeff Powell.

II. CONSENT:

It was the consensus of City Council to remove Consent Item G. from the Consent Agenda. The vacancy on the Tree Commission will be pooled in the next quarterly appointment process.

A. APPROVAL OF THE MINUTES OF THE CITY COUNCIL RETREAT HELD ON JANUARY 28, 2000, THE FORMAL MEETING HELD ON FEBRUARY 8, 2000, AND THE WORKSESSION HELD ON FEBRUARY 15, 2000

B. ORDINANCE NO. 2665 - BUDGET AMENDMENT FOR FACILITY MAINTENANCE

Summary: The consideration of a budget amendment, in the amount of $250,000, to appropriate additional funds for necessary repairs to various City facilities.

The Parks and Recreation Department has been working for several months on identifying urgent needs to existing City-owned facilities. In the current budget, $250,000 was appropriated for maintenance repair to over 100 facilities currently under City ownership. Due to a number of emergency situations which included preparation for Y2K emergency shelter service, new HVAC system for Senior Opportunity Center, renovations to the Murphy-Oakley Resource Center, and replacement of the sewer line in City Hall, the current budget has been depleted. The costs associated with those emergency situations total approximately $160,000.

In addition, staff has identified that Fire Stations #2 and #5 are in desperate need of roof replacement. Both facilities cannot continue to be patched and a complete roof replacement is necessary in order to continue occupancy of these facilities. In addition, the boiler at Murphy-Oakley Resource Center needs to be replaced. The estimated costs for the above work represents approximately $106,200. Staff is requesting a budget amendment of $250,000 in order to implement and supplement the above mentioned improvements.

18

The Parks and Recreation Department is requesting City Council approval of the budget amendment in the amount of $250,000.

ORDINANCE BOOK NO. 18 - PAGE 135

C. RESOLUTION NO. 00-28 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL FOR BI-WEEKLY MIXED RECYCLING PICK-UP

Summary: The consideration of a resolution amending the Fees & Charges Manual and a resolution amending the recycling contract with Curbside Management in order to expand the curbside recycling program to include mixed paper.

At the City Council work session on February 1, 2000, staff was instructed to further investigate the option to add mixed paper to the curbside recycling program. Mixed paper includes items such as magazines, paperboard, catalogs, and junk mail. The benefits of this expansion include a significant increase in the overall amount of recyclables collected and an associated reduction in the amount of trash landfilled by the City. The inclusion of mixed paper is also the most frequently requested program change and will bring the City of Asheville's recycling program up to par with other large cities in North Carolina.

After negotiations with Curbside Management, the proposed per household monthly recycling fee charged to residents via their water bill would increase from $1.54 to $2.00. As part of the negotiated contract price ($2.00 per customer), staff has agreed to adjust the trash and recycling day of approximately 300 customers in order to equalize route size and maximize current and new equipment necessary for the implementation of this new service. In addition, the City would extend the contract with Curbside Management to July, 2005. The current contract is set to expire in January, 2002. Consistent with the initial delivery of bins to the residents, the City will pay the delivery costs of an additional bin to hold mixed paper. This cost is estimated to be approximately $10,000.

Staff recommends approval of the resolution to amend the Fees and Charges Manual to reflect the cost increase for added recycling services beginning July, 2000, and the resolution authorizing amendments to the curbside recycling contract with Curbside Management, Inc.

RESOLUTION BOOK NO. 25 - PAGE 421

D. RESOLUTION NO. 00-29 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE DOCUMENTS TO IMPLEMENT THE BI-WEEKLY MIXED RECYCLING PICK-UP

Summary: See Consent Agenda Item "E" above.

RESOLUTION BOOK NO. 25 - PAGE 422

E. MOTION SETTING A PUBLIC HEARING ON WEDNESDAY, MARCH 15, 2000, TO CONSIDER A CONDITIONAL USE PERMIT FOR THE MEADOWS, PHASE III, LOCATED OFF OF ASCENSION DRIVE IN WEST ASHEVILLE

F. MOTION APPROVING THE FESTIVALS AND SPECIAL EVENTS FOR 2000

Summary: The consideration of a motion to approve the Parks and Recreation Department's 2000 festival and special events schedule.

19

In March of 1995, the Asheville City Council adopted a "Festivals Policy." A segment of that policy requires that City Council approve the list of festivals on an annual basis. Therefore the Parks and Recreation Department is recommending the approval of the following festivals and special events (Please note 3 new events applying for co-sponsorship this year include: Bike for the Bell, Come-Unity Asheville and Earth Day 2000 Festival): Special Olympics; Holiday Luncheon; Buncombe County Appreciation Day; Movies in the Park; Very Special Arts Festival; Youth 5K Run; Martin Luther King Peace Walk; Unity in Diversity; Earth Day 2000; Festival; Easter Eggstravaganza; Walk America; Come-Unity Asheville; Senior Games; Friends for Animals Anti-Cruelty Animal Walk; Bike for the Bell/Strive Not to Drive; Hershey's Track n' Field; Symphony on the Block; 3rd Annual "Biltmore Estate 15K Classic" Foot Race; Moonlight over Downtown; Sunday in the Park; RiverLink Triathlon; Honda Hoot Wall Street Policy; Honda Hoot Downtown After Five; Shindig on the Green; Downtown After Five; French Broad River Wildlife Art & Craft Show; Burton Street Gospel Jubilee; Goombay Festival; 4th Annual "Brew Grass Festival"; La Fiesta Latina; Asheville Greek Festival; Walk Into History (Urban Trail); Westfest; Asheville Merchants Corporation Christmas Parade; Light Up Your Holidays; and 2000 Arby's Reindeer Romp.

The Parks and Recreation Department recommends approval of the above festivals and special events for 2000.

G. RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION

This item was removed from the consent agenda to be considered at a later date.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CLOSING AN UNOPENED PORTION OF HERMAN AVENUE EXTENSION

RESOLUTION NO. 00-30 - RESOLUTION CLOSING AN UNOPENED PORTION OF HERMAN AVENUE EXTENSION

Vice-Mayor Cloninger opened the public hearing at 5:06 p.m.

Public Works Director Mark Combs said that a petition has been received from Winston W. Pulliam and Kasey Properties, LLC, which includes an affidavit from Winston W. Pulliam, owner of parcel 9655.17-11-6883 and 9655.17-12-6013 and Gerald J. Kasey, Manager of Kasey Properties, LLC, owner of parcel 9655.17-11-4814. The above mentioned property owners are requesting the permanent closure of the northern portion of a 20 foot right-of-way which is the unfinished portion of Herman Avenue Extension.

The City has no plans to utilize this unopened right-of-way. All utility companies will be contacted, the resolution of intent to close the unopened portion of Herman Avenue Extension was advertised in a local paper, and the location was posted with the resolution of intent to close.

20

Public Works Department staff recommends the resolution of intent to permanently close the unopened portion of Herman Avenue Extension adjacent to PIN No. 9655.17-11-6883, 9655.17-12-6013, and 9655.17-11-4814 be adopted.

Vice-Mayor Cloninger closed the public hearing at 5:08 p.m.

Vice-Mayor Cloninger said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-30. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 423

B. PUBLIC HEARING RELATIVE TO THE VOLUNTARY ANNEXATION OF 65 AND 67 LONG SHOALS ROAD

ORDINANCE NO. 2666 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO 65 AND 67 LONG SHOALS ROAD

Vice-Mayor Cloninger asked to be excused from voting because the firm in which he is a partner in represents the petitioners. Therefore, Councilman Worley moved to excuse Vice-Mayor Cloninger due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously. Vice-Mayor Cloninger then turned the meeting over to Councilman Hay to preside during this item.

Councilman Hay opened the public hearing at 5:09 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of an ordinance extending the corporate limits to include two lots located south of Long Shoals Road and identified as 65 & 67 Long Shoals Road. This public hearing was legally advertised on February 11, 2000.

Floy E. Mattos owner of property located at 65 Long Shoals Road, and Sara B. Austin, owner of property located at 67 Long Shoals Road have submitted an annexation petition for these properties which are adjacent to each other. These properties front on, and lie to the south of Long Shoals Road. They are adjacent to the existing city limits which follows the centerline of Long Shoals Road.

The area proposed for annexation consists of a total of 2.13 acres and currently developed with two single-family residences.

City staff recommends City Council annex property located south of Long Shoals Road and identified as 65 & 67 Long Shoals Road.

When Councilman Hay wondered why the applicants are petitioning for voluntary annexation, Mr. Benson said that it was his understanding that the applicant applied for commercial rezoning from the Limestone Township zoning ordinance and were denied. The applicants had an indication that perhaps they could get a commercial rezoning through the City of Asheville. Mr. Benson said that no one in the City has promised the applicants that the property would be zoned commercial. He said that if the property is annexed, the next step is that the recommended zoning will go through the Planning & Zoning Commission with a recommendation to City Council.

Ms. Francis Briggs, member of the Limestone Community Council, said that they have not been petitioned for this property to be rezoned.

Mr. Doug Thigpen, attorney representing the petitioners, asked that City Council consider the voluntary annexation petition.

Councilman Hay closed the public hearing at 5:14 p.m.

Councilman Hay said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2666. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 137

C. PUBLIC HEARING RELATIVE TO THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED NORTH OF LONG SHOALS ROAD AND IDENTIFIED AS OAKBROOK, PHASE 1 AT BILTMORE PARK

ORDINANCE NO. 2667 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED NORTH OF LONG SHOALS ROAD AND IDENTIFIED AS OAKBROOK, PHASE 1 AT BILTMORE PARK

Vice-Mayor Cloninger opened the public hearing at 5:15 p.m.

Urban Planner Paul Benson said that this is consideration of an ordinance to extend the corporate limits of the City of Asheville to include property located north of Long Shoals Road and identified as Oakbrook, Phase 1 at Biltmore Park. This public hearing was legally advertised on February 11, 2000.

Biltmore Farms, Inc. has submitted an annexation petition for Oakbrook, Phase 1 at Biltmore Park. This area will be adjacent to the current city limits, being located east of and adjacent to Schenck Parkway which will be annexed effective 2/8/2000. Biltmore Park is generally located west of Overlook Road, east of Interstate 26 and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 12.8 acres and is platted for 22 single-family residential lots along with rights-of-way for White Ash Drive and Rosebay Lane. The area will be accessed by Schenck Parkway from Long Shoals Road.

Utilities and streets are being developed by Biltmore Farms Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance, which would be August 22, 2000.

City staff recommends City Council adopt an ordinance extending the corporate limits to include the annexation of property located north of Long Shoals Road and identified as Oakbrook, Phase 1 at Biltmore Park.

Vice-Mayor Cloninger closed the public hearing at 5:17 p.m.

22

Vice-Mayor Cloninger said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2667. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 139

D. PUBLIC HEARING TO ZONE INITIALLY VOLUNTARY ANNEXATION AREAS IN BILTMORE PARK AS FOLLOWS: THE BILTMORE PARK COMMON AREA AS RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND SCHENCK PARKWAY, 100 TECHNOLOGY DRIVE AND THE VOLVO BUILDING PROPERTY AS CI COMMERCIAL INDUSTRIAL DISTRICT

ORDINANCE NO. 2668 - ORDINANCE TO ZONE INITIALLY VOLUNTARY ANNEXATION AREAS IN BILTMORE PARK AS FOLLOWS: THE BILTMORE PARK COMMON AREA AS RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND SCHENCK PARKWAY, 100 TECHNOLOGY DRIVE AND THE VOLVO BUILDING PROPERTY AS CI COMMERCIAL INDUSTRIAL DISTRICT

Vice-Mayor Cloninger opened the public hearing at 5:18 p.m.

Ms. Stacy Merten, Urban Planner, said that this is the consideration of an ordinance to initially zone the Biltmore Park Common Area as RS-8 Residential Single-Family High Density District and Schenck Parkway, 100 Technology Drive and the Volvo Building property as CI Commercial Industrial District. This public hearing was legally advertised on February 11 and February 18, 2000.

The Planning and Zoning Commission, at their February 2, 2000, meeting, reviewed and recommended approval to zone the recently voluntarily annexed 37.3 acre tract comprised of the Volvo Building property, 100 Technology Drive and Schenck Parkway as CI Commercial Industrial District and the Biltmore Park Common Area as RS-8 Residential Single-Family High Density District. The Volvo site and 100 Technology Drive are currently developed with flexible industrial/office type facilities. Schenck Parkway has been constructed and will be taken over by the City as a public street. The portion identified as Common Area is intended as open space for the Biltmore Park community. The development on the tract conforms to the recommended zoning. There was no public comment received at the public hearing.

The Planning and Zoning Commission voted unanimously to recommend approval of the initial zoning as CI Commercial Industrial District and RS-8 Residential Single-Family High Density District. The Planning and Development staff recommends approval of the new zoning.

Vice-Mayor Cloninger closed the public hearing at 5:20 p.m.

Vice-Mayor Cloninger said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2668. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 141

E. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO INCLUDE A PARKS AND OPEN SPACE DISTRICT

Vice-Mayor Cloninger opened the public hearing at 5:21 p.m.

Urban Planner Carl Ownbey said that this is the consideration of an ordinance amendment to the Unified Development Ordinance (UDO) to establish a new zoning district entitled "Parks and Open Space." This public hearing was legally advertised on February 11 and 18, 2000.

After direction from City Council to establish a new parks and open space zoning district, the Planning and Development staff met several times with staff from the Parks and Recreation Department and the Public Works Department to compile guidelines and development standards for the new zoning district. In addition to City staff review, the draft of the ordinance was given to the Greenway Commission and RiverLink for their input.

During the Planning & Zoning Commission's public hearing, the Commissioners discussed at great length the need to add to the Parks and Open Space District a provision that only the property owner or their authorized agent be permitted to file a request to have their parcel of land rezoned.

The Commissioners raised issues concerning: the grandfathering of uses on the property, creating non-conforming uses, changing the economic benefit of the property, possible government "takings claim," and fairness to the property owner. The main concern seemed to be that any City Council could change the zoning on a parcel of land to this classification against the wishes of the property owner; thereby eliminating the economic benefit of the land to the landowner.

The Commissioners voted to recommend that this zoning district incorporate specific wording to permit only the property owner or their authorized agent to request the rezoning of a parcel of land to this particular zoning classification.

The Planning and Development staff presented this new zoning district to the Planning and Zoning Commission at their February 2, 2000, regular meeting. After presentation by staff and the lengthy discussion, the Commissioners voted 5 to 1 to recommend to City Council the adoption of this new zoning district with the additional wording regarding the initiation of an amendment.

However, the Planning staff feels strongly that the inclusion of this particular wording ("any proposed zoning map amendment must be initiated by the property owner or their authorized agent") to this one zoning district limits the ability of the City Council to apply the Parks and Open Space zoning classification at its discretion. Staff recommends the adoption of the ordinance without the additional wording.

Upon inquiry of Councilman Hay, Mr. Ownbey said that the minimum lot size standard for lots in this proposed district shall be 15 acres, however, City Council has the discretion to consider smaller lots.

Upon inquiry of Councilman Peterson, Mr. Ownbey said that accessory structures or accessory uses have to relate to the recreational activity that would be permitted in that zoning district.

Entered into the record was a statement via phone call from Mayor Sitnick to City Manager Westbrook on February 22, 2000: "Having lobbied for this for a number of years, I am 100% supportive of a Parks and Open Space District inclusion in the Unified Development Ordinance and would like to thank staff for bringing it forward."

Mr. Karl Koon and Mr. Jan Davis, members of the Planning and Zoning Commission, explained the Commissioner's reasons for recommending that only the property owner or their authorized agent be permitted to request the rezoning of a parcel of land to this particular zoning classification.

Upon inquiry of Councilwoman Whitmire, City Attorney Oast said that parks are permitted uses in every zoning district in the UDO, except Industrial and Highway Business. In those two districts, they are permitted, however, they are limited to passive parks or arboretums.

Upon inquiry of Mr. Don Yelton, City Attorney Oast said that you cannot have an accessory structure that is not tied to a principle use.

Mr. Mel Thomason hoped that City Council would not consider changing the zoning on a parcel of land to this classification against the wishes of the property owner. He said that when park land is contiguous to residential land, there are certain conflicts. One form of conflict has to do with the lights. He understands that the lights in a parking area are required to be shielded, but there is not a similar requirement for lighting which illuminates the activity area of the park. He urged Council to consider some type of shielding of the lights on the playing field. He also requested that the outdoor loudspeaker system be turned off at 10:00 p.m. (instead of 11:00 p.m.)

Parks and Recreation Director Irby Brinson said that there may be an occasion where because of the topography the lights on the playing field may not be able to be shielded. He had no problem with the request that the outdoor loudspeaker system being turned off at 10:00 p.m.

Vice-Mayor Cloninger closed the public hearing at 5:38 p.m.

Councilman Peterson was concerned that the City might use a portion of park property (in particular the Azalea Road project) for something that is not compatible with the residential area. Mr. Brinson responded that if the City proceeded with the Azalea Road project, he would prefer that a storage building be built on the property for storage of equipment because of the cost of transferring it back and forth. He felt that a maintenance facility would be an accessory structure.

Councilman Peterson also questioned the maximum height of structures in the proposed district being 80 feet. Mr. Brinson said that if Council is looking at eventually building a new arena on park or public property, to reduce the height might be a restriction. City Attorney Oast also noted that since these concerns are being addressed about City-owned property, Council can control that with respect to each specific park.

Councilman Worley spoke in opposition to adoption of the ordinance. He felt nothing is gained by adding this district to the UDO. We currently permit parks and open space in every zoning district in the City, except two and in those two, only passive parks and arboretums are allowed. He felt it would be better to impose upon parks the same standards in the zoning districts that we locate them in. We do that by keeping what we have right now and not adding this new district. By creating this district, he felt we are actually taking a step backwards from mixed uses. By including the parks in the existing districts as we do now, that furthers the mixed use goal. He felt that the concept is a good idea, but it really only adds one more ordinance that we really don't need. He certain wants to preserve parks, open space and promote recreation, and certainly doesn't want to see our parks and greenway spaces developed or sold, but adoption of this ordinance does not make good commons sense.

Upon inquiry of Councilwoman Field, Senior Planner Gerald Green said that in all other zoning districts, the ability to initiate a rezoning is given to the property owners, the property owner's representative, the Planning & Zoning Commission or the City Council. This would be the only district in which the City Council would not have the authority to initiate the rezoning of a piece of property.

In response to Councilwoman Field, Mr. Green said that if City Council did want to initiate the rezoning of someone's property, he felt that the City Council would be very sensitive of the property owner's rights and that the property owner would have several avenues of opposing the rezoning of their property to Parks and Open Space.

Vice-Mayor Cloninger very much hoped that Council would adopt the proposed ordinance with the recommendation from the Planning & Zoning Commission and an amendment to the ordinance that the outdoor loud speakers be turned off at 10:00 p.m. He felt the Planning & Zoning Commission's recommendation more accurately reflects what Mayor Sitnick and he proposed to begin with. He doesn't think it would be fair to include in the ordinance a provision that private property could be involuntarily zoned as a park. He did think we should adopt the ordinance as to City-owned property and private property where the property owner voluntarily requests the rezoning. He felt it was very important that we send a message to the community that we have a deep commitment to preserve dwindling open spaces within our City limits. He also felt adoption of this ordinance will send a message to neighborhoods that we are serious about not using our City-owned property in a way that is inconsistent with the surrounding neighborhood. While designating City-owned property as park space will not preclude the City Councils in the future from changing the zoning designation and making some other uses of it, it might make it a lot harder for the City to change that use. In addition to designating our City-owned public spaces as parks, he hoped City Council would take the next step and also grant conservation easements as to those properties so that it really will preclude the City from making any other use of the property.

Upon inquiry of Councilman Peterson, Mr. Ownbey said that if a piece of City-owned property was zoned Parks and Open Space, the standards with regard to a protest petition would still apply.

Vice-Mayor Cloninger said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Peterson moved to amend the UDO to include a Parks and Open Space District as recommended by the Planning & Zoning Commission and with an amendment to the ordinance that the outdoor loud speakers be turned off at 10:00 p.m. This motion was seconded by Councilman Hay.

Councilwoman Field said that with the Planning & Zoning Commission recommendation she would have to vote against the ordinance because she believes that City staff is trying to get some consistency through all of their zoning classifications. During the entire UDO process, we were trying to have less, rather than more, zoning classifications and she felt we could fairly quickly do some conservation easements on the City's property that we wish to remain parks. She felt we should definitely move on the conservation easements, but she was not comfortable voting for the ordinance in its present form.

26

Councilwoman Whitmire felt it is clear in our current process that if an owner wants to get their property rezoned they can petition the City to get that to happen. I think that if an owner wants to designate their property as Parks and Open Space, it would be a pleasurable thing for Council to do that. We've heard from staff in the past couple of months about decreasing the number of zoning districts and to add this new district is not consistent with that. We are looking at ways to streamline processes and make it easier for people to do business with the City and for Council to increase the number of districts, the perception might be that it will be harder to do business in the City. She did not think the district is necessary or essential. If this ordinance does not pass, she hoped that the outdoor loud speakers in parks will be turned off at 10:00 p.m.

The motion made by Councilman Peterson and seconded by Councilman Hay failed on a 3-3 vote, with Vice-Mayor Cloninger and Councilmen Hay and Peterson voting "yes" and Councilwomen Field and Whitmire and Councilman Worley voting "no".

F. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO INCLUDE CONDITIONAL USE ZONING

ORDINANCE NO. 2669 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO INCLUDE CONDITIONAL USE ZONING

Vice-Mayor Cloninger opened the public hearing at 6:04 p.m.

Senior Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) which would establish a Conditional Use District. This public hearing was legally advertised on February 11 and 18, 2000.

The Planning and Zoning Commission, at their February 2, 2000, meeting, reviewed and recommended approval of an amendment to the UDO which would establish Section 7-9-9 to create a Conditional Use District. This district will provide a level of flexibility in the rezoning process which is not available with the existing zoning districts. The new district could be applied anywhere within the City and its jurisdiction. Unlike conventional rezoning, a rezoning to a Conditional Use District would permit review and approval of detailed site plans, building designs and elevations, and floor plans as well as identification of specific uses. Conditions could be attached to the rezoning to further mitigate impacts on surrounding properties. Upon application by the property owner or authorized representative, the Conditional Use District zoning request would be subject to a review process involving the following steps:

- Review and recommendation by the Technical Review Committee (with public notification);
- Review and recommendation by the Planning and Zoning Commission (public hearing); and
- Review and action by City Council (public hearing).

In acting upon the Conditional Use District zoning request, the City Council would be charged with changing the zoning of the site to a conditional use zoning and issuing a Conditional Use Permit for the proposed development. The City Council may attach conditions to ensure that the proposed development does not adversely impact the surrounding properties. Any violation of the Conditional Use Permit or other failure to comply with the conditions imposed would be treated as a violation of the City's Zoning Ordinance.

The Planning and Zoning Commission voted 6 to 0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Mr. Green suggested two changes to the ordinance which Council has before them: (1) Amend Section 7-9-9 (b) 10 to read 'If, subsequent to the development of the use for which the Conditional Use Permit was approved, the use is abandoned for more than one hundred eighty days (180) days, the provisions of Section 7-17 of this Chapter shall apply." and (2) Amend Section 7-9-9 (c) 4 to read "Upon receipt of the recommendations from the Planning and Zoning Commission, the City Council shall hold a public hearing on the requests for Conditional Use District zoning and a public hearing to consider the issuance of a Conditional Use Permit. The public hearing to consider the request for Conditional Use District zoning shall be held in accordance with the provisions set forth in Section 7-5-20 of this chapter. The public hearing to consider the issuance of the Conditional Use Permit for the Conditional Use District shall be held in accordance with the provisions set forth in Sections 7-5-5 (f) and 7-5-20 of this chapter. The City Council shall take separate actions on consideration of the zoning request and the Conditional use Permit request. Consideration of the Conditional use District zoning request shall be handled in accordance with procedures set forth in Section 7-7-5 of this chapter. The issuance of the Conditional Use Permit for the Conditional Use District shall be considered in accordance with the procedures set forth in this subsection."

Upon inquiry of Councilwoman Field, City Attorney Oast said that this is not a conditional use overlay because in the typical overlay scheme, you retain the underlying zoning classification - with the conditional use zoning, the zoning classification itself changes.

With regard to a question from Councilman Worley regarding spot zoning, City Attorney Oast said that the conditional use zoning concept has created some problems for the courts when it has been subjected to a spot zoning challenge. He thought the general rule is, yes, spot zoning prohibition does apply, but because of the nature of conditional use zoning, the standards are somewhat less stringent. In fact, some people have referred to conditional use zoning as legal spot zoning.

Vice-Mayor Cloninger hoped that Council would adopt this ordinance because it is a great tool what will allow us to encourage mixed use in a way that will be compatible with the surrounding area.

Vice-Mayor Cloninger closed the public hearing at 6:24 p.m.

Vice-Mayor Cloninger said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2669, with the two amendments outlined by Mr. Green above. This motion was seconded by Councilwoman Whitmire and carried on a 5-1 vote, with Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 - PAGE 143

IV. UNFINISHED BUSINESS:

A. CONSIDERATION OF THE INITIAL ZONING OF THE ROYAL PINES POOL AND PARK PROPERTIES LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET

ORDINANCE NO. 2670 - ORDINANCE AMENDING ZONING FOR PROPERTY IDENTIFIED AS THE ROYAL PINES POOL AND PARK PROPERTIES LOCATED ON SWEETEN CREEK ROAD AND PEACH TREE STREET TO BE ZONED RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

28

The Asheville City Council, at their October 27, 1999, meeting, reviewed the initial zoning consideration for the Royal Pines Pool and Park Properties located on Sweeten Creek Road and Peach Tree Street to RS-4 Residential Single-Family Medium Density District. Four properties with a total area of 5.5 acres were included as part of the zoning proposal. This was a private pool and park serving the local community and will now be managed by the Parks and Recreation Department of the City of Asheville. There are currently no definitive plans for the property but it is anticipated that it will continue as a recreational use. The Planning & Zoning Commission voted unanimously and City staff recommended the property be zoned as RS-4, as there was no specific zoning district for Parks and Open Space.

Several community residents expressed their concern that the residential zoning meant that the parcel could become a housing development. Consequently, City Council instructed staff to establish an open space zoning classification to be included in the Unified Development Ordinance (UDO). Staff has completed the preparation of a wording amendment to the UDO that will add a Parks and Open Space classification. The new classification was considered by City Council on February 22, 2000, and the motion to include the new classification failed.

Vice-Mayor Cloninger said that this public hearing was opened and closed on October 27, 1999, and continued until this date to allow time for the open space zoning classification to be adopted into the Unified Development Ordinance (UDO). However, because the UDO was not amended to include a Parks and Open Space District, he suggested City Council zone the property RS-4 Residential Single-Family Medium Density District and direct staff to begin exploring the feasibility of granting conservation easements on our City-owned park property. He also suggested staff explore the possibility of whether it might be feasible for the City to sell those conservation easements to private parties for tax purposes. He explained the process the Grove Arcade used. If this is feasible, we can still protect our property forever by way of a conservation easement, and at the same time create some revenue by selling the deductions that the City would otherwise have to private parties.

City Attorney Oast said that City Council can rezone the property to RS-4. He said that he would be glad to initiate an investigation to see whether the City can sell the tax credits to private entities for revenue purposes.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved (1) for the adoption of Ordinance No. 2670 to rezone the property to RS-4; (2) to direct staff to begin exploring the feasibility of granting conservation easements on all of our City-owned property; and (3) to direct staff to explore the possibility of selling any potential tax credits to private parties. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 148

B. ORDINANCE NO. 2671 - ORDINANCE TO APPROVE A CONDITIONAL USE PERMIT FOR HOME DEPOT LOCATED AT THE INTERSECTION OF ACTON CIRCLE AND MONTE VISTA ROAD

Vice-Mayor Cloninger asked to be excused from voting because the firm in which he is a partner in represents the petitioners. Therefore, Councilman Hay moved to excuse Vice-Mayor Cloninger due to a conflict of interest. This motion was seconded by Councilman Worley and carried unanimously. Vice-Mayor Cloninger then turned the meeting over to Councilman Hay to preside during this item.

Urban Planner Dan Baechtold said that the public hearing on this matter was held on February 8, 2000. He said this is the consideration of an ordinance adopting an order making findings and conclusions, and establishing conditions, for a Conditional Use Permit for The Home Depot.

On February 8, 2000, the City Council held a public hearing and voted 5 to 1 (Vice Mayor Cloninger having been excused from voting) to issue a Conditional Use Permit for the Level III project of The Home Depot. The City Attorney's Office was directed to prepare an order granting the Conditional Use Permit. He reviewed the draft ordinance and order containing the findings and conclusions and granting the issuance of the permit . The order is in draft form and may be modified by the City Council prior to voting on it.

Once the order issuing the Conditional Use Permit is in satisfactory form, the City Council should vote to adopt it.

Mr. Baechtold explained that staff is recommending one change to Condition No. 3. It currently reads that "In addition to the proposed sidewalk shown on the site plans, the applicant shall construct a sidewalk built to City standards along the widened portion of Acton Circle." He said that with the engineering that is being done out there and the amount of right-of-way that exists there, it may not be physically possible to get a sidewalk on both sides. That is still the City's preference to have a sidewalk on both sides, and there is an existing sidewalk on the McDonald's side that will remain. There are right-of-way constraints and also a creek which has some physical constraints and so staff would like to add the flexibility to have the City Engineer work with the developer's engineer to provide the best solution for pedestrian circulation there. He suggested the following amendment to Condition No. 3: "In addition to the proposed sidewalk shown on the site plans, the widened portion of Acton Circle shall provide facilities to accommodate pedestrian movements from US 19-23 to the proposed Home Depot. The design and location of these facilities shall be determined by the City Engineer."

Councilman Worley also suggested the following non-substantive wording change in Finding No. 14: "The applicant provided the sworn testimony of real estate agent, Chuck Tessier, of Tessier Associates, that property values of adjacent property would increase in value as commercial property and that with respect to residential areas located further away from the Project would have less impact on their property values."

Councilman Hay said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2671, with the two amendments outlined above by Mr. Baechtold and Councilman Worley. This motion was seconded by Councilwoman Field and carried on a 4-1 vote with Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 - PAGE 150

C. ORDINANCE NO. 2672 - ORDINANCE TO APPROVE A CONDITIONAL USE PERMIT FOR NETTLEWOOD PROFESSIONAL PARK LOCATED ON HENDERSONVILLE ROAD IN THE VICINITY OF WAL-MART

Urban Planner Stacy Merten said that the public hearing on this matter was held on February 8, 2000. He said this is the consideration of an ordinance adopting an order making findings and conclusions, and establishing conditions, for a Conditional Use Permit for Nettlewood Professional Park.

30

On February 8, 2000, the City Council held a public hearing and voted 5 to 2 to issue a Conditional Use Permit for the Level III project of Nettlewood Professional Park. The City Attorney's Office was directed to prepare an order granting the Conditional Use Permit. He reviewed the draft ordinance and order containing the findings and conclusions and granting the issuance of the permit. The order is in draft form and may be modified by the City Council prior to voting on it.

Once the order issuing the Conditional Use Permit is in satisfactory form, the City Council should vote to adopt it.

Mr. Tom Pugh, representing Deerwood Homeowners Association, wanted to make sure that the Order reflects that there are four entrances available, even without the Deerwood entrance.

Planning & Development Director Scott Shuford said that the developer's site plan shows three accesses, other than the Deerwood access. This is what is in the draft Order. He does not show access off of Peach Tree and he believes Mr. Pugh's point is that that is a potential access.

Ms. Merten said that the developer at one time showed an access into one parking lot from Peach Tree, but on the revised plans that were reviewed at the public hearing, he did not have that access.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2672. This motion was seconded by Councilman Worley.

Councilman Peterson confirmed that if the developer is unable to access at the Deerwood entrance he would not have to begin the process all over again. Ms. Merten said that the developer would have to go back before the Technical Review Committee, but it would not come back before City Council unless there were substantial changes.

The motion made by Councilwoman Field and seconded by Councilman Worley carried on a 5-1 vote, with Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 - PAGE 158

D. RESOLUTION NO. 00-31 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ACCESS CHANNEL COMMISSION

Vice-Mayor Hay said that this is the consideration of appointing a member to the Public Access Channel Commission.

On September 14, 1999, Ordinance No. 2612 established a Public Access Channel Commission to consist of five members appointed by City Council. On February 8, 2000, Ordinance No. 2661 expanded the membership of the Commission to nine members and amend the terms from four year staggered terms to three year staggered terms.

On January 25, 2000, City Council interviewed Raphael Peter, Jim Torpey, Wally Bowen, Andrew Reed, Lisa Michie, Orpheus Allison, Mark Rosenstein, John Hayes, Beth Lazer, Rebecca Em Campbell, Allan Goodstadt, Marianna Bailey, Clifford Davids, Mark Goldstein and Mary Ellen Brown.

On February 15, 2000, City Council (1) appointed Jim Torpey, John Hayes, Mary Ellen Brown, Beth Lazer and Mark Goldstein to each serve a three year term respectively, terms beginning on March 1, 2000, and expiring on March 1, 2003, or until their successors have been appointed; and (2) appointed Mark Rosenstein, Raphael Peter and Andrew Reed to each serve a two year term respectively, terms beginning on March 1, 2000, and expiring on March 1, 2002, or until their successors have been appointed.

Because of a three way tie vote amongst Marianna Bailey, Orpheus Allison and Allan Goodstadt, City Council instructed the City Clerk to place the remaining vacant seat on the February 22, 2000, City Council agenda for consideration.

Marianna Bailey received 4 votes; Allen Goodstadt received 2 votes; and Orpheus Allison received 0 votes. Therefore, Marianna Bailey was appointed as a member of the Public Access Channel to serve a two year term, term to begin March 1, 2000, and expire on March 1, 2002, or until her successor has been appointed.

RESOLUTION BOOK NO. 25 - PAGE 424

V. NEW BUSINESS:

A. RESOLUTION NO. 00-32- RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS CHUNNS COVE ROAD/PINEY MOUNTAIN ROAD AREA (ALSO KNOWN AS AREA 2001-A) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

B. RESOLUTION NO. 00-33 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA LOCATED NORTH OF U.S. HIGHWAY 70 BETWEEN RICEVILLE ROAD AND LOWER GRASSY BRANCH ROAD (ALSO KNOWN AS AREA 2001-B) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

C. RESOLUTION NO. 00-34 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA LOCATED NORTH AND SOUTH OF LONG SHOALS ROAD BETWEEN I-26 AND HENDERSONVILLE ROAD (ALSO KNOWN AS AREA 2001-C) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

D. RESOLUTION NO. 00-35 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS RIDGEFIELD BOULEVARD AND OAK TERRACE AREA (ALSO KNOWN AS AREA 2001-D) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

32

E. **RESOLUTION NO. 00-36- RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS NEW LEICESTER HIGHWAY AREA (ALSO KNOWN AS AREA 2001-E) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION**

F. **RESOLUTION NO. 00-37 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS THE ROCKY RIDGE ROAD/WEDGEFIELD DRIVE AREA (ALSO KNOWN AS AREA 2001-F) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION**

Planning & Development Director Scott Shuford said that this is the consideration of adoption of resolutions of intent so as to begin the process to annex six areas which are first priority areas.

In 1998 the City entered into an agreement with Benchmark, Inc., to develop a Five Year Annexation Plan. The first phase of this project consisted of the consultant identifying first priority areas and Council authorized staff to proceed with formulating plans to annex those areas. Six areas have been identified as qualifying for annexation under Part 3, Article 4A, Chapter 160-A of the North Carolina General Statutes. Adoption of the resolutions of intent sets forth a process that will result in the annexation of the six areas effective June 30, 2001. Steps in the process are proposed according to the following schedule:

Adoption of the Resolutions of Intent	February 22, 2000
Approval of Plans of Services	March 15, 2000
Public Information Meeting	May 2, 2000
Public Hearing(s)	May 23, 2000
Adoption of Annexation Ordinances	June 13, 2000
Effective date of Annexations	June 30, 2001

Staff recommends that the resolutions of intent be adopted by City Council to set in motion the process of consideration of annexation of the six areas outlined on the maps.

City Attorney Oast suggested that the consultant give the presentation on the overall annexation process. He then suggested that City Council consider each resolution separately with the consultant describing the characteristics of the area, City Council taking public comment and then consider the resolution of intent.

Mr. Richard Flowe, President of Benchmark Inc., passed out a locator map of the City of Asheville and reviewed with Council the procedural and technical phases of the annexation process. He said that the resolutions of intent do three things (1) identify the area proposed to be annexed; (2) sets a public informational meeting on May 2, 2000, and City Council public hearing on May 23, 2000; and (3) starts the procedural clock ticking. He said the Plan for Services consideration on March 15, 2000, and the public information meeting on May 2, 2000, will be a combination of all six areas but reviewed separately in detail. The public hearing on May 23, 2000, and the adoption of the annexation ordinances on June 13, 2000, will be separate actions.

City-wide data includes the following:

Current Land Area	39.41 square miles (primary)	1.73 square miles (satellite)
Proposed Annexation Area	3.08 square miles (primary)	
Satellites Made Contiguous	1.21 square miles	
Remaining Satellite Area		0.52 square miles (satellite)
Proposed Land Area	43.70 square miles (primary)	0.52 square miles (satellite)
Current Population	68,294 persons	(31,115 dwellings)
Estimated Annexation Population	1,950	(819 dwellings)
Proposed Estimated Population	70,244	(31,934 dwellings)

Vice-Mayor Cloninger said that members of Council have been furnished with copies of the resolutions and they would not be read.

Mr. Flowe then reviewed Area 2001-A (Chunns Cove Road/Piney Mountain Road area). Area A is just off I-240 at Chunns Cove Road. The area is 55.85 acres, 0.087 square miles, no population, no dwellings, 2 establishments, 0.10 in street mileage and the assessed value is $1,467,900.

Councilman Worley moved to adopt Resolution No. 00-32, the resolution of intent to consider annexation of the area known as Chunns Cove Road/Piney Mountain Road area, also known as Area 2001-A, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 425

Mr. Flowe then reviewed Area 2001-B (Arnold Road/Ranger Drive area). Area B is located north of U.S. Highway 70 between Riceville Road and Lower Grassy Branch Road. It includes the VA Hospital and some other properties in that area. The area is 195.15 acres, 0.305 square miles, 689 population, 242 dwellings, 6 establishments, 1.60 in street mileage and assessed value is $11,977,400.

Councilwoman Field moved to adopt Resolution No. 00-33, the resolution of intent to consider annexation of the area located north of U.S. Highway 70 between Riceville Road and Lower Grassy Branch Road, also known as Area 2001-B, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 429

Councilman Worley asked if he had a conflict of interest since he has ownership of property in this area. City Attorney Oast said that he did not see a conflict of interest for Councilman Worley.

Mr. Flowe then reviewed Area 2001-C (Lake Julian area). Area C is on the southernmost end of the City of Asheville. It is located north and south of Long Shoals Road between I-26 and Hendersonville Road. The area is 1,500.14 acres, 2.344 square miles, 1,245 population, 571 dwellings, 31 establishments, 4.61 in street mileage and assessed value is $142,072,700.

Councilman Hay moved to adopt Resolution No. 00-34, the resolution of intent to consider annexation of the area located north and south of Long Shoals Road between I-26 and Hendersonville Road, also known as Area 2001-C, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 433

Mr. Flowe then reviewed Area 2001-D (Ridgefield Boulevard area). Area D is located off of Brevard Road west of I-26 near the intersection of Sardis Road. The area is 205.65 acres, 0.321 square miles, 13 population, 5 dwellings, 18 establishments, 1.87 in street mileage and assessed value is $39,729,100.

Councilwoman Field moved to adopt Resolution No. 00-35, the resolution of intent to consider annexation of the area known as Ridgefield Boulevard and Oak Terrace area, also known as Area 2001-D, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 440

Mr. Flowe then reviewed Area 2001-E (New Leicester Highway area). Area E is located off of New Leicester Highway. The area is 9.03 acres, 0.014 square miles, 3 population, 1 dwellings, 3 establishments, no street mileage and assessed value is $932,300.

Councilman Peterson moved to adopt Resolution No. 00-36, the resolution of intent to consider annexation of the area known as New Leicester Highway, also known as Area 2001-E, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 445

Mr. Flowe then reviewed Area 2001-F (Wedgefield Road area). Area F is located in the Brevard Road and I-26 area. The area is 7.08 acres, 0.011 square miles, no population, no dwellings, 3 establishments, 0.12 in street mileage and assessed value is $6,846,900.

Councilman Worley moved to adopt Resolution No. 00-37, the resolution of intent to consider annexation of the area known as the Rocky Ridge Road/Wedgefield Drive area, also known as Area 2001-F, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 449

B. RESOLUTION NO. 00-38 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH URBAN DESIGN ASSOCIATES FOR THE PACK SQUARE CONCEPTUAL PLAN

ORDINANCE NO. 2673 - BUDGET AMENDMENT TO ESTABLISH A BUDGET FOR THE PACK SQUARE CONCEPTUAL PLAN

Mr. Mike Matteson, Director of City Development, said that this is the consideration of a resolution to approve the execution of a contract with Urban Design Associates for the Pack Square conceptual design and associated budget amendment.

The Pack Square Task Force sent requests for qualifications (RFQs) to a number of design firms for the Pack Square Renaissance Project. The RFQ packets were sent to the following firms:

Urban Design Associates (Pittsburgh)
Olin Partnership (Philadelphia)
Design Workshop, Inc. (Aspen)
Cooper, Robertson & Partner (New York)
Streetworks (Alexandria)
Wallace, Roberts & Todd (Philadelphia)
Duany, Plater-Zyberk & Co. (Charlotte)

The list of firms selected to receive the RFQ was established based upon recommendations from members of the Design Subcommittee of the Pack Square Task Force (which includes several architects). It was felt that there are a limited number of firms nationally with the ability to provide this type of design assistance.

Based upon their qualifications, past projects and other criteria, the Pack Square Task Force, as well as the Downtown Commission, have selected Urban Design Associates to work with the Task Force and community to develop this conceptual design for Pack Square/City-County Plaza.

The Task Force is in the process of raising $40,000 for this design process, which will include significant public participation in the form of a public forum on the design of public spaces as well as two public design workshops. Fifteen thousand dollars has been provided from the public sector ($7,500 from both the City and the County). The remaining $25,000 will come from private sector fundraising. The following is a list of contributors as of February 18, 2000:

City of Asheville
Buncombe County
John Cram
Julian Price
Jim Samsel
Asheville Downtown Association
Biltmore Company
PBL Investments, LLC
Mast General Store
Carol L. King & Associates
Market Connections
Russ Martin
Tower Associates
Coach USA
Pat McGuire
Sluder Furniture Co.

A special account has been established within the Planning and Development Department budget for this project. In addition to approval of the contract execution, Council will be asked to approve a budget amendment which is necessary in order to receive and disperse funds through this account.

City staff recommends City Council adopt a resolution to approve the execution of a contract for the Pack Square conceptual design and associated budget amendment.

Upon inquiry of Councilman Hay, Mr. Matteson explained some past projects that Urban Design Associates have designed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and ordinance and they will not be read.

Councilwoman Field moved for the adoption of Resolution No 00-38. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 453

Councilman Worley moved for the adoption of Ordinance No. 2673. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 166

C. RESOLUTION NO. 00-39 - RESOLUTION ADOPTING THE NEIGHBORHOOD TRAFFIC CALMING POLICY

Mr. Michael Moule, Traffic Engineer, said that this is the consideration of a resolution adopting the Traffic Calming Policy for the City of Asheville.

Citizens have previously expressed concerns about speeding traffic in Asheville neighborhoods. The City Council has shown their commitment to traffic calming by including a budget for traffic calming measures in the 1999-2000 budget. With input from other City departments and the general public, the Engineering Department has drafted a Neighborhood Traffic Calming Policy. This policy is intended to guide city staff and inform residents about the processes and procedures for implementing traffic calming on residential streets. Under the policy, the Traffic Engineering Division will work with residents to identify traffic problems in their neighborhoods and seek appropriate solutions.

Staff recommends that City Council adopt the Neighborhood Traffic Calming Policy in order to provide the methodology for implementing traffic calming on residential streets in the City.

Mr. Moule reviewed some minor changes to the policy since the worksession on February 1, 2000. With regard to thresholds, he did more research based on comments at the worksession and also from public comment. In the proposed plan, the current threshold to start the project development is 50% and the current threshold for the final approval of the plan is 70%. After research, he suggested lowering the threshold to start the project development to 40% and lowering the threshold for the final approval of the plan threshold to 60%.

Councilwoman Field suggested that we start with the thresholds that Mr. Moule suggests and see how it works. She felt that the community working within the community is a good idea.

Upon inquiry of Councilwoman Field, Mr. Moule said about 3-4 traffic calming projects can be completed in one year.

Councilman Peterson presented City Council with letters of support from the Kenilworth Residents Association, Mr. Terry Albrecht, Mr. Robert Maddix, Lottie and Luke Carpenter, and Ms. Betty Jean Martin. The Kenilworth Residents Association also requested City Council to increase the funding for the traffic calming projects in the amount of $150,000 in the upcoming budget.

Councilman Peterson explained some suggested amendments to the policy. He suggested that in the project initiation section, the following additional sentence in the first paragraph be added: "If City staff determines that an area under consideration has a high proportion of residents who are either low-income, elderly, or non-English speaking, or if there is not an existing neighborhood association, City staff will provide additional assistance to distribute and gather the petitions." He suggested the second sentence in the second paragraph of the project initiation section be amended as follows: "In order to move on to the next phase of project development, signatures must be gathered from at least 30 percent of the households (owners and renters) within the petition area."

Councilman Peterson also suggested that in the final approval process section, the third sentence in the first paragraph be amended to read "Signatures are required that represent at least 51% of the households in the petition area. However, if 20% of the households in the petition area sign a petition opposed to the proposed traffic calming measures, that at least 70% of the households in the petition area must sign a petition in support of the proposed measures." In addition, he suggested adding the following sentence after the first paragraph: "If City staff determines that an area under consideration has a high proportion of residents who are either low-income, elderly, or non-English speaking, or if there is not an existing neighborhood association, City staff will provide additional assistance to distribute and gather the petitions."

Vice-Mayor Cloninger said that Councilman Peterson's suggestion regarding the "low-income, elderly, or non-English speaking" residents is well-intentioned, however, he was not sure how staff would make those determinations.

City Attorney Oast explained that nothing in this policy would preclude staff from installing traffic calming devices in situations where they thought they were warranted. Since there are neighborhoods that are not well-enough organized to get these kind of petition drives going, staff may identify areas that need some sort of traffic calming assistance and it certainly would not be out of line to allow for staff to make that determination on its own.

Mr. Moule said that the policy does contain language that a study can be initiated by either requests from citizens, the City Council, the Technical Review Committee, the Planning & Zoning Commission, or staff, if it feels necessary to study it. Staff's goal at that point would be to put it back into the process and try to get the neighborhood involved.

City Engineer Cathy Ball said that if there is a safety issue where speeding is such a problem that we think someone would be in danger, City staff is responsible for taking action on that, regardless of this policy. There in nothing in this policy that would prohibit that. Also, since this is just the beginning of the policy, staff understands what the intent of Council is and if they run some items that might need to be changed, the will bring those back to Council. They will plan to review the policy at least semi-annually to make sure that it is in line with what we are trying to do in the community.

Councilman Peterson said that he would be willing to compromise with the lowering of the thresholds.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-39, with the threshold . to start the project development be lowered from 50% to 40% and the threshold for the final approval of the plan be lowered from 70% to 60%. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 454

D. ORDINANCE NO. 2674 - ORDINANCE EXPANDING THE MEMBERSHIP OF THE PUBLIC ACCESS CHANNEL COMMISSION TO INCLUDE A POSITION FOR A REPRESENTATIVE OF THE LEAGUE OF WOMEN VOTERS AS A NON-VOTING, EX-OFFICIO MEMBER

Vice-Mayor Cloninger said that this is the consideration of an ordinance expanding the membership of the Public Access Channel Commission to include a position for a representative of the Asheville-Buncombe League of Women Voters as a non-voting, ex-officio member.

The City Council has established a Public Access Channel Commission to facilitate the establishment and management of the public access channel authorized pursuant to the City's renegotiated cable television franchise agreement. It was the consensus of City Council to add a non-voting, ex-officio member to the Commission which shall be a representative of the Asheville-Buncombe County League of Women Voters. Their term will commence upon appointment and shall terminate three months after the City Council has entered into a contract with a third party to operate the public access channel.

Mr. Talmadge Neece, representing the Asheville-Buncombe County League of Women Voters, thanked City Council for this challenge.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2674. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 169

E. RESOLUTION NO. 00-40 - RESOLUTION APPOINTING THE ASHEVILLE-BUNCOMBE LEAGUE OF WOMEN VOTERS TO ACT AS AN ADVISORY GROUP TO THE PUBLIC ACCESS CHANNEL COMMISSION

Vice-Mayor Cloninger said that this is the consideration of a resolution appointing the Asheville-Buncombe League of Women Voters to act as an advisory group to the Public Access Channel Commission

The City of Asheville has established a Public Access Channel Commission as set forth in Division 12 of Article III of Chapter 2 of the Code of Ordinances of the City of Asheville to facilitate the establishment and management of a public access channel on the cablevision system. The City requested proposals from third parties to operate, program and manage the public access channel. No complete responses for proposals were received, but the Asheville-Buncombe League of Women Voters responded by expressing an interest in assisting the City of Asheville with developing a method for establishing the public access channel. The City Council has determined that the Asheville-Buncombe League of Women Voters could provide advice and assistance to the Public Access Channel Commission in order to facilitate the establishment and management of a public access channel on the cablevision system.

Councilwoman Whitmire said that she did talk with some other organizations who stated that they would attend the Commission meetings. They said that if they have any concerns they would voice them at that meeting, instead of asking for an ex-officio, non-voting seat on the Commission.

Councilman Peterson encouraged other organizations to take an active role in this process and felt that if an organization would commit the time and energy, then perhaps City Council should consider appointing other ex-officio, non-voting members.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 00-40. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of February 4-10, 2000: Jesse Davis (Water), BellSouth (Water), Nancy Indriso (Fire), Shera Thurman (Police) and Lewis Haight (Water).

The following claims were received during the period of February 11-17, 2000: Theodore Smith (Fire), B. C. Banks (Sanitation), Bellsouth (Water) and Karen Youket (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Vice-Mayor Cloninger adjourned the meeting at 7:57 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 29, 2000
Shiloh Community Center
121 Shiloh Road

7:00 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor M. Charles Cloninger

The following topics were raised by residents and addressed by City Council and City staff: drugs in area and the need for the community and Police Department to work together to beat the drug problem; fumes and noise from Rice's Towing; need for speed limit signs on Shiloh Road; request for more police presence, foot patrols and undercover officers in the area to deter selling and buying of drugs; cars parked on Taft Avenue and Jeffries Avenue in wrong direction and too close to stop signs at intersections; need to reduce 35 mph speed on Taft Avenue and Jeffries Avenue; complaints that sign on Masonic Lodge at 35 Booker Street and sign for the Faith Tabernacle Christian Center at 200 Brooklyn Road had to be removed when there are other signs in different areas that are allowed to remain; suggestion of more lighting in areas targeted for drugs; need for enforcement of noise ordinance with regard to loud car stereos; no swimming pool in the community for children; need for more opportunities for children in the area; Faith Tabernacle Christian Center's application for a permit to expand was denied but Trinity Baptist Church's renovations were approved - request that if adjustments are made for one, they should be made for all; need to have automobile repair areas on Carver Court, Caribou Road and corner of Brooklyn and Shiloh Road investigated to see if they are operating legally; abandoned house at 131-1/2 Wyatt Street and 14 West Chapel Road; concern that residents in area might be forced to sell in order to allow for commercial encroachment; concern that water or sewer pipes in area are being upgraded to allow further commercial expansion in area; are large barrels at Chammie's Car Wash allowed to remain in that area; need to have Chammie's Car Wash keep water on their own property in the winter because when it flows onto the street, it freezes and causes a safety hazard; need for neighborhood to be aware of developments in their community to possibly voice objections prior to the buildings being built; speeding and drag racing on Brooklyn Road; litter in the area; and request for "children playing" signs in neighborhood.

Mayor Sitnick adjourned the meeting at 8:50 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 7, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger (participated by speaker phone); Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Grant Application with Community Foundation of WNC for Summer Outdoor Adventure Program

Summary: The consideration of a resolution to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant to implement outdoor adventure activities for youth in conjunction with the Summer Playground Program.

Outdoor adventure is designed to provide outdoor recreation activities for youth ages 8-11 during the summer in conjunction with the Summer Playground Program. The program will serve up to 100 youth with outdoor activities including overnight camping and whitewater rafting.

The Parks and Recreation Department is requesting $1,995 in grant funds. The grant does not require matching funds.

The Parks and Recreation Department recommends the approval of the application for the grant funds through the Community Foundation of Western North Carolina through the Summertime Kids 2000 program.

Grant Application with Asheville Merchants Association for First Night

Summary: The consideration of a resolution to apply for and enter into an agreement with the Asheville Merchants Foundation to assist with funding the Cultural Program Plan for First Night Asheville 2000.

First Night Asheville is an alcohol-free New Year's Eve celebration of the arts that specifically targets families. First Night's mission is to broaden and deepen the public's appreciation of visual and performing arts through an innovative, diverse, and high quality New Year's Eve program which offers the community a shared cultural experience accessible and affordable to all. The Cultural Program Plan encompasses all of the cultural programming that will be presented at First Night including cultural performers, visual and demonstration artists and traveling exhibits, and production cost and supplies.

The Parks and Recreation Department is requesting $20,000 in grant funds from the Asheville Merchants Foundation. The grant does not require matching funds.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the Asheville Merchants Foundation to assist with funding the Cultural Program Plan for First Night Asheville 2000.

Budget Amendment to the 35 Fund - Water Bond Capital Improvements Fund

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 (35 Fund - Water Bond Capital Improvements Fund) to reprogram funds and set up funding for the Fiscal Year 1999/00 Water Distribution System Improvements in order to fund various projects.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Contribution From Other Funds and Appropriated Fund Balance.

There are excess funds of $53,911 available in the following projects: Annexation I - Blackberry, CDM Mills Master Plan, North Fork/Bee Tree Dams, Reservoir Tunnel Repairs and NC DOT Projects for Haw Creek US 70/74. There are also funds of $99,998 available in the Fiscal Year 1998/99 Distribution System Improvements as a result of transferring this project to the 30 Fund to be completed by our newly formed construction crew.

By reprogramming these funds and transferring the contribution to capital from the 30 Fund of $568,081, the funding for the following projects can be increased or set up: additional engineering costs associated with the Bee Tree Dam Renovations; additional funding for NC DOT Projects including the second payment for the US 70/74 Haw Creek Project, the first payment for the Sweeten Creek Phase I Project, and an allotment for engineering charges associated with future NC DOT Projects; additional matching funds for the Critical Needs Projects; and the addition of the Fiscal Year 1999/00 Distribution System Improvements to include the Bond Administration and Feasibility Study and Water Line Oversizing Projects.

The Regional Water Authority approved an amendment to Capital Project Ordinance 82-25 at the February 15, 2000, meeting to reprogram funds and reflect the transfer from the 30 Fund (Operating Budget) to fund the following: Bee Tree Dam Renovations Project, the NC DOT Projects, the Critical Needs Contracts to include Matching Funds, and the Fiscal Year 1999/2000 Distribution System Improvements.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 82-25 to reprogram funds and set up funding for the Fiscal Year 1999/00 Water Distribution System Improvements in order to fund the various projects described above.

Non-Warranty Deed for Strip of Land at 1 Park Avenue North

Summary: The consideration of a resolution authorizing the execution of a non-warranty deed to Mr. Whit Rylee for property located at 1 Park Avenue North, Asheville, N.C.

A request was received from Mr. Whit Rylee on October 6, 1999, requesting that the City execute a non-warranty deed to him, quit claiming all government interest in the portion of his property that encroaches onto City right-of-way. According to the Buncombe County tax records, the building built on PIN No. 9638-08-98-8871 is a one story block and frame building that was constructed in 1949. The building encroaches into the right-of-way approximately two feet. The date of the dedication of the right-of-way in this area is undetermined.

The Public Works Department staff recommends City Council execute a non-warranty deed, quit claiming all government interest in the portion of the property where the encroachment lies.

At the request of Councilman Worley, City Attorney Oast said that he would make sure that the deed gives them just enough right-of-way to get the building off the public right-of-away.

NC DOT Agreement for Bruce Road Railroad Crossing

Summary: The consideration of a resolution authorizing the Mayor to enter into a Supplemental Municipal Agreement with the North Carolina Department of Transportation (NCDOT) for the installation of a railroad-crossing signal at Bruce Road and associated budget amendment, in the amount of $10,460, for the City's portion of the cost of the installation of the railroad crossing signal.

Each year the NCDOT reviews railroad crossings to determine their safety. The Federal Government funds these projects in priority order determined by NCDOT. The funding is a 90%: 10% match, with the Federal Government paying 90% of the costs and the City paying 10% of the costs.

In 1997, NCDOT recommended that a railroad-crossing signal be placed at the Bruce Road railroad crossing for safety reasons. A municipal agreement was approved by City Council on November 11, 1997, related to this project. Following the completion of the design, it was determined that it would be necessary to relocate the railroad crossing stop bars, repaint railroad advance warning pavement markings, install/replace railroad advance warning signs, add fill in the northeast quadrant and add fill and extend pipe in the southwest quadrant. Due to these changes the cost has increased from approximately $90,000 to $104,600. The increased cost for the City of Asheville will be from $9,000 to $10,460.

Additionally, the City will need to acquire a construction easement for the property off the right-of-way. City staff will be required to perform the work off of the right-of-way. This work will consist of installing a pipe and adding fill. This work will be performed by the Public Works Department.

In addition to the $10,460 required for the installation of the railroad-crossing signal, the City will be required to pay half of the maintenance of the railroad crossing each year. The City's portion of the maintenance cost is approximately $1,300 per year. This cost will be budgeted as a part of the Engineering Department's operating budget.

Staff recommends that City Council authorize (1) the Mayor to sign a Supplemental Municipal Agreement with NCDOT to allow a railroad-crossing signal on Bruce Road; and (2) a budget amendment, in the amount of $10,460, for the cost of the installation of the railroad-crossing signal.

Financing Purchase of Ice Floor Equipment for Civic Center

Summary: The consideration of a resolution authorizing the installment financing of an ice floor and related hockey and ice skating equipment for the Civic Center.

By Resolution No. 99-143 dated September 14, 1999, the City Council previously approved the purchase, from Asheville Professional Hockey Ltd., of the ice floor and related hockey and ice skating equipment for the Civic Center.

The Finance Department has sought proposals from 16 firms to finance the purchase of the equipment. Five proposals were received, the best of which was submitted by Banc One Leasing Corporation - - 5.4192% for four years.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Banc One Leasing Corporation for the purchase and authorizes the City Manager, Finance Director and City Clerk to execute and deliver any and all necessary documents.

Council adopt the resolution and enabling budget amendment.

Setting a public hearing on March 28, 2000, to consider an Ordinance Designating the Patton/Parker House located at 95 Charlotte Street as a Local Historic Landmark

Fees & Charges Manual Amendment to Allow a $2.50/Month Fee for One Additional Roll-Out Container

Summary: The consideration of a resolution amending the Fees and Charges Manual to reflect the addition of an automated container fee for citizens/businesses who request one additional automated roll out container.

The Sanitation Division will be implementing the Automated Side Loader Pilot Program on April 3, 2000.

Automated collection equipment must use proprietary containers for maximum efficiency. Also, non-standard containers may be damaged or unserviceable by the equipment with subsequent liability to the City. As a part of the pilot program, citizens will be supplied one (1) 96-gallon roll-out container (at a cost to the City of $40 each) which is equivalent to three (3) standard sized garbage cans. Only City authorized containers will be serviced.

In cases where a resident or business requests more than one (1) container, the City proposes to supply up to one (1) additional container at a cost to the resident of $2.50 per month. Billing can be processed through the customers bi-monthly water bill.

Staff will encourage utilization of the recycling program to reduce refuse volumes. One (1) 96-gallon container will be one-half of the current limit of six (6) standard garbage containers; however, forthcoming proposed changes to Chapter 15 of the Code of Ordinances will reflect recycling and changes in service volumes (standard of 1 rollout, limit of 2 per household plus rental fee).

The proposed fee of $2.50 per month will cover capital costs of supplying the container plus additional operational costs. The Sanitation Division will handle container requests and administration.

Staff recommends approval of the resolution to amend the fees and charges manual to allow a monthly fee of $2.50 per month for one (1) additional 96-gallon roll-out container as requested by citizens with said fees to be added to customer water bills.

Upon inquiry of Vice-Mayor Cloninger, Mr. Richard Grant, Solid Waste Manager, explained the reasoning of charging $2.50 per month indefinitely for the one additional container. He said that the one container (supplied to residents at no cost) will be sufficient for most customers and they are trying to encourage people to recycle. He also said that there are operational costs included in adding a second container. He did state that the program will be monitored and if adjustments are needed, they will bring those back to City Council.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

DRAFT PLAN FOR SERVICES

Planning & Development Director Scott Shuford said that this is the consideration of approving the City of Asheville Plan for Services report for areas proposed for annexation.

On February 22, 2000, City Council adopted six resolutions of intent beginning the annexation process. Due to an error made by the consultant regarding dates, the resolutions of intent will need to be brought back to City Council again at their formal meeting on March 15, 2000, for adoption. The Plan of Services required by state statutes has been prepared by our consultant and a copy has been provided to City Council. Upon review and approval by City Council, the Plan will be made available for public review. The following steps will complete the process:

Approval of Resolutions of Intent	March 15, 2000
Approval of Plan of Services	March 15, 2000
Public Information Meeting	May 2, 2000
Public Hearing(s)	May 23, 2000
Adoption of Annexation Ordinances	June 13, 2000
Effective Date of Annexations	June 30, 2001

Staff recommends the Plan of Services be approved and made available for public inspection.

Mr. F. Richard Flowe, President of Benchmark, Inc., passed out a revised Plan of Services. He then reviewed the following sections with Council: annexation area data; statutory standard requirements for each of the six areas proposed for annexation; plan for extension of services into annexed areas: (1) police protection, (2) fire protection, (3) solid waste collection, (4) street maintenance services, (5) water distribution, (6) sewer collection, (7) street lighting services, (8) recreation facilities and services, and (9) administration and miscellaneous services; financing plan for annexation areas: (1) revenue estimates, (2) revenue/expenditure analysis; (3) capital expenditures; and (4) methods of financing; and statement of impact for annexation areas: (1) financial impact on rural fire departments; (2) impact on fire protection; and (3) impact on insurance rates. He stated that the following items are also included in the Plan: (1) statutory standards statement data and contiguity test maps; (2) 1990 census tract information; (3) property owner listing; (4) property inventories for each area; (5) project schedule; (6) General Statutes governing annexation for cities of 5,000 persons or more; and (7) annexation agreement. He stated that land use pattern maps for each area is located in the Plan as well.

Mr. Flowe responded to several questions and comments from City Council, some being, but are not limited to: making sure that the highest level of service is provided to the newly annexed areas and what provisions are being made to areas that are not currently being served by sewer lines.

With regard to the on-site septic system maintenance and repair service for the parcels that are not being served by sewer lines, Councilwoman Field stated that she would not vote for an annexation that does not provide full services. City Manager Westbrook said that he would be happy to meet with Councilwoman Field and explain the sewer issue, noting that the septic maintenance and repair service is proactive and environmental safe.

Councilman Hay was assured by Mr. Flowe that what Council will be asked to adopt at it's formal meeting on March 15, 2000, is the Plan for Services in order that it be made available for public inspection, with the understanding that City Council is not satisfied with the Plan and can make changes to it after public comment and prior to the adoption of the annexation ordinances on June 13, 2000.

Councilwoman Whitmire asked for a report on the cost analysis of the septic system maintenance and repair service vs. Metropolitan Sewerage District placing sewer lines in those areas.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

SUMMER YOUTH EMPLOYMENT

Parks & Recreation Director Irby Brinson said that this is the consideration of a budget amendment, in the amount of $100,000, to fund the YES! 2000 (formerly the Summer Youth Employment Program).

The YES! 2000 represents the City of Asheville's ongoing commitment to provide youth with valuable summer employment opportunities that have significant impact in their development and preparation to be employable members in our community. The Parks and Recreation Department is working in collaboration with the Community Foundation of Western North Carolina (Community Foundation), Job Link, Chamber of Commerce, Housing Authority, and community volunteers to provide employment and training opportunities for 50 youth, ages 14 to 19, during June-August 2000. The Parks and Recreation Department hopes to expand the program to serve 25 additional youth pending participation by the private sector, and a grant from the Community Foundation.

Staff has been working in conjunction with the above agencies since September 1999 to work collectively to enhance the program for 2000. The collaboration has resulted in a new focus for the program to provide necessary life experiences for youth as they prepare to face future responsibility and pressure. It is the desire of the group to use a portion of the City's contribution, and the Community Foundation grant for program administration, with additional resources for job placement coming from the private sector.

The Parks and Recreation Department is responsible for the management and operation of the program. Each year City Council has generously funded the program's operating budget.

The Parks and Recreation Department recommends City Council appropriate $100,000 to establish an operating budget for Youth Employment Services 2000.

Upon inquiry of Councilman Peterson, City Manager Westbrook said this $100,000 will come from the unappropriated fund balance.

Mayor Sitnick hoped that private business owners will see this program as an opportunity to invest in our City and give young people the feeling of self-worth and self-investment, which will prevent some of the social despair that comes later.

Upon inquiry of Councilwoman Whitmire, Mr. Brinson said that approximately 98% of the $100,000 budget goes to pay the young people and that he would provide her with a breakdown of the costs for last year's program.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UPDATE OF ENVIRONMENTAL SUSTAINABILITY PROJECT

Ms. Karen Rankin, Waste Management Coordinator, and Mr. Terry Albrecht, representing the Land-of-Sky Regional Council, said that over the past several months, the City of Asheville partnered with the Land-of-Sky Regional Council's Waste Reduction Partners (WRP) and the NC Division of Pollution Prevention and Environmental Assistance (DPPEA) to conduct environmental assessments of several city facilities which assessments have revealed several opportunity areas with the potential to improve efficiency and reduce waste in internal operations.

The Waste Reduction Partners team has conducted four assessments of city facilities: the City Hall building, the Print Shop, Fleet Management, and the North Fork Reservoir. These assessments included analysis of such things as the facilities' water use, energy efficiency, and waste production. The North Fork reservoir report has not yet been received by the City.

Based on the results of the efficiency assessments, staff has undertaken the following actions:

- Added a dumpster for cardboard recycling at the Fleet Management facility;
- Provided new recycling receptacles for white and mixed paper in the Print Shop;
- Replaced one parts washer in Fleet Management to extend the life of the solvent used in the cleaning process;
- Began replacing existing light fixtures with ones that use electronic ballasts and T-8 light tubes.

The reports highlighted some needs that will require additional funding in order to implement. Funding for the following recommendations will be included in departmental budget requests for FY 2000/01:

- Purchase of an antifreeze-recycling unit for Fleet Management;
- Purchase of three additional parts washers and large washing cabinet to improve solvent management in Fleet Management;
- Replacement of the work bay lighting in Fleet Management;
- Replacement of light fixtures in City facilities.

In addition, staff is currently collecting additional information on the following recommendations:

- Attempting to locate a vendor to recycle used oil filters;
- Developing an employee suggestion and education program;
- Determining costs and vendors for use of pump bottles instead of aerosol cans in Fleet Management;
- Developing a pilot project to test the use of bypass oil filters in some City vehicles;
- Developing a multi-agency team in cooperation with Land-of-Sky Regional Council to investigate the use of alternatively fueled vehicles;
- Investigating soy based ink options and higher recycled content paper products for use in the City Print Shop.

Further investigation and implementation of these and other assessment findings will continue over the next several months.

Mayor Sitnick suggested that this report be presented at a formal meeting in order to show the public that the City of Asheville is improving efficiency and reducing waste in it's internal operations.

This report is being presented for informational purposes only and no Council action is required.

UPDATE ON THE WNC REGIONAL AIR POLLUTION CONTROL BOARD

Ms. Nelda Holder, Chair of the WNC Regional Air Pollution Control Board ("Board"), and Mr. Arlis Queen, City's appointee on the Board, said that since that Haywood County has withdrawn from the organization, they urged City Council to work with Buncombe County to draw up a new agreement and not to dissolve the agency. Ms. Holder passed out information showing the advantages of continuing the agency vs. allowing the State's Division of Air Quality to assume responsibility. She stated that an agreement needs to be approved by July 1, 2000, by the Environmental Management Commission.

Vice-Mayor Cloninger hoped that the City will do everything they can to support the Board in order that they remain in existence. He felt the State does not have adequate resources to cover our area.

Mr. Paul Muller, Regional Supervisor of the NC Division of Air Quality, said that there will be no change in monitoring. He also passed out some information on his Asheville office staff as well as 1999 activity information on the Asheville Regional Office.

Mayor Sitnick said that City Manager Westbrook is discussing this issue with the County Manager.

Discussion surrounded why Haywood County pulled out of the agreement, what happens to the assets of the agency is it is disbanded, what sub-committees have been established and what are their missions, can the City of Asheville operate the agency itself, is it possible for the City to discuss including other municipalities within Buncombe County in the agreement, what is the status of the audit of the Board, does the State have a citizens advisory group that they work with, and does the local agency supply City Council with their meeting minutes.

Mayor Sitnick stressed that the City Council's first concern is public health.

Mayor Sitnick then appointed a fact finding committee of herself, Vice-Mayor Cloninger, Councilwoman Whitmire and Councilman Peterson to meet with representatives of the Land-of-Sky Regional Council, Buncombe County, NC Division of Air Quality, the City's appointees to the WNC Regional Air Pollution Control Board, the City Manager, the City Attorney and others as appropriate to review the entire issue and report back to City Council. Some information which will be requested will be a response from the State to the information passed out by Ms. Holder regarding the advantages of keeping the local agency, a list of staff and their positions for the local agency, a list of the local agency's 1999 activities, and a list of members of the local agency's new advisory council.

City Manage Westbrook said that he would put the information requested by City Council in writing to Ms. Holder and Mr. Muller.

REPORTS ON BOARDS AND COMMISSIONS

Councilman Hay updated City Council on the Future of the Civic Center Task Force's meetings stating that the Task Force will be compiling a report which they will bring to City Council in the near future.

Councilwoman Field reported that she has been appointed as Co-Chair (with Mr. Mike Sobol) on a sub-committee of the Metropolitan Sewerage District Board that is looking at extending it's boundaries, and if it does, where the boundaries would be extended.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Wednesday - March 15, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger (participated by speaker phone at 5:50 p.m.); Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Hay gave the invocation.

ADDITIONS TO THE AGENDA

Mayor Sitnick stated that she would like to make a statement relative to the proposed zoning designation of a Parks and Open Space District.

Mayor Sitnick announced that the N.C. Dept. of Transportation is sponsoring their annual litter sweep and spring roadside cleanup on April 7-20, 2000. She encouraged everyone to keep in mind the impact of litter on our streets and highways and to not litter.

I. PROCLAMATIONS:

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 22, 2000, THE COMMUNITY MEETING HELD ON FEBRUARY 29, 2000, AND THE WORKSESSION HELD ON MARCH 7, 2000

B. RESOLUTION NO. 00-41 - RESOLUTION AUTHORIZING A GRANT APPLICATION WITH THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA FOR THE OUTDOOR ADVENTURE PROGRAM

Summary: The consideration of a resolution to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant to implement outdoor adventure activities for youth in conjunction with the Summer Playground Program.

Outdoor adventure is designed to provide outdoor recreation activities for youth ages 8-11 during the summer in conjunction with the Summer Playground Program. The program will serve up to 100 youth with outdoor activities including overnight camping and whitewater rafting.

The Parks and Recreation Department is requesting $1,995 in grant funds. The grant does not require matching funds.

The Parks and Recreation Department recommends the approval of the application for the grant funds through the Community Foundation of Western North Carolina through the Summertime Kids 2000 program.

RESOLUTION BOOK NO. 25 – PAGE 456

C. RESOLUTION NO. 00-42 - RESOLUTION AUTHORIZING A GRANT APPLICATION WITH THE ASHEVILLE MERCHANTS ASSOCIATION TO ASSIST WITH FUNDING FOR THE CULTURAL PROGRAM PLAN FOR FIRST NIGHT ASHEVILLE 2000

Summary: The consideration of a resolution to apply for and enter into an agreement with the Asheville Merchants Foundation to assist with funding the Cultural Program Plan for First Night Asheville 2000.

First Night Asheville is an alcohol-free New Year's Eve celebration of the arts that specifically targets families. First Night's mission is to broaden and deepen the public's appreciation of visual and performing arts through an innovative, diverse, and high quality New Year's Eve program which offers the community a shared cultural experience accessible and affordable to all. The Cultural Program Plan encompasses all of the cultural programming that will be presented at First Night including cultural performers, visual and demonstration artists and traveling exhibits, and production cost and supplies.

The Parks and Recreation Department is requesting $20,000 in grant funds from the Asheville Merchants Foundation. The grant does not require matching funds.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the Asheville Merchants Foundation to assist with funding the Cultural Program Plan for First Night Asheville 2000.

RESOLUTION BOOK NO. 25 – PAGE 457

D. ORDINANCE NO. 2675 - BUDGET AMENDMENT TO AMEND THE WATER BOND CAPITAL IMPROVEMENTS FUND (35 FUND)

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 (35 Fund - Water Bond Capital Improvements Fund) to reprogram funds and set up funding for the Fiscal Year 1999/00 Water Distribution System Improvements in order to fund various projects.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Contribution From Other Funds and Appropriated Fund Balance.

There are excess funds of $53,911 available in the following projects: Annexation I - Blackberry, CDM Mills Master Plan, North Fork/Bee Tree Dams, Reservoir Tunnel Repairs and NC DOT Projects for Haw Creek US 70/74. There are also funds of $99,998 available in the Fiscal Year 1998/99 Distribution System Improvements as a result of transferring this project to the 30 Fund to be completed by our newly formed construction crew.

By reprogramming these funds and transferring the contribution to capital from the 30 Fund of $568,081, the funding for the following projects can be increased or set up: additional engineering costs associated with the Bee Tree Dam Renovations; additional funding for NC DOT Projects including the second payment for the US 70/74 Haw Creek Project, the first payment for the Sweeten Creek Phase I Project, and an allotment for engineering charges associated with future NC DOT Projects; additional matching funds for the Critical Needs Projects; and the addition of the Fiscal Year 1999/00 Distribution System Improvements to include the Bond Administration and Feasibility Study and Water Line Oversizing Projects.

The Regional Water Authority approved an amendment to Capital Project Ordinance 82-25 at the February 15, 2000, meeting to reprogram funds and reflect the transfer from the 30 Fund (Operating Budget) to fund the following: Bee Tree Dam Renovations Project, the NC DOT Projects, the Critical Needs Contracts to include Matching Funds, and the Fiscal Year 1999/2000 Distribution System Improvements.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 82-25 to reprogram funds and set up funding for the Fiscal Year 1999/00 Water Distribution System Improvements in order to fund the various projects described above.

ORDINANCE BOOK NO. 18 – PAGE 171

E. RESOLUTION NO. 00-43 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY A NON-WARRANTY DEED FOR A STRIP OF LAND AT 1 PARK AVENUE NORTH

Summary: The consideration of a resolution authorizing the execution of a non-warranty deed to Mr. Whit Rylee for property located at 1 Park Avenue North, Asheville, N.C.

A request was received from Mr. Whit Rylee on October 6, 1999, requesting that the City execute a non-warranty deed to him, quit claiming all government interest in the portion of his property that encroaches onto City right-of-way. According to the Buncombe County tax records, the building built on PIN No. 9638-08-98-8871 is a one story block and frame building that was constructed in 1949. The building encroaches into the right-of-way approximately two feet. The date of the dedication of the right-of-way in this area is undetermined.

The Public Works Department staff recommends City Council execute a non-warranty deed, quit claiming all government interest in the portion of the property where the encroachment lies.

RESOLUTION BOOK NO. 25 – PAGE 458

F. RESOLUTION NO. 00-44 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE BRUCE ROAD RAILROAD CROSSING

Summary: The consideration of a resolution authorizing the Mayor to enter into a Supplemental Municipal Agreement with the North Carolina Department of Transportation (NCDOT) for the installation of a railroad-crossing signal at Bruce Road and associated budget amendment, in the amount of $10,460, for the City's portion of the cost of the installation of the railroad crossing signal.

Each year the NCDOT reviews railroad crossings to determine their safety. The Federal Government funds these projects in priority order determined by NCDOT. The funding is a 90%: 10% match, with the Federal Government paying 90% of the costs and the City paying 10% of the costs.

In 1997, NCDOT recommended that a railroad-crossing signal be placed at the Bruce Road railroad crossing for safety reasons. A municipal agreement was approved by City Council on November 11, 1997, related to this project. Following the completion of the design, it was determined that it would be necessary to relocate the railroad crossing stop bars, repaint railroad advance warning pavement markings, install/replace railroad advance warning signs, add fill in the northeast quadrant and add fill and extend pipe in the southwest quadrant. Due to these changes the cost has increased from approximately $90,000 to $104,600. The increased cost for the City of Asheville will be from $9,000 to $10,460.

Additionally, the City will need to acquire a construction easement for the property off the right-of-way. City staff will be required to perform the work off of the right-of-way. This work will consist of installing a pipe and adding fill. This work will be performed by the Public Works Department.

In addition to the $10,460 required for the installation of the railroad-crossing signal, the City will be required to pay half of the maintenance of the railroad crossing each year. The City's portion of the maintenance cost is approximately $1,300 per year. This cost will be budgeted as a part of the Engineering Department's operating budget.

Staff recommends that City Council authorize (1) the Mayor to sign a Supplemental Municipal Agreement with NCDOT to allow a railroad-crossing signal on Bruce Road; and (2) a budget amendment, in the amount of $10,460, for the cost of the installation of the railroad-crossing signal.

RESOLUTION BOOK NO. 25 – PAGE 460

G. ORDINANCE NO. 2676 - BUDGET AMENDMENT TO INSTALL A RAILROAD CROSSING ON BRUCE ROAD

Summary: See Consent Agenda Item "F" above.

ORDINANCE BOOK NO. 18 - 174

H. RESOLUTION NO. 00-45 - RESOLUTION APPOINTING A MEMBER ON THE EDUCATIONAL ACCESS CHANNEL COMMISSION

Summary: Ordinance No. 2554 adopted on March 9, 1999, established an Educational Access Channel Commission. On May 25, 1999, members to the Commission were appointed.

On February 10, 2000, Susan C. Fisher, School Board Chair, requested that Dr. Patti Cutspec, Director of Community Relations/Development, be appointed as one of the representatives of City Schools to replace Ms. Carolyn Moore. Dr. Cutspec will be filling the unexpired term of Ms. Moore, whose term will expire on June 1, 2001, or until her successor is appointed.

Staff recommends City Council adopt the resolution appointing Dr. Patti Cutspec to the Educational Access Channel Commission.

RESOLUTION BOOK NO. 25 – PAGE 461

I. RESOLUTION NO. 00-46 - RESOLUTION AUTHORIZING THE INSTALLMENT FINANCING OF AN ICE FLOOR AND RELATED HOCKEY AND ICE SKATING EQUIPMENT FOR THE CIVIC CENTER

Summary: The consideration of a resolution authorizing the installment financing of an ice floor and related hockey and ice skating equipment for the Civic Center.

By Resolution No. 99-143 dated September 14, 1999, the City Council previously approved the purchase, from Asheville Professional Hockey Ltd., of the ice floor and related hockey and ice skating equipment for the Civic Center.

The Finance Department has sought proposals from 16 firms to finance the purchase of the equipment. Five proposals were received, the best of which was submitted by Banc One Leasing Corporation - - 5.4192% for four years.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Banc One Leasing Corporation for the purchase and authorizes the City Manager, Finance Director and City Clerk to execute and deliver any and all necessary documents.

Council adopt the resolution and enabling budget amendment.

RESOLUTION BOOK NO. 25 – PAGE 462

J. ORDINANCE NO. 2677 - BUDGET AMENDMENT RELATIVE TO FINANCING OF AN ICE FLOOR AND RELATED HOCKEY AND ICE SKATING EQUIPMENT FOR THE CIVIC CENTER

Summary: See Consent Agenda Item "I" above.

ORDINANCE BOOK NO. 18 – PAGE 176

K. MOTION SETTING A PUBLIC HEARING FOR MARCH 28, 2000, TO CONSIDER THE LOCAL HISTORIC LANDMARK DESIGNATION FOR THE PATTON/PARKER HOUSE LOCATED AT 95 CHARLOTTE STREET, ASHEVILLE, N.C.

L. RESOLUTION NO. 00-47 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL TO REFLECT THE ADDITION OF AN AUTOMATED CONTAINER FEE FOR CITIZENS/BUSINESSES WHO REQUEST ONE ADDITIONAL AUTOMATED CONTAINER

Summary: The consideration of a resolution amending the Fees and Charges Manual to reflect the addition of an automated container fee for citizens/businesses who request one additional automated roll out container.

The Sanitation Division will be implementing the Automated Side Loader Pilot Program on April 3, 2000.

Automated collection equipment must use proprietary containers for maximum efficiency. Also, non-standard containers may be damaged or unserviceable by the equipment with subsequent liability to the City. As a part of the pilot program, citizens will be supplied one (1) 96-gallon roll-out container (at a cost to the City of $40 each) which is equivalent to three (3) standard sized garbage cans. Only City authorized containers will be serviced.

In cases where a resident or business requests more than one (1) container, the City proposes to supply up to one (1) additional container at a cost to the resident of $2.50 per month. Billing can be processed through the customers bi-monthly water bill.

Staff will encourage utilization of the recycling program to reduce refuse volumes. One (1) 96-gallon container will be one-half of the current limit of six (6) standard garbage containers;

however, forthcoming proposed changes to Chapter 15 of the Code of Ordinances will reflect recycling and changes in service volumes (standard of 1 rollout, limit of 2 per household plus rental fee).

The proposed fee of $2.50 per month will cover capital costs of supplying the container plus additional operational costs. The Sanitation Division will handle container requests and administration.

Staff recommends approval of the resolution to amend the fees and charges manual to allow a monthly fee of $2.50 per month for one (1) additional 96-gallon roll-out container as requested by citizens with said fees to be added to customer water bills.

RESOLUTION BOOK NO. 25 – PAGE 464

M. MOTION SETTING A PUBLIC HEARING ON MARCH 28, 2000, TO REZONE FIVE LOTS ON GLENDALE AVENUE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO APPROVING A CONDITIONAL USE PERMIT TO CONSTRUCT A THIRD PHASE OF THE MEADOWS APARTMENT COMPLEX LOCATED OFF OF ASCENSION DRIVE IN WEST ASHEVILLE

City Attorney Oast reviewed with Council the conditional use permit process by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. He said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. It has been Council's practice to have two separate votes, one today to either grant or denial of the request. At the next formal meeting, staff would prepare a written Order summarizing the finding and conclusions either granting or denying issuance of the permit and there would be a separate vote on that written Order.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:12 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Mr. Dan Baechtold, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certificate of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report received by City Council on February 18, 2000).

Mr. Baechtold said that this is the consideration of a motion approving a Conditional Use approval and permit as outlined in the Unified Development Ordinance (UDO) to construct a third phase of The Meadows apartment complex located off of Ascension Drive in West Asheville.

On December 16, 1999, Meridia Inc. submitted development plans for The Meadows Phase III, which is a 48 unit expansion of an existing apartment complex on property zoned RM-16 (City Exhibit 4). The project consists of two new apartment buildings of 24 units each (City Exhibit 5). The expanded parking area will provide a total of 81 parking spaces for the expansion.

On January 19, 2000, the Technical Review Committee (TRC) reviewed the plans and took action to approve with conditions. On January 24, 2000, the applicant submitted revised plans that satisfy the TRC requirements. This development is subject to conditional use review by City Council because it is an expansion of a previously approved Level III project. This project meets all of the City's development standards.

Staff recommends approval of the Conditional Use Permit for The Meadows Phase III with three additional conditions. When the Meadows Phase II was approved, a gate was required at the Ector Street entrance to the apartment complex from Evelake Drive. At that time, specific requirements were not determined for operation of the gate. The details were to be worked out later with the City's Traffic Engineer. At this time, the Traffic Engineer recommends installation of a gate that will open automatically for traffic exiting the apartment complex. The gate will be exit-only. The first condition addresses this gate. The other two conditions address landscaping and transit. The recommended conditions are as follows:

1. The Developer shall install a gate at the Ector Street entrance to the apartment complex from Evelake Drive. The gate shall open on demand for exiting traffic. At all other times the gate shall remain closed. The gate must be placed on property under the control of the developer. In addition, a "Do Not Enter" sign meeting the standards of the Manual on Uniform Traffic Control Devices must be installed facing Evelake Drive at this entrance to the apartment complex. The gate shall be installed before any Certificates of Occupancy are issued for the Phase III expansion.
2. The Developer shall complete the landscaping required for previous development phases. The landscaping must be approved by inspection of the Planning and Development Department before a zoning permit will be issued for Phase III. Landscaping must contain, at a minimum, the correct number and species of plantings required by the UDO.
3. The developer shall purchase and install a transit shelter to be located within the apartment complex meeting the specifications of the Asheville Transit Authority. The Transit Services Director shall approve the design and location of the transit shelter. The shelter shall be installed before any Certificates of Occupancy are issued for the Phase III expansion. All costs associated with installation of the transit shelter shall be borne by the developer.

Mr. Baechtold asked that Condition No. 3 be amended as a result of discussions with the City's Transit Services Director and the developer:

3. The developer shall work with the Transit Services Director to determine if there is a suitable location for a transit shelter on property owned by the developer. If a suitable location is determined, the developer shall participate in the cost of installation of the shelter at a share proportionate to the number of units in Phases II and III of the Meadows Apartment Complex.

In order to approve a conditional use permit, City Council must make seven (7) findings based on the evidence and testimony received at the public hearing or otherwise appearing in the record of the case. The findings are listed below and are found in Section 7-16-2(c) of the Unified Development Ordinance.

(1) That the proposed use or development of the land will not materially endanger the public health or safety;

The project received technical approval from the Water Resources Department, the Fire Department, MSD, Engineering, and other City Departments. The project is required to meet the technical standards set forth in the UDO, the Asheville Standard Specifications Manual, the North Carolina Building Code and other applicable laws and standards which protect the public health and safety.

(2) That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or the region;

(3) That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;

The site plan shows a buffer meeting the technical requirements for landscaping and buffering in the UDO.

(4) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located;

The property is zoned RM-16 which allows high density residential development. Adequate buffering and screening are necessary to separate this use from neighboring single-family residential development. The site plan shows a buffer meeting the technical requirements for landscaping and buffering in the UDO.

(5) That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the City;

The City's Comprehensive Plan and the Asheville City Plan 2010 identify this area for higher density residential uses. The proposed development is consistent with the zoning assigned to this location.

(6) That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities;

The project received technical approval from the Technical Review Committee which includes representatives of the Water Resources Department, MSD, Engineering Department, the Fire Department, and Public Works Department.

(7) That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The project received technical approval from the City Traffic Engineer. A Traffic Impact Analysis is not required.

Planning and Development staff recommends approval of an ordinance granting a conditional use permit to Meridia, Inc. to construct a 48 unit expansion of The Meadows apartment complex, with the conditions outlined.

58

Councilman Peterson questioned the reasoning behind the gate in Condition No. 1. Mr. Baechtold said that when The Meadows Phase II was approved, a gate was required at the Ector Street entrance to the apartment complex from Evelake Drive. At that time, there were no specific requirements determined for how the gate would operate and the details were to be worked out later with the City's Traffic Engineer. At this time, our Traffic Engineer is requiring the installation of the gate at the Ector Street entrance which would be an automatic exit only gate.

Upon inquiry of Councilman Hay about the Condition No. 2 landscaping requirement, Mr. Baechtold said that the landscaping for Phase II was not completed to the satisfaction of the Planning & Development Department. However, he believes that Condition No. 2 has been resolved recently. He did, however, recommend that City Council leave Condition No. 2 in because the City needs to do their final inspection of it to make sure that it does meet all the requirements.

Councilwoman Field felt that gated communities, as well as cul-de-sac communities, are not smart growth and questioned the rationale behind the gate. City Traffic Engineer Michael Moule said that it is his understanding of the previous conditional use permit is that the gate was required in order to reduce the amount of traffic coming from the apartment complex onto Evelake Drive. At that time it was not specified exactly how the gate would operate. He looked at the site and reviewed the Traffic Impact Analysis that was done during the Phase II development, which also included the traffic for Phase III. The compromise that he came up with was to have the gate be exiting traffic only.

Mr. John Crabtree, owner of Meridia Inc. (developer of the project), explained the delay in landscaping for Phase II and noted that he had a letter dated March 8, 2000, from Urban Planner Carl Ownbey confirming that all landscaping requirements have been met with respect to this specific project. He did note that they purchased the Phase II property and developed 168 apartments on it. They would like to develop another 48 units in two buildings similar in nature to the Phase II project.

Mr. Terry Simmons, 31 Evelake Drive, had a concern about water runoff onto his property and that of his neighbor's at 29 Evelake Drive. He said that they are getting water now which they didn't before the construction of Phase II took place. He passed out photographs (Public's Exhibit 1) which showed the runoff problems before he built a "dike" to hold the water out of a utility building on his property. He has talked with the City Engineer on this issue and he also said that Mr. Crabtree has agreed to meet with him next week regarding this concern.

City Engineer Cathy Ball said that she has reviewed the calculations in the site plan that were submitted and determined that the minimum requirements were met from what we have in our ordinance. They relayed that information to Mr. Simmons but told him that they would work with him to see if anything could be done additionally to lessen his problem of water runoff. On March 10, 2000, a meeting was held out in the field with Mr. Crabtree and some of his employees to get the issue resolved. It is her understanding now from talking with Mr. Crabtree that while he is not in violation of any requirement that the City has (because his plan does comply with our minimum requirements) he has stated that he would try to work with the property owners to try to at least reduce their problem. Our ordinance requires that the rate of runoff be controlled, not the volume.

Upon inquiry of Councilman Hay, Ms. Ball said that the water runoff from Phase III will not run to this location – it will run basically in the opposite direction of the Phase II development. She further explained other possibilities that have been discussed with regard to the water runoff concerns. In addition, she said that about a year ago they met on site with the developer and he did put in additional rip-rap along the ditch line in between the detention pond and the property owners to try to slow the water down. The detention pond now is grassed, stable and in good condition.

Councilman Peterson asked if Council can take into consideration the problems with Phase II on this phase. City Attorney Oast responded that there has to be some degree of connectiveness between the problem and the development. Since Phase III is not built, that is not causing the problem. To the extent that it might exacerbate the problem, he felt that Council could require appropriate conditions.

Mr. Crabtree said that Phase III will drain in the opposite direction from Mr. Simmons' property. He did state that they installed, at their expense, some remedial measures which Mr. Ernie Hewitt from the City Engineer's Department suggested which would hopefully alleviate the runoff problems. Since that time they had not heard anything else until a couple of weeks ago. Mr. Hewitt said that system was working fine and he could not find where their development was contributing at all to Mr. Simmons' runoff problem. He has agreed to meet with Mr. Simmons and try to come up with something to help them, however, he is not convinced at all that the water that is causing their problem is coming off of his property. (Vice-Mayor Cloninger has just come on line on the speaker phone at this time.) He did state that there is a building in Phase I, which is not part of his property, which is contributing to some of Mr. Simmons' problem.

Councilman Hay suggested a Condition No. 4 be added as follows: "The Developer be required to show to the satisfaction of the City Engineer that he has taken whatever steps necessary to ameliorate runoff problems caused by Phase II development for the residents on Evelake Drive."

Upon inquiry of Councilwoman Field, Ms. Ball felt that the runoff problem is caused by both Phase I and Phase II. She feels very comfortable with the additional condition suggested by Councilman Hay because the developer has already shown that he is willing to look into the problem. She didn't feel comfortable in telling them that he has to, because some of the things that he may have to do may require an easement, or things that property owners might not want to give him.

Vice-Mayor Cloninger stated that since he did not hear the entire public hearing on this issue, he would prefer not vote on this issue. City Council concurred.

Mayor Sitnick closed the public hearing at 6:11 p.m.

Councilman Hay moved to instruct City staff to prepare an order approving the conditional use permit to construct a third phase of The Meadows, subject to Condition No. 1, Condition No. 2, the amended Condition No. 3 and the addition of Condition No. 4, with said Order being brought back to City Council for approval on March 28, 2000.. This motion was seconded by Councilman Worley and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2678 - BUDGET AMENDMENT TO FUND THE YES! 2000 (FORMERLY THE SUMMER YOUTH EMPLOYMENT PROGRAM

Mr. Irby Brinson said that this is the consideration of a budget amendment, in the amount of $100,000, to fund the YES! 2000 (formerly the Summer Youth Employment Program).

60

The YES! 2000 represents the City of Asheville's ongoing commitment to provide youth with valuable summer employment opportunities that have significant impact in their development and preparation to be employable members in our community. The Parks and Recreation Department is working in collaboration with the Community Foundation of Western North Carolina (Community Foundation), Job Link, Chamber of Commerce, Housing Authority, and community volunteers to provide employment and training opportunities for 50 youth, ages 14 to 19, during June-August 2000. The Parks and Recreation Department hopes to expand the program to serve 25 additional youth pending participation by the private sector, and a grant from the Community Foundation.

Staff has been working in conjunction with the above agencies since September 1999 to work collectively to enhance the program for 2000. The collaboration has resulted in a new focus for the program to provide necessary life experiences for youth as they prepare to face future responsibility and pressure. It is the desire of the group to use a portion of the City's contribution, and the Community Foundation grant for program administration, with additional resources for job placement coming from the private sector.

The Parks and Recreation Department is responsible for the management and operation of the program. Each year City Council has generously funded the program's operating budget.

The Parks and Recreation Department recommends City Council appropriate $100,000 to establish an operating budget for Youth Employment Services 2000.

Mr. Marshall Logan explained how the summer youth program has evolved and explained his vision for this program in the future.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2678. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 178

B. RESOLUTION NO. 00-48- RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS CHUNNS COVE ROAD/PINEY MOUNTAIN ROAD AREA (ALSO KNOWN AS AREA 2001-A) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

RESOLUTION NO. 00-49 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA LOCATED NORTH OF U.S. HIGHWAY 70 BETWEEN RICEVILLE ROAD AND LOWER GRASSY BRANCH ROAD (ALSO KNOWN AS AREA 2001-B) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

RESOLUTION NO. 00-50 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA LOCATED NORTH AND SOUTH OF LONG SHOALS ROAD BETWEEN I-26 AND HENDERSONVILLE ROAD (ALSO KNOWN AS AREA 2001-C) AND

DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

RESOLUTION NO. 00-51- RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS RIDGEFIELD BOULEVARD AND OAK TERRACE AREA (ALSO KNOWN AS AREA 2001-D) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

RESOLUTION NO. 00-52 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS NEW LEICESTER HIGHWAY AREA (ALSO KNOWN AS AREA 2001-E) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

RESOLUTION NO. 00-53 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER ANNEXATION OF THE AREA KNOWN AS THE ROCKY RIDGE ROAD/WEDGEFIELD DRIVE AREA (ALSO KNOWN AS AREA 2001-F) AND DESCRIBED HEREIN AND FIXING THE DATE OF THE PUBLIC INFORMATIONAL MEETING AND THE PUBLIC HEARING ON THE QUESTION OF ANNEXATION

Planning & Development Director Scott Shuford said that on February 22, 2000, City Council adopted six Resolutions of Intent for the Phase I annexation areas. The Resolutions of Intent represent the first formal step in the City-initiated annexation process. After review of the statutory requirements, City staff found that the adoption date of the Resolutions of Intent was too early based on State law which sets specific time periods between the Resolutions of Intent and the public information meeting and the public hearing.

The dates used were provided by our consultant who acknowledges the mistake. Fortunately, this is a correctable error that, once it has been fixed, has no consequences regarding the effective date of annexation or any other critical issues associated with the Phase I annexation process. The "cure" for this problem is to simply adopt new Resolutions of Intent for each of the six annexation areas.

City Attorney Oast said that language will be included in each ordinance that states that this resolution shall supersede and replace the appropriate resolution of the same title adopted on February 22, 2000.

Staff recommends the six Resolutions of Intent be adopted by City Council.

Mayor Sitnick said that members of Council have been furnished with copies of the resolutions and they would not be read.

Councilman Worley moved to adopt Resolution No. 00-48, the resolution of intent to consider annexation of the area known as Chunns Cove Road/Piney Mountain Road area, also known as Area 2001-A, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 466

Councilman Hay moved to adopt Resolution No. 00-49, the resolution of intent to consider annexation of the area located north of U.S. Highway 70 between Riceville Road and Lower Grassy Branch Road, also known as Area 2001-B, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 470

Councilwoman Whitmire moved to adopt Resolution No. 00-50, the resolution of intent to consider annexation of the area located north and south of Long Shoals Road between I-26 and Hendersonville Road, also known as Area 2001-C, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 474

Councilman Worley moved to adopt Resolution No. 00-51, the resolution of intent to consider annexation of the area known as Ridgefield Boulevard and Oak Terrace area, also known as Area 2001-D, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 481

Councilman Peterson moved to adopt Resolution No. 00-52, the resolution of intent to consider annexation of the area known as New Leicester Highway, also known as Area 2001-E, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 486

Councilman Hay moved to adopt Resolution No. 00-53, the resolution of intent to consider annexation of the area known as the Rocky Ridge Road/Wedgefield Drive area, also known as Area 2001-F, and fixing the date of the public information meeting for May 2, 2000, and the City Council public hearing on the question of annexation on May 23, 2000. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 490

C. RESOLUTION NO. 00-54 - RESOLUTION APPROVING THE REPORT SETTING FORTH PLANS TO PROVIDE SERVICES TO THE AREA KNOWN AS CHUNNS COVE ROAD/PINEY MOUNTAIN ROAD AREA (ALSO KNOWN AS AREA 2001-A) AND DESCRIBED HEREIN

RESOLUTION NO. 00-55 - RESOLUTION APPROVING THE REPORT SETTING FORTH PLANS TO PROVIDE SERVICES TO THE AREA LOCATED NORTH OF U.S. HIGHWAY 70 BETWEEN RICEVILLE ROAD AND LOWER GRASSY BRANCH ROAD (ALSO KNOWN AS AREA 2001-B) AND DESCRIBED HEREIN

RESOLUTION NO. 00-56 - RESOLUTION APPROVING THE REPORT SETTING FORTH PLANS TO PROVIDE SERVICES TO THE AREA LOCATED NORTH AND SOUTH OF LONG SHOALS ROAD BETWEEN I-26 AND HENDERSONVILLE ROAD (ALSO KNOWN AS AREA 2001-C) AND DESCRIBED HEREIN

RESOLUTION NO. 00-57 - RESOLUTION APPROVING THE REPORT SETTING FORTH PLANS TO PROVIDE SERVICES TO THE AREA KNOWN AS RIDGEFIELD BOULEVARD AND OAK TERRACE AREA (ALSO KNOWN AS AREA 2001-D) AND DESCRIBED HEREIN

RESOLUTION NO. 00-58 - RESOLUTION APPROVING THE REPORT SETTING FORTH PLANS TO PROVIDE SERVICES TO THE AREA KNOWN AS NEW LEICESTER HIGHWAY AREA (ALSO KNOWN AS AREA 2001-E) AND DESCRIBED HEREIN

RESOLUTION NO. 00-59 - RESOLUTION APPROVING THE REPORT SETTING FORTH PLANS TO PROVIDE SERVICES TO THE AREA KNOWN AS THE ROCKY RIDGE ROAD/WEDGEFIELD DRIVE AREA (ALSO KNOWN AS AREA 2001-F) AND DESCRIBED HEREIN

Planning & Development Director Scott Shuford said that this is the consideration of approving the City of Asheville Plan for Services report for areas proposed for annexation.

The report setting forth the plans were reviewed at City Council's worksession on March 7, 2000.

Staff recommends the Plan of Services be approved and made available for public inspection.

Mayor Sitnick said that the these are resolutions approving a plan to provide services to the six areas proposed for annexation. She stated that annexations and the services provided in those annexations are based upon the policy of the sitting Council at the time that annexation takes place. And there have been times in our history when the annexation policy was not terrific. This Council has made it our benchmark to make sure that staff knows that if we are going to annex an area, that we make sure that we give the best service to that annexed area that any other area in the City is getting. Our policy for annexation in those areas that will be annexed by this Council will receive all of the services that can benefit an area during an annexation.

Mayor Sitnick said that members of Council have been previously furnished with a copies of the resolutions and they would not be read.

Councilman Worley moved to adopt Resolution No. 00-54, the resolution approving the report setting forth plans to provide services to the area known as Chunns Cove Road/Piney Mountain Road area, also known as Area 2001-A. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 494

Councilwoman Whitmire moved to adopt Resolution No. 00-55, the resolution approving the report setting forth plans to provide services to the area located north of U.S. Highway 70 between Riceville Road and Lower Grassy Branch Road, also known as Area 2001-B. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 496

Councilwoman Field stated that she still had concerns regarding providing sewer service in Area 2001-C. She understands that the action today is making the report of plans available for public inspection and would not vote against it at this point, but would reserve the right to have serious considerations after public input on what some of our options are. At an MSD Board meeting today, this particular piece around Lake Julian, was discussed as an area that needs some work by MSD. She thinks that there is some possibilities here that we haven't really looked at. She will meet with Mr. Shuford and some members of MSD to review this. She is not opposed to the annexation, but she is opposed to not providing sewer service but taking over the septic systems that are there.

City Attorney Oast said that state laws says that you are required to provide services in the annexed area to the same degree that you provide them in the rest of the City. City Manager Westbrook pointed out that technically we don't have to provide that service because we are not the service provider in that area.

Councilwoman Whitmire said that Mr. Shuford's memo reads that state law allows the option of providing sewer service through a septic tank maintenance program and our consultant has recommended using that option.

Mr. Shuford stated that City staff is committed to carrying out Council's policy in this area in that the Council wants to provide the absolute top level of service that is feasible. They will also continue to pursue the issue with MSD that Councilwoman Field raised.

Upon inquiry of Councilman Peterson, Mr. Richard Flowe, President of Benchmark Inc., said that City Council can reduce the areas in size, provided that the subsequent area still meets and satisfies the qualifications to annex on an analytical basis. You can also revise the services report through two different mechanisms. One is an actual amendment of the report itself, or, at the time of the consideration of the annexation ordinance in June, there are provisions in that ordinance to make any amendments to the plan that you desire.

City Manager Jim Westbrook responded to a concern from Mr. Fred English, 17 Pressley Road, about his sewer system.

Councilman Hay moved to adopt Resolution No. 00-56, the resolution approving the report setting forth plans to provide services to the area located north and south of Long Shoals Road between I-26 and Hendersonville Road, also known as Area 2001-C. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 498

Councilwoman Field moved to adopt Resolution No. 00-57, the resolution approving the report setting forth plans to provide services to the area known as Ridgefield Boulevard and Oak Terrace area, also known as Area 2001-D. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 500

Councilman Peterson moved to adopt Resolution No. 00-58, the resolution approving the report setting forth plans to provide services to the area known as New Leicester Highway, also known as Area 2001-E. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 502

Councilwoman Field moved to adopt Resolution No. 00-59, the resolution approving the report setting forth plans to provide services to the area known as the Rocky Ridge Road/Wedgefield Drive area, also known as Area 2001-F. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 504

D. RESOLUTION NO. 00-60 - RESOLUTION APPOINTING TWO ALTERNATES TO THE BOARD OF ADJUSTMENT

Vice-Mayor Cloninger said that on February 22, 2000, City Council interviewed Tom Tarrant, Scott Fowler and Headlee Howard for two alternate positions on the Board of Adjustment.

Scott Fowler received seven votes, Headlee Howard received five votes and Tom Tarrant received two votes. Therefore, Councilman Worley moved to appoint Headlee Howard as an alternate to the Board of Adjustment to serve an unexpired term, term to expire January 21, 2001; and Scott Fowler as an alternate to the Board of Adjustment to serve a three year term, term to expire January 21, 2003. Both respective appointments are until their successors have been appointed. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 506

D. RESOLUTION APPOINTING A MEMBER TO THE GREENWAY COMMISSION

Vice-Mayor Cloninger said that on February 22, 2000, City Council interviewed Crystal Pace and Phyllis Stiles for a vacancy on the Greenway Commission. Ms. Judith Hamill was very interested in the position but was out of town on the date scheduled for interviews. It was the consensus of City Council to instruct the City Clerk to arrange for an interview for Ms. Hamill and bring this matter back to City Council at their March 28, 2000, meeting.

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of February 18-24, 2000: Gene Davis (Civic Center) and Neal Owen (Water).

The following claims were received during the period of February 25 - March 2, 2000: Jerry Buckner (Water), Joel Belz (Water) and Tina Watson (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

B. LAWSUIT

The City has received the following Complaint on February 16, 2000: Matter: Joanne Baker and Kenneth Baker v. City of Asheville, Asheville Transit Authority, Asheville Transit Commission, CCL Management Inc., Asheville Coach Lines Inc. and Sandra Imes. The nature of the proceeding is a complaint alleging bodily injury and expenses incurred.

The City Attorney has recommended that this matter be handled by an attorney outside the City Attorney's Office and he recommended Fred Barbour.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. PARKS AND OPEN SPACE DISTRICT

Mayor Sitnick said that when the Unified Development Ordinance was being discussed two years ago, her initial concept was to create a Parks and Open Space District. Her initial idea was never to zone a designation of parks and open space for private property. Her only consideration was to ascribe that zoning designation to City-owned property because City-owned parks are zoned according to the land use around them. We have a zoning designation for just about everything in this community and we accommodate just about everything in this community. She couldn't think of any designation that would preserve our park lands for our generations to come, especially since our Parks and Recreation Bond failed. She felt that it was important that at least the existing parks be preserved as parks or open space and not take a chance that some council in the future, if they find themselves in a financial crunch, as municipalities do when we get federally unfunded mandates, etc., to give a future council the thought that we could sell off our parks lands. We need our parks for our children to provide them with open space to have recreational opportunities. Again, she never intended for this to apply to private property. We gave away our sewer, we gave away our water and she didn't want to see us give away our park lands. She appreciates the idea of conservation easements and would certainly support that if it accomplishes the same thing.

B. NATIONAL LEAGUE OF CITIES

Councilman Worley said that four Council members traveled to Washington, D.C., to attend the National League of Cities Conference. He stated that the conference was very beneficial and would be providing a more comprehensive report in the future.

C. ASHEVILLE MOTOR SPEEDWAY

Councilwoman Whitmire passed out a form stating that she wanted an idea of who attended this portion of the meeting and asked audience members to write down their names and addresses.

Mr. Mike Morgan said his vision was of a community united together and healing wounds. Wounds caused unknowingly by the City of Asheville. As a new race fan, he was not capable of understanding the love for one sport, not until he began to understand the family atmosphere of auto racing. When, and only when, he began to talk to these people, these people are more than fans of a sport – they are a people of great diversity. A people who love one another as a large family. This large family that loves auto racing are perplexed and still in a state of shock that their sport is no longer a part of the City of Asheville and Buncombe County. A sport that originated here in these beautiful mountains that they call home. He does not believe that the City Council deliberately tried to target one group of people or show favoritism to another group of people, but this give of $1 Million, this value of the property, is not true. The land can only be worth $1 Million with the racing facility in operation. This land is in a floodplain and would be at its best worth $4,500 an acre. But he was not here tonight to debate or argue this point. He is asking Council to take a leadership role. He knows that Council made an agreement but Council also made a larger agreement with this racing family and to the citizens of the City of Asheville. You represent us all. It is time tonight for park lovers and the racing family to come together. The racing family is asking for nothing more than to race at the new Asheville Speedway until another track is built. Some members of Council have said to be patient and to wait until the new track is built in Haywood County in two years. He has a question. What made any of you think that a track could be built in one year and why one year. It is Council's obligation to do for a community of people, a family of people who do not have the power to do themselves. We will not escape the history of your decision. The decision to unite or divide is yours. We are not asking for more than you can give. We are asking for a motion from one City Council person who can heal our community. A motion to continue racing at the new Asheville Speedway until a new track is built. Who would make this motion and let this healing process begin. The property is the property of the taxpayers of the City of Asheville. It is these taxpayers who have elected you. We are exercising our first amendment right. The right of the people to peacefully assemble, to address our local government with our grievances, and the freedom of speech. We have the Bill of Rights which protect the person's right to life, liberty and the pursuit of happiness. He respectfully ask that this City Council help this racing family achieve the happiness that they so deserve. Make that motion tonight. The healing of our community is in your hands.

Mr. Don Yelton, speaking on behalf of Racing 2000 and Beyond, said that "you have been asked to heal the wounds. You have been asked to take a leadership role and encourage the support ... The race cars and bicycles can exist together for two years. Everyone wins. All kinds of rumors have been flying around. John Huffman offered more for the track than they paid for it. The Biltmore Company wanted to offer to move the track - lock, stock and barrel. Roger Gregg wanted the deal the ... tax write-off. The property has asbestos on it. There once was a deed that stated only racing could occur at the site. The Airport caused problems in the past when Dr. Owens had it. The previous Mayor started the deal and the current City Council inherited the problem. Roger Gregg broke a verbal contract with the drivers by telling them to go out and spend $60,000 on a different type of car. Add to these rumors the following facts. The local paper spelled out how to file an injunction on the track. The time has run out on that. The previous park donated by the City by RiverLink was a site for storage of electrical transformers with possible PVC contamination. The previous park required and donated to the City by RiverLink has required the addition of two full-time park wardens to make the park so that it could be used by the average person. The race track paid taxes while the park will cost money. The track paid over $20,000 in property taxes alone, I believe. The racing season put over $9 Million in the economy by building 150 cars at $60,000 a piece. That's equal to $500,000 at 6% sales tax. The taxpayers will have to support the park while the race track funded itself. If you look at the take at the gate of that track, it's about $1.2 Million a year and an economic analysis says that multiplied by 10 by the time that money is passed through the community. So we are looking at an economic impact of the gate alone of $12-15 Million plus the $9 Million equals a $24 Million impact on this community. Yes, you can sit there and pretend that the public doesn't care about racing and you may not want the noise and some people tell me this will hurt me in my run for Chairman of the Buncombe County Board of Commissioners, by being for the race fans. And you may feel that racing is a red-neck sport. I don't know and you don't know, but look at the Council now how it has changed based on this past decision. Remember that everyone in the City understands tax dollars and we are just going to say no to millions of dollars in revenue. The City doesn't keep all that money, but a percentage of it does go to you. But I guess that you feel an annexation will give you the funds to keep up the park. With every annexation will come more irate voters that will observe your every decision. Think this through. You will take away a sport of 40 years. You will take away a site of family recreation. You will take away a place that produced revenue. You have an attitude that you are surprised at how irate race fans are, but yet you tell them to go away and play with themselves for two years while the track in Haywood is built. I'm surprised that these folks think that you can do something. But you can do something. You can shut it down, so if you can shut it down, you can open it up. Right now you can make a move or a motion to work your fanny off in the next two weeks to let racing occur at the track to give the neighboring county time to build the track. You always say that so goes Asheville, goes the rest of the western North Carolina counties. You always say you're asked to provide services such as the Civic Center that nobody pays for. Does the Asheville City Council have the ability to show the leadership and persuade the givers of this Trojan horse to let my friends, the racing community, pay this $500,000 in taxes for the next two years. That's a cool million, folks, and guess what they will pay the City. Another $200,000 just to use the track and you can even work with the promoter to work other functions in, such as bike races, go-cart races, so that the park could be phased in while making money on the track. If the gift-giver really cares about Asheville, they would go along with this plan. But you have analyzed the votes, and I've been told that you have looked at those 17,000 petitions that were signed and only 6% were registered to vote – well, I'm going to tell you right now. The racing community is here tonight and they will vote. We signed up over a dozen people today outside this City Hall to be registered to vote. Has the racing community been singled out as the red-neck sport and to be shut down – removed from the hearing distance of a new hotel. If this Council does not work to make this happen, you are sending a message to all of the locals, all of the red-necks, and yes, I consider myself one of them, and all the locals that have moved in here that want to become red-necks, that if your hobby gets in the way of a greenway or a high dollar hotel, bye-bye – you're gone. Can this Council have the leadership. Is there one to stand up and say, wait a minute. We are fixing to open up a belly of a Trojan horse. A belly that may contain asbestos. A broken contract with the drivers that is a possible lawsuit. Lost tax revenues. Increased burden on the taxpayers and maybe misplaced deeds. And maybe even possibly a question of 501-C status of RiverLink as they pledge in their Articles of Incorporation to care about everyone – all of the people, not just a select few. This Council has a chance to make this decision. I urge you to carefully look at the message you're sending to the people. When this same Council says, we won't let a businessman drill at the Airport to look for a raceway and evaluate the property. When that information would be extremely valuable to you. I think any businessman in Asheville if someone walked in his door and said I will do something for you and give you the information for free, they would take it. So, with that action and the action that you are possibly going to take to shut racing down – does that not send a message that yes, you have the power to shut racing down. And folks, if you have that power, you have the power to let it continue. Think about what leadership role you have.

Mr. Clyde Flowers said that he has raced off and on for 33 years at the speedway. He questioned why City Council took 40 years of racing heritage away from the racing community behind closed doors and leave them with no where else to go.

Mayor Sitnick said that "there is nobody on this Council who doesn't understand how you feel, all of you. There was a private property owner, and all of you are private property owners, who decided five years ago to sell the Asheville Motor Speedway. The Asheville Motor Speedway was advertised in in-City and out-of-City newspapers. I have been told this by dozens of race fans. I don't know all of the history that involved Mr. Gregg's feelings about the race track and his desire to sell it. I do know that for four years nobody bought it. And then a group of private developers came along, private donors – they decided to buy it. Mr. Gregg came to the City and told us that he had a donation to give to us. A gift. He wanted it kept confidential because he wanted to honor his father by naming part of it in his father's name. I am telling you what happened. Don Yelton has been in my office many times. I have known Don Yelton for years. Don has always told me, he believes in my honor and he trusts me. I am telling you the truth as best I know it. We agreed that it was a very nice gesture for Mr. Gregg to honor his father and he wanted to surprise his father by naming the Roger Gregg Sr. Greenway after him. We never held a secret meeting. We held one legal closed session in order to discuss the acquisition of land, which is allowed by North Carolina state statute. During that meeting, we discussed the possibility of this gift and the fact that there would be an easement that would be turned over to the North Carolina Clean Water Trust Fund. We never discussed the acquisition of this property in closed session again. So there was no secret meeting. Last year a number of racing fans came to this Council and, I have all of the minutes and would be happy to provide you with copies of these minutes, of all of the meetings where all of you and those not here tonight, requested of this Council that we do all in our power to get one more season of racing for you. To get one more year for the Asheville Motor Speedway while you-all worked on creating another track. There were even discussions between our City Attorney and several potential developers, some of whom continue today looking for another track, and some who came, made promises and kind-of disappeared during the process. This Council bent over backwards and went to the donors and went to RiverLink and begged for another year – which is what you-all asked us to do. We did exactly as you requested. In order to get that year, we had to promise that we would not ask again. So in order to get that year, which is what you-all requested of us, we did that. But it was more than a promise, it was an agreement. And, I would venture to say that if any of you had asked any of us when we were candidates, if we would break an agreement when we got elected, and we said yes, you would not have voted for us. And anybody who asks an elected official to break an agreement, is not asking a proper thing. We did it last year and we got the year for you. At my own personal risk, even though we promised and signed an agreement not to ask again in order to get that year, two weeks ago I picked up the phone and made the calls that Don Yelton asked me to make and requested the possibility of allowing racing at the race track. I was told no. Final answer. I was told even asking could get us sued. But I took the risk and I asked exactly what you're asking us tonight. And I was told no. I'm sorry about what happened to the speedway. I'm sorry about the history that has been cut off. We all are. We didn't know what Mr. Gregg's intentions were but he was a private property owner. The restrictions that we placed on the Asheville Motor Speedway to not allow racing there anymore were placed on it by Mr. Gregg. Not by the City of Asheville. When you use terms like we shut you down, it's not so. We accepted the gift on behalf of the taxpayers of this City. We're sorry about the wounds, but they were not caused by the City of Asheville. In the newspaper, Mr. Yelton was quoted as saying, and if this is not what you actually said Don, I apologize to you, because sometime things are quoted in the newspaper and they come out a little different than real, so correct me if I'm wrong. You said that the City Council took an oath to serve everybody. I feel we did that. We received the gift on behalf of the taxpayers of the City. We did everything we could to have one more year of racing at the speedway. We took an oath to be truthful, to be honest, to abide by our agreements. And you are now asking us to break that agreement. You say that we broke it one year. We didn't break it one year. We did exactly as you requested. We went to the donors and to RiverLink and we begged for one more year. One more season. Time and again, in the minutes of those meetings, that's what you asked for. And that's what we got. I don't know what more we can do at this point. This has been a very difficult episode in Asheville's history. Frankly, speaking for myself, if I had known the pain that it would have caused when I was asked to keep in confidence this gift, I would have said no thank you. It is my hope that a race track is built, and built quickly. I don't know that it will be built in time to satisfy everybody. I don't know whether the track in Canton is going to be built. I don't know whether the Youngs are going to build one – I certainly hope one is built as soon as possible. But the Asheville City Council and the City of Asheville did not shut down the speedway."

Mr. Yelton asked "if we can raise the money to pay Roger Gregg his share of that track and you can refund that money to him, would the City possibly consider doing that and letting him remove his deed covenant and then we would work with the City so that we could pay the City, and we would actually increase the price of each race ticket by $1 and let that money go to the City and toward construction of the park."

Mayor Sitnick said that "I will suggest to you now what I have suggested to you in my office. If you want to go and ask all of the parties involved, and follow the line, and get that done, I welcome you to do it."

Councilman Worley suggested Mr. Yelton look at the deeds and the other restrictions that were put on record – not only were the deeds which contain restrictions, there was a conservation easement also placed on the property. The holder of that conservation easement would also have to be contacted. The restrictions were placed on the deed from Roger Gregg to RiverLink. The same restrictions were also placed on the deed from RiverLink to the City of Asheville. He felt both organizations would need to be involved in releasing those restrictions.

Several other speakers made comments as follows: who did the Mayor talk to that said no more racing, let the Planning & Zoning Department and the Economic Development Division find a place to locate a race track, are the Young's still trying to find a location to build a track, why didn't the City give permission to the Young's to do soil borings on the property near the Airport, and there are a lot of arrests at the park on the corner of Amboy Road.

Mr. Charlie Crawford said that he is building a raceway in the outskirts of the City of Canton and he believes that it will be open sometime in 2001.

D. COMMENTS BY MS. SHIRLEY DOZIER

Ms. Shirley Dozier passed out a hand delivered letter dated January 25, 2000, to Mayor Leni Sitnick and stated that she has not had any response to that letter. She felt that no response reflects the lack of responsibility for the damages that the City has caused her family as taxpayers of the City of Asheville. She urged the City to stop the harassment of the Dozier family.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 21, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger (participating by speaker phone); Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and Deputy City Clerk Phyllis Corns

Absent: None

CONSENT:

Shiloh Community Center Roof Replacement

Summary: The consideration of a resolution authorizing the City Manager to enter into a roof replacement contract with Carolina Mountain Roofing and Construction, Inc. for the Shiloh Recreation Center.

In an effort to maintain city facilities, City staff, through the capital improvement process, has determined the Shiloh Recreation Center requires roof replacement. Staff solicited sealed bids from seven roofing contractors, three of which were minority contractors, to supply and install a new roofing system. Staff received five qualified bids which are as follows:

Construction Advantage, Inc.	$99,630.00
Service One, Inc.	$92,143.00
Stroup Sheet Metal Works, Inc.	$99,800.00
Carolina Cornerstone Construction, Inc.	$87,957.00
Carolina Mountain Roofing and Const., Inc.	$69,400.00

Staff has reviewed all bids and determined that Carolina Mountain Roofing and Construction, Inc. is the lowest bidder and staff recommends acceptance of the total bid amount of $69,400.00.

Approved funding is available in the capital improvement project account to pay for this roof replacement for Shiloh Recreation Center.

The Parks and Recreation Department requests City Council authorize the City Manager to enter into a contract for $69,400.00 with Carolina Roofing and Construction, Inc.

Grant Application for Pack Square Renaissance Project from Asheville Merchants Foundation

Summary: The consideration of a resolution to apply and enter into an agreement with the Asheville Merchants Foundation for grant monies to assist with funding for Phase II of the Pack Square Renaissance Project.

The Pack Square Renaissance project is a public-private effort to develop and implement a plan for a redesigned Pack Square and City-County Plaza. Phase I of the project is currently underway and will involve the creation of a conceptual plan for this redesign. Phase II of the project will involve the development of a final plan and construction drawings and is estimated to cost in excess of $150,000. The Pack Square Task Force, which is comprised of both public and private sector individuals, has been leading the project. The Task force recognizes that the vast majority of the funding for the project will need to come from sources other than the public sector. With this in mind, the Task Force is seeking grant monies to supplement private sector fundraising efforts.

The Planning and Development Department is requesting $20,000 in grant funds from the Asheville Merchants Foundation. The grant does not require matching funds.

The Planning and Development Department recommends City Council adopt the resolution to apply and enter into an agreement with the Asheville Merchants Foundation for grant monies to assist with funding for Phase II of the Pack Square Renaissance Project.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UDO AMENDMENT REVIEW

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on April 11, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Charlotte Street Transition Overlay Zoning District and Application of that District to 43 Properties in that Area

Director of City Development Mike Matteson said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to establish a Charlotte Street Transition Overlay District and application of this overlay district to 43 lots in the Charlotte Street area.

The Charlotte Street Transition Overlay District is an incentive based overlay zoning district designed to aid in the implementation of the Charlotte Street Corridor Plan. The Corridor Plan, adopted by City Council in January, 1999, recommends, among other things, compatible in-fill development which is more urban in nature and which relates to the street and sidewalk and serves the surrounding community. The overlay district provides property owners and developers with incentives, in the form of square footage bonuses, to develop property in a manner consistent with the recommendations of the plan. Structures may be larger than permitted in the underlying zoning district provided that certain design features or other elements are incorporated into a proposed development.

The Planning and Development Department is proposing to apply this overlay district to 43 properties in the Charlotte Street area. The underlying zoning district is CBI Community Business I.

City Council is asked to first consider the ordinance amendment to create the Charlotte Street Transition Overlay District and then to consider the application of the overlay district to the properties in question.

At their January 5, 2000, meeting, the Planning & Zoning Commission voted unanimously to recommended approval of both the ordinance amendment creating the Charlotte Street Transition Overlay District and the application of the overlay district to the properties in question. The Planning & Zoning Commission asked staff to make some minor changes to the proposed overlay district and those changes will be incorporated into the proposed district.

The Planning and Development Department staff is also recommending approval of both the ordinance amendment and the application of the overlay district.

Discussion surrounded the definition of "mixed use" vs. "multiple use". Mr. Shuford said that he would provide Council with information relative to "mixed use" and why they feel it is important from a planning standpoint.

Councilman Peterson felt there may be concerns from the business community regarding the incentive points and the appearance that the City is getting into the design process. It was his understanding developers want fixed rules and not so much discretionary items that drag the process out.

Councilwoman Field suggested a clarification on the point system.

Mr. Matteson responded to Councilman Peterson about his concerns relative to increased traffic if larger structures are allowed on Charlotte Street.

Councilwoman Whitmire asked if incentives could be included for affordable housing as part of the mixed use component. Mr. Matteson said that he would explore that option.

Councilwoman Field asked Mr. Matteson to review if requiring skylights to be flat might be a disincentive to putting skylights in at all.

Temporary Wireless Telecommunication Facilities at Approved Sites

Senior Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) which would allow temporary telecommunications facilities at approved sites.

The Planning and Zoning Commission, at their March 1, 2000, meeting, reviewed and recommended approval of an amendment to the UDO which would amend Section 7-14-2 to allow temporary telecommunications facilities at approved sites. The proposed amendment would permit a temporary telecommunications facility to be located at sites that have been approved for the location of a permanent facility (telecommunications tower, concealed telecommunications facility, or co-located facility). A temporary telecommunications facility could be placed on the approved site for a period of up to 6 months while the permanent facility is being constructed and/or installed. The time period for the temporary facility could be extended for another 6 months if the construction has begun but has not been completed. With the proposed amendment, telecommunications service providers could begin providing service from an approved site almost immediately instead of waiting for the construction and/or installation of the permanent facility.

The Planning and Zoning Commission voted 7 to 0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Mr. Green responded to a question from Councilman Hay regarding notifying people that the telecommunications facility is only a temporary facility.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on April 11, 2000.

DISPOSAL OF SMOKING MATERIAL

Mr. Richard Grant, Solid Waste Manager, said that on October 12, 1999, City Council proposed an ordinance requiring businesses to install cigarette receptacles at entrances to their businesses and asked that the Downtown Commission make recommendations regarding the proper disposal of cigarette butts not only in the downtown area, but the entire City.

They felt that there is no need for over zealous ordinance enforcement and downtown merchants should not be singled out because litter problems exist throughout the City.

The City has two existing ordinances, Sections 15-5 and 16-3, which prohibit littering and require businesses to keep storefront sidewalks and gutters clean. While these ordinances deal with litter, they are difficult to enforce particularly when dealing with cigarette trash. In an effort to gain additional input on the problem, City staff made presentations to the Downtown Commission, Asheville Downtown Association and information was received from the Merchants Action Coalition. The majority of participants agreed the suggested ordinance requiring receptacles would not alleviate the problem and places responsibility on the business rather than the smoker.

The groups suggested the following approaches in lieu of the receptacle requirement:

- Develop an awareness and educational outreach program with the Downtown Commission targeting smokers, business owners, tenants and media. This campaign would promote litter laws, encourage merchants to keep sidewalks clean and establish ongoing physical and educational campaigns. Several slogans/messages have been suggested as well.
- Phase installing additional receptacles on downtown trashcans over the next several years. Investigate different types of receptacles for functionality and exposure. There are 245 trash containers in Biltmore and downtown areas, 28 having receptacles. Additionally there are 60 stand-alone receptacles in front of 38 buildings.
- Evaluate the placement of existing public trash receptacles to maximize their use.
- Use inmate labor to sweep sidewalks once per month (current) and coordinate with the Street Division sweeping operations. Downtown streets are swept 4 times per week and sidewalks once per week.
- Promote Adopt-A-Street programs in the downtown business areas.

Staff recommends approval of the suggestions received from the Downtown Commission, Asheville Downtown Association and Merchants Action Coalition.

Mayor Sitnick said that she has a citizen suggestion for the educational campaign – "Asheville, No Butts About It."

Upon inquiry of Mayor Sitnick, Mr. Grant said that non-retaining water receptacles range from $90 to $200.

Mayor Sitnick suggested a user fee because she would hate to make someone who never smokes pay for these receptacles. She wanted to see the outreach/educational program extend as much to the N. C. Dept. of Transportation as well as merchants because cigarette butts are a problem all over the City. She also requested all business organizations include information about this in their newsletters. She suggested including a notice about the existing ordinances in the water bill inserts and also that at the front-end of the campaign, the City have on display the two sidewalk sweepers to show that the City is doing their part as well.

Councilwoman Field also suggested the existing ordinances be placed on the Government Channel.

Councilwoman Whitmire suggested City staff to talk to three different PTO's or PTA's in order to get feedback from parents about the use of the word "butt" in our slogans.

Public Works Director Mark Combs responded to a suggestion by Mayor Sitnick about all City employees being part of a litter patrol and having one staff person be the contact person for all complaints.

City Manager Westbrook said City staff will come back to City Council with the outreach program and also recommendations on stepped out enforcement on all litter.

It was the consensus of City Council to approve the recommendations received from the Downtown Commission, the Asheville Downtown Commission and the Merchants Action Coalition and to instruct City staff to work with the downtown groups to promote awareness and education of cigarette litter laws.

REVISIONS TO THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL

City Engineer Cathy Ball said that this is the consideration of adopting revisions to the Asheville Standard Specifications and Details Manual.

In May 1997, City Council adopted the Asheville Standard Specifications and Details Manual. This manual provided developers, engineers, architects and other design professionals with guidelines for development in the City of Asheville and the extraterritorial jurisdiction. Since that time some minor changes have been made and implemented in the Manual.

On November 9, 1999, City staff held a public meeting to get input on the revisions to the standards. Approximately 200 people were invited to attend. Approximately 25 people attended and provided input on the revisions to the Manual. In addition to public comment, other City departments suggested revisions to the Manual. Most of the public and other City department's comments are reflected in the revision to the Manual.

The major revisions consist of the following:

- Revising the streetscape requirements to reflect the recent changes proposed by the Transportation Advisory Committee to the N. C. Dept. of Transportation (i.e., 4 lanes with median divided);
- Allowing rolled (valley) curb for all residential streets;
- Allowing 6" of stone and 2" of asphalt on private parking lots;
- Incorporating the recent changes to the Unified Development Ordinance (UDO) regarding sidewalks;
- Adding the requirement that curb and gutter can be required by the City Engineer when necessary to control storm water runoff;
- Removing the section regarding Traffic Calming as it has recently been adopted as a separate policy by City Council;
- Allowing High-Density Polyethylene (HDP) Pipe to be used in the right-of-way for residential cul-de-sac and loop streets;
- Rewriting Section 6.00 "Water Distribution" to reflect recommended revisions from the Water Resources Department;
- Amending the Asheville Standard Specifications and Details Manual to be consistent with the requirements in the UDO (i.e., parking stall width); and
- Providing sample easements for water and storm water lines.

Staff will be working with Planning and Development Department in the next several months to ensure that the Asheville Standard Specifications and Details provide standards that promote "Smart Growth" as a part of new development consistent with City Council goals.

Staff recommends that adoption of the revisions to the Asheville Standard Specifications and Details Manual.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

AUTOMATED REFUSE COLLECTION PROGRAM

Mr. Richard Grant, Solid Waste Manager, gave City Council an overview of the automated refuse collection program policies.

Last year City Council approved a pilot automated refuse collection system to more than 3,000 households. All equipment, training and logistics are in place for the program to begin April 2, 2000. This program will require citizens to learn new policies in order for efficient, cost effective service. As with any changes, there will be resistance until new habits are formed.

The current system of refuse collection provides for the collection of up to six containers placed at the curb. The use of personnel to load refuse allows for considerable flexibility to citizens in the type and placement of refuse. For example, bulky wastes such as televisions are often placed on top of or adjacent to containers, which posed no problems to collection personnel; however, an automated system is designed to pick up standardized collection containers designed for the arm mechanism (all wastes must be placed in the supplied container). Thus, the habit of placement of wastes on top of or adjacent to containers will no longer be acceptable due to the inability to load with the arm mechanism.

Households in the pilot areas will receive written information, policies and guidelines with the delivery of their container. Staff will also mark the spot where containers must be placed. Sanitation area supervisors will make every effort to educate, correct and service citizens to insure a smooth transition to the new system.

However, municipalities who implemented similar programs advised staff to designate a 'grace period' where customary service is provided to help citizens adjust to the new system. The grace period will be provided for 30 days. In addition to customary service (return for pick-ups, pick up non-containerized refuse, etc.), citizens would also receive information pamphlets and notices to help educate them.

At the conclusion of the grace period it was recommended that sanitation staff eliminate 'customary service' and not return to pick up, remove, or hand-load any refuse not appropriately placed in the supplied containers.

Consequently, after the grace period some citizens may call Council members to demand 'customary services' (after the grace period). Such service would neutralize the advantages of such a system.

New policy consists of: residents must use City supplied roll out container only; trash left beside the roll out container will not be collected; trash placed on top of the roll out container will not be collected; trash must be bagged prior to placing in the roll out container; the roll cart must be placed so the handle faces away from the street; roll out containers must be in an accessible location, at least five feet from any obstacle, within two feet of the curb and away from low hanging utility polices; and bulky items will be collected separately from the automatic collection – residents must call 21-1122 to schedule.

Conformance with these policies is critical to the success of the program. Staff requests City Council's support for staff's enforcement of the pilot program policies (beyond the grace period).

Mayor Sitnick had a suggestion that prior to the formal Council meetings, a 10-minute promotion spot be taped for viewing on the Government Channel to inform the public about a program, instructions for new trash pick-up, etc.

City Council discussed different avenues to notify the public of this new system.

OTHER BUSINESS:

Due to the 4th of July holiday falling on a Tuesday, it was the consensus of City Council to cancel their July 4, 2000, City Council worksession.

Mayor Sitnick wanted the City to become very serious about the problem with litter, about cleaning it, enforcing our laws and prevention programs. She hoped that during the budget process perhaps more money should be allocated for litter prevention.

Mayor Sitnick suggested City Council send a letter to the Buncombe County Commissions requesting them to eliminate or reduce dumping fees for demolitions done by non-profits who will provide affordable housing on those sites where the demolition occurs. It was the consensus of City Council to have Councilwoman Field do some preliminary dialog with the person who is mostly involved with affordable housing at the County level prior to sending the letter.

At the suggestion of Mayor Sitnick, it was the consensus of City Council to send a letter to the local N. C. Dept. of Transportation to request they make an effort to repair the islands and, in conjunction with the Governor's Litter Sweep, to clean the state roads and medians. She will also include in that letter a request to coordinate the traffic lights on Tunnel Road near the Asheville Mall.

CLOSED SESSION

At 5:15 p.m., Councilwoman Field moved to go into closed session in order to (1) consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Elijah Jones t/a Jones Convenience Store and City of Asheville - the statutory authorization is contained in G.S. 143-318.11(a)(3); (2) to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease - the statutory authorization is contained in G.S. 143-318.11(a)(5); and (3) to prevent disclosure of information that is privileged or confidential pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that renders the information to be discussed confidential is N. C. Gen. Stat. 160A-168, the Personnel Privacy Act - the statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Hay and carried unanimously.

At 6:16 p.m., Councilman Hay moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously. (Vice-Mayor Cloninger signed off at 6:00 p.m.)

78

CIVIC CENTER

A brief discussion was held about the Civic Center and potential changes to the Civic Center Commission ordinance to clarify the Commission's role. City Attorney Oast and City Manager Westbrook were to meet with some Commission members on Friday, March 24, 2000, to discuss this matter.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 28, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger (participating by speaker phone); Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Peterson gave the invocation.

ADDITIONS TO THE AGENDA

Councilman Peterson asked that a matter regarding an amendment to the City Council's Rules and Procedures be added to the agenda under "Other Business."

Mayor Sitnick asked for a brief discussion relative to the WNC Regional Air Pollution Control Board be added to the agenda under "Other Business."

I. PROCLAMATIONS:

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 15, 2000

B. RESOLUTION NO. 00-61 - RESOLUTION ADOPTING REVISIONS TO THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL

Summary: The consideration of adopting revisions to the Asheville Standard Specifications and Details Manual.

In May 1997, City Council adopted the Asheville Standard Specifications and Details Manual. This manual provided developers, engineers, architects and other design professionals with guidelines for development in the City of Asheville and the extraterritorial jurisdiction. Since that time some minor changes have been made and implemented in the Manual.

On November 9, 1999, City staff held a public meeting to get input on the revisions to the standards. Approximately 200 people were invited to attend. Approximately 25 people attended and provided input on the revisions to the Manual. In addition to public comment, other City departments suggested revisions to the Manual. Most of the public and other City department's comments are reflected in the revision to the Manual.

The major revisions consist of the following:

- Revising the streetscape requirements to reflect the recent changes proposed by the Transportation Advisory Committee to the N. C. Dept. of Transportation (i.e., 4 lanes with median divided);
- Allowing rolled (valley) curb for all residential streets;
- Allowing 6" of stone and 2" of asphalt on private parking lots;

- Incorporating the recent changes to the Unified Development Ordinance (UDO) regarding sidewalks;
- Adding the requirement that curb and gutter can be required by the City Engineer when necessary to control storm water runoff;
- Removing the section regarding Traffic Calming as it has recently been adopted as a separate policy by City Council;
- Allowing High-Density Polyethylene (HDP) Pipe to be used in the right-of-way for residential cul-de-sac and loop streets;
- Rewriting Section 6.00 "Water Distribution" to reflect recommended revisions from the Water Resources Department;
- Amending the Asheville Standard Specifications and Details Manual to be consistent with the requirements in the UDO (i.e., parking stall width); and
- Providing sample easements for water and storm water lines.

Staff will be working with Planning and Development Department in the next several months to ensure that the Asheville Standard Specifications and Details provide standards that promote "Smart Growth" as a part of new development consistent with City Council goals.

Staff recommends that adoption of the revisions to the Asheville Standard Specifications and Details Manual.

RESOLUTION BOOK NO. 26 – PAGE 1

C. MOTION SETTING A PUBLIC HEARING ON APRIL 11, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO CONSIDER A NEW CHARLOTTE STREET TRANSITION OVERLAY DISTRICT AND APPLICATION OF THAT DISTRICT TO 43 PROPERTIES LOCATED IN THAT AREA

D. MOTION SETTING A PUBLIC HEARING ON APRIL 11, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW TEMPORARY WIRELESS TELECOMMUNICATION FACILITIES AT APPROVED SITES

E. RESOLUTION NO. 00-62 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CAROLINA MOUNTAIN ROOFING AND CONSTRUCTION INC. FOR THE SHILOH COMMUNITY CENTER ROOF REPLACEMENT

Summary: The consideration of a resolution authorizing the City Manager to enter into a roof replacement contract with Carolina Mountain Roofing and Construction, Inc. for the Shiloh Recreation Center.

In an effort to maintain city facilities, City staff, through the capital improvement process, has determined the Shiloh Recreation Center requires roof replacement. Staff solicited sealed bids from seven roofing contractors, three of which were minority contractors, to supply and install a new roofing system. Staff received five qualified bids which are as follows:

Construction Advantage, Inc.	$99,630.00
Service One, Inc.	$92,143.00
Stroup Sheet Metal Works, Inc.	$99,800.00

Carolina Cornerstone Construction, Inc.	$87,957.00
Carolina Mountain Roofing and Const., Inc.	$69,400.00

Staff has reviewed all bids and determined that Carolina Mountain Roofing and Construction, Inc. is the lowest bidder and staff recommends acceptance of the total bid amount of $69,400.00.

Approved funding is available in the capital improvement project account to pay for this roof replacement for Shiloh Recreation Center.

The Parks and Recreation Department requests City Council authorize the City Manager to enter into a contract for $69,400.00 with Carolina Roofing and Construction, Inc.

RESOLUTION BOOK NO. 26 – PAGE 2

F. RESOLUTION NO. 00-63 - RESOLUTION AUTHORIZING THE CITY TO ENTER INTO AN AGREEMENT WITH THE ASHEVILLE MERCHANTS FOUNDATION FOR A GRANT TO ASSIST WITH FUNDING FOR PHASE II OF THE PACK SQUARE RENAISSANCE PROJECT

Summary: The consideration of a resolution to apply and enter into an agreement with the Asheville Merchants Foundation for grant monies to assist with funding for Phase II of the Pack Square Renaissance Project.

The Pack Square Renaissance project is a public-private effort to develop and implement a plan for a redesigned Pack Square and City-County Plaza. Phase I of the project is currently underway and will involve the creation of a conceptual plan for this redesign. Phase II of the project will involve the development of a final plan and construction drawings and is estimated to cost in excess of $150,000. The Pack Square Task Force, which is comprised of both public and private sector individuals, has been leading the project. The Task force recognizes that the vast majority of the funding for the project will need to come from sources other than the public sector. With this in mind, the Task Force is seeking grant monies to supplement private sector fundraising efforts.

The Planning and Development Department is requesting $20,000 in grant funds from the Asheville Merchants Foundation. The grant does not require matching funds.

The Planning and Development Department recommends City Council adopt a resolution to apply and enter into an agreement with the Asheville Merchants Foundation for grant monies to assist with funding for Phase II of the Pack Square Renaissance Project.

RESOLUTION BOOK NO. 26 – PAGE 3

G. RESOLUTION NO. 00-64 - RESOLUTION CANCELLING THE CITY COUNCIL MEETING OF JULY 4, 2000

RESOLUTION BOOK NO. 26 – PAGE 4

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hay and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Urban Planner Dan Baechtold said that the applicant, American Tower Corporation, is requesting another continuance in this matter. The public hearing was opened on September 28, 1999, and continued a number of times. The last two continuances have been at the request of the applicant. The applicant is attempting to co-locate on the existing tower on Kenilworth Knoll as an alternative to building a new tower. The applicant is having some difficulty working out the technical details of co-location, and therefore is not ready to withdraw the application for the new tower.

Letters have been received from American Tower Corporation and Crown Castle, the company that owns the existing tower, which indicate that all parties expect the co-location to be successful as soon as the technical issues are resolved.

Continuances in this matter have been granted in the past, because allowing the applicant time to seek co-location on an existing tower may obviate the need for a new tower. In the previous continuances, staff made an effort to choose a hearing date that would allow sufficient time for the applicant to resolve outstanding issues prior to the hearing. Because of the uncertainty about the date that this will be resolved, staff recommends continuing this matter indefinitely. Under this option, the applicant will notify the City when they are ready to proceed with the hearing. Staff recommends that the applicant be required to pay the costs of notice and advertising for rescheduling the hearing.

Staff recommends continuing this matter indefinitely, subject to the condition that the applicant pay any costs of notice and advertising caused by rescheduling the public hearing.

Mayor Sitnick stressed that it is very unusual for City Council to grant this many continuances and this in no way should be construed as City Council setting a precedence on continuances.

A brief discussion was held about Council's policy of co-location and since it appears that American Tower will be able to co-locate on an existing tower, a continuance is favored.

Vice-Mayor Cloninger noted that if co-location takes effect, it will not raise the height of the tower.

Mr. David Herbert stated that telecommunication towers are a blight on our community.

After Mr. Wesley Bennett, representing the McKibben Hotel Group, was given a brief explanation of what the continuance would allow, he supported continuing the matter.

Councilman Hay moved to continue this matter indefinitely, subject to the condition that the applicant pay any costs of notice and advertising caused by rescheduling the public hearing. This motion was seconded by Councilman Worley and carried unanimously.

B. PUBLIC HEARING RELATIVE TO THE LOCAL HISTORIC LANDMARK DESIGNATION FOR THE PATTON/PARKER HOUSE LOCATED AT 95 CHARLOTTE STREET, ASHEVILLE, N.C.

ORDINANCE NO. 2679 - ORDINANCE DESIGNATING THE PATTON/PARKER HOUSE LOCATED AT 95 CHARLOTTE STREET, ASHEVILLE, NORTH CAORLINA, AS A LOCAL HISTORIC LANDMARK

Mayor Sitnick opened the public hearing at 5:24 p.m.

Ms. Angela Heitter, Planning Technician, said that this is the consideration of an ordinance designating the Patton/Parker House located at 95 Charlotte Street as a Local Historic Landmark. The public hearing on this matter was advertised on March 17 and March 24, 2000,

The property known as the Patton/Parker House was built in 1868, during the Civil War-Reconstruction Era. The owner, Thomas Walton Patton, and two African-American carpenters were responsible for building the vernacular Victorian-style dwelling. The Patton/Parker House is a two-story, wood frame residential building. The majority of exterior and interior elements are original and maintain high significance. In addition, the House is one of the last remaining residential estates on the Charlotte Street corridor.

Designation of this building as a local historic landmark makes the property owner eligible for a 50% reduction of property taxes. Currently the assessed value of the property is $441,100 and the total taxes paid for this year were $5,954.85. If the Patton/Parker House and property were designated historic the taxes would be reduced by half to $2,977.43.

When a property is designated historic, restrictions are placed on the property and to any exterior improvements or interior improvement where interiors are designated as significant. Any modification to the structures or land must receive a Certificate of Appropriateness from the Historic Resources Commission of Asheville and Buncombe County (HRC) and all improvements must follow the Secretary of the Interior's Standards for Rehabilitation and Illustrated Guidelines for Rehabilitating Historic Buildings.

The ordinance designates the Patton/Parker House a Local Historic Landmark. It is important that properties of local significance be preserved and protected for cultural, historic, and economic reasons for future generations.

The HRC, by unanimous vote, recommends to City Council that the Patton/Parker House located at 95 Charlotte Street be designated a Local Historic Landmark.

Since Asheville is a Certified Local Government, the North Carolina Department of Cultural Resources, State Historic Preservation Office (SHPO), has the right to comment on any nomination for Local Historic Landmark designation. The SHPO concurs with HRC's recommendation.

City staff recommends City Council consider an ordinance designating the Patton/Parker House located at 95 Charlotte Street as a Local Historic Landmark.

Mayor Sitnick closed the public hearing at 5:28 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2679. This motion was seconded by Councilman Peterson and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 180

B. PUBLIC HEARING TO REZONE FIVE LOTS ON GLENDALE AVENUE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2680 - ORDINANCE TO REZONE FIVE LOTS ON GLENDALE AVENUE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 5:29 p.m.

Urban Planner Carl Ownbey said that this is the consideration of an ordinance to rezone property on five lots on Glendale Avenue from RS-4 Residential Single-Family Medium Density District to RS-8 Residential Single-Family High Density District. This public hearing was advertised on March 17 and 24, 2000.

The owners/applicants of this property are Dorothy Holt, Mike and Kim Dawson/Ron Moser. The property on Glendale Avenue (PIN Nos. 9658.18-30-3284, 4017, 4292, 6220, and 9014) is approximately 5 acres in size. The property owners have been working for the past two to three years to develop the property but have been unsuccessful due to the topography and the RS-4 zoning. The property owners are requesting that the property be rezoned to RS-8 to permit a denser development. The 2010 Plan indicates this area to be low density residential; however the majority of the Oakley area consists of small lots with development much denser than indicated by the 13 year old Comprehensive Plan. This particular area was zoned RS-4 during the Unified Development Ordinance process at the request of the Oakley community to identify lower density areas in the community.

The traffic impact of the area was reviewed by the Traffic Engineer and he indicates that theoretically under the RS-4 zoning potential development would generate 20 peak hour trips per day and under the RS-8 zoning potential development would generate 40 peak hour trips per day. Glendale Avenue has an average daily traffic count of approximately 3000 vehicles. With traffic signals at both terminuses of the road, several calculations were made as well as assumptions on turning movements at the intersections. A determination was made that the additional trips would have an unnoticeable difference in the operations of the two intersections.

The RS-8 zoning would permit development of the property as a conventional single-family lot subdivision. During the Planning & Zoning Commission meeting, other options were identified which would permit the development of this property for affordable housing. These options included the Planned Unit Development overlay zone and conditional use zoning (which was not adopted by City Council at the time of the Commission's hearing).

The Planning and Development Department reviewed this rezoning and presented it to the Planning and Zoning Commission at their March 1, 2000, regular meeting with a recommendation to approve the rezoning request. After receiving comments from the public, the Commissioners voted 6 to 1 to recommend the rezoning of the five lots to RS-8 Residential Single-Family High Density District.

Mr. Ownbey responded to Councilwoman Field's concerns regarding two lots having no access onto Glendale Avenue. Even though Mr. Ownbey understood that City Council cannot rezone property based on it's intended use, he did note that the property owner is planning to develop a subdivision on this property which will require a street to be built.

Mayor Sitnick stated that she has received 2-3 phone calls and several letters opposed to the proposed rezoning.

Mr. Ron Moser, developer of the property, passed out a plat of the proposed subdivision to give Council an idea of what the property will be used for if rezoned. He spoke in support of the rezoning in that under the present RS-4 zoning, he cannot provide affordable housing on the proposed 19 lot subdivision.

City Attorney Oast reminded Council that this public hearing is only on rezoning the property and not Council's approval of the proposed subdivision plan. Any representation that is shown on the plan can be considered only for the purposes of what can be done with the property, not will be done with the property.

Ms. Kim Dawson, property owner, explained that it was her father (former property owner) that pushed for the RS-4 zoning during the UDO process because more apartment projects, such as Oak Knoll, were slated to be built in Oakley. And, since his family was one of a few families with a large amount of property in Oakley at that time and he did not want another complex in that area. She felt if it was not for her father's insistence on the RS-4 zoning at that time, the property would have probably been zoned RS-8.

Mayor Sitnick closed the public hearing at 5:53 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger felt that since City Council paid close attention to the different zoning designations during the UDO process and spent an enormous amount of time on the Oakley area, he felt the zoning classification of the current RS-4 should remain.

Councilwoman Field moved for the adoption of Ordinance No. 2680. This motion was seconded by Councilman Worley and carried on a 6-1 vote, with Vice-Mayor Cloninger voting "no".

ORDINANCE BOOK NO. 18 – PAGE 183

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2681 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR THE MEADOWS, PHASE III, LOCATED OFF ASCENSION DRIVE IN WEST ASHEVILLE

Due to the fact that Vice-Mayor Cloninger did not hear the entire public hearing on this issue and he did not vote to instruct the City Attorney to prepare the Order, Councilman Worley moved to excuse Vice-Mayor Cloninger from voting on this matter. This motion was seconded by Councilman Hay and carried unanimously.

City Attorney Oast said that following a public hearing on March 15, 2000, City Council voted to issue a conditional use permit for Phase III of The Meadows apartment complex. The order contains findings and conclusions developed from the public hearing and City Council's discussion. The order may be changed as Council wishes prior to it's adoption.

Mayor Sitnick requested that City staff work with the developers to correct certain difficulties that have not been settled in the Phase II development.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2681. This motion was seconded by Councilman Hay and carried unanimously (with Vice-Mayor Cloninger not voting).

ORDINANCE BOOK NO. 18 – PAGE 185

V. NEW BUSINESS:

A. RESOLUTION NO. 00-65 - RESOLUTION APPOINTING A MEMBER TO THE GREENWAY COMMISSION

Vice-Mayor Cloninger said that on February 22, 2000, City Council interviewed Phyllis Stiles and Crystal Pace. On March 21, 2000, City Council interviewed Judith Hamill.

Phyllis Stiles received 3 votes, Crystal Pace received 3 votes and Judith Hamill received one vote. Another vote was taken and Crystal Pace received 4 votes and Phyllis Stiles received 3 votes. Therefore, Councilwoman Whitmire moved to appoint Crystal Pace as a member of the Greenway Commission to serve a one year term, term to begin immediately and expire on December 31, 2000, or until her successor is appointed. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 5

VI. OTHER BUSINESS:

Procedural Change With Regard to Closed Sessions

Councilman Peterson said that after the worksession on March 21, 2000, City Council came out of closed session and continued to discuss business. He felt an amendment to the City Council's Rules and Procedures should be that a decision will be made prior to going into closed session whether any further discussion will occur after the closed session so that the public and/or media will know whether they should wait or leave.

Mayor Sitnick said that Councilman Peterson's point is well taken, however, it is very rare that City Council does come out of closed session and then continues to discuss business.

City Attorney Oast said that it has been his experience that when City Council does have an announcement coming out of a closed session that Council will so advise the people in attendance prior to going into closed session. However, there was no announcement in this case and that was not done.

Councilman Peterson moved to amend the City Council's Rules and Procedures No. 25 "Closed Sessions," that requires City Council to make a decision, prior to making a motion to go into closed session, on whether there will be an open session after the closed session or whether the meeting will be immediately adjourned after the closed session. This motion was seconded by Councilwoman Whitmire.

Mayor Sitnick felt that the procedural change will inhibit City Council from having the opportunity to have additional discussion that Council thinks of at the last minute. Since this occurs so infrequently and since it is not often that City Council even goes into closed session, she encouraged the media to stay until the closed session is over to see if there is something further that will be discussed. She strongly felt that Councilman Peterson's motion prohibits City Council from having any kind of spontaneity in their thinking and in their process to bring things to the public.

Councilman Hay noted that in the past, the press used to stay until the closed sessions were over, the doors opened, and the meeting officially adjourned. He said that nothing has changed in Council's practice, but what has changed is the press' practice in not staying until after the meeting is officially adjourned.

Vice-Mayor Cloninger said that perhaps an alternative would be that anytime City Council goes into closed session that an announcement be made that it's possible there will be other discussion after the closed session. Then it's up to the press whether they want to stay or not – which has been the case always.

Councilwoman Whitmire was concerned that members of the public may want to hear whatever Council has to say in addition to the press. To avoid the perception that City Council is doing business behind closed doors, she wanted to continually have open meetings.

When Councilwoman Field suggested having closed sessions at the beginning of the meetings, Mayor Sitnick said that then Council would be keeping people much later than anticipated.

Councilman Peterson suggested that when Council goes into any closed session, they announce that there may be discussion of items after the closed session.

Mayor Sitnick said that if the motion fails, she suggested City Council go on record saying that anytime City Council goes into closed session there is the potential that they may discuss an item after closed session.

Vice-Mayor Cloninger also suggested that if staff is ever asked if there will be discussion after closed session, that staff can honestly reply that they don't know whether anything will be discussed after closed session.

The motion made by Councilman Peterson and seconded by Councilwoman Whitmire failed on a 2-5 vote with Mayor Sitnick, Vice-Mayor Cloninger, Councilwoman Field, and Councilmen Hay and Worley voting "no".

Mayor Sitnick stated that City Council needs to make sure that the press knows they are always welcome to stay until the closed sessions are over because there is always the opportunity for spontaneity at the end of a closed session.

WNC Regional Air Pollution Control Agency and Board

Mayor Sitnick said that the ad hoc committee she appointed will be having their first meeting on March 30, 2000, with a group of invited guests who will be at the meeting as resources. She said that it has been brought to her attention that there is the possibility of other discussion that may occur before that date that has to do with Buncombe County's feelings about the Air Pollution Control Board. Therefore, she wants to make sure that the County is aware that the City of Asheville wants to be a part of any dialog that occurs so that our input is on the table at the time of any decision-making. It is also her hope that any decision that is made by Buncombe County is not made prior to the meeting on March 30 so that the City has an opportunity to put our feelings forward about how to proceed with the Air Pollution Control Board discussion. Given the fact that Haywood County has pulled out, it might require the need to reconfigure the Board to either stay local, go to the state, etc. There is a passionate feeling in the City of Asheville that the City stay part of the process.

Councilman Peterson suggested a formal letter be sent to Buncombe County from the Mayor and City Council asking that the City be included in any discussions since this is a joint Board. He hoped that unilateral decisions will not made.

Ms. Hazel Fobes, Chair of Citizens for Safe Drinking Water and Air, said that it was "this organization which, in September 1998, was requested to make a statement before the Air Quality Committee of the State Environmental Management Commission regarding concerns over management of the WNC Air Pollution Control Agency and Board. I made that presentation. Some of the concerns we had voiced were cited in the 1999 Administrative Audit of the regional body carried out by the State. Since that time, many positive changes have been effected at the Agency and in operation of the Board, lead by a new and able director and a qualified Board chair. There is a greater degree of fulfillment of responsibilities and sense of accountability. It holds monthly meetings, with first ever by-laws and attention to rules of procedure. It has created a strategic planning committee, a budget committee and enlarged and made its Advisory Council more representative and active. Personnel management has improved at the Agency; documentation has improved; and civil penalty procedures are enforced. In the light of the recent withdrawal of Haywood County from the regional agreement, CSDW has mobilized a coalition of interested civic organizations to consider the future of the agency and the board. We are requesting the Buncombe County Commissioners to withhold any decision which might lead to breakup of the interlocal cooperation. We believe that we need a regional, autonomous board and agency with functions as today taking advantage of the recent progress made. To that end, we would like to see a new interlocal agreement with the County and the City of Asheville for the present. We are prepared to offer specific arguments for continuing these local arrangements which assure effective monitoring and especially the support and involvement of the citizens." Ms. Fobes also handed out a letter from Nelda Holder, Chair of the WNC Regional Air Pollution Control Board, which lists most of the relevant initiatives of the past half year by the Board. In addition she passed out various other documents and articles.

Councilman Peterson moved to send to the Buncombe County Commissioners a formal letter from the Mayor and City Council requesting that the City be allowed to participate in the decision-making process regarding the future of the WNC Regional Air Pollution Control Agency and Board and that the County Commissioners not act unilaterally. This motion was seconded by Councilwoman Whitmire.

Councilwoman Field felt that perhaps the first thing that should happen is that we talk to the County before we start writing formal letters.

Mayor Sitnick said that she and Vice-Mayor Cloninger have a meeting tomorrow with the Chair of the County Commissioners, Mr. Tom Sobol, to discuss this issue and that the idea of a formal letter is just to put it on the record so that the community knows the City's intent to be a part of the process.

Councilman Worley felt that at the meeting set up for tomorrow with the County Chair, would be an ideal opportunity to community our concerns and our wishes without taking the formal step of a letter.

Councilman Peterson said that it was his understanding that at the County Commissioners meeting on Tuesday, April 4, the County is planning to take formal action. Therefore, if the City doesn't do something now, we will have missed the opportunity to make a statement.

Vice-Mayor Cloninger asked if Councilman Peterson would consider having an understanding that after he and the Mayor meet with Mr. Sobol, they will memorialize the discussion through a letter to County Commissioners.

Mr. Jeff Fobes, Citizens for Safe Drinking Water and Mountain Xpress, strongly spoke in support of Mayor Sitnick's statements.

Mr. Mike Lewis urged City Council to insist to the County that the City of Asheville wants to be a part of this process. He felt if the Air Pollution Control Agency is taken over by the County, then it will become subject to political process.

Ms. Susan Hutchinson, representing the Clean Air Task Force of the Alliance, suggested a joint public hearing so that the public can have input into how they want air issues dealt with.

Councilman Hay felt that we are only talking about a written memorandum that affirms our understanding that a decision will be made jointly with us. The concern is a decision will be made and we won't be on record in some fashion or another as having said that. If we're on record in a written way, then the issues are squarely in front of everyone. When the letter is written and by whom seems less important than there is some written statement from the City to the County that this is important to us.

Councilman Peterson said that he would be willing to amended his motion to leave the contents of the letter up to the Mayor's and Vice-Mayor's discretion and that the letter not be sent until after the meeting with Mr. Sobol. He just wanted to make sure that there be some formal sense of the City before the County Commissioner's meeting on April 4.

Councilman Peterson therefore amended his motion to read that a formal letter be sent from the Mayor and City Council to the Buncombe County Commissioners, leaving the contents of the letter up to the Mayor's and Vice-Mayor's discretion, expressing Council's intent that the City of Asheville be included in the decision-making process regarding the future of the WNC Regional Air Pollution Control Agency and Board and that the County Commissioners not act unilaterally. Also that the letter not be sent until after the meeting with the County Commissioner Chair Sobol. This motion was seconded by Councilwoman Whitmire and carried unanimously.

Mayor Sitnick said that it will be her intent to have the meeting with Mr. Sobol and then immediately draft a letter and send it to the County Commissioners.

Claims

The following claims were received by the City of Asheville during the period of March 3-16, 2000: Phyllis Childress (Streets) and Mary Chambers (Water).

The following claims were received during the period of March 17-23, 2000: Debra Shook (Water), Margaret Coates (Water), Solomon Golson (Police), Jim Parker (Sanitation), Sandy Ford (Streets), Sandy Matzko (Water) and Jason Petty (Parks & Recreation).

These claims have been referred to Asheville Claims Corporation for investigation.

Lawsuit

The City received the following Complaint on March 21, 2000, as follows: County of Buncombe v. Associates Financial Services Co. Inc. (property owner) and City of Asheville (demolition lien holder) – Tax foreclosure proceeding on which the City of Asheville allegedly holds a demolition lien on the subject property. This matter is being handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:55 p.m.

Magdalen Bulleon
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 4, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Restructuring of Redevelopment Loan to Robert Eidus

Summary: The consideration of a resolution authorizing the restructuring of a redevelopment loan in connection with the redevelopment of Disposal Parcel 5B of the Head of Montford Redevelopment Project.

Robert Eidus purchased property known as Disposal Parcel 5B of the Head of Montford Redevelopment Project from the City of Asheville on March 15, 1999. The property is located at 102 Montford Avenue and was formerly known as the Miller Cab property. As part of the consideration for Disposal Parcel 5B, the City received a Promissory Note, secured by a Deed of Trust on Disposal Parcel 5B, in the principal amount of $23,850.00. The Note is a balloon note with principal and interest at 7% per annum due and payable on February 16, 2001.

Mr. Eidus obtained a construction/permanent loan from Clyde Savings Bank to finance the redevelopment of the property in the amount of $30,000.00 at an interest rate of 7.75% and 15 year term. Redevelopment has been completed in accordance with the plan submitted by Mr. Eidus and approved by the City.

In order to pay off his obligation to the City as a balloon note due in 2001, Mr. Eidus would have to refinance his loan with Clyde Savings Bank. Refinancing would increase the interest rate to 8.5-8.75%. The higher interest rate would adversely impact the economic viability of the property based on its rental income potential. Mr. Eidus has requested the restructuring of his obligation to the City in order to avoid refinancing the loan from Clyde Savings Bank. As a result of negotiations with staff Mr. Eidus has agreed to pay monthly installments with interest at 8% over a period of twenty (20) years.

The terms proposed for restructuring the City's loan are reasonable and the restructuring will contribute to the economic viability of the property and the success of the Head of Montford Redevelopment Project.

Approval of the resolution will authorize the Community Development Director to restructure the loan.

Community Development staff recommends adoption of the resolution.

Amendment to Animal Control Ordinance

Summary: The consideration of an ordinance authorizing the City Manager to designate other City departments to enforce Chapter 3 of the City Code regulating animal control.

By Ordinance No. 2631, adopted by the City Council on October 27, 1999, keepers of animals within the City were specifically ordered to clean up after said animals. That ordinance authorized "appropriate officials" of the City to issue a civil penalty to violators of the ordinance. To determine what constitutes an "appropriate official," Section 3-6 of Chapter 3 of the City's Code must be reviewed. That Section of the Code restricted the enforcement personnel. This amendment will authorize the City Manager to administer the ordinance by designating other City departments to enforce some or all of the provisions of Chapter 3 of the Code of Ordinances and also authorizes the City Manager to create an Animal Control Division within a City Department. For example, enforcement of this ordinance in City parks be delegated to Parks and Recreation Department employees. Buncombe County Friends for Animals will provide training for City staff in enforcement of the ordinance.

The Police Department recommends adoption of the ordinance.

Amendment to Agreement with Grove Arcade Public Market Foundation regarding Location of Proposed Portico

Summary: The consideration of an amendment to the Preservation, Operation and Restoration Agreement between the City and the Grove Arcade Public Market Foundation regarding the location of a proposed portico.

During the course of preparing documents for the reorganization for the tax credit financing for improvements to the Grove Arcade at the end of last year, it was discovered that the Preservation, Operation and Restoration Agreement provides in Paragraph VII.E.2. that a pergola may be built on the north side of the building. The intent was and has always been to put the structure on the south side of the building. This mistake was the probable result of confusion arising from Battery Park Avenue being on the south side, while the Battery Park Hotel is on the north.

The Grove Arcade architects have suggested that the proposed structure is more correctly a "detached portico" than a "pergola", and an amendment to this effect has also been requested.

Adoption of the resolution authorizing the amendment is recommended.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

REPORT FROM THE FUTURE OF THE CIVIC CENTER TASK FORCE

Councilman Hay, and Chair of the Future of the Civic Center Task Force, stated that the hard-working and diligent Task Force members include: Charles Worley, Tommy Sellers, David Gantt, Barbara Halton, LaVerne Laney, Jan Davis and Mark Rosenstein. He said on behalf of the Task Force on the Future of the Civic Center, this is the latest in a series of reports to City Council by the Task Force on the Future of the Civic Center. Previous reports have covered the series of public meetings conducted by the Task Force, the commissioning of a market study and the results of that study, and the recommendations made by Hunter Interests Inc., the City's consultant. In its last presentation, the Task Force recommended that the Civic Center be improved as follows: (1) That the Thomas Wolfe Auditorium be improved to make it a "first class" performing arts center; (2) That no arena be studied for improvement and expansion; (3) That trade show space be expanded; and (4) That Hunter Interests Inc. be authorized to develop plans for a convention/conference center in partnership with private developers.

It was the opinion of the Task Force at that time that all goals could be best achieved by the convention/conference center proposal, and that all community needs could be met in a cost-efficient and comprehensive fashion.

In the late winter, the Task Force received the results of the Hunter Interests effort, which we have previously shared with City Council. The report indicated that developer interest was very high in the proposal, but it could not go forward without having previously identified a dedicated funding source for the public portion of the project. The consultant recommended that the City build support for such a funding source for the convention/conference center, and also move forward immediately with plans for a new arena.

Since receiving the report in January, the Task Force has met weekly to study options, and is prepared to make its recommendations about next steps. The Task Force has been joined in these latest meetings by representatives of UNC-A, the Asheville Smoke, the Downtown Commission, the Convention and Visitors Bureau, the Asheville Symphony, and the proposed amateur sports facility. Their assistance is greatly appreciated.

In light of Hunter Interests' latest report, the Task Force recommends that the City move forward on all four of the initial projects, but as individual efforts, rather than the consolidated effort previously built upon the convention/conference center effort. All four objectives are necessary, are in demand from the citizens, and are, in the opinion of the Task force, achievable contemporaneously. Taken individually, the projects are as follows:

Convention/Conference Center – The Hunter Interests' market studies remain valid, and have been affirmed by all research and anecdotal evidence considered by the Task Force. A convention/conference center would provide a measurable boot to the local economy, in particular to the hospitality industry, as well providing a new venue for community activities. In the event that the arena is relocated, dedication of the facility to a convention/conference center appears to be its most appropriate use. The opening of the Grove Arcade Public Market next year, along with continued revitalization of the down area, will make for an energized convention market, and studies show a demand for a venue for conferences in the Asheville area. The strong developer interest in the project is further proof of the feasibility of the proposal.

The Task Force recommends that efforts continue to build community support for the dedicated funding source necessary for the project, and that additional community partners, such as UNC-A, be approached. The Task Force recognizes that private development in the form of an adjacent hotel is essential to the development of a successful convention/conference center. However, nothing in this report is to be construed as endorsing or proposing a governmental subsidy of such private development. The Task Force is unanimous in its believe that such private development must stand on its own.

Performing Arts Center – No venue at the existing Civic Center shows stronger sustained community interest than the Thomas Wolfe Auditorium. Not only does it provide space for anchor tenants such as the Symphony and Community Concerts, its use is in high demand for popular events (as evidenced by the spring schedule). Due to relatively low operation costs, as well as the high level of use, no aspect of the existing Civic Center puts a lower burden on public funds. In addition to providing a venue for popular performing arts events, the auditorium serves an important community need by nurturing the arts, which is important to the continuing prosperity of our City. No other facility, existing or proposed, presently meets this important community need. The Task Force recommends that we build on the strong community interest in creating a first-class performing arts center.

A coalition of regular auditorium users, including the Symphony, Community Concerts, and the Arts Council, has offered to study other performing arts centers in cities such as

Greenville and Charlotte, and to report on design and funding. A delegation is presently planning a tour of similar facilities, with the goal of making recommendations to the Task Force. Interest is very high in improving the Thomas Wolfe Auditorium, and we believe that it is feasible to bring together a combination of public and private funds to make a first-class performing arts center a reality. In light of the long history of performing arts at that location, the importance of the auditorium to downtown, and the proposal that the performing arts center be complementary to the convention/conference center, we do recommend that the new facility, whether it be by renovation or new construction, be located at its present site.

Arena – The Hunter Interests' market study of several years ago found that the existing arena, if improved, would meet the needs of our community for the foreseeable future. In light of changes in the market since that time, as well as the success of the Asheville Smoke as an anchor tenant, Hunter Interests now recommends that we move forward with plans for a new arena. We agree. There has been a dramatic loss of events from our arena in the past few years, due primarily to the size and design of the facility. Events which would otherwise use the arena, such as large shows and basketball tournaments, go to other cities solely because of the facility. The success of minor league hockey, as well as the prospect of other such anchor tenants, indicates that a new arena can be successful built in partnership with private interests. Dan Wilhelm of the Asheville Smoke has a proposal based upon similar arenas in other cities which provides a model for what can work in Asheville.

The Task Force believes that that arena will almost certainly need to be built in a different location. Our research indicates that the expense and architectural feasibility of making the necessary changes in size and facilities render the present site unsuitable. We have considered requesting the Commission of a study of the existing arena, but have concluded that the expenditure is unnecessary. Among our reasons for relocation are the following: (a) Parking downtown for large events is seen as a major impediment, and all financial projections for funding a new arena require parking revenues to be successful (which is not available downtown); (b) Increasing seating at the present arena is not feasible, but of equal importance is a site, which would allow for additional expansion if required in the future; (c) Most new arenas include an additional ice rink for recreational skating, which would be infeasible at the present site; (d) Renovation would require displacement of present tenants and events during a long period of construction; (e) Interest from private investors, a prerequisite for funding a new arena, is much higher in a new, rather than renovated, facility; and (f) Relocating the arena would allow for space for the convention/conference center.

The Task Force recommends consideration of any potential location for a new arena, but feels preference should be given to a site within the City limits which will be synergetic with other City goals, such as downtown vitalization, riverfront development, or partnership with UNC-Asheville.

Trade Shows – The community has a vested interest in the success of a variety of trade shows, and expanded, improved space is desirable. The Task Force believes, however, that this need can be best met by careful design of the convention/conference center and the arena. The nature and requirements of different shows can be accommodated in several venues, with craft shows, for instance, located downtown and RV shows at the arena.

In conclusion, the civic leaders who planned our present multi-purpose civic center gave us a facility which has served our City very well for almost 30 years, but we believe our needs have outgrown the present location. We propose that we preserve the multi-purpose civic center concept by relocating the arena and dedicating the existing facility to a convention/conference center and performing arts center. In furtherance of that goal, we recommend that City Council commission the Task Force to do the follows: (a) Build support for a dedicated funding source for a convention/conference center, to be located at the site of the present Civic Center; (b)

Investigate promptly and aggressively the prospects of creating a first-class performing arts center, also to be located at the present location; and (c) Explore location and construction of a new arena.

In addition, we request that Chancellor Mullen of UNC-Asheville be asked to make an appointment to a vacant seat, and a non-attending member be replaced by someone with similar interests. Finally, the Task Force proposes that it be authorized to create an advisory panel to assist to in its work.

Councilman Hay, along with Councilman Worley, answered various questions/comments from Council, some being, but are not limited to: hotel owners do not want any more rooms built; we should not base a huge financial investment only on the success of the Asheville Smoke; there are other kinds of sports, other than hockey and basketball, that the community would like to see, e.g., racing; if a new arena is built, it should be located in the downtown area; the City should explore a partnership with UNC-A; the suggestion of a new, larger arena should be explored carefully; how is the feasibility of building a new arena determined; if we move forward with these recommendations, we still need to repair our existing deteriorating Civic Center; is it possible to purchase items for our Civic Center and then move them to be used in another facility if its built; the financial commitment should not rest solely on the Asheville taxpayers; we should explore naming opportunities; and the need to pursue the dedication of a raise in the room tax going specifically towards infrastructure needs.

Councilman Peterson wanted to stress that we are taking care of our existing facility in addition to exploring a new arena.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BELE CHERE 2000 BUDGET

Mr. Irby Brinson, Director of Parks and Recreation, said that this is the consideration of a budget amendment, in the amount of $545,000, appropriating revenue and expenditures for Bele Chere 2000 Festival.

This budget will be considered by the Bele Chere Board at their April 5, 2000, meeting and was approved Parks & Recreation Department staff. This request represents a balanced budget with appropriate revenue offsetting expenditures.

The Parks & Recreation Department staff recommend City Council adopt the budget amendment in order to recognize revenue and appropriate funds for Bele Chere 2000 Festival.

Councilwoman Whitmire questioned the figures with regard to beverages, the shuttle service, souvenirs and cost of inserts in the water bills. Mr. Brinson responded to all of her concerns and said that he would make available to all Council members, prior to the April 11 meeting, the 1998 Budget, 1999 Budget, 1999 Actual and 2000 Budget.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

OTHER BUSINESS:

WNC Regional Air Pollution Control Agency and Board

Mayor Sitnick updated City Council on the informal meeting held on March 30 to discuss the future of the WNC Regional Air Pollution Control Agency. After much discussion, there appeared to be three options: (1) the agency become a County operated department; (2) operate the function as a joint agency controlled by a board appointed by the City, the County and perhaps by other towns in the County; or (3) leave the agency in place for a year to see if it would work. The committee members requested the County consider a joint public hearing and Buncombe County Commissioner Chairman Tom Sobol said that he would relay this request to the Commissioners. Mr. Paul Muller, local representative of the NC Division of Air Quality said that he felt the state would allow the current structure to stay in place until the Environmental Management Commission ("EMC") approved changes and that he would send us a letter to that effect.

Mayor Sitnick asked Council to consider writing a letter to the EMC and the Buncombe County Commissioners to clarify in writing the City's position in that the agency should continue it's current structure, modified to recognize the deletion of Haywood County, until the issue is cleared up.

Councilman Peterson suggested that the City Council fact-finding committee make a report to City Council at their formal meeting on April 11, 2000. Discussion then surrounded whether the recommendations should or could be approved at the next worksession held on April 18, 2000.

It was the consensus of City Council to have the Council fact-finding committee report to the full City Council at their meeting on April 11 or April 18, whichever meeting the report can be finalized for. It was agreed that the City will find out what action, if any, the Buncombe County Commissioners took with regard to this matter at their meeting held earlier today. City Council also agreed that if the County Commissioners were amenable to a joint public hearing, the City Council would be eager to participate.

Affordable Housing

Councilwoman Field asked that on the April 18 worksession agenda the issue about dedication of 1 cent of property tax to be leveraged to the housing trust fund. Because this has such a major effect on the budget, Council should give direction to the City Manager as quickly as possible. She also asked staff to research what impact that would have on the overall budget (which would be a reduction of approximately $400,000 in the General Fund) and if the money is dedicated, if additional housing units can be built in that year.

Parking Meter Rates

When Councilwoman Field raised the question about a article in the newspaper about City Council raising parking rates, Mayor Sitnick pointed out that discussion is in the very preliminary stages and the Fees and Charges Committee has only heard part of a report. The news media should not have drawn any conclusions on preliminary discussion.

Parks and Recreation Master Plan

Councilman Peterson asked for an update on what the City is doing to implement the Parks and Recreation Master Plan since the Master Plan Bond was defeated.

Revenue Roundtable

Mayor Sitnick requested that a revenue roundtable be set up in order to get public input and buy-in from the community. Discussion surrounded when the roundtable should take place. It was the consensus of City Council that the Mayor meet with the City Manager and report back with suggested dates.

Closed Session

At 5:45 p.m., Councilman Worley moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Leanna F. Young; Janet Rebecca Crisp; Paul Evington; Scott Alan Gaddy; Rock S. Edwards; William R. Annarino; Leroy Lunsford; and City of Asheville - statutory authorization is contained in G.S. 143-318.11(a)(3); and (2) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease - statutory authorization is contained in G.S. 143-318.11(a)(5). This motion was seconded by Councilwoman Field and carried unanimously. Councilman Hay was excused at 5:45 p.m. from participating in the first closed session item.

At 6:03 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

No further business taking place, Mayor Sitnick adjourned the meeting at 6:04 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 11, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilwoman Whitmire gave the invocation.

CHANGE TO AGENDA

At the request of Mayor Sitnick, a brief report on the future of the WNC Regional Air Pollution Control Board was added to the agenda under "Other Business."

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 11, 2000, AS "PARKINSON'S DISEASE AWARENESS DAY"

Mayor Sitnick read the proclamation proclaiming April 11, 2000, as "Parkinson's Disease Awareness Day " in the City of Asheville. She presented the proclamation to Mrs. Samuel Bingham, who briefed City Council on some activities taking place during the day.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE WORKSESSIONS HELD ON MARCH 21, 2000, AND APRIL 4, 200, AND THE FORMAL MEETING HELD ON MARCH 28, 2000

B. MOTION SETTING A PUBLIC HEARING FOR APRIL 25, 2000, TO CONSIDER ADOPTION OF DRAFT CONSOLIDATED HOUSING AND COMMUNITY DEVELOPMENT PLAN

C. RESOLUTION NO. 00-66 - RESOLUTION AUTHORIZING THE RESTRUCTURING OF THE REDEVELOPMENT LOAN TO ROBERT EIDUS AT 102 MONTFORD AVENUE

Summary: The consideration of a resolution authorizing the restructuring of a redevelopment loan in connection with the redevelopment of Disposal Parcel 5B of the Head of Montford Redevelopment Project.

Robert Eidus purchased property known as Disposal Parcel 5B of the Head of Montford Redevelopment Project from the City of Asheville on March 15, 1999. The property is located at 102 Montford Avenue and was formerly known as the Miller Cab property. As part of the consideration for Disposal Parcel 5B, the City received a Promissory Note, secured by a Deed of Trust on Disposal Parcel 5B, in the principal amount of $23,850.00. The Note is a balloon note with principal and interest at 7% per annum due and payable on February 16, 2001.

Mr. Eidus obtained a construction/permanent loan from Clyde Savings Bank to finance the redevelopment of the property in the amount of $30,000.00 at an interest rate of 7.75% and 15 year term. Redevelopment has been completed in accordance with the plan submitted by Mr. Eidus and approved by the City.

In order to pay off his obligation to the City as a balloon note due in 2001, Mr. Eidus would have to refinance his loan with Clyde Savings Bank. Refinancing would increase the interest rate to 8.5-8.75%. The higher interest rate would adversely impact the economic viability of the property based on its rental income potential. Mr. Eidus has requested the restructuring of his obligation to the City in order to avoid refinancing the loan from Clyde Savings Bank. As a result of negotiations with staff Mr. Eidus has agreed to pay monthly installments with interest at 8% over a period of twenty (20) years.

The terms proposed for restructuring the City's loan are reasonable and the restructuring will contribute to the economic viability of the property and the success of the Head of Montford Redevelopment Project.

Approval of the resolution will authorize the Community Development Director to restructure the loan.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 6

D. ORDINANCE NO. 2682 - BUDGET AMENDMENT APPROPRIATING REVENUE AND EXPENDITURES FOR THE BELE CHERE 2000 FESTIVAL

Summary: The consideration of a budget amendment appropriating revenue and expenditures for Bele Chere 2000 Festival.

This budget has been approved by the Bele Chere Board and Parks & Recreation Department staff. This request represents a balanced budget with appropriate revenue offsetting expenditures.

The Bele Chere Board and Parks & Recreation Department staff recommend City Council adopt the budget amendment in order to recognize revenue and appropriate funds for Bele Chere 2000 Festival.

ORDINANCE BOOK NO. 18 – PAGE 191

E. ORDINANCE NO. 2683 - ORDINANCE AUTHORIZING THE CITY MANAGER TO DESIGNATE OTHER CITY DEPARTMENTS TO ENFORCE CHAPTER 3 OF THE CODE OF ORDINANCES REGULATING ANIMAL CONTROL

Summary: The consideration of an ordinance authorizing the City Manager to designate other City departments to enforce Chapter 3 of the City Code regulating animal control.

By Ordinance No. 2631, adopted by the City Council on October 27, 1999, keepers of animals within the City were specifically ordered to clean up after said animals. That ordinance authorized "appropriate officials" of the City to issue a civil penalty to violators of the ordinance. To determine what constitutes an "appropriate official," Section 3-6 of Chapter 3 of the City's Code must be reviewed. That Section of the Code restricted the enforcement personnel. This amendment will authorize the City Manager to administer the ordinance by designating other City departments to enforce some or all of the provisions of Chapter 3 of the Code of Ordinances and also authorizes the City Manager to create an Animal Control Division within a City Department. For example, enforcement of this ordinance in City parks be delegated to Parks and Recreation Department employees. Buncombe County Friends for Animals will provide training for City staff in enforcement of the ordinance.

The Police Department recommends adoption of the ordinance.

ORDINANCE BOOK NO. 18 – PAGE 196

F. RESOLUTION AMENDING PRESERVATION, OPERATING AND RESTORATION AGREEMENT FOR GROVE ARCADE BUILDLING

This item was removed from the Consent Agenda due to a conflict of interest by Vice-Mayor Cloninger.

G. MOTION SETTING A PUBLIC HEARING ON APRIL 25, 2000, TO CONSIDER A PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR CROWELL FARMS LOCATED ON WEST OAKVIEW ROAD NEAR EAGLE'S NEST LANE

H. MOTION SETTING A PUBLIC HEARING ON APRIL 25, 2000, TO CONSIDER THE REZONING OF 655 BREVARD ROAD FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT TO OFFICE I, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE REZONING)

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA

RESOLUTION NO. 00-67 - RESOLUTION AMENDING PRESERVATION, OPERATING AND RESTORATION AGREEMENT FOR GROVE ARCADE BUILDLING

Due to a conflict of interest by Vice-Mayor Cloninger, Councilman Worley moved to excuse Vice-Mayor Cloninger from voting on this matter. This motion was seconded by Councilman Hay and carried unanimously.

Summary: The consideration of an amendment to the Preservation, Operation and Restoration Agreement between the City and the Grove Arcade Public Market Foundation regarding the location of a proposed portico.

During the course of preparing documents for the reorganization for the tax credit financing for improvements to the Grove Arcade at the end of last year, it was discovered that the Preservation, Operation and Restoration Agreement provides in Paragraph VII.E.2. that a pergola may be built on the north side of the building. The intent was and has always been to put the structure on the south side of the building. This mistake was the probable result of confusion arising from Battery Park Avenue being on the south side, while the Battery Park Hotel is on the north.

The Grove Arcade architects have suggested that the proposed structure is more correctly a "detached portico" than a "pergola", and an amendment to this effect has also been requested.

Adoption of the resolution authorizing the amendment is recommended.

Councilman Hay moved for the adoption of Resolution No. 00-67. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 7

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A NEW CHARLOTTE STREET TRANSITION OVERLAY DISTRICT AND APPLICATION OF THAT DISTRICT TO 43 PROPERTIES LOCATED IN THAT AREA

Due to an error in posting the property, Councilwoman Field moved to schedule the public hearing on April 25, 2000. This motion was seconded by Councilman Worley and carried on a 5-2 vote, with Councilman Peterson and Councilwoman Whitmire voting "no".

B. PUBLIC HEARING RELATIVE TO AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD ALLOW TEMPORARY TELECOMMUNICATIONS FACILITIES AT APPROVED SITES

ORDINANCE NO. 2684 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE WHICH WOULD ALLOW TEMPORARY TELECOMMUNICATIONS FACILITIES AT APPROVED SITES

Mayor Sitnick opened the public hearing at 5:32 p.m.

Senior Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) which would allow temporary telecommunications facilities at approved sites. This public hearing was legally advertised on March 31 and April 7, 2000.

The Planning and Zoning Commission, at their March 1, 2000, meeting, reviewed and recommended approval of an amendment to the UDO which would amend Section 7-14-2 to allow temporary telecommunications facilities at approved sites. The proposed amendment would permit a temporary telecommunications facility to be located at sites that have been approved for the location of a permanent facility (telecommunications tower, concealed telecommunications facility, or co-located facility). A temporary telecommunications facility could be placed on the approved site for a period of up to 6 months while the permanent facility is being constructed and/or installed. The time period for the temporary facility could be extended for another 6 months if the construction has begun but has not been completed. With the proposed amendment, telecommunications service providers could begin providing service from an approved site almost immediately instead of waiting for the construction and/or installation of the permanent facility.

The Planning and Zoning Commission voted 7 to 0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Mayor Sitnick closed the public hearing at 5:50 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2684. This motion was seconded by Councilman Hay and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 197

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2685 – ORDINANCE WAIVING SECTION 7-11-6 OF THE CODE OF ORDINANCES WITH RESPECT TO A SIDEWALK AT 1190 SWEETEN CREEK ROAD

City Engineer Cathy Ball said that this is the consideration of a request to waive the Unified Development Ordinance (UDO) requirement for a sidewalk along Sweeten Creek Road for a proposed warehouse.

Mr. Karl Lail, owner of the Have a Cup, Coffee Service, Inc., located at 1190 Sweeten Creek Road, is requesting a waiver of the UDO requirement for a sidewalk along Sweeten Creek Road for a proposed warehouse.

Section 7-11-6 of the UDO requires that new commercial construction place sidewalks as specified in the Asheville Standard Specifications & Details Manual along street rights-of-way or pay a fee in lieu of constructing the sidewalk. Mr. Lail proposes to construct a new warehouse at 1190 Sweeten Creek Road. Sweeten Creek Road is a State maintained road. The State proposes to widen this section of Sweeten Creek Road from Roberts Street to Rock Hill Road within the next two years.

This development meets the requirements for a paying a fee in lieu of constructing the sidewalk due to the fact that sidewalks are scheduled to be installed as part of a State project which has been funded for construction. This development has approximately 100 linear feet of frontage on a public street with a twenty-four foot wide driveway. The amount of the fee in lieu of construction will be approximately $1,520.00.

As a part of the N.C. Dept. of Transportation (NC DOT) project, the City will be requested to participate in the cost of sidewalks by paying 40% of the cost of sidewalks for the portion of the project within the corporate limits. Staff **does not** recommend that City Council waive the requirement that the developer pay the fee in lieu of construction for a proposed warehouse at 1190 Sweeten Creek Road.

City staff requests that City Council not waive the requirement that a sidewalk be placed along Sweeten Creek Road or a fee in lieu of construction be paid as required by the UDO Section 7-11-6 for the proposed warehouse located at 1190 Sweeten Creek Road.

Mr. Karl Lail, owner of the property located at 1190 Sweeten Creek Road, said that he would have no problem with paying the fee, however, the sidewalks are already funded as part of the NC DOT project. He requested City Council waive the fee in lieu of construction in the amount of $1,520.00.

Discussion surrounded the fairness of making Mr. Lail paying the entire fee when in two years sidewalks are scheduled to be installed by the State. Since the City will be requested by the State to pay 40%, Vice-Mayor Cloninger moved to waive the provision of the UDO which requires that a sidewalk be constructed for new development or a fee in lieu of construction of the sidewalk to require Mr. Lail pay 40% of $1,520.00 and waive the remaining 60% of the costs for a sidewalk at 1190 Sweeten Creek Road. It was noted that this partial fee waiver is site specific only. This motion was seconded by Councilman Worley and carried on a 6-1 vote, with Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 – PAGE 199

Mayor Sitnick pointed out that this City Council is making significant efforts and strides to improve the permitting process to make it easier for development to occur in the City and has held several meetings with developers, realtors, home builders, architects, etc. to address any concerns.

B. REPORT FROM THE TASK FORCE ON THE FUTURE OF THE CIVIC CENTER

Councilman Hay, and Chair of the Future of the Civic Center Task Force, briefly reviewed the report in which he went over in detail at the April 4, 2000, worksession. In summary, he stated that the civic leaders who planned our present multi-purpose civic center gave us a facility which has served our City very well for almost 30 years, but we believe our needs have outgrown the present location. We propose that we preserve the multi-purpose civic center concept by relocating the arena and dedicating the existing facility to a convention/conference center and performing arts center. In furtherance of that goal, we recommend that City Council commission the Task Force to do the follows: (a) Build support for a dedicated funding source for a convention/conference center, to be located at the site of the present Civic Center; (b) Investigate promptly and aggressively the prospects of creating a first-class performing arts center, also to be located at the present location; and (c) Explore location and construction of a new arena.

Councilman Hay then reported on a trip that he and several others went to the Bi-Lo Center in Greenville, S.C. Even though that Center doesn't meet the needs Asheville has, there was a lot that was learned with regard to site location, funding, operation, etc.

Vice-Mayor Cloninger endorsed the report but was concerned that as we explore building a new arena that we not defer making renovations to our existing facility. He also expressed concern about the need and economic feasibility of a new arena.

Councilman Hay stressed that this is a challenge and we need to make sure the arena is what Asheville wants and what they need.

Mayor Sitnick said that if discussions cannot move forward with an arena, possibly a regional partnership can be explored

Councilwoman Field voiced concern about siting anything outside of the downtown area.

Councilman Worley moved to accept the report from the Task Force on the Future of the Civic Center. This motion was seconded by Councilwoman Field and carried unanimously.

VI. OTHER BUSINESS:

A. WNC REGIONAL AIR POLLUTION CONTROL BOARD AND AGENCY

Mayor Sitnick updated City Council on the issue of the Haywood County withdrawing from the WNC Regional Air Pollution Control agreement. She reviewed the options available to Council stating that Council's number one concern is the public health. A recommendation will need to be sent to the Environmental Management Commission (EMC) prior to June 1 with a recommendation on how the program should be operated in the future. She said that the Buncombe County staff made a presentation to the Buncombe County Commissioners recommending that the County take over the functions of the Board and Agency and have the agency be a part of County government to be administered by the County and rather than have an independent board, that an advisory committee be formed. Mayor Sitnick has asked the County Commissioners to have a joint public hearing with the City Council in order to receive the public's input on the future of the Agency and Board.

Vice-Mayor Cloninger felt that the City Council should proceed with a public hearing, hopefully with the County Commissioners, and reach a decision on what City Council would like the future of the Agency to be.

Upon inquiry of Councilman Peterson, City Attorney Oast said that if City Council recommends that we work with Buncombe County to develop a joint agency and the County is agreeable to that, the process would be that we inform the EMC of what our intentions are and then work with the County to develop a new interlocal agreement based on the old one. Once the agreement is approved by both bodies, then it can be submitted to the EMC for their approval. If the City and County vote differently on the future of the Agency, then the City will have to decide what position they want to recommend to the EMC.

Mayor Sitnick passed out correspondence she has complied with regard to the issue of the future of the Agency and Board.

Ms. Hazel Fobes gave a brief update of the Buncombe County Commissioners meeting on this subject stating that the County has not taken any official position as of yet. She urged the City and County to have a joint public hearing on this matter.

It was the consensus of City Council to hold the public hearing as soon as possible in order to get on record the City's position regarding the Agency and still allow us time to work with the County.

Vice-Mayor Cloninger moved to schedule a public hearing on Tuesday, April 18, 2000, at 7:00 p.m. in the Council Chamber located on the 2nd Floor of the City Hall Building to receive public comments on the future of the WNC Regional Air Pollution Control Agency and to officially invite the Buncombe County Commissioners to equally participate in this public hearing process. This motion was seconded by Councilman Peterson and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the period of March 24-April 6, 2000: Kathleen Waters (Streets), Patricia Farmer (Water), Billy Helton (Police), Robert Zieber (Streets), Eckel Bradley (Engineering), Peggy Griffin (Police) and Kristi Outlaw (Police).

These claims have been referred to Asheville Claims Corporation for investigation.

C. LAWSUIT

The City received a Complaint on April 7, 2000, which is generally described as follows: Mark Gibney v. City of Asheville. The nature of the proceeding is small claims action for unlawful taking of property. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Minimum Housing Complaint

Mr. J. T. Black expressed concern about the problems he has been having with code inspections on his property at 331 Fairview Road. He felt that this house is not unsafe housing and his tenants should be allowed to return to the house. City Manager Westbrook said that he would look into the situation, noting that Asheville does have a very stiff Minimum Housing Code.

Economic Development

Mr. Peter Dawes felt that the City and County should work closer together, especially with regard to economic development.

WNC Regional Air Pollution Control Agency

Ms. Hazel Fobes, representing Citizens for Safe Drinking Water, read the following statement: "Water and air are the two universal life sustaining elements. They need to be protected by each continent – country, state, county and village in their purest possible state. To gain progress toward such a state requires cooperation in nations, through the United Nations system. In state and local agencies it will require governments and citizens working together. This will call for a special arrangement, supervision of air and water. No one agency of government should attempt to control an air pollution agency and/or board. That would be interpreted as an act of narrow-mindedness – selfishness – hidden agenda. Regionalism in water and air is vital to their survival in the purest condition possible."

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 18, 2000 - 9:00 a.m.

Special Meeting

Present: Mayor Leni Sitnick, Presiding; and Councilwoman Terry M. Whitmire

Staff Present: Gerald Green, Senior Planner; Dan Baechtold, Urban Planner; Robert W. Oast, Jr., City Attorney

At 9:08 a.m., Mayor consulted with City Attorney Oast and noted that no quorum was present.

There being no quorum present, the meeting was adjourned at 9:11 a.m.

Mayor Sitnick and Councilwoman Whitmire accompanied staff (Mr. Green and Mr. Baechtold) on a tour of Crowell Farms property.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 18, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Auditing Services

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with Crisp Hughes Evans LLP, Certified Public Accountants, for auditing services for Fiscal Year 1999-2000.

N.C. General Statutes 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

In 1998 the City solicited proposals from 36 accounting firms to perform the City's annual audit for the Fiscal Years 1997-98, 1998-99 and 1999-2000. City Council selected Crisp Hughes Evans LLP to conduct the Fiscal Year 1997-98 audit with the option to be re-engaged annually for two more years. They completed both the Fiscal Year 1997-98 and Fiscal Year 1998-99 audit and have now submitted an engagement letter for the Fiscal Year 1999-2000 audit. The fee has been estimated at $54,700. Funds are appropriated in the budget of the Accounting Division of the Finance Department.

City staff recommends City Council adopt the resolution.

Budget Amendment for French Broad River Park, Phase IV

Summary: The consideration of a budget amendment, in the amount of $500, to accept a private donation to fund the development of French Broad River Park, Phase IV.

French Broad River Park, Phase IV represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. The park will include greenways, bicycle facilities, lawn bowling, soccer and softball fields, restrooms, skateboarding and rollerblading facilities, open space, picnic shelter, parking, and perhaps a welcome center. Phase IV will also connect to a planned NC DOT funded greenway from Hominy Creek on the west, and eventually to the Amboy Road greenway to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. Private donations are one of the means to raise funds for the park.

The Parks and Recreation Department recommends the City of Asheville accept the donation on behalf of the Parks and Recreation Department for development of French Broad River Park, Phase IV.

Grant from Land, Water & Conservation Fund for French Broad River Park, Phase IV

Summary: The consideration of a resolution to apply for and enter into an agreement with the N. C. Department of Environment and Natural Resources, Division of Parks and Recreation in the Land, Water and Conservation Fund to assist with the construction of the French Broad River Park, Phase IV.

French Broad River Park, Phase IV, represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. The final master plan is complete, and approved by the Parks and Recreation Advisory Board and the Greenway Commission. The park will include greenways, bicycle facilities, lawn bowling, volleyball and soccer complex, softball field, playground, restrooms, roller hockey, open space, picnic shelter, parking, and a welcome center. Phase IV will also connect to a planned NC DOT funded greenway from Hominy Creek on the west, and eventually to the Amboy Road greenway to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. To date, $50,500 has been raised, and $520,000 in grant proposals are pending.

The Parks and Recreation Department is requesting $250,000 to $300,000 in grant funds from the Land, Water and Conservation Fund which requires a 50% cash or in-kind match. The in-kind match is available in land value, labor, equipment, and project management through Parks and Recreation.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds with the N. C. Department of Environment and Natural Resources, Division of Parks and Recreation, through the Land, Water and Conservation Fund to assist with the construction of the French Broad River Park, Phase IV.

Two Police Department Grant Applications

Summary: The consideration of two resolutions authorizing the City Manager to submit full applications and accept two grant awards from the N. C. Department of Crime Control and Public Safety, Division of the Governor's Crime Commission, in support of a community policing GIS project; and a second grant in support of a social work and police partnership project.

The Governor's Crime Commission has invited the City of Asheville to submit a grant application in the amount of $63,465 in support of a one year Community Policing Geographic Information System Project outlined in the pre-application reviewed by the Commission. A local match of $21,155 is required. The local match will be budgeted in the Fiscal Year 2000-01 Annual Operating Budget. The purpose of this project is to enable consolidation most of the City's geographic information systems data and coordinate its application in support of Community Oriented Governing.

The Governor's Crime Commission has also invited an application in the amount of $85,950, covering two years, in support of a Social Work and Police Partnership project (SWAPP), as outlined in the pre-application reviewed by the Commission. A local match of $28,650 is required for each of two (2) consecutive years over the 2 year life of the project. The local match will be budgeted in the Fiscal Year 2000-01 and 2001-02 Annual Operating Budget. The purpose of this project is to reduce family violence issues contributing to chronic juvenile run-away behavior.

City staff recommends City Council adopt two resolutions authorizing the City Manager to submit grant applications and if awarded, acceptance of grants, to the N. C. Department of Crime Control and Public Safety, Governor's Crime Commission, (1) in support of a community policing GIS Project; and (2) in support of a social work and police partnership project.

New Street Name Approval – Barrett Lane

Summary: The consideration of a resolution accepting the new proposed street name "Barrett Lane."

Givens Estates, Inc., owner of lots in Givens Estates United Methodist Retirement Community, has petitioned the City of Asheville to accept the street name of "Barrett Lane." This new street is to begin at Wesley Drive and end at the dead-end.

Staff recommends adoption of the resolution.

New Street Name Approval – Westwind Lane

Summary: The consideration of a resolution accepting the new proposed street name "Westwind Lane."

AGR Real Property Investors, LLC., owner of lots in the Westwind Subdivision, has petitioned the City of Asheville to accept the street name of "Westwind Lane." This new street will begin at Maple Avenue and end at the dead-end.

Staff recommends adoption of the resolution.

Brevard Road Annexation Area Phase II – Contract "B" Sanitary Sewer Improvements Bid Award

Summary: The consideration of a resolution awarding the contract for Brevard Road Annexation Area Phase II Contract "B" to Buckeye Construction Company, Inc., in the amount of $270,258.42.

This project is part of the Brevard Road Annexation Area Sanitary Sewer System Improvements and consists of the installation of approximately 1,703 linear feet of twelve inch (12") diameter sanitary sewer line and 1,471 linear feet of eight inch (8") diameter sanitary sewer line and related appurtenances.

The Engineering Department received and publicly opened five (5) bids on Tuesday, April 4, 2000, at 2:00 p.m. After a thorough review of the bid documents by the Engineering Department and the Office of Minority Affairs, Buckeye Construction Company, Inc., was found to be the lowest responsible bidder with a total bid of $270,258.42. The Engineer's estimate for this project was $ 379,630.00.

Buckeye Construction Company, Inc., has performed several projects of this nature in the past without any major problems.

The construction time for this project is identified as 120 calendar days in the contract documents. The contractor will be required to pay the sum of $250.00 as liquidated damages for each and every calendar day that he shall be in default after the time stipulated in the contract.

Staff recommends that City Council accept a resolution awarding the bid for Brevard Road Annexation Area - Phase II - Contract "B" Sewer System Improvements to Buckeye Construction Company, Inc., the responsible low bidder and authorize the City Manager to execute all necessary agreements and contracts.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

Edward- vision board and I accepted on behalf of city a plaque recognizing our contributions to vision for 99.

2000 VISION BENCHMARK

Councilman Hay accepted, on behalf of the City of Asheville, a plaque from the Asheville-Buncombe VISION, Inc., which honored the City of Asheville for their significant commitment to the future of Asheville-Buncombe County in 1999-2000. He presented Mayor Sitnick with the plaque.

Mr. Robert Burgin, representing the Asheville-Buncombe VISION Board of Directors, reviewed with Council how the shared VISION was developed and updated Council on the status of the benchmarks. He stressed that the benchmarks will always be a work in progress as they refine data and discover better ways to measure results toward achieving this VISION.

Upon inquiry of Councilwoman Whitmire, Mr. Burgin said that they will continue to look for a measurable benchmark for substance abuse.

On behalf of City Council, Mayor Sitnick thanked the VISION Board of Directors and all their supporters for their significant commitment to Asheville's future.

FUNDING REQUEST BY REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON

Mr. John Tate, Chair of the Regional Water Authority of Asheville, Buncombe and Henderson requested a commitment of $13,000 from the City of Asheville to match funds promised by Henderson and Buncombe counties and the City of Hendersonville. These funds are part of a $65,000 commitment from the Cross Creek Foundation which commitment is contingent on an equal match (dollar for dollar) for funding from local governments.

The N.C. Clean Water Management Trust Fund awarded grants to the Mills River Partnership in 1999 for up to $730,000 resulting in the execution of the following two grant agreements: (1) $541,000 to the Regional Water Authority to construct agrichemical handling facilities, buffer restoration, stream bank stabilization, erosion control in the National Forest, and long term strategic planning for Mills River watershed protection; and (2) $189,000 to the Carolina Mountain Land Conservancy for buffer preservation.

The Regional Water Authority is a member of the Mills River Partnership. The Partnership had developed a management strategy when the grant application was prepared which provided that the Regional Water Authority would be the overall grant administrator and would contract with the Henderson Soil and Water Conservation District (HSWCD) and the U.S. Natural Resources Conservation Service (NRSC) for local administration of specific elements of the agrichemical handling facilities, buffer restoration, and stream bank stabilization projects. The HSWCD would perform these functions through NRSC engineers and a Soil Conservationist hired with proceeds from the Trust Fund Grant. When the Clean Water Management Trust Fund

111

awarded the Grant, they omitted funding for the Soil Conservationist, which required the Mills River Partnership to alter its strategy for implementing the grant projects.

The HSWCD estimates that funding of a Soil Conservationist for two years is necessary to insure the complete administration of the grant projects they are responsible for and to insure the successful applicant has the skills to perform the work. A two year budget for this position has been estimated at $100,000, none of which can be funded by the Clean Water Management Trust Fund proceeds.

The Carolina Mountain Land Conservancy has secured a commitment from the Cross Creek Foundation to provide an equal match (dollar for dollar) to any new funding preferably from local governments for this Soil Conservationist position. The Foundation has set a deadline of June 30, 2000. The Carolina Mountain Land Conservancy has obtained a %16,000 commitment from the City of Hendersonville, and an $8,000 commitment from Henderson County. An additional $26,000 is needed to raise a total of $50,000 from local governments, which could then be matched by $50,000 from the Foundation to fund the position for two years. He has been advised that Buncombe County has agreed to fund $13,000 of the $26,000 if the City of Asheville agrees to fund an equal amount.

Due to conservation measures during the period of the drought last year, the revenues of the Regional Water Authority are down and our costs are increased based upon rising fuel prices, increase costs during the drought, and significant unfunded mandates in the form of, among others, reimbursement to the N. C. Dept. of Transportation for non-betterment costs. Our Water Fund budget is extremely tight and they were forced in the 1999-2000 fiscal year to significantly reduce their efforts at continuing repair of the aged water system.

He requested the City of Asheville match the contribution of Buncombe County in the amount of $13,000 to help fund the Soil Conservationist position.

Councilman Worley strongly supported this request.

Upon inquiry of Vice-Mayor Cloninger, City Manager Westbrook said that the City would have to do a budget amendment to transfer the funds from the Contingency Fund to the Water Fund.

Councilwoman Field was troubled that when Buncombe County is asked for a match, that they base their decision on whether the City of Asheville agrees to fund an equal amount. She felt there should be a more fair balance when requests go to the City and County in matches.

Mayor Sitnick voiced several concerns, some being, but are not limited to, polluters should be responsible for cleaning up their own pollutants, City taking money from Contingency and transferring it to the Regional Water Authority, and general dissatisfaction with the Water Agreement. She said that she would talk with Mr. Tate and Councilman Worley (former Chair of the Regional Water Authority) to discuss her concerns with regard to this matter.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda, along with a resolution authorizing the City Manager to execute an agreement with the Regional Water Authority for the funding of the Soil Conservationist position.

CONSOLIDATED HOUSING AND COMMUNITY DEVELOPMENT PLAN

Ms. Charlotte Caplan, Community Development Director, said that the Consolidated Plan is the City's plan for using federal Community Development Block Grant (CDBG) and Home Partnerships Act (HOME) program funds. It is in two parts. One document is the Strategic Plan which is prepared once every five years, which explores needs, priorities, strategies and objectives for the programs for 2000-2005. The other document is the Action Plan, prepared annually, which details the proposed use of funds for specific projects in 2000-2001.

Notices of the availability of the draft plans for public comment, with the date of the public hearing, were published on April 7, 2000. A formal notice of the public hearing date will be published on April 14 and 21.

After the public hearing, the formal public comment period remains open until May 7, 2000. On May 9, 2000, City Council will be asked to give final approval to both plans, amended as necessary. The deadline for submitting the Plans to HUD is May 12, 2000.

Ms. Caplan explained how they approached the strategic plan, the key priorities, affordable housing strategies, and affordable housing targets (185 CDBG or HOME assisted units a year, reduce LBP hazards in 40 units a year, and screen 25% of young children annually for lead poisoning). She stressed that our community, our children, our parents and our workers need affordable housing as homeowners and as renters.

Ms. Caplan then addressed affordable housing targets, homelessness and non-housing community development.

She said that the Action Plan for 2000/01 (1) allocates $3,700,000 CDBG and HOME for next year; (2) Strategic Plan priorities used to evaluate proposals; (3) new CDBG programs include: EMSCD "You Stand" and Property Redevelopment, NHS Sycamore Hollow, City-wide down-payment assistance, Brotherton site development, and relocation; and (4) several projects depend on Biltmore Avenue property sale.

Councilwoman Field felt there may be a need for another worksession on the lead based paint issue because it does affect economic development and we need some sort of commitment. She felt we also need to look at our Unified Development Ordinance (UDO) in terms of multi-family housing and if it is making it more difficult to site affordable housing.

Mayor Sitnick felt that Council should look at a policy that deals with living wages.

It was the consensus of City Council for Councilwoman Field, as Chair of the Housing and Community Development Committee, to write a letter to the Buncombe County Commissioners requesting them to waive the dumping fees for demolitions done by non-profits who will provide affordable housing on those site where the demolition occurs.

Councilman Hay noted that there are some strategies to amend some provisions in the UDO which will need to be reviewed, but not necessarily changed.

It was the consensus of Council to have the Housing and Community Development Committee carefully review the lead based paint issue and then report back to City Council. Councilwoman Whitmire asked to be included in the meeting that looks at this issue in detail.

Mayor Sitnick said that a public hearing will be held on April 25, 2000, to receive comments and questions on the draft Consolidated Housing and Community Development Plan.

FUNDING OF HOUSING TRUST FUND

Ms. Joyce Harrison, Co-Chair for the Asheville-Buncombe Task Force, asked City Council to support a resolution for a Housing Trust Fund which will be a revolving pool of investment – local, flexible, and accountable to the people – for creating attractive, affordable homes and preserving existing homes in Asheville and Buncombe County.

Ms. Harrison requested the City dedicate annually the local revenue equivalent of one cent per hundred dollars of property tax value (approximately $370,000). She noted that by designing a program of loans, not grants, with favorable terms of payment, those who could not afford a home will be able to pay a monthly rent or house payment.

Community Development Director Charlotte Caplan responded to several questions from Council regarding how the Fund would be built, what other cities are doing, how the structure would be in place for a bond referendum in the future, and if there are monies in the Section 108 rehabilitation loan program.

Councilwoman Field was supportive of this Fund but noted that City Council cannot bind future councils for this revenue stream. She also noted that Buncombe County is very committed and supportive of this, however, this is an election year in the County and it's unlikely that they will raise taxes. Therefore, she suggested starting with the City and then look to the County next year for participation.

Mayor Sitnick said that if the City is going to take the leadership role, the community will have to be willing to take steps as well.

Councilwoman Whitmire spoke in support of this Trust Fund.

City Council asked City staff to investigate on how this has worked in other communities and exactly how it can work in Asheville.

UPDATE ON UDO AMENDMENT REVIEW OF CHARLOTTE STREET TRANSITION OVERLAY DISTRICT

Mr. Mike Matteson, Director of City Development, reviewed some recommended ordinance revisions regarding the Charlotte Street Overlay District, as a result of concerns raised at the March 21, 2000, worksession.

Mayor Sitnick noted that this public hearing will be on April 25, 2000.

FRENCH BROAD RIVER PHASE IV MASTER PLAN

Mr. Alan Glines, Park Planner, said that this is the consideration of a resolution authorizing City Council to adopt the French Broad River Park Phase IV Master Plan and authority to implement the Plan as funds become available.

The Parks and Recreation Department began a public process in the fall of 1999 to develop a master plan for the new park. The department hired the services of W. K. Dickson Inc. to help develop the plans. A community advisory group was formed to guide the planning process which represents broad community interests. After several meetings with the advisory group and a public planning workshop held in November of 1999, the master plan was developed incorporating many of the diverse interests of the community.

The master plan includes several first time events and features in the Asheville park system. These elements include lawn bowling, roller hockey, a volleyball complex area, adaptive re-use of the race track for bicycle riding and racing, in-line skating and walking. The master plan will also include greenway trails, a children's playground, an open meadow, a wetlands boardwalk, fishing areas, a volleyball and soccer complex, a park office and support facilities. Several grants have been written to help fund the park master plan which include a Parks and Recreation Trust Fund Grant, a Janirve Grant, and a Pigeon River Fund Grant. Decisions on the grants have not been finalized at this time.

The project master plan was reviewed at a public forum in March of 2000 and was overwhelmingly approved by the community present. The plan has also been reviewed and approved by the Parks and Recreation Advisory Board and the Asheville Greenway Commission.

The Parks and Recreation Department staff is seeking City Council approval of the master plan and the approval to proceed with implementing the plan as funding is secured.

Mr. Glines showed some components of the master plan. We are looking to dispose of some property (bleachers) sometime next month and we can start working on volleyball areas right away for play this summer. We will also be developing a historical component for racing community.

Mayor Sitnick noted again that the sale of the City was a corporate sale that had nothing to do with the City of Asheville.

Upon inquiry of Councilman Peterson, Mr. Glines said that the bleachers are being removed because they do not comply with the State Building Code anymore.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LENGTH OF CITY COUNCIL MEETINGS

City Manager Jim Westbrook said that this report contains a list of suggestions from staff for Council to consider which could reduce the length of Council meetings. After review and upon further direction from Council, staff will implement any changes as directed.

Recently City Council requested that staff bring suggestions to Council, which, if implemented, would shorten the length of Council meetings. The City Manager, the City Attorney, the City Clerk, the Assistant City Manager, the Planning and Development Director, and the Public and Community Information Coordinator met to brainstorm and review previous Council meetings in order to provide a list of suggestions that would be helpful in shortening the meetings. The following information is the result of the brainstorming session and an attempt to provide Council with a wide range of suggestions from which to pick and choose the ones thought to be most effective. For the purpose of clarity, I have broken down the suggestions into categories.

A. DEVELOPMENT PROCESS

1. Have Most Level III Development Projects Approved by TRC, Not City Council

   Currently, all Level III development proposals are conditional use permits (CUPs) under the UDO. These projects range from larger multifamily and office projects to "big box" retail projects that have supplemental review standards (like the newly approved Home Depot.) In many cases, Council review does not add conditions above and beyond what is required by the UDO. Most public interest seems to involve the big box developments like Home Depot and the Asheville Mall, where supplemental standards would be established through staff recommendation and

Council approval of conditions. Level III developments not subject to supplemental standards could be approved administratively (by the TRC) and not sent to Council as CUPs. This would allow Council to concentrate on projects where design related conditions have real impacts on surrounding neighborhoods and the community at large. It is possible to adjust this option by allowing the applicant or other interested party to appeal the TRC decision to the Planning and Zoning Commission or City Council; the appeal option would provide an incentive for the developer to satisfy concerns in order to avoid an added step in the development review process.

2. Administrative Approval for Duplexes, Triplexes and Quadraplexes in Single Family Zones

The UDO allows for duplex, triplex and quadraplex projects in single family zones only upon approval of a conditional use permit by City Council. Staff recommends moving these uses to an administrative approval process, with specific standards for these uses provided in the City Code. We have a text amendment under development that will accomplish this; we plan on bringing it to Council later in the spring after review by the Planning and Zoning Commission.

3. Delegation of Conditional Use Permit Approval Duties, in Whole or in Part, to the Planning and Zoning Commission

The City Council could utilize the Planning and Zoning Commission to approve CUPs or make recommendations to Council on CUPs. There are several alternatives for involving the Planning and Zoning Commission in this fashion. All of these alternatives would add to the workload of the Commission, but all have the potential to streamline and/or improve the quality of the development approval process.

- Council could delegate approval of all CUPs to the Planning and Zoning Commission. This alternative would reduce the Council's workload.

- Council could delegate approval of certain CUPs to the Planning and Zoning Commission. Some current CUPs do not have the same level of value to the community added by a Council review process (see suggestion #1 above).

- Council could request a recommendation on all CUPs from the Planning and Zoning Commission, just as is done for rezoning requests. This alternative would allow most community issues to be identified prior to Council consideration, enhancing the potential for a "negotiated settlement" before the proposal reaches Council, thereby reducing the time spent at City Council identifying conditions that are needed to mitigate project impacts.

4. Establish Standards for Developer Presentations

Presentations by developers often lengthen the public hearing process due to the materials that are presented and the format of these materials. Council could establish specific standards for developer presentations that could become part of our application process. Such standards might include submittal of audio-visual materials in a consistent format (e.g., transparencies), pre-meeting submittal of handouts and other information, and similar requirements. We would recommend that these standards have some flexibility in order to allow for exceptional cases, but such standards could help organize the flow of developer presentations in a positive way.

116

5. Discuss Upcoming Public Hearings at Worksession

Currently all public hearings for rezonings and conditional use permits are considered for the first time at formal Council meetings. In an attempt to shorten the formal Council meeting, Council could receive staff input for public hearings at worksessions. At formal Council meetings, staff would only present short explanations of controversial items, and then Council would hear from the public. If Council should choose to implement this process, it is imperative that the public not be allowed to comment at worksessions when staff makes presentations for upcoming public hearings. While this may have the effect of shortening formal Council meetings, it would also have the effect of lengthening Council worksessions.

6. Setting Public Hearing Dates

Currently all public hearings are set by City Council. These usually appear on the consent agenda. While they usually receive no public or Council comment, they do appear to make the agenda longer than it actually is, and it lengthens the process for final action by including a legally unnecessary step. General Statutes require public hearings on certain issues discussed by Council; however, the General Statute does not require Council to set the public hearing. As an alternative, Council could authorize staff to set public hearings as appropriate without having that action approved by Council. On a weekly basis, the City Clerk could furnish Council with a list of public hearings and the dates set for each.

NOTE: The Planning and Zoning Commission has also discussed several of these streamlining ideas. They suggest making most Level III plans subject to TRC review only and having Planning and Zoning make recommendations on CUPs but no approval authority.

B. MEETING PROCEDURES

1. Reading of Proclamations

Currently the practice of reading proclamations at the beginning of Council meetings does consume time. In the past it has taken as long as 30 to 40 minutes at the beginning of Council meetings to read proclamations. As an alternative, Council could simply present proclamations without reading them word for word with a brief thanks from Council for the specific group or person for whom the proclamation is made. A corollary to this suggestion would be to eliminate "acceptance speeches" by the organizations/persons being recognized.

2. Starting Time

The following are points for Council to consider regarding time management. These points will become important when Council meetings are televised live.

- Start the meetings on time.
- Recess for a specific amount of time and resume the meeting promptly when that time has expired.
- When speakers are given three or ten minutes to comment on issues, strictly adhere to the time limits established. Questions and discussion by Council Members could be entertained following the public input on issues. Appropriate allowance should be made for quasi-judicial hearings.

3. Length of Meetings

Amend the Council rules to set a time limit for formal Council meetings of 9:00 P.M. Once that time is reached, Council would need to vote to extend the meeting beyond the 9:00 P.M. time or to continue the meeting to the next day or some other time certain.

4. Signing Up for Public Comment

Currently anyone in the Council Chamber can speak during the meeting on any item on or off the agenda. Council could require citizens who want to speak at public hearings to sign up with the City Clerk anytime prior to a Council meeting, but no later than 30 minutes prior. This is practiced in many cities, and staff could do further research on this issue if Council wishes to pursue it. The City Clerk would have the list prepared and the Mayor would call the interested parties forward for each item of the public hearing portion of the agenda. Again, appropriate allowance may be required for some quasi-judicial public hearings.

5. Removing Items From Consent Agenda

Council rules currently state that the public can pull items off the consent agenda. Items on the consent agenda have usually been discussed at a worksession or are routine reports. The public infrequently pulls items off the consent agenda. If the public wishes to discuss an item on the consent agenda, if Council establishes rules requiring them to sign up to speak at the worksession or formal meeting no later than 30 minutes prior to the beginning of the meeting, this would be eliminated. (See Item 4 above.)

6. Change Beginning Time of Formal Council Meetings to 4:00 P.M.

Start formal Council meetings at 4:00 P.M. and rearrange the agenda so that proclamations, other business, unfinished business, and new business as the first items on the agenda, with public hearings and informal discussion and public comment being the last items on the agenda. This would insure that most public hearings would start around 5:00 P.M. or later for the public's convenience.

7. Introductory Paragraphs

In order to announce the Council rules established for the meeting, the Mayor could read the following paragraphs of information/instruction to the public prior to portions of the agenda or meeting as follows:

To Be Read Before Worksession Begins: (Draft)

This is a City Council worksession. It is designed to be informal to allow Council to become familiar with and understand issues on which we may take formal action at a formal Council meeting. Most of the issues we discuss today will appear on the agenda at the next formal Council meeting, and at that time we will officially vote on the issue. Any consensus we reach today, or informal votes we take, reflect only that the Council understands the issue and is ready to place it on the regular agenda. If we discuss issues that will be heard at a future public hearing, we will not accept public comment on that issue today, in order to have everyone heard at the public hearing. Any member of the public who has a direct interest in any of the issues we discuss today may be allowed to speak on that issue at the sole discretion of City Council.

To Be Read at Public Hearings as Part of the Agenda: (Draft)

This is the time and date set for public hearings. At this point I would like to remind everyone of the City Council rules for public hearings. The purpose of the public hearing is to receive the public's input on decisions about to be made by the City Council. When you are recognized, please come to the podium and speak directly into the microphone, giving your name and address for the record. These proceedings are being recorded, and that information is important. If you are speaking as an individual, you have up to three minutes to relate to the Council your point of view on the issue. If you represent a group, you have up to ten minutes to relate to the Council the point of view of the group. The Council is interested in all new, relevant information on the subject matter. Please refrain from repeating information given by previous participants. Also, please refrain from discussing issues, which are not the subject of the public hearing. The Council will receive written information from an individual or group that cannot conclude their presentation within the designated time limitation.

To Be Read Before "Informal Discussion and Public Comment": *(Draft)*

The next item on the agenda is "Informal Discussion and Public Comment." This section of the agenda is usually reserved for informal discussion between Council Members and staff. This portion of the agenda is also used to allow the public to discuss an issue or problem with Council. If a member of the audience would like to bring an issue to the Council, please come to the podium when recognized and speak directly into the microphone, giving your name and address. You will have a maximum of three minutes to discuss that issue with the Council. The Council does not normally make decisions during this time, but would refer any issues raised to the staff for a recommendation. The Council will receive written information from an individual or group that cannot conclude their presentation within the designated time limitation.

To Be Read Prior to Conditional Use Permits

This is a quasi-judicial public hearing, and we are required to observe certain procedures in order to insure that due process requirements are met. We will hear first from the City's staff, then the applicant will be allowed to make its presentation to Council. After that, anyone interested may comment on the application, or ask questions of the staff or applicant. If you speak, you must be sworn in, and the applicant has the right to ask questions of you. Please try to keep your comments on point and do not be repetitive. Written or documentary material that is offered as evidence may be examined by any other party.

C. STAFF CHANGES

Staff Presentations

Staff presentation will be improved in terms of clarity and information, style of presentation and the amount of information. In cases where staff has presented a more detailed report in a worksession, they will present a brief highlight at a formal Council meeting, which would include to the best of their knowledge any controversial points. At both worksessions and formal Council meetings, staff would be prepared to answer any detailed questions Council may have based on their briefing or the written material provided.

Should Council desire to implement any of the above suggestions, staff will need to prepare changes to appropriate documents such as Council's Rules of Procedure.

Staff recommends Council review the list of suggestions and give staff further direction on how they would like to proceed.

Councilwoman Whitmire suggested that when the public is asked to give their names, that their addresses not be asked, but just that if they live in the City of Asheville or in the extra-territorial jurisdiction.

Mayor Sitnick asked staff to encourage people to have proclamations presented outside the formal meeting, however, if proclamations are scheduled on the agenda that she will keep the proclamations brief and ask the person accepting the proclamation to speak briefly.

Mayor Sitnick said that she will make every attempt to start the meetings on time and when there is a recess called that it be held to the specific number of minutes stated for that recess. She also stated that if there is a quorum of Council present, she will begin the meeting if a Council member has not arrived yet. She also requested Council members notify the City Clerk if they find they will be late in attending a meeting.

Mayor Sitnick said that she will strictly adhere to the time limit requirements for speakers and urged City Council to refrain from asking questions of the speaker until their speaking time has expired.

City Manager Westbrook noted that staff presentations will be limited to 10 minutes and will be improved in terms of clarity and information, style of presentation and the amount of information. City staff is also working on possible revisions to the Unified Development Ordinance which will be brought back to Council as has been done in the past.

Councilman Worley suggested City Council set a time limit for formal Council meetings of 10:00 p.m. He said that after Council finishes the item they are currently considering, the rest of the meeting be continued to the next day, or the day after, or even the next worksession. Mayor Sitnick saw all kinds of logistical problems with Councilman Worley's suggestion and felt that perhaps a better job of scheduling items on the agenda could help alleviate lengthy meetings.

Councilman Hay encouraged City staff to review the possible UDO amendments and bring those forward to City Council with recommendations.

Vice-Mayor Cloninger felt that perhaps the public may not feel they are getting all the information if Council receives staff input for public hearings at the worksessions and then only receives a short explanation of the item at the formal public hearing.

Councilman Peterson spoke in support of delegating some conditional use permit authority to the Planning & Zoning Commission.

Vice-Mayor Cloninger felt that letters should not be read into the record, but just given to the City Clerk for inclusion. The City Clerk should then make a copy of that letter for all Council.

Councilman Worley felt that City Council should not require people to sign up for public comment because he felt it would deter people from speaking.

Councilman Worley suggested the public be able to comment on any items under the consent agenda, but only City Council have the authority to remove an item from the consent agenda.

Upon inquiry of City Council, City Attorney Oast said that he would provide information regarding the appropriateness of receiving information on conditional use permits outside of the hearing.

BOARDS AND COMMISSIONS

Councilman Hay gave a very brief update on the latest Future of the Civic Center Task Force meeting.

CONTINUATION OF MEETING

At 6:10 p.m., Councilman Worley moved to continue the meeting until 7:00 p.m. in the Council Chamber of the City Hall Building for the public hearing on the future of the WNC Regional Air Pollution Control Agency and Board. This motion was seconded by Councilwoman Whitmire and carried unanimously.

PUBLIC HEARING ON THE FUTURE OF THE WNC REGIONAL AIR POLLUTION CONTROL AGENCY

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Also Present:	Buncombe County Chair Tom Sobol; Commissioner David Gantt (arrived at 8:30 p.m.); Commissioner William H. Stanley; and Commissioner David W. Young

Mayor Sitnick reconvened the meeting and opened the public hearing at 7:00 p.m.

Mayor Sitnick said that originally the City Council and County Commissioners had anticipated holding a joint public hearing. However, the Commissioners only anticipated having two members present due to previously arranged travel plans. Since that time, some Commissioners changed their plans to make an effort to attend, however, proper legal notice could not be met. Therefore, this cannot be a joint meeting of both bodies. She does understand that the Commissioners anticipate having an opportunity for public comment sometime in the future.

The following individuals spoke in favor of keeping the WNC Regional Air Pollution Control Agency and Board independent and autonomous, that the City and County agree to this before June 30, 2000, that a new Interlocal Agreement be drawn up between Asheville and Buncombe County looking toward a future regional approach to air control which incorporate other counties and municipalities of WNC:

Dr. Lou Patrie, representing President of the WNC Physicians for Social Responsibility
Ms. Hazel W. Fobes, representing the Citizens for Safe Drinking Water and Air (submitted statement for record)
Mr. David Stewart, President of Smart Growth Partners of WNC (submitted statement for record)
Ms. Rachael Queen, representing Taxpayers for Accountable Government
Mr. Arlis Queen, City representative on the WNC Regional Air Pollution Control Board, but speaking only as an individual and not for the Board
Mr. James Gaddy

121

Ms. Abby Gage, representing the Buncombe County League of Women Voters and Chair of the Environmental Committee
Mr. Don Yelton
Mr. Jeff Fobes, Publisher of Mountain Xpress newspaper (submitted 19 letters from industries in support of current WNC Regional Air Pollution Control Agency)
Ms. Susan Hutchinson, representing the WNC Alliance and Chair of the Clean Air Task Force
Mr. Brett Boyce
Mr. Mickie MaHaffey
Dr. Rick Maas, County representative on the WNC Regional Air Pollution Control Board, but speaking only as an individual and not for the Board
Ms. Kitty Boniske, member of the Buncombe County Environmental Affairs Board, but speaking only as an individual and not for the Board
Mr. David Herbert, representing the Clean Water Fund of North Carolina
Mr. Ed Stine
Ms. Dee Eggers, faculty member of UNC-A in the Environmental Studies Program, but speaking only as an individual and not the University or Program
Ms. Barber Melton, President of the Coalition of Asheville Neighborhoods
Ms. Beth Fogleman, Co-Chair of Active Students for Healthy Environment at UNC-A
Mr. Keith Thompson
Ms. Susan Andrew
Mr. Ted Prosser
Mr. Gary Semlak
Ms. Candice Carr, Student at UNC-A (submitted statement for record)
Ms. Elizabeth Bennett
Ms. Huma Alvarado, Student at UNC-A studying Environmental Science
Ms. Julie Brandt
Ms. Eileen Wilson, Board of Directors for the Board of Trustees of the local Audubon Chapter
Mr. Mike Lewis
Mr. John Yarnell
Ms. Brenda Robinson, Environmental Task Force of the Social Action Committee of the Unitarian Church
Ms. Laura Whitley (submitted a statement for the record)
Mr. Jack Fobes
Ms. Sarah Blankenship
Ms. Nancy Lance Hanover
Mr. Jerry Rice
Ms. Sharon Martin
Mr. Bob Tinkler (submitted statement for record)
Mr. Bob Camby, Director of the WNC Regional Air Pollution Control Agency, but speaking as an individual

Ms. Nelda Holder, Chair of the WNC Regional Air Pollution Control Board, but speaking only as an individual and not for Board, said whatever model is chosen, she had some requests: (1) the Fund Balance would be dedicated as it is now to air pollution control activities; (2) the revenue stream, including permit fees, gasoline tax allocation, fines, and grants continue to be dedicated solely for the purpose of air pollution control activities; (3) the civil penalty procedure will at minimum be maintained and potentially be strengthened; (4) in terms of staffing levels, the present comprehensiveness of inspections, monitoring, enforcement and other service be maintained; (5) the citizens will always be guaranteed a place at the table in developing and reviewing policy; (6) the advisory council will remain focused on consensus building between environmental, industrial, health, and scientific communities; and (7) the strategic planning continue. She submitted her statement for the record.

Councilman Hay entered into the record a series of letters from the following people who support continuation of the Agency and Board as it currently is: Mr. James Hall, Mr. Brian Cole, Ms. Doesha McDade, Ms. Linda King, Ms. Carolina McCready, Deaconess Debra Sue Chenault, Ms. Chitra Alvarado, Ms. Karin Heiman, Ms. Judy Williamson, Mr. Alex Page, and Ms. Gina Parise.

Chairman Sobol said that there is no question about keeping the Agency a local agency. The staff recommendation to put this under a County department is only a staff recommendation. There is no proposal on the table right now. They do feel strongly that they owe it to everyone that is concerned to be heard. There will be a meeting set up shortly with the Mayor and others to reach some type of working agreement. The Commissioners are concerned that if this remains an autonomous board that there be some performance measures and benchmarks which do not exist at this point. They will try to work on this as quickly as possible. He stressed that this is not a political issue.

Commissioner Young said that as they start discussions with City Council, they will take into consideration all the comments heard tonight and put together a strong organization that can clean up the air. He said that if it is set up between the City and County, it should be structured to allow other counties to join in. He is in favor of seeing the City and County work together and then to work regionally.

Commissioner David Gantt was in support of an autonomous policy-making board. He felt we needed the best air quality here and we need to encourage other governing units to join us so we have more leverage, more political impact and we can do a better job with more people involved. He encouraged the audience to also come to the County Commissioners' public hearing to be scheduled.

Commissioner Bill Stanley stated that he wanted to protect the mountains.

Councilman Worley was in support of the regional aspect of this issue and felt we need to invite and encourage other regional partners to join us for the protection of our air.

Councilwoman Field noted at we all care about our air quality and the decision which needs to be made is what is the best way to get there. She felt that we need to challenge whatever structure is set up to meet the attainable goals and to also balance that with the needs of the rest of the community.

Mayor Sitnick thanked the members of the County Commissioners for attending as well as the City Council and citizen activists. It has been made clear tonight that the environment is no longer and never should have been a political issue. What matters is that we move forward together in the spirit of cooperation. We need to double our efforts to lobby the federal and state governments to make sure that what we do from now on keeps the air from being polluted. Prevention is cheaper than clean-up. She said that whatever the Environmental Management Commission re-confirms, if it isn't working, she will lead the charge to make changes.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:04 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - April 25, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire (excused from meeting at 7:20 p.m.); and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Worley gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 30-MAY 7, 2000, AS "DAYS OF REMEMBRANCE"

Mayor Sitnick read the proclamation proclaiming April 30-May 7, 2000, as "Days of Remembrance " in the City of Asheville. She presented the proclamation to Rabbi Ratner who briefed City Council on some activities taking place during this period.

B. PROCLAMATION PROCLAIMING SATURDAY, MAY 6, 2000, AS "RUNNIN FOR FUN 'N' FITNESS DAY"

Councilman Hay read the proclamation proclaiming Saturday, May 6, 2000, as "Runnin for Fun "N" Fitness Day" in the City of Asheville. He presented the proclamation to Mr. Bruce Handley who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING MAY 2000 AS "MOTORCYCLE AWARENESS MONTH"

Vice-Mayor Cloninger read the proclamation proclaiming May 2000 as "Motorcycle Awareness Month" in the City of Asheville. He presented the proclamation to Mr. Richard Ware who briefed City Council on some activities taking place during the month.

D. PROCLAMATION PROCLAIMING MAY 4, AS "ASHEVILLE PARKS AND RECREATION DEPARTMENT VOLUNTEER RECOGNITION AND APPRECIATION DAY"

Councilman Whitmire read the proclamation proclaiming May 4, 2000, as "Asheville Parks and Recreation Department Volunteer Recognition and Appreciation Day" in the City of Asheville. She presented the proclamation to Ms. Susan Smith and Mr. Tom Knoebber, recipients of the Bill Fulp Community Service Award.

E. PROCLAMATION PROCLAIMING APRIL 30-MAY 6, 2000, AS "MUNICIPAL CLERKS WEEK"

Mayor Sitnick read the proclamation proclaiming April 30-May 6, 2000, as "Municipal Clerks Week" in City of Asheville. She presented the proclamation to City Clerk Maggie Burleson who thanked the Council for their support.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 11, 2000: AND THE SPECIAL MEETING, WORKSESSION AND PUBLIC HEARING HELD ON APRIL 28, 2000

B. RESOLTUION NO. 00-68 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH CRISP HUGHES EVANS LLP, CERTIFIED PUBLIC ACCOUNTANTS, FOR AUDITING SERVICES FOR FISCAL YEAR 1999-2000

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with Crisp Hughes Evans LLP, Certified Public Accountants, for auditing services for Fiscal Year 1999-2000.

N.C. General Statutes 159-34 requires that local governments of North Carolina have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission.

In 1998 the City solicited proposals from 36 accounting firms to perform the City's annual audit for the Fiscal Years 1997-98, 1998-99 and 1999-2000. City Council selected Crisp Hughes Evans LLP to conduct the Fiscal Year 1997-98 audit with the option to be re-engaged annually for two more years. They completed both the Fiscal Year 1997-98 and Fiscal Year 1998-99 audit and have now submitted an engagement letter for the Fiscal Year 1999-2000 audit. The fee has been estimated at $54,700. Funds are appropriated in the budget of the Accounting Division of the Finance Department.

City staff recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 26 – PAGE 6

C. ORDINANCE NO. 2686 – BUDGET AMENDMENT TO ACCEPT A PRIVATE DONATION TO FUND THE DEVELOPMENT OF THE FRENCH BROAD RIVER PARK PHASE IV

Summary: The consideration of a budget amendment, in the amount of $500, to accept a private donation to fund the development of French Broad River Park, Phase IV.

French Broad River Park, Phase IV represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. The park will include greenways, bicycle facilities, lawn bowling, soccer and softball fields, restrooms, skateboarding and rollerblading facilities, open space, picnic shelter, parking, and perhaps a welcome center. Phase IV will also connect to a planned NC DOT funded greenway from Hominy Creek on the west, and eventually to the Amboy Road greenway to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. Private donations are one of the means to raise funds for the park.

The Parks and Recreation Department recommends the City of Asheville accept the donation on behalf of the Parks and Recreation Department for development of French Broad River Park, Phase IV.

ORDINANCE BOOK NO. 18 – PAGE 200

D. **ORDINANCE NO. 2687 – BUDGET AMENDMENT FOR THE CITY'S PORTION OF FUNDING A WATER CONSERVATIONIST POSITION**

Summary: Match of the contribution by Buncombe County in the amount of $13,000 to help fund the Soil Conservationist position.

ORDINANCE BOOK NO. 18 - PAGE 202

E. **RESOLUTION NO. 00-69 – RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON TO FUND A WATER CONSERVATIONIST POSITION**

Summary: See Consent Agenda Item "D" above.

RESOLUTION BOOK NO. 26 – PAGE 10

F. **RESOLUTION NO. 00-70 – RESOLUTION AUTHORIZING A GRANT APPLICATION TO THE LAND, WATER AND CONSERVATION FUND TO ASSIST WITH THE CONSTRUCTION OF THE FRENCH BROAD RIVER PARK PHASE IV**

Summary: The consideration of a resolution to apply for and enter into an agreement with the N. C. Department of Environment and Natural Resources, Division of Parks and Recreation in the Land, Water and Conservation Fund to assist with the construction of the French Broad River Park, Phase IV.

French Broad River Park, Phase IV, represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. The final master plan is complete, and approved by the Parks and Recreation Advisory Board and the Greenway Commission. The park will include greenways, bicycle facilities, lawn bowling, volleyball and soccer complex, softball field, playground, restrooms, roller hockey, open space, picnic shelter, parking, and a welcome center. Phase IV will also connect to a planned NC DOT funded greenway from Hominy Creek on the west, and eventually to the Amboy Road greenway to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. To date, $50,500 has been raised, and $520,000 in grant proposals are pending.

The Parks and Recreation Department is requesting $250,000 to $300,000 in grant funds from the Land, Water and Conservation Fund which requires a 50% cash or in-kind match. The in-kind match is available in land value, labor, equipment, and project management through Parks and Recreation.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds with the N. C. Department of Environment and Natural Resources, Division of Parks and Recreation, through the Land, Water and Conservation Fund to assist with the construction of the French Broad River Park, Phase IV.

RESOLUTION BOOK NO. 26 – PAGE 11

G. RESOLUTION NO. 00-71 – RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE N.C. DEPT. OF CRIME CONTROL AND PUBLIC SAFETY, GOVERNOR'S CRIME COMMISSION, IN SUPPORT OF A COMMUNITY POLICING GIS PROJECT

Summary: The consideration of two resolutions authorizing the City Manager to submit full applications and accept two grant awards from the N. C. Department of Crime Control and Public Safety, Division of the Governor's Crime Commission, in support of a community policing GIS project; and a second grant in support of a social work and police partnership project.

The Governor's Crime Commission has invited the City of Asheville to submit a grant application in the amount of $63,465 in support of a one year Community Policing Geographic Information System Project outlined in the pre-application reviewed by the Commission. A local match of $21,155 is required. The local match will be budgeted in the Fiscal Year 2000-01 Annual Operating Budget. The purpose of this project is to enable consolidation most of the City's geographic information systems data and coordinate its application in support of Community Oriented Governing.

The Governor's Crime Commission has also invited an application in the amount of $85,950, covering two years, in support of a Social Work and Police Partnership project (SWAPP), as outlined in the pre-application reviewed by the Commission. A local match of $28,650 is required for each of two (2) consecutive years over the 2 year life of the project. The local match will be budgeted in the Fiscal Year 2000-01 and 2001-02 Annual Operating Budget. The purpose of this project is to reduce family violence issues contributing to chronic juvenile run-away behavior.

City staff recommends City Council adopt two resolutions authorizing the City Manager to submit grant applications and if awarded, acceptance of grants, to the N. C. Department of Crime Control and Public Safety, Governor's Crime Commission, (1) in support of a community policing GIS Project; and (2) in support of a social work and police partnership project.

RESOLUTION BOOK NO. 26 – PAGE 12

H. RESOLUTION NO. 00-72 – RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE N.C. DEPT. OF CRIME CONTROL AND PUBLIC SAFETY, GOVERNOR'S CRIME COMMISSION, IN SUPPORT OF A SOCIAL WORK AND POLICE PARTNERSHIP PROJECT

Summary: See Consent Agenda Item "G" above.

RESOLUTION BOOK NO. 26 – PAGE 13

I. RESOLUTION NO. 00-73 – RESOLUTION ACCEPTING THE NEW STREET NAME OF "BARRETT LANE" OFF OF WESLEY DRIVE

Summary: The consideration of a resolution accepting the new proposed street name "Barrett Lane."

Givens Estates, Inc., owner of lots in Givens Estates United Methodist Retirement Community, has petitioned the City of Asheville to accept the street name of "Barrett Lane." This new street is to begin at Wesley Drive and end at the dead-end.

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 14

J. **RESOLUTION NO. 00-74 – RESOLUTION ACCEPTING THE NEW STREET NAME OF "WESTWIND LANE" OFF OF MAPLE AVENUE**

Summary: The consideration of a resolution accepting the new proposed street name "Westwind Lane."

AGR Real Property Investors, LLC., owner of lots in the Westwind Subdivision, has petitioned the City of Asheville to accept the street name of "Westwind Lane." This new street will begin at Maple Avenue and end at the dead-end.

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 15

K. **MOTION SETTING A PUBLIC HEARING ON MAY 9, 2000, TO APPLY THE MANUFACTURED HOUSING OVERLAY DISTRICT TO FOUR LOTS ON GORMAN BRIDGE ROAD CURRENTLY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT**

L. **MOTION SETTING A PUBLIC HEARING ON MAY 9, 2000, TO CONSIDER THE REZONING OF PROPERTIES LOCATED OFF HILLSIDE STREET AND WOODROW AVENUE FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)**

M. **RESOLUTION NO. 00-75 – RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH BUCKEYE CONSTRUCTION COMPANY INC. FOR "BREVARD ROAD ANNEXATION AREA – PHASE II – CONTRACT B SEWER SYSTEM IMPROVEMENTS"**

Summary: The consideration of a resolution awarding the contract for Brevard Road Annexation Area Phase II Contract "B" to Buckeye Construction Company, Inc., in the amount of $270,258.42.

This project is part of the Brevard Road Annexation Area Sanitary Sewer System Improvements and consists of the installation of approximately 1,703 linear feet of twelve inch (12") diameter sanitary sewer line and 1,471 linear feet of eight inch (8") diameter sanitary sewer line and related appurtenances.

The Engineering Department received and publicly opened five (5) bids on Tuesday, April 4, 2000, at 2:00 p.m. After a thorough review of the bid documents by the Engineering Department and the Office of Minority Affairs, Buckeye Construction Company, Inc., was found to be the lowest responsible bidder with a total bid of $270,258.42. The Engineer's estimate for this project was $ 379,630.00.

Buckeye Construction Company, Inc., has performed several projects of this nature in the past without any major problems.

The construction time for this project is identified as 120 calendar days in the contract documents. The contractor will be required to pay the sum of $250.00 as liquidated damages for each and every calendar day that he shall be in default after the time stipulated in the contract.

Staff recommends that City Council accept a resolution awarding the bid for Brevard Road Annexation Area - Phase II - Contract "B" Sewer System Improvements to Buckeye Construction Company, Inc., the responsible low bidder and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 26 – PAGE 16

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Whitmire and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE REZONING OF 655 BREVARD ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE I, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2688 - ORDINANCE TO REZONE 655 BREVARD ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE I CONDITIONAL USE ZONING

ORDINANCE NO. 2689 – ORDER GRANTING A CONDITIONAL USE PERMIT FOR 655 BREVARD ROAD (CONDITIONAL USE ZONING)

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:20 p.m.

The following Council members disclosed that they visited the site: Vice-Mayor Cloninger, Councilwoman Field, Councilman Hay, Councilman Peterson and Councilman Worley.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Mr. Dan Baechtold, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report).

Mr. Baechtold then said that this is the consideration to rezone one lot at 655 Brevard Road from RS-8 Residential Single Family High Density District to Office I, and issuance of a conditional use permit (conditional use zoning).

The property is identified as parcel number 9627.16-92-7864. Dr. Phil Davis, DDS, recently purchased this property (1.65 acres) at 655 Brevard Road and wishes to locate his dental practice on the property. Dr. Davis and his wife, Jana Gower, are also considering using the property as a residence. The subject property is currently occupied by one single-family dwelling and is located along a two-lane portion of Brevard Road, which lies generally between the WNC Farmer's Market and Biltmore Square Mall. The property is part of a small RS-8 District, which is surrounded by property zoned Highway Business and Commercial Industrial. There are six homes in this RS-8 zone facing Brevard Road. This small residential pocket is in transition from residential to commercial use. This transition pattern is further reinforced by the fact that the N. C. Dept. of Transportation plans to widen Brevard Road to four or five lanes in this location.

Planning staff determined that this type of small-scale medical office is a good low-impact use in an area that is transitioning from residential use to commercial use. A conditional use zoning of the property allows an opportunity for the City to ensure that the proposed office use will not be out of scale with the other remaining residences, and will not produce adverse impacts on the neighbors. The site plan submitted as part of this conditional use zoning application shows re-use of the existing residential structure, limits land disturbance and tree removal on the site, and ensures compatibility with surrounding residential uses by providing adequate buffering from adjoining properties. Under the conditional use zoning, the site must be developed according to the proposed site plan. The uses on the property will be limited to one medical office and one single-family residence.

This property is not currently connected to public sewer. Sewer is available in the rear of the property along Hominy Creek. In order to occupy the building as a commercial use, the applicant must either connect to the public sewer system or receive approval for a septic system for this use from Buncombe County Environmental Health. The applicant is aware of this requirement. The property is connected to public water. The waterline along Brevard Road is scheduled for an upgrade within the next two years. At this time, however, adequate pressure for fire flow is not available in the line. The applicant is aware that sprinklers or a supplemental water tank may be necessary to satisfy the requirements of the Fire Code.

The Planning and Zoning Commission reviewed this request at their meeting of April 5, 2000, and voted unanimously (6-0) to approve the rezoning. No members of the public commented at the hearing. The Planning and Development Department received one letter of support for the rezoning from a neighbor. There has been no other public comment.

Planning and Development staff recommends approval of a motion to rezone property located at 655 Brevard Road from RS-8 to Office-CU with the following conditions: (1) uses will be limited to one medical office and one single-family residence; and (2) site alterations will be limited to the proposed site development plans approved as part of the conditional use zoning application.

Dr. Phil Davis, petitioner, spoke in support of the proposed rezoning and issuance of the conditional use permit using a map (Applicant Exhibit 1) to show the location of the property in question.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 5:32 p.m.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2688 to rezone one lot at 655 Brevard Road from RS-8 Residential Single Family High Density District to Office I – conditional use zoning. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 204

Councilman Worley moved to adopt Ordinance No. 2689 granting the conditional use permit for 655 Brevard Road (conditional use zoning), with the following conditions: (1) uses will be limited to one medical office and one single-family residence; and (2) site alterations will be limited to the proposed site development plans approved as part of the conditional use zoning application; and to instruct the City Attorney to prepare the Order for the Mayor's signature. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 206

B. PUBLIC HEARING RELATIVE TO AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A NEW CHARLOTTE STREET TRANSITION OVERLAY DISTRICT AND APPLICATION OF THAT DISTRICT TO 43 PROPERTIES LOCATED IN THAT AREA

ORDINANCE NO. 2690 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ESTABLISH THE CHARLOTTE STREET TRANSITION OVERALY DISTRICT

ORDINANCE NO. 2691 - ORDINANCE APPLYING THE CHARLOTTE STREET TRANSITION OVERLAY DISTRICT TO 43 LOTS IN THE CHARLOTTE STREET AREA

Mayor Sitnick opened the public hearing at 5:35 p.m.

Mayor Sitnick gave City Clerk Burleson several letters regarding this issue for inclusion in the file.

Upon inquiry of Mayor Sitnick if she had a conflict of interest due to her living ¼ block off Charlotte Street, City Attorney Oast said he saw no conflict.

Director of City Development Mike Matteson said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to establish a Charlotte Street Transition Overlay District and application of this overlay district to 43 lots in the Charlotte Street area. This public hearing was legally advertised on April 14 and April 21, 2000.

The Charlotte Street Transition Overlay District is an incentive based overlay zoning district designed to aid in the implementation of the Charlotte Street Corridor Plan. The Corridor Plan, adopted by City Council in January, 1999, recommends, among other things, compatible in-fill development which is more urban in nature and which relates to the street and sidewalk and serves the surrounding community. The overlay district provides property owners and developers with incentives, in the form of square footage bonuses, to develop property in a manner consistent with the recommendations of the plan. Structures may be larger than permitted in the underlying zoning district provided that certain design features or other elements are incorporated into a proposed development.

The Planning and Development Department is proposing to apply this overlay district to 43 properties in the Charlotte Street area. The underlying zoning district is CBI Community Business I.

City Council is asked to first consider the ordinance amendment to create the Charlotte Street Transition Overlay District and then to consider the application of the overlay district to the properties in question.

At their January 5, 2000, meeting, the Planning & Zoning Commission voted unanimously to recommended approval of both the ordinance amendment creating the Charlotte Street Transition Overlay District and the application of the overlay district to the properties in question. The Planning & Zoning Commission asked staff to make some minor changes to the proposed overlay district and those changes will be incorporated into the proposed district.

The Planning and Development Department staff is also recommending approval of both the ordinance amendment and the application of the overlay district.

Mr. Matteson also said that on April 19, he met with a group of residents from the Albemarle Park neighborhood regarding the Charlotte Street Transition Overlay District. This was the second meeting with this group, the first taking place during the initial development of the overlay district. Generally, the proposed district was received favorably by the group. However, a relatively small number of concerns were raised. As a result of that meeting, this morning via fax, he received a list of changes from that neighborhood which they are requesting.

After thoughtful consideration of the neighborhood group's list, staff is proposing several additional changes to the district. Please find below a summary of the changes requested by the group and staff's recommendation regarding the requests.

1) The group requested that the language in the district be strengthened by replacing words such as "should", "encourage" and "discourage" with "shall". - Staff recommends that the language be strengthened as requested.

2) The group requested that a higher percentage (40%) of the total building square footage be devoted to residential uses if a project is to accumulate points for providing residential uses. Additionally, it was suggested that the language be clearer with respect to the affordable housing provision. - Staff is comfortable recommending this increase from 25% to 40%.

3) The group requested that the landscaping provision, which allowed 20 points for increased landscaping and/or hardscaping, be deferred until a streetscape plan is developed. The group feels that the hardscaping alternative, in particular, is not quantifiable and won't be coordinated with other developments. - Staff does not recommend removing this provision. Increased landscaping and improved appearance were important issues identified by many groups and individuals. The point system has been carefully created to allow certain groupings of elements to achieve a larger building while contributing to the attractiveness and vitality of the street. However, staff is proposing the following change in the language to address this concern (change is underlined).

"The landscaping for the proposed development exceeds the requirements of Sections 7-11-2(F) and 7-11-2(G) of the Code of Ordinances of the City of Asheville by at least fifty percent (50%). Hardscape, which incorporates features determined by the Planning and Development Director to be pedestrian-oriented may be used in combination with or instead of landscaping along the street frontage of the lot. Examples of these features include benches, outdoor dining, planting boxes, etc. Street trees and hardscape features shall be consistent with any approved streetscape plan for the area.

Staff would further suggest that the community get together to develop a mutually agreed upon streetscape plan with technical assistance from City staff.

4) The group requested that the provision addressing building entrance design be removed from the point structure and added to the design criteria. - Staff does not recommend this change. Although the design criteria are relatively stringent, the intent was to identify the basic criteria that would help to ensure building compatibility. These items included height, scale and massing, fenestration, materials, etc. It was felt that more detailed criteria, such as the design of building entrances, should be encouraged through the point structure.

5) The group requested that the incentive to preserve historic buildings be increased by allowing 20 points for their preservation (up from 15 points). The group also requested that a disincentive be created by subtracting 20 points if an historic building is removed. - Although staff can support increasing the points received for preserving historic buildings, we feel that incorporating the proposed language to subtract points for demolition of an historic building is too significant a change to propose at this time, given the numerous meetings taken place to date.

He stressed that the proposed district is a result of many meetings with various groups and individuals. Staff has worked very hard to ensure that this proposed district addresses the interests and concerns of these groups and individuals in a balanced and equitable manner.

He then reviewed the revised list of staff recommended changes to the ordinance:

- **Section 7-9-10(F.)(1)(c.)(1) – strengthen language as follows:**

General Principles and Intent of the design criteria:

The intent of the following design criteria is to maintain and strengthen the unique historic character of Charlotte Street by helping to ensure that new buildings are architecturally compatible with the historic character of the street and that design characteristics are employed which are consistent with the historic architectural vocabulary of the area. These characteristics include historic building forms and silhouettes, proportions, treatments, exterior materials, massing and/or architectural style. Additionally, it is intended that the front elevations and overall massing of new buildings be pedestrian scaled and related to the street.

It is not the intent that new buildings mimic historic designs, but rather that they combine elements from the historic design palette in new ways to achieve a design which is compatible with and complementary to the historic character of the street.

In general, the predominant historic style of architecture within the boundaries of the overlay district is of a residential form with pitched roofs, porches and paned windows and is less urban than the structures south of E. Chestnut Street. To a lesser degree, brick historic commercial structures exist in the corridor and these have pitched roofs and sometimes use a combination of brick and stucco.

When developing designs for new buildings, it is advisable to reference existing historic buildings or other documentation to identify elements that are to be used in the project.

- **Section 7-9-10(F.)(1)(c.)(2.)(b.) – Change to read as follows:**

  Roof forms shall be similar to those used historically within the boundaries of the overlay district. The dominant roof shapes shall be gabled or hipped. The minimum roof pitch shall be 5:12. Gable ends shall typically face the street. The addition of dormers is permitted. Areas of flat roofs are discouraged and shall not exceed 25% of the primary facade and shall be located behind a sloped roof or parapet.

- **Section 7-9-10(F.)(1)(c.)(2.)(f.) – Change to read as follows:**

  A minimum of 40% of the first floor and 20% of the upper floor(s) on the front facade shall have window/door fenestration. Windows shall be set to the inside of the building face wall. Tinted or mirrored glass is not permitted.

- **Section 7-9-10(F.)(1)(c.)(2.)(g.) – Change to read as follows:**

  Skylights shall not be used on the front facades.

- **Section 7-9-10 (F.)(1)(d.) – Revise second paragraph to read as follows: (note: new language is underlined).**

  Developments accumulating between 50 and 79 points shall be allowed to exceed the permitted structure size indicated in item (a.) up to 50 percent (50%) above the maximum structure size. Developments accumulating 80 or more points shall be allowed to exceed the permitted structure size indicated in item (a) up to 75 percent (75) above the maximum structure size.

- **Section 7-9-10(F.)(1)(d.) – Change to read as follows:**

  1) The proposed structure is a "mixed use" building, housing two or more distinct use types (i.e. retail, office, residential, etc.). No single use type exceeds 75 percent (75%) of the total gross square footage of the building.

     30 points.
     40 points if residential uses are provided which occupy at least forty percent (40%) of the total gross square footage of the building.
     45 points if residential uses are provided which occupy at least forty percent (40%) of the total gross square footage of the building and at least 25 percent (25%) of those units are designed to have a total net square footage of 600 square feet or less.

  2) The proposed structure contains one or more of the following uses with an operable storefront entrance facing the street:

     Bakeries
     Barber shops and salons
     Bicycle shops
     Bookstores
     Candy, pastry, ice cream and snack shops
     Delicatessens
     Florists
     Fruit and vegetable markets
     Gift shops
     Grocery stores

Hardware/garden supply stores
Pharmacies
Restaurants
Tailors/dressmaker shops
Video rental stores
Other similar uses which serve the surrounding community and which may generate significant pedestrian activity

20 points

3) The landscaping for the proposed development exceeds the requirements of Sections 7-11-2(F) and 7-11-2(G) of the Code of Ordinances of the City of Asheville by at least fifty percent (50%). Hardscape which incorporates features determined by the Planning and Development Director to be pedestrian oriented may be used in combination with or instead of landscaping along the street frontage of the lot. Examples of these features include benches, outdoor dining, planting boxes, etc. Street trees and hardscape features shall be consistent with any approved streetscape plan for the area.

20 points

4) A connection is made between the parking area of the developing property and the parking area of one or both adjoining properties which allows for internal circulation between properties and results in there being only one drive entrance on Charlotte Street to access the developing property.

5 points

5) Entrances to the proposed structure are defined either by front porches, if designed with a residential character, or are recessed from the primary facade and defined with awnings or canopies.

15 points

6) The proposed development is designed to sensitively preserve the principle historic structure(s) on the site. For the purposes of this Section, historic buildings shall be defined as contributing structures within the boundaries of a National Register Historic District or those that are eligible for listing in the National Register of Historic Places.

15 points

7) A minimum of 25 percent of the total number of residential dwelling units provided in a proposed single-use residential development are designed to have a total **net** square footage of 600 square feet or less.

20 points

Mr. Matteson responded to several questions and comments from Council, some being but are not limited to, what was the rationale behind the higher percentage of the total building square footage being devoted to residential uses; how will staff determine what is sufficient with regard to the landscaping provision; there is no opportunity for innovative architecture; and concerns about existing traffic and what are the future plans for this corridor as it is developed to reduce the traffic gridlock and traffic dangers.

Upon inquiry of Mayor Sitnick, City Traffic Engineer Michael Moule said that he will be starting the process in the very near future to look at essentially all of the entire Charlotte Street corridor and all the traffic issues. He will get specific numbers for the traffic issues and recommendations for changing the corridor to improve pedestrian safety, maintain the capacity we need to carry the existing traffic, etc. He said their process is to involve residents and business owners in the community and not to have any preconceived notions as to what is a good design for the street.

Mr. Joe Adams, originally on the Charlotte Street Small Area Plan (Small Area Plan) as a representative of the Grove Park Sunset Neighborhood, gave Council a brief history of this project. The Small Area Plan and the neighborhood representatives recommended that the speed limit on Charlotte be reduced to 25 mph, however the Planning staff recommended the speed limit be reduced to 30 mph. To date, that has not been implemented. With regard to the traffic study, it was clear that at the Chestnut intersection there was gridlock. Another study was done but he felt that one was not done with the same detail as the original study – no counters between Chestnut Street almost all the way to Hillside, and the study was done well outside of the tourist season. He urged Council to implement another study prior to adopting any action that could increase traffic on Charlotte Street. He felt we needed to eliminate the unsafe conditions that exist today on Charlotte Street first.

Mr. Mike Ward, representing the Albemarle Park Manor Grounds Association, said they are generally supporting the overlay district and believe it improves the potential for development along Charlotte Street. He said the Small Area Plan called for two documents to be completed –a unified streetscape plan and a traffic study. As of today, we have neither document in place. Therefore, without the necessary guidance, we feel that staff would be hard-pressed to make consistent and fair decisions about landscape when there is no landscape plan. We ask the bonus for landscaping be deferred or set the highest priorities for these plans to be developed in a timely manner. Secondly, since the entrance to any building is the most important part of its overall design and defines the character of the street, they feel that provision should be moved from the incentives portion and incorporated into the primary design criteria. Additionally, they want the integrity of Charlotte Street's character to remain and to guide its future and once an historic structure is demolished, its historic character cannot be recreated. Therefore, they support increasing the incentive to preserve historic buildings from 15 to 20 points and that a disincentive be created by subtracting 20 points if a historic building is demolished.

Mr. George Ebraheem, resident on Kimberly Avenue, questioned the reasoning behind the incentive making residential dwelling units a total net square foot of 600 square feet or less. Mr. Matteson said the 600 net square feet was identified as the size structure that wouldn't guarantee affordability of these units but would at least make it more likely that the units are affordable.

Mr. Matteson said the Small Area Plan did recommend that the community get together, with technical assistance from staff, and develop a unified streetscape plan for the community. typically those address streetscape elements in the public right-of-way that the City provides as enhancements, although it could address landscaping and other features on private property. Since the Small Area Plan was adopted, staff has been working on this Charlotte Street Transition Overlay District. He did note that he didn't think that the streetscape plan needs to be in place before the overlay district is established.

Councilwoman Field said that the City has an excellent landscape ordinance in our Unified Development Ordinance and staff can rely on that.

Mr. Jim Bannon, representing Smart Growth Partners of WNC, spoke in support of the Charlotte Street Transition Overlay District. He said the ordinance will provide a legal document that offers a vision of what a neighborhood's central district might be – an appealing place where residents can walk from home to a variety of shops and back again, a place with the abundant street life that is the hallmark of any thriving community, a place where people come and linger, and a place where some of the control that we've given over to the automobile is won back. One feature, however, threatens to undermine the whole intent of creating a compact, pedestrian-oriented corner and that is the parking lot requirement. The parking lot minimums from CB-1 will remain and the result will be that as much as 50% of the developed land will be given over to surface parking lots. Even though the lots will be to the side or behind the buildings, it is simply not credible to think that you can create either compact or pedestrian-friendly patterns of development amidst a string of large surface parking lots. He felt the best solution probably is to increase on-street parking. He suggested reducing Charlotte Street to 3 lanes with parking on one side of the street. That would not only alleviate the need for numerous large surface parking lots, but would also provide a buffer between pedestrians and a traffic stream that often exceeds 40 mph.

Ms. Janet Hart felt that compatibility is the most important issue in this matter. She felt it was important that we consider the more we increase the size of buildings and increasing traffic along that corridor we will create a situation where it is less pedestrian friendly. She suggested re-marking Charlotte Street for a period of time to see if three lanes might work. She too agreed with prior speakers of the traffic issues along Charlotte Street.

Mr. Roger James presented City Council with a form letter signed by 52 people (including business owners) in the Charlotte Street area. He reiterated Mr. Ward's prior suggestions and noted that out of the four suggestions, one has been considered further by City staff and they recommend the change as well.

Mr. Doug Michaels, member of the Grove Park Association, suggested Council table action on this and look hard at the traffic issues. He, too, felt a unified streetscape plan and a traffic study should be place prior to approval of this overlay district.

Ms. Jane Mathews, spoke in support of the Small Area Plan and the three remaining recommendations outlined by Mr. Ward.

Mr. Matteson said that in talking with Historic Resources Director Maggie O'Connor, she felt very confident that any building within this area that is historic would meet the definition as being a contributing structure or one that is eligible for listing in the National Register of Historic Places.

Mayor Sitnick closed the public hearing at 6:42 p.m.

Because of discussion on various recommendations, it was the consensus of City Council to divide the issue and take an informal vote on each one.

It was the consensus of City Council to accept the recommendations of staff as outlined above with regard to Section 7-9-10 (F) (1) (c) (1), Section 7-9-10 (F), (1) (c) (2) (b), Section 7-9-10 (F) (1) (c) (2) (f), Section 7-9-10 (F) (1) (c), (2) (g), Section 7-9-10 (F) (1) (d) – second paragraph, Section 7-9-10 (F) (1) (d) (2), Section 7-9-10 (F) (1) (d) (4), and Section 7-9-10-(F) (1) (d) (7).

Discussion and an informal vote was taken on Section 7-9-10 (F) (1) (d) (1) to reduce the total building square footage to be devoted to residential uses if a project is to accumulate points for providing residential uses from 40% to 30%. Mayor Sitnick, Vice-Mayor Cloninger, Councilman Hay and Councilman Peterson voted to keep it at 40% (as recommended by staff) and Councilwoman Field, Councilwoman Whitmire and Councilman Worley voted to reduce it to 30%.

Discussion and an informal vote was taken on Section 7-9-10 (F) (1) (d) (3) and all Council, except for Councilman Peterson, voted to accept the staff recommendation.

Discussion and an informal vote was taken on Section 7-9-10 (F) (1) (d) (5) and all Council, except for Mayor Sitnick and Councilman Peterson, voted to accept the staff recommendation to not change the provision addressing building entrance design being moved from the point structure and added to the design criteria.

Discussion and an informal vote was taken on Section 7-9-10 (F) (1) (d) (6) and accept the recommendation of staff to support increasing the points (from 15 to 20) received for preserving historic buildings. In addition, discussion and an informal vote was taken on Section 7-9-10 (F) (1) (d) (6) to add a disincentive of subtracting 20 points if an historic building is removed. Mayor Sitnick, Councilman Hay, Councilwoman Whitmire and Councilman Peterson voted to add the disincentive of subtracting 20 points, and Vice-Mayor Cloninger, Councilwoman Field and Councilman Worley voted not to assign the disincentive of subtracting points.

Mayor Sitnick requested that the speed limit reduction and the traffic analysis be performed on Charlotte Street as soon as possible.

Mayor Sitnick said that members of Council have previously received a copy of the ordinances and they would not be read.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2690 to adopt the Charlotte Street Transition Overlay District with the changes recommended by staff as outlined above, and with changes to Section 7-9-10 (F) (1) (d) (6) to increase the points from 15 to 20 received for preserving historic buildings and to add a disincentive by subtracting 20 points if an historic building is removed. This motion was seconded by Councilman Hay and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 216

Councilwoman Field moved for the adoption of Ordinance No. 2691, to apply the Charlotte Street Transition Overlay District to 43 properties in that area. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 217

At 7:35 p.m., Mayor Sitnick announced a five minute break.

C. PUBLIC HEARING TO CONSIDER ADOPTION OF THE DRAFT CONSOLIDATED HOUSING AND COMMUNITY DEVELOPMENT PLAN

Mayor Sitnick closed the public hearing at 7:40 p.m.

Ms. Charlotte Caplan, Community Development Director, said that the Consolidated Plan is the City's plan for using federal Community Development Block Grant (CDBG) and Home Partnerships Act (HOME) program funds. It is in two parts. One document is the Strategic Plan which is prepared once every five years, which explores needs, priorities, strategies and objectives for the programs for 2000-2005. The other document is the Action Plan, prepared annually, which details the proposed use of funds for specific projects in 2000-2001.

Notices of the availability of the draft plans for public comment, with the date of the public hearing, were published on April 7, 2000. A formal notice of the public hearing date was be published on April 14 and 21, 2000. The formal public comment period remains open until May 7, 2000. On May 9, 2000, City Council will be asked to give final approval to both plans, amended as necessary. The deadline for submitting the Plans to HUD is May 12, 2000.

Ms. Caplan explained that the Strategic Plan is a framework to broadly direct the use of CDBG and HOME funds over the next five years. It also proposes consideration of other actions that support the affordable housing, economic development and other activities that CDBG and HOME funds can be used for to benefit our low income residents. The most far-reaching of these proposed actions is the proposal for one cent worth of property tax to support a local housing trust fund.

She said that the Action Plan is done every year and it's a detailed allocation of CDBG and HOME funds to specific projects for the coming fiscal year. We have tried hard to make this consistent with the five year Strategic Plan.

Both Plans were published on April 7 and since then we have received a number of comments. Staff would like to recommend three changes to the draft Strategic Plan as a result of those comments. (1) With regard to lead-based paint, the original draft proposed that the City consider making lead-based paint hazards a Minimum Housing Code issue. However, it turns out there are technical difficulties with this approach. After meeting last week with several interested parties, a revised proposal is to instead use housing inspectors and permit department staff to distribute information about lead-based paint hazards every time an older home is inspected or a renovation permit is issued. She passed out the full revised lead-based paint recommendation; (2) The Health Department asked if we could increase the annual target for screening children from lead based paint poisoning from 25% each year to 35%; and (3) With regard to public housing in Madison County, the draft originally indicated support for the proposal to consolidate the four separate public housing authorities that exist in Madison County. Since then, three out of the four have written expressing their opposition to such a step. Therefore, staff now suggests merely that the question of consolidation should be considered to see if there are advantages.

Ms. Pam Jowels spoke in support of the one cent property tax being dedicated for the Housing Trust Fund.

Mr. Jody Kuhne suggested that affordable housing organizations seek out affordable homes.

Mr. Neal Peek, President of the Carolina Real Estate Investors Group, supported staff's recommendation relative to lead-based paint education. With regard to the Housing Trust Fund, they do support it, however, they don't support many of the methods for funding it as outlined in the Plan. He did note though, that most of the members do support the one cent property tax being dedicated to the Fund. He said that if Asheville and Buncombe County is to solve the affordable housing problem, then the private sector, for-profit investors must be a part of that.

Ms. Carolina Wood read a letter from Natira Collington who supported the Housing Trust Fund.

Mr. Jim Barrett, representing the Affordable Housing Coalition, spoke in support of the recommendation that the City invest the equivalent of one cent on the property tax rate in affordable housing, using the Housing Trust Fund.

Mr. Al Mojonnier, board member of the Affordable Housing Coalition, spoke in favor of the one cent for the Housing Trust Fund.

Ms. Helen O'Connor, Affordable Housing Coalition, supported the one cent being dedicated for the Housing Trust Fund. She said that the Affordable Housing Coalition and the Consumer Credit Counseling Services would like to request City Council reallocate $47,000 of the proposed $100,000 down payment program to assist the continuation of core services for first time homebuyers, crisis intervention and crisis prevention. She said the Affordable Housing Coalition is committed to continuing to secure down payment assistance funds through local resources such as the Board of Realtors and the Mortgage Bankers Association.

Ms. Sophie Dixon, Vice-President of the Local Chapter of the Asheville Branch of the NAACP, spoke in support of the Housing Trust Fund.

Ms. Manning, representing the Hospitality House of Asheville, read a letter from Board Chair Mimi Cecil thanking City Council for their continued support of their programs. She invited Council to visit the A-Hope program which is a house for the unsheltered homeless.

Mr. Jamie Blue, President of the Asheville Board of Realtors, spoke in support of the Consolidated Plan and encouraged the education of lead-based paint issues.

Ms. Beth Maczka, Director of the Affordable Housing Coalition, spoke in support of the one cent property tax being dedicated to the Housing Trust Fund. She also spoke in support of the reallocation of $47,000 of the CDBG funds from down payment assistance to homebuyer education program and housing counseling.

Mr. Walter Plowie spoke in support of the Plan stressing that the lead-based paint hazards issue and the affordable housing issue must be dealt with as one.

Ms. Caplan read a letter from Mr. Marvin Vierra, Business Development/Procurement Specialist, which commended City staff on the format used to produce and distribute the plan to the public. He also spoke in support of the public participation in the planning process.

Upon inquiry of Councilman Hay, Ms. Caplan said that City staff would have no problem with the reallocation of the $47,000 the Affordable Housing Coalition requested if Council wishes to make that change. However, it would be a substantial increase for the Affordable Housing Coalition's program in a year when basically no other applicants have received an increase in funding.

Upon inquiry of Councilwoman Field with regard to the reallocation of $47,000, Ms. Caplan felt quite sure that if the Affordable Housing Coalition receives $78,000 this year, they would probably come back next year and ask for that same amount. Councilwoman Field asked that this issue be discussed at the next Housing and Community Development Committee meeting.

Mayor Sitnick closed the public hearing closed at 8:25 p.m.

Mayor Sitnick said that City Council will be considering adoption of the Consolidated Housing and Community Development Plan at it's formal meeting on May 9, 2000.

D. PUBLIC HEARING TO CONSIDER A PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR CROWELL FARMS LOCATED ON WEST OAKVIEW ROAD NEAR EAGLE'S NEST LANE

Mayor Sitnick said that Councilwoman Whitmire has left the meeting just after being notified of a sudden death in her family. She did ask Mayor Sitnick to be excused from the meeting. Mayor Sitnick then asked City Attorney Oast what direction Council should take as far as entertaining a motion to excuse Councilwoman Whitmire. City Attorney Oast said that the law doesn't provide a lot of clear guidance and there is certainly room for disagreement with his opinion and it's a point upon which reasonable minds may differ. It was his opinion that Councilwoman Whitmire may be excused from the meeting upon a majority vote of the Council. If she is not so excused, then her vote counts as an affirmative vote on any matter that comes before Council from this point on.

City Attorney Oast said that it is his understanding that there is a valid protest petition in this matter, thus invoking the ¾ vote of the entire Council, which if Councilwoman Whitmire is excused from the meeting would still require a 6-0 vote.

Vice-Mayor Cloninger moved to excuse Councilwoman Whitmire. This motion was seconded by Councilman Peterson and carried unanimously.

Mr. Marty Kocot, with Land Design and engineer of record on the job representing Crowell Farms, LLC, said that "we feel like Ms. Whitmire was going to be an affirmative vote in our favor, just based on our opinion and what we know about Ms. Whitmire. One of the issues that is critical is funding for this project. If this project was tabled or voted down tonight, we will lose critical funding for the affordable housing multi-family portion of the project and it will, without a doubt, put the entire PUD development in jeopardy from happening. At that point the developer will have two options – one, to develop it under the current zoning, or two, to sell the property to another developer who could develop it. That is the issue before you. What I'd like you to do is to rescind your vote excusing Ms. Whitmire and allow her to be counted as an affirmative vote."

Vice-Mayor Cloninger said that as a matter of fairness to the Councilmember not present on a issue that needed a vote, he would not want a vote to be recorded on his behalf that may not necessarily reflect the way that he would actually vote. He felt it was just a matter of fairness that if anyone is not here, to excuse them.

Mr. Kocot said that he understood, however, he questioned if it was "also a matter of fairness if one of you is wavering on which way to vote, that it counts in our favor? What I'm saying is if 6 out of 7 were required to vote for the project, if somebody is undecided, can they not vote undecided and it not hurt us? "

Mayor Sitnick was perplexed on how Mr. Kocot could assume how Councilwoman Whitmire would vote. She said when you are on Council and especially when you are dealing with a vote on an issue like this that has created some controversy, the whole idea of behaving in an ethical manner is to not pre-makeup your mind – to come into Council with a totally open mind and to base the decision only on what you hear in this Chamber. She also knows Councilwoman Whitmire and she would have to say that she believes that she would have that open mind and listen to the entire process and then make a decision based on what she heard at the public hearing.

Mr. Kocot said that he was not trying to assume anything.

Mayor Sitnick said that before Councilwoman Whitmire left she asked her if she could be excused. Granted she had just been told that her uncle had passed away and she was emotionally distraught and crying, but she has to respect her need to leave.

Mr. Kocot said that he respected the Mayor's opinion. He said that he felt Council should go forward with the public hearing because they do not have any option because the deadline for funding is April 28, 2000.

Because Mayor Sitnick wanted to be fair to the applicants, to the neighborhood and to Councilwoman Whitmire, she suggested the possibility of continuing the public hearing until either April 26 or April 27, even though Council could not be sure Councilwoman Whitmire would be able to attend even then. At this point, City Clerk Burleson left the meeting to attempt to reach Councilwoman Whitmire by phone, but was unable to reach her.

Mr. Jim Brinkley, principle in the firm of Brinkley Adams Developments, and said they are under contract for a portion of the multi-family land to develop an affordable housing community of 40 units for seniors. He said that this is an annual funding. One time a year there is an opportunity to present the application. The preliminary application from the N.C. Housing Finance Agency reads that "required zoning must be in place including any special use permits, conditional use permits, traffic studies and other land use requirements, as well as all public hearings required to develop the site, must be completed by April 28."

Upon inquiry of Mayor Sitnick, City Attorney Oast said that if Ms. Whitmire is able to attend the continued public hearing that he would ask Council to vote to admit her back to the meeting.

Vice-Mayor Cloninger moved to continue this public hearing until Wednesday, April 26, 2000, at 6:00 p.m. in the Council Chamber located on the second floor of the City Hall Building, Asheville, N.C. This motion was seconded by Councilman Worley and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. CONSIDERATION OF A RESOLUTION WAIVING THE REQUIREMENT FOR A SIDEWALK FOR MORSE ANTIQUES LOCATED AT 92 MCINTOSH ROAD

City Manager Westbrook asked that this item be pulled from the agenda for additional work.

B. RESOLUTION NO. 00-76 - RESOLUTION ADOPTING THE FRENCH BROAD RIVER PARK PHASE IV MASTER PLAN AND AUTHORIZING ITS IMPLEMENTATION AS FUNDS BECOME AVAILABLE

Mr. Alan Glines, Park Planner, said that this is the consideration of a resolution authorizing City Council to adopt the French Broad River Park Phase IV Master Plan and authority to implement the Plan as funds become available.

The Parks and Recreation Department began a public process in the fall of 1999 to develop a master plan for the new park. The department hired the services of W. K. Dickson Inc. to help develop the plans. A community advisory group was formed to guide the planning process which represents broad community interests. After several meetings with the advisory group and a public planning workshop held in November of 1999, the master plan was developed incorporating many of the diverse interests of the community.

The master plan includes several first time events and features in the Asheville park system. These elements include lawn bowling, roller hockey, a volleyball complex area, adaptive re-use of the race track for bicycle riding and racing, in-line skating and walking. The master plan will also include greenway trails, a children's playground, an open meadow, a wetlands boardwalk, fishing areas, a volleyball and soccer complex, a park office and support facilities. Several grants have been written to help fund the park master plan which include a Parks and Recreation Trust Fund Grant, a Janirve Grant, and a Pigeon River Fund Grant. Decisions on the grants have not been finalized at this time.

The project master plan was reviewed at a public forum in March of 2000 and was overwhelmingly approved by the community present. The plan has also been reviewed and approved by the Parks and Recreation Advisory Board and the Asheville Greenway Commission.

The Parks and Recreation Department staff is seeking City Council approval of the master plan and the approval to proceed with implementing the plan as funding is secured.

Mr. Glines showed some components of the master plan. He said they are looking to dispose of some property (bleachers) sometime next month and will start working on volleyball areas right away for play this summer. They will also be developing a historical component for racing community.

The following individuals spoke with enthusiastic support for the French Broad River Park Phase IV Master Plan:

Ms. Marjorie Maxwell
Mr. David Donnell, operator of Southern Waterways on the French Broad River
Ms. Laura Webb, business owner
Ms. Marilyn Siler
Ms. June Lamb

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Vice-Mayor Cloninger moved for the adoption of Resolution No. 00-76. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 21

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of April 7-19, 2000: George Caldwell (Streets), Jo Erin White (Streets), Marshall Wiles (Police), Pat Gosnell (Streets) and Jeff Eller (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

At 9:14 p.m., Mayor Sitnick adjourned the meeting until 6:00 p.m. on Wednesday, April 26, 2000.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Wednesday - April 26, 2000 - 6:00 p.m.

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

PUBLIC HEARING TO CONSIDER A PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR CROWELL FARMS LOCATED ON WEST OAKVIEW ROAD NEAR EAGLE'S NEST LANE

ORDINANCE NO. 2692 - ORDINANCE APPROVING THE PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR CROWELL FARMS LOCATED ON WEST OAKVIEW ROAD NEAR EAGLE'S NEST LANE

Councilman Hay moved to allow Councilwoman Whitmire to resume her seat. This motion was seconded by Councilman Worley and carried unanimously.

Mayor Sitnick opened the public hearing at 6:00 p.m.

City Attorney Oast reviewed with Council some matters of procedure. He handed out to City Council an excerpt from the Unified Development Ordinance (UDO) with regard to Planned Unit Developments. He said that this is a two-part process. One part is a rezoning, which is a legislative act, and one part is a Master Plan approval, which is a quasi-judicial act. Under our Code, the Master Plan is approved by the Planning and Zoning Commission and it stops there unless it is appealed, in which case it comes to City Council. An appeal from the Planning & Zoning Commission's approval of the Master Plan has been filed and therefore, City Council will need to schedule a public hearing. The only question before Council now is the appropriateness of applying the Planned Unit Development Overlay zoning classification to this particular piece of property. You may hear some particular information about the Master Plan, but Council should regard that only as an indication of what could be built on the property, not what will be built on the property. The Master Plan has been appealed and it could change, even after

Council has approved it, it could change. Again, tonight Council will only consider whether the Planned Unit Development Overlay zoning classification with the mixture of uses the developer has proposed is appropriate for this particular area.

City Attorney Oast said that it is his understanding that a valid protest petition has been filed with respect to the rezoning issue, which will require an affirmative vote of 6 out of 7 members of Council.

With regard to the disclosure of information, because this is a legislative matter, the importance of getting that information on the record is not as urgent in this hearing as it will be in considering the Master Plan. However, if Council has visited the site, Council should disclose that.

City Attorney Oast said that if the rezoning fails, there will be no need for Council to hear the appeal of the Master Plan. He said it was important to understand that whatever Council approves will not bind the developer to do that exact thing unless and until the Master Plan is finalized, by whatever means that occurs. If Council approves the rezoning tonight, he will ask Council to set a date for the public hearing on the appeal of the Master Plan.

Upon inquiry of Vice-Mayor Cloninger, City Attorney Oast said that staff will take of the enforcement details on the Master Plan. He explained that Council, in some cases, may not even see the Master Plan, or if they do, it will be with the understanding that it is conceptual only.

All members of Council disclosed that they have visited the property. Councilwoman Field and Councilwoman Whitmire disclosed that they have received correspondence from residents from the community and have made an effort not to read them. Councilman Peterson disclosed that he has read a number of letters and faxes and has spoke to residents on the phone as well. Mayor Sitnick disclosed that she has received letters and faxes with regard to this issue and has copied them for the City Manager and Council.

Mr. Tom Bell, attorney for the residents who oppose the planned unit development, said that he wanted it known that they do not waive their right to have this conducted as a quasi-judicial hearing with the rights to cross-examine witnesses, have witnesses sworn, and have non-hearsay testimony, etc.

Mr. Baechtold said that this is the consideration of a Planned Unit Development (PUD) overlay designation for 71.17 acres in the Extraterritorial Jurisdiction (ETJ).

On February 7, 2000, Crowell Farms, LLC presented a master plan and an application for a PUD overlay designation for a development of 288 dwelling units on 71.17 acres in the ETJ. In the ETJ the City exercises zoning controls and Buncombe County is responsible for erosion control, grading permits, and building permits.

The property is located on West Oakview Road near Eagle's Nest Lane. The property is split-zoned. The front portion (16 acres) is zoned RS-4. The back portion (55 acres) is zoned RM-6. This zoning has been in place since the Unified Development Ordinance (UDO) was adopted in 1997. Prior to that time the front portion was zoned R-1, which is essentially the same as RS-4. The back portion was zoned light industrial under the old zoning. Under the current zoning, the maximum density on the property is 395 units. The property is bordered by single-family residential development to the north, to the northeast and to the northwest. The Biltmore Commons Phase I condominium development is on adjacent property to the southwest, and there is vacant property to the south and southeast.

Mr. Baechtold explained the purpose of a PUD as outlined in the UDO.

The proposed PUD designation and master plan proposes 40 single-family lots, 98 townhouses, 70 condominium units for co-housing, and 80 apartment units to be used for affordable housing for seniors for a total of 288 dwelling units. The PUD designation and master plan will establish the number of units on the property, the amount of parking and dedicated open space, and the location of major infrastructure. The approval of the master plan is a conceptual approval only. The exact arrangement of the buildings is subject to change. As the property is developed, the developer will be required to submit detailed site plans showing the building location, landscaping and buffering, and other site details.

The master plan proposes a spine street to serve as collector road to be called Crowell Farms Drive. The plan proposes a sidewalk along one side of Crowell Farms Drive and approximately 10,000 feet of walking trails that will connect various parts of the development. The plan designates 15.3 acres of common open space to be deeded to a property owner's association. The conceptual layout shows a building arrangement that provides additional undisturbed area and recreation area as part of each multi-family development. Staff reviewed the master plan and determined that the amount of open space provided well exceeds the minimum amount of dedicated open space required in the UDO. In addition, staff determined that the open space meets the intent and follows the guidelines of the open space provisions in the UDO.

This project involves the extension of public water and public sewer. The project received a wastewater allocation from MSD. The project received a conditional letter of water allocation from the Water Resources Department. Staff received comments from area residents about frequent breakage of the water line on West Oakview Road. Mike Brookshire, of the Water Resources Department, investigated the repair history for the water line and concluded that there is no concern about the adequacy of the water line.

The developer prepared and submitted a Traffic Impact Analysis (TIA) as required by the City. The TIA analyzed traffic impacts of this development on four surrounding intersections. The report considers the impact of the traffic generated by the proposed development, combined with existing traffic and projected increases in area traffic, including the impact of the Home Depot Development. The analysis shows that there will be a decrease in the level of service at some of the intersections. The notable traffic impact is at the five-way intersection of West Oakview Road, Sand Hill Road, Sand Hill School Road, and Grandview Drive. The report concludes, however, that the impact is not enough to warrant improvements to the intersections.

The TIA has been reviewed by the City Traffic Engineer and the Division Traffic Engineer for the N. C. Dept. of Transportation (NC DOT). The City Traffic Engineer concurs with the trip generation and trip distribution shown in the TIA. According to the Traffic Engineer, the analysis shows that most of the intersections will continue to operate at a Level of Service "D" or better, which is generally considered an acceptable level. The original analysis projects that two of the approaches to the 5-way intersection of Sand Hill Road, Sand Hill School Road, Oakview Road, and Grandview Road will operate at a level of Service of "E" or "F". However, during the peak hour, it is not uncommon for the minor approaches of two-way stop-controlled intersections to operate at this level.

In addition to the original TIA, the consultant has completed an additional analysis of the 5-way intersection of Sand Hill Road, Sand Hill School Road, Oakview Road, and Grandview Road. The new analysis was completed because limitations in the modeling software make it difficult to analyze a 5-way intersection. The second analysis provided a "best case scenario" where they first looked at a "worst case scenario."

The City Traffic Engineer is in the process of working with the consultant to look at one more possible scenario for this intersection. This new analysis will include traffic generated by the Buncombe County soccer complex near Sand Hill School. This final analysis is important so that no questions remain about whether all the appropriate factors were considered in the analyses.

Once this final analysis is complete, a final recommendation will be made regarding any additional improvements that are needed. According to the City Traffic Engineer, however, it is unlikely that the new analysis will show significant changes from the previous two analyses. The NC DOT Division Traffic Engineer has stated that it is unlikely that the NC DOT will recommend any improvements for this intersection. The City will defer to the NC DOT on any recommendations for improvements.

Staff has received considerable public comment in opposition to this project. Neighboring property owners are concerned about the compatibility of this development with existing development on West Oakview Road; the rural character of the area; the impact of this development on surrounding property values; tree preservation; traffic impacts; stormwater runoff; and the adequacy of infrastructure in the area. Comments were received at two Technical Review Committee meetings and the Planning and Zoning Commission, as well as by letter.

At the review of this matter before the Planning and Zoning Commission on April 5, 2000, the Commission voted 5-1 in favor of recommending approval of the PUD designation. The dissenting member expressed a concern about whether or not the project meets the intent of the PUD district. Other members, supportive of the recommendation, stated that the current proposal minimizes grading on the site, preserves open space, and is a preferable alternative to seeing the property developed at maximum density. The Commission also voted 5-1 in favor of approving the master plan with the conditions. Detailed site development plans for each . Several commissioners expressed a desire to see more functional open space and usable walking trails, and conditions for approval were drafted that advance these interests. The dissenting Commission member felt more time was needed to adequately review the master plan.

On Monday, April 17, 2000, the applicant submitted revised plans showing additional area for passive recreation, and a re-configuration of the walking trails and open space.

The Planning and Development staff recommends approval of the Planned Unit Development overlay designation for Crowell Farms, with the conditions recommended by the Planning and Zoning Commission.

Mr. Michael Moule, the City's Traffic Engineer, said that an additional analysis was done of the 5-way intersection. The new analysis included the traffic from the soccer complex which is planned to be built. The two approaches at the 5-way intersection of Sand Hill School Road and West Oakview Road operate in the p.m. peak hour at Level of Service either "E" or "F" which is normally what we consider an unacceptable level. However, it is not uncommon for minor approaches to 2-way stop control intersections to operate at this level. Based on that new analysis, he talked with the NC DOT traffic engineer for this area and he does not recommend any improvements at that intersection. Given the fact that all of the streets coming into that intersection, except maybe Grandview Road, are NC DOT maintained roads, he would defer to them on that decision.

Mr. Marty Kocot, with Land Design and engineer of record on the project and lead planner, apologized to Council. He said that last night he came across as being presumptuous and that he felt Councilwoman Whitmire's vote on the project would be a positive one. That was not his intent. What he was trying to convey was that Land Design and Crowell Farms, LLL, have spent over a year planning and re-planning the Crowell Farms community being presented.

They feel very strongly that the plan they are presenting is the best one for the development of the property and they would hate to have Councilwoman Whitmire's unfortunate absence last night as a vote counting against the project.

Mr. Kocot reviewed the site plan of Crowell Farms. The plan creates a community of four neighborhood with different housing types, protects the environment, and preserves the feel of property as a rural farm community. The property is going to be developed, whether by Crowell Farms, LLC, or another developer. However, in creating the land plan for this project, the developer has listened to the different planning concepts Land Design has provided them and carefully evaluated the alternatives. They have even sacrificed making the greatest return on their investment by providing a responsible development plan for this 71 acre parcel. He said they are requesting this PUD overlay in order to (1) create a community with open space and walking trails to connect the four different neighborhoods and the West Oakview community; (2) reduce the amount of disturbed land and retain the natural features of the property; and (3) provide increased buffering greater than what is required to the adjacent neighborhoods by providing common open space. The plan would provide play areas, gardens, pastures, walking trails, and sidewalks along the main roadway and out in front of West Oakview Road. They have created 40 single-family lots, 98 single-family townhouses, 80 multi-family apartments (which is affordable elderly housing for seniors) and 70 single-family co-housing units. He then explained co-housing. He said there will be approximately 15.3 acres of common open space deeded to Crowell Farms homeowners association for use as they see fit. In addition, each neighborhood parcel provides additional common open space for the development and use of their residents. The total area of common open space provided under this current plan is 21.5 acres – 30% of their total site area. The common open space provided by this plan provides a 650% increase on the amount required under the PUD zoning. Of the 71 acre tract, 16 acres are zoned RS-4 in the front and 56 acres in the rear are zoned RM-6. They could propose 395 units without a change in zoning, but they are proposing 288 units. Additionally under the PUD they could ask for a 25% density increase because they are providing affordable housing and they could also as for an additional 10% because they are providing more than double the common open space required. They are not asking for any density increase. They can actually build a similar plan, same density and same style of housing, without providing common open space, walking trails and without having to come before City Council for the PUD overlay request. The developers have chosen to request the PUD overlay to provide a neighborhood community bound by pedestrian walkways and common open spaces.

Upon inquiry of Councilman Worley, Mr. Kocot explained how this project is consistent with the concept of smart growth.

Amy Massey, Traffic Engineer with Kimley-Horn & Associates of Charlotte, reviewed with Council the amount of trips projected for the site. She did a traffic comparison of what could be developed under existing zoning and what is planned on this property now, nothing that under the current plan there will be 20% less daily traffic, 25% less traffic during the am peak hour and 15% less traffic during the pm peak hour. She said the results of the study indicate that the intersections operate acceptably overall and reiterated that the NC DOT recommends no improvements.

Mr. Jim Brinkley, principle with Brinkley Adams Development which deals with affordable housing, stated that this is a program through the N.C. Housing Finance Agency and not an entitlement community. The only restriction that they have as owners of the property is that people cannot earn above a certain amount of money. With regard to traffic concerns, the affordable housing portion they are proposing is for seniors and they will generate a loss less traffic than a family project with 2-3 bedrooms.

Mr. Dean Pistor, representative of Brinkley Adams, said their initial application for the Crowell Farms site provided to the N.C. Housing Finance Agency found that the site was very suitable for an elderly multi-family project. Based on a market study and other factors, Crowell Farms ranked fourth in western North Carolina and number one in the Asheville market for funding of this project. He felt if Council does not approve the PUD, they will lose the chance to provide affordable housing to the aging citizens of Asheville and Buncombe County.

Upon inquiry of Mayor Sitnick, Mr. Brinkley said the rent of the one bedroom unit will be approximately $400/month and a two bedroom will be slightly under $500/month.

Mr. Tom Bell, attorney representing the West Oakview residents, said that this is a legislative hearing and was to hear only the zoning, not the Master Plan, but Council has heard nothing except information about the Master Plan itself. He said it was not proper for Council to hear that. He then read to Council Section 7-7-5 which is what this public hearing was noticed under. It says "when considering a proposed amendment, the Asheville City Council will not evaluate the petition based on any specific proposal for the development of the property. The petitioners shall not use any graphic materials or descriptions of the proposed development except for those which would apply for all uses permitted by the requested classification." He noted that the conduct of this hearing is against the advise of your City Attorney, against your ordinances and is inappropriate for Council to consider. He stressed that just because something else worse than this plan can be built on this property is not an appropriate reason to change the zoning. With regard to the number of units that could be built under the current zoning, their consultants have told them that with the topography of this land, you couldn't possibly build more than 320 units, so their figure of giving away 100 units in order to make this a good development, they don't think is the truth. He also pointed out that the issue before Council is whether there should be a PUD overlay and Council could not consider their planned PUD, but how much could be built under any PUD development. Their traffic study was for 288 units, not for any PUD development – it was for this PUD development. In addition, their traffic analysis shows that the 5-way intersection at certain periods of time will reach a Level of Service "F" – which is defined as "unacceptable" by the Highway Capacity Manual. It is appropriate when you consider zoning, the change in the neighborhood, the values in the neighborhood, and the character of the neighborhood. This is a rural community and putting this development out there is totally and completely changing the neighborhood. He also noted that there is no mass transit which the PUD requires. He noted that for Council to amend the Comprehensive Plan, it has to be shown there has been a change in the projections or assumptions upon which the Comprehensive Plan is based, issues or needs have been identified which are not adequately addressed in the Comprehensive Plan, and that the amendment will promote the health, safety and welfare of the City of Asheville - Council has had no information presented to indicate that any of those issues are true. Mr. Bell then presented Council with a petition containing 105 names who "are absolutely and in every respect opposed to the Crowell Farms PUD as proposed by Crowell Property, LLC."

The following residents spoke in opposition of the Crowell Farms PUD for several reasons, some being, but are not limited to: the West Oakview Road area is a quasi-rural community of single-family homes and the proposed PUD units are not compatible with the surrounding homes in the area; as stated in the traffic impact analysis submitted by the developer, the traffic on West Oakview Road will almost triple upon completion of the proposed PUD; West Oakview Road is only 16 feet wide in many places and school buses often have their wheels on the double yellow line when going around curves; single-family homes in the West Oakview community will decrease in value if the PUD is constructed; the 288 units in the proposed PUD will result in the overcrowding of land and undue concentration of population, both in violation of N. C. Gen. Stat. sec. 160A-383; the planned Buncombe County soccer fields traffic is not included in the TIA; two of the 20 acres of greenspace cannot be counted because you cannot use the recorded easements for aerial rights-of-way and there is a 70 foot wide

230,000 volt electric line that crosses this property; schools are already overcrowded; and, if Council is in favor of the PUD, then they should approve the Master Plan first so no more than 288 units can be built on the property:

Mr. Bill Kixmiller, speaking on behalf of the community and resident of 5 Eagle's Nest Lane
Mr. Frank Pomeroy, resident on West Oakview Road
Ms. Jenny Stamey, resident in the West Oakview Road area
Mr. Herb Singerman, resident at 6 Eagle's Nest Lane
Mr. McIntosh, property owner in area
Ms. Phyllis Robertson, resident at 110 West Oakview Road
Ms. Linda Riddle, resident of Osborne Street
Mr. David Pinelli, resident on West Oakview Road
Ms. Cathy Tyler, resident at 20 Eagle's Nest Lane

Upon inquiry of Councilman Hay, City Attorney Oast said that the availability of adequate transportation is something Council should consider, but the availability of public transit is not a requirement. Mr. Baechtold said that this is a goal that could be achieved by allowing the flexibility of a PUD. There is no transit service in the area, however, after talking with the Transit Services Director, he has indicated that this is the type of development that could be easily serviced by transit. In addition, Senior Planner Gerald Green said that transit was reviewed at the writing of this provision in a broader sense – not just public transit. The overall goal was to provide for the clustering of development and the arrangement of the uses within the development so that transit services of any type could easily be made available.

City Attorney said that the representation shown on the Master Plan and the information received should be viewed as an indication of what could go there, not what will go there. Council should be mindful that there is a theoretical legal possibility that the overall density could be increased, but the City does have some control over that through the Master Plan. However, as long as the UDO standards are satisfied, then Council's discretion in whether to approve the Master Plan may be limited to that extent.

Mayor Sitnick closed the public hearing at 8:20 p.m.

Councilwoman Field noted that Council could vote against this overlay district and tomorrow the developer could go out and build the same thing tomorrow. Mr. Green agreed somewhat in that looking at the site plan, the zoning boundaries are such that the developer could do exactly what is shown on the Master Plan that was approved by the Planning and Zoning Commission.

Discussion surrounded why the developer has requested a PUD overlay district. Mr. Green said that in the original meeting with the developers over a year ago, City staff recommended a PUD to provide some flexibility because staff was familiar with the site and realized some of the sensitive nature of the site, with the steep terrain and the ravines. Staff recommended that a PUD overlay district may be a way to provide developers with an option to obtain the density required to make a development feasible but also provide for some flexibility which would allow the protection of those sensitive areas. It was the staff's opinion that this process provides for an enhanced product and a product that meets the goals of the City. He felt that by the developer going through this PUD process, the community as a whole is getting a better product because of the increased flexibility in design, the time that staff has spent with the developer's design professionals in working out the design of the property, and the conditions required by the staff and the Planning & Zoning Commission.

Mayor Sitnick re-opened the public hearing at 8:28 p.m.

Mr. Ben Slosman, petitioner, said that after they first bought this property, they looked at putting 394 single unit homes on the property by grading it, stacking one almost on top of another, and it would have conformed with the existing ordinance. They even had suggestions of placing mobile homes on the property which he rapidly turned down. He asked the design professionals to come up with a concept of developing the property in PUD and then went to the City and asked if this PUD could possibly be developed. They felt it could be a model PUD of what PUD's could look like in the City in the future. They sacrificed over 100 units by not over-grading the property and leaving greenspace. The land values of the houses that will be built will be equivalent to anything that is in this area. If this PUD doesn't go through tonight, they will take and develop the property without the PUD. They will build more houses than they said they would build, there will be no greenspace, and they will go back to what the original zoning requires. That would be a shame, but that's where we're at.

Mr. Baechtold said that in the Master Plan that went before the Planning & Zoning Commission, the developer had asked for some reduced lot sizes. In addition, the other advantage that they are taking of the PUD is that the review process is done all at one time. He did note that to say that they can come in tomorrow and do exactly the same thing may not be entirely accurate. For instance, if they came in with a multi-family development of more than 50 units, that would trigger our conditional use permit process. Mr. Green also noted that in addition to the smaller lot sizes, the PUD allows some flexibility in the siting of the units, and probably the major advantage is in a RM-6 zoning district, the largest structure size is 4 units and the PUD overlay allows them to do structures containing more units (the affordable housing for seniors).

Upon inquiry of Vice-Mayor Cloninger about why staff did not let City Council know this was a suggestion by City staff rather than a request of the applicant, City Manager Westbrook said that City staff always makes suggestions to applicants of various ways to accomplish things.

Mr. Carl Ricker, partner with Mr. Slosman, noted that City staff did not make them do a PUD. It was his objective to work with the community and hoped that the PUD would increase the value of homes in the area. They asked City staff basically what they could do to make the process as easy to go through for them and still have a good project for the community.

Mr. Bell said there was a meeting that occurred shortly before the Planning and Zoning Commission meeting with the developers after a repeatedly request. The meeting did not result in anyone reaching anything. He later believed it was just an effort to comply with the suggestion of the City that the developers meet with the community early in the process. It is their opinion that this allows the developers to make maximum money out of this property. The bottom line is they think that the developers cannot, under the existing zoning, build this project on that land. This PUD allows them to put more units and make more profit.

Mayor Sitnick closed the public hearing at 8:40 p.m.

Upon inquiry of Councilman Peterson, Mr. Green said that there are 225 units in the adjoining Biltmore Commons.

Councilman Peterson asked if Council approves the PUD, how binding is the Master Plan. Mr. Green said that the Master Plan is binding with a small amount of flexibility. He believes they cannot increase the density more than 10% without coming back through the entire Master Plan process. They can rearrange the units on the site somewhat, but any substantial change to the road pattern or the building location would require them to go back through the entire review process.

Vice-Mayor Cloninger moved to approved the PUD overlay district for Crowell Farms. This motion was seconded by Councilman Hay.

Vice-Mayor Cloninger felt it was important to point out that if Council does not approve the PUD that does not mean that there won't be development on this site. In all likelihood there will be, and in all likelihood, it could be in a way that is less in harmony with the surrounding area. He does think the PUD would accomplish several things that we would not be able to assure otherwise. This will minimize the grading on the site, it will preserve the steepest slopes, it will preserve open space, and it will create usable walking trails. It will also provide for some affordable housing and housing to the elderly which we very much need. Furthermore, the housing provided for the elderly is likely to mean that there will be less impact on the road than there would be if this portion of housing were provided to people who drive cars on a regular basis. With regard to traffic concerns, he would have to defer to staff on that as to what conclusions they have drawn. Their belief is that this will increase traffic at an acceptable level so he is willing to take their word on it. He also felt it was very important that Council point out that when we passed the PUD concept, we encouraged developers to use that method so that they could engage in responsible development in the community. He felt in a situation like this, this PUD would accomplish so many of the goals that we hoped to achieve when we came up with this concept that we should grant this request.

Councilman Hay agreed with Vice-Mayor Cloninger's comments. He felt that with application of the PUD, Council has something to say about what is built out there. The traffic concerns are very real but are best controlled by what is before Council now. He does favor the use of the PUD here and in the future, but in particular in this case, because there will be retaining of the natural features, and the use of the PUD to cluster things so that what is best about the lay of the land is preserved not only to benefit the people who live there, but also for those people who live around the area.

Councilman Worley said that he has been familiar with this area for quite a long period of time and it has substantially changed from what it was 25-30 years ago, and it will be even more substantially changed 25-30 from now, even well beyond the changes that will be brought about by this development or whatever development occurs on that site. With regard to traffic, he will have to defer to our traffic engineer. He doesn't see that values will be affected by this development because his law practice deals primarily in real estate work and he sees the values day in and day out. Most importantly, the term smart growth is very much in the news and it means we need to look at the way we grow. Part of smart growth encourages mixed usage, various types of development in an area, it increases density, and lessens sprawl. He felt this PUD is consistent with smart growth principles.

Councilwoman Whitmire said that based on the information presented tonight, and only tonight, she was satisfied that the request for rezoning has met its requirements.

Councilman Peterson felt that it's not smart growth that we are allowing this sprawl, however, the issue before Council is whether the PUD with the mixed use that they propose is appropriate for this property as it's zoned. It is zoned for multi-family and if a PUD overlay district is not approved, multi-family could be built that is very undesirable. Given the standard that we are asked to consider what it's zoned now and what the PUD would allow, taking into account the Master Plan submitted, he felt it would probably meet the requirements to rezone.

Councilwoman Field said she was very much an affordable housing advocate and the idea of losing 80 affordable houses anywhere is not acceptable. She also believes that different kinds of living units that are available create community.

Mayor Sitnick hoped that great care be taken not to eliminate any trees that are within the walking trails. This Council is very much in favor of sidewalks but the pedestrian amenities that occur within the PUD should be echoed by the community's commitment to sidewalk development. A requirement should be created in the PUD that there be adjacent pedestrian amenities as well as amenities within the PUD. It would be her hope that as we find little pockets of money to do sidewalks, that we look to this neighborhood which will be significantly impacted. She remains concerned about the traffic issues and she would like to continue evaluating the area and not just rely on the current analysis, but look at what happens in that area several times a year as it applies to the PUD, as it applies to additional single-family private development, soccer fields, and the Home Depot. The PUD is a better regulated, more sensitive development than anything that could take place with the current zoning. She will vote for this PUD overlay district with her concerns being followed through with regard to preserving as much as the natural environment and making sure we look at the traffic issues repeatedly.

The motion made by Vice-Mayor Cloninger and seconded by Councilman Hay carried unanimously.

Mayor Sitnick said she appreciated Mr. Kocot's apology at the beginning of this meeting. After she felt the meeting yesterday, she found herself growing more and more angry at his comments for a number of reasons. Primarily because Councilwoman Whitmire was not here to address his comments. Councilwoman Whitmire has been meticulous, as all of Council has, in not making any decisions having to do with public hearings, rezonings, controversial issues, quasi-judicial hearings, conditional use permits, or any other things that come before this Council until we have evaluated all of the facts. We received a memo from the City Attorney telling us that we could not base this decision on a Master Plan and we could not base this decision on anything we heard from our neighbors and anything we heard from the applicants. Mr. Bell, Mr. Slosman and neighbors were very respectful of that and did not attempt to influence us at any time. What Mr. Kocot said last night, on television, in her opinion, besmirched the reputation of Councilwoman Whitmire and called all of Council's reputations into question by his comments. She then read Mr. Kocot's comments from the City Council meeting on April 25, 2000. Nobody knew her vote until tonight.

Councilwoman Whitmire thanked the community for allowing City Council to continue this process and appreciated their willingness to come back tonight. "Sitting here tonight was even more difficult to make this decision, not because of the passing of my uncle, but Mr. Singerman used to be my teacher and so I feel kind of bad voting against something a former teacher has something to do with. I was handed the minutes of last night at 5:55 p.m. today and was very disappointed. Angry, no – but disappointed. Integrity is the most important thing to me. That's all I have. You can take my job, you can take my house, I live with my mother, but whatever. The only thing I have is my word – that's it. And for you, Mr. Kocot, to put my integrity on the line in front of people who supported me – my goodness, I don't even know you, never seen you, never met you. But what you did was wrong. And I just wanted to publicly say that. It was wrong and I don't appreciate it. Do I hate you? No, actually I forgive you, because I'm bigger than that. And what you said is not true, is unfounded and not valid. And I don't appreciate it."

Councilman Worley moved to set the public hearing for the Master Plan on May 23, 2000. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 220

Mayor Sitnick adjourned the meeting at 9:14 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 2, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilwoman Barbara Field

CONSENT:

Disposal of City-Owned Property

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by sealed bid.

Subject to Council's approval, the resolution authorizes the City's Purchasing Director to dispose of a metal storage building and seven sections of bleachers that have been declared surplus by the Parks and Recreation Department. The surplus is located in the old Asheville Motor Speedway and will be sold on an "as is, where is" basis pursuant to N. C. Gen. Stat. sec. 160A-266.

City staff requests City Council's approval of the resolution.

Financial Feasibility Study

Summary: The consideration of a resolution confirming a resolution of the Regional Water Authority to award a contract to Raftelis Financial Consulting (RFC) to perform a Financial Feasibility Study.

In 1995, RFC prepared a Financial Feasibility Report that was included in the Official Statement for the City of Asheville's Water System Revenue Bonds, Series 1996, which were issued to fund the Mills River Expansion Program. Since the issuance of the 1996 revenue bonds, over $20 million of additional capital improvements have been identified and will become necessary over the next five years.

In order to finance $20 million in capital improvements, the Authority anticipates that the City of Asheville will need to issue revenue bonds in February or March of 2001. The bonds will be similar to those issued in 1996. As with the 1996 bond issue, a Financial Feasibility Report will be required that would include a five-year financial plan and an analysis of proposed rate increases. More significantly, the Report will demonstrate the ability of the Authority, through estimated debt service coverage, to pay off the bonds in the future. This report will be included in the Official Statement of the bond issue.

Development of a Financial Feasibility Report will involve the following tasks:

- Review of background information including financial, accounting, operations, legal, regulatory, and billing information.
- Development of the financial plan including projections of demand, revenues, operation and maintenance expenses, and capital costs. The plan will also detail the debt service schedule and coverage requirements for financing the proposed bond issue.

- Preparation of draft Financial Feasibility Report and presentation to the Authority, the City, the Authority's engineering consultants, investment bankers, bond counsel, and the Local Government Commission.
- Meeting with the LGC and other members of the financing team to discuss the Financial Feasibility Report. This will include three sets of modifications to the financial information and the report based on feedback.
- Revisions and finalization of the report, after obtaining input from the LGC and other members of the financing team. The final report will be included in the Official Statement of the bond issue.

Mr. Raftelis, of RFC, has served over 300 government utilities in his 25-year career. In particular, he has extensive experience in performing financial feasibility evaluations for various municipalities across the country. He has previously assisted the Authority in the water cost of service and rate study performed in 1995 and the financial feasibility analysis performed in 1996. He is very familiar with our organization and the political atmosphere of this community. Given RFC's prior work on the 1996 Bond Issue and his recent assistance to review the Authority's five-year financial plan, he was able to reduce fees substantially below the amount he billed for the 1996 feasibility study.

In order to meet the schedule to issue bonds in early 2001, it will be necessary to initiate the Financial Feasibility Study no later than June 1, 2000. The total cost is estimated not to exceed $44,989. Funding has been identified and is available in the 35 Fund.

The Regional Water Authority approved the award of a contract with RFC to conduct a Financial Feasibility Study which is required in order to issue bonds in early 2001, and staff recommends City Council's concurrence with the Authority's action.

Budget Amendment for Non-Resident Fees

Summary: The consideration of a budget amendment, in the amount of $25,000, to appropriate expenditures for non-resident fees which have been collected for various Parks and Recreation programs.

Several years ago, City Council approved collecting non-resident fees for various Parks and Recreation services. These fees include services for classes, adult and youth sports, and various clubs that use Parks and Recreation facilities. The Parks and Recreation Department wishes to establish expenditure line items and appropriation in order to spend funds which have been collected. The revenue that has been collected is intended to be used for various capital projects of the department. It is the intent of staff to use these funds in conjunction with various public/private endeavors and other activities or improvements that will benefit the community.

The Parks and Recreation Department requests City Council approve appropriating funding from revenue collected from non-resident fees totaling $25,000.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

RESOLUTION NO. 00-77 – RESOLUTION OF INTENT TO ESTABLISH AND MAINTAIN AN INDEPENDENT LOCAL AIR POLLUTION CONTROL AGENCY

Mayor Sitnick submitted to City Council a report on the future of the Western North Carolina Regional Air Pollution Control Agency and Board. The report contained the purpose of the Mayor's Ad Hoc Committee ("Committee"), the law, a brief history of the WNC Regional Air

Pollution Control Agency and Board, statistics, contacts, Committee minutes, Board and Employee Interim Policy, industry letters, minutes of worksession minutes regarding County Manager Wanda Greene's request and request withdrawal, and opinions from the Board, State and Agency.

In summary, on behalf of the Committee, the WNC Regional Air Pollution Control Agency should be an independent agency with an autonomous board by an interlocal agreement with the possibility of expanding the interlocal agreement to include other municipalities and counties.

A brief discussion surrounded expanding the Board to add representation of other municipalities or counties if the interlocal agreement is expanded.

Councilman Worley explained why, in the future, the City Council's participation in the interlocal agreement may be an impediment if our goal is for the agency to be regional.

City Attorney Oast read a resolution of intent to establish and maintain an independent local air pollution control agency. In said resolution, he read that (1) The City shall, through appropriate channels, pursue the establishment of an independent air pollution control agency, with an autonomous board, by interlocal agreement pursuant to N. C. Gen. Stat. sec. 143-215.112, with participation by Buncombe County and other local governments in the area as appropriate; and (2) The Mayor and City Manager are hereby each authorized to prepare and execute such documents and take such other action as necessary to give effect to this resolution.

Vice-Mayor Cloninger moved to waive the rules and take formal action at this meeting with regard to this matter. This motion was seconded by Councilwoman Whitmire and carried unanimously.

Vice-Mayor Cloninger moved to adopt Resolution No. 00-77. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 22

FISCAL YEAR 2000/2001 BUDGET REVIEW SCHEDULE

Budget Director Ben Durant said that this is the consideration of amending the Fiscal Year 2000-01 Budget Schedule.

City Council has requested a special budget worksession to discuss various funding options for affordable housing. Due to the consideration of this worksession, it is necessary to revise the previously adopted budget schedule.

Staff recommends Council establish a date for a special housing worksession and adopt revised a budget schedule.

After discussion, it was the consensus of City Council to hold (1) a budget worksession on May 18, 2000, at 1:00 p.m. in the First Floor North Conference Room, City Hall Building; (2) affordable housing worksession on May 30, 2000, at 4:00 p.m. in the First Floor North Conference Room, City Hall Building; (3) community meeting on May 30, 2000, at 7:00 p.m. at the Murphy-Oakley Community Center at 749 Fairview Road, Asheville, N.C.; (4) regular worksession on June 6, 2000, at 3:00 p.m. in the First Floor North Conference Room; (5) public hearing on the 2000-01 Annual Operating Budget and Capital Improvements Program on June 6, 2000, at 5:00 p.m. in the Second Floor Council Chamber, City Hall Building; and (6) adoption of the 2000-01 Annual Operating Budget and Capital Improvements Program on June 13, 2000, at 5:00 p.m. in the Second Floor Council Chamber, City Hall Building.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LEGISLATIVE PACKAGE

City Attorney Oast said that this is the consideration of submissions to the legislative delegation, and request for legislative action during 2000 "short" session of the North Carolina General Assembly.

The 2000 session of the North Carolina General Assembly begins on May 8, 2000, and local bills must be submitted to the bill drafting office by May 17, 2000. The deadline for filing local bills is May 24, 2000. Because this is a "short" session, our legislators are requested to certify that local bills introduced by them are not controversial, and the City typically requests only routine amendments, if it requests anything.

At its retreat in January, City Council heard a presentation and expressed interest in submitting bills to address several discrepancies between our Charter and State law. These were:

1. Amend Section 8 of the Chapter regarding notice of Council meetings. Currently, the Charter provides that special meetings may be called by the clerk upon request of (i) the mayor; (ii) the city manager; or (iii) any three members of city council. Section 8 also provides for council members to receive 12 hours' notice of council meetings.

   The general law provides otherwise. G.S. 160A-71 provides that a special meeting may be called by the mayor, mayor pro tem (or vice mayor), and for council members to receive 6 hours' notice of special meetings.

   There are also some discrepancies between the general law and the charter regarding public notification of special meetings. The general law requires broader notice, which is what we do.

   SUGGESTION: Delete the part of Section 8 that addresses Special Meetings, at least as to notification procedures. If this is done, we will be bound by State law, and there will be no confusion with conflicting Charter provisions. The one part of the Charter provision that Council may desire to retain is the provision setting forth who may call a special meeting.

2. Sec. 22 of the "Related Laws" (non-charter local legislation) provides that the City may select the place or places to which the City's garbage may be removed, and the manner of its removal. This provision was enacted in 1923.

   The general law provides in G.S. 160A-311 and 312, that municipalities may operate solid waste collection and disposal systems and facilities.

   SUGGESTION: Delete Section 22 of the Related Laws as duplicative of the general law.

3. Add the City of Asheville to the list of cities to which G.S. 160A-300.1 applies.

This law, which was originally adopted in 1997 with application to Fayetteville and Charlotte only, authorizes the use of traffic control photographic devices as enforcement tools in connection with traffic control devices. Essentially, the law allows the use of cameras to catch vehicles that run stoplights. In 1999, it was expanded to include other cities.

The law authorizes a civil (as opposed to criminal) penalty of $50.00, and does not result in points against licensor insurance. The law requires the posting of adequate warnings that such a system is in use, and also provides that the citation must state specifically how the citation may be challenged. The civil penalty may only be imposed where no criminal violation is noted.

This was not discussed at the January retreat, but has been requested by the Police Department as a way to address and strengthen traffic control at some problem intersections.

SUGGESTION: Request that the City of Asheville be added to the list of municipalities authorized to use cameras to enforce the law at traffic lights. The only potential problem with this request is that it may be viewed as controversial and ineligible for consideration at this session.

4. Non-betterment Relocation Costs. This bill, which was introduced last session but did not pass either house, is nevertheless eligible for consideration in this short session because it affects the budget. Our legislators are working hard for us on this, and we will continue to monitor its progress.

If City Council wishes to submit these requests to our legislative delegation, approval of 1, 2 and 3 above is requested.

Discussion surrounded if City Council really wanted to proceed with the use of traffic control photographic devices as enforcement tools in connection with traffic control devices. City Attorney Oast again noted that this item may be viewed as controversial and ineligible for consideration at this Short Session. He said that he would gather information from other cities and see what their experience has been with this law.

It was the consensus of City Council to submit Items 1 and 2 described above to our legislative delegation, noting that Item 4 is on-going.

NEXT COMMUNITY MEETING

It was the consensus of City Council to held the May 30, 2000, community meeting on May 30, 2000, at 7:00 p.m. at the Murphy-Oakley Community Center at 749 Fairview Road, Asheville, N.C.

MISCELLANEOUS ITEMS

Vice-Mayor Cloninger noted that the Public Access Channel Commission will be approaching City Council to ask for a disbursement from the Contingency Fund for travel expenses, which he would recommend. Councilman Peterson stated that City Council needed to do what they can to support this Commission.

Vice-Mayor Cloninger reviewed with Council the upcoming board/commission appointment process.

City Manager Westbrook updated City Council on the status of the revisions to the Civic Center Commission ordinance.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that he would be bringing a revised noise ordinance to City Council for consideration later this month.

CLOSED SESSION

At 4:25 p.m., Councilwoman Whitmire moved to go into closed session in order to (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Jennifer Jacobs, Meredith Hunt, Helen Gordon, Life Advocates, Inc., Leanna F. Young, Janet Rebecca Crisp, Paul Evington, Scott Alan Gaddy, Rock S. Edwards, William R. Annarino, Leroy Lunsford, City of Asheville, Leona Young, Boyd McKaskill, John Long, and Darryl Fisher - statutory authorization is contained in G.S. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged or confidential pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that renders the information to be discussed confidential is N. C. Gen. Stat. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Worley and carried unanimously.

Councilman Hay asked if he should be excused from the closed session since he has a conflict of interest with one person named. City Attorney Oast said the point of the closed session is to update Council on the status on the lawsuit, not to discuss any strategies with regard to the lawsuit.

At 5:13 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:13 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 9, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. RESOLUTION NO. 00-78 - RESOLUTION IN SUPPORT OF PASSENGER TRAIN SERVICE TO ASHEVILLE

Ms. Judy Calvert, Human Resources Manager at Kunkle Industries in Black Mountain and Chair of the WNC Rail Corridor Committee, said that on March 4, 1997, City Council adopted Resolution No. 97-31 supporting the effort to bring passenger rail service to Asheville. City Council is being asked to support an updated version of the resolution by the WNC Rail Corridor Committee who is undertaking to have similar resolutions passed by local governments and other groups along the entire corridor.

The Committee's plan is to have all the resolutions in hand to deliver to State transportation officials as further demonstration of current unified support for the service from the communities to be served. The resolutions would be delivered to Transportation Secretary David McCoy and Pat Simmons of the N. C. Department of Transportation Rail Division by representatives of the Asheville Area Chamber of Commerce during the Chamber's annual legislative visit to Raleigh May 15-16, 2000. Bradley Hix, Vice President for Public Policy for the Asheville Chamber, is coordinating this effort.

The WNC Rail Committee organized a large showing of support at a March 27, 2000, meeting of a legislative study commission considering the issue. That meeting was held at the Grove Park Inn with about 300 people in attendance. This fall, the Committee is planning a public rally here in Asheville as another effort to maintain momentum for the project.

She recommended City Council adopt the resolution supporting passenger train service to Asheville. In addition, she requested City Council to bring immediate focus to finding a location for the Asheville station and the State will be looking at five different options.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-78. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 23

B. COMMENTS BY FIRE CHIEF JOHN RUKAVINA

Fire Chief John Rukavina said that his last day as Fire Chief of Asheville will be May 10, 2000. He publicly thanked City Council and the past Mayors and Councils with whom he worked with during his tenure and for the pleasure of working as Fire Chief in a well-governed community.

On behalf of City Council, Mayor Sitnick thanked Fire Chief Rukavina for his fine service to the citizens of Asheville and wished him well in the future.

C. PROCLAMATION PROCLAIMING THE WEEK OF MAY 15-19, 2000, AS "NATIONAL PEACE OFFICERS WEEK" AND MAY 15, 2000, AS "PEACE OFFICERS MEMORIAL DAY"

Mayor Sitnick read the proclamation proclaiming the week of May 15-19, 2000, as "National Peace Officers Week" and May 15, 2000, as "Peace Officers Memorial Day" in the City of Asheville. She presented the proclamation to Police Chief Will Annarino who outlined some activities taking place during the week.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 25, 2000, AND THE WORKSESSION HELD ON MAY 2, 2000

B. RESOLUTION NO. 00-79 - RESOLUTION AUTHORIZING THE PURCHASING DIRECTOR TO DISPOSE OF A METAL STORAGE BUILDING AND BLEACHERS BY SEALED BID

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by sealed bid.

Subject to Council's approval, the resolution authorizes the City's Purchasing Director to dispose of a metal storage building and seven sections of bleachers that have been declared surplus by the Parks and Recreation Department. The surplus is located in the old Asheville Motor Speedway and will be sold on an "as is, where is" basis pursuant to N. C. Gen. Stat. sec. 160A-266.

City staff requests City Council's approval of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 24

C. RESOLUTION NO. 00-80 - RESOLUTION ACCEPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO CONTRACT WITH RAFTELIS FINANCIAL CONSULTANTS TO PERFORM A FINANCIAL FEASIBILITY STUDY

Summary: The consideration of a resolution confirming a resolution of the Regional Water Authority to award a contract to Raftelis Financial Consulting (RFC) to perform a Financial Feasibility Study.

In 1995, RFC prepared a Financial Feasibility Report that was included in the Official Statement for the City of Asheville's Water System Revenue Bonds, Series 1996, which were issued to fund the Mills River Expansion Program. Since the issuance of the 1996 revenue bonds, over $20 million of additional capital improvements have been identified and will become necessary over the next five years.

In order to finance $20 million in capital improvements, the Authority anticipates that the City of Asheville will need to issue revenue bonds in February or March of 2001. The bonds will be similar to those issued in 1996. As with the 1996 bond issue, a Financial Feasibility Report will be required that would include a five-year financial plan and an analysis of proposed rate increases. More significantly, the Report will demonstrate the ability of the Authority, through estimated debt service coverage, to pay off the bonds in the future. This report will be included in the Official Statement of the bond issue.

Development of a Financial Feasibility Report will involve the following tasks:

- Review of background information including financial, accounting, operations, legal, regulatory, and billing information.
- Development of the financial plan including projections of demand, revenues, operation and maintenance expenses, and capital costs. The plan will also detail the debt service schedule and coverage requirements for financing the proposed bond issue.
- Preparation of draft Financial Feasibility Report and presentation to the Authority, the City, the Authority's engineering consultants, investment bankers, bond counsel, and the Local Government Commission.
- Meeting with the LGC and other members of the financing team to discuss the Financial Feasibility Report. This will include three sets of modifications to the financial information and the report based on feedback.
- Revisions and finalization of the report, after obtaining input from the LGC and other members of the financing team. The final report will be included in the Official Statement of the bond issue.

Mr. Raftelis, of RFC, has served over 300 government utilities in his 25-year career. In particular, he has extensive experience in performing financial feasibility evaluations for various municipalities across the country. He has previously assisted the Authority in the water cost of service and rate study performed in 1995 and the financial feasibility analysis performed in 1996. He is very familiar with our organization and the political atmosphere of this community. Given RFC's prior work on the 1996 Bond Issue and his recent assistance to review the Authority's five-year financial plan, he was able to reduce fees substantially below the amount he billed for the 1996 feasibility study.

In order to meet the schedule to issue bonds in early 2001, it will be necessary to initiate the Financial Feasibility Study no later than June 1, 2000. The total cost is estimated not to exceed $44,989. Funding has been identified and is available in the 35 Fund.

The Regional Water Authority approved the award of a contract with RFC to conduct a Financial Feasibility Study which is required in order to issue bonds in early 2001, and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 26 – PAGE 26

D. ORDINANCE NO. 2693 - BUDGET AMENDMENT TO APPROPRIATE EXPENDITURES FOR NON-RESIDENT FEES WHICH HAVE BEEN COLLECTED FOR VARIOUS PARKS AND RECREATION PROGRAMS

Summary: The consideration of a budget amendment, in the amount of $25,000, to appropriate expenditures for non-resident fees which have been collected for various Parks and Recreation programs.

Several years ago, City Council approved collecting non-resident fees for various Parks and Recreation services. These fees include services for classes, adult and youth sports, and various clubs that use Parks and Recreation facilities. The Parks and Recreation Department wishes to establish expenditure line items and appropriation in order to spend funds which have been collected. The revenue that has been collected is intended to be used for various capital projects of the department. It is the intent of staff to use these funds in conjunction with various public/private endeavors and other activities or improvements that will benefit the community.

The Parks and Recreation Department requests City Council approve appropriating funding from revenue collected from non-resident fees totaling $25,000.

ORDINANCE BOOK NO. 18 – PAGE 222

E. MOTION SETTING A PUBLIC HEARING ON MAY 23, 2000, TO REZONE PROPERTY AT 6 MOUNT CLARE AVENUE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND COMMUNITY BUSINESS II DISTRICT TO COMMUNITY BUSINESS II DISTRICT

F. RESOLUTION NO. 00-81 - RESOLUTION MODIFYING THE SCHEDULED CITY COUNCIL MEETINGS TO INCLUDE (1) A BUDGET WORKESSION ON MAY 18, 2000, AT 1:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM, CITY HALL BUILDING; (2) AFFORDABLE HOUSING WORKSESSION ON MAY 30, 2000, AT 4:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM, CITY HALL BUILDING; (3) COMMUNITY MEETING ON MAY 30, 2000, AT 7:00 P.M. AT THE MURPHY-OAKLEY COMMUNITY CENTER AT 749 FAIRVIEW ROAD, ASHEVILLE, N.C.; (4) REGULAR WORKSESSION ON JUNE 6, 2000, AT 3:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM; (5) PUBLIC HEARING ON THE 2000-01 ANNUAL OPERATING BUDGET AND CAPITAL IMPROVEMENTS PROGRAM ON JUNE 6, 2000, AT 5:00 P.M. IN THE SECOND FLOOR COUNCIL CHAMBER, CITY HALL BUILDING; AND (6) ADOPTION OF THE 2000-01 ANNUAL OPERATING BUDGET AND CAPITAL IMPROVEMENTS PROGRAM ON JUNE 13, 2000, AT 5:00 P.M. IN THE SECOND FLOOR COUNCIL CHAMBER, CITY HALL BUILDING

RESOLUTION BOOK NO. 26 – PAGE 28

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO APPLYING THE MANUFACTURED HOUSING OVERLAY DISTRICT TO FOUR LOTS ON GORMAN BRIDGE ROAD CURRENTLY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

ORDINANCE NO. 2694 - ORDINANCE TO APPLY THE MANUFACTURED HOUSING OVERLAY DISTRICT TO FOUR LOTS ON GORMAN BRIDGE ROAD CURRENTLY ZONED RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 5:21 p.m.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to apply the Manufactured Housing Overlay (MHO) District to four lots on Gorman Bridge Road, currently zoned RM-6 Multi-Family Low Density District. This public hearing was legally advertised on April 28 and May 5, 2000.

The owners of these four lots are Robert Oliver, Marvin Hollifield, Dennis & Barbara Olander, and Bruce & Ruby Austin. These four lots on Gorman Bridge Road (PIN Nos. 9629.08-99-6120, 5660, 6323, and the portion of 2181 within the City's jurisdiction) are approximately 5 acres in size. These lots are adjacent to the existing MHO district along Gorman Bridge Road and Riverview Church Road. The 2010 Plan shows the majority of this area to be low density residential. Three of the lots currently have manufactured homes on them. These lots are at the end of the City's jurisdiction and surrounded by a number of manufactured homes both within and outside of the City's zoning jurisdiction. The 1998 Average Daily Traffic count at this intersection is 1100 vehicles. The petitioners have been made aware that there are development standards in the Unified Development Ordinance for the placement of manufactured homes on individual lots.

The Planning and Development Department reviewed this rezoning and recommended approval to the Planning and Zoning Commission at their April 5, 2000, regular meeting. After receiving public comment, the Commissioners voted unanimously to recommend the application of the Manufactured Housing Overlay District to the four lots on Gorman Bridge Road.

Mayor Sitnick closed the public hearing at 5:24 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2694. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 225

B. PUBLIC HEARING TO CONSIDER THE REZONING OF ONE LOT AT 141 HILLSIDE STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2695 - ORDINANCE TO REZONE ONE LOT AT 141 HILLSIDE STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RM-16 CU RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2696 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR 141 HILLSIDE STREET (CONDITIONAL USE ZONING)

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Planning and Development Director Scott Shuford reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:25 p.m.

Ms. Stacy Merten, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report).

Ms. Merten said that this is the consideration of rezoning one lot at 141 Hillside Street from RS-8 Residential Single Family High Density District to RM-16 Residential Multi-Family High Density District, and issuance of a conditional use permit (conditional use zoning).

The Planning and Zoning Commission, at their April 5, 2000, meeting, reviewed and recommended approval to conditionally rezone a 1.43 acre tract located on Hillside Street (PIN No. 9649.14-34-2645). The subject property is located in the midst of an RS-8 zoning district. Currently there are three buildings on the site, consisting of two single-family houses located on either side of a large 12,000 square foot structure, formerly used as a nursing home (City Exhibit 4) . This building is now used for a non-violent drug treatment facility - Life on Life's Terms. The owner proposes to convert this facility into an apartment building. The parking would be located to the rear of the property and access would be one-way, entering on Woodrow Avenue and exiting on Hillside Street. This conditional use zoning would allow the existing structure to remain viable with a minimum of impact on the neighborhood.

The Planning and Zoning Commission voted unanimously to recommend approval of the conditional use rezoning with the following conditions:

- The parking area in front of the building should be eliminated. The pavement should be removed and landscaping installed.
- The apartment building should be restricted to 12 units.
- The project should undergo site plan review to determine specific parking and landscape requirements, prior to the issuance of a zoning permit.

The Planning and Development staff recommends approval of the conditional use zoning.

Mr. George Meade, property owner, talked about the 12,000 square foot structure.

City Attorney explained that City Council can consider the appropriateness of Mr. Meade's use for this particular zone and then the actual conditional use approval will focus on details on the site plan.

Upon inquiry of Councilwoman Field, Mr. Meade said that the rent really will depend upon how much it will cost him to renovate the building to apartments. He felt it would be in the range of $650/month for two bedrooms.

Upon inquiry of Councilman Worley, City Attorney Oast said that it would be appropriate to add an additional condition to the conditional use permit which would require that the two single-family houses on the lot remain single-family residences.

Upon inquiry of Councilman Hay, Planning & Development Director Scott Shuford said that even though the RM-16 District will allow 22 units, the conditional use permit will limit the number of units to a lesser number. City Attorney Oast further explained that City Council should first consider whether multi-family zoning, with appropriate conditions, is acceptable for this property in the neighborhood where it exists. Secondly, on the conditional use permit issue, City Council should consider whether these particular conditions are the appropriate way to develop that property.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 5:43 p.m.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2695 to rezone 141 Hillside Street from RS-8 Residential Single-Family High Density District to RM-16 CU Residential Multi-Family High Density District (conditional use zoning). This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 227

Vice-Mayor Cloninger moved to adopt Ordinance No. 2696 granting the conditional use permit for 141 Hillside Street (conditional use zoning), with the following conditions: (1) The parking area in front of the building should be eliminated. The pavement should be removed and landscaping installed; (2) The apartment building should be restricted to 12 units; (3) The project should undergo site plan review to determine specific parking and landscape requirements, prior to the issuance of a zoning permit; and (4) That the two existing single-family houses on the property remain single-family. Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 229

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 00-82 - RESOLUTION APPROVING THE CONSOLIDATED HOUSING AND COMMUNITY DEVELOPMENT PLAN FOR 2000-2005 AND THE CONSOLIDATED ACTION PLAN FOR 2000-2001

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a resolution approving the Consolidated Housing and Community Development Plan for 2000-2005 and the Consolidated Action Plan for 2000-2001.

The Consolidated Plan is the City's plan for using federal Community Development Block Grant (CDBG) and Home Partnerships Act (HOME) program funds. It is in two parts. The larger document is a Strategic Plan, prepared once every five years, which explores needs, priorities, strategies and objectives for the programs for 2000-2005. The smaller document is the

Action Plan, prepared annually, which details the proposed use of a total of $4,087,065 in CDBG and HOME funds for specific projects in 2000-2001. These plans were presented to Council in draft form at the April 18, 2000, worksession.

Both Plans must be submitted to HUD no later than May 12, 2000.

The Strategic Plan was developed by a planning group of about 80 citizens who volunteered for the task after an initial public hearing in July 1999. Another five formal public hearings were held to receive input during the preparation of the Plan, and numerous informal meetings and discussion groups took place. Well over 200 people (excluding staff) participated in the process. Notices of the availability of the draft plans for public comment were published on April 7, 2000, and nearly 200 copies have been distributed. A final public hearing was held at the April 25, 2000, City Council meeting.

At the April 25 public hearing, twelve citizens commented on the plans. Comments included:

- Appreciation for the openness of the strategic planning process and for the quality of the resulting Strategic Plan;
- Support for the proposal for a local Housing Trust Fund to be capitalized initially with the equivalent of a one cent property tax;
- Concern about proposals for addressing lead-based paint in the draft Strategic Plan and support for the modified proposals subsequently developed by staff;
- A request by the Affordable Housing Coalition for the proposed FY 2000 grants to the Coalition and to the Consumer Credit Counseling Service to be increased by a total of $47,000, and the funding for down-payment assistance to be decreased by the same amount.

In addition, staff has received a number of written comments proposing minor changes to the narrative sections of the Strategic Plan.

The modified proposals for addressing lead-based paint hazards have been incorporated into the Strategic Plan, and other corrections and additions of a minor nature are being made. The public comment period remained open through May 7, 2000. On May 9, 2000, the Housing and Community Development Committee considered the Affordable Housing Coalition's request for changes to the Annual Action Plan.

Ms. Caplan said the only significant changes to the original drafts are as follows: (1) revising the lead-based paint strategies to take out references to the Minimum Housing Code and inserting references to using Code inspectors and permit staff to provide education and information about lead-based paint issues; (2) change on strategy in the public housing section that that merely suggests that Madison County consider the possibility of consolidating the four small Madison County housing authorities (3) increase the priority level for rental housing for elderly people of moderate income; and (4) a change recommended by the Housing and Community Development Committee that the proposed Fiscal year 2000 grants to the Affordable Housing Coalition and to the Consumer Credit Counseling Service be increased by a total of $47,000 and the funding for down-payment assistance be decreased by the same amount.

Ms. Caplan emphasized that in approving the Strategic Plan, Council is not committing the City to implement every individual strategy – but merely setting a general course that the City intends to follow.

Councilwoman Field said that the Affordable Housing Coalition and the Consumer Credit Counseling Service were well aware that City Council could not commit any future City Council or any future Housing and Community Development Committee to agree to continue the increased funding in subsequent years.

Councilman Worley said that he would like to see next year how successful the Affordable Housing Coalition was in raising the down-payment assistance money.

Councilman Hay stressed that he did not want to see the Housing and Community Development Committee make hard choices on where to allocate the money and then have a last-minute request to change the funding. He felt that only prolongs the process.

Upon inquiry of Councilwoman Whitmire, Ms. Caplan explained how the down-payment assistance program is administered by the City and would report to Council if the process is successful.

Town of Black Mountain Alderman Will Kennedy spoke highly in favor of the Plans and staff's openness of the strategic planning process and the quality of the resulting Strategic Plan.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

City Attorney Oast said that Councilwoman Whitmire does work for one of the sub-recipient agencies of CDBG and HOME funds, but the City of Asheville has obtained the appropriate permission for her to participate on City Council and her vote on this particular matter, both the Strategic Five Year Plan and the Action Plan, do not present a conflict of interest that disqualifies her from voting.

Councilwoman Field moved to amend the draft Action Plan to reduce CDBG funding for the City of Asheville Down-Payment Assistance Program by $47,000 and increase the funding for Consumer Credit Counseling Service by $13,000 and for Affordable Housing Coalition Homeowner Education by $34,000. This motion was seconded by Councilman Worley and carried unanimously.

Councilwoman Field moved for the adoption of Resolution No. 00-82 authorizing the submission to the U.S. Dept. of Housing and Urban Development of the Consolidated Strategic Plan for Community Development Block Grant and HOME Investment Partnerships Program funds for 2000-205, and the annual Action Plan for 2000-2001, as amended. This motion was seconded by Councilman Worley and carried unanimously.

Mayor Sitnick informed the community that this City Council does not appreciate anonymous faxes that use bully tactics to scare people based on non-facts and lies.

RESOLUTION BOOK NO. 25 – PAGE 29

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of April 20-May 4, 2000: Mabel Fletcher, Teijo Munnich (Traffic Engineering) and Bruce A. Morehead (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

B. LAWSUIT

The City received the following Complaint on May 8, 2000, which is generally described as follows: Johnnie E. Harper v. City of Asheville and City of Asheville Civil Service Board. The nature of the proceeding is Petition for de novo review of Civil Service Board decision to reduce work hours and pay for refusal to take drug test.

This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:19 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 16, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Grant for the French Broad River Park Phase IV from the Transportation Equity Act for the 21st Century

Summary: The consideration of a resolution to apply for and enter into an agreement with the N. C. Department of Transportation, Transportation Enhancement Program for the Transportation Equity Act for the 21st Century (TEA21) to assist with the construction of the French Broad River Park Phase IV (FBRPIV).

FBRPIV represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. The park will include greenways, bicycle facilities, lawn bowling, volleyball and soccer complex, softball field, playground, restrooms, roller hockey, open space, picnic shelter, parking, and a welcome center. Phase IV will also connect to a planned NC DOT funded greenway from Hominy Creek on the west, and eventually to the Amboy Road trail to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. To date, $50,500 has been raised, and $770,000 to $820,000 in grant proposals are pending.

The Parks and Recreation Department is requesting $200,000 to $250,000 in grant funds from TEA21 which will be used to construct neighborhood and park connections to the new park. One neighborhood segment will bring a sidewalk and safe pedestrian crossing to Michigan Avenue and across Amboy Road to the park entrance. The second crossing will provide a pedestrian connection at Riverview Drive at French Broad River Park to the Amboy Road trail using a safe street crossing and ramp into the park. The final sidewalk connection will link Amboy Road trail and FBRPIV along Amboy Road at Edaco Salvage. The grant requires a 20% cash match, which will be available through current fundraising efforts by Parks and Recreation and RiverLink.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds with the N. C. Department of Transportation, Transportation Enhancement Program for TEA21 to assist with the construction of the French Broad River Park, Phase IV.

Budget Amendment regarding the Print Shop

Summary: The consideration of a budget amendment, in the amount of $22,700, to increase the appropriation of the Print Shops revenues and expenses.

The City's Print Shop has performed more services this fiscal year than it has in the past, requiring additional labor and materials. In addition, the Print Shop is paying for copier leases this fiscal year that were budgeted in departmental budgets rather than that of the Print Shop. This budget amendment for the increase of $22,700 in expenses is offset by the same increase in revenues.

The Finance Department recommends the City of Asheville approve the budget amendment for the Print Shop in the amount of $22,700.

Asheville-Buncombe VISION Office Space

Summary: The consideration of a request to allow the continued use of City office space for the VISION.

The City of Asheville has provided office space to the VISION of Asheville-Buncombe County, hereafter referred to as "VISION", since Spring 1996. The office space is located in the City Development Office at 29 Haywood Street and has been provided at no cost. The City also provides funding to the VISION through "outside agency" funding.

On March 30, 2000 from VISION Board Chair Albert L. Sneed, Jr., requested the City continue to grant an in kind donation of office space and existing support services for Fiscal Year 2000/01. The VISION Board has expressed gratitude to the City and the "ideal location" for the office space. Additionally, a separate request was received to grant continued use of the Rankin Street parking garage at no charge by providing two parking passes.

In looking at the upcoming year, City staff is not aware of any changes in the City Development office layout or staffing levels that will require the space currently utilized by the VISION. Therefore, the current space arrangement is recommended to be granted for the upcoming Fiscal Year 2000/01. Likewise, Staff recommends providing two parking passes to the Rankin Street parking garage for use by the VISION staff.

Staff recommends that Council grant the request of the VISION by a motion to approve the request thereby providing the continued use of donated office space, the existing level of support services and two parking passes to the Rankin Street parking garage for FY 2000/01.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

FILM BOARD UPDATE

Ms. Pam Turner, Chair of the Film Board, said that during the first year and one half of the Film Board's existence, the Board has set forth ambitious goals and undertaken numerous projects toward their implementation. The Board identified the following needs: (1) create a larger crew base to support the industry; (2) identify the strengths and weaknesses the community presents the film industry; (3) identify and establish incentives that will attract the industry; (4) create a film friendly community both in the public and private sectors; (5) establish a means of communication; and (6) create promotional materials.

Major actions and accomplishments include (1) created a logo for the Board; (2) created a web page for the Asheville Film Board (a) introduction and purpose; (b) incentives and production support (c) pictorial history of films shot in the region; (d) contracts and resource persons; (e) current events and announcements; (3) developed news releases for events; (4) sent a Film Board representative to the location trade show in Los Angeles; (5) planned and implemented an educational seminar at Asheville-Buncombe Technical Community College (a) six months planning for the first in a series of programs; (b) held the program "Lights/Camera, and You in the Action" on March 28, 2000, which was attended by approximately 250 persons; (c) presentations by Board members and six film industry professionals including casting, extras, action and locations; and (6) developed a promotional video with WLOS-TV.

She said that the Film Board has accomplished these projects through the volunteer work of the Board members, professional and competent support from Robin Nix, the City's staff support, a very small budget provided by the City, and the generous contribution of time and support from WLOS-TV staff in the production of the video.

The Board is very proud of its accomplishments to date and is eager to move forward with even more ambitious efforts to actively promote our area to the film industry. Development and implementation of effective promotions and projects will require staff and budgetary resources in order to reach the potential the Film Board envisions for the future of this vital sector of our community's economy.

Ms. Turner then showed the promotional video that WLOS-TV produced. She requested City Council to consider appropriating money for their next big project which will be a promotions book.

On behalf of City Council, Mayor Sitnick thanked the Film Board members for their outstanding service on this very important Board.

EDUCATIONAL ACCESS CHANNEL COMMISSION

Mr. Greg Dillingham, member on the Educational Access Channel Commission, provided City Council with a brief update of its current status and a report of planned future activities.

Ms. Marion Mathews, member of the Commission, asked if City Council would appropriate a minimum of $20,000 to help purchase a video equipment playback system. She hoped Council would not only provide intangible support of the Commission, but tangible support as well to help meet the goals that they set together.

Discussion surrounded the possibility of sharing equipment with the Public Access Channel, why the $60,000 video equipment playback system is needed, and are matches and grants available for needs of the Commission.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BUDGET AMENDMENT REGARDING THE CIVIC CENTER

Civic Center Director David Pisha said that this is the consideration of a budget amendment, in the amount of $593,737, for the Civic Center.

It is apparent the Civic Center will need an additional transfer of funds in order to continue operations through June 30, 2000. Revenues for the fiscal year are now estimated to be $1,406,896 versus a budget amount of $1,737,000. Expenses are estimated to be $2,293,315, versus a budgeted amount of $2,082,078. A portion of the increased expenses for the year include electrical repair work.

Three major revenue factors contributed to the current financial situation at the Civic Center. The arena under-performed compared to budget. Not only did it face stiff competition

172

from the Bi-Lo Center, but ice events and conventions did not deliver the results as expected. And with a shortfall in attendance, concession revenues were not able to meet projections.

Revenues

Arena:

Revenues in several important event activities at the Civic Center were below expectations for the fiscal year. The arena continues to suffer from the increased competition with the Bi-Lo Center. Lack of any meaningful concert activity and lack of conventions in this area continues to hurt the overall financial performance of the venue. Rent, concession and novelty income all suffer when these events are absent. Rental revenues from the arena portion of the venue are projected to fall 26% this year from budgeted expectations.

Ice Events:

Paid hockey attendance was down 24% this year as compared to the opening season. This caused the rent the team pays to fall which makes up nearly half of the shortfall in this category. The falloff in attendance also was a significant factor in the declines shown in the various concession categories. Hockey concession sales were down. Although hockey continues to contribute substantial revenue, overall, growth in hockey revenue is slower than expected.

Conventions:

The loss of the convention business this year was another major contributor to the decline in concession sales and catering commissions. Last year the catering commission alone was over $12,000.00; the shortfall that is now anticipated in this category. Food and beverage sales were in excess of $30,000.00. A significant increase in convention activity at the facility is not anticipated in the near future.

Overall, revenues are $382,500 less than anticipated this fiscal year. A recap of major contributors to this occurrence are as follows:

Arena rent	$ 65,000
Beer & Wine sales	50,000
Food & Beverage sales	165,000
Catering commissions	12,000
Novelty commissions	12,000
Public skating	50,000
City use	10,000

Expenses

The operations expense portion of the budget also needs additional funding. There were $88,000 in unanticipated expenditures for building maintenance and repairs. Additionally, an electrical problem caused an additional expenditure of $60,000. The budget amendment includes funding for these two unexpected problems.

The overall deficit for the year will be approximately $886,419. This includes the current budgeted transfer from the general fund of $292,682 in addition to this request of $593,737.

City staff recommends City Council approve a budget amendment, in the amount of $593,737, for the Civic Center.

Mr. Pisha responded to several questions and comments from Council, some being, but are not limited to: what is the major generator of revenue; what is the reason we lost some of our events; and how much did Buncombe County contribute to the subsidy when the Art Museum and the Colburn Mineral Museum were located in the Civic Center.

Vice-Mayor Cloninger felt that some tough decisions will need to be made to see if the community can support an arena when the hockey season ends. He felt the City may need to shift their priorities and concentrate on a top notch performing arts center instead of a new arena.

Mayor Sitnick wondered if there was something we can do to attract shows that cater to the older generation that live in Asheville.

Councilman Hay said that the Future of the Civic Center Task Force will be thoroughly investigating the three options recommended by the consultant: a new arena; a performing arts center, and a convention/conference facility.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

MISCELLANEOUS ITEMS

Mayor Sitnick requested that the City do as much advertising as possible to let people know that there is a state law that requires trucks to be covered when they are on the highways.

Vice-Mayor Cloninger asked for an update of how the City's new roll-out container program is working.

The Buncombe County Board of Elections will hold a run-off election on May 30, 2000. City Council has scheduled a community meeting on May 30 at the Murphy-Oakley Community Center. However, since the Community Center is a polling place, the City Clerk was instructed to try to find another location for the City Council's community meeting on May 30, 2000.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr., City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Hay gave the invocation.

ADDITIONS TO THE AGENDA

At the request of City Manager Westbrook, it was the consensus of City Council to add the following items to the Consent Agenda: (1) resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville Downtown Association's 2000 events, and (2) resolution authorizing the City Manager to enter into an agreement with Candler Concrete Works Inc. to install sidewalks along Cumberland Avenue and Chestnut Street.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY 25, 2000, AS "OLDER AMERICANS DAY" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming May 25, 2000, as "Older Americans Day" in the City of Asheville. She presented the proclamation to Mr. Dick Patzfahl, Executive Director of the Buncombe County Council on Aging, who briefed City Council on some activities taking place during the day.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 9, 2000, AND THE WORKSESSION HELD ON MAY 16, 2000

B. MOTION GRANTING THE REQUEST OF THE ASHEVILLE-BUNCOMBE VISION TO (1) CONTINUE USING DONATED CITY SPACE AT 29 HAYWOOD STREET, (2) USE OF EXISTING LEVEL OF SUPPORT SERVICES, AND (3) TWO PARKING PASSES TO THE RANKIN STREET PARKING GARAGE FOR USE BY THE VISION STAFF

Summary: The consideration of a request to allow the continued use of City office space for the VISION.

The City of Asheville has provided office space to the VISION of Asheville-Buncombe County, hereafter referred to as "VISION", since Spring 1996. The office space is located in the City Development Office at 29 Haywood Street and has been provided at no cost. The City also provides funding to the VISION through "outside agency" funding.

On March 30, 2000 from VISION Board Chair Albert L. Sneed, Jr., requested the City continue to grant an in kind donation of office space and existing support services for Fiscal Year 2000/01. The VISION Board has expressed gratitude to the City and the "ideal location" for the office space. Additionally, a separate request was received to grant continued use of the Rankin Street parking garage at no charge by providing two parking passes.

In looking at the upcoming year, City staff is not aware of any changes in the City Development office layout or staffing levels that will require the space currently utilized by the VISION. Therefore, the current space arrangement is recommended to be granted for the upcoming Fiscal Year 2000/01. Likewise, Staff recommends providing two parking passes to the Rankin Street parking garage for use by the VISION staff.

Staff recommends that Council grant the request of the VISION by a motion to approve the request thereby providing the continued use of donated office space, the existing level of support services and two parking passes to the Rankin Street parking garage for FY 2000/01.

C. RESOLUTION NO. 00-83 - RESOLUTION AUTHORIZING THE CITY TO APPLY FOR A GRANT AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR A GRANT TO ASSIST WITH THE DEVELOPMENT OF THE FRENCH BROAD RIVER PARK PHASE IV

Summary: The consideration of a resolution to apply for and enter into an agreement with the N. C. Department of Transportation, Transportation Enhancement Program for the Transportation Equity Act for the 21st Century (TEA21) to assist with the construction of the French Broad River Park Phase IV (FBRPIV).

FBRPIV represents the City of Asheville's next phase of a major greenway and park system being developed along the French Broad River on Amboy Road. The park will include greenways, bicycle facilities, lawn bowling, volleyball and soccer complex, softball field, playground, restrooms, roller hockey, open space, picnic shelter, parking, and a welcome center. Phase IV will also connect to a planned NC DOT funded greenway from Hominy Creek on the west, and eventually to the Amboy Road trail to the east.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to raise approximately $2 million to build the park. To date, $50,500 has been raised, and $770,000 to $820,000 in grant proposals are pending.

The Parks and Recreation Department is requesting $200,000 to $250,000 in grant funds from TEA21 which will be used to construct neighborhood and park connections to the new park. One neighborhood segment will bring a sidewalk and safe pedestrian crossing to Michigan Avenue and across Amboy Road to the park entrance. The second crossing will provide a pedestrian connection at Riverview Drive at French Broad River Park to the Amboy Road trail using a safe street crossing and ramp into the park. The final sidewalk connection will link Amboy Road trail and FBRPIV along Amboy Road at Edaco Salvage. The grant requires a 20% cash match, which will be available through current fundraising efforts by Parks and Recreation and RiverLink.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds with the N. C. Department of Transportation, Transportation Enhancement Program for TEA21 to assist with the construction of the French Broad River Park, Phase IV.

RESOLUTION BOOK NO. 26 – PAGE 30

D. ORDINANCE NO. 2697 - BUDGET AMENDMENT TO INCREASE APPROPRIATION OF THE PRINT SHOP REVENUES AND EXPENSES

Summary: The consideration of a budget amendment, in the amount of $22,700, to increase the appropriation of the Print Shops revenues and expenses.

The City's Print Shop has performed more services this fiscal year than it has in the past, requiring additional labor and materials. In addition, the Print Shop is paying for copier leases this fiscal year that were budgeted in departmental budgets rather than that of the Print Shop. This budget amendment for the increase of $22,700 in expenses is offset by the same increase in revenues.

The Finance Department recommends the City of Asheville approve the budget amendment for the Print Shop in the amount of $22,700.

ORDINANCE BOOK NO. 18 – PAGE 233

E. MOTION SETTING A PUBLIC HEARING ON JUNE 6, 2000, AT 5:00 P.M. RELATIVE TO THE 2000-01 ANNUAL OPERATING BUDGET AND CAPITAL IMPROVEMENTS PROGRAM

F. MOTION SETTING A PUBLIC HEARING ON JUNE 13, 2000, TO CONSIDER THE REZONING OF 23 CONGRESS STREET FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

G. RESOLUTION NO. 00-84 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE DOWNTOWN ASSOCIATION'S 2000 EVENTS

Summary: The consideration of a resolution making provisions for the possession of open containers of malt beverages and/or unfortified wine and the consumption of malt beverages and/or unfortified wine for the 2000 events of the Asheville Downtown Association at the locations and times specified.

For many years, the Asheville Downtown Association has co-sponsored with the City of Asheville events to bring both the public and visitors to the Downtown area. These events include: *Moonlight Over Downtown*, *Honda Hoot Downtown After Five*, *and three Downtown After Five activities.* The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during these events as they have been allowed in the past.

The Asheville Parks and Recreation Department recommends approval of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 31

H. RESOLUTION NO. 00-85 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH CANDLER CONCRETE WORKS INC. FOR THE INSTALLATION OF SIDEWALKS LOCATED ALONG CUMBERLAND AVENUE AND CHESTNUT STREET

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Candler Concrete Works Inc. for the installation of sidewalks located along Cumberland Avenue and Chestnut Street.

The City is in need of a contractor to provide sidewalk installation services for sidewalks along Cumberland Avenue and Chestnut Street. In accordance with N.C. Gen. Stat. sec. 143-131, informal bids for sidewalk installation services were solicited and three responses were received. The bidders are listed below:

Company	MB Part	Drug Free	Bond	Bid
Candler Concrete Works Inc	100%	Yes	Yes	$80,632.75
Asphalt Unlimited	0	Yes	Yes	No brick bid
Green Concrete Finishers	0	Yes	Yes	No brick bid

The approximate length of the five (5) foot wide sidewalk associated with this project includes 267 feet along Cumberland Avenue and 770 feet along Chestnut Street. The existing sidewalk material is brick which will be replaced with brick, as specified by the Asheville-Buncombe Historic Resources Commission and will have a concrete underlay. The time to complete the project as outlined in the informal bid request is 90 days. Based upon contract prices for similar projects, staff feels the responsive bid is competitive.

Funding for this project has already been allocated in the Public Works Department's capital improvement budget.

The Public Works Department staff recommends City Council adopt a resolution authorizing the City Manager to enter into an agreement with Candler Concrete Works Inc. for the installation of sidewalks located along Cumberland Avenue and Chestnut Street.
Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

RESOLUTION BOOK NO. 26 – PAGE 33

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Vice-Mayor Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO THE APPEAL OF CROWELL FARMS MASTER PLAN

Mayor Sitnick said that this hearing will be conducted as a quasi-judicial hearing and Council will limit their consideration to whether the Master Plan complies with the standards in the ordinance as set out in Section 7-9-1 (e) of the Unified Development Ordinance. Council will make their findings based on the evidence at this hearing.

Mayor Sitnick opened the public hearing at 5:15 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast said that Mr. Tom Bell, attorney representing the West Oakview Park residents, has indicated that he may cross examine the applicant and staff, which he has the right to do.

Mr. Tom Bell, attorney representing the West Oakview Park residents, said that he does believe in quasi-judicial hearings and felt there are basic due process rights and fundamental fairness that include the right of cross-examination and the right to object to evidence. He said that he may make objections and it will be up to Council to determine how they want to handle those objections. And, he would like to cross examine the witnesses when they are finished.

Mr. Dan Baechtold, Urban Planner, submitted into the record the Affidavit of Publication (City Exhibit 1), the Certification of Mailing of Notice to Property Owners (City Exhibit 2), and the Staff Report dated May 23, 2000, including a location map and a copy of the Revised Site Plan dated 4/14/00 (City Exhibit 3).

Mr. Baechtold said that this is the consideration of an appeal of the action by the Planning & Zoning Commission on the master plan for the Crowell Farms Planned Unit Development (PUD) on West Oakview Road. The public hearing was advertised on May 12 and 19, 2000.

On April 26, 2000, City Council approved a PUD overlay designation for 71 acres in the extraterritorial jurisdiction. The master plan associated with this development was reviewed and approved by the Technical Review Committee (TRC) and the Planning & Zoning Commission by a vote of 6-1. The TRC and the Planning & Zoning Commission found that the master plan meets the development standards for a PUD master plan as outlined in the Unified Development Ordinance (UDO). Ordinarily, a PUD master plan does not come before City Council for approval unless the decision of the Planning and Zoning Commission is appealed. In this case, the decision of the Planning and Zoning Commission has been appealed.

The underlying zoning on the property would allow approximately 395 residential dwelling units on the property. This is a density of about 5.5 units per acre, and would have been allowed without a PUD approval. The PUD approval provides the opportunity for density bonuses, if a development provides certain beneficial elements such as affordable housing and preservation of environmentally sensitive areas. On this particular site, if all density bonuses were used, the theoretical density could be as high as 12 units per acre, or a total of 868 units.

In this case, the applicant is not asking for any density bonus at all. In fact, the applicant is proposing to develop the property at a reduced density, well below what would be allowed under the underlying zoning. The master plan for this development proposes a total of 288 dwelling units which translates to an overall density of about 4 units per acre. The master plan proposes 40 single-family lots, 98 townhomes, 70 units for co-housing, and 80 apartment units. The 80 apartment units are intended to be affordable housing for the elderly. By developing the property as a PUD, the developer gains some flexibility in lot size and structure size, and some streamlining of the approval process for the multi-family development.

The plan designates 15.3 acres of common open space to be deeded to a property owner's association. In addition, the master plan shows a significant amount of open space to be associated with each individual multi-family development on the property. The deeded open space will provide a buffer around the perimeter of the property and preserve the steepest slopes. Some of the open space is centrally located to provide open space areas that are more accessible. The amount of open space provided well exceeds the minimum amount of dedicated open space required in the UDO.

The PUD master plan establishes the number of units that can be built on the property, the amount of parking and dedicated open space, and the location of major access points. The exact arrangement of the buildings and configuration of the lots is subject to change. As the property is developed, the developer will be required to submit detailed site plans showing the building location, landscaping and buffering, and other site details that meet the requirements in the UDO. The UDO allows minor deviations from the master plan as long as they do not cause any of the following:

1. A 10% or greater increase in the overall site coverage by the structures.
2. An increase in the intensity of use. For example, an increase in density resulting from changing single-family residential to multi-family residential.
3. A 10% or greater increase in external traffic generation.
4. A 10% or greater increase in the demand for public utilities.
5. A 5% or greater reduction in the proposed open space.
6. A 10% or greater reduction in the number of parking spaces.
7. A change of an approved use.
8. An increase in the height of buildings.

As part of the PUD application, the developer prepared and submitted a Traffic Impact Analysis (TIA) as required by the UDO. The report analyzes the impact of the traffic generated by the proposed development. The report considers existing traffic and projected increases in area traffic, including the impact of the recently approved Home Depot development. The analysis shows that there will be increased delay at some of the intersections. The report concludes, however, that the impact is not enough to warrant improvements to the intersections. The City Traffic Engineer and the Division Traffic Engineer for the N.C. Department of Transportation have reviewed the TIA and concur with the findings. The TIA was considered by the City Council as part of the public hearing for the PUD overlay designation.

On April 5, 2000, the Planning & Zoning Commission voted to approve the master plan with the following conditions (City Exhibit 4).

1. Detailed site development plans for each phase of the multi-family development must be reviewed and approved by TRC. The detailed site plans must include all items normally required for Level II site plan review and must meet all applicable ordinances and City of Asheville standards. Especially note that requirements for fire lanes, turn-a-rounds to accommodate fire apparatus, fire hydrants, and minimum fire flow must be met as outlined by the TRC.
2. The City Traffic Engineer in cooperation with NCDOT will continue to review the traffic impact issue and will provide additional input and recommendation to City Council in their review of the PUD designation and master plan.
3. The developer shall shift multi-family, townhouse, co-housing building and parking areas to avoid existing tree locations in order to protect the existing tree canopy and to provide additional interior open space without in any way reducing the extent of the perimeter open space.
4. The developer shall re-examine the location of the walking trails to ensure that they are walkable for the average user and provide access to the new interior open space.

Several commissioners expressed a desire to see more functional open space and usable walking trails, and conditions for approval were drafted that advance these interests. On April 17, 2000, the applicant submitted revised plans showing additional area for passive recreation and a re-configuration of the walking trails and open space. The Planning and Development staff reviewed the revised plans and determined that the revisions meet the conditions of the Planning & Zoning Commission.

Planning and Development staff determined that this master plan is consistent with the purpose of the PUD District for the following reasons: 1) The plan proposes a mix of housing types; 2) The plan provides common open space with opportunities for active and passive recreation; 3) The plan retains natural features such as steep slopes, streams and drainageways; 4) The plan provides an opportunity for affordable housing; 5) The plan encourages pedestrian circulation within the development.

The Planning and Development staff recommends approval of the master plan for the Crowell Farms Planned Unit Development.

Upon inquiry of Councilman Hay, City Attorney Oast said that what is before City Council is an appeal of a master plan in the nature of a site specific kind of development plan. City Council's consideration is limited to whether the proposed master plan would satisfy the specific development standards contained in Section 7-9-1 (e) of the UDO (City Exhibit 5). He felt that since the neighborhood is the appellant in this case, it the burden of the neighborhood to point out what the deficiencies are, if any.

Mr. Bell said that he didn't exactly know what a quasi-judicial hearing is, but he knows it's something more than a legislative function – something different from that. He is of the opinion that fairness and the courts have said that that it does have certain requirements. He thinks the requirements include his clients' right to review the evidence that is presented against them, to confront the witnesses against them and to have them testify under oath. We have had them put under oath. He specifically objects to the City Council reviewing whatever they have in front of them which he has not seen, which has not been sworn to, which there has been no evidence presented to what it is, or why Council should consider it. He feels that whatever City Council has before them violates that. He also objected to what Mr. Baechtold testified to in the staff report because 100% of that is hearsay evidence, except that the Planning and Zoning Commission voted. He strenuously objected to the information about the TIA. He felt if Council is going to determine what the TIA revealed, then Council needs to hear from the people who performed it and he needs to be given the opportunity to cross-examine them to see if Council thinks what the conclusions Council has just heard is, in fact, conclusions that Council wants to adopt.

City Attorney Oast said that the development standards referred to are contained in the UDO as Section 7-9-1 (e). In addition, City Council does have a staff report which is a matter of record.

Mr. Bell stated that his objection is not just to the fact that he doesn't have a copy of what City Council has in front of them. His objection goes to the fact that the information in the report is hearsay that is not subject to cross-examination.

City Attorney Oast said that the case law that he is familiar with indicates that quasi-judicial boards are not bound by the formal rules of evidence. If there are problems that Mr. Bell thinks are connected with the hearsay nature of some of this evidence, he certainly is free to point that out. But, he doesn't think that means that City Council can't consider it.

When Vice-Mayor Cloninger suggested that Mr. Bell wait until the conclusion of the presentation to state his objections, Mr. Bell was not agreeable to that. He said that he would prefer that the Council not hear inappropriate evidence and that they hear only appropriate evidence. The type of evidence that is appropriate evidence for a judicial hearing, but not for a legislative hearing.

Mr. Bell then cross-examined Mr. Baechtold on several items, some being, but are not limited to: how did the project first come to City staff; who can initiate rezoning requests; what development review process did this project go through; who approves revisions to a site plan after the Planning & Zoning Commission approves it; how were the number of units determined; questions relative to the TIA and the information it contained; and questions relative to the greenspace.

Mr. Marty Kocot, representing Crowell Farms Property LLC, reviewed with Council the topography of the site. He said that this plan creates a smart growth community of four neighborhoods with different housing types. It protects the environment by clustering the buildings, preserves steep slopes and provides pedestrian connections between the four villages and around the perimeter of the property. This is only a master plan for the development and it is not uncommon for a plan to be changed or revised to avoid monumental trees, creeks or preserve some sort of special feature on the property that may or may not be discovered. This plan is the best fit for the property. He noted they did not have to go through this procedure for a zoning designation or this master plan approval – they could have built a similar plan with the same density and same styles of housing on the property. The only thing sacrificed would have been some of the common open space areas, trails and play areas that they have chosen to preserve. This plan meets all of the UDO requirements. The total common open space provided in the current plan is approximately 21.5 acres – over 30% of the site area. The common open space provided by this plan is more than 6-1/2 times what is required under the UDO. The plan has changed since the review by the Planning & Zoning Commission. It has been revised it to reflect the comments of the Planning & Zoning Commission and the Planning Department staff to provide more centrally located, less steep common open space and depict the individual parcel common open spaces. In addition, the neighborhoods have shifted around and subsequently their buffers that were along with each neighborhood have shifted at the same time. That is what has created the discrepancy between the reduction from 16.1 to 15.3 acres of deeded common open space. It has been their intent to create a close knit community. The best feature about the planned community is that it works to try to preserve the feel of the land, reduce grading and impacts to the environment.

Mr. Kocot then responded to several questions and comments from City Council which include, but are not limited to, minimum setback requirements on streets; maximum height of the buildings, parking standards; and how many acres are in the easement area.

When Councilwoman Field asked if Mr. Kocot has any documentation showing how the perpetual care maintenance of all the common open spaces will be provided for, he said that he did not have that documentation. However, it is the plan for the homeowners association that is established at Crowell Farms to own and maintain the open space. City Attorney Oast also noted that the final approval will not be given to the project until that kind of requirement is in place.

Mr. Bell then cross-examined Mr. Kocot regarding buffering in addition to questions relative to the affordable housing issue.

Ms. Kathy Tyler, resident of the Oakview neighborhood, submitted a letter to City Council with her concerns. She noted that since the developer shifted single family lots to the west side of the property where the green space and townhouses were located on the master

182

plan submitted to the Planning & Zoning Commission on April 5, 2000, a road, traffic signal and seven single family lots are now located in existing tree and tree canopy areas referred to in Condition No. 3 of the Planning & Zoning Commission. In addition, to that shift by the developer, the perimeter space has been significantly reduced on the west side of the property. She questioned who determines if walking tails are "usable by the average person" and do they need to be accessible by the senior population living in the affordable housing units. She was concerned over the possible damage of the Tulip Poplar trees in the area on the west side of the property.

Mr. Bell urged City Council to reject the master plan because he did not think Council has appropriate evidence to approve it. He said that Council should not consider the evidence presented at the public hearing on the planned unit development for Crowell Farms because he hasn't been given the opportunity to cross-examine any of the people who performed the TIA. Council is supposed to hear sworn testimony and hear evidence that indicates that this is something Council should approve, and he doesn't think Council has it.

When Councilman Hay said the decision before City Council is whether or not the master plan is consistent with the planned unit development overlay, Mr. Bell disagreed. He felt City Council should consider whether the master plan is a good plan that a governmental body would want for this neighborhood because of the overall purposes involved in this kind of development.

Councilwoman Whitmire asked if this is the final master plan. City Attorney Oast responded that it is the master plan before City Council now. The way the City's Code is set up, if there are some changes that the Planning Director judges to be not substantial, then he may approve those, but there are certain limitations of what he can and cannot approve. In that respect, it is final in concept and the basic layout, but there may be some changes in the detail.

Councilwoman Whitmire asked what didn't the Planning & Zoning Commission see in this revised master plan. Planning & Development Director Scott Shuford said the plan before Council now is an effort to address many of the conditions that were imposed by the Planning & Zoning Commission and by the TRC. We have looked at that plan and it is our opinion that this plan has gone a long way toward meeting those conditions.

Mr. Shuford said that with regard to the ability of the plan to change sometime in the future, the Code does allow, under a planned unit development, that there be some potential for shifting of exact building locations and that sort of thing. That plan before Council now may not materialize exactly as shown on the ground, but if there are changes such as entry of a building into a setback area or something like that, then City staff will not allow that to happen. But if they need to shift a building over 10 feet to avoid a tree, then we will try to accommodate that within the bounds that are prescribed in the Code.

Upon inquiry of Mayor Sitnick, Mr. Bell explained that there are two kinds of testimony – lay and expert testimony. He was concerned that City Council has a lot of expert opinion, but no sworn testimony and he has been given no opportunity to cross-examine any of the expert opinion. He felt Mr. Baechtold has no knowledge about any of those things he testified to and he does not have any right to give testimony about opinions as to traffic analysis because he's not an expert in that field. Again, he didn't feel City Council has received any evidence.

Mr. Frank Pomeroy, resident of West Oakview Road, explained why there will most definitely be problems with traffic when this development is built. He felt the infrastructure in the area cannot absorb this kind of development.

Upon inquiry of Councilman Worley, City Traffic Engineer Michael Moule outlined his credentials. It was the consensus of City Council to consider Mr. Moule an expert in the field of traffic engineering.

Mr. Moule said that a TIA was prepared in connection with this master plan and he has reviewed it. He said that it was his opinion that the TIA that was prepared meets the requirements of Section 7-11-5 of the City Code. The TIA was entered into the record. (City Exhibit 6)

Mr. Bell then cross-examined Mr. Moule on the TIA. As a result of the cross-examination by Mr. Bell, Mr. Moule entered into the record some analyses of the five-way intersection traffic with a couple of different scenarios, some of which include the soccer traffic. (City Exhibit 7)

At the request of Mayor Sitnick, Mr. Shuford responded to the remaining questions outlined in Ms. Tyler's letter.

City Council accepted all the exhibits into the record.

Mayor Sitnick closed the public hearing at 7:00 p.m.

City Attorney Oast recommended City Council vote yes or no on the project and he will draft an appropriate Order to bring back to City Council for consideration at their next formal meeting on June 13, 2000.

It was the consensus of City Council to instruct the City Attorney to review the quasi-judicial process and how City Council should address the process in the future.

Councilman Worley moved to approve the master plan as approved by the Planning & Zoning Commission with the conditions imposed by the Planning & Zoning Commission and the revisions as stated by City staff. This motion was seconded by Vice-Mayor Cloninger.

Councilman Worley stated that his basis for voting in favor of the master plan is that based on careful review, it meets the requirements of the standards set forth in the UDO.

Councilman Peterson agreed with Councilman Worley in that the plan does meet the development standards.

Vice-Mayor Cloninger stated that the master plan is consistent with the purpose of a PUD.

Mayor Sitnick said that if the master plan is approved, she would like to suggest adding some further conditions: (1) a maximum effort to preserve trees during construction, including root systems and trunks so they are not hit by construction equipment; (2) if there is any shifting of the units, that the developer significantly make an effort to avoid the destruction of specimen trees; (3) wherever possible, the walking trails be made as accessible as possible to all ages, not only in the development but for the neighborhood as well; (4) buffering be given maximum attention; and (5) City staff conduct a broad review of the traffic conditions after the build-out and after the soccer field is constructed and do whatever it takes to make sure that the area is as safe and convenient as possible.

Councilman Peterson agreed with the conditions outlined by Mayor Sitnick.

Councilman Worley and Vice-Mayor Cloninger amended their motion to include the conditions outlined by Mayor Sitnick. The amended motion carried unanimously.

Mayor Sitnick announced a brief break at 7:17 p.m.

CHANGE IN AGENDA

At the request of Mayor Sitnick, Vice-Mayor Cloninger moved to amend the agenda in order to hear a topic of unfinished business with regard to adoption of the Sustainable Economic Development Strategic Plan. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION NO. 00-86 - RESOLUTION ADOPTING THE SUSTAINABLE ECONOMIC DEVELOPMENT STRATEGIC PLAN

Mr. Jack Cecil, Chair of the Economic Development Task Force, said that this is the consideration of a resolution adopting the Sustainable Economic Development Strategic Plan (SEDSP) as developed by the citizen-led Task Force in conjunction with the consulting firm of Lockwood-Greene Consulting, Inc.; and appointment of a citizen-led Task Force to provide advisory guidance and oversight in implementing the plan.

The SEDSP was developed by the Task Force, drafted by the consultant, submitted to Council, and subsequently the general public for review, comment, and input.

The draft Plan was initially submitted to Council by the Task Force chairman and the consultant on January 18, 2000. Since then, there have been 17 public presentations completed and one additional presentation scheduled for later this month. A public input meeting was held on February 23, 2000, which was taped and has been aired in its entirety on a continuous basis on the Public Access Channel. In addition, since February 7, 2000, on the City's website, there has been a synopsis of the process undertaken to create the plan, the complete set of plan documents, and an e-mail feature to receive feedback about the Plan. (Actually, the website about the Plan was started in August 1999 and was continuously updated throughout the process.) Finally, there have been at least five articles that have appeared in the local print media since the January 18, 2000, presentation to Council.

What little public comment that has been received has been positive with some additional general ideas being offered, such as initiating a "Green Building" program, better integration of transportation into planning, concentrate on developing high bandwidth infrastructure, develop an incubator for arts oriented businesses, and being more diligent in preserving existing industrial land for that continued use.

Other than these type of general comments and ideas, there have been no other specific challenges or changes to the Plan advocated. Therefore, the Plan is being submitted for final approval as originally drafted and submitted.

At this time, Council is also being asked to appoint a citizen-led Implementation Task Force (ITF) to work with staff to carry out the Plan's goals and objectives. It is proposed that the ITF operate as follows:

- Membership would consist of no less than 15 and no more than 19 members at any given time. The proposed list below numbers 17.
- All members would serve a single term of three (3) years beginning with their appointment and running through June 30, 2003. There may be circumstances that warrant people to be

added either as new members or as replacements for existing members In those cases, those terms would also expire on June 30, 2003, regardless of their length of service during this initial 3 year period.

- Council will receive regular updates as to the progress of the implementation efforts As this initial three-year period comes to a close, Council will evaluate the progress and determine further actions as warranted by conditions at that time.

- The ITF will serve in an advisory capacity. The Plan has already provided our strategies The ITF will prioritize those, work with staff on developing implementation options, and make recommendations to Council.

- The proposed membership roster for the ITF is provided below. Most of the people listed were part of the original Task Force (as noted by an asterisk) which created the Plan. Several others are new to the process. Each person has been contacted and has expressed their willingness to serve if appointed.

  *JACK CECIL (Biltmore Farms, Inc.) Mr. Cecil has accepted to continue as Chairman ; *K RAY BAILEY (Asheville-Buncombe Technical Community College); *BOB ROBERTS (First Citizens Bank); *BRUCE TOMPKINS (Olde World Christmas Shoppe); *DR. JIM MULLEN (University of North Carolina – Asheville); *PATTI GLAZER (Glazer Architecture, PA); *CAROL KING (Carol King & Associates); *BENSON SLOSMAN (Benson Slosman, Inc.); *CHUCK TESSIER (Tessier & Associates); *PAM TURNER (Mills Manufacturing); *PAT WHALEN (Public Interest Projects); THEO PRITCHETT (T & E Technology); DAVID A. BROWN, M.D. (Mountain Allergy & Asthma Associates); DAVID SPILLERS (Mission St.-Joseph Health System); FRANK TAYLOR (Great Smokies Diagnostics Laboratories); *JAMES GETER (Eagle Market Street Development Corp.); and JEAN KEEN (Keen Impressions).

The City Manager will be an ex-officio member of the Task Force and the City's Economic Development Director will provide full-time staff support. In addition, other city staff may from time to time be asked to provide additional staff resources/input as required.

City staff recommends City Council adopt the Sustainable Economic Development Strategic Plan and appoint an Implementation Task Force to provide advisory guidance and oversight in implementing the Plan.

Mayor Sitnick spoke highly about the work of Mr. Cecil and of the plan itself.

Councilwoman Whitmire asked that the two remaining vacancies be filled with women, preferably minority women.

Councilman Hay felt this plan was very important for the City noting that the process represents a commitment by many people. He liked the plan in that it's self-implemented.

Councilwoman Field, along with Vice-Mayor Cloninger, also spoke in favor of the Plan.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Resolution No. 00-86 in order to adopt the Sustainable Economic Development Strategic Plan and appoint the members of the Task Force. This motion was seconded by Councilman Worley and carried on a 6-1 vote, with Councilman Peterson voting "no".

PUBLIC HEARINGS CONTINUED

B. PUBLIC HEARING RELATIVE TO REZONING A PORTION OF ONE LOT LOCATED AT 6 MOUNT CLARE AVENUE WHICH IS NOW ZONED RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO CB II COMMUNITY BUSINESS II DISTRICT SO THAT ALL OF THE LOT IS ZONED CBII COMMUNITY BUSINESS II DISTRICT

ORDINANCE NO. 2698 - ORDINANCE TO ZONE A PORTION OF ONE LOT LOCATED AT 6 MOUNT CLARE AVENUE WHICH IS NOW ZONED RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO CB II COMMUNITY BUSINESS II DISTRICT SO THAT ALL OF THE LOT IS ZONED CBII COMMUNITY BUSINESS II DISTRICT

Mayor Sitnick opened the public hearing at 7:50 p.m.

Mr. Dan Baechtold, Urban Planner, said that this is the consideration of an ordinance to rezone a portion of one lot located at 6 Mount Clare Avenue which is now zoned RS-8 Residential Single Family High Density District to CBII Community Business II District so that all of the lot is zoned Community Business II District. This public hearing was advertised on May 12 and 19, 2000.

Marketplace Developments, LLC is in the process of renovating the historic structure known as the five points building at the intersection of Broadway Avenue, Chestnut Street, and Mount Clare Avenue. The structure was built in 1923 and has a small parking area next to the building off of Mount Clare Avenue. The building is on a parcel that is currently zoned CBII and the parking lot is on a parcel that is split-zoned between CBII and RS-8. This rezoning application intends to correct the split-zoning of the parking lot, so that the entire lot can be used for parking once the building renovation is complete.

The size of the lot where the parking lot is located is approximately one-eighth of an acre. The portion to be rezoned is approximately half of the lot or about one-sixteenth of an acre. The property is almost entirely occupied by the small parking lot (10 spaces). The parking lot is and always has been an integrated use with the structure. In order for the parking lot to continue as an integrated use with the structure, the entire lot must be zoned for commercial use. In a rezoning case such as this one, the City Council must consider all of the potential uses of the property that are allowed under CBII. As a practical matter, however, additional development on the site would probably not be possible because of limited room for off-street parking and buffering that would be required by the Unified Development Ordinance.

The Planning and Zoning Commission reviewed this request at their meeting of May 3, 2000, and voted unanimously (6-0) to recommend approval of the rezoning. No members of the public commented at the hearing. The Planning and Development staff recommend approval of the rezoning request as well.

Planning and Development staff recommends City Council consider the rezoning request to rezone a portion of one lot located 6 Mount Clare Avenue which is now zoned RS-8 Residential Single Family High Density District to CBII Community Business II District so that all of the lot is zoned Community Business II District.

Mr. Dean Pistor, Marketplace Developments, LLC, spoke in support of rezoning this split-zoned lot and passed out copies of photographs taken several years ago to show that this property has always been a parking lot.

City Attorney Oast reminded City Council that if they rezone the property it can be used for any use allowable in that district.

Mayor Sitnick closed the public hearing at 7:55 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2698. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 235

ANNEXATION PUBLIC HEARINGS

Planning & Development Director Scott Shuford opened the public hearing at 7:56 p.m.

Mr. Shuford said that the City of Asheville has initiated a multi-year annexation program. These hearings are the first phase of that program. Staff will begin bringing annexations to Council each year in accordance with a priority plan we expect to receive from our consultant in the near future. The public hearings tonight are on the Phase I annexation of six areas into the City of Asheville. He then went over the procedures on how these hearings would be conducted. First, he will provide background and general information about annexation, the annexation requirements of state law, how the City has followed these requirements in our annexation process, general information about the expected revenues, and the City's obligation regarding costs of service. After each public hearing is opened separately, a brief description will be given of the area and then the public will have an opportunity to speak regarding concerns that they may have about the area under consideration. This will enable us to address issues and questions more effectively and in a more organized fashion.

City Council will not be taking any action at this meeting to approve or deny these annexations. However, staff does request that Council indicate any needed adjustments to the services plan or to the areas covered by annexation so that they can incorporate those changes in the ordinances that will complete the annexation process. Adoption of those ordinances is scheduled for City Council's meeting on June 13, 2000.

Background and General Information

State law allows annexation by cities of 5,000 or more in population. Areas to be annexed must have specific urban characteristics – they must qualify under state law as urban areas – and our consultant, Benchmark Inc. is here to answer specific questions regarding these qualifications and how they apply to the areas under consideration for annexation. State legislative policy says that "municipal boundaries should be extended in accordance with legislative standards to include such areas" that exhibit these urban characteristics to provide high quality governmental services and to promote sound urban development. Additionally, state revenue sharing policies and practices assume that urban areas will grow through annexation. If we do not pursue such growth, we miss out on revenue sharing opportunities that are population-based (such as sales tax distributions) or miles of roadway (Powell Bill distributions).

Annexation by a city must follow a specific procedure and must insure that urban services are provided to the areas to be annexed in a timely fashion and at a level substantially similar to that provided to other areas within the city. The procedures that must be followed are:

- Adoption of a Resolution of Intent to Annex for each area – Adopted by Council on March 15, 2000;
- Approval of a Services Plan – Adopted by Council on March 15, 2000;
- Public Information Meeting –Held on May 2, 2000;
- Public hearing – Held tonight - May 23, 2000;
- Adoption of Annexation Ordinances – Set for June 13, 2000; and
- Effective Date of Annexation – June 30, 2001 - Please note that there is a one year period between the adoption of the ordinances and the annexation going into effect.

The Services Plan lays out the specific services that the City of Asheville intends to provide to the areas to be annexed and includes financial implementation information about these services. This Plan is very important from a legal standpoint as our courts have ruled that the central purpose behind the annexation procedure in the state statutes is to insure that in return for the added financial burden of municipal taxation, the areas annexed receive the benefits of all the major services available to other areas within the municipality. More significantly, it is important from an ethical standpoint for Asheville to fairly serve the areas it annexes and it is very clearly the policy of this City Council that this occurs.

Services covered in this plan include: (1) Police; (2) Fire; (3) Sanitation; (4) Street Maintenance; (5) Water; (6) Sewer; (7) Street Lighting; (8) Recreation Facilities and Services; and (9) Administration and Miscellaneous Services (e.g., governance by the City Council, administrative support by the City Manager and City staff, housing and building code services, planning and zoning services, community development services, legal representation and similar services).

The Services Plan provides estimates of revenues as well as expenditures necessary to insure that annexed areas receive a level of service comparable to other areas in the City. Estimated revenues include money from real property taxes, personal property taxes, state and local utilities franchise taxes, sales and use taxes, Powell Bill distributions, and the City recycling fees. These revenues total approximately $1.9 million per year.

Estimated annually-recurring expenditures by the City to serve the annexed areas include police, fire, sanitation, street maintenance and street lighting costs. These annual costs total approximately $248,000 per year. Additionally, the City will have capital costs to serve the annexed areas, including purchase of sanitation equipment, street paving, water and sewer line installation, fire hydrant and street light installation, and the upfit of a fire station. These capital costs total approximately $694,000.

He then summarized the service issues as they generally affect all the annexation areas. There are some specifics for some areas that will need to be discussed as we address each individual annexation area.

Police - In all of the annexation areas, we are proposing to provide police protection. We will accomplish this through adjusting the districts served by the various patrol groups. For this annexation phase, no additional staffing is needed, although there will be costs associated with increased vehicle miles traveled which will also affect our fleet replacement schedule. Our response times will not be negatively affected by these annexations and will not affect our Police Department's accreditation.

Fire - In all of the annexation areas, we are proposing to provide fire protection. We will accomplish this through one of three alternatives. First, because each of the areas to be annexed are currently served by one or more rural fire districts which levy a separate tax for their services, it is possible for the City to enter into good faith negotiations with these districts to have them continue to provide services on a contract basis, renewable on a five year term. We have been contacted by three of the rural fire districts expressing an interest in pursuing these negotiations. Second, we can provide City fire services by adjusting the districts served by the various fire stations. For this annexation phase, no additional staffing is needed, except in Annexation Area C – the Skyland area. Third, some combination of the first two alternatives is possible. Our response times will not be negatively affected by these annexations.

Sanitation - In all of the annexation areas, we are proposing to provide sanitation services. There are similar alternatives for providing this service as with the rural fire districts – we can enter into a contract with private haulers that serve the areas to have them continue their service. However, none of the companies have responded to our correspondence and we do not anticipate them continuing to serve the customers we will serve. We will have costs associated with the purchase of roll-out containers as well as the need to buy another automated packer vehicle. Redistricting will enable the annexation areas to be served without additional staffing.

We have heard some concern from the public regarding sanitation service. To ensure that there is no confusion: It is our intention under the Services Plan to provide the same level of service that City residents receive – curbside pickup of garbage and trash, plus recycling service. There is no fee for garbage and trash collection, but we do charge a recycling fee of $3.08 bimonthly. The City does not serve bulk containers like dumpsters; these will continue to be served by private haulers.

Street Maintenance - In all of the annexation areas, we are proposing to provide street maintenance services. These include streets currently maintained by NCDOT and private streets where the owners wish to have the City assume maintenance. We will work with NCDOT to determine which state-maintained streets should be turned over to the City. The state will continue to be responsible for major thoroughfares. For private streets, we will accept them upon request by the owners within one year of the effective date of annexation when:

- The street serves at least three occupied residences on property owned by separate persons.
- There is no reasonable alternative to accessing the property through publicly maintained streets.
- 100% of the property owners grant us sufficient right-of-way to serve their property for both street width and turnarounds, if needed.

Upon acceptance of the state or private street by the City, it will be placed on our street maintenance list in order of priority based upon our assessment of pavement conditions. No additional personnel will be needed to provide street maintenance services.

Water - In all of the annexation areas, we are proposing to provide water services for both water usage and fire protection. In order to provide this service, capital expenditures estimated at $403,810 will be needed. Only two annexation areas will require water line extensions or upgrades.

Sewer - In all of the annexation areas, we are proposing to provide sewer service in accordance with City policy and state law. Except for some locations in Annexation Area C – Skyland, sewer service currently is provided to all properties by MSD. In our discussion of Area C, the method of serving these properties through a septic system maintenance program will be covered.

190

Street Lighting - In all of the annexation areas, we are proposing to provide street lighting along all public corridors in accordance with our practices elsewhere in the City.

Recreation Facilities and Services - In all of the annexation areas, we are proposing to provide the areas' residents, businesses and property owners with the same access to recreational facilities and service as other City residents.

Administration and Miscellaneous Services - In all of the annexation areas, we are proposing to provide the areas' residents, businesses and property owners with the same access to Administration and Miscellaneous Services as other City residents.

City Clerk Burleson then stated how and when notification was given to property owners in the affected areas, along with notification to the Buncombe County Board of Commissioners, the solid waste providers and the volunteer fire departments. In addition, on April 21 and 28, 2000, a notification was published in the Asheville Citizen-Times of the public information meeting, the public hearing, a notice of property owners' rights, a map and a description of the areas being considered for annexation.

C. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF THE CHUNNS COVE ROAD/PINEY MOUNTAIN ROAD AREA (AREA 2001-A)

Mr. Shuford opened the public hearing at 8:16 p.m.

Mr. Shuford said that Annexation Area A is located along Chunns Cove Road and Piney Mountain Road. It consists of 55.85 acres, and contains two establishments and no dwellings or persons. There are no service extensions or other service issues to report. Annexation of this area would close a gap in our City Limits along I-240.

Using the statutory standards statements from the Annexation Services Plan, Mr. Rick Cowick, representative of Benchmark, Inc., reviewed with Council how the area qualifies as an area acceptable for annexation under state law.

Mr. Dean Pistor, on behalf of Shelby Horton who is a property owner in the area but not in this area of involuntary annexation, stated that Mr. Horton would like to potentially voluntarily annex a portion of his property for a change in zoning. City Attorney Oast felt it would be appropriate for Mr. Pistor to discuss this voluntary annexation with City staff, noting that the City Council cannot condition the annexation on a particular zoning.

Mayor Sitnick closed the public hearing at 8:27 p.m.

D. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF THE AREA LOCATED NORTH OF U.S. HIGHWAY 70 BETWEEN RICEVILLE ROAD AND LOWER GRASSY BRANCH ROAD (AREA 2001-B)

Mr. Shuford opened the public hearing at 8:24 p.m.

Mr. Shuford said that Annexation Area B is located north of US 70 between Riceville and Lower Grassy Branch Roads. It consists of 195.15 acres, and contains six establishments, 242 dwellings and 689 persons. Annexation of this area would include the Veteran's Hospital area and the City would lose fire protection revenue once this property becomes part of the City. There are water service extensions required by this annexation which Mr. John Echeverri, Assistant Director of Engineering, will review. There are no other service issues to report.

Mr. Echeverri said that the Services Plan proposes an extension of a 6-inch waterline along Arnold Road, along with fire hydrants. All the lots are currently served by water, but the upgrade is to comply with the fire protection requirements.

Using the statutory standards statements from the Annexation Services Plan, Mr. Rick Cowick, representative of Benchmark, Inc., reviewed with Council how the area qualifies as an area acceptable for annexation under state law.

Ms. Lauronda Self, representing Parkway Vista Townhomes, passed out to Council a chart which breaks down their current services vs. what the City of Asheville will provide if they are annexed. She stated that they do not want to be annexed. She explained that they already pay a Townhome Association fee which provides them with most of the services. In addition, their Association fees are tax deductible. The current cost of a home with an assessed value of $75,000 is $1,267.50. After annexation, their cost will be $1,667.50. She said that the whole purpose of annexation is to provide services for the costs that people will have to pay when annexed, but the services provided by the City will not compensate them for the extra amount of tax they will have to pay if annexed.

Ms. Self said that police protection is very important to her, however, the area seems to be a low crime area. In addition, across the street from them is the City limits and she feels that regardless of whether they are in the City limits or not, the Asheville Police Department will respond to their needs.

Mayor Sitnick stated that City Council has to be sensitive to the Asheville taxpayers who are paying for the security Ms. Self described. Annexation is a way of spreading the burden in a more fair and equitable manner.

Mr. Shuford noted for the record that there were a number of people at the public information meeting on May 2 from Parkway Vista and none were in favor of the annexation.

Mr. James Profitt, President of Parkway Vista Homeowners Association, stated that the City of Asheville is asking them to pay additional taxes, but not receive any services.

Mr. Shuford said that at the May 2 information meeting, the Parkway Vista homeowners felt that the only benefit to them was police service. They feel they are not looking at much of a service enhancement. However, he reiterated that North Carolina law states that urban areas be in cities and this is an urban area. He said there will not always be areas where people who are served by the City are going to have a increase in their service as a result of annexation. But, there are so many other things that are important about a City and it is very difficult to put a dollar value on them.

Mayor Sitnick closed the public hearing at 8:49 p.m.

E. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF THE AREA LOCATED NORTH AND SOUTH OF LONG SHAOLS ROAD BETWEEN I-26 AND HENDERSONVILLE ROAD (AREA 2001-C)

Mr. Shuford opened the public hearing at 8:50 p.m.

Mr. Shuford said that Annexation Area C is a large tract generally centered on Lake Julian and Long Shoals Road. It contains a connection to the Asheville Regional Airport along I-26. It consists of 1,500.14 acres, and contains 32 establishments, 570 dwellings and 1,243 persons.

There are four service issues to report. First, annexation of this area would include the CP&L plant. The City has an agreement with CP&L that caps CP&L's franchise taxes at a certain level. Under this agreement, property taxes the City receives from CP&L are deducted from the franchise tax cap. Beginning in the year 2001, if and when the property tax exceeds the franchise tax cap, the franchise tax is fix at a fairly low maximum and CP&L is responsible for the entire property tax amount in addition. This agreement, therefore, affects the City's cumulative revenue stream received from CP&L.

Second, Annexation Area C contains several properties currently served by septic systems that are difficult to serve with sanitary sewer and their land use configuration may change as the surrounding area continues to urbanize and infrastructure is improved. State law allows cities the option of instituting a septic tank maintenance program in lieu of providing sanitary sewer. Given these service difficulties and land use uncertainties, we feel it is preferable to use this option in providing sewer service to these properties. Additionally, many of these properties are located close to Lake Julian and we believe having a regular septic system maintenance program will assist in improving or maintaining water quality in the lake. Staff recommends that there be no fee for this service.

Third, this area will require a fire station upfit and we will need to pursue additional staffing in the event we are unable to negotiate service responsibilities with the affected rural fire districts.

Fourth, there are water service extensions required by this annexation which Mr. John Echeverri, Assistant Director of Engineering, will review. There are no other service issues to report.

Mr. Echeverri said that there will be improvements in two particular areas. Along the Long Shoals Road corridor there was only one particular road that lacked fire protection. The City is proposing to extend a 6-inch waterline along State Road 3520 from Long Shoals all the way to the end of the pavement. The other area where major improvements will take place is the Haywood Road area and the Old Shoals Road area. We propose to extend a 6-inch waterline for fire protection purposes along Old Shoals from Haywood Road to basically the end of the pavement. We will also upgrade a small existing waterline on Old Shoals Lane to comply with current requirements. There will also be minor improvements along the Haywood Road area where we will extend the existing 6-inch waterline on Haywood Road to provide fire service protection for all the lots within that area.

Using the statutory standards statements from the Annexation Services Plan, Mr. Rick Cowick, representative of Benchmark, Inc., reviewed with Council how the area qualifies as an area acceptable for annexation under state law.

Mrs. Frances Briggs stated that it is the consensus of the area residents that want regular sewer service, not septic tank maintenance. They also asked if they live on a road that is not state maintained, but maintained by themselves, would they get garbage pick-up. Mrs. Briggs said that industries will be taxed heavily and jobs will be lost.

Public Works Director Mark Combs said that he visited the Old Long Shoals Road Extension and there is no turn-around and City vehicles can't travel on some portions of the gravel street that is there. There are considerable overhead branches that extend only 7-8 feet above the roadway. There are also several low utility wires that our vehicles can't drive under. There are some challenges for the City to provide any kind of service for them on that private street. Additionally, the road condition is very poor and we would require that those citizens give the City an affidavit holding us harmless for driving on those streets if they became worse for larger vehicles traveling on those streets for garbage pickup. The challenges are not impossible to overcome, but the homeowners need to work with the City for us to take over their maintenance and then eventually widen and bring that road up to City standards. Mr. Combs said that the City has liberalized their street acceptance policy for annexations to allow residents one year to get with the City and to dedicate the right-of-way to the City for the City's maintenance.

With regard to a form for water and sewer services to be turned into the City Clerk by 5:00 p.m. on May 30, 2000, Mr. Shuford explained that the form would need to be turned in only in a case where someone would want something that goes above and beyond what is called for in the Annexation Services Plan.

City Attorney Oast said that with regard to the agreement with CP&L, what is in the Annexation Services Plan is actually a Memorandum of Understanding that refers to the agreement. When the ordinances are brought to City Council for adoption, the Annexation Services Plan will be amended to include the actual agreement.

Mr. Shuford noted that on May 22, 2000, City staff met with a number of the industries in the Skyland annexation area. These businesses included Cutler-Hammer, Thantex, Custom Packaging, Medical Action Industries, CP&L, Welch Allyn and Hubble Inc. The information was presented to them regarding our annexation plans and they heard concerns from those industries regarding what they felt were the negative effects of annexation. Their chief concern was the fact that annexation would add an incremental burden to their cost of doing business. This increment, added to other increases, such as labor costs, other government requirements, supplier cost increases, etc., could decrease their ability to compete in today's worldwide market. While several businesses expressed some interest in incentive programs the City offers, none expressed support for annexation.

Ms. Mary Ann Quarngesser, resident on Long Shoals Road, stated that at the May 2, 2000, public information meeting not one property owner at that meeting was in favor of annexation

Mayor Sitnick closed the public hearing at 9:08 p.m.

F. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF RIDGEFIELD BOULEVARD AND OAK TERRACE AREA (AREA 2001-D)

Mr. Shuford opened the public hearing at 9:10 p.m.

Mr. Shuford said that. Annexation Area D is located on the east and west sides of Brevard Road south of Sardis Road. It consists of 205.65 acres, and contains 17 establishments, five dwellings and 13 persons. There are no service extensions or issues to report.

Using the statutory standards statements from the Annexation Services Plan, Mr. Rick Cowick, representative of Benchmark, Inc., reviewed with Council how the area qualifies as an area acceptable for annexation under state law.

Councilman Hay asked if one property owner challenges the annexation of his area, would the entire annexation area fail. City Attorney Oast said that it depends on the basis of the challenge.

Mayor Sitnick closed the public hearing at 9:14 p.m.

G. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF NEW LEICESTER HIGHWAY AREA (AREA 2001-E)

Mr. Shuford opened the public hearing at 9:14 p.m.

Mr. Shuford said that Annexation Area E is now opened. Annexation Area E is located on the east side of New Leicester Highway. It consists of 9.03 acres, and contains three establishments one dwelling and three persons. Its annexation would close a gap in our City Limits in this area. There are no service issues to report.

Using the statutory standards statements from the Annexation Services Plan, Mr. Rick Cowick, representative of Benchmark, Inc., reviewed with Council how the area qualifies as an area acceptable for annexation under state law.

Mayor Sitnick closed the public hearing at 9:15 p.m.

F. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF ROCKY RIDGE ROAD/WEDGEFIELD DRIVE AREA (AREA 2001-F)

Mr. Shuford opened the public hearing at 9:16 p.m.

Mr. Shuford said that Annexation Area F is now opened. Annexation Area F is generally located on the north and south sides Rocky Ridge Road west of Brevard Road. It consists of 7.08 acres, and contains three establishments and no dwelling or persons. There are no service issues to report.

Using the statutory standards statements from the Annexation Services Plan, Mr. Rick Cowick, representative of Benchmark, Inc , reviewed with Council how the area qualifies as an area acceptable for annexation under state law.

Mayor Sitnick closed the public hearing at 9:17 p.m.

Mr. Shuford asked City Council to consider one change to the Annexation Services Plan. City staff suggests a perpetual no fee for the septic tank maintenance program as long as the property remains in its current developed state.

Mayor Sitnick said that the date City Council will consider extending the corporate limits to these areas will be on June 13, 2000. The effective date of annexation, if the ordinances are adopted, will be June 30, 2001.

Mayor Sitnick closed the public hearings at 9:22 p.m.

CHANGE IN AGENDA

It was the consensus of City Council to consider the budget amendment regarding the Civic Center at this point in the meeting.

ORDINANCE NO. 2699 - BUDGET AMENDMENT FOR THE CIVIC CENTER

Civic Center Director David Pisha said that this is the consideration of a budget amendment, in the amount of $593,737, for the Civic Center.

It is apparent the Civic Center will need an additional transfer of funds in order to continue operations through June 30, 2000. Revenues for the fiscal year are now estimated to be $1,406,896 versus a budget amount of $1,737,000. Revenue estimates do not include any transfers already made by the City. Expenses are estimated to be $2,293,315, versus a budgeted amount of $2,082,078. A portion of the increased expenses for the year include electrical repair work.

The overall deficit for the year will be approximately $886,419. This includes the current budgeted transfer from the general fund of $292,682. Also included in the deficit figure is electrical repair work to the facility. The additional monies requested amount to $593,737.

City staff recommends City Council approve a budget amendment, in the amount of $593,737, for the Civic Center.

Mr. Pisha responded to several questions from Councilman Peterson.

Councilwoman Whitmire requested that the following two items be implemented beginning July 1, 2000: (1) a in-house marketing plan for the Civic Center that will promote the arena and Thomas Wolfe Auditorium; and (2) a bi-monthly update on the Civic Center finances.

City Manager Westbrook said that he would schedule the issue about an in-house marketing plan for the Civic Center on the July 18, 2000, City Council worksession.

Mayor Sitnick would like to explore the Civic Center being a regional responsibility.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2699. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 237

IV. UNFINISHED BUSINESS:

A. REPORT ON THE FUTURE OF THE WNC REGIONAL AIR POLLUTION CONTROL AGENCY AND BOARD

Mayor Sitnick updated City Council on a meeting that she and Vice-Mayor Cloninger had with Buncombe County Chairman Tom Sobol and Buncombe County Commissioner David Young on the future of the WNC Regional Air Pollution Control Board and Agency. She said that the City Attorney and Mr. Siemens, attorney for the WNC Regional Air Pollution Control Board, have prepared a draft interlocal agreement. She then reviewed highlights of the draft agreement. In addition, she reviewed other items discussed at the meeting, in particular: protection for the employees of the Agency; the terms of the appointments to the Board; the Board being responsible for it's own organization, mainly it's appeal process; selection of the director; bookkeeping and financial, including fund balance, issues; whether the Board has the right to make their rules and regulations more stringent than Federal and State laws; formally appointing liaisons to the Board; and Clean Air Trust Fund and Trust Board issues. She said that a separate issue discussed was that City Council and the County Commissioners send a co-signed letter to the Governor asking him to eliminate the suit he has against the Environmental Protection Agency.

Mayor Sitnick noted that the final date to notify the Environmental Management Commission is June 1 and she asked if City Council would be willing to instruct the City Attorney to continue working with Mr. Siemens on a draft interlocal agreement.

Councilman Hay moved to authorize the City Attorney to proceed in negotiating an interlocal agreement with the Buncombe County Commissioners, as previously discussed, and to submit that draft agreement to the Environmental Management Commission prior to June 1, 2000, nothing that the draft agreement is subject to ratification by both governing bodies. This motion was seconded by Councilwoman Whitmire and carried unanimously.

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of May 5-11, 2000: Wayne D. Stoia (Civic Center), Richard Wagner (Water), Gregg McCoy (Water) and Gary Holmberg (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

B. LAWSUIT

The City received the following Complaint on May 10, 2000, which is generally described as follows: R. J. Snodgrass v. John P. Miall and the City of Asheville. The nature of the proceeding is a small claims action for money owed from a Certificate of Occupancy inspection error in 1986 under the Minimum Housing Code.

This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:00 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday – May 30, 2000
Reed Memorial Baptist Church
756 Fairview Road

7:00 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor M. Charles Cloninger and Councilwoman Barbara Field

On behalf of City Council, Mayor Sitnick welcomed the official delegation from Asheville Sister City Saumur, France, and exchanged gifts.

Mayor Sitnick said that many citizens and residents of east Asheville have expressed concerns to Council members and City staff about the proposal to redevelop the old Sayles Bleacheries property with a shopping center, and have indicated a desire to address Council at this community meeting about those concerns. The proposal for the old Sayles Bleacheries site is a proposal for a conditional use permit. A conditional use permit may only be issued or denied after a public hearing held for that specific purpose, and Council may only base its decision to issue or deny the conditional use permit on the information presented at that hearing. Council may not consider information that it receives outside of that public hearing, including information presented at this community meeting. If you are concerned about the proposal for the old Sayles Bleacheries site, either in favor of or opposed to it, and wish Council to hear your concerns or receive other information that you wish to present, please come to the public hearing that will be held on the proposal, and present your concerns or information then. That public hearing is tentatively set for July 25. Please notify our City Clerk or City's Planning Department if you wish to receive written notification of the public hearing.

The following topics were raised by residents and addressed by City Council and City staff: Beechwood Road should be closed where it intersects with Swannanoa River Road with a cul-de-sac to eliminate the large amount of cut-through traffic; speeding on Crockett Lane; no sidewalks in Redwood Forest community; need for traffic to be on commercial thoroughfares, not residential streets; no more development in the area is needed; speeding in Beverly Hills community; Beverly Road and East Hawthorne is in need of repair; request to see plans for corner of Cedar Street and Fairview Road; closure of Liberty Street should be preceded by specific signage informing travelers of the change; signs should be placed on Sweeten Creek Road directing traffic to the Asheville Mall, Home Depot and River Ridge to I-40 rather than Fairview Road and signs should also direct travelers leaving those shopping areas to I-40; need for sidewalks from Oakley School to River Ridge shopping center; need to improve lighting at the bridge near Home Depot; need improved stoplights at the intersection in front of Home Depot; need for safer sidewalks in the vicinity of the Library; need for a "No Thru Trucks" sign on either end of Fairview Road; vacant and deteriorating houses at 155 Onteora Boulevard, store at the corner of Raleigh Road and Liberty Street, 10 Westview and 82 Crayton Road; a request for a "No On-Street Parking" sign on Stoner Road; need for benches and trash cans to be placed at bus stops and Arrowood Apartments; better bus service in evening; bike lanes; need to repair fire hydrant in front of 60 Liberty Street; request to close Reservoir Road and use it for bike traffic only; sewerage system problem behind Eastview Apartments; concern about emergency response times on Tunnel Road when traffic is heavy; no police enforcement of "No Large Trucks" signs on Fairview Road; request to leave Creighton Road open for a period of time after the new interchange is opened to see where traffic flows in order to determine if there is a need to close Creighton Road; and concerns over development review process.

RESOLUTION NO. 00-87 – RESOLUTION RATIFYING INTERLOCAL AGREEMENT FOR FORMATION OF LOCAL AIR POLLUTION CONTROL PROGRAM AND AGENCY

City Attorney Oast reviewed with City Council the most recent draft Interlocal Agreement with Buncombe County on the WNC Regional Air Quality Control Agency. He said that Buncombe County, earlier in the day, had adopted an Interlocal Agreement. He then reviewed with Council the differences in the City's draft of the Agreement and in the County's adopted Agreement. A lengthy discussion occurred on several points and issues the City and the County have come to agreement on and their remaining differences.

Mr. Alan McKenzie (County appointment to the current WNC Regional Air Pollution Control Board but speaking only as an individual) and Mr. Arlis Queen (City appointment to the current WNC Regional Air Pollution Control Board but speaking only as an individual) both felt that the Agreement Buncombe County adopted was an acceptable and workable agreement. They urged City Council to adopt the Agreement Buncombe County adopted earlier in the day.

More discussion occurred regarding the County's adopted Agreement and the City's draft Agreement.

As a result of the discussion, City Attorney Oast then read the following resolution ratifying an interlocal agreement for formation of local Air Pollution Control Program and Agency: WHEREAS, the City of Asheville has the authority pursuant to G.S. 160A-461 et seq., and G.S. 143-215.112(c)(3) to enter into an interlocal agreement with other units of local government to establish a regional program for air pollution control and to form an independent agency to administer said program; and WHEREAS, the City of Asheville and Buncombe County have been negotiating an interlocal agreement for a local air pollution control program to supersede and replace the interlocal agreement that established the Western North Carolina Air Pollution Control Agency, which is set to expire on June 30, 2000, as a result of the withdrawal of Haywood County from said agreement; and WHEREAS, the City desires to enter into an interlocal agreement with Buncombe County and to submit said agreement to the appropriate agencies of the State of North Carolina for approval as provided by law; NOW, THEREFORE, BE IT RESOLVED BY THE ASHEVILLE CITY COUNCIL THAT the interlocal agreement attached hereto as Exhibit A be and the same is hereby ratified, and that the Mayor be and is hereby authorized to execute said agreement, subject to the approval of the City Attorney.

Councilman Worley moved to adopt Resolution No. 00-87. This motion was seconded by Councilwoman Whitmire and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 35

Mayor Sitnick adjourned the meeting at 10:09 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 6, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Advertise for Upset Bids for 135 Cherry Street

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer from Neighborhood Housing Services of Asheville, Inc. (NHS) for the purchase of 135 Cherry Street in the Head of Montford Redevelopment Project in the amount of $105,000.00.

135 Cherry Street is an Office zoned parcel located on Cherry Street about 150 feet east of Montford Avenue facing the Billy Graham Freeway. The property comprises a 0.16 acre lot improved with a 1,984 sq. ft. two story residential type structure along with a contiguous 0.046 acre parking lot encumbered by a non-exclusive parking easement for the adjoining property and including a non-exclusive access easement across the adjoining property. The Fair Reuse Value for the property is $105,000.00. The proposed use for the property is Office.

NHS has submitted a bid to purchase 135 Cherry Street in the amount of $105,000.00. NHS is the current tenant and plans to continue to occupy the building for the immediate future. The property is in good condition having been rehabilitated by NHS at the time of occupancy and no additional improvements are planned.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

Withdrawal of Dedication of Oak Terrace

Summary: The consideration of a resolution finding that a portion of the right-of-way known as Oak Terrace Drive is not part of an adopted street plan.

According to N. C. Gen. Stat. sec. 136-96, if a right-of-way is not utilized within 15 years of dedication, it can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Matney & Associates, on behalf of Sweeten Creek Realty, LLC, which is the successor in interest to the original developer of Stadley Mountain Park where Oak Terrace Drive is located, has requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating whether the right-of-way to be abandoned is or is not part of a proposed street plan.

200

Public Works Department staff has determined that the right-of-way known as Oak Terrace Drive, beginning at the Northwest corner of Parcel Identification Number 9626-11-66-6108, and ending at the Southwest corner of Parcel Identification Number 9626-11-66-6422 as shown on plat book 12, page 7 is not part of an adopted street plan and is not a City maintained right-of-way.

City staff recommends City Council adopt the resolution finding that a portion of the right-of-way known as Oak Terrace Drive is not part of an adopted street plan.

Budget Amendment re: Youth Employment Services! 2000

Summary: The consideration of a budget amendment in the amount of $14,320 for an appropriation from the Community Foundation of Western North Carolina in the New Horizon Grant Program.

The City of Asheville applied for funds in February 2000 for the New Horizon Grant Program from the Community Foundation of Western North Carolina. The grant was recently awarded in the amount of $14,320 and designated to assist with operational costs of the Youth Employment Services! 2000.

City Council authorized Parks and Recreation on February 8, 2000 to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant for $7,000. Since then, more elements were added to the project which increased the amount to $14,320.

Parks and Recreation is responsible for the management and operation of YES! 2000. The program is a result of a collaborative partnership between the City of Asheville, the Community Foundation, Job Link, the Asheville Housing Authority, and the Chamber of Commerce.

The Parks and Recreation Department recommends City Council approve the budget amendment in the amount of $14,320 to increase the budget for YES! 2000.

N. C. Dept. of Transportation Agreement and Budget Amendment for TEA-21 – Urban Trail

Summary: The consideration of a resolution authorizing the City Manger to enter into an agreement with the N. C. Department of Transportation for pedestrian streetscape improvements along the Urban Trail, and associated budget amendment, in the amount of $422,934.

The 2000-2006 Transportation Improvement Program (TIP) identifies the Urban Trail as the recipient of Transportation Equity Act for the Twenty First Century (TEA-21) funds. The project area will be defined to the path of the Urban Trail with a total project cost of $422,934. The grant will provide a reimbursement to the City of up to eighty percent (80%) for a maximum of $337,234 for the project. TEA-21 guidelines stipulate a minimum match of twenty percent (20%). The City's matching contribution will be $85,700, $40,000 of which is currently budgeted in the Fiscal Year 1999-00 budget, with the balance being supplemented by an appropriation from contingency.

Upon completion of the project and review, the City will be reimbursed for expenses as outlined in the agreement.

City staff recommends City Council (1) adopt a resolution authorizing the City Manager to enter into a municipal agreement with N. C. Department of Transportation, and (2) adopt a budget amendment, in the amount of $422,934.

Street Acceptance of Walden Ridge Drive

Summary: The consideration of a resolution to accept Walden Ridge Drive as a public right-of-way and City maintained street.

Section 7-15-1(f)-4.a requires that streets dedicated for public uses be accepted by resolution of City Council.

Walden Ridge Drive is a newly constructed street serving office and institutional uses. The street has been constructed and inspected in accordance with the City of Asheville Standard Specifications and Details Manual. The street is located off of Hendersonville Road. The street is a cul-de-sac that is approximately 755 feet long.

Following City Council's approval of this resolution, Walden Ridge Drive will be added to the official Powell Bill list.

Staff request City Council accept Walden Ridge Drive as a public right-of-way and City maintained street.

Budget Amendment re: Transit Services

Summary: The consideration of a budget amendment, in the amount of $117,710 to reflect additional revenue and offsetting expenses in the Transit Services Department budget.

The City of Asheville received additional funds from the state for the operation of Routes Six (Airport) and Seven (Enka-Candler). The City has also received funds from the Federal Government designated for capital projects (Bike Racks). Also revenue beyond the current budgeted amount was received from the sale of advertising, including a past due payment for advertising from Fiscal Year 1998-99. Additionally, several older buses were sold at auction during Fiscal Year 1998-99 and the revenue from that sale was not recognized in the current budget.

Offsetting expenses include some small adjustments to various administrative line items. The bulk of the offsetting expenses is reflected in the operating budget line item. This represents the increased cost of fuel, and the operations of routes Six and Seven funded by the state New Services grant.

City staff recommends City Council adopt the budget amendment, in the amount of $117,710, to reflect additional revenue and offsetting expenses in the Transit Services Department budget.

Contract with McGill Associates for the Survey, Design and Construction Documents for the W. T. Weaver Roadway and Greenway Project

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with McGill Associates, P.A., to prepare design and construction documents for the W.T. Weaver roadway and greenway (Phase II) improvements.

In 1999, the City received the opportunity to use Transportation Improvement Funds from the North Carolina Department of Transportation (NCDOT) to construct Phase II of the W.T. Weaver greenway. In order for this project to be eligible for the grant, detailed construction plans must be completed according to the NCDOT guidelines. Staff solicited costs for the design of the roadway and greenway (according to NCDOT guidelines) from Genesis Group, who were currently under contract for the conceptual plans for the greenway. The costs for design significantly exceeded staff's expectations. Staff then solicited proposals from McGill Associates to perform the work.

The contract with McGill Associates consists of surveying, preparing construction drawings and construction documents for roadway improvements and greenway installation. The scope of the roadway design is to create a round-about at W.T. Weaver and Barnard Avenue (also known as Edgewood Road Extension.) This entrance will become the main entrance to the University of North Carolina – Asheville (UNC-A). The fee for the project is based on an hourly rate plus allowable expenses, not to exceed $91,750.

Plans should be completed by the middle of August with construction beginning early fall 2000.

Staff has coordinated this project with UNC-A staff and the neighborhood.

City staff recommends City Council authorize the City Manager to sign a contract with McGill Associates, P.A. to prepare design and construction documents for the W.T. Weaver roadway and greenway improvements.

Vice-Mayor Cloninger noted that when this matter comes up for consideration at the next formal meeting, he would ask that it be pulled from the Consent Agenda due to a conflict of interest.

Contract for Conceptual Design and Opinion of Cost for Water Maintenance Complex Renovations

Summary: The consideration of a resolution confirming the award by the Regional Water Authority of a contract with Padgett & Freeman Architects, P.A., for conceptual design and an opinion of cost for renovating a portion of the Old Water Maintenance Building for the Water Resources Department.

In January 2000, the Water Resources staff presented to the Regional Water Authority a list of the most critical capital needs of the Water System. Among those needs identified was the renovation of the Water Maintenance facility on South Charlotte Street. The existing facility includes a prefabricated metal building currently housing the offices of the Water Maintenance Division, surrounded by a parking area for Division employees as well as the parking for the heavy equipment and service trucks which are used in the maintenance of the Water Distribution system. The metal building was built in the early 1970's and is in poor condition. The building was nearly condemned in 1993 (temporary repair was completed) due to a failure of a section of the roof after a large snowstorm.

Staff has performed a review of the entire facility to determine the best approach to take to renovate the facility. Problems which have been identified include the following: (1) the metal building must be either extensively renovated or abandoned in the near future due to its condition; (2) the site does not have sufficient space for parking for the construction equipment, service vehicles, and provide adequately for employee parking; (3) the site is surrounded and there is no room for site expansion, except for a small grassy area between the current employee parking area and Charlotte Street; and (4) Water Resources Administration and meter reading are located in City Hall but interact regularly with the Maintenance Division.

As part of the staff survey, the staff reviewed the current space allocation of the Old Water Maintenance Building, which is owned by the City of Asheville and is on the same site. About one-third of the floor area of this building is being used by the Asheville City Schools, but the remaining area is available with the relocation of some storage area being used by City Purchasing. The staff has determined that it is feasible to effectively combine Water Administration, Meter Reading, and Water Maintenance in the available space in the Old Water Maintenance Building, and combined with the demolition of the metal building, there will be adequate parking space. Given the high cost of land to develop a site elsewhere, and the need for Water Maintenance to remain close to the City Warehouse and Fleet Maintenance, the development of the Old Water Maintenance Building is the most cost-effective concept.

The recommended Water Fund budget for Fiscal Year 2000-2001 includes a recommendation that an $11.3 million revenue bond sale be held in early 2001. A sum of $1.0 million of the total is tentatively assigned to this project. At the present time, there is a need for a conceptual architectural plan to be developed to confirm if the concept of using the Old Water Maintenance Building will provide the present and future needs of the Water Resources Department and to provide a more detailed preliminary cost estimate for the upcoming revenue bond application.

Padgett and Freeman Architects, P.A., are already very familiar with the site, having been selected by the City of Asheville through an extensive consultant selection process in September 1996 for the renovation of the space now occupied by the Asheville City Schools. Padgett & Freeman's knowledge of the Old Water Maintenance Building, including the knowledge of the building, structure, plumbing, mechanical and electrical systems and capabilities, as well as the site and its stormwater conditions, allow Padgett & Freeman to offer the Authority economies in developing the conceptual plan for Water Resources. In addition, our review of their performance in renovating the area for the school was excellent. Staff has negotiated a fee not to exceed $17,150 to develop a conceptual floor plan, overall site plan with parking layout, and a budget opinion of cost to complete the project.

The Regional Water Authority approved award of a professional services contract to Padgett & Freeman, P.A., of Asheville, North Carolina in an amount not to exceed $17,150, on May 16, 2000.

City staff recommends City Council confirm the award by the Regional Water Authority of a professional services contract to Padgett & Freeman, P.A. of Asheville, North Carolina in an amount not to exceed $17,150.

Contract Award to Woolpert for Azalea Road Feasibility Study

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with Woolpert, LLP, to prepare Phase I of a feasibility study for the proposed Azalea Road development.

In 1999, a task force was created to evaluate the Azalea Road site. The direction of the task force was to make a recommendation to City Council as to whether the property should be purchased by the City for the primary uses a beneficial fill site and soccer fields. The task force consists of City staff, area residents and other interested stakeholders. Prior to making the recommendation to City Council on the property, the task force has recommended that Phase I of a feasibility study be completed to evaluate critical issues.

Staff developed a Request for Proposals (RFP) to select a consultant to prepare the feasibility study and design of the site. The RFP was completed in December 1999 and proposals were received in February 2000. Five firms submitted proposals. The selection team reviewed the proposals and narrowed the list to three firms: Woolpert, Vaughn and Melton, and MA Engineers. Interviews were held in March 2000 and the selection team recommended Woolpert, LLP, based upon qualifications.

Phase I of the feasibility will evaluate the following issues: (1) floodplain/floodway regulations; (2) beneficial fill operations; (3) traffic impact analysis; (4) utility investigation; (5) cost benefit analysis; and, (6) wetlands evaluation. The costs of Phase I is $86,262.00.

If Phase I of the feasibility study indicates that the property is suitable for the uses described above, staff will request that City Council authorize the City Manager to sign a contract with Woolpert, LLP, to complete Phase II of the feasibility study and possibly the design of the site.

Woolpert, LLP proposes to use three sub-consultants in the project. One of the three are certified minority or women-owned businesses.

Staff recommends that City Council authorize the City Manager to execute a contract with Woolpert, LLP, to prepare Phase I of a feasibility study for the proposed Azalea Road development.

Discussion occurred regarding prior feasibility studies and the use of those studies with regard to this project.

Councilwoman Whitmire asked for a report on the amount of money spent to date by the City on this project. Parks and Recreation Director Irby Brinson said that $80,000 was spent for the survey and $10,000 for the option. He stated that he would put this information in a report form for Council.

Donation to Police K-9 Unit

Summary: The consideration of a resolution authorizing the City Manager to accept a donation from the Ingles Market Inc. and Milk-Bone of Nabisco Inc. and to adopt an associated budget ordinance amendment, in the amount of $5,000.

Ingles Market Inc. and Milk-Bone of Nabisco Inc. have donated $5,000 to support the Asheville Police Department's K-9 Unit. The funds are intended to provide training for two K-9 officers and their canines to enhance and improve their skills in providing police services to the citizens of Asheville.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept the donation; and (2) a budget ordinance amendment, in the amount of $5,000, to appropriate the funds in the Police Department's operating budget.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

BUDGET REQUEST FOR THE BUNCOMBE COUNTY ECONOMIC DEVELOPMENT COMMISSION

Mr. Ernest Ferguson reviewed with Council the history of the Buncombe County Economic Development Commission (EDC). He said that it was established in 1994 to stimulate private sector investment, economic growth and job creation within Buncombe County. It creates a focused effort to assist existing industry and to recruit new business and industry, which will have a positive impact on the economic health of the community. Mr. Ferguson briefed Council on the impact of the EDC on the community along with existing business and industry. He then reviewed the members of the Commission as well as the funding request for Fiscal Year 2000-01. The EDC is request the City of Asheville budget $50,000 which will allow them one voting member on the EDC.

Discussion surrounded the difference between what the EDC is doing and what the Chamber of Commerce is doing.

Councilwoman Field voiced concern about comments made by some EDC Board members and staff which publicly oppose major City policy.

Vice-Mayor Cloninger asked if the City of Asheville could have two voting members on the EDC rather than one – noting that one more member of the EDC would bring the total to 10 which may result in a tie vote in some instances. Mr. Ferguson said that he would take that request to the EDC Board and try to let City Council know before their next formal meeting on the budget on June 13, 2000.

Councilman Hay wanted to be assured that the $50,000 would be directly tied into some specific goal, activity or project that would fit into the City's sustainable economic development plan. He suggested that the money be allocated in the budget with the details to be worked out later. If no meaningful understanding could be worked out, then that money would be available for another use.

AUTHORITY TO EXECUTE NEW LEASES TO EXISTING TENANTS AT 5, 7-1/2, 9, 11 AND 13 BILTMORE AVENUE PRIOR TO DISPOSITION OF THE PROPERTIES

Mr. Ed Vess, Field Services Coordinator, said that this is the consideration of a resolution authorizing the negotiation of new leases to existing tenants of redevelopment properties at 5, 7-1/2, 9, 11 and 13 Biltmore Avenue prior to disposing of the properties.

The properties at 5, 7-1/2, 9, 11 & 13 Biltmore Avenue were acquired as part of the Pack Plaza Redevelopment Project. They are currently leased to commercial and non-profit tenants as retail and office space. The Annual Action Plan for Housing and Community Development approved by City Council on May 9, 2000, proposes disposition of the properties during Fiscal Year 2000/2001.

Although the properties are fully occupied at this time, all of the current leases expire on or before August 31, 2000. Advice from an MAI appraiser indicates that offering each of the current tenants a market rate lease would be appropriate as a first step towards marketing the properties. A lease term of three years would provide a purchaser with an assured income stream, while not significantly encumbering the property in case the purchaser desires eventually to occupy it. It would also enable the existing tenants to plan for relocation. The new monthly rents with incremental annual increases are estimated as follows:

Address (Area in sq ft.)	7/1/00 - 6/30/01	7/1/01 - 6/30/02	7/1/02 - 6/30/03
5 Biltmore Ave. (4,464)	$5,200.00	$5,400.00	$5,600.00
7-1/2 Biltmore Ave. (600)	$625.00	$650.00	$680.00
9 Biltmore Ave. (2,070)	$2,400.00	$2,500.00	$2,600.00
11 &13 Biltmore Ave. (4,141)	$4,800.00	$5,000.00	$5,200.00
8 S. Lexington (17 parking spaces)	$340.00	$350.00	$365.00

Approval of the resolution will authorize staff to negotiate market rate leases with the current tenants at 5, 7-1/2, 9, 11 & 13 Biltmore Avenue for a period not to exceed three years and then to offer the properties for sale through the bid and upset bid process.

Staff recommends adoption of the resolution.

Mr. Vess noted that funds generated by the sale of these properties have tentatively been allocated to help fund eight Community Development Block Grant projects.

Mr. Vess noted that Habitat for Humanity has asked that the City proceed under a different statute that would allow them to purchase 9, 11 and 13 Biltmore Avenue without going through the upset bid process. However, proceeding under this statute would require restrictive covenants to be placed on the property which would mean that the ownership of the property would always have to be by a non-profit organization. Staff is not supportive of this request in that the property should be sold through the upset bid process on the open market without restrictive covenants in place. To do what Habitat is requesting would reduce the fair market value of the property by approximately 50%.

After discussion between Councilman Hay and City Attorney Oast about the reading of the statutes, Councilman Hay requested that 9, 11 and 13 Biltmore Avenue be deleted from consideration at this time and to have staff work with Habitat for Humanity for the sale of properties without restrictive covenants.

Mr. Lew Kraus, Habitat for Humanity, stated that Habitat has been working with the City for the past two years in trying to find a way to buy this building without having to go through the upset bid process. Information was given to them by the City of a statute that would allow them to do this. The City then sent them the information including the restrictive covenants. He said they do understand the restrictive covenants and that they do, in fact, reduce the market value of the property. Habitat understood the original appraisal of $400,000 from two years ago. Habitat is willing to entertain talking in those terms with the City, but they are not willing to entertain that with restrictive covenants attached. They are prepared to make a fair market value offer on this property with the covenants attached with the full understanding that it remains as a use of a non-profit.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ENACTMENT OF GROSS RECEIPTS TAX ON RENTAL VEHICLES

Budget Director Ben Durant said that this is the consideration of a resolution establishing a gross receipts tax on rental or leased vehicles to replace lost property tax revenue resulting from the General Assembly's recent repeal of the property tax on leased on rented vehicles.

On May 17, the General Assembly passed Senate Bill 1076 which repealed the property tax on leased or rented vehicles. Prior to the enactment of this legislation, municipal and county governments had the authority to levy property taxes on short-term leased or rented vehicles. Senate Bill 1076 now excludes these vehicles from the property tax base. According to information provided by the Buncombe County Tax Department, the City of Asheville will lose approximately $55,000 in property tax revenue with enactment of this new law based on a current property tax rate of $.52.

Senate Bill 1076 does, however, allows municipal and county governments to replace the lost property tax revenue with a tax on the gross receipts of companies operating leased or rental vehicles. Each municipal and county government must pass a resolution establishing the

gross receipts tax for their districts. Municipal and county governments can tax leasing companies at one and one-half (1 ½) percent of gross receipts upon adoption of a resolution.

Buncombe County staff is recommending a resolution in June authorizing the County to tax the gross receipts of leasing companies at one and one-half (1 ½) percent of gross receipts to replace lost property tax revenue. Buncombe County recommends that all municipalities authorize the one and one-half (1 ½) percent gross receipts tax. Enactment of the gross receipts tax will allow the City of Asheville to replace the projected $55,000 loss in property tax revenue.

City staff recommends City Council adopt a resolution establishing a gross receipts tax on leasing companies for leased or rented vehicles.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 00-88 – RESOLUTION AMENDING THE INTERLOCAL AGREEMENT REGARDING LOCAL AIR POLLUTION CONTROL PROGRAM AND AGENCY

City Attorney Oast outlined the amendments as follows: (1) the name of the agency is changed to "Western North Caroling Regional Air Quality Agency;" (2) the agreement shall be effective "upon the later of July 1, 2000, or the date of certification by appropriate State agencies;" (3) with regard to finances, "the Agency's annual budget shall reflect and maintain a fund balance at least equal to 8% of the Agency's total annual operating budget;" and (4) with regard to the Clean Air Community Trust, "the City of Asheville will name two trustees to the Trust Board, and Buncombe County will name three trustees, including Professor Rick Maas, who shall be the convening and the initial chair of the Trust Board." In addition, "...the initial board of trustees shall unanimously elect two additional persons to serve on the board of trustees and the entire Board shall elect officers, except for the initial chair whose appointment is provided for above. Terms of the trustees will be for three years, and no person may serve more than two consecutive terms. Terms of officers will run concurrent with their terms as trustees."

Councilman Worley questioned the three year term of the Chair and wondered if the Chair term should be annually.

Vice-Mayor Cloninger moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilman Peterson and carried unanimously.

City Attorney Oast then read the resolution amending the Interlocal Agreement regarding the local air pollution control program and agency.

Mr. Jack Fobes spoke in favor of the amendments to the Interlocal Agreement.

Vice-Mayor Cloninger moved to adopt Resolution No. 00-88. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 40

At 4:55 p.m., Mayor Sitnick adjourned the worksession to reconvene in the Council Chamber at 5:00 p.m.

PUBLIC HEARING ON THE 2000-01 ANNUAL OPERATING BUDGET AND CAPITAL IMPROVEMENTS PROGRAM

Mayor Sitnick opened the public hearing at 5:05 p.m.

Budget Director Ben Durant said that this public hearing was advertised on May 26 and June 2, 2000. He summarized the proposed budget and the changes that took place subsequent to the initial presentation. The budget was distributed to City Council on May 12, 2000, and on May 18, 200, a budget worksession was held. A special budget worksession on affordable housing was held on May 30, 2000. Adoption of the budget is schedule for June 13, 2000. The budget that was originally presented to City Council included a $0.2 tax rate increase to provide additional funding for an enhanced street maintenance and repair program. That tax rate which was proposed was $.54 per $100 of assessed valuation. During subsequent budget worksessions, revisions were made to the budget and City Council requested staff to add an addition $.02 for parks and recreation capital projects and for affordable housing initiatives. The budget at this time includes a tax rate of $.56 per $100 of assessed valuation compared to a current tax rate of $.52.

Vice-Mayor Cloninger requested that the current budget of $65,000 for traffic calming measures be increased to $100,000 and explained where the additional $35,000 could come from.

Councilman Hay explained his request that standing identified events at the Civic Center be exempt from paying the proposed increased set up and take down charges in the arena during hockey season. Mr. Durant said that the waiving of those fees will result in a loss of approximately $40,000 and staff will need direction from City Council on how to make up that loss.

Councilwoman Whitmire recommended funding the Buncombe Economic Development Commission not their requested funding of $50,000, but only $25,000. She then suggested $20,000 be allocated to the YWCA and $5,000 to the WNC Historical Association.

Councilman Peterson recommended $25,000 be allocated to the WNC Historical Association and approximately $20-25,000 to allocated to the YWCA.

It was suggested and agreed upon by Council that outside agency funding requests at one time during the next formal meeting when the budget is adopted.

The following individuals spoke in favor of the City Council establishing a housing trust fund:

Ms. Mimi Cecil, representing the Hospitality House
Mr. Alan Thornburg, speaking on behalf of the Hospitality House
Ms. Christy Carter, west Asheville resident and employee of Hospitality House
Mr. Richard Genz
Ms. Amy Ray, speaking as an individual but staff attorney at Pisgah Legal Services
Mr. Gene Bell
Ms. Pat Parker
Mr. Walter Plowie, member of the Carolina Real Estate Investment Association
Ms. Beth Maczka, Director of the Affordable Housing Coalition
Ms. Joyce Harrison, speaking on behalf of the Homes for Asheville-Buncombe Task
    Force

Ms. Beth Lazer, Chair of the Public Access Channel Commission, wanted to be assured, and was assured by City Manager Westbrook, that the $340,000 collected from InterMedia as a result from the franchise agreement, will be available for use by the Public Access Channel Commission when they are ready to purchase equipment.

gross receipts tax for their districts. Municipal and county governments can tax leasing companies at one and one-half (1 ½) percent of gross receipts upon adoption of a resolution.

Buncombe County staff is recommending a resolution in June authorizing the County to tax the gross receipts of leasing companies at one and one-half (1 ½) percent of gross receipts to replace lost property tax revenue. Buncombe County recommends that all municipalities authorize the one and one-half (1 ½) percent gross receipts tax. Enactment of the gross receipts tax will allow the City of Asheville to replace the projected $55,000 loss in property tax revenue.

City staff recommends City Council adopt a resolution establishing a gross receipts tax on leasing companies for leased or rented vehicles.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 00-88 – RESOLUTION AMENDING THE INTERLOCAL AGREEMENT REGARDING LOCAL AIR POLLUTION CONTROL PROGRAM AND AGENCY

City Attorney Oast outlined the amendments as follows: (1) the name of the agency is changed to "Western North Caroling Regional Air Quality Agency;" (2) the agreement shall be effective "upon the later of July 1, 2000, or the date of certification by appropriate State agencies;" (3) with regard to finances, "the Agency's annual budget shall reflect and maintain a fund balance at least equal to 8% of the Agency's total annual operating budget;" and (4) with regard to the Clean Air Community Trust, "the City of Asheville will name two trustees to the Trust Board, and Buncombe County will name three trustees, including Professor Rick Maas, who shall be the convening and the initial chair of the Trust Board." In addition, "...the initial board of trustees shall unanimously elect two additional persons to serve on the board of trustees and the entire Board shall elect officers, except for the initial chair whose appointment is provided for above. Terms of the trustees will be for three years, and no person may serve more than two consecutive terms. Terms of officers will run concurrent with their terms as trustees."

Councilman Worley questioned the three year term of the Chair and wondered if the Chair term should be annually.

Vice-Mayor Cloninger moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilman Peterson and carried unanimously.

City Attorney Oast then read the resolution amending the Interlocal Agreement regarding the local air pollution control program and agency.

Mr. Jack Fobes spoke in favor of the amendments to the Interlocal Agreement.

Vice-Mayor Cloninger moved to adopt Resolution No. 00-88. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 40

At 4:55 p.m., Mayor Sitnick adjourned the worksession to reconvene in the Council Chamber at 5:00 p.m.

RESOLUTION BOOK NO. 26 – PAGE 40

At 4:55 p.m., Mayor Sitnick adjourned the worksession to reconvene in the Council Chamber at 5:00 p.m.

PUBLIC HEARING ON THE 2000-01 ANNUAL OPERATING BUDGET AND CAPITAL IMPROVEMENTS PROGRAM

Mayor Sitnick opened the public hearing at 5:05 p.m.

Budget Director Ben Durant said that this public hearing was advertised on May 26 and June 2, 2000. He summarized the proposed budget and the changes that took place subsequent to the initial presentation. The budget was distributed to City Council on May 12, 2000, and on May 18, 200, a budget worksession was held. A special budget worksession on affordable housing was held on May 30, 2000. Adoption of the budget is schedule for June 13, 2000. The budget that was originally presented to City Council included a $0.2 tax rate increase to provide additional funding for an enhanced street maintenance and repair program. That tax rate which was proposed was $.54 per $100 of assessed valuation. During subsequent budget worksessions, revisions were made to the budget and City Council requested staff to add an addition $.02 for parks and recreation capital projects and for affordable housing initiatives. The budget at this time includes a tax rate of $.56 per $100 of assessed valuation compared to a current tax rate of $.52.

Vice-Mayor Cloninger requested that the current budget of $65,000 for traffic calming measures be increased to $100,000 and explained where the additional $35,000 could come from.

Councilman Hay explained his request that standing identified events at the Civic Center be exempt from paying the proposed increased set up and take down charges in the arena during hockey season. Mr. Durant said that the waiving of those fees will result in a loss of approximately $40,000 and staff will need direction from City Council on how to make up that loss.

Councilwoman Whitmire recommended funding the Buncombe Economic Development Commission not their requested funding of $50,000, but only $25,000. She then suggested $20,000 be allocated to the YWCA and $5,000 to the WNC Historical Association.

Councilman Peterson recommended $25,000 be allocated to the WNC Historical Association and approximately $20-25,000 to allocated to the YWCA.

It was suggested and agreed upon by Council that outside agency funding requests at one time during the next formal meeting when the budget is adopted.

The following individuals spoke in favor of the City Council establishing a housing trust fund:

Ms. Mimi Cecil, representing the Hospitality House
Mr. Alan Thornburg, speaking on behalf of the Hospitality House
Ms. Christy Carter, west Asheville resident and employee of Hospitality House
Mr. Richard Genz
Ms. Amy Ray, speaking as an individual but staff attorney at Pisgah Legal Services
Mr. Gene Bell
Ms. Pat Parker
Mr. Walter Plowie, member of the Carolina Real Estate Investment Association
Ms. Beth Maczka, Director of the Affordable Housing Coalition
Ms. Joyce Harrison, speaking on behalf of the Homes for Asheville-Buncombe Task Force

Ms. Beth Lazer, Chair of the Public Access Channel Commission, wanted to be assured, and was assured by City Manager Westbrook, that the $340,000 collected from InterMedia as a result from the franchise agreement, will be available for use by the Public Access Channel Commission when they are ready to purchase equipment.

Councilwoman Whitmire wanted to consider the $60,000 request from the Educational Access Channel Commission when the budget adoption is discussed next week.

The following individuals spoke in support of allocating funds to the WNC Historical Association to go toward the purchase of the former Biltmore High School into a Museum of Western North Carolina with will be devoted to the traditions, cultures and history of the region:

Mr. Kevin Westmoreland, representing the Biltmore School Alumni Association
Ms. Rebecca Lamb, Executive Director of the WNC Historical Association
Ms. Joanne Grimes, President of the WNC Historical Association
Mrs. Roger James, representing the Preservation Society of Asheville

Mr. Bob Stewart, President of the Beaverdam Run Condominium Association, urged City Council to continue its financial support of the Reems Creek Fire Station. He stressed that the community does not want to substitute the excellent service they receive from the Reems Creek Fire Station for service by the City of Asheville Fire Station No. 7 located on Merrimon Avenue.

Interim Fire Chief Robert Griffin explained that the contact in place with the Beaverdam Volunteer Fire Department was enacted five years ago as a result of annexation. State law requires cities to contract with the volunteer fire departments to replace their loss income for a period of five years. During that five year term, the volunteer fire department has the opportunity to adjust their budget, etc., to offset the loss of revenue. We have responded, along with the Beaverdam Volunteer Fire Department, to all calls in the City. Once the contract expires at the beginning of August, Chief Justice of the Reems Creek Fire Department, who provides the management for the Beaverdam Fire Department, has assured him that a mutual response pact will be drawn up that will include the County as well as the City for certain types of calls meeting criteria that will benefit the citizens of the County as well as the citizens of the City.

Mr. Gene Rainey, President of Our Next Generation, requested City Council to appropriate a one-time allocation of $5,000 to Teen Work. He explained that the program is to purchase five houses in the affordable range within the City limits of Asheville. He hope that this would be considered part of the affordable housing aspect of the budget. The houses will be refurbished by teenagers under the mentorship of a contractor.

Mr. Mickey McHaffee, representing Peacemakers, urged City Council to examine the budget carefully for places where cuts can be made. Salaries of some City employees continue to rise, however, the average annual wage in Asheville is under $25,000.

Ms. Shirley Dozier passed out a letter to Council which noted that she has not received a response from City staff regarding property at the Head of Montford. She requested the Mayor order them to respond to her by a date certain. She also said that a list of names and addresses were taken at a City Council meeting of race car fans and their families. She asked if those people were threatened because they did not show up at a protest meeting.

Councilwoman Whitmire responded that she was the only Council member who saw the names and addresses of those race fans and those were for her records only. She did not threaten anyone.

Mr. Chris Peterson, representing Citizens for Accountable Government, spoke in opposition of the 5% tax increase. He felt that City Council continues to overspend. He felt that City Council needs to cut 10% from the $83 Million budget. He felt Council should not allocate any money to non-profit organizations and instead allocate that money to streets, sidewalks and the water system. He made several suggestions on how the City could get out of their deficit, some being, but not limited to, not build the parking deck in the Grove Arcade area, get out of the business of the Civic Center, raise bus fares and cut routes, and implement a hiring freeze.

Mr. Fred English felt the Civic Center should be closed and the City should get out of the real estate/housing business. He felt residents should not have to pay to park and that's the reason people shop at the Malls and not downtown. He also noted that water bills continue to rise.

Ms. Holly Jones, Executive Director of the YWCA, asked City Council to appropriate funds to on-going program support to the YWCA because in terms of the strategic goals of the City, the YWCA is a true investment in the City.

Ms. Laurie Carroll, participant in a the YWCA program, spoke in support of the YWCA and their programs.

Mr. David Barker, President of the North Asheville Little League, spoke in favor of the one cent tax increase for parks and recreation. He expressed the need for ballfields in the north section of town.

Mr. Wayne Adams, Executive Director of Beverly Health Care of Asheville on Beaverdam Road, urged City Council to not discontinue the agreement with the Reems Creek Fire Station.

Mr. Steve Rasmussen and Ms. Dawn Humphries, representing Community Compassion, said that in the course of their advocacy work for compassion towards the medical and industrial use of marihuana and hemp, they raised questions regarding the City's Police Department budget, in particular the Metropolitan Enforcement Group. They feel tax dollars should go towards housing instead of harassing people to find drugs.

Ms. Ruth Summers, Executive Director of the Southern Highland Craft Guild, gave statistics of the large amount of economic benefit the Guild brings to the City of Asheville. She urged City Council to not raise fees from long-term users of the Civic Center.

Mayor Sitnick closed the public hearing at 7:08 p.m.

Mayor Sitnick said that City Council will consider adoption of the budget and capital improvements program at its regular meeting on June 13, 2000.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:12 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

211

Tuesday - June 13, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry M. Whitmire; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Peterson gave the invocation.

ADDITION TO THE AGENDA

Vice-Mayor Cloninger asked that an issue regarding the Public Access Channel Commission be added under "Other Business."

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JUNE 25-30, 2000, AS "WORLD BOTANIC GARDENS WEEK"

Mayor Sitnick read the proclamation proclaiming the week of June 25-30, 2000, as "World Botanic Gardens Week" in the City of Asheville. She presented the proclamation to Mr. Gerry Hardesty and Mr. George Briggs, who briefed City Council on some activities taking place during the week.

B. ANNUAL SAFETY AWARD FROM THE N.C. PUBLIC TRANSPORTATION ASSOCIATION

Transit Director Bruce Black said that the Asheville Transit System was the recipient of the annual safety award for Urban/Small Urban Fixed-Route Systems With Nine to Twenty Two Buses from the North Carolina Public Transportation Association at its annual meeting and conference in New Bern, North Carolina, on Monday, May 8, 2000. This award is in recognition of outstanding performance in traffic and pedestrian safety among transportation systems for the year 1999. There is one award in the state per category of transit system. This is the fifth time the City has won this award in the past seven years. The past awards were won in 1993, '95, '96, '97.

Mr. Black also advised Council that they received an award from the Asheville City Schools for appreciation of 30 years of service with virtually no accidents.

On behalf of City Council, Mayor Sitnick congratulated Mr. Black on the awards

C. MAYOR'S CUP RAFT RACE

Councilman Hay and Councilman Worley proudly announced that the City of Asheville won first place in the Mayor's Cup Raft Race held on June 4, 2000. They thanked the other crew members who were firefighters.

D. RECOGNITION OF PLAYERS AND COACHES FROM THE INVITATIONAL INTERNATIONAL BASKETBALL TOURNAMENT IN ASHEVILLE'S SISTER CITY SAUMUR, FRANCE

On behalf of City Council, Councilman Hay recognized the girls and boys basketball team and coaches from the Invitational International Basketball Tournament in Asheville's Sister City Saumur, France. The girls team won 2nd place and the boys team placed in 5th place.

E. RECOGNITION OF ASHEVILLE HIGH SCHOOL'S WOMEN'S SOCCER TEAM

On behalf of City Council, Councilman Hay was pleased to acknowledge Asheville High School's Women's Soccer Team.

F. RECOGNITION OF T.C. ROBERSON HIGH SCHOOL'S TEAMS AND INDIVIDUAL STATE CHAMPION

On behalf of City Council, Councilman Hay recognized some of the players of the T.C. Roberson High School's Girls' Track Team, Baseball Team, Girls' Cross Country Team, and Brad Pomeroy, State Individual Champion in Boys' Tennis.

II. CONSENT:

Vice-Mayor Cloninger requested Consent Agenda Item "J" be removed from the Consent Agenda.

Councilwoman Whitmire requested Consent Agenda Item "L" be removed from the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 23, 2000; THE COMMUNITY MEETING HELD ON MAY 30, 2000, AND THE WORKSESSION HELD ON JUNE 6, 2000

B. RESOLUTION NO. 00-89 - RESOLUTION AUTHORIZING THE NEGOTIATION OF NEW LEASES TO EXISTING TENANTS OF REDEVELOPMENT PROPERTIES AT 5 AND 7-1/2 BILTMORE AVENUE PRIOR TO DISPOSING OF THE PROPERTIES

Summary: The consideration of a resolution authorizing the negotiation of new leases to existing tenants of redevelopment properties at 5 and 7-1/2 Biltmore Avenue prior to disposing of the properties.

The properties at 5 and 7-1/2 Biltmore Avenue were acquired as part of the Pack Plaza Redevelopment Project. They are currently leased to commercial tenants as a music hall and retail space. The Annual Action Plan for Housing and Community Development approved by City Council on May 9, 2000, proposes disposition of the properties during Fiscal Year 2000/2001.

Although the properties are fully occupied at this time, the current leases expire on or before August 31, 2000. Advice from an MAI appraiser indicates that offering each of the current tenants a market rate lease would be appropriate as a first step towards marketing the properties. A lease term of three years would provide a purchaser with an assured income stream, while not significantly encumbering the property in case the purchaser desires eventually to occupy it. It would also enable the existing tenants to plan for relocation. The new monthly rents with incremental annual increases are estimated as follows:

Address (Area in sq ft.)	7/1/00 – 6/30/01	7/1/01 - 6/30/02	7/1/02 - 6/30/03
5 Biltmore Ave. (4,464)	$5,200.00	$5,400.00	$5,600.00
7-1/2 Biltmore Ave. (600)	$625.00	$650.00	$680.00

Approval of the resolution will authorize staff to negotiate market rate leases with the current tenants at 5 and 7 1/2 Biltmore Avenue for a period not to exceed three years and then to offer the properties for sale through the bid and upset bid process.

Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 45

C. RESOLUTION NO. 00-90 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER OF PURCHASE FOR UPSET BIDS REGARDING REDEVELOPMENT PROPERTY AT 135 CHERRY STREET

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer from Neighborhood Housing Services of Asheville, Inc. (NHS) for the purchase of 135 Cherry Street in the Head of Montford Redevelopment Project in the amount of $105,000.00.

135 Cherry Street is an Office zoned parcel located on Cherry Street about 150 feet east of Montford Avenue facing the Billy Graham Freeway. The property comprises a 0.16 acre lot improved with a 1,984 sq. ft. two story residential type structure along with a contiguous 0.046 acre parking lot encumbered by a non-exclusive parking easement for the adjoining property and including a non-exclusive access easement across the adjoining property. The Fair Reuse Value for the property is $105,000.00. The proposed use for the property is Office.

NHS has submitted a bid to purchase 135 Cherry Street in the amount of $105,000.00. NHS is the current tenant and plans to continue to occupy the building for the immediate future. The property is in good condition having been rehabilitated by NHS at the time of occupancy and no additional improvements are planned.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 46

D. RESOLUTION NO. 00-91 - RESOLUTION TO WITHDRAW FROM PUBLIC DEDICATION A PORTION OF OAK TERRACE DRIVE

Summary: The consideration of a resolution finding that a portion of the right-of-way known as Oak Terrace Drive is not part of an adopted street plan.

According to N. C. Gen. Stat. sec. 136-96, if a right-of-way is not utilized within 15 years of dedication, it can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Matney & Associates, on behalf of Sweeten Creek Realty, LLC, which is the successor in interest to the original developer of Stadley Mountain Park where Oak Terrace Drive is located, has requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating whether the right-of-way to be abandoned is or is not part of a proposed street plan.

Public Works Department staff has determined that the right-of-way known as Oak Terrace Drive, beginning at the Northwest corner of Parcel Identification Number 9626-11-66-6108, and ending at the Southwest corner of Parcel Identification Number 9626-11-66-6422 as shown on plat book 12, page 7 is not part of an adopted street plan and is not a City maintained right-of-way.

City staff recommends City Council adopt the resolution finding that a portion of the right-of-way known as Oak Terrace Drive is not part of an adopted street plan.

RESOLUTION BOOK NO. 26 – PAGE 47

E. ORDINANCE NO. 2700 - BUDGET AMENDMENT FOR AN APPROPRIATION FROM THE COMMUNITY FOUNDATION OF WNC TO ASSIST WITH OPERATION COSTS OF THE YOUTH EMPLOYMENT SERVICES! 2000

Summary: The consideration of a budget amendment in the amount of $14,320 for an appropriation from the Community Foundation of Western North Carolina in the New Horizon Grant Program.

The City of Asheville applied for funds in February 2000 for the New Horizon Grant Program from the Community Foundation of Western North Carolina. The grant was recently awarded in the amount of $14,320 and designated to assist with operational costs of the Youth Employment Services! 2000.

City Council authorized Parks and Recreation on February 8, 2000 to apply for and enter into an agreement with the Community Foundation of Western North Carolina for a grant for $7,000. Since then, more elements were added to the project which increased the amount to $14,320.

Parks and Recreation is responsible for the management and operation of YES! 2000. The program is a result of a collaborative partnership between the City of Asheville, the Community Foundation, Job Link, the Asheville Housing Authority, and the Chamber of Commerce.

The Parks and Recreation Department recommends City Council approve the budget amendment in the amount of $14,320 to increase the budget for YES! 2000.

ORDINANCE BOOK NO. 18 – PAGE 241

F. RESOLUTION NO. 00-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR PEDESTRIAN STREETSCAPE IMPROVEMENTS ALONG THE URBAN TRAIL

Summary: The consideration of a resolution authorizing the City Manger to enter into an agreement with the N. C. Department of Transportation for pedestrian streetscape improvements along the Urban Trail, and associated budget amendment, in the amount of $422,934.

The 2000-2006 Transportation Improvement Program (TIP) identifies the Urban Trail as the recipient of Transportation Equity Act for the Twenty First Century (TEA-21) funds. The project area will be defined to the path of the Urban Trail with a total project cost of $422,934. The grant will provide a reimbursement to the City of up to eighty percent (80%) for a maximum of $337,234 for the project. TEA-21 guidelines stipulate a minimum match of twenty percent (20%). The City's matching contribution will be $85,700, $40,000 of which is currently budgeted in the Fiscal Year 1999-00 budget, with the balance being supplemented by an appropriation from contingency.

Upon completion of the project and review, the City will be reimbursed for expenses as outlined in the agreement.

City staff recommends City Council (1) adopt a resolution authorizing the City Manager to enter into a municipal agreement with N. C. Department of Transportation, and (2) adopt a budget amendment, in the amount of $422,934.

RESOLUTION BOOK NO. 26 – PAGE 48

G. ORDINANCE NO. 2701 - BUDGET AMENDMENT FOR THE N.C. DEPT. OF TRANSPORTATION FOR PEDESTRIAN STREETSCAPE IMPROVEMENTS ALONG THE URBAN TRAIL

Summary: See Consent Agenda Item "F" above.

ORDINANCE BOOK NO. 18 - PAGE 243

H. RESOLUTION NO. 00-93 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT WALDEN RIDGE DRIVE AS A PUBLIC RIGHT-OF-WAY AND PUBLICLY MAINTAINED STREET

Summary: The consideration of a resolution to accept Walden Ridge Drive as a public right-of-way and City maintained street.

Section 7-15-1(f)-4.a requires that streets dedicated for public uses be accepted by resolution of City Council.

Walden Ridge Drive is a newly constructed street serving office and institutional uses. The street has been constructed and inspected in accordance with the City of Asheville Standard Specifications and Details Manual. The street is located off of Hendersonville Road. The street is a cul-de-sac that is approximately 755 feet long.

Following City Council's approval of this resolution, Walden Ridge Drive will be added to the official Powell Bill list.

Staff request City Council accept Walden Ridge Drive as a public right-of-way and City maintained street.

RESOLUTION BOOK NO. 26 – PAGE 49

I. ORDINANCE NO. 2702 - BUDGET AMENDMENT TO REFLECT ADDITIONAL REVENUE AND OFFSETTING EXPENSES IN THE TRANSIT SERVICES DEPARTMENT BUDGET

Summary: The consideration of a budget amendment, in the amount of $117,710 to reflect additional revenue and offsetting expenses in the Transit Services Department budget.

The City of Asheville received additional funds from the state for the operation of Routes Six (Airport) and Seven (Enka-Candler). The City has also received funds from the Federal Government designated for capital projects (Bike Racks). Also revenue beyond the current budgeted amount was received from the sale of advertising, including a past due payment for advertising from Fiscal Year 1998-99. Additionally, several older buses were sold at auction during Fiscal Year 1998-99 and the revenue from that sale was not recognized in the current budget.

Offsetting expenses include some small adjustments to various administrative line items. The bulk of the offsetting expenses is reflected in the operating budget line item. This represents the increased cost of fuel, and the operations of routes Six and Seven funded by the state New Services grant.

City staff recommends City Council adopt the budget amendment, in the amount of $117,710, to reflect additional revenue and offsetting expenses in the Transit Services Department budget.

ORDINANCE BOOK NO. 18 – PAGE 246

J. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH MCGILL ASSOCIATES TO PREPARE SURVEY, DESIGN AND CONSTRUCTION DOCUMENTS FOR THE W.T. WEAVER ROADWAY AND GREENWAY PROJECT

Summary: This item was removed from the Consent Agenda.

K. RESOLUTION NO. 00-94 - RESOLUTION ACCEPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD A PROFESSIONAL SERVICES CONTRACT TO PADGETT & FREEMAN FOR ARCHITECTURAL SERVICES IN CONCEPTUAL DESIGN AND OPINION OF COST FOR WATER MAINTENANCE COMPLEX RENOVATIONS

Summary: The consideration of a resolution confirming the award by the Regional Water Authority of a contract with Padgett & Freeman Architects, P.A., for conceptual design and an opinion of cost for renovating a portion of the Old Water Maintenance Building for the Water Resources Department.

In January 2000, the Water Resources staff presented to the Regional Water Authority a list of the most critical capital needs of the Water System. Among those needs identified was the renovation of the Water Maintenance facility on South Charlotte Street. The existing facility includes a prefabricated metal building currently housing the offices of the Water Maintenance Division, surrounded by a parking area for Division employees as well as the parking for the heavy equipment and service trucks which are used in the maintenance of the Water Distribution system. The metal building was built in the early 1970's and is in poor condition. The building was nearly condemned in 1993 (temporary repair was completed) due to a failure of a section of the roof after a large snowstorm.

Staff has performed a review of the entire facility to determine the best approach to take to renovate the facility. Problems which have been identified include the following: (1) the metal building must be either extensively renovated or abandoned in the near future due to its condition; (2) the site does not have sufficient space for parking for the construction equipment, service vehicles, and provide adequately for employee parking; (3) the site is surrounded and there is no room for site expansion, except for a small grassy area between the current employee parking area and Charlotte Street; and (4) Water Resources Administration and meter reading are located in City Hall but interact regularly with the Maintenance Division.

As part of the staff survey, the staff reviewed the current space allocation of the Old Water Maintenance Building, which is owned by the City of Asheville and is on the same site. About one-third of the floor area of this building is being used by the Asheville City Schools, but the remaining area is available with the relocation of some storage area being used by City Purchasing. The staff has determined that it is feasible to effectively combine Water Administration, Meter Reading, and Water Maintenance in the available space in the Old Water Maintenance Building, and combined with the demolition of the metal building, there will be adequate parking space. Given the high cost of land to develop a site elsewhere, and the need for Water Maintenance to remain close to the City Warehouse and Fleet Maintenance, the development of the Old Water Maintenance Building is the most cost-effective concept.

The recommended Water Fund budget for Fiscal Year 2000-2001 includes a recommendation that an $11.3 million revenue bond sale be held in early 2001. A sum of $1.0 million of the total is tentatively assigned to this project. At the present time, there is a need for a conceptual architectural plan to be developed to confirm if the concept of using the Old Water Maintenance Building will provide the present and future needs of the Water Resources Department and to provide a more detailed preliminary cost estimate for the upcoming revenue bond application.

Padgett and Freeman Architects, P.A., are already very familiar with the site, having been selected by the City of Asheville through an extensive consultant selection process in September 1996 for the renovation of the space now occupied by the Asheville City Schools. Padgett & Freeman's knowledge of the Old Water Maintenance Building, including the knowledge of the building, structure, plumbing, mechanical and electrical systems and capabilities, as well as the site and its stormwater conditions, allow Padgett & Freeman to offer the Authority economies in developing the conceptual plan for Water Resources. In addition, our review of their performance in renovating the area for the school was excellent. Staff has negotiated a fee not to exceed $17,150 to develop a conceptual floor plan, overall site plan with parking layout, and a budget opinion of cost to complete the project.

The Regional Water Authority approved award of a professional services contract to Padgett & Freeman, P.A., of Asheville, North Carolina in an amount not to exceed $17,150, on May 16, 2000.

City staff recommends City Council confirm the award by the Regional Water Authority of a professional services contract to Padgett & Freeman, P.A. of Asheville, North Carolina in an amount not to exceed $17,150.

RESOLUTION BOOK NO. 26 – PAGE 50

L. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH WOOLPERT, LLP, TO PREPARE PHASE I OF A FEASIBILITY STUDY FOR THE PROPOSED AZALEA ROAD DEVELOPMENT

This item was removed from the Consent Agenda.

M. RESOLUTION NO. 00-95 - RESOLUTION AUTHORIZING THE CITY TO LEVY A TAX ON GROSS RECEIPTS DERIVED FROM RETAIL SHORT-TERM LEASE OR RENTAL OF VEHICLES

Summary: The consideration of a resolution establishing a gross receipts tax on rental or leased vehicles to replace lost property tax revenue resulting from the General Assembly's recent repeal of the property tax on leased on rented vehicles.

On May 17, the General Assembly passed Senate Bill 1076 which repealed the property tax on leased or rented vehicles. Prior to the enactment of this legislation, municipal and county governments had the authority to levy property taxes on short-term leased or rented vehicles. Senate Bill 1076 now excludes these vehicles from the property tax base. According to information provided by the Buncombe County Tax Department, the City of Asheville will lose approximately $55,000 in property tax revenue with enactment of this new law based on a current property tax rate of $.52.

Senate Bill 1076 does, however, allows municipal and county governments to replace the lost property tax revenue with a tax on the gross receipts of companies operating leased or rental vehicles. Each municipal and county government must pass a resolution establishing the gross receipts tax for their districts. Municipal and county governments can tax leasing companies at one and one-half (1 ½) percent of gross receipts upon adoption of a resolution.

Buncombe County staff is recommending a resolution in June authorizing the County to tax the gross receipts of leasing companies at one and one-half (1 ½) percent of gross receipts to replace lost property tax revenue. Buncombe County recommends that all municipalities authorize the one and one-half (1 ½) percent gross receipts tax. Enactment of the gross receipts tax will allow the City of Asheville to replace the projected $55,000 loss in property tax revenue.

City staff recommends City Council adopt a resolution establishing a gross receipts tax on leasing companies for leased or rented vehicles.

RESOLUTION BOOK NO. 26 – PAGE 51

N. RESOLUTION NO. 00-96 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM INGLES MARKETS INC. AND MILK-BONE/NABISCO INC. IN SUPPORT OF POLICE DEPARTMENT'S K-9 UNIT

Summary: The consideration of a resolution authorizing the City Manager to accept a donation from the Ingles Market Inc. and Milk-Bone of Nabisco Inc. and to adopt an associated budget ordinance amendment, in the amount of $5,000.

Ingles Market Inc. and Milk-Bone of Nabisco Inc. have donated $5,000 to support the Asheville Police Department's K-9 Unit. The funds are intended to provide training for two K-9 officers and their canines to enhance and improve their skills in providing police services to the citizens of Asheville.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept the donation; and (2) a budget ordinance amendment, in the amount of $5,000, to appropriate the funds in the Police Department's operating budget.

RESOLUTION BOOK NO. 26 – PAGE 55

O. ORDINANCE NO. 2703 - BUDGET AMENDMENT TO REFLECT A DONATION FROM INGLES MARKETS INC. AND MILK-BONE/NABISCO INC. IN SUPPORT OF POLICE DEPARTMENT'S K-9 UNIT

Summary: See Consent Agenda Item "N" above.

P. MOTION SETTING A PUBLIC HEARING ON JUNE 27, 2000, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE MAXIMUM FOOTPRINT FOR ACCESSORY STRUCTURES IN RESIDENTIAL DISTRICTS

Q. MOTION SETTING A PUBLIC HEARING ON JUNE 27, 2000, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE APPROVAL PROCESS FOR PRELIMINARY PLATS FOR MAJOR SUBDIVISIONS

R. MOTION SETTING A PUBLIC HEARING ON JUNE 27, 2000, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE REVIEW AND APPROVAL PROCESS FOR DUPLEXES, TRIPLEXES AND QUADRAPLEXES IN SINGLE FAMILY ZONING DISTRICTS AND TO ESTABLISH NEW DEVELOPMENT STANDARDS FOR THESE USES

S. MOTION SETTING A PUBLIC HEARING ON JUNE 27, 2000, TO CONSIDER A PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR ARTISAN PARK LOCATED AT 1773 OLD HAYWOOD ROAD

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA

RESOLUTION NO. 00-97- RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH MCGILL ASSOCIATES TO PREPARE SURVEY, DESIGN AND CONSTRUCTION DOCUMENTS FOR THE W.T. WEAVER ROADWAY AND GREENWAY PROJECT

At the request of Vice-Mayor Cloninger, Councilwoman Field moved to excuse Vice-Mayor Cloninger from voting in Consent Agenda Item "J" due to a conflict of interest. This motion was seconded by Councilman Worley and carried unanimously.

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with McGill Associates, P.A., to prepare design and construction documents for the W.T. Weaver roadway and greenway (Phase II) improvements.

In 1999, the City received the opportunity to use Transportation Improvement Funds from the North Carolina Department of Transportation (NCDOT) to construct Phase II of the W.T. Weaver greenway. In order for this project to be eligible for the grant, detailed construction plans must be completed according to the NCDOT guidelines. Staff solicited costs for the design of the roadway and greenway (according to NCDOT guidelines) from Genesis Group, who were currently under contract for the conceptual plans for the greenway. The costs for design significantly exceeded staff's expectations. Staff then solicited proposals from McGill Associates to perform the work.

The contract with McGill Associates consists of surveying, preparing construction drawings and construction documents for roadway improvements and greenway installation. The scope of the roadway design is to create a round-about at W.T. Weaver and Barnard Avenue (also known as Edgewood Road Extension.) This entrance will become the main entrance to the University of North Carolina – Asheville (UNC-A). The fee for the project is based on an hourly rate plus allowable expenses, not to exceed $91,750.

Plans should be completed by the middle of August with construction beginning early fall 2000.

Staff has coordinated this project with UNC-A staff and the neighborhood.

City staff recommends City Council authorize the City Manager to sign a contract with McGill Associates, P.A. to prepare design and construction documents for the W.T. Weaver roadway and greenway improvements.

Councilwoman Field moved for the adoption of Resolution No. 00-97. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 56

RESOLUTION NO. 00-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH WOOLPERT, LLP, TO PREPARE PHASE I OF A FEASIBILITY STUDY FOR THE PROPOSED AZALEA ROAD DEVELOPMENT

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with Woolpert, LLP, to prepare Phase I of a feasibility study for the proposed Azalea Road development.

In 1999, a task force was created to evaluate the Azalea Road site. The direction of the task force was to make a recommendation to City Council as to whether the property should be purchased by the City for the primary uses a beneficial fill site and soccer fields. The task force consists of City staff, area residents and other interested stakeholders. Prior to making the recommendation to City Council on the property, the task force has recommended that Phase I of a feasibility study be completed to evaluate critical issues.

Staff developed a Request for Proposals (RFP) to select a consultant to prepare the feasibility study and design of the site. The RFP was completed in December 1999 and proposals were received in February 2000. Five firms submitted proposals. The selection team reviewed the proposals and narrowed the list to three firms: Woolpert, Vaughn and Melton, and

MA Engineers. Interviews were held in March 2000 and the selection team recommended Woolpert, LLP, based upon qualifications.

Phase I of the feasibility will evaluate the following issues: (1) floodplain/floodway regulations; (2) beneficial fill operations; (3) traffic impact analysis; (4) utility investigation; (5) cost benefit analysis; and, (6) wetlands evaluation. The costs of Phase I is $86,262.00.

If Phase I of the feasibility study indicates that the property is suitable for the uses described above, staff will request that City Council authorize the City Manager to sign a contract with Woolpert, LLP, to complete Phase II of the feasibility study and possibly the design of the site.

Woolpert, LLP proposes to use three sub-consultants in the project. One of the three are certified minority or women-owned businesses.

Staff recommends that City Council authorize the City Manager to execute a contract with Woolpert, LLP, to prepare Phase I of a feasibility study for the proposed Azalea Road development.

Vice-Mayor Cloninger moved for the adoption of Resolution No.00-98 . This motion was seconded by Councilwoman Field and carried on a 6-1 vote, with Councilwoman Whitmire voting "no."

RESOLUTION BOOK NO. 26 – PAGE 57

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING 23 CONGRESS STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2704 - ORDINANCE TO REZONE 23 CONGRESS STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2705 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR 23 CONGRESS STREET

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:41 p.m.

Mr. Scott Shuford, Planning & Development Director, submitted into the record Affidavit of Publication (City Exhibit 1), the Certification of Mailing of Notice to Property Owners (City Exhibit 2), and the Staff Report (City Exhibit 3).

He said that this is the consideration of rezoning property at 23 Congress Street from RS-8 Residential Single-Family High Density District to RM-8 Residential Multi-Family Medium Density District, and issuance of a conditional use permit (conditional use zoning).

The Planning and Zoning Commission, at their May 3, 2000, meeting, reviewed and recommended approval, with conditions, of the change in zoning of property located at 23 Congress from RS-8 to RM-8 CU. The applicants are Steve Tensi and Jennifer Scovill. Two structures are currently located on the half-acre lot. One of the structures is used as a duplex and the other is vacant. The applicant has submitted an application and a site plan indicating that the structure that is currently vacant will be used as a duplex. The site plan indicates an improved parking area and buffering and landscaping to meet the requirements of the City's landscape ordinance. In recommending approval of the conditional use district zoning for the property, the Planning and Zoning Commission recommended that the following conditions be attached to the conditional use permit:

- Identify the species and exact locations of proposed buffer plantings;
- Indicate street trees on the site plan;
- Remove trash from the open shed at the rear of the property;
- Remove the abandoned car at the rear of the property; and
- Two duplexes be consistent with the Minimum Housing Code within 90 days of the date of the approval of the Order granting conditional use zoning.

There was no public comment at the Planning and Zoning Commission hearing.

In taking action to approve the conditional use district zoning of the property, Council must take two actions:

- Approve a change in the official zoning maps to designate the property as an RM-8 CU zone; and
- Issue a conditional use permit for the two duplexes on the property.

The second action is a quasi-judicial action and all actions taken by the Council must comply with the procedural requirements for such actions.

The Planning and Zoning Commission voted 6 to 0 to recommend approval of the conditional use district zoning. The Planning and Development staff recommends approval of the zoning change.

Ms. Jennifer Scovill, property owner, said that they are only 30 days away from the Certificate of Occupancy and have already started adhering to the conditions of the conditional use permit.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 5:45 p.m.

Councilman Worley moved to adopt Ordinance No. 2704 to rezone 23 Congress Street from RS-8 Residential Single-Family High Density District to RM-8 CU Residential Multi-Family Medium Density District (conditional use zoning). This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 251

Vice-Mayor Cloninger moved to adopt Ordinance No. 2705 granting the conditional use permit for 23 Congress Street (conditional use zoning), with the following conditions: (1) Identify the species and exact locations of proposed buffer plantings; (2) Indicate street trees on the site plan; (3) Remove trash from the open shed at the rear of the property; (4) Remove the abandoned car at the rear of the property; and (5) Two duplexes be consistent with the Minimum Housing Code within 90 days of the date of the approval of the Order granting conditional use zoning. Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 252-A

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR A TELECOMMUNICATIONS TOWER AT 200 TUNNEL ROAD

Summary: American Tower Corporation has withdrawn the application for a new telecommunications tower at 200 Tunnel Road (Kenilworth Knoll).

On September 28, 1999, City Council opened the public hearing to consider a conditional use permit for a telecommunications tower at 200 Tunnel Road. After numerous continuances, on March 28, 2000, the matter was continued indefinitely in order for the applicant to resolve technical issues that would allow them to co-locate on the existing tower on Kenilworth Knoll. Instead of building a new tower, the applicant will place antennae on the existing tower near the Sports Club of Asheville.

American Tower Corporation was the first application for a new telecommunications tower since the City adopted a new ordinance regulating telecommunications towers. The ordinance requires applicants to exhaust all options for co-location before building a new tower. The ordinance also encourages the use of concealed structures and new technologies as alternatives to new towers. The fact that this application will not result in a new tower speaks to the effectiveness of the new ordinance. The resolution of this matter without a public hearing can be largely credited to the City's consultant, Paul Rosa. Consulting fees were paid by the applicant, as provided in the ordinance.

It was the consensus of City Council to accept the withdrawal of the application by American Tower Corporation.

IV. UNFINISHED BUSINESS:

Annexation Ordinances and Services Plan

Planning & Development Director Scott Shuford said that this is the consideration of adopting ordinances that establish the City's commitment to serve the Phase I Annexation Plan areas and to set the effective date of annexation on June 30, 2001. Copies of the six areas proposed for annexation were passed out to City Council.

On May 23, 2000, City Council held a public hearing on the proposed annexation of six areas distributed across all quadrants of the City. Ordinances have been prepared that will complete the procedural part of the annexation process for each of these six areas. In addition, these ordinances adopt the Services Plan that lays out the City's commitment to provide these annexed areas with services reasonably similar to those received by other properties located within the City. Staff requests Council take separate action on each of these six ordinances.

In addition, staff recommends two changes to the Services Plan based on public comments we have received throughout the annexation process, as well as our own review. First, staff recommends that the septic system program proposed for portions of Annexation Area 01-C (Skyland area) be a no-fee program for those properties receiving this service. Second, we recommend the substitution of the entire agreement document with CP&L for the memorandum of understanding (Appendix 7).

Staff has also received five forms from property owners in both the Long Shoals and Old Shoals sections of Annexation Area 01-C requesting that the City provide sanitary sewer service in lieu of the septic system maintenance program. While these forms may not have been submitted in a timely fashion, staff has analyzed the requests for feasibility.

This analysis indicates that one property owner (315 Long Shoals Road) already has sewer service available to the rear of her property. Further discussion with this property owner indicates that she owns a parcel of approximately 30 acres in size and that her home is a considerable distance away from the sewer line, making it very expensive for her to connect to the sewer line. Her request is to be added to the septic system maintenance program. This is a very unusual circumstance and staff would have no problem modifying our policy for the provision of this service to accommodate individual single family residences that are physically located more than 1,000 feet away from a sanitary sewer line (even if their property is within 300 feet of such a line) to avail themselves of the septic system maintenance program. Staff requests City Council allow staff to modify the policies to reflect such circumstances like this in the future and to serve this property owner.

The other four locations are off Old Shoals Road (a private roadway) on the south side of Lake Julian. In considering these four requests, it appears to us that it would be difficult from an equity standpoint to provide sewer service to these four properties and not to the other surrounding properties. We feel that fairness dictates that we provide sanitary sewer service to the entire area around Old Shoals Road that would be covered by the proposed septic system maintenance program should Council direct us to positively consider these requests. The provision of sewer service to this area will cost approximately $756,000 due topographical considerations that require the wastewater to be pumped. Given the uncertainty of ultimate land use patterns in this area due the surrounding industrial land uses proximate to Old Shoals Road, staff does not recommend making this capital investment at this time. Additionally, staff does not feel that service consistency will be a negative consideration for these new residents from either a legal or ethical standpoint.

City staff recommends that Council separately adopt each of six ordinances annexing areas into the City's corporate boundaries. These ordinances reflect the recommended modifications to the City's Services Plan.

Upon inquiry of Councilwoman Field, Mr. Shuford said that he is unable to give a date in the future that the City may provide sewer to Area C because the City is waiting for the long range annexation phase plan from our consultant. Once we have that, then the City can look at the area in a more comprehensive way.

A. ORDINANCE NO. 2706 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE THE CHUNNS COVE ROAD/PINEY MOUNTAIN ROAD AREA (AREA 2001-A)

Mr. Shuford recommended that City Council adopt the ordinance to extend the corporate limits of the City of Asheville to include the Chunns Cove Road/Piney Mountain Road area (Area 2001-A).

Councilwoman Field stated that she received a call from a person who wanted to know why the City was not annexing further up on Chunns Cove Road. Mr. Shuford said that he would get the information from Councilwoman Field and contact the person to see if they would be interested in voluntary annexation.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2706. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 253

B. ORDINANCE NO. 2707 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE THE AREA LOCATED NORTH OF U.S. HIGHWAY 70 BETWEEN RICEVILLE ROAD AND LOWER GRASSY BRANCH ROAD (AREA 2001-B)

Mr. Shuford recommended that City Council adopt the ordinance to extend the corporate limits of the City of Asheville to include the area located north of U.S. Highway 70 between Riceville Road and Lower Grassy Branch Road (Area 2001-B).

Upon inquiry of Ms. Eleanor Thomas, 112 Arnold Road, Mr. Shuford said that the City is allowed by the N. C. General Statutes to annex Parkway property. Mr. Rick Cowick, representative of Benchmark, then explained the qualifications of this area.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2707. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 273

C. ORDINANCE NO. 2708 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE THE AREA LOCATED NORTH AND SOUTH OF LONG SHOALS ROAD BETWEEN I-26 AND HENDERSONVILLE ROAD (AREA 2001-C)

Mr. Shuford recommended that City Council adopt the ordinance to extend the corporate limits of the City of Asheville to include the area located north and south of Long Shoals Road between I-26 and Hendersonville Road (Area 2001-C), as amended by City Attorney Oast below.

City Attorney Oast asked that the ordinance be amended to include the following paragraph to Section 3 of the ordinance: "That, for the properties identified on Exhibit X, attached hereto, the provision of sanitary sewer service is not economically feasible due to the unique topography of the area. For these properties, the City will provide septic system maintenance and repair services as permitted by N. C. G. S. 160A-47 (3) b., as set forth on pages C-21 and C-22 of the Annexation Services Plan, attached hereto."

Upon inquiry of Councilman Worley, City Attorney Oast said Exhibit X does not include the property on Long Shoals Road because we are only required to list the properties that we would be otherwise required to serve due to the unique topography of the area. However, the City is asking permission to modify the policies to serve the property with the septic system maintenance program.

Upon inquiry of Councilman Hay, Mr. Shuford said that new construction does not get the benefit of the septic system maintenance program or a sewerage system. He said that this applies only to existing property and new construction would be responsible for providing one or the other of those two systems on their own.

Mr. Alex Cochran asked if he would be permitted to build on his vacant lot in the future if there was no sewer service. Mr. John Echeverri, Assistant Director of Engineering, responded that he would be able to build using a septic tank, however, the City will not maintain the system.

Ms. Myrna Hendrix felt that the City should pay for maintenance of septic systems for new construction in the future because they will pay additional taxes to the City. Mr. Shuford said that the City doesn't do that for any other area in the City currently and we will be treating this annexation area the same as any other areas in the City.

Mr. Rick Cowick, representative of Benchmark, then explained the qualifications of this area.

When Councilman Peterson asked what is the size of the area that cannot be economically served by a sewer system out of the total acreage of 1492 acres, Mr. Shuford responded that probably less than 10% of the area would be eligible for the septic tank maintenance program.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2708. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 292

D. ORDINANCE NO. 2709 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE THE RIDGEFIELD BOULEVARD AND OAK TERRACE AREA (AREA 2001-D)

Mr. Shuford recommended that City Council adopt the ordinance to extend the corporate limits of the City of Asheville to include the Ridgefield Boulevard and Oak Terrace area (Area 2001-D).

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2709. This motion was seconded by Councilwoman Whitmire and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 325

E. ORDINANCE NO. 2710 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE THE NEW LEICESTER HIGHWAY AREA (AREA 2001-E)

Mr. Shuford recommended that City Council adopt the ordinance to extend the corporate limits of the City of Asheville to include the New Leicester Highway area (Area 2001-E).

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Peterson moved for the adoption of Ordinance No. 2710. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 345

F. ORDINANCE NO. 2711 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE THE ROCKY RIDGE ROAD/WEDGEFIELD DRIVE AREA (AREA 2001-F)

Mr. Shuford recommended that City Council adopt the ordinance to extend the corporate limits of the City of Asheville to include the Rocky Ridge Road/Wedgefield Drive area (Area 2001-F).

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2711. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 362

Councilwoman Field said that the agreements between the City and CP&L, which are attached to the ordinances basically limits the amount that CP&L pays the City in a combination of property tax and franchise fee. This was a negotiation that happened several years ago and it's a piece of history that everyone should be aware of. That is, the amount of money that CP&L pays us doesn't increase because of our annexation. City Attorney Oast also noted that that was implemented by the legislature in 1995.

G. ORDINANCE APPROVING THE CROWELL FARMS MASTER PLAN

At the request of City staff, it was the consensus of City Council to postpone this action until June 27, 2000.

At 6:25 p.m., Mayor Sitnick announced a short break.

AGENDA ORDER CHANGE

At 6:50 p.m., Councilman Hay moved to advance New Business Item A next. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

CONSIDERATION OF A REQUEST TO WAIVE THE UNIFIED DEVELOPMENT ORDINANCE REQUIREMENT FOR A SIDEWALK ALONG 33 BROADVIEW DRIVE FOR ASHEVILLE CHURCH OF CHRIST

Mr. Oliver Gajda, Pedestrian and Bicycle Coordinator, said that this is the consideration of a resolution waiving the Unified Development Ordinance (UDO) requirement for a sidewalk along Broadview Drive for the Asheville Church of Christ building.

Section 7-11-6 of the UDO requires that new construction construct sidewalks as specified in the Asheville Standard Specifications & Details Manual along street rights-of-way or pay a fee in lieu of constructing the sidewalk. The Asheville Church of Christ has built a new church located at 33 Broadview Drive. Broadview Drive is a city-maintained street located in the Oakley community.

This development does not meet the requirements for a paying a fee in lieu of constructing the sidewalk due to the fact that is a moderately high volume of vehicular traffic on the street. This development has approximately 435 linear feet of frontage on a public street with two twenty-four foot wide driveways.

Staff does not recommend that City Council waive the requirement that the developer install sidewalk at the Asheville Church of Christ located at 33 Broadview Drive.

City staff requests that City Council not waive the requirement that a sidewalk be placed along Broadview Drive as required by the UDO Section 7-11-6 for the Asheville Church of Christ located at 33 Broadview Drive.

Reverend Joe Hickman, Asheville Church of Christ, requested City Council waive the requirement for a sidewalk and also requested that they not be required to pay the fee in lieu of building a sidewalk. His reasons being (1) the construction of a sidewalk on this site would be very much out of keeping with the setting and surroundings because none of the other properties near the Church has a sidewalk and looking from their property, no sidewalks can be seen; (2) the area around the Church has a more rural quality than an urban one; (3) the area has a very low volume of pedestrian traffic; and (4) construction of a sidewalk will increase the financial burden of building the Church.

Vice-Mayor Cloninger explained that this is a relatively new program of requiring sidewalks or in some instances letting people pay a fee in lieu of constructing sidewalks. He said that Council expects that in some of the early construction projects like this, it may look funny if you require a sidewalk in front of the property such as yours, but what the hope is that, over time as there is other development along a road such as yours that the additional sidewalks will be put in and this is not something that will happen overnight, but we are hopeful that over time it will be. He hopes that if Council doesn't waive the requirement, it is with that in mind. We hope that it will be a pedestrian friendly area.

Councilwoman Field asked about if there was any alternatives for sidewalks, like pervious materials, that might be more in character with the neighborhood. City Traffic Engineer Michael Moule said that up to this point, the City Engineer has not allowed other alternative-types for sidewalks. In addition, the sidewalks would have to be ADA compliant.

Upon inquiry of Councilman Worley, Mr. Gajda said that they would not have to put in curb and gutter, only a flat five foot sidewalk.

Mr. Earl Metcalf, member of the Asheville Church of Christ, urged Council to waive the requirement for a sidewalk for all the same reasons explained by Reverend Hickman.

Councilwoman Field explained that it would cost approximately $5,000 to construct the sidewalk and if they were required to pay a fee in lieu of construction, that would be substantially more.

Mr. Metcalf said that if Council does not waive the requirement for a sidewalk to be constructed, he asked if Council would grant them a five year grace period to install the sidewalk.

Upon inquiry of Vice-Mayor Cloninger, Mr. Moule said that it is his understanding that the sidewalk would have to be constructed by the time a Certificate of Occupancy is issued, except in instances such as weather or unforeseen circumstances.

Councilwoman Field felt this is an appropriate place for a sidewalk but wondered if there might be a way of allowing the Church additional time within which to build the sidewalk, based on a traffic study of the area. Mr. Moule said that he did see how that could be enforced at a later date.

Discussion then surrounded the residential nature of the area and the opportunity for additional growth in the area.

Reverend Hickman said that he discussed with the City Engineer the issuance of a temporary Certificate of Occupancy, however, the maximum time period is only 90 days. He asked City Council to allow them an extended period of time within which to construct the sidewalk because he felt it would not violate the intent or purpose of the ordinance.

City Attorney Oast said that as a procedural matter, City Council has the authority to delay implementation of the sidewalk.

Assistant City ~~Attorney~~ Manager mb Doug Spell said that in situations where landscaping cannot be accommodated at a certain time, there have been situations where a bond has been posted by the owner and it is their responsibility to post that bond in the amount of the improvement. That could typically be six months or a year and staff would work with them on that.

Councilwoman Field suggested this matter be remanded back to City staff to see if they can work something out.

Vice-Mayor Cloninger said that it seems like there is a consensus with Council that a sidewalk should be constructed at this location. Therefore, he suggested staff work with the Church to come up with some proposal as to when and how the sidewalk would be constructed.

Vice-Mayor Cloninger moved to deny the request to waive the UDO requirement for a sidewalk along 33 Broadview Drive and to instruct City staff go beyond normal circumstances and work with the Church officials on how and when the sidewalk will be constructed. If staff does not have the existing authority to accomplish the proposal, then staff is to report back to Council. This motion was seconded by Councilman Peterson and carried unanimously.

H. ORDINANCE NO. 2712 - ORDINANCE ADOPTING THE 2000-01 ANNUAL OPERATING BUDGET AND CAPITAL IMPROVEMENTS PROGRAM

Mayor Sitnick said that this public hearing was held on June 6, 2000.

Budget Director Ben Durant said that the Fiscal 2000/2001 Annual Operating Budget was presented to City Council on May 18, 2000. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Budget along with a notice of the public hearing was published on May 26 and June 2, 2000. The City Council conducted a public hearing on the budget on June 6, 2000.

The Fiscal Year 2000/2001 Annual Operating Budget is balanced with a tax rate of $0.56 per $100 of assessed valuation which represents a $0.04 property tax rate increase over the current property tax rate. The $0.04 property tax rate increase breaks down to $0.02 being dedicated to street maintenance and repairs, $0.01 dedicated to parks and recreation capital projects and $0.01 dedicated to the establishment of a Housing Trust Fund. All essential City programs and services are maintained.

The Budget as currently presented to City Council includes a net budget of $84,042,652 and a General Fund appropriation of $63,116,468. This budget provides $1.6 million in new funding for an enhanced street maintenance and repair program, new parks and recreation capital projects, and the establishment of a Housing Trust Fund. Key items for Council's review are summarized and discussed below:

- An additional appropriation of $35,000 for traffic calming measures, which is balanced with a revised property tax revenue estimate, has been added to the Fiscal Year 2000/2001 Annual Operating Budget that is currently presented to Council.

- Outside Agency funding is presented in accordance with the Outside Agency Committee recommendations to allow most agencies that currently receive City funding to receive the same appropriation for Fiscal Year 2000/2001 as originally appropriated in Fiscal Year 1999/2000.

- Council requested additional information from the Economic Development Commission (EDC) regarding the number of voting seats the City would receive on EDC's board as part of the consideration of a $50,000 contribution from the City. A $50,000 appropriation to EDC is included in the budget that is currently presented to Council.

- Civic Center Fees have been drafted to reflect the waiving of increased arena changeover fees during hockey season for trades show tenants that have held shows each of the past three years. Based on staff's research, the shows that would be eligible for this consideration are the following: Spring Home Show, Boat Show, RV Show, Craft Fair of the Southern Highlands, and High Country Christmas Craft Fair.

  The estimated cost to the Civic Center for waiving the changeover fees is approximately $40,000. Thus, the Civic Center budget has been increased by $40,000 and is offset with an additional subsidy of $40,000 from the General Fund.

Staff requests that City Council review the Fiscal Year 2000/2001 Annual Operating Budget and make necessary recommendations or adjustments followed by adoption of the Budget Ordinance.

Upon inquiry of Councilwoman Field, Mr. Durant said that the total outside agency funding request is $333,000.

Councilman Peterson supported the increased recycling program, however, he suggested City Council find another way to fund that program, other than increasing the fee.

City Manager Westbrook said that this increase was authorized by City Council on February 22, 2000, and that is not part of this budget proposal.

Civic Center Director David Pisha responded to questions from Councilwoman Whitmire regarding promotions at the Civic Center. In particular, she wanted to know how many events did the Chamber of Commerce book for the Civic Center.

With regard to outside agency funding requests, Councilwoman Whitmire explained her recommended changes: the Chamber of Commerce receive $85,000; the Economic Development Commission receive $25,000; Mountain Center for Substance Abuse Prevention receive $3,000; Asheville Area Arts Council receive $15,000; RiverLink receive $18,000; One Youth at a Time receive $8,000; Life on Life's Terms receive $5,000; Project STEAM receive $5,000; The Health Adventure receive $5,000; Sister Cities receive $2,000; YWCA receive $20,000; Our Next Generation receive $5,000; WNC Historical Association receive $15,000; and the Community Relations Council receive $63,000. Of the savings, $15,000 should go to promotions of the Civic Center and the reset to go back into the General Fund.

Vice-Mayor Cloninger felt that City Council has a good faith obligation to advise the agencies at least a year or two in advance that funding will be reduced or phased out entirely. He felt that for some of the new non-profits, if Council were to substantially reduce their funding without any notice to them so they have a chance to plan for it, it could really be a hardship and he didn't think that would be fair. He said that the Outside Agency Committee will be reviewing the funding guidelines for next year but this year he felt Council should stay with the status quo.

Mayor Sitnick said that she would look forward to seeing a recommendation from the Outside Agency Committee about funding the agencies differently next year. She did agree that we need to give agencies at least a year notice that monies might change. She would also like to consider that outside agency funding be for a year or two as seed money for some of these agencies and then let them find other ways to fund themselves so we might use that money to fund other projects that come along.

It was the consensus of City Council to discuss each outside agency funding request separately as follows:

Asheville-Buncombe Community Relations Council

Approved in 1999-00 - $63,000
Requested in 2000-01 - $63,000
Committee Recommended - $63,000

After discussion, it was the consensus of City Council to appropriate $63,000 to the Asheville-Buncombe Community Relations Council.

Asheville Area Arts Council

Approved in 1999-00 - $30,000
Requested in 2000-01 - $75,000
Committee Recommended - $30,000

After discussion, it was the consensus of City Council to appropriate $30,000 to the Asheville Area Arts Council. Councilwoman Whitmire recommended $15,000.

Asheville-Buncombe VISION Inc.

Approved in 1999-00 - $15,000
Requested in 2000-01 - $20,000
Committee Recommended - $15,000

After discussion, it was the consensus of City Council to appropriate $15,000 to the Asheville Buncombe VISION Inc. Councilwoman Whitmire and Councilman Peterson recommended no funding.

Visitor's Center

Approved in 1999-00 - Zero
Requested in 2000-01 - $100,000
Committee Recommended - $100,000

After discussion, it was the consensus of City Council to appropriate $100,000 to the Visitor's Center. Mayor Sitnick and Councilman Peterson recommended no funding and Councilwoman Whitmire recommended $85,000.

Buncombe County Economic Development Commission

Approved in 1999-00 - Zero
Requested in 2000-01 - $50,000
Committee Recommended - $50,000

In response to the June 6, 2000, worksession with City Council, Mr. Ernest Ferguson, Chair of the Buncombe County Economic Development Commission (EDC), asked City Council to consider the following: (1) $50,000 funding; (2) one voting member on the EDC; (3) in addition to the voting member, the EDC would extend to the Council one additional ex-officio non-voting member. In all, the City would have one voting member and three ex-officio non-voting members on the EDC; and (4) following adoption of the budget, the EDC and the City would identify mutually beneficial components of the Program of Work where the requested funds would be spent.

After discussion, it was the consensus of City Council to appropriate $50,000 to the Economic Development Commission, however, prior to making the payment, City Council would like to discuss with the EDC how the funding might be used with regard to the City's Sustainable Economic Development Strategic Plan. Mayor Sitnick and Councilman Peterson recommended no funding and Councilwoman Whitmire recommended $25,000.

Asheville Sister Cities Inc.

Approved in 1999-00 - $2,000
Requested in 2000-01 - $2,000
Committee Recommended - $2,000

After discussion, it was the consensus of City Council to appropriate $2,000 to the Asheville Sister Cities Inc.

Life on Life's Terms Inc.

Approved in 1999-00 - $5,000
Requested in 2000-01 - $20,000
Committee Recommended - $5,000

After discussion, it was the consensus of City Council to appropriate $5,000 to Life on Life's Terms Inc.

Mountain Center for Substance Abuse Prevention

Approved in 1999-00 - $30,000
Requested in 2000-01 - $39,500
Committee Recommended - $30,000

After discussion, it was the consensus of City Council to appropriate $30,000 to the Mountain Center for Substance Abuse Prevention. Councilwoman Field and Councilman Peterson recommended no funding and Mayor Sitnick stated that she wanted to cut the funding. Mayor Sitnick suggested reallocating the $30,000 between the YWCA and the WNC Historical Association Inc.

One Youth At A Time, Inc.

Approved in 1999-00 - $10,000
Requested in 2000-01 - $18,000
Committee Recommended - $10,000

After discussion, it was the consensus of City Council to appropriate $10,000 to One Youth At A Time Inc.

Project STEAM

Approved in 1999-00 - $5,000
Requested in 2000-01 - $25,000
Committee Recommended - $5,000

After discussion, it was the consensus of City Council to appropriate $5,000 to Project STEAM.

RiverLink Inc.

Approved in 1999-00 - $18,000
Requested in 2000-01 - $25,000
Committee Recommended - $18,000

After discussion, it was the consensus of City Council to appropriate $18,000 to RiverLink Inc.

The Health Adventure

Approved in 1999-00 - $5,000
Requested in 2000-01 - $20,000
Committee Recommended - $5,000

After discussion, it was the consensus of City Council to appropriate $5,000 to The Health Adventure. Councilwoman Whitmire recommended the $5,000 be reallocated to the YWCA.

Councilwoman Field spoke in support of the one-time funding of Our Next Generation.

Councilman Hay supported funding the YWCA, the WNC Historical Association Inc. and Our Next Generation. He suggested if City Council agreed with him, that Council agree upon an amount for the three and then set that aside to see if Council can find some extra funds to allocate to them.

Councilman Peterson spoke in support of the one-time funding of the WNC Historical Association Inc.

After discussion, it was the consensus of Council to fund the WNC Historical Association Inc. $20,000, the YWCA $15,000 and Our Next Generation $5,000.

Councilman Worley explained why he now advocates a two-cent property tax increase – one cent for the Housing Trust Fund and one cent for street and sidewalk maintenance. He felt that if we hold the increase to two cents, we can look forward to the additional revenues that will come in from annexation a year from now.

Vice-Mayor Cloninger stated that presentations by the Public Works Director noted that nothing short of two cents was going to adequately address our terrible road conditions. He supported the four cent tax increase noting that no one on Council wants or likes to raise taxes. He felt City Council will be doing a disservice to the residents if they don't start addressing some of the most pressing needs of the community.

Councilwoman Whitmire emphasized the cumulative effect of increases of fees and taxes. She did not support the meter increase from 60 cents to 75 cents, however, she did not oppose the increase in parking deck fees. She felt Council should cut the expense of the recycling program and postpone the development of a new parking deck. She felt the City needs to do more promotions of the Civic Center. With regard to cost savings, she proposed (1) delaying the filling of vacant positions for at least six months and use the cost savings to support street maintenance; and (2) cut the proposed permit increases by 50%. She was also opposed to the increase of $250 to $500 fee for flag football. She also felt the property tax increase should be held to two cents – one cent for the Housing Trust Fund and one cent for the streets and sidewalks maintenance program.

Councilman Peterson suggested reducing the General Fund operating costs to fund some part of the streets and sidewalks repair program. He did support increasing the property tax by two cents – one cent for the Housing Trust Fund and one cent for the parks and recreation programs.

Councilwoman Field said that the City does receive approximately $2.3 Million annually in Powell Bill money. About $1.3-$1.6 Million goes to pay off the debt service on the Street and Sidewalk Bonds from 1986. When those bonds are up, that money can go back into streets and sidewalks. If Council does raise taxes for streets and sidewalks, she would like to see Council set a policy of a sunset on that tax increase. She noted that in general, the ad valorem property taxes cover only the costs of police and fire and .everything else that the City does comes from other sources of revenue. She suggested raising the property tax by three cents and divide it up some reasonable way.

Councilman Hay spoke in support of the four cent tax increase and that decisions were made poorly in the past and now this Council is faced with making the tough decisions.

Mayor Sitnick stressed that prior administrations have passed the buck for years and she doesn't know of any business (other than CP&L) who has not raised their prices in the last ten years. The Water Authority started raising their rates three years ago in part because for years those who preceded the current Water Authority deferred raising rates incrementally to pay for the needs demanded by the water system. The increases proposed by City Council will address the needs of the community in order to keep the City healthy, vital and prosperous. She requested a complete review of the outside agency monies and a complete review of festivals. She stressed the need to review the Water Agreement to find areas where there can be cost savings to our taxpayers. She spoke in support of all three programs proposed by the four cent tax increase. She felt if City Council does not adopt this tax increase, they will pass along to the next administration a worse situation than they are having to deal with now.

Councilwoman Whitmire again stated that she did not support the meter increases from 60 cents to 75 cents. She suggested cutting one of the new enforcement positions to off-set the increase. After discussion, it was the consensus of City Council to leave the budget as it is currently presented. Councilwoman Whitmire did not support this.

Councilwoman Whitmire suggested the postponement of the development of the new parking deck. After discussion, it was the consensus of City Council to leave the budget as it is currently presented. Councilman Peterson and Councilwoman Whitmire did not support this.

Councilwoman Whitmire felt the City of Asheville should do their own promotions of the Civic Center. Councilman Hay explained that the Civic Center does not promote acts because of the risk factor, however, he did agree that the City should support marketing the Civic Center.

Councilwoman Whitmire requested the delay of filling vacant positions for six months and that those savings go into the streets and sidewalks maintenance program. City Manager Westbrook explained his reasoning why he would not recommend this suggestion.

When Councilwoman Whitmire requested the inspection fees be cut by 50%, Building Safety Director Terry Summey explained the fees are for commercial permits only.

When Councilwoman Whitmire spoke in opposition of raising the flag football entry fee from $250 to $500, Parks and Recreation Director Irby Brinson explained that it is their philosophy that adult athletic leagues pay for most of the costs associated with that program. The youth flag football do not pay anything. He explained the adult program is so successful that the teams almost tripled over the year. Therefore, the City had to increase their costs and this is just prorating the costs associated to cover this increase. Broken down it is $3 a game per person. After discussion, it was the consensus of City Council to leave the budget as it is currently presented. Councilman Peterson and Councilwoman Whitmire did not support this.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.;

City Manager Westbrook recommended that if City Council wanted to fund the WNC Historical Association Inc., the YWCA and Our Next Generation, that Council instruct staff to take that money out of Fund Balance.

Vice-Mayor Cloninger moved to adopt the 2000-01 Annual Operating Budget and Capital Improvements Program to include: (1) a $0.04 property tax rate increase over the current property tax rate; (2) adding $35,000 to traffic calming for a total of $100,000; (3) $50,000 for

236

the Economic Development Commission (included in the outside agency funding requests), with the provision that prior to making the payment, City Council would like to discuss with the EDC how the funding might be used with regard to the City's Sustainable Economic Development Strategic Plan; and (4) changing the Civic Center fee schedule in the amount of $40,000 and offset that with an additional subsidy from the General Fund. This motion was seconded by Councilman Hay and carried on a 4-3 vote, with Mayor Sitnick, Vice-Mayor Cloninger, Councilwoman Field and Councilman Hay voting "yes".

ORDINANCE BOOK NO. 18 – PAGE

At 10:08 p.m., Mayor Sitnick announced short break.

V. NEW BUSINESS:

A. MOTION APPOINTING MEMBERS TO THE FUTURE OF THE CIVIC CENTER TASK FORCE

Councilman Hay, Chair of the Future of the Civic Center Task Force, said that it is necessary to appoint two new members to the Task Force and suggested appointing Mike Kryzanek to replace John Weinkenwerder and Tom Byers to replace Barbara Halton.

Councilman Worley moved to appoint Mike Kryzanek and Tom Byers as members to the Future of the Civic Center Task Force. This motion was seconded by Councilwoman Field and carried unanimously.

VI. OTHER BUSINESS:

A. PUBLIC ACCESS CHANNEL COMMISSION

As requested by Vice-Mayor Cloninger, it was the consensus of City Council to support the Public Access Channel Commission by agreeing to reimburse one of the members approximately $2,000 to cover their expenses of attending an important conference in July 2000.

B. SUSTAINABLE ECONOMIC DEVELOPMENT STRATEGIC PLAN IMPLEMENTATION TASK FORCE

Mayor Sitnick reminded City Council that if they had any names to suggested be added to the Sustainable Economic Development Strategic Plan Implementation Task Force that they give those names to her by June 16, 2000.

C. OUTSIDE AGENCY REQUESTS

Councilwoman Field moved to adjust $40,000 from Fund Balance for the three outside agency as follows: (a) WNC Historical Association Inc. - $20;000. (b) YWCA - $15,000; and (c) Our Next Generation - $5,000. This motion was seconded by Councilwoman Whitmire and carried on a 6-1 vote, with Vice-Mayor Cloninger voting "no". Vice-Mayor Cloninger stated again that he felt that before Council takes on new endeavors, that they should have their new policy in place.

237

D. CLAIMS

The following claims were received by the City of Asheville during the period of May 12 – June 1, 2000: Paul M. Butler (Sanitation), Bell South (Water), Ricky B. Scott (Water), Wayne S. Robbins (Police), Lynn Austin (Water), Joyce Slagle (Police) and Rita Lunsford (Streets).

The following claims were received by the City during the period of June 2-8, 2000: Allen Rodderick (Water), Debra Franklin (Water), Helen Baird (Water) and Deborah Farmer (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

E. LAWSUITS

The City received the following Complaint on May 25, 2000: County of Buncombe v. Lillian Buckner and Jack Buckner, Stan Hawkins as Trustee, NationsCredit Financial Services Corp. and the City of Asheville. The nature of the proceeding is tax foreclosure proceedings for unpaid real estate taxes. This matter will be handled in-house.

The City received the following Complaint on May 30, 2000: William Robert Anderson, et al, v. City of Asheville and Crowell Properties, LLC. The nature of the proceeding is a protest petition relative to the rezoning of Crowell properties. The matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 20, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilwoman Terry Bellamy (formerly Whitmire) and Councilman Brian L. Peterson

CONSENT:

Budget amendment for Urban Trail Stations

Summary: The consideration of a budget amendment, in the amount of $45,250, to reflect increased project costs for three Urban Trail Stations, which increase will be covered by private donations and will not require any additional City funds.

Costs for the City of Asheville Urban Trail for Station #10-"Grove's Vision" were estimated to be $10,300. The scope of the project has been expanded so that the project costs are now estimated at $20,000, a net increase of $9,700.

Costs for Station #16-"Legacy of Design" were estimated to be $6,600. The decision was made to add not only a decorative bench, but also a sculpture of a young boy leaning against the bench. This increased the cost of the station to $25,000, an increase of $18,400.

Costs for Station #18-"Wolfe's Neighborhood" were estimated to be $9,000. Plans have been changed to create a more elaborate station, increasing the budget to $26,150, an increase of $17,150.

Donors have been identified and commitments received for the full amount of Stations #10 and #16 and part of #18. Efforts are under way to raise the additional funds for Station #18. No City funds will be required for the completion of any of these stations.

The Parks and Recreation Department is responsible for the maintenance, management and development of the Urban Trail. The program is a result of a collaborative partnership between the City of Asheville and many different private individuals, organizations, and foundations under the guidance of the Urban Trail Committee. Twenty-four of the thirty stations planned for the Trail are now completed. Three bronze cats are being designed for installation this summer on Wall Street as Station #9. Four other stations including the three for which increased funding is requested are under design and scheduled for completion by spring. Plans are still under discussion for Station #1, but it is anticipated that the entire Trail will be completed on schedule by the end of 2001. All of the artwork and plaques on the Trail have been funded by outside funds.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $45, 250, to increase the Urban Trail capital budget.

Budget Amendment regarding Municipal Building

Summary: The consideration of a budget amendment, in the amount of $471,676, to appropriate additional funds to the Municipal Building capital project from revenues received from Asheville City Schools, additional proceeds from the sale, plus interest earned on the proceeds of the Certificates of Participation (COPs).

In 1997, City Council appropriated $14,719,229 from COPs proceeds and anticipated interest earnings for the renovation of the Municipal Building, the Old Water Maintenance Building and the roof of City Hall. These projects were approved unanimously by City Council in an effort to address ongoing maintenance and upgrades needed for the facilities. Because of improvements to the Municipal Building, it was necessary for the Asheville City Schools to relocate from the Municipal Building to the Old Water Maintenance Building. Part of the agreement with Asheville City Schools included a reimbursement to the City of Asheville for improvements made to the Old Water Maintenance Building that were above and beyond what was required for them to occupy the space. A total of $49,350 revenue received from Asheville City Schools should be appropriated into the Municipal Building account in order to complete additional renovation to this facility. Additionally, an extra $273,032 was realized on the sale of the COPs and $149,294 has been earned in interest above the amounts included in the 1997 appropriations. Both of these sources are available for appropriation to the Municipal Building project at this time. These additional funds will allow for completion of the Municipal Building project without further appropriation by the City of Asheville through fund balance.

The Parks and Recreation Department requests approval of the budget amendment, in the amount of $471,676 , to be appropriated to the Municipal Building renovation project.

Budget Amendment regarding Grant for Broadway Greenway

Summary: The consideration of a budget amendment, in the amount of $21,940, for an appropriation from the Pigeon River Fund for the Broadway Greenway.

The City of Asheville applied for grant funds in March 2000 to the Pigeon River Fund. The grant was recently awarded in the amount of $21,940 and designated to pay for the cost to clean up 0.5 acre of private property along Reed Creek. The land will then be donated to the City for the Broadway Greenway.

On February 8, 2000, City Council authorized the Parks and Recreation Department to apply for and enter into an agreement with the Pigeon River Fund for a grant for $19,940. Since then, more elements were added to the project, which increased the amount to $21,940.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $21,940, to increase the budget for the Broadway Greenway.

Budget Amendment amending Regional Water Authority's 35 Fund

Summary: The consideration of a budget amendment for the 35 Fund to reflect the transfer of capital from the Fiscal Year 2000/2001 Water Fund Budget that was approved by the Authority on May 16, 2000, and to redistribute funds to better reflect the five-year Capital Improvements Plan.

The Fiscal Year 2000/2001 Water Fund Budget, which was adopted by the Regional Water Authority on May 16, 2000, and is effective July 1, 2000, includes $332,948 in Department-Wide expenses for projects to be performed in the Major Capital Projects Fund, broken down as follows:

Critical Needs State Grant Phase II – Final Matching Funds	$199,948
Master Plan Improvements	$100,000
Mills River Watershed Protection Project – Matching Funds	$ 33,000
(Third and Final Year of Match)	========
	$332,948

The budget amendment authorizes this $332,948 to be transferred effective July 1, 2000, from the new Fiscal Year 2000/01 Water Fund Budget to the Major Capital Projects Fund (Fund 35). The Critical Needs Grant Phase II Project and the Mills River Watershed Protection Project are already well into design and the transfer to Capital Projects Fund is needed early in the fiscal year. The funding under Master Plan Improvements will be set aside for oversizing and reimbursement agreements with developers so that water lines are built to meet sizing recommended by the Master Plan.

In addition to the transfer of funding for new Capital Projects from the Fiscal Year 2000/01 budget, the budget amendment also transfers $91,117 within the 35 Fund from its original designation to "Fiscal Year 1999/2000 Distribution System Improvements" and places these funds also in the Master Plan Improvements project. This better streamlines the program names in the fund without amending the purpose of the original appropriation.

The Fiscal Year 2000/2001 Water Fund Budget also will provide the revenue for the final payment of $68,599 on the N. C. Dept. of Transportation non-betterment project for Tunnel Road/South Tunnel Road. This project has already been appropriated to the 35 Fund but was designated to be funded by future revenues. In July 2000, the revenues for this payment will be transferred from the Water Fund to the 35 Fund, but this action does not require a new appropriation.

Staff recommends approval of the budget amendment to reflect an appropriation of the transfer to capital from the 30 Fund for Fiscal Year 2000/2001, in the amount of $332,948, and to redistribute funds to better reflect the five-year Capital Improvements Plan, effective July 1, 2000.

Budget Amendment for French Broad River Park IV

Summary: The consideration of a budget amendment, in the amount of $1,174,000, for the French Broad River Park IV as a result of grants and donations.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to build the first phase of French Broad River Park IV. Staff has developed an overall budget of $1,174,000 to develop the first phase of the park. In recent months, we have been successful in acquiring $621,500 in grants and donations. We anticipate raising the remaining funds in the next six to nine months through additional grants and donations. Please see a summary of our fundraising activities below.

City of Asheville:
Parks and Recreation Trust Fund $250,000
Private Donation $500

RiverLink:
Janirve Foundation $300,000
Pigeon River Fund $20,000
Winterberry Fund $50,000
French Broad River Garden Club $1,000

Pending:
Land and Water Conservation Fund $350,000
TEA21 $203,000

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $1,174,000 to increase the budget commencing the development of French Broad River Park IV.

Confirmation to Minority Business Commission

Summary: The consideration of a resolution confirming the appointment of Debra Flack Weaver, representative of the Minority Business Alliance, on the Minority Business Commission.

On May 26, 1998, City Council adopted Resolution No. 98-63 adopting a City-County Minority Business Plan.

The composition of the Minority Business Commission consists of 13 members from various groups. Each group provides a nominee for consideration and appointment by both the City Council and the Buncombe County Board of Commissioners.

Bonnie Love, representing the Minority Business Alliance, has resigned. The Minority Business Alliance has nominated Debra Flack Weaver to represent them on the Minority Business Commission. Ms. Weaver would serve the unexpired term of Ms. Love, term to expire August 1, 2001, or until her successor has been appointed.

City staff recommends City Council adopt the resolution confirming the appointment of Debra Flack Weaver on the Minority Business Commission.

Allowing the Possession and Consumption of Alcohol and Unfortified Wine at "Jammin With Classes of the 60's" Alumni Reunion on July 7, 2000

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the "Jammin With Classes of the 60's" Alumni Reunion on July 7, 2000.

The Asheville Parks and Recreation Department is submitting this request on behalf of "Jammin With Classes of the 60's" Alumni Reunion, a group unaffiliated with the City of Asheville and not co-sponsored, that the possession of open containers of malt beverages and/or unfortified wine and the consumption of malt beverages and/or unfortified wine be allowed at the "Jammin With Classes of the 60's" Alumni Reunion on July 7, 2000, from 6:00 p.m. to 11:00 p.m.

"Jammin With Classes of the 60's" Alumni Reunion is a celebration of High School Alumni at City-County Plaza on July 7, 2000. Entertainment, food, and vendor displays will be available.

The Asheville Parks and Recreation Department is submitting this request on behalf of "Jammin With Classes of the 60's" Alumni Reunion, for approval of the possession and consumption of malt beverages and/or unfortified wine at the "Jammin With Classes of the 60's" Alumni Reunion on July 7, 2000.

Allowing the Possession and Consumption of Alcohol and Unfortified Wine at Bele Chere Festival on July 28-29, 2000

Summary: The consideration of a resolution making provisions for the possession and consumption of open containers of malt beverages and/or unfortified wine at the Bele Chere Festival at the time and location shown on the resolution.

The Bele Chere Festival is a community celebration produced by the City of Asheville's Parks and Recreation Department and the Bele Chere Board of Directors.

The Asheville Parks and Recreation Department recommends approval of the resolution at the times and dates as stated in the resolution.

Police Grant – Community Policing Geographic Information System Project

Summary: The consideration of (1) a resolution authorizing the City Manager to accept a grant award from the North Carolina Department of Crime Control and Public Safety, Division of the Governor's Crime Commission, in support of a community policing Geographic Information System (GIS) Project and an associated budget amendment.

The Governor's Crime Commission has awarded the City of Asheville a grant in the amount of $63,465 in support of a community policing GIS Project. A local match of $21,155 is required which will be appropriated from Contingency. The purpose of this project is to enable consolidation of most of the City's geographic information systems data and coordinate this application in support of the City's Community Oriented Government program.

City staff recommends City Council adopt the resolution authorizing the City Manager to accept the grant award and that Council adopt a budget amendment, in the amount of $63,465, to appropriate funds to the Police Department's budget.

Police Grant – Social Work and Employee's Partnership Project

Summary: The consideration of a resolution authorizing the City Manager to accept a grant award from the North Carolina Department of Crime Control and Public Safety, Division of the Governor's Crime Commission, in support of a social work and employee's partnership project and an associated budget amendment.

The Governor's Crime Commission has awarded the City of Asheville a two-year grant in the amount of $85,900 in support of a social work and employee's partnership project. The first year's grant is $44,400 and a local match of $14,800 is required which will be appropriated from Contingency. The purpose of this project is to reduce family violence issues contributing to chronic juvenile runaway behavior.

City staff recommends City Council adopt the resolution authorizing the City Manager to accept the grant award and that Council adopt a budget amendment, in the amount of $44,400, to appropriate funds to the Police Department's budget.

Request to N.C. Dept. of Transportation to Provide Raised Landscaped Median in Long Shoals Road Improvement Project

Summary: The consideration of a resolution requesting the N. C. Department of Transportation (NCDOT) provide a raised landscaped median in the Long Shoals Road improvement project.

The NCDOT is preparing plans to widen Long Shoals Road in accordance with the Transportation Improvement Program (TIP). The preliminary plans are for a five lane facility like Hendersonville Road. The Metropolitan Planning Organization (MPO) has asked that the NCDOT substitute a raised landscaped median for the unrestricted center turn lane. Staff is now requesting City Council to join the MPO in supporting a design change that would incorporate a raised landscaped median.

This design will have numerous benefits over the NCDOT's current plan. These benefits include:

- An improved appearance befitting a major City gateway;
- Improved traffic handling capacity due to fewer left turns;
- Improved opportunities for better land use management;
- Improved safety.

Additionally, the proposed raised median would be consist with the "gateway" concept discussed with and approved by Council earlier in the year.

As a final note, we have a verbal commitment from the Biltmore Park development to maintain the median landscaping proximate to their property. The NCDOT may ask the City to assume landscape maintenance over the remaining portions of the median within the City limits.

City staff recommends that Council approve the resolution requesting that the NCDOT amend its plans for Long Shoals Road to include a raised landscaped median.

Grant for Master Street Tree Plan Phase III

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into an agreement with the N. C. Department of Environment and Natural Resources for a grant to develop Phase III of the Master Street Tree Plan.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City right-of-ways located within the city limits of Asheville. The existing inventory is over fifteen years old and no longer accurately reflects the trees of the city. Phase III of the process will specifically identify the location, size, condition, and site conditions of trees located in the west district of Asheville. Phases I and II inventoried over 7,000 trees in the central and south districts, and were funded by the Urban and Community Forestry Grant Program. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department is requesting $9,873 in grant funds which requires a 100% match. The in-kind match is located in the Parks Division budget and will include supplies, transportation, volunteer hours, and project management.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the N.C. Department of Environment and Natural Resources in the Urban and Community Forestry Grant Program to assist with implementing the Master Street Tree Plan Phase III.

Accept Recommendations from Regional Water Authority to Award Construction Contracts for Critical Needs Phase I Water System Improvements

Summary: The consideration of resolutions confirming the award by the Regional Water Authority of a construction contract to Hobson Construction Company for Contract A; Cooper Construction Company for Contract B; and with Buckeye Construction Company for Contract 4 for the Critical Needs Phase I Water System Improvements.

Sealed bids were received and opened on Wednesday, May 24, 2000 for the Authority's Critical Needs Phase I / Contracts A, B & 4. Four (4) bids were received for Contract A with Hobson Construction Company submitting the low bid of $ 1,027,847.00. Contract A includes the installation of approximately 2,600 lf of 8-inch and 14,400 lf of 6-inch waterline. A complete list of bidders is provided below.

Three (3) bids were received for Contract B with Cooper Construction Company submitting the low bid of $ 836,459.00 Contract B includes the installation of approximately 13,500 lf of 6-inch and 1,600 lf of 4-inch waterlines. A complete list of bidders is provided below.

Three (3) bids were received for Contract 4 with Buckeye Construction Company submitting the low bid of $ 624,016.29. Contract 4 includes the installation of approximately 6,060 lf of 16-inch, 6,900 lf of 6-inch and 960 lf of 4-inch waterlines. A complete list of bidders is provided below.

Critical Needs Contract A - Engineer's Estimate: **$ 1,228,837**

COMPANY	BID
Hobson Construction Company, Arden, N.C.	$ 1,024,727.50
Cooper Construction Company, Hendersonville, N.C.	$ 1,230,233.00
Steppe Construction Company, Mill Spring, NC.	$ 1,369,735.00
J & L Specialty Equipment Company	$ 1,822,855.91

Critical Needs Contract B - Engineer's Estimate: **$ 1,029,257.00**

COMPANY	BID
Cooper Construction Company, Hendersonville, N.C.	$ 836,459.00
Steppe Construction Company, Mill Spring, N.C.	$ 1,020,105.00
Hobson Construction Company, Arden, N.C.	$ 1,052,180.00

Critical Needs Contract 4 - Engineer's Estimate: **$ 783,381**

COMPANY	BID
Buckeye Construction Company, Canton, N.C.	$ 624,016.29
Hobson Construction Company, Arden, N.C.	$ 675,927.50
Cooper Construction Company, Hendersonville, N.C.	$ 719,982.00

These three (3) projects comprise the Authority's Critical Needs Phase I program and are funded by the $ 3 million high unit cost grant the Authority received last year. These projects are focused on locations where our existing infrastructure is old, leaking and inadequate to maintain high levels of customer service.

These bids have been reviewed by the Office of Minority Affairs and this office has approved the award of each contract to the low bidder. McGill Associates, the project engineers for Contracts A & B, have recommended award of these contracts to the low bidder. The City Engineer's Office prepared Contract 4 and has recommended award of the low bid for that contract.

Each Contract has a liquidated damages clause of $ 250.00 per day for failure to complete the project in the time allocated.

The Policies and Priorities Committee of the RWA approved staff's recommendation for award of these construction contracts to the respective low bidders. The full Authority will consider their recommendation on June 20, 2000. City Staff recommends that City Council confirm the award by the Regional Water Authority.

Councilman Worley said that the Water Authority is given broad powers under the Water Agreement to carry out its duties, except in some instances, and the Authority's decisions and contract awards are binding without the necessity of City Council's approval. He felt these issues should be removed from Council's agenda. He asked the City Attorney to research this issue and report back to City Council at their next formal meeting.

Accept New Street Name of Carlyle Way

Summary: The consideration of a resolution accepting the new proposed street name "Carlyle Way."

Sweeten Creek Apartments, LLC, has petitioned the City of Asheville to accept the street name "Carlyle Way." The new street will be a cul-de-sac beginning at Sweeten Creek Road (US 25-A).

City staff recommends adoption of the resolution.

Accept New Street Name of Boddington Court

Summary: The consideration of a resolution accepting the new proposed street name "Boddington Court."

Southoaks of Buncombe, LLC., owners of lots in Southoaks Subdivision, has petitioned the City of Asheville to accept the street name "Boddington Court." The new street will be a cul-de-sac beginning at Racquet Club Road.

City staff recommends adoption of the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRESENTATION BY PACK SQUARE TASK FORCE ON THE REDESIGN OF PACK SQUARE

Ms. Carol King, Chair of the Asheville Downtown Commission, updated City Council on the events of the Downtown Commission and Pack Square Task Force with connection with the redesign of Pack Square, discussed where the Task Force will go from here, and requested City Council's support for them to continue with the project.

Mr. Jim Samsel, representing the Pack Square Task Force, presented Council with the comprehensive design concept of the redesign of Pack Square.

Ms. King and Mr. Samsel answered various questions from Council noting that this design concept has a lot of support from the community and the tourist industry.

Mayor Sitnick wanted to make sure that there was coordination with the Tree Commission, particularly with Dr. Orbison, when work commended on the City-County Plaza because there is a treasured dawn redwood tree in the Plaza area.

On behalf of City Council, Mayor Sitnick was grateful to all the people who have put so much time and effort in this wonderful project.

It was the consensus of City Council to have the Pack Square Task Force continue with this project.

UPDATE ON DIRECTIONAL SIGNS TO THE PARKING GARAGES

City Engineer Cathy Ball said that in December 1998, City Council adopted a comprehensive parking study that included over 60 recommendations to improve parking in Downtown Asheville, Biltmore Village and West Asheville. One of these recommendations was to install color-coded directional signs to the parking garages to encourage hourly and daily parking in the garages.

Ms. Ball said that in the Fall of 1999, she was selected to participate in Leadership Asheville. Each year Leadership Asheville requires that participants complete a project in an area of their choice. She, along with eight other participates, participated on the "Infrastructure Committee." The committee consisted of Yates Pharr with Biltmore Farms, Inc., John Oswald III with Mills Manufacturing Corp., Ellen Williams with Mission Hospital, Ian Robertson with Warren Wilson College, Charlotte Caplan with the City of Asheville, Scott Shealy with Citizens Fuel Company, Eric Barbour with BASF Corp., and Gary Roberts with Buncombe County.

The committee selected the project of designing the color-coded directional signs to the parking garages and identifying where the signs should be placed. The committee met several times from October 1999 to May 2000 to work on the project. The final product was a design for the sign and a map suggesting locations for the signs.

Along with the directional signs, banners will be placed on parking garages that match the assigned color. For instance, all signs leading to the Rankin Street Garage will be burgundy as well as the banners located on the garage.

This project was estimated to cost $85,000. City Council approved $45,000 for this project in the Fiscal Year 1999-00 budget and $40,000 in the Fiscal Year 2000-01 budget.

On behalf of City Council, Mayor Sitnick thanked the Leadership Asheville Committee for their work on this very important project.

UDO AMENDMENT REVIEWS

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on June 27, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Revision to Approval Process for Preliminary Plats for Major Subdivisions

Urban Planner Dan Baechtold said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the process for approval of preliminary plats for major subdivisions.

In response to direction provided by the Fast Trackers Development Review Team and the Sustainable Economic Development Plan, Planning and Development staff reviewed current processes to identify streamlining opportunities. The proposed preliminary plat review process change was identified as a way to improve the development review processes of the City. The Planning and Zoning Commission, at their May 3, 2000, meeting, reviewed and recommended approval of an amendment to the UDO to revise the approval process for preliminary plats for major subdivisions. Major subdivisions are those subdivisions that require the construction of new streets and/or utilities or the dedication of new easements or rights-of-way. Under the current preliminary plat review process, the preliminary plat is reviewed and approved by the Planning and Zoning Commission following review and recommendation by the Technical Review Committee (TRC). The approval process currently requires approximately four weeks. The TRC would be authorized to review and approve preliminary plats for major subdivisions by the proposed amendment. Time required for review and approval of preliminary plats would be reduced to two weeks. Public notification of proposed subdivisions would be provided prior to the TRC meetings and the meetings are open to the public. The proposed ordinance amendment would streamline and improve the preliminary plat review process with no reduction in the quality of the review process.

The Planning and Zoning Commission voted 6-0 to recommend approval of the wording amendment regarding the preliminary plat approval process for major subdivisions. The Planning and Development staff recommends approval of the wording amendment.

Mayor Sitnick stressed that since the TRC is being given more approval authority, it is very important that more publicity be given to their meeting schedule and that every possible means of notification be given for projects before the TRC.

Revision for Maximum Footprint for Accessory Structures in Residential Districts

Mr. Baechtold said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the maximum footprint for accessory structures in residential districts.

Approximately 2-½ years ago, City Council approved an amendment to the UDO establishing a maximum footprint of 600 square feet for accessory structures in residential districts. Staff has received comments from the public that the current size limit for accessory structures is too restrictive. Staff reviewed the current standards, spoke with citizens regarding the standards, and worked with the Planning and Zoning Commission in revising the standards. The Planning and Zoning Commission at their May 3, 2000, meeting recommended the proposed ordinance amendment for approval. Maximum footprints for accessory structures in residential districts proposed by the ordinance amendment are:

Lot Size	Single Structure	Total – All Structures
< 1 acre	770 sq ft	1,000 sq ft
1 – 3 acres	1,200 sq ft	1,600 sq ft
> 3 acres	No limit	No limit

The other standards for accessory structures in residential districts (setback, building height, etc.) would remain unchanged. The proposed standards would meet the needs of the community for accessory structures adequate to meet their storage needs while protecting neighboring residential properties from obtrusive structures.

The Planning and Zoning Commission voted 6-0 to recommend approval of the wording amendment establishing revised maximum footprints for accessory structures. The Planning and Development staff recommends approval of the wording amendment.

Revision to Approval and Review Process for Duplexes, Triplexes and Quadraplexes in Single Family Zoning Districts and to Establish New Development Standards for these units

Planning and Development Director stated that a lot of innovative and creative information has come in from the community regarding this proposed amendment and City staff would like the opportunity to review that information. A revised ordinance will then be presented to the Planning & Zoning Commission for their recommendation to City Council. Therefore, he requested that City Council consider postponing (at their June 27, 2000, formal meeting) this public hearing until August 8, 2000.

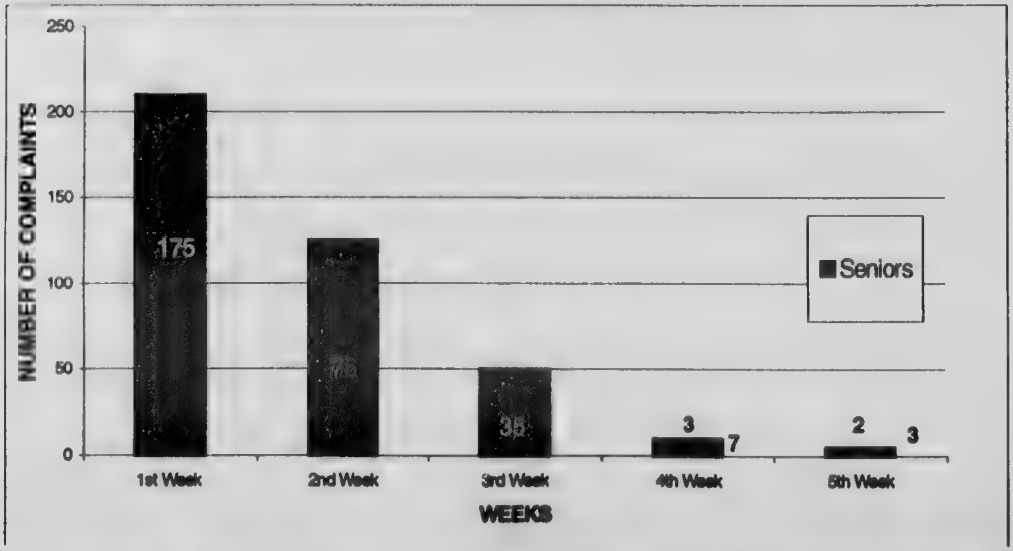
Councilman Worley mentioned a concern regarding the minimum lot size and asked that Mr. Shuford review it prior to submitting the ordinance back to the Planning & Zoning Commission.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on June 27, 2000.

REPORT ON AUTOMATED SIDE LOADER PILOT PROGRAM

Public Works Director Mark Combs updated City Council on the new pilot automated side-loading program which began on April 3, 2000.

On April 3, 2000, the Sanitation Division began servicing 3,332 households utilizing two each one-man automated side loading trucks and City-issued 96-gallon roll out carts. Since the implementation of the program staff has received approximately 400 calls or inquiries related to the pilot program. Additionally, one newspaper commentary and several letters to the editor were published in two local newspapers. All were related to level of service and roll out cart maneuverability. Approximately 270 (68%) of the callers identified themselves as elderly and were concerned with the bulk and potential weight of the roll out containers. In each case staff followed up on each complaint and visited callers at their residences, as necessary, and implemented or suggested innovative solutions to unique problems. By using a chart, Mr. Combs showed that there was a high anxiety from the senior population relative to the program;



however, complaints related to cart manipulation and volume have significantly decreased since the program's start. The volume of concerns/ complaints has remained low (approximate to week 5 levels).

Staff identified a need for smaller containers for special situations, elderly people and low volume waste households. Two hundred 66-gallon containers have been ordered to meet these needs. Expected delivery is late June or early July.

Other service complaints related to volume (one 96-gallon container versus maximum six 30 gallon containers) have come from duplexes, triplexes and quadraplexes related to the additional $2.50 per month container fee. To date, only 57 households (1.7%) ordered one additional container. This indicates to staff that the majority of pilot area customers have sufficient volume for the scheduled service frequency. Additionally, curbside recycling services will be expanded in July to include mixed paper which will further save potential solid waste volumes. A maximum of six recycling bins are allowed per household.

Information from other communities who have implemented similar programs indicate a pattern of initial concern from customers over the viability of such service (and equipment). Staff will continue to be proactive in providing information to customers and seeking solutions to their problems.

Mr. Combs answered several questions from Council regarding the pilot program.

AUTHORITY TO DEMOLISH FIRE DAMAGED CITY BUILDING AT AIRPORT

Mr. John Miall, Risk Manager, said that this is the consideration of a resolution (1) authorizing the demolition of the remaining structure known as the FAA building on the southeast side of Airport Road across from the Asheville Regional Airport, (2) authorizing the City Manager to accept the actual cash value after applicable deductible from the City's carrier for the property loss, and (3) authorizing the use of net proceeds from insurance settlement for professional assessment and planning services to prepare plans for potential use of clean site for economic development purposes; and an associated budget amendment.

In the 1960's the City constructed a wood frame structure of approximately 1152 square feet. Said structure was valued for replacement cost under the City's property insurance program at approximately $125,000.

Since the building was constructed it has housed by way of a lease agreement the Regional offices and shop facilities for the FAA at a monthly rate of $747. Negotiations were, as of December 1999, under way to increase that rent upon renewal to a market rate of $817 per month. FAA had agreed in principal to that rate.

On December 30, 1999, a fire in that building caused serious damage necessitating the FAA to relocate its offices and repair shop to facilities on the airport property in space managed by the Airport Authority. Members of the Asheville-Buncombe Arson Task Force concluded the likely cause of the fire was overheated ballast in a fluorescent light fixture.

Templeton Construction Company was asked to prepare a written estimate to repair the damage to the building and a claim for damages was made with the City's property insurance carrier. Based upon the estimate of Templeton Construction Company, it was determined that repairs would cost approximately $82,627.14.

The City's coverage form allows for the replacement cost of structures lost due to insured perils is subject to a $10,000 deductible. Assuming the Templeton estimate is accurate the City could rebuild the building subject to the deductible being paid by the City.

Following conversations with the City Manager, City Attorney, and the Director of Economic Development it was decided that the continued leasing of that facility to the FAA at the previously agreed to rental amount would not be in the best interest of the City. It is believed that the subject property has developable commercial value far in excess of the continued rental and can serve as a resource to support future economic development activity.

Due to a provision in the City's insuring agreement, the City may opt not to rebuild the subject building and recover from the carrier its loss on a depreciated value the net sum after applicable deductible of $50,150.43.

Templeton Construction Company was asked to prepare a demolition estimate on the remaining structure. Including the cost of removing asbestos floor tiles in two of the rooms and disposing of them in a legally prescribed manner the total cost to demolish is $18,510. Net recovery after a settlement on actual cash value and demolition would be $31,640.43.

This resolution will authorize the City Manager to accept $50,150.43 actual cash value after applicable deductible from the City's carrier for the property loss. Eighteen thousand, five hundred and ten dollars ($18,510) from said recovery will be used to demolish and clean up the site. A budget amendment, in the amount of $50,150.43, is needed to demolish and clean up the site with the balance to be used for economic development of the site.

Based on the above facts, it is the recommendation of staff to accept the actual cash value settlement of $50,150.43 and to demolish the remaining structure and to use the net proceeds to secure appropriate professional services to determine the development potential of said property to its highest and best use.

When Mayor Sitnick hoped that the City would not have to spend the $31,000 on consultant fees to advise the City what to do with the property, City Manager Westbrook said that the City may not need a consultant at all.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

SMART GROWTH DEFINITION AND POLICIES

Planning and Development Director Scott Shuford said that as an outgrowth of the Sustainable Economic Development Task Force findings and City Council direction regarding Smart Growth development patterns, staff has been charged with creating a definition for Smart Growth that meshes with the City of Asheville's needs and characteristics.

He reviewed the draft Smart Growth Definition and Policies outlines issues relating to Smart Growth and sustainable development, provides a definition for Smart Growth based on local conditions and characteristics, and suggests several interim policies to guide staff in making land use and transportation decisions while the 2010 Plan is being updated and the Unified Development Ordinance is being amended.

City staff recommends that Council receive a presentation on Smart Growth and provide direction regarding the proposed definition and policies.

Discussion surrounded how the policies will guide staff in the day to day operations of City government.

Mr. Jim Bannon, Interim Project Director of Smart Growth Partners, and Mr. David Stewart, President of Smart Growth Partners, felt it was useful for the City and their organization to work together. They presented City Council with their principles for smart growth adopted on March 27, 2000.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REVISIONS TO CITY COUNCIL'S RULES OF PROCEDURE

It was the consensus of City Council to instruct the City Attorney to proceed with eliminating the requirement that City Council set public hearings in all applicable sections of the City Code and in all applicable sections of City Council's Rules of Procedure.

City Attorney Oast said that the actual setting of the public hearings will be handled administratively and a procedure will be set up to notify City Council when certain public hearings have been established. He said that he will work on the amendments and bring those back to Council for consideration.

NOISE ORDINANCE

City Attorney Oast said that in 1998 the City undertook a review of the noise ordinance, which was last revised in 1994. This was done largely in response to community concerns about the difficulty of enforcing the current ordinance. The review process included a well-attended community meeting, meetings among City staff, and with citizen representatives.

The problems that were identified included:

1) Difficulty in getting police response to noise complaints;
2) Even when citations are issued, courts are not receptive to enforcement; and
3) Some noises (barking dogs, boom boxes) are not sufficiently regulated.

There were also some matters that needed to be addressed legally.

The revised noise ordinance has several important features:

1. The basic "unreasonably loud and raucous" standard is retained. This has been upheld in State and federal cases, including the United States Supreme Court.

2. Certain types of activities are identified as tending to produce loud and disturbing noises or noise levels. The City cannot ban or regulate these activities except to the extent that they actually do constitute a disturbance, but they are enumerated for the purpose of putting the public on notice that certain activities are prone to generating complaints in certain circumstances.

3. Certain types of activities are exempted from the noise ordinance. This was done in recognition that such activities (a) may be necessary for the public health and safety; (b) are non-recurring and of limited duration; (c) are associated with civic or community-wide events; or (d) are subject to constitutional or other legal protection.

4. Civil penalty for violation. Under the current ordinance, the only means of enforcement are by criminal penalty ($50.00 fine/imprisonment) for misdemeanor infraction, or by equitable remedies (injunctions, etc.). There was no provision for civil penalty, and research discloses that this was specifically removed from a previous revision. As a practical matter, this means that the ordinance can only be enforced by the police, by a citizen swearing out a criminal warrant, or by the City initiating a civil action for injunctive relief. The use of civil penalties allows for escalating fines for repeat offenders.

5. Noise ordinance appeals board. To address the problems of "he said/she said," and to allow citizens an informal, but official, way of addressing noise based disputes, the ordinance establishes a hearing board with the power to adjudicate complaints and issue civil citations, and the power to consider appeals from citations issued by City staff. Appeals from the noise ordinance appeals board are to the City Manager.

6. Responsibility. The ordinance provides that the owner or occupant of property where a violation occurs may be liable for violations. Notice is required for owners who do not live on the premises.

If City Council agrees with the proposed revisions, adoption of the ordinance is recommended.

At the request of Councilman Hay, City Attorney Oast said that he would again review the basic "unreasonably loud and raucous" standard, with regard to the use of "raucous".

At the request of Councilman Worley, City Attorney Oast would amend Section 10-85 (m) to address public utilities working at night due to traffic considerations.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REQUEST TO GOVERNOR HUNT TO DISMISS THE ENVIRONMENTAL PROTECTION AGENCY'S LAWSUIT REGARDING THE IMPLEMENTATION OF AIR POLLUTION REDUCTION STANDARDS

Mayor Sitnick said that in 1999, North Carolina had the third highest number of violations of health standards for ozone pollution, just behind California and Texas. The Great Smoky Mountains National Park is now considered the most polluted National Park due to air pollution. She stressed that this air pollution crisis is having serious effects on our health, our natural resources, and our economy.

She explained why Governor Hunt's suing the Environmental Protection Agency (EPA) is not the way to go about cleaning up the air. She stated that she has received several letters from the medical community who support the City of Asheville doing something about our air quality. She asked if City Council would consider sending a resolution to Governor Hunt opposing North Carolina's actions against the EPA.

After discussion and at the suggestion of Vice-Mayor Cloninger, it was the consensus of City Council to investigate this issue further by obtaining additional information and to instruct the City Manager to arrange for Mr. Hugh Morton and a representative from the N. C. Department of Environment and Natural Resources to discuss this issue with City Council at an upcoming City Council formal meeting.

OTHER BUSINESS:

ORDINANCE NO. 2713 – ORDINANCE AUTHORIZING THE CITY OF ASHEVILLE TO LEVY A TAX ON GROSS RECEIPTS DERIVED FROM RETAIL SHORT-TERM LEASE OR RENTAL OF VEHICLES

City Attorney Oast said that at the City Council meeting last week, June 13, 2000, City Council adopted Resolution No. 00-95 which authorized the City of Asheville to levy a tax on gross receipts derived from retail short-term lease or rental of vehicles. He explained that instead of a resolution, the proper format should have been an ordinance. He therefore asked City Council to adopt the same language, only in ordinance form.

Councilman Worley moved to suspend the rules and take formal action on this item at this meeting. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

Mayor Sitnick said that members of Council have previously been furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2713. This motion was seconded by Councilman Hay and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 379

ASHEVILLE CIVIC CENTER – REGIONAL RESPONSIBILITY

At the request of Mayor Sitnick, it was the consensus of City Council to instruct the City Manager to arrange a meeting with representatives from UNC-Asheville, some local organizations and businesses, and representatives from the surrounding counties including Jackson, Haywood, Madison, Henderson, Transylvania and Buncombe, for the purpose of discussing the needs of the Asheville Civic Center and to discuss feelings towards cooperation for the Civic Center's needs.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 27, 2000 - 5:00 p.m.

Regular Meeting

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Brian L. Peterson; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Councilman Edward C. Hay Jr. and Councilwoman Terry Bellamy

INVOCATION

Councilman Worley gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JULY 2000 AS "NATIONAL RECREATION AND PARKS MONTH"

Vice-Mayor Cloninger read the proclamation proclaiming July, 2000, as "National Recreation and Parks Month" in the City of Asheville. She presented the proclamation to Ms. Susan Roderick, who briefed City Council on some activities taking place during the month.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 13, 2000

B. RESOLUTION NO. 00-99 - RESOLUTION AWARDING THE BID FOR 135 CHERRY STREET TO NEIGHBORHOOD HOUSING SERVICES INC.

Summary: The consideration of a resolution authorizing the Mayor to execute necessary documents for the conveyance of 135 Cherry Street (Disposal Parcels 6D) the Head of Montford Redevelopment Project Area to Neighborhood Housing Services Inc. in the amount of $105,000.

On June 13, 2000 the City Council directed the City Clerk to advertise for upset bids on 135 Cherry Street. The advertisement ran in the Asheville Citizen-Times on June 16, 2000, as provided in N. C. Gen. Stat. sec. 160A-269. No response was received. Therefore, the offer to purchase from Neighborhood Housing Services of Asheville Inc. in the amount of $105,000 was not upset and the sale to Neighborhood Services of Asheville Inc. should be approved.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 58

C. ORDINANCE NO. 2714 - BUDGET AMENDMENT TO REFLECT INCREASED PROJECT COSTS FOR THREE URBAN TRAIL STATIONS, WHICH INCREASE WILL BE COVERED BY PRIVATE DONATIONS

Summary: The consideration of a budget amendment, in the amount of $45,250, to reflect increased project costs for three Urban Trail Stations, which increase will be covered by private donations and will not require any additional City funds.

Costs for the City of Asheville Urban Trail for Station #10-"Grove's Vision" were estimated to be $10,300. The scope of the project has been expanded so that the project costs are now estimated at $20,000, a net increase of $9,700.

Costs for Station #16-"Legacy of Design" were estimated to be $6,600. The decision was made to add not only a decorative bench, but also a sculpture of a young boy leaning against the bench. This increased the cost of the station to $25,000, an increase of $18,400.

Costs for Station #18-"Wolfe's Neighborhood" were estimated to be $9,000. Plans have been changed to create a more elaborate station, increasing the budget to $26,150, an increase of $17,150.

Donors have been identified and commitments received for the full amount of Stations #10 and #16 and part of #18. Efforts are under way to raise the additional funds for Station #18. No City funds will be required for the completion of any of these stations.

The Parks and Recreation Department is responsible for the maintenance, management and development of the Urban Trail. The program is a result of a collaborative partnership between the City of Asheville and many different private individuals, organizations, and foundations under the guidance of the Urban Trail Committee. Twenty-four of the thirty stations planned for the Trail are now completed. Three bronze cats are being designed for installation this summer on Wall Street as Station #9. Four other stations including the three for which increased funding is requested are under design and scheduled for completion by spring. Plans are still under discussion for Station #1, but it is anticipated that the entire Trail will be completed on schedule by the end of 2001. All of the artwork and plaques on the Trail have been funded by outside funds.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $45, 250, to increase the Urban Trail capital budget.

ORDINANCE BOOK NO. 18 – PAGE 383

D. RESOLUTION NO. 00-100 - RESOLUTION CONFIRMING THE APPOINTMENT OF DEBRA FLACK WEAVER, REPRESENTATIVE OF THE MINORITY BUSINESS ALLIANCE, TO THE MINORITY BUSINESS COMMISSION

Summary: The consideration of a resolution confirming the appointment of Debra Flack Weaver, representative of the Minority Business Alliance, on the Minority Business Commission.

On May 26, 1998, City Council adopted Resolution No. 98-63 adopting a City-County Minority Business Plan.

The composition of the Minority Business Commission consists of 13 members from various groups. Each group provides a nominee for consideration and appointment by both the City Council and the Buncombe County Board of Commissioners.

Bonnie Love, representing the Minority Business Alliance, has resigned. The Minority Business Alliance has nominated Debra Flack Weaver to represent them on the Minority Business Commission. Ms. Weaver would serve the unexpired term of Ms. Love, term to expire August 1, 2001, or until her successor has been appointed.

City staff recommends City Council adopt the resolution confirming the appointment of Debra Flack Weaver on the Minority Business Commission.

RESOLUTION BOOK NO. 26 – PAGE 59

E. RESOLUTION NO. 00-101 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2000 BELE CHERE FESTIVAL JULY 28-29, 2000

Summary: The consideration of a resolution making provisions for the possession and consumption of open containers of malt beverages and/or unfortified wine at the Bele Chere Festival at the time and location shown on the resolution.

The Bele Chere Festival is a community celebration produced by the City of Asheville's Parks and Recreation Department and the Bele Chere Board of Directors.

The Asheville Parks and Recreation Department recommends approval of the resolution at the times and dates as stated in the resolution.

RESOLUTION BOOK NO. 26 – PAGE 60

F. ORDINANCE NO. 2715 - BUDGET AMENDMENT FOR THE MUNICIPAL BUILDING

Summary: The consideration of a budget amendment, in the amount of $471,676, to appropriate additional funds to the Municipal Building capital project from revenues received from Asheville City Schools, additional proceeds from the sale, plus interest earned on the proceeds of the Certificates of Participation (COPs).

In 1997, City Council appropriated $14,719,229 from COPs proceeds and anticipated interest earnings for the renovation of the Municipal Building, the Old Water Maintenance Building and the roof of City Hall. These projects were approved unanimously by City Council in an effort to address ongoing maintenance and upgrades needed for the facilities. Because of improvements to the Municipal Building, it was necessary for the Asheville City Schools to relocate from the Municipal Building to the Old Water Maintenance Building. Part of the agreement with Asheville City Schools included a reimbursement to the City of Asheville for improvements made to the Old Water Maintenance Building that were above and beyond what was required for them to occupy the space. A total of $49,350 revenue received from Asheville City Schools should be appropriated into the Municipal Building account in order to complete additional renovation to this facility. Additionally, an extra $273,032 was realized on the sale of the COPs and $149,294 has been earned in interest above the amounts included in the 1997 appropriations. Both of these sources are available for appropriation to the Municipal Building project at this time. These additional funds will allow for completion of the Municipal Building project without further appropriation by the City of Asheville through fund balance.

The Parks and Recreation Department requests approval of the budget amendment, in the amount of $471,676 , to be appropriated to the Municipal Building renovation project.

ORDINANCE BOOK NO. 18 – PAGE 385

G. RESOLUTION NO. 00-102 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE DOCUMENTS TO DEMOLISH THE FIRE DAMAGED CITY-OWNED BUILDING AT THE ASHEVILLE AIRPORT

Summary: The consideration of a resolution (1) authorizing the demolition of the remaining structure known as the FAA building on the southeast side of Airport Road across from the Asheville Regional Airport, (2) authorizing the City Manager to accept the actual cash value after applicable deductible from the City's carrier for the property loss, and (3) authorizing the use of net proceeds from insurance settlement for professional assessment and planning services to prepare plans for potential use of clean site for economic development purposes; and an associated budget amendment.

In the 1960's the City constructed a wood frame structure of approximately 1152 square feet. Said structure was valued for replacement cost under the City's property insurance program at approximately $125,000.

Since the building was constructed it has housed by way of a lease agreement the Regional offices and shop facilities for the FAA at a monthly rate of $747. Negotiations were, as of December 1999, under way to increase that rent upon renewal to a market rate of $817 per month. FAA had agreed in principal to that rate.

On December 30, 1999, a fire in that building caused serious damage necessitating the FAA to relocate its offices and repair shop to facilities on the airport property in space managed by the Airport Authority. Members of the Asheville-Buncombe Arson Task Force concluded the likely cause of the fire was overheated ballast in a fluorescent light fixture.

Templeton Construction Company was asked to prepare a written estimate to repair the damage to the building and a claim for damages was made with the City's property insurance carrier. Based upon the estimate of Templeton Construction Company, it was determined that repairs would cost approximately $82,627.14.

The City's coverage form allows for the replacement cost of structures lost due to insured perils is subject to a $10,000 deductible. Assuming the Templeton estimate is accurate the City could rebuild the building subject to the deductible being paid by the City.

Following conversations with the City Manager, City Attorney, and the Director of Economic Development it was decided that the continued leasing of that facility to the FAA at the previously agreed to rental amount would not be in the best interest of the City. It is believed that the subject property has developable commercial value far in excess of the continued rental and can serve as a resource to support future economic development activity.

Due to a provision in the City's insuring agreement, the City may opt not to rebuild the subject building and recover from the carrier its loss on a depreciated value the net sum after applicable deductible of $50,150.43.

Templeton Construction Company was asked to prepare a demolition estimate on the remaining structure. Including the cost of removing asbestos floor tiles in two of the rooms and disposing of them in a legally prescribed manner the total cost to demolish is $18,510. Net recovery after a settlement on actual cash value and demolition would be $31,640.43.

This resolution will authorize the City Manager to accept $50,150.43 actual cash value after applicable deductible from the City's carrier for the property loss. Eighteen thousand, five hundred and ten dollars ($18,510) from said recovery will be used to demolish and clean up the site. A budget amendment, in the amount of $50,150.43, is needed to demolish and clean up the site with the balance to be used for economic development of the site.

Based on the above facts, it is the recommendation of staff to accept the actual cash value settlement of $50,150.43 and to demolish the remaining structure and to use the net proceeds to secure appropriate professional services to determine the development potential of said property to its highest and best use.

RESOLUTION BOOK NO. 26 – PAGE 63

H. ORDINANCE NO. 2716 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FROM AN INSURANCE SETTLEMENT FROM THE FIRE DAMAGED CITY-OWNED BUILDING AT THE ASHEVILLE AIRPORT TO BE USED FOR DEMOLITION AND CLEAN UP OF THE SITE WITH THE BALANCE BEING USED FOR ECONOMIC DEVELOPMENT OF THE SITE

Summary: See Consent Agenda Item "G" above.

ORDINANCE BOOK NO. 18 – PAGE 387

I. RESOLUTION NO. 00-103 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE N.C. DEPT. OF CRIME CONTROL AND PUBLIC SAFETY, GOVERNOR'S CRIME COMMISSION, IN SUPPORT OF A COMMUNITY POLICING GEOGRAPHIC INFORMATION SYSTEM PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept a grant award from the North Carolina Department of Crime Control and Public Safety, Division of the Governor's Crime Commission, in support of a community policing Geographic Information System (GIS) Project and an associated budget amendment.

The Governor's Crime Commission has awarded the City of Asheville a grant in the amount of $63,465 in support of a community policing GIS Project. A local match of $21,155 is required which will be appropriated from Contingency. The purpose of this project is to enable consolidation of most of the City's geographic information systems data and coordinate this application in support of the City's Community Oriented Government program.

City staff recommends City Council adopt the resolution authorizing the City Manager to accept the grant award and that Council adopt a budget amendment, in the amount of $63,465, to appropriate funds to the Police Department's budget.

RESOLUTION BOOK NO. 26 – PAGE 64

J. ORDINANCE NO. 2717 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FROM A GRANT FOR A COMMUNITY POLICING GEOGRAPHIC INFORMATION SYSTEM PROJECT

Summary: See Consent Agenda Item "I" above.

ORDINANCE BOOK NO. 18 – PAGE 389

K. **RESOLUTION NO. 00-104 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE N.C. DEPT. OF CRIME CONTROL AND PUBLIC SAFETY, GOVERNOR'S CRIME COMMISSION, IN SUPPORT OF A SOCIAL WORK AND POLICE PARTNERSHIP PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to accept a grant award from the North Carolina Department of Crime Control and Public Safety, Division of the Governor's Crime Commission, in support of a social work and employee's partnership project and an associated budget amendment.

The Governor's Crime Commission has awarded the City of Asheville a two-year grant in the amount of $85,900 in support of a social work and employee's partnership project. The first year's grant is $44,400 and a local match of $14,800 is required which will be appropriated from Contingency. The purpose of this project is to reduce family violence issues contributing to chronic juvenile runaway behavior.

City staff recommends City Council adopt the resolution authorizing the City Manager to accept the grant award and that Council adopt a budget amendment, in the amount of $44,400, to appropriate funds to the Police Department's budget.

RESOLUTION BOOK NO. 26 – PAGE 65

L. **ORDINANCE NO. 2718 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FROM A GRANT FOR A SOCIAL WORK AND POLICE PARTNERSHIP PROJECT**

Summary: See Consent Agenda Item "K" above.

ORDINANCE BOOK NO. 18 – PAGE 392

M. **RESOLUTION NO. 00-105 - RESOLUTION REQUESTING THE N.C. DEPT. OF TRANSPORTATION PROVIDE FOR A RAISED LANDSCAPED MEDIAN IN THE LONG SHOALS ROAD IMPROVEMENT PROJECT**

Summary: The consideration of a resolution requesting the N. C. Department of Transportation (NCDOT) provide a raised landscaped median in the Long Shoals Road improvement project.

The NCDOT is preparing plans to widen Long Shoals Road in accordance with the Transportation Improvement Program (TIP). The preliminary plans are for a five lane facility like Hendersonville Road. The Metropolitan Planning Organization (MPO) has asked that the NCDOT substitute a raised landscaped median for the unrestricted center turn lane. Staff is now requesting City Council to join the MPO in supporting a design change that would incorporate a raised landscaped median.

This design will have numerous benefits over the NCDOT's current plan. These benefits include:

- An improved appearance befitting a major City gateway;
- Improved traffic handling capacity due to fewer left turns;
- Improved opportunities for better land use management;
- Improved safety.

Additionally, the proposed raised median would be consist with the "gateway" concept discussed with and approved by Council earlier in the year.

As a final note, we have a verbal commitment from the Biltmore Park development to maintain the median landscaping proximate to their property. The NCDOT may ask the City to assume landscape maintenance over the remaining portions of the median within the City limits.

City staff recommends that Council approve the resolution requesting that the NCDOT amend its plans for Long Shoals Road to include a raised landscaped median.

RESOLUTION BOOK NO. 26 – PAGE 66

N. RESOLUTION NO. 00-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A GRANT FOR THE MASTER STREET TREE PLAN PHASE III FROM THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES IN THE DIVISION OF FOREST RESOURCES IN THE URBAN AND COMMUNITY FORESTRY GRANTS PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into an agreement with the N. C. Department of Environment and Natural Resources for a grant to develop Phase III of the Master Street Tree Plan.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City right-of-ways located within the city limits of Asheville. The existing inventory is over fifteen years old and no longer accurately reflects the trees of the city. Phase III of the process will specifically identify the location, size, condition, and site conditions of trees located in the west district of Asheville. Phases I and II inventoried over 7,000 trees in the central and south districts, and were funded by the Urban and Community Forestry Grant Program. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department is requesting $9,873 in grant funds which requires a 100% match. The in-kind match is located in the Parks Division budget and will include supplies, transportation, volunteer hours, and project management.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for the grant funds through the N.C. Department of Environment and Natural Resources in the Urban and Community Forestry Grant Program to assist with implementing the Master Street Tree Plan Phase III.

RESOLUTION BOOK NO. 26 – PAGE 67

O. ORDINANCE NO. 2719 - BUDGET AMENDMENT FROM THE PIGEON RIVER FUND FOR THE BROADWAY GREENWAY

Summary: The consideration of a budget amendment, in the amount of $21,940, for an appropriation from the Pigeon River Fund for the Broadway Greenway.

The City of Asheville applied for grant funds in March 2000 to the Pigeon River Fund. The grant was recently awarded in the amount of $21,940 and designated to pay for the cost to clean up 0.5 acre of private property along Reed Creek. The land will then be donated to the City for the Broadway Greenway.

On February 8, 2000, City Council authorized the Parks and Recreation Department to apply for and enter into an agreement with the Pigeon River Fund for a grant for $19,940. Since then, more elements were added to the project, which increased the amount to $21,940.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $21,940, to increase the budget for the Broadway Greenway.

ORDINANCE BOOK NO. 18 – PAGE 395

P. REVIEW OF THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD A CONTRACT TO HOBSON CONSTRUCTION COMPANY INC. FOR CONTRACT A; COOPER CONSTRUCTION COMPANY FOR CONTRACT B; AND BUCKEYE CONSTRUCTION COMPANY INC. FOR THE CONTRACT 4 FOR THE PROJECT KNOWN AS CRITICAL NEEDS PHASE I WATER SYSTEM IMPROVEMENTS

Summary: The consideration of reviewing the award by the Regional Water Authority of a construction contract to Hobson Construction Company for Contract A; Cooper Construction Company for Contract B; and with Buckeye Construction Company for Contract 4 for the Critical Needs Phase I Water System Improvements.

Sealed bids were received and opened on Wednesday, May 24, 2000 for the Authority's Critical Needs Phase I / Contracts A, B & 4. Four bids were received for Contract A with Hobson Construction Company submitting the low bid of $ 1,027,847.00. Contract A includes the installation of approximately 2,600 lf of 8-inch and 14,400 lf of 6-inch waterline. A complete list of bidders is provided below.

Three bids were received for Contract B with Cooper Construction Company submitting the low bid of $ 836,459.00 Contract B includes the installation of approximately 13,500 lf of 6-inch and 1,600 lf of 4-inch waterlines. A complete list of bidders is provided below.

Three bids were received for Contract 4 with Buckeye Construction Company submitting the low bid of $ 624,016.29. Contract 4 includes the installation of approximately 6,060 lf of 16-inch, 6,900 lf of 6-inch and 960 lf of 4-inch waterlines. A complete list of bidders is provided below.

Critical Needs Contract A - Engineer's Estimate: **$ 1,228,837**

COMPANY	BID
Hobson Construction Company, Arden, N.C.	$ 1,024,727.50
Cooper Construction Company, Hendersonville, N.C.	$ 1,230,233.00
Steppe Construction Company, Mill Spring, N.C.	$ 1,369,735.00
J & L Specialty Equipment Company	$ 1,822,855.91

Critical Needs Contract B - Engineer's Estimate: **$ 1,029,257.00**

COMPANY	BID
Cooper Construction Company, Hendersonville, N.C.	$ 836,459.00

Steppe Construction Company, Mill Spring, N.C.	$ 1,020,105.00
Hobson Construction Company, Arden, N.C.	$ 1,052,180.00

Critical Needs Contract 4 - Engineer's Estimate: **$ 783,381**

COMPANY	**BID**
Buckeye Construction Company, Canton, N.C.	$ 624,016.29
Hobson Construction Company, Arden, N.C.	$ 675,927.50
Cooper Construction Company, Hendersonville, N.C.	$ 719,982.00

These three projects comprise the Authority's Critical Needs Phase I program and are funded by the $ 3 million high unit cost grant the Authority received last year. These projects are focused on locations where our existing infrastructure is old, leaking and inadequate to maintain high levels of customer service.

These bids have been reviewed by the Office of Minority Affairs and this office has approved the award of each contract to the low bidder. McGill Associates, the project engineers for Contracts A & B, have recommended award of these contracts to the low bidder. The City Engineer's Office prepared Contract 4 and has recommended award of the low bid for that contract.

Each contract has a liquidated damages clause of $ 250.00 per day for failure to complete the project in the time allocated.

The Policies and Priorities Committee of the RWA approved staff's recommendation for award of these construction contracts to the respective low bidders. The full Authority will consider their recommendation on June 20, 2000. City Staff recommends that City Council confirm the award by the Regional Water Authority.

As a result of a legal opinion by City Attorney Oast, Councilman Worley felt it appropriate for City Council to oversee Water Authority contracts, with respect to some aspects of some contracts, in order to protect the City's interests, and to insure that the Water Authority is observing applicable legal and other limitations.

Q. ORDINANCE NO. 2720 - BUDGET AMENDMENT TO AMEND THE WATER 35 FUND TO AUTHORIZES TRANSFERS FROM THE WATER 30 FUND TO CAPITAL IMPROVEMENTS EFFECTIVE JULY 1, 2000

Summary: The consideration of a budget amendment for the 35 Fund to reflect the transfer of capital from the Fiscal Year 2000/2001 Water Fund Budget that was approved by the Authority on May 16, 2000, and to redistribute funds to better reflect the five-year Capital Improvements Plan.

The Fiscal Year 2000/2001 Water Fund Budget, which was adopted by the Regional Water Authority on May 16, 2000, and is effective July 1, 2000, includes $332,948 in Department-Wide expenses for projects to be performed in the Major Capital Projects Fund, broken down as follows:

Critical Needs State Grant Phase II – Final Matching Funds	$199,948
Master Plan Improvements	$100,000

Mills River Watershed Protection Project – Matching Funds (Third and Final Year of Match)	$ 33,000
	========
	$332,948

The budget amendment authorizes this $332,948 to be transferred effective July 1, 2000, from the new Fiscal Year 2000/01 Water Fund Budget to the Major Capital Projects Fund (Fund 35). The Critical Needs Grant Phase II Project and the Mills River Watershed Protection Project are already well into design and the transfer to Capital Projects Fund is needed early in the fiscal year. The funding under Master Plan Improvements will be set aside for oversizing and reimbursement agreements with developers so that water lines are built to meet sizing recommended by the Master Plan.

In addition to the transfer of funding for new Capital Projects from the Fiscal Year 2000/01 budget, the budget amendment also transfers $91,117 within the 35 Fund from its original designation to "Fiscal Year 1999/2000 Distribution System Improvements" and places these funds also in the Master Plan Improvements project. This better streamlines the program names in the fund without amending the purpose of the original appropriation.

The Fiscal Year 2000/2001 Water Fund Budget also will provide the revenue for the final payment of $68,599 on the N. C. Dept. of Transportation non-betterment project for Tunnel Road/South Tunnel Road. This project has already been appropriated to the 35 Fund but was designated to be funded by future revenues. In July 2000, the revenues for this payment will be transferred from the Water Fund to the 35 Fund, but this action does not require a new appropriation.

Staff recommends approval of the budget amendment to reflect an appropriation of the transfer to capital from the 30 Fund for Fiscal Year 2000/2001, in the amount of $332,948, and to redistribute funds to better reflect the five-year Capital Improvements Plan, effective July 1, 2000.

R. RESOLUTION NO. 00-107 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "BODDINGTON COURT" LOCATED OFF OF RACQUET CLUB ROAD

Summary: The consideration of a resolution accepting the new proposed street name "Boddington Court."

Southoaks of Buncombe, LLC., owners of lots in Southoaks Subdivision, has petitioned the City of Asheville to accept the street name "Boddington Court." The new street will be a cul-de-sac beginning at Racquet Club Road.

City staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 68

S. RESOLUTION NO. 00-108 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "CARLYLE WAY" LOCATED OFF OF SWEETEN CREEK ROAD

Summary: The consideration of a resolution accepting the new proposed street name "Carlyle Way."

264

Sweeten Creek Apartments, LLC, has petitioned the City of Asheville to accept the street name "Carlyle Way." The new street will be a cul-de-sac beginning at Sweeten Creek Road (US 25-A).

City staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 69

T. ORDINANCE NO. 2721 - BUDGET AMENDMENT FOR THE FRENCH BROAD RIVER PARK IV

Summary: The consideration of a budget amendment, in the amount of $1,174,000, for the French Broad River Park IV as a result of grants and donations.

The Parks and Recreation Department and RiverLink are in partnership to implement an ambitious fundraising plan to build the first phase of French Broad River Park IV. Staff has developed an overall budget of $1,174,000 to develop the first phase of the park. In recent months, we have been successful in acquiring $621,500 in grants and donations. We anticipate raising the remaining funds in the next six to nine months through additional grants and donations. Please see a summary of our fundraising activities below.

City of Asheville: Parks and Recreation Trust Fund $250,000; and Private Donation $500

RiverLink: Janirve Foundation $300,000; Pigeon River Fund $20,000; Winterberry Fund $50,000; and French Broad River Garden Club $1,000

Pending: Land and Water Conservation Fund $350,000; and TEA21 $203,000

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $1,174,000 to increase the budget commencing the development of French Broad River Park IV.

ORDINANCE BOOK NO. 18 – PAGE 399

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR ARTISAN PARK LOCATED AT 1773 OLD HAYWOOD ROAD

ORDINANCE NO. 2722 - ORDINANCE AMENDING THE ZONING FOR A PLANNED UNIT DEVELOPMENT OVERLAY ZONING FOR ARTISAN PARK LOCATED AT 1773 OLD HAYWOOD ROAD

Mayor Sitnick opened the public hearing at 5:12 p.m.

Mr. Dan Baechtold, Urban Planner, said that this is the consideration of a Planned Unit Development (PUD) overlay designation for 41.53 acres in the Extraterritorial Jurisdiction (ETJ). This public hearing was advertised on June 16 and June 23, 2000.

On June 7, 2000, the Planning and Zoning Commission voted unanimously to recommend approval of a PUD overlay designation for property located at 1773 Old Haywood Road. The property is located near Lakeside Drive in the general area behind the new Lowe's on Patton Avenue. The property is a mostly wooded site with some meadows and an old lakebed that currently contains no water.

The existing zoning of the property is RS4 – Residential Single-Family Medium Density. Under the current zoning, the property could be developed with a maximum of 166 single-family homes. Realistically, the property could not be developed to that density under the current zoning because some of the land area would be needed for street rights-of-way.

The proposed PUD designation would provide incentives to develop the property in a way that provides beneficial elements such as increased open space, tree preservation, affordable housing, and preservation of natural features such as steep slopes and wetlands. The incentives are in the form of density bonuses and flexible development standards. The total amount of the achievable density bonus varies based on the unique features of a particular site.

The Planning and Zoning Commission and the Planning and Development staff determined that this site is an appropriate location to apply the PUD designation. This is a site near the urban fringe of Asheville in a mostly developed area. The site contains woodlands and possible wetlands areas. The Technical Review Committee (TRC) determined that the water, sewer, and street infrastructure in the area are adequate to serve development on this site. The development of this property as a PUD provides an opportunity to further the goals of smart growth and accomplish the following purposes of the PUD District:

1. Encourage better design and management of open space by creating more functional active and passive open space areas within a new development;
2. Retain natural features such as floodplains or steep slopes, and encourage developments that will be compatible with environmentally sensitive areas;
3. Facilitate more affordable housing by providing possibilities for savings in infrastructure, installation costs, and energy costs through clustering of dwellings;
4. Provide an effective use of the transit system within and adjacent to the development by effective organization of uses and the orientation of pedestrian and vehicular facilities; and
5. Encourage pedestrian circulation within and adjacent to the PUD.

The Planning and Zoning Commission also unanimously approved a master plan associated with the proposed PUD that meets the aforementioned purposes. The City Council is not being asked to take action on the master plan. The approval of the master plan by the Planing and Zoning Commission is a final action unless it is appealed to City Council.

The approved master plan proposes a mixed-use development containing a mixture of housing types and small-scale commercial and civic uses to serve the residents of the development. The master plan indicates that mixed-use buildings will be organized in a pedestrian-oriented, village core and surrounded by other residential uses. The master plan also proposes several community buildings for public or institutional use, including a charter school and daycare. The plan proposes a total of 197 residential dwelling units. The plan proposes a system of internal pedestrian circulation through a combination of sidewalks and walking trails. The plan also proposes to dedicate approximately 17 of the 43 acres to a homeowners association to be preserved as common open space.

The TRC and the Planning and Zoning Commission reviewed the impacts of the proposed master plan and determined that this development is appropriate for the site. The developer prepared and submitted a Traffic Impact Analysis (TIA) as required by the City. The TIA analyzed traffic impacts based on the development proposed in the master plan. The analysis shows that there will be some increase in delay at surrounding intersections as a result of this development. The report concludes, however, that the impact is not enough to warrant improvements to the intersections. Michael Moule, City Traffic Engineer, and Ken Putnam of the N. C. Department of Transportation reviewed the TIA and concur with the findings.

The Planning and Development staff recommends approval of the PUD overlay designation for this parcel of 41.53 acres located at 1773 Old Haywood Road in the Extraterritorial Jurisdiction.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that the question before City Council is whether the application of the PUD overlay zoning classification is appropriate for this particular property. City Council will probably see some representations of specific plans for the property, however, Council should view those with an indication of what can be done, but not what will be done with the property. Again, Council should consider whether this particular zoning classification, with the types of density bonuses and opportunities for implementation of smart growth ideas, is appropriate for this piece of property. Even though the master plan has been approved by the Planning and Zoning Commission, is subject to change,

Mr. Marty Kocot, Engineer of record with Land Design representing Artisan House Inc., gave a brief history of the property along with outlining the topographic features of the property. The stressed that the plan was developed using smart growth and is a classic planned unit development. He explained how the intent of the plan is to meet the five purposes outlined in the UDO for a PUD. The then described how the plan is the best fit for the property. Their intent is to create a close knitted community to what is already located in the Old Haywood Road area. The best feature of the PUD is that it will preserve the natural features, reduce the amount of grading and impacts to the environment, and create an artist related community that is interconnected where a person might shop, live and work.

Upon inquiry of Councilman Peterson, Mr. Kocot said that Appalachian Way is a recorded, but never built right-of-way for a street. He then explained the plan that they have for Appalachian Way.

Upon inquiry of Councilwoman Field, Mr. Kocot said that since this property is within the extraterritorial jurisdiction, there is no City bus service. However, there are plans to add bus service in the future and they will incorporate that into the project.

Mr. Kocot and City staff then responded to questions about buffering on the property.

Upon inquiry of Mr. Fred English, Mayor Sitnick said that the specifics of who will live in the apartments and their price range have not been determined at this point.

Ms. Betty Fagan, President of the neighborhood association in the area, stated that the owners have worked with the community. She did question the amount of units that could be built on the property with the PUD overlay. She hoped that the trees on the property could be preserved and that adequate buffering will be required. She voiced concern over the traffic that the new units will cause on the two lane street and also questioned the dam and overflow of the area. She stated that the majority of the area feels that the master plan will be an asset to the community and hoped that the approved master plan would not change.

City Attorney Oast said that the master plan that the Planning and Zoning Commission approved is pretty close to final form. There can be no significant changes unless it goes back to the Planning and Commission, which will require another public hearing.

Mr. Jim Fagan pointed out that a condition was placed on the master plan that the Metropolitan Sewerage District (MSD) has to upgrade the downstream sewer line. Mr. Baechtold explained that MSD is in the process of doing that upgrade.

Mr. David Peifer, 15 East Starnes Cove Road, was concerned about the number of apartments and commercial things being built on the southeast corner of the development which surround the RS-4 community. He also stated concerns about buffering, particularly in that area where that community will take the brunt of the impact of the development.

Mr. Evan Beverage spoke in support of the overlay and stated that they have worked very hard with the terrain to accomplish the density that will make the development economically feasible to incorporate all the concepts contained within the PUD.

Mayor Sitnick closed the public hearing at 6:08 p.m.

Upon inquiry of Councilman Peterson about if there is some limitation on how much commercial space would be permitted, City Attorney Oast said that was considered in connection with the master plan which has already been approved. The Planning and Zoning Commission has made the findings with respect to that plan that are listed in the UDO with regard to other development standards and the combination of uses, lot sizes, lot widths, lot setbacks, etc.

Mayor Sitnick asked that whatever the plan is, can City Council require that the old growth trees remain in the southeast corner of the development. City Attorney Oast said that making that finding is inappropriate because this is a rezoning. However, he did point out that preservation of existing vegetation is one of the features of the more specific development standards that would be attached to the master plan approval.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2722. This motion was seconded by Councilwoman Field and carried unanimously.

Mayor Sitnick said that she met the Beverages several years ago when they first came to Asheville. One thing that attracted them to this property was the trees. At that time she felt sure they would do everything they could to work with the neighborhood to preserve the trees and make their concept to create a community appropriate for the area.

ORDINANCE BOOK NO. 18 – PAGE 401

B. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE MAXIMUM FOOTPRINT FOR ACCESSORY STRUCTURES IN RESIDENTIAL DISTRICTS

ORDINANCE NO. 2723 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE MAXIMUM FOOTPRINT FOR ACCESSORY STRUCTURES IN RESIDENTIAL DISTRICTS

Mayor Sitnick opened the public hearing at 6:10 p.m.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the maximum footprint for accessory structures in residential districts. This public hearing was advertised on June 16 and June 23, 2000.

Approximately 2-½ years ago, City Council approved an amendment to the UDO establishing a maximum footprint of 600 square feet for accessory structures in residential districts. Staff has received comments from the public that the current size limit for accessory structures is too restrictive. Staff reviewed the current standards, spoke with citizens regarding the standards, and worked with the Planning and Zoning Commission in revising the standards. The Planning and Zoning Commission at their May 3, 2000, meeting recommended the proposed ordinance amendment for approval. Maximum footprints for accessory structures in residential districts proposed by the ordinance amendment are:

Lot Size	Single Structure	Total – All Structures
< 1 acre	770 sq ft	1,000 sq ft
1 – 3 acres	1,200 sq ft	1,600 sq ft
> 3 acres	No limit	No limit

The other standards for accessory structures in residential districts (setback, building height, etc.) would remain unchanged. The proposed standards would meet the needs of the community for accessory structures adequate to meet their storage needs while protecting neighboring residential properties from obtrusive structures.

The Planning and Zoning Commission voted 6-0 to recommend approval of the wording amendment establishing revised maximum footprints for accessory structures. The Planning and Development staff recommends approval of the wording amendment.

City staff recommends City Council consider an amendment to the UDO to establish revised maximum footprints for accessory structures.

Mayor Sitnick closed the public hearing at 6:17 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2723. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 403

C. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE APPROVAL PROCESS FOR PRELIMINARY PLATS FOR MAJOR SUBDIVISIONS

ORDINANCE NO. 2724 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE APPROVAL PROCESS FOR PRELIMINARY PLATS FOR MAJOR SUBDIVISIONS

Mayor Sitnick opened the public hearing at 6:18 p.m.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the process for approval of preliminary plats for major subdivisions. This public hearing was advertised on June 16 and June 23, 2000.

In response to direction provided by the Fast Trackers Development Review Team and the Sustainable Economic Development Plan, Planning and Development staff reviewed current processes to identify streamlining opportunities. The proposed preliminary plat review process change was identified as a way to improve the development review processes of the City. The Planning and Zoning Commission, at their May 3, 2000, meeting, reviewed and recommended approval of an amendment to the UDO to revise the approval process for preliminary plats for major subdivisions. Major subdivisions are those subdivisions that require the construction of new streets and/or utilities or the dedication of new easements or rights-of-way. Under the current preliminary plat review process, the preliminary plat is reviewed and approved by the Planning and Zoning Commission following review and recommendation by the Technical Review Committee (TRC). The approval process currently requires approximately 4 weeks. The TRC would be authorized to review and approve preliminary plats for major subdivisions by the proposed amendment. Time required for review and approval of preliminary plats would be reduced to two weeks. Public notification of proposed subdivisions would be provided prior to the TRC meetings and the meetings are open to the public. The proposed ordinance amendment would streamline and improve the preliminary plat review process with no reduction in the quality of the review process.

The Planning and Zoning Commission voted 6-0 to recommend approval of the wording amendment regarding the preliminary plat approval process for major subdivisions. The Planning and Development staff recommends approval of the wording amendment.

City staff recommends City Council consider an amendment to the UDO regarding the preliminary plat approval process for major subdivisions.

Mr. Green answered various questions from Councilman Peterson relative to the thresholds for residential development. Mr. Green explained that Level I is up to 8 units, Level II is from 8 units to 50 units, and Level III is more than 50 units. Currently Level I projects can receive final approval by the TRC; Level II projects receive final approval by the Planning and Zoning Commission, after TRC recommendation; and, Level III projects receive review by the TRC, Planning and Zoning Commission and City Council makes final approval. This amendment would allow the TRC to give final approval on both Level I and Level II projects and Level III approvals would still need to go to City Council for approval.

Mr. Gerry Hardesty felt that there is very little opportunity for public input in this process. He felt that since the TRC is made up of City employees or City agencies, there is no input from the public other than what the TRC will entertain from the public at those meetings. He doesn't think that the public has the opportunity to give input on these kinds of major developments, especially with the approval process only being two weeks.

Upon inquiry of Vice-Mayor Cloninger, Mr. Green explained that when you're talking about preliminary plats, the review process is a technical review process. The UDO sets out certain specific technical requirements that those plats have to meet and the process is to determine whether or not the plat meets those technical requirements – it is not in the nature of a discretionary review. He said that the review ensures that those standards that are set forth are met.

Mayor Sitnick said since we are cutting the review process by two weeks, there should be a little more outreach with regard to public notification. Even though the public does not have an opportunity to change the technical requirements, the notification process should go beyond

400 feet --so that if someone wants to come to a TRC meeting and express a concern, that at least it will be in the record so it won't be overlooked. Mr. Green said that staff will look at the notification procedures for all developments and report back to Council at a later date. Currently all notification requirements are standard, regardless of the type of development.

Planning & Development Director Scott Shuford stressed that subdivision plat review deals with things like lot sizes, water and sewer line sizes, locations of roads, etc., which are very technical. He would hate to see us separate having a more stringent public notification process for something that is basically a use by right. He did state that they would look at the notification procedures.

City Attorney Oast suggested the following addition to Section 7-5-8 (a) (8) (a) which may address Council's concern: "Appeals may be taken by other parties aggrieved by actions of the Technical Review Commission. Appeals shall be taken to the Planning and Zoning Commission which, for this purpose, is designated to perform the functions of the Board of Adjustment. Appeals must be taken within 30 days."

Upon inquiry of Councilman Peterson, Mr. Green said that, to his knowledge, the Planning and Zoning Commission has never denied a preliminary plat review after it was approved by the TRC. In addition, he did not recall the public ever providing input to the TRC that they were not already aware of.

Mayor Sitnick closed the public hearing at 6:31 p.m.

Councilman Worley felt that the more we can do to cut the cost of some developments, the more we can do to create affordable housing. He stated that preliminary plats must meet the technical requirements of the UDO and if those requirements are met, then it is approved - if it doesn't meet those requirements, then it is not approved.

Councilman Peterson was concerned that for developments of up to 49 units there is only public input at the TRC meeting. He agreed that Level I final approvals from the TRC are fine. However, if the development is more than 8 units, then we should continue the current process because the public may make a point at the TRC meeting and the TRC doesn't have enough information to make an informed decision. It is only at the Planning & Zoning Commission meeting that the public will actually know what the developer is proposing. Again, he felt that the gap between 8 and 49 units is too much and there should be Planning & Zoning Commission approval necessary.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2724, with the following addition to Section 7-5-8 (a) (8) (a): "Appeals may be taken by other parties aggrieved by actions of the Technical Review Commission. Appeals shall be taken to the Planning and Zoning Commission which, for this purpose, is designated to perform the functions of the Board of Adjustment. Appeals must be taken within 30 days." This motion was seconded by Councilman Worley and carried on a 4-1 vote, with Councilman Peterson voting "no".

Mayor Sitnick said that if it is brought to her attention that there is not enough opportunity for public input, then she will ask that this ordinance be revised

City Attorney Oast said that since this ordinance amendment did not pass by a 2/3 vote, it will require a second reading which will occur at Council's next formal meeting on July 11, 2000.

ORDINANCE BOOK NO. 18 – PAGE 405

D. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE REVIEW AND APPROVAL PROCESS FOR DUPLEXES, TRIPLEXES AND QUADRAPLEXES IN SINGLE FAMILY ZONING DISTRICTS AND TO ESTABLISH NEW DEVELOPMENT STANDARDS FOR THESE USES

At the request of City staff, Councilman Worley moved to continue this public hearing until August 8, 2000. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2725 - ORDINANCE APPROVING THE CROWELL FARMS MASTER PLAN

City Attorney Oast said that this is the consideration of an ordinance adopting an order approving the master plan for Crowell Farms development.

On April 25 and 26, 2000, City Council held a public hearing and adopted Planned Unit Development Overlay Zoning for approximately 71 acres located in the extraterritorial jurisdiction and known as Crowell Farms. The Planning and Zoning Commission had previously approved the Master Plan for the PUD. That approval was appealed by other residents of the area around the proposed Crowell Farms development. City Council held a public hearing on that appeal on May 23, 2000, wherein evidence was presented by City staff, persons opposed to and persons in support of the development. At the close of this public hearing, City Council voted to approve the Master Plan, and directed City staff to prepare an Order for consideration.

If City Council approves of the findings and conclusions set forth in the Order, adoption of the ordinance approving it is recommended.

City Attorney asked that the following two additions (underlined) be added to the Order: "Accordingly, the City Council hereby APPROVES the Master Plan for Crowell Farms, subject to the conditions approved by the Planning and Zoning Commission and subject to compliance with other applicable provisions of the Asheville City Code, including all subdivision regulations, and subject to the following additional conditions: (1) That significant trees, stands of trees, and buffers be preserved and protected during the construction and development of the Project, as required by Section 7-11-2 (c) of the Unified Development Ordinance; and (2) That walking trails be easily accessible from all developed portions of the Project, including public streets, parking areas, and children's play areas."

City Attorney Oast also suggested an amended Finding 9 (g) as follows: "If developed as proposed, a substantial number of the existing trees on the site having a six-inch caliper measurement, and at least 20 such trees, will be preserved, in addition to the trees that the developer proposes to plant."

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2725, with the three amendments outlined by the City Attorney above. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

V. NEW BUSINESS:

A. RESOLUTION NO. 00-109 - RESOLUTION ADOPTING THE SMART GROWTH DEFINITION AND POLICIES

Mr. Scott Shuford, Planning & Development Director, said that this is the consideration of a resolution adopting Smart Growth Definition and Policies.

As an outgrowth of the Sustainable Economic Development Task Force findings and City Council direction regarding Smart Growth development patterns, staff has been charged with creating a definition for Smart Growth that meshes with the City of Asheville's needs and characteristics.

The Smart Growth Definition and Policies outlines issues relating to Smart Growth and sustainable development, provides a definition for Smart Growth based on local conditions and characteristics, and suggests several interim policies to guide staff in making land use and transportation decisions while the 2010 Plan is being updated and the Unified Development Ordinance is being amended.

City staff recommends that Council approve the resolution on Smart Growth that establishes a Smart Growth definition and implementation policies consistent with the document entitled Smart Growth Definition and Policies.

He explained that Asheville is faced with several threats to its character and quality of life. Those include: air quality, expensive housing, outdated infrastructure, sprawl development trends, disconnected roadway system, shortage of developable land, and limited regional growth management.

Smart growth is a proposed City of Asheville development pattern that makes efficient use of our limited land; fully utilizes our urban services and infrastructure; promotes a wide variety of transportation and housing options; absorbs and effectively serves a significant portion of the future population growth of Buncombe County and Western North Carolina, protects the architecture and environmental character of the City through compatible, high quality and environmentally-sensitive development practices; and recognizes the City's role as a regional hub of commerce and employment. He said that smart growth must be implemented through comprehensive, consistent and effective policies, regulations, capital projects and incentives.

Smart growth land use policies include mixed use, "vertical density" infill, sustainability, traditional neighborhood patterns, supported by housing investment, industrial land reservation, environmentally-sensitive land preservation, and strengthen existing neighborhoods through a comprehensive approach.

Smart growth transportation policies include new development supports a connected street network, implement bike and pedestrian plan, make multi-modal connections, new development supports mass transit, implement transit plan, monitor and maintain traffic capacity, maintain an interconnected street network, and use traffic calming.

Vice-Mayor Cloninger felt that there should be some addition to the policies regarding making Asheville more walkable and more bicycling. Mr. Shuford suggested the following amendment to the transportation policies: "Strongly encourage improvements that make Asheville a premier walking and biking community including the use of evaluative and regulatory tools and capital improvements."

Mayor Sitnick said that a letter has been written to the N. C. Dept. of Transportation asking them to do a better job of maintaining their streets, keeping them clean, repairing the traffic islands, etc. – all which benefit a walkable community.

Mr. Fred English, 17 Pressley Road, said that sidewalks should be built if Asheville wants to be a walkable community.

Mr. Jim Bannon, representative of Smart Growth Partners, generally spoke in support of this issue and encouraged Council to continue in their efforts.

Mayor Sitnick requested that the City advise the public of this direction through available means of public contact. Councilman Worley suggested educating the public by some type of panel discussion on the Government Channel.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Resolution No. 00-109, as amended above by Planning & Development Shuford. This motion was seconded by Councilwoman Field and carried unanimously.

Councilwoman Field said that City Council is setting some policies that could have a major affect on how Asheville looks and how Asheville continues to develop and re-develop with the small amount of land we have left. She suggested that we take a hard look at what happens when these policies come into conflict, i.e. a developer wants to build another development with a cul-de-sac and we are encouraging connecting streets. We need to study how we set our policies - to either encourage or possibly provide incentives to make Asheville grow the way we want it to grow.

RESOLUTION BOOK NO. 26 – PAGE 70

B. ORDINANCE NO. 2726 - ORDINANCE REGULATING NOISE IN THE CITY OF ASHEVILLE

City Attorney Oast said that this is the consideration of a revision of the City's noise ordinance.

In 1998 the City undertook a review of the noise ordinance, which was last revised in 1994. This was done largely in response to community concerns about the difficulty of enforcing the current ordinance. The review process included a well-attended community meeting, meetings among City staff, and with citizen representatives.

The problems that were identified included:

1) Difficulty in getting police response to noise complaints;
2) Even when citations are issued, courts are not receptive to enforcement; and
3) Some noises (barking dogs, boom boxes) are not sufficiently regulated.

There were also some matters that needed to be addressed legally.

The revised noise ordinance has several important features:

1. The basic "unreasonably loud and raucous" standard is retained. This has been upheld in State and federal cases, including the United States Supreme Court.

2. Certain types of activities are identified as tending to produce loud and disturbing noises or noise levels. The City cannot ban or regulate these activities except to the extent that they actually do constitute a disturbance, but they are enumerated for the purpose of putting the public on notice that certain activities are prone to generating complaints in certain circumstances.

3. Certain types of activities are exempted from the noise ordinance. This was done in recognition that such activities (a) may be necessary for the public health and safety; (b) are non-recurring and of limited duration; (c) are associated with civic or community-wide events; or (d) are subject to constitutional or other legal protection.

4. Civil penalty for violation. Under the current ordinance, the only means of enforcement are by criminal penalty ($50.00 fine/imprisonment) for misdemeanor infraction, or by equitable remedies (injunctions, etc.). There was no provision for civil penalty, and research discloses that this was specifically removed from a previous revision. As a practical matter, this means that the ordinance can only be enforced by the police, by a citizen swearing out a criminal warrant, or by the City initiating a civil action for injunctive relief. The use of civil penalties allows for escalating fines for repeat offenders.

5. Noise ordinance appeals board. To address the problems of "he said/she said," and to allow citizens an informal, but official, way of addressing noise based disputes, the ordinance establishes a hearing board with the power to adjudicate complaints and issue civil citations, and the power to consider appeals from citations issued by City staff. Appeals from the noise ordinance appeals board are to the City Manager.

6. Responsibility. The ordinance provides that the owner or occupant of property where a violation occurs may be liable for violations. Notice is required for owners who do not live on the premises.

If City Council agrees with the proposed revisions, adoption of the ordinance is recommended.

City Attorney Oast suggested the following amendments to the proposed noise ordinance Council which is based on comments from the Council's worksession to the present:

1. Change catchline of Section 10-83 from "General Prohibition" to "General Regulation"

2. Change catchline of Section 10-84 from "Specific Prohibitions" to "Noise producing activities; frequent sources of complaint; noise sensitive areas."

3. Change first paragraph of Section 10-84 to read: "In addition to the general regulation set forth above, the following activities are recognized as having historically been frequent sources of noise complaint, and as tending to constitute noise disturbances when conducted or permitted in an unreasonable manner."

4. Change last paragraph of Section 10-84 to read: "It is further recognized that certain uses, including churches, synagogues and other places of worship, medical and convalescent facilities, schools and courthouses are particularly sensitive to sound and

noise. Noise-producing activities, including those specified above, may become noise disturbances when conducted in the immediate vicinity of those uses during their hours of operation."

5. Change paragraph 10-85 (i) to read: "Sound emanating from regularly scheduled athletic events at city or county parks, athletic facilities, public or private schools, and McCormick Field;"

6. Change paragraph 10-85 (l) to read: "Unamplified noncommercial speeches made from a fixed location, provided such speeches are made in a non-residentially zoned area."

7. Change paragraph 10-85 (m) to read: "Sound or noise emanating from construction or repair work and regulated activities of utilities regulated by the North Carolina Utilities Commission."

8. Add paragraph 10-85 (o): "Sound or noise emanating from aircraft flight activity at the Asheville Regional Airport, provided said activities are conducted in accordance with FAA regulations."

Councilwoman Field asked if the issue of conflicting activities in downtown been addressed. City Attorney Oast said that there always is going to be some friction when there are two different uses in the same building or in close proximity. It may be something more appropriately resolved by the Noise Ordinance Appeals Board.

At the request of Mayor Sitnick, it was the consensus of City Council to amend Section 10-85 (g) to read: "Lawnmowers and agricultural equipment operated between the hours of 8:00 a.m. and 9:00 p.m. when operated in accordance with manufacturer's specifications and with all standard noise reducing equipment in place and in proper condition;"

Discussion surrounded the hours of operation of refuse collection vehicles in Section 10-84 (n). She felt that the commercial garbage trucks are unbelievably noisy and they start as early as 5:00 a.m. and sometimes earlier. City Manager Westbrook said that there are some difficult situations making refuse collection vehicles to operate either in the wee hours of the morning or late at night, e.g., it is the only time they can get into an area with difficult parking situations like in the downtown area, or when pedestrians are not walking by.

Mr. Fred English asked that City Council prohibit tractor trailers using their engine brakes in the City of Asheville. City Attorney Oast said that he was not sure the City of Asheville could regulate that, however, he would look into it.

Mr. Meredith Hunt, representing Life Advocates, said that on the surface, this proposed ordinance maintains much of the current ordinance and adds to it other complicated layers of enforcement, penalties and potential subjective interpretations. He asked in what other municipalities has the Noise Ordinance Appeals Board been used and has it worked. He questioned why the existing Buncombe County ordinance (which requires a decibel test) and the proposed City ordinance is so different. He also wondered how an animal control is qualified to determine if an amplified human voice is too loud. With regard to the exception to City sponsored events, in theory, the City is allowed to put on loud rock concerts at Bele Chere but a private individual would come under scrutiny for doing the same thing on his own property or even on public property. He understands that some kind of workable governing ordinance or method is needed for public noise, while at the same time, he believes that free speech must be protected. He felt that how the picketing ordinance was written in 1995 may be a good process model for working on a revised noise ordinance. He proposed a creation of a task force consisting of interested citizens, members of organizations who would be affected by a noise ordinance, and pertinent representatives from the City of Asheville. Also, the attorneys from the American Liberties Institute have offered to contribute to ensuring that the ordinance is constitutional as far as free speech is concerned. This would give key parties an opportunity to learn about the proposed ordinance and to offer ideas and amendments and hopefully come to a consensus on its major points.

Upon inquiry of Councilman Peterson, City Attorney Oast explained why this proposed ordinance does not rely on a decibel limitation. But, he said this ordinance doesn't prohibit the use of decibel equipment – it is one tool that enforcement people can use. He pointed out that calibrated decibel meters are expensive to buy, it involves training officers, and, in a lot of respects, it is more cumbersome to administer. In addition, you have to try to get rid of ambient noise and the noise may have stopped by the time to get a meter to the place. He pointed out that the three cases in North Carolina that have been decided by our state courts have all upheld standards similar to our proposed ordinance.

Councilman Peterson felt the use of decibel equipment should be used in conjunction with the other enforcement measures in the ordinance.

Mayor Sitnick said that people have contacted her about the constant noise of large trucks and buses left running for hours. City Attorney Oast said that may be an issue for the Noise Ordinance Appeals Board.

City Attorney Oast said that the Noise Ordinance Appeals Boards was a recommendation from the committee who worked on this proposed ordinance and he didn't see any reason why the Board would not work.

At the request of Councilman Peterson, it was the consensus of Council to amend Section 10-89 (a) to add that the first violation is $50.00.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Peterson moved for the adoption of Ordinance No. 2726, with the 8 amendments outlined by City Attorney Oast above, the amendment to Section 10-85 (g) as recommended by Mayor Sitnick, and the amendment to Section 10-89 (a) to state that the first violation is $50.00. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 412

C. RESOLUTION WAIVING CONFLICT OF INTEREST AND PERMITTING VAN WINKLE, BUCK, WALL, STARNES AND DAVIS, P.A., TO FILE ACTIONS OF EMINENT DOMAIN ON BEHALF OF THE CITY OF ASHEVILLE

RESOLUTION AUTHORIZING THE FILING FOR CONDEMNATION OF WATER LINE EASEMENTS ALONG A PRIVATE ACCESS ROAD KNOWN AS UPPER MOFFITT BRANCH BROAD TO THE EXTENT THAT ADJACENT PROPERTY OWNERS IDENTIFIED AS LARRY AND ROBIN BROOKS AND MARGARET BROOKS HAVE INTEREST

City Manager Westbrook said that Larry & Robin Brooks and Margaret Brooks have signed the easement agreements for the right-of-way needed on Upper Moffitt Branch Road. Therefore, City staff requests this item be pulled from City Council consideration.

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of June 9-15, 2000: BellSouth (Water), BellSouth (Water), Geraldine Jerome (Water), Kathy Feeney (Water), A-B Tech (Fire) and Karen Franklin (Water).

The following claims were received by the City during the period of June 16-22, 2000: Geneva Fate (Parks and Recreation), Philip Constable (Inspections), Sheril Chanbers (Water) and Rita Kay (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

B. LAWSUITS

The City received the following Petition for Writ of Certiorari on May 15, 2000, which is generally described as follows: Malcolm M. Malloy III and Pioneer Welding Supply v. Zoning Board of Adjustment – Seeking reversal of Board of Adjustment's decision that a new 9,000 gallon liquefied oxygen storage tank (replacing old 3,000 gallon tank) constituted an expansion of a non-conforming use. This matter will be handled in-house.

The City filed the following Complaint on June 16, 2000, which is generally described as follows: City of Asheville v. Robert Penland and Teresa Penland – Complaint for injunction from placing a mobile home in an RM-8 District and for money judgment in the nature of civil penalty for violation of City Code Section 7-8-6. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Street Addresses

Mayor Sitnick urged residents and businesses to have their street numbers on the front of their property.

Comments by Fred English

Mr. Fred English commented on the number of events that have left the City of Asheville area.

Closed Session

At 8:07 p.m., Councilman Peterson moved to go into closed session for the following reasons. (1) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations - statutory authority is contained in G.S. 143-318.11(a)(4); (2) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease - statutory authorization is contained in G.S. 143-318.11(a)(5); and (3) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Morris Communications, Inc. d/b/a Fairway Outdoor Communications; Lamar OCI – South Corp.; Maple Cove, Inc.; Carl and Janis Ricker; Asheville Board of Adjustment; and City of Asheville. -

The statutory authorization is contained in G.S. 143-318.11(a)(3). This motion was seconded by Councilman Worley and carried unanimously.

At 9:15 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:15 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - July 11, 2000 - 5:00 p.m.

Regular Meeting

Present:	Mayor Leni Sitnick, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Vice-Mayor M. Charles Cloninger

INVOCATION

Councilwoman Bellamy gave the invocation.

ADDITIONS TO THE AGENDA

Mayor Sitnick said that she would like to introduce a resolution concerning the planning process for the I-26 Connector under "Other Business." In addition, she would like to announce the upcoming design forum format on July 20-22, 2000.

I. PROCLAMATIONS:

A. RECOGNITION OF THE CITY OF ASHEVILLE BEING DESIGNATED AS NO. 6 IN AMERICA'S TOP 25 ART DESTINATIONS AS POLLED BY *AMERICANSTYLE* MAGAZINE

Ms. Marilyn Patton from Grovewood Gallery presented the City of Asheville with a plaque in recognition of being designated as No. 6 in America's Top 25 Art Destinations as polled by *AmericanStyle* Magazine.

Mayor Sitnick recognized Mr. Tucker Cooke. Mr. Cooke is the Chair of the Asheville Public Art Board and active member of the Urban Trail Design Review Committee. He is responsible for the design of several of the stations on the Urban Trail. In addition Mr. Cooke is the Chair of the Art Department at UNCA and a local artist.

Mayor Sitnick also recognized Ms. Oralene Simmons. Ms. Simmons is the Cultural Arts Supervisor for the City and Director of the YMI Cultural Center. She is a member of the Urban Trail Committee and is responsible for the various YMI Galleries and exhibits.

B. PROCLAMATION PROCLAIMING JULY 26, 2000, AS THE "10TH ANNIVERSARY OF THE AMERICANS WITH DISABILITIES ACT"

Mayor Sitnick read the proclamation proclaiming July 26, 2000, as the "10th Anniversary of the Americans with Disabilities Act" in the City of Asheville. She presented the proclamation to Mr. Bart Floyd and Mr. James Stirewalt, representatives from the Western Alliance Center for Independent Living, who thanked Council for their support.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 20, 2000, AND THE WORKSESSION HELD ON JUNE 27, 2000

2.27

B. RESOLUTION NO. 00-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE HERITAGE PRESERVATION AND THE SMITHSONIAN MUSEUM OF ART TO ASSESS THE CONDITION OF THE "ENERGY LOOP" LOCATED IN THE CITY-COUNTY PLAZA

Summary: The consideration of a resolution to apply for and enter into an agreement with the Heritage Preservation and the Smithsonian Museum of American Art to assess the condition of the "Energy Loop" located in the City-County Plaza.

The Parks and Recreation Department is responsible for managing public art through the newly developed Public Art Program with assistance from the Public Art Board. The "Energy Loop", located in City-County Plaza, was installed in the early 1980s and has experienced substantial damage that threatens its long-term survival. It is suffering from severe corrosion, especially at its base where the sculpture comes in direct contact with the ground, and consequently with moisture. Because of the damage, and because this sculpture was the first public art officially acquired by the City of Asheville, the Public Art Board has identified its conservation as a top priority.

The Parks and Recreation Department is requesting $850 in non-matching grant funds to hire a conservator to assess the sculpture, prepare a detailed condition report, and a proposal for treatment. If successful, the City of Asheville will then consider applying for a Save Our Sculpture! conservation grant to implement the treatment.

The Parks and Recreation Department recommends the City of Asheville apply for and enter into an agreement for grant funds through the Heritage Preservation and the Smithsonian Museum of American Art in Save Our Sculpture! to assess the condition of the "Energy Loop" located in City-County Plaza.

RESOLUTION BOOK NO. 25 – PAGE 75

C. RESOLUTION NO. 00-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW THE CONTRACT WITH DAP SECURITY INC. FOR SCHOOL CROSSING GUARDS FOR SCHOOL YEARS 2000-01 AND 2001-02

Summary: The consideration of a resolution authorizing the City Manager to contract with DAP Security, Inc. for the provision of school crossing guards for the school years 2000/2001 and 2001/2002.

The Asheville Police Department, through the use of a private contractor, provides school crossing guards for 12 schools located in the City of Asheville. The contracted cost is $80,233.20 annually. The prior years' contract covering the 1998/99 and 1999/00 school years was $74,527.20 for each year. The reason for the increase from the prior year's contract is the three additional school crossing guards, in addition to incremental cost increases.

Funds are allocated in the Police Department budget in the Professional Services line item.

City staff recommends adoption of the resolution authorizing the City Manager to enter into an agreement with DAP Security, Inc. to provide the services of school crossing guards for the school years 2000/2001 and 2001/2002.

RESOLUTION BOOK NO. 25 – PAGE 76

D. RESOLUTION NO. 00-112 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER FOR UPSET BIDS REGARDING DISPOSAL PARCEL 104 IN THE EAST END COMMUNITY IMPROVEMENT AREA

Summary: The consideration of a resolution establishing a minimum price of $5,900 for Disposal Parcel 104 in the East End/Valley Street Community Improvement Program and authorizing the City Clerk to advertise for upset bids.

Disposal Parcel 104 is a residential lot near the corner of Ridge Street and Hazzard Street comprising 5,227 square feet. The assessed tax value on the lot is $5,900.00. The bid from Queen E. Young for Disposal Parcel 104 includes the proposal to construct a single-family home on the property at an estimated cost of $57,475.00. The home proposed will contain 3 bedrooms and 2 baths. She estimates that construction will be completed within six to eight weeks after conveyance of the property. Ms. Young, if she is the successful bidder, will be eligible for the Incentive Housing Program Lot Purchase Subsidy.

The advertisement for upset bids, if approved by Council, will require that upset bids include the proposal to begin construction of an affordable single family home on the lot within three months and complete construction within six months.

Approval of the resolution will establish the minimum price for Disposal Parcel 104 at $5,900.00 and initiate the sale of the property through the upset bid process as provided in N. C. G. S. 160A-269.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 – PAGE 77

E. ORDINANCE NO. 2727 - ORDINANCE AMENDING SECTION 6-2 (FIRE PREVENTION CODE) TO ELIMINATE FIRE DISTRICT NO. 3

Summary: The consideration of an ordinance eliminating the remaining area of Fire District No. 3.

The North Carolina Building Code, Appendix F, Fire District outlines the requirements for a fire district. A fire district is established in areas meeting certain requirements for occupancy, construction type, building height, and building density to prevent the spread of a major fire.

Asheville has three fire districts. Major renovation and rehabilitation of buildings in Fire District No. 3 have been undertaken to a point where no significant fire protection purpose is served by leaving those structures in a fire district. The attached ordinance eliminates all of Fire District No. 3.

The Interim Fire Chief recommends adoption of an ordinance that would eliminate Fire District No. 3 in the Asheville Fire Prevention Code.

ORDINANCE BOOK NO. 18 – PAGE 420

F. MOTION SETTING A PUBLIC HEARING ON JULY 25, 2000, TO CONSIDER THE REZONING OF PROPERTY ON ROBERTS STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CB-1 COMMUNITY BUSINESS I DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

G. MOTION SETTING A PUBLIC HEARING ON JULY 25, 2000, TO CONSIDER THE REZONING OF PROPERTY ON CARSON CREEK DRIVE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO OFFICE DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2724 – SECOND READING OF AN ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE APPROVAL PROCESS FOR PRELIMINARY PLATS FOR MAJOR SUBDIVISIONS

Mayor Sitnick said that on June 27, 2000, Ordinance No. 2724 was adopted on its first reading and because it did not pass by a 2/3 vote of City Council, it is required to come back to City Council for a second reading.

Senior Planner Gerald Green briefly reviewed the amended ordinance stating that the proposed preliminary plat review process change was identified as a way to improve the development review processes of the City. Under the current preliminary plat review process, the preliminary plat is reviewed and approved by the Planning and Zoning Commission following review and recommendation by the Technical Review Committee (TRC). The approval process currently requires approximately 4 weeks. The TRC would be authorized to review and approve preliminary plats for major subdivisions by the proposed amendment. Time required for review and approval of preliminary plats would be reduced to two weeks. Public notification of proposed subdivisions would be provided prior to the TRC meetings and the meetings are open to the public. The proposed ordinance amendment would streamline and improve the preliminary plat review process with no reduction in the quality of the review process.

Councilman Peterson felt that the gap between 8 and 49 units is too much and there should be Planning & Zoning Commission approval necessary.

Councilwoman Field and Councilmen Hay and Worley all felt since that this approval is not a judgment or policy decision in that the requirements that need to be met are technical in nature.

Mayor Sitnick was concerned about public notification and understood that Planning staff will look at the notification procedures and report back to Council at a later date. In addition, she asked the City Manager to develop some information to educate the public on the development process, e.g., when a protest petition is appropriate, what has time deadlines and what are they, what is the next step if a development is approved or denied, how to items get submitted into the record, etc.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it will not be read.

Councilman Worley moved for the adoption of Ordinance No. 2724 on it's second and final reading. This motion was seconded by Councilwoman Field and carried on a 5-1 vote, with Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 – PAGE 405

V. NEW BUSINESS:

A. ORDINANCE NO. 2728 - ORDINANCE AUTHORIZING CRIMINAL HISTORY CHECKS ON ALL FINAL APPLICANTS FOR POSITIONS WITH THE CITY OF ASHEVILLE DEFINED AS FULL AND PART TIME REGULAR EMPLOYMENT

Mr. Kevin Wilson, Assistant Director of Human Resources, said that this is the consideration of an ordinance that would provide all City departments the ability to conduct pre-employment criminal history checks in all 100 North Carolina counties.

In North Carolina, local governments only have the authority to conduct pre-employment criminal history checks through local law enforcement agencies when there is North Carolina General Statute requiring such a check. Certain job classes, such as police officers and daycare providers, are examples of positions where the North Carolina General Assembly has approved statewide criminal history checks. Absent of such General Statute, local governments must adopt a local ordinance that will provide the entity legal access to the North Carolina State Bureau of Investigation's Division of Criminal Investigation (DCI) terminal.

Adoption of this ordinance will enable the City of Asheville to conduct statewide criminal history checks through the City/County Identification Bureau at no cost to the City of Asheville. In addition, the turnaround time for this type of check can be completed in less than 24 hours. The City of Asheville is currently conducting criminal history checks in some of the City departments through the Buncombe County Clerk of Court. However, this type of check only checks criminal history for Buncombe County.

Most local governments across North Carolina are taking steps to provide a more comprehensive pre-employment criminal history screening process in order to help prevent employer liability. By conducting statewide checks, it will help insure that the top candidates hired for positions with the City of Asheville do not pose any direct threat to the safety of the employees and citizens of the City of Asheville.

The State of North Carolina Attorney General's Office, along with the State Bureau of Investigation, have reviewed and given initial approval of the draft ordinance as is required by law.

City staff recommends adoption of this ordinance.

When Councilwoman Bellamy asked what happens with the information received if the applicant is not hired, Mr. Wilson said the information is treated like any other employment record in that it cannot be released.

Councilwoman Field wanted to make sure that we do not use this criminal check as a way to discriminate against someone who, if they did commit a crime, went through the rehabilitation process. Mr. Wilson responded that the City will not be involved in anything that would preclude someone from being hired on a biased or prejudiced basis.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2728. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 421

VI. OTHER BUSINESS:

A. RESOLUTION NO. 00-113 – RESOLUTION CONCERNING THE PLANNING PROCESS FOR THE I-26 CONNECTOR

Mayor Sitnick announced the design forum format for the I-26 Connector Project, which forum begins on July 20-July 22, 2000. She then asked City Council to consider the following resolution concerning the planning process for the I-26 Connector: "The Federal Highway Administration and the North Carolina Department of Transportation currently plan to connect the new and existing portions of Interstate 26 through the City of Asheville in Project I-2513. The design of this road project is of critical importance to the City of Asheville, in terms of traffic safety, traffic management, air quality, affordable housing economic consequences, and other areas. The Asheville City Council, based on concerns expressed by citizens of the City of Asheville concerning the design of said project, resolved in December of 1999 to hold a community design forum for the purpose of obtaining further public input on the design of said project and developing alternative design(s) which can then be further evaluated during environmental studies for the project. The Community Design Forum has been planned by City Planning staff, the N.C. Dept. of Transportation, and a Community Coordinating Committee, and has been preceded in June of 1999 by an educational meeting attended by several hundred citizens. The Community Design Forum is currently scheduled for July 21st and July 22nd, 2000. The Asheville City Council requests that the N. C. Dept. of Transportation and the Federal Highway Administration give thorough, consideration and evaluation to all feasible possibilities resulting from the Community Design Forum."

Councilman Hay moved to adopt the proposed resolution as read by Mayor Sitnick. This motion was seconded by Councilman Peterson.

Councilman Worley suggested some wording amendments to the proposed resolution. Discussion then surrounded the amendments and it was agreed upon by Council to amend the resolution (underlining denotes changes) as follows: "The Federal Highway Administration and the North Carolina Department of Transportation currently plan to connect the new and existing portions of Interstate 26 through the City of Asheville in Project I-2513. The design of this road project is of critical importance to the City of Asheville and Western North Carolina, in terms of traffic safety, traffic management, air quality, affordable housing economic consequences, and other areas. The Asheville City Council (deleted language) resolved in December of 1999 to hold a community design forum for the purpose of obtaining further public input on the design of said project and developing alternative design(s) which can then be further evaluated during environmental studies for the project. The Community Design Forum has been planned by City Planning staff, the N.C. Dept. of Transportation, and a Community Coordinating Committee, and has been preceded in June of 1999 by an educational meeting attended by several hundred citizens. The Community Design Forum is currently scheduled for July 21st and July 22nd, 2000. The Asheville City Council commends the N. C. Dept. of Transportation and the Federal Highway Administration for participating in the Community Design Forum and supports and requests the consideration and evaluation of all feasible possibilities resulting from the Community Design Forum."

Ms. Betty Lawrence, representative of the I-26 Connector Awareness Group, stated that they are excited about the possibilities of the design forum. She appreciated and supported the resolution proposed by Council. She said this kind of public participation for the N.C. Dept. of Transportation and the City of Asheville is new and crucial.

Councilman Hay and Councilman Peterson accepted the proposed amendments. The motion to adopt the amended resolution carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 78

B. CONDITIONAL USE PERMITS – SAYLES BLEACHERIES SITE

Upon inquiry of several Council members, City Attorney Oast said that if Council wishes to acknowledge letters, e-mails and phone calls relative to the conditional use permit coming before Council soon on the Sayles Bleacheries site, he advised them to thank the citizen for expressing their concerns and state that Council's decision will be based on information submitted at the public hearing.

It was the consensus of City Council to tour the site with Planning Department staff.

C. WNC REGIONAL AIR QUALITY AGENCY

City Attorney Oast said that he received a letter today from Mr. Jim Siemens requesting City Council consider their appointments to the WNC Regional Air Quality Agency in advance of the certification that is being sought. City Attorney Oast reminded Council that the Interlocal Agreement previously considered by Council provided for the current board members, Nelda Holder and Arlis Queen, to continue serving on the new board, but that since the agreement had been amended, Council could confirm its intention regarding those appointments, anticipating the approval and re-certification of the amended agreement, which is pending before the EMC, and that any further action, if necessary, would be after the certification had been received. Councilman Hay felt that the appointments should be included in the next quarterly appointment process. In the interim, however, Councilman Hay moved to appoint Nelda Holder and Arlis Queen as the City representatives on the WNC Regional Air Quality Agency. This motion was seconded by Councilman Peterson and carried unanimously.

D. CLAIMS

The following claims were received by the City of Asheville during the period of June 23-29, 2000: Dale Heizer (Sanitation), City Development (City Development), Ken Timmerman (Water), Donald Trask (Sanitation) and Virginia Baird (Water).

The following claims were received by the City during the period of June 30-July 6, 2000: Lee Ewart (Streets), Jeremy French (Streets) and Laura Webb (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Closed Session

At 6:20 p.m., Councilman Hay moved to go into closed session for the following reasons: (1) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations - G.S. 143-318.11(a)(4); (2) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease - G.S. 143-318.11(a)(5); and (3) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Betty Donoho, County of Buncombe, Western North Carolina Air Pollution Control Agency, and City of Asheville - G.S. 143-318.11(a)(3). This motion was seconded by Councilman Peterson and carried unanimously.

At 8:10 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Mayor Sitnick and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:10 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - July 18, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

New Street Name Approval – Nettlewood Drive

Summary: The consideration of a resolution accepting the new proposed street name "Nettlewood Drive."

Nettlewood, Assoc. LLC., owners of lots in Nettlewood Professional Park, has petitioned the City of Asheville to accept the street name "Nettlewood Drive." The new street will begin at Hendersonville Road (U.S. Hwy 25) and end at U.S. 25.

City staff recommends adoption of the resolution.

Contract for Social Work and Police Partnership Grant

Summary: The consideration of a resolution authorizing the City Manager to contract with Blue Ridge Center for the provision of a social worker to work with the police in carrying out the activities of the Social Work and Police Partnership Grant.

The Asheville Police Department has received a grant through the North Carolina Department of Crime Control and Public Safety, Governor's Crime Commission for a Social Work and Police Partnership Project. The grant calls for the City to contract with Blue Ridge Center to carry out project activities. The grant provides $49,000 as a professional service fee for the City to pay to Blue Ridge Center for the provision of a social worker. The social worker will work with juveniles to reduce runaway behavior.

Funds are allocated in the Police Department Professional Services Budget, 115-3502-421-3010.

City staff recommends the adoption of the resolution authorizing City Manager to enter into the contract with Blue Ridge Center.

Unattended Fuel Facility

Summary: The consideration of a resolution authorizing installation and operation of an unattended fuel facility at Sam's Club Membership Warehouse on Patton Avenue.

Sam's Club Membership Warehouse will operate an unattended service station at 645 Patton Avenue. They have asked for Fire Department assistance with meeting fire code standards so that the motor fuel pumps at the service station can be operated by vehicle drivers without an attendant.

The Interim Fire Chief recommends City Council authorize installation and operation of an unattended fuel facility at Sam's Club Membership Warehouse through adoption of the resolution.

Budget Amendment Regarding Transit Services

Summary: The consideration of a budget amendment in the amount of $110,000 to reflect additional revenue and offsetting expenses in the Transit Services operating budget.

The City of Asheville received additional funds from North Carolina Department of Transportation for operation of a transit system. These funds were received in the FY 1999/2000 fiscal year. In order to appropriately account for these funds in the fiscal year in which they were received, it is necessary to amend the FY 1999/2000 budget. This amendment will take effect before FY 1999/2000 is officially closed.

City staff recommends City Council adopt the budget amendment in the amount of $110,000 to reflect additional revenue and offsetting expenses in the Transit Department budget.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CONDITIONAL USE PERMIT PROCESS

City Attorney Oast and Planning & Development Director Scott Shuford reviewed with Council the conditional use permit process.

Prior to the public hearing City Attorney Oast suggested Council not discuss details of the project with the developer or with citizens. If Council must answer questions or correspondence, please do so in a generic fashion; sample language: "This project involves a special type of hearing – a quasi-judicial hearing – where we have to basically sit as judges and base our decision on information presented at the hearing. We cannot receive information outside of the hearing that might affect our ability to make an impartial decision at the hearing. If we heard what you had to say, it might jeopardize our ability to make an impartial decision and may keep a decision that supports your point of view from being upheld if that decision ever went to court. Please come to the public hearing and tell us your position – we do want to hear from you."

He suggested Council visit the site - this is especially effective if the entire Council (or a large part of the Council) attends as a group with Planning & Development staff serving as "tour guides." However, Council should decline invitations for site visits or on-site meetings with the developer or citizens. If Council does visit the site, in connection with the application, Council should disclose this information at the beginning of the public hearing.

He suggested Council ask questions of staff. Staff will make sure any information you receive will likewise be received by other Council members.

During the public hearing, he advised Council to listen to all speakers and ask questions. He suggested Council allow an opportunity for questioning of any speakers and staff members by anyone present if requested. A suggested method for allowing this to occur in an organized fashion is as follows: Open public hearing; presentation by staff; presentation by developer; persons in support; persons in opposition; rebuttal and questions by persons in support; rebuttal and questions by persons in opposition; rebuttal and questions by developer; and close public hearing.

An applicant for a conditional use permit should be allowed sufficient time to present their application to the Council, and this may mean that the usual time limits cannot be strictly observed. Similarly, if there is organized opposition, sufficient time should be allowed for a presentation of relevant information. General public comment may be held at the usual limits, and Council may take appropriate steps to move a presentation along, or avoid repetition.

City Council should base their decision on information received at the public hearing. State your reasons for support or opposition in terms of the standards for approval of conditional use permits. If you need assistance, staff will assist you in making any motion, in developing conditions for approval, or in stating your rationale for denial. A practice that has been working well is for staff to develop the written order, and submit it to Council at a later meeting.

Mr. Shuford said that this information will be put into the development material that can be distributed to the public.

BELE CHERE PRESENTATION

On behalf of the Bele Chere Board and Festival staff, Councilman Worley, 2000 Bele Chere Festival, presented City Council with this year's Bele Chere T-shirt and other Bele Chere items.

BOARDS AND COMMISSIONS

City Council instructed the City Clerk to arrange interview for various boards and commissions.

At the request of City Attorney Oast, Councilman Worley moved to waive the rules and take official action at this meeting. This motion was seconded by Councilwoman Bellamy and carried unanimously. Councilman Worley then moved to confirm and ratify the appointment of (1) Arlis Queen to the WNC Regional Air Quality Agency to serve until March 20, 2002, or until his successor has been appointed; and (2) Nelda Holder to the WNC Regional Air Quality Agency to serve until June 15, 2004, or until her successor has been appointed. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

OTHER BUSINESS

Conditional Use Permit – Old Sayles Bleachery Site

It was the consensus of City Council to hold the public hearing on the conditional use permit for Riverbend Marketplace (i.e. Walmart) at the Asheville Civic Center. City Manager Westbrook said that he will investigate the use of either the Banquet Room or the Thomas Wolfe Auditorium.

I-26 Connector Design Forum

Mayor Sitnick invited Council to the I-26 Connector Design Forum which will be held July 20-22, 2000, at the Radisson Hotel, Asheville, N.C.

Comment by Mickie MaHaffey

Mr. Mickie MaHaffey was concerned about the number of people running the red light on Biltmore Avenue between Pack Place and Café on the Square.

290

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - July 25, 2000 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor M. Charles Cloninger, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

INVOCATION

Councilman Peterson asked for a moment of silence for Asheville Firefighter Danko Maurice McQueen who died in a motorcycle accident on Sunday, July 23, 2000; and Mr. and Mrs. Taylor Odom and three of their six children who died in a car accident on Monday, July 24, 2000.

ADDITIONS TO THE AGENDA

City Manager Westbrook asked that the following items be added to the agenda: (1) two resolutions authorizing subordination of City-backed loans on Mountainside Apartments under the Consent Agenda; and (2) a resolution conferring the Mayor's powers and duties upon the Vice-Mayor in the absence of the Mayor under Other Business.

I. PROCLAMATIONS:

II. CONSENT:

Councilman Hay asked that Consent Agenda Item H be pulled from the Consent Agenda for discussion.

City Manager Westbrook said that the developer of Nettlewood Professional Park has asked that Consent Agenda Item C be deleted from the agenda. It was the consensus of City Council to removed that item from the agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 11, 2000, AND THE WORKSESSION HELD ON JULY 18, 2000

B. RESOLUTION NO. 00-114 - RESOLUTION AWARDING THE BID FOR DISPOSAL PARCEL 104 IN THE EAST END COMMUNITY IMPROVEMENT PROJECT

Summary: The consideration of a resolution authorizing the Mayor to execute the necessary documents for the conveyance of Disposal Parcel 104 of the East End/Valley Street Community Improvement Project to Queen E. Young in the amount of $5,900.

On July 11, 2000, the City Council directed the City Clerk to advertise for upset bids on Disposal Parcel 104. The advertisement ran in the Asheville Citizen-Times on July 14, 2000, as provided in N. C. Gen. Stat. sec. 160A-269.. No response was received. Therefore, the offer to purchase from Queen E. Young in the amount of $5,900 was not upset and the sale to Queen E. Young should be approved.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 79

C. RESOLUTION ACCEPTING THE NEW STREET NAME OF "NETTLEWOOD DRIVE"

This item was deleted from the Consent Agenda.

D. RESOLUTION NO. 00-115 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BLUE RIDGE CENTER TO PROVIDE A SOCIAL WORKER TO WORK WITH THE ASHEVILLE POLICE DEPARTMENT

Summary: The consideration of a resolution authorizing the City Manager to contract with Blue Ridge Center for the provision of a social worker to work with the police in carrying out the activities of the Social Work and Police Partnership Grant.

The Asheville Police Department has received a grant through the North Carolina Department of Crime Control and Public Safety, Governor's Crime Commission for a Social Work and Police Partnership Project. The grant calls for the City to contract with Blue Ridge Center to carry out project activities. The grant provides $49,000 as a professional service fee for the City to pay to Blue Ridge Center for the provision of a social worker. The social worker will work with juveniles to reduce runaway behavior.

Funds are allocated in the Police Department Professional Services Budget, 115-3502-421-3010.

City staff recommends the adoption of the resolution authorizing City Manager to enter into the contract with Blue Ridge Center.

RESOLUTION BOOK NO. 26 – PAGE 80

E. RESOLUTION NO. 00-116 - RESOLUTION AUTHORIZING INSTALLATION AND OPERATION OF AN UNATTENDED SERVICE STATION FACILITY BY SAM'S CLUB MEMBERSHIP WAREHOUSE

Summary: The consideration of a resolution authorizing installation and operation of an unattended fuel facility at Sam's Club Membership Warehouse on Patton Avenue.

Sam's Club Membership Warehouse will operate an unattended service station at 645 Patton Avenue. They have asked for Fire Department assistance with meeting fire code standards so that the motor fuel pumps at the service station can be operated by vehicle drivers without an attendant.

The Interim Fire Chief recommends City Council authorize installation and operation of an unattended fuel facility at Sam's Club Membership Warehouse through adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 81

F. **ORDINANCE NO. 2729 - BUDGET AMENDMENT TO REFLECT ADDITIONAL REVENUE AND OFFSETTING EXPENSES IN THE TRANSIT SERVICES OPERATING BUDGET**

Summary: The consideration of a budget amendment in the amount of $110,000 to reflect additional revenue and offsetting expenses in the Transit Services operating budget.

The City of Asheville received additional funds from North Carolina Department of Transportation for operation of a transit system. These funds were received in the FY 1999/2000 fiscal year. In order to appropriately account for these funds in the fiscal year in which they were received, it is necessary to amend the FY 1999/2000 budget. This amendment will take effect before FY 1999/2000 is officially closed.

City staff recommends City Council adopt the budget amendment in the amount of $110,000 to reflect additional revenue and offsetting expenses in the Transit Department budget.

ORDINANCE BOOK NO. 18 – PAGE 423

G. **RESOLUTION NO. 00-117 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN EASEMENT TO METROPOLITAN SEWERAGE DISTRICT OF BUNCOMBE COUNTY, N.C., ACROSS PROPERTY OWNED BY THE CITY OF ASHEVILLE KNOWN AS MALVERN HILLS PARK**

Summary: The consideration of a resolution authorizing the Mayor to execute an easement to the Metropolitan Sewerage District to install a sewer line across City-owned property located in Malvern Hills Park.

Staff has been working with representatives of the Metropolitan Sewerage District, in coordinating consideration of the installation of a sewer line, using trenches construction running through a parking area near the tennis courts at Malvern Hills Park. There are no trees, landscaping or improvements in the area, only pavement for parking and a paved walking trail. The Parks and Recreation Department staff have agreed that the easement, along with special provisions agreed to by MSD, will in no way limit the potential use of the property for a park.

City staff recommends that the Mayor grant an easement for an existing sewer line to the Metropolitan Sewerage District in order to install a sewer line across City- owned property located in Malvern Hills Park.

RESOLUTION BOOK NO. 26 – PAGE 84

H. **MOTION SETTING A PUBLIC HEARING ON AUGUST 8, 2000, TO CONSIDER A CONDITIONAL USE PERMIT FOR RIVERBEND MARKETPLACE FOR DEVELOPMENT ON THE OLD SAYLES BLEACHERIES SITE LOCATED AT 437 SWANNANOA RIVER ROAD**

This item was removed from the Consent Agenda for discussion.

I. **RESOLUTION NO. 00-118 - RESOLUTION AUTHORIZING THE MAYOR OR VICE-MAYOR, THE CITY ATTORNEY AND THE CITY CLERK TO EXECUTE AN AGREEMENT SUBORDINATING THE DEED OF TRUST GRANTED BY ASHEVILLE-MOUNTAINSIDE, L.L.C., FOR THE BENEFIT OF THE CITY OF ASHEVILLE FOR A LOAN MADE PURSUANT TO THE HOME INVESTMENT PARTNERSHIP PROGRAM**

Summary: The consideration of two resolutions authorizing subordination of City-backed loans on Mountainside Apartments.

Asheville-Mountainside LLC is the owner of McCormick Heights Apartments (previously known as Mountainside Apartments), a low/moderate income apartment complex. Asheville Mountainside undertook extensive renovation work on the apartments (100 units). The work was financed in part with loans through the HOME and CARROT programs administered by the City's Community Development office, and the City holds Deeds of Trust as security for the loans. Neither loan is a first tier loan. Wachovia Bank holds the first tier construction loan.

The construction work has now been completed, and Asheville Mountainside wishes to obtain permanent financing by paying off the Wachovia construction loan, and obtaining financing from Mechanics and Farmers Bank. They have requested that the City subordinate its deeds of trust from the HOME and CARROT loans to the deed of trust that will secure the permanent financing.

This is a routine request in federally subsidized housing rehab work, and grows out of a requirement by the Mechanics and Farmers Bank as a condition of obtaining permanent financing; the HOME loan specifically contemplates subordination. The City's position with respect to its loans will not be materially impaired.

If Council agrees for subordination of the HOME and CARROT loans, adoption of the resolutions is recommended.

RESOLUTION BOOK NO. 26 – PAGE 85

J. **RESOLUTION NO. 00-119 - RESOLUTION AUTHORIZING THE MAYOR OR VICE-MAYOR, THE CITY ATTORNEY AND THE CITY CLERK TO EXECUTE AN AGREEMENT SUBORDINATING THE DEED OF TRUST GRANTED BY ASHEVILLE-MOUNTAINSIDE, L.L.C., FOR THE BENEFIT OF THE CITY OF ASHEVILLE FOR A LOAN MADE PURSUANT TO THE C.A.R.R.O.T. PROGRAM**

Summary: See Consent Agenda Item "I" above.

RESOLUTION BOOK NO. 26 – PAGE 87

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Bellamy moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

ITEM PULLED FROM THE CONSENT AGENDA

MOTION SETTING A PUBLIC HEARING ON AUGUST 8, 2000, TO CONSIDER A CONDITIONAL USE PERMIT FOR RIVERBEND MARKETPLACE FOR DEVELOPMENT ON THE OLD SAYLES BLEACHERIES SITE LOCATED AT 437 SWANNANOA RIVER ROAD

Chief Planner Gerald Green said that on July 24, 2000, the developers for Riverbend Marketplace requested the Board of Adjustment continue their request for a variance until they had an opportunity to work with City staff. The Board of Adjustment continued the variance request until the Board's September 25, 2000, meeting. However, the Board is considering holding a special meeting to consider this request sooner than it's September 25 meeting date. The developer has also requested City Council postpone their public hearing on the issuance of the conditional use permit until after the Board of Adjustment renders a decision on their variance request.

Even though the City Council would like to move forward with consideration of this matter as quickly as possible, it was agreed that City Council should not hold their public hearing until after the Board of Adjustment renders it's opinion and more information from staff is received.

Councilwoman Field asked the City Attorney to research how other communities have banned large structures, like a Super Walmart, in their area.

With regard to the August 1, 2000, tour of the Sayles Bleacheries site, it was the consensus of City Council to postpone that tour until a public hearing date is set to consider the conditional use permit. The tour will be a special meeting of City Council and the public can be present, however, no comments from the public will be taken.

It was the consensus of City Council to hold their August 8, 2000, formal City Council meeting in the Council Chamber, 2nd Floor of the City Hall Building – not at the Asheville Civic Center as previously discussed.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE REZONING OF PROPERTY ON ROBERTS STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CB-1 COMMUNITY BUSINESS I DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2730 - ORDINANCE TO REZONE PROPERTY ON ROBERTS STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CB-1 COMMUNITY BUSINESS I DISTRICT

ORDINANCE NO. 2731 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR PROPERTY ON ROBERTS STREET (CONDITIONAL USE ZONING)

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Vice-Mayor Cloninger opened the public hearing at 5:15 p.m.

Mr. Gerald Green, Chief Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report). This public hearing was advertised on July 14 and July 21, 2000.

Mr. Green said that this is the consideration of (1) an ordinance to rezone one lot of 1.65 acres on Roberts Street from RM-8 Residential Multi-Family Medium Density District to Community Business I - CU (Conditional Use); and (2) issuance of a Conditional Use Permit for an artist studio, workshop, gallery and three upstairs apartments at this location.

On July 5, 2000, the Planning and Zoning Commission voted unanimously to recommend approval of this rezoning request. The applicant, Sam Stark, wishes to build a new building on a currently vacant lot (PIN No. 9638.08-98-1689) and use the building for his glass blowing workshop and gallery. Planning staff feels that this type of request is a good use of the conditional use zoning tool.

The property is currently zoned RM-8 and is part of an RM-8 District that covers the "Chicken Hill" area of the West End/Clingman neighborhood. The property is currently vacant. The property across the street is a large vacant tract of land zoned Commercial Industrial (map used is part of City Exhibit 3) . The Commercial Industrial property has the potential to be developed to a high intensity use. Therefore, a transition area is needed between the very high intensity use and the low intensity residential use. The proposed use of the property as an artist studio and gallery serves this purpose. With conditional use zoning, the site plan and building design are regulated to ensure that this use is low-impact, and provides the desired transition area.

The proposed site plan and building elevation shows a two-story building with a pedestrian-oriented street front façade (map used is part of City Exhibit 3). The plan proposes a mix of uses by including one upstairs apartment and the potential for two additional upstairs apartments on a third story. Roberts Street could eventually contain a mix of small-scale commercial and residential uses that serve and blend in with the existing neighborhood. A master plan for the area is now underway that might identify some of these possibilities.

Mr. Green said that since the time of the Planning and Zoning Commission meeting to consider this request, the applicant has added a catering kitchen to the list of his proposed uses as part of this development. That would be a low intensity use and staff is supportive of that request.

Planning and Development staff recommends approval of a motion to rezone property located on Roberts Street from RM-8 to Community Business I -CU and approval of a conditional use permit with the following conditions: 1) Uses will be limited to an artist studio, workshop, gallery, a catering kitchen, and three upstairs apartments; and 2) Site alterations will be limited to the proposed site development plans and building elevation drawings, with the potential for an addition of a third-story to incorporate additional apartments.

Councilman Peterson asked what limitation would there be on the applicant if, in the future, he wanted to convert the entire building into some sort of retail space, thus removing the mixed uses. City Attorney Oast explained that it would have to come back to City Council for an amendment to the conditional use permit.

Mr. Sam Stark, applicant, spoke in support of this request and stressed that he had every intention on keeping the mixed uses in the building.

There being no request from the applicant for rebuttal, Vice-Mayor Cloninger closed the public hearing at 5:27 p.m.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved to adopt Ordinance No. 2730 to rezone property on Roberts Street from RM-8 Residential Multi-Family Medium Density District to CB-1 Community Business I District (conditional use zoning). This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 425

Councilman Worley moved to adopt Ordinance No. 2731 granting the conditional use permit for property on Roberts Street (conditional use zoning), with the following conditions: (1) Uses will be limited to an artist studio, workshop, gallery, a catering kitchen, and three upstairs apartments; and (2) Site alterations will be limited to the proposed site development plans and building elevation drawings, with the potential for an addition of a third-story to incorporate additional apartments. Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature reflecting the findings that the Code requires regarding conditional use standards and reflecting information presented by staff and subject to the conditions suggested by staff. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 427

B. PUBLIC HEARING TO CONSIDER THE REZONING OF PROPERTY ON CARSON CREEK DRIVE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO OFFICE DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2732 - ORDINANCE TO REZONE PROPERTY ON CARSON CREEK DRIVE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO OFFICE DISTRICT

ORDINANCE NO. 2733 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR PROPERTY ON CARSON CREEK DRIVE (CONDITIONAL USE ZONING)

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Vice-Mayor Cloninger opened the public hearing at 5:30 p.m.

Ms. Stacy Merten, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report). This public hearing was advertised on July 14 and 21, 2000.

Ms. Merten said that this is the consideration of (1) an ordinance to rezone a lot at 627 Carson Creek Drive from RM-16 Residential Multi-Family High Density District to Office District, and (2) issuance of a conditional use permit.

The Planning and Zoning Commission, at their July, 5, 2000, meeting, reviewed and recommended approval to conditionally rezone a 1.64 acre tract located on Carson Creek Drive near the Turtle Creek and Carson Creek apartments. The subject property (PIN No. 9655.05-18-4838) is located in an RM-16 zoning district that is adjacent to a HB zoning district. The site is currently vacant. The proposal is to construct a small office park, to be known as Travis Office Park, consisting of three buildings with a total of 9,600 square feet (map is part of City Exhibit 3).

This site fits the criteria for office zoning as it is located in a transition areas between high density residential and commercial uses. Staff has worked with the developer to design a project that will fit into the character of the area and the site as the conditional use zoning allows. The buildings will be of log cabin construction to better blend with the natural surroundings. The building closest to the street will be two stories, but will appear as one from the front. The developer will strive to save as many large existing trees as feasible in the buffer areas and will plant additional trees and shrubs as may be required to meet the 20 ft. 'B' buffer requirement. Parking areas will not be readily visible from the street.

The Planning and Zoning Commission voted unanimously to recommend approval of the conditional use rezoning with the following conditions: (1) prior to the issuance of a Level I zoning permit, the following items must be addressed: (a) Easements for the private sewer lines must be submitted - this may affect the landscape plan; (b) Drawings must be revised so that no parking is located within a required setback; (c) The Planning Director and the City Engineer have determined that sidewalks are required and should be shown on the site plans; (d) Accessible paths of travel from the parking areas to the buildings must be shown on the site plan; (e) All requirements for stormwater and erosion control must be met; (f) A wastewater allocation from MSD must be obtained; (g) The development will need to tie into the water main on Hendersonville Road; and (h) The final building plans must be sealed by a licensed architect and meet all NC building code requirements, including those for accessibility.

The Planning and Development staff recommends approval of the conditional use rezoning.

Councilman Hay was concerned that this property is zoned for multi-family housing and we're giving that up for an office use.

Ms. Merten said that that 26 units could be provided on this 1.64 acre site and actually the concern of the neighborhood was more to preserve the existing trees, which this development does.

Mr. John Fisher, Architect who prepared the site plan, said that the building is a log-style home to be placed on the site. He emphasized that they are proposing a low density residential type development and are being conservative with the site. The total square footage is 9,600 feet vs. if you did build 26 units on this site at 1,200 sq. feet per unit it would be 31,000 sq. feet. In addition, their parking is 39 cars vs. 26 units at two cars per unit it would be 52 cars. And, he noted, they are trying to preserve as many trees as possible.

Dr. Gerald Travis said that this is a proposal for his office as a child psychiatrist. His goal is to develop an atmosphere that is non-intimidating and actually has a residential feel for children and families that he sees in his practice. The design and intent is a different approach than a typical medical complex for the type of practice that he has.

Councilman Hay wondered why this property has not been developed as residential in the past. Dr. Travis said that he heard this was a piece of property that was part of a foreclosure from Turtle Creek Apartments.

There being no request from the applicant for rebuttal, Vice-Mayor Cloninger closed the public hearing at 5:42 p.m.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved to adopt Ordinance No. 2732 to rezone property on Carson Creek Drive from RM-16 Residential Multi-Family High Density District to Office District (conditional use zoning). This motion was seconded by Councilwoman Field.

Councilman Hay said that he would vote in favor of the rezoning, however, he has a real concern about loss of opportunities for housing. He did feel that his project was great and is consistent with the kind of development City Council wants to see. But, this property is zoned for multi-family residential which is something we are struggling to find more opportunities for in the City. He said he would vote in favor of the rezoning, operating under the assumption that this property is not easily developable for multi-family or else it would have been developed by now.

Councilwoman Field said that, as an architect, looking at how small the lot is, she didn't think a developer would come in and develop that small an area multi-family. A developer would probably be looking to be much more efficient and develop more units in order to get the price at a reasonable level. That's probably why it hasn't been developed into multi-family housing. She agreed with Councilman Hay with regard to the loss of multi-family zoned property and Council really needs to be mindful of that.

Vice-Mayor Cloninger and Councilman Peterson both agreed with Councilman Hay stating that the City does need to be mindful of preserving as much of multi-family zoned property as it can.

The motion to rezone this property made by Councilman Worley and seconded by Councilwoman Field carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 432

Councilwoman Field moved to adopt Ordinance No. 2733 granting the conditional use permit for property on Carson Creek Drive (conditional use zoning), with the following conditions: (1) prior to the issuance of a Level I zoning permit, the following items must be addressed: (a) Easements for the private sewer lines must be submitted - this may affect the landscape plan; (b) Drawings must be revised so that no parking is located within a required setback; (c) The Planning Director and the City Engineer have determined that sidewalks are required and should be shown on the site plans; (d) Accessible paths of travel from the parking areas to the buildings must be shown on the site plan; (e) All requirements for stormwater and erosion control must be met; (f) A wastewater allocation from MSD must be obtained; (g) The development will need to tie into the water main on Hendersonville Road; and (h) The final building plans must be sealed by a licensed architect and meet all NC building code requirements, including those for accessibility. Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature reflecting the findings that the Code requires regarding conditional use standards and reflecting information presented by staff and subject to the conditions suggested by staff. This motion was seconded by Councilwoman Bellamy and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 434

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION WAIVING CONFLICT OF INTEREST AND PERMITTING VAN WINKLE, BUCK, WALL, STARNES AND DAVIS, P.A., TO FILE ACTIONS OF EMINENT DOMAIN ON BEHALF OF THE CITY OF ASHEVILLE

RESOLUTION NO. 00-120 - RESOLUTION AUTHORIZING THE FILING FOR CONDEMNATION OF A WATER LINE EASEMENT ALONG A PRIVATE ACCESS ROAD KNOWN AS SPRING STREET TO THE EXTENT THAT ADJACENT PROPERTY OWNERS HAVE INTEREST

City Attorney Oast requested no action will be taken the resolution waiving the conflict of interest and permitting Van Winkle, Wall, Starnes and Davis, P.A., to file actions of eminent domain on behalf of the City of Asheville. He said that some issues have been raised by Council members in which he needs to get more information on and he is not prepared to go forward with that issue that this time.

City Attorney Oast said that at this time, staff is requesting Council's authorization to proceed with the filing of a condemnation of a waterline easement along a private access road known as Spring Street to the extent that adjacent property owners have interest.

Summary: As City Council is aware, the Regional Water Authority received a $3 million grant from the State of North Carolina in July 1999 to construct some critical improvements to the City-owned water distribution system. Design has been completed, right-of-way has been underway since February 2000, construction bids have been received and contracts were awarded by the Water Authority on June 20, 2000, and construction is scheduled for August 2000 through February 2001.

Despite significant efforts by staff to acquire an easement along Spring Street, northwest of the City of Asheville, we have been unable to obtain the signatures of Ms. Lavanda Rutan of Conestee, South Carolina, and Ms. Darlene M. Waters and husband, Richard G. Waters of Conestee, South Carolina. A third heir, Mr. Danny Mathis, Single, of Asheville, North Carolina has signed the easement. Title work obtained by the Water Authority's attorney identified these individuals as the surviving heirs of Ama L. Henderson, who owned the property but is now deceased. All owners of other property on Spring Street and Wolfe Park Circle have signed easements.

A survey and appraisal has been performed on these two properties, and the Regional Water Authority recommended on July 18, 2000, that the City Council authorize the Authority's attorney to exercise the Council's authority of eminent domain to obtain water line easements in the access road where the interests of these three owners in common of this property exist. These easements must be obtained for the Authority to proceed with the completion of the $3 million of water system improvements.

City staff and the Regional Water Authority recommend the City Council adopt the resolution authorize the filing of condemnation of a water line easement on the property described above, and the City Attorney recommends the City Council adopt the resolution waiving conflict of interest with Van Winkle, Buck, Wall, Starnes, and Davis, P. A. (attorney for the Water Authority) to file these actions of eminent domain on behalf of the City of Asheville.

Vice-Mayor Cloninger said that members of Council have been previously furnished with copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-120. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 89

VI. OTHER BUSINESS:

A. RESOLUTION NO. 00-121 – RESOLUTION CONFERRING MAYOR'S POWERS AND DUTIES UPON VICE-MAYOR

City Attorney Oast read the following resolution: G.S. 160A-70 provides for the election of a Mayor pro tempore, and further provides for the powers and duties of the Mayor to be conferred by Council upon the Mayor pro tempore, in the absence of the Mayor, and Sec. 10 of the Asheville City Code, and Rule 10 of City Council's Rules of Procedure provide to similar effect with respect to the office of Vice-Mayor; and, Mayor Sitnick is absent from the City and is not anticipated to return until August 7, 2000. Now, therefore, be it resolved by the City Council of the City of Asheville that the powers and duties of Mayor are hereby conferred upon the Vice-Mayor, effective immediately and continuing until 8:00 a.m. on August 8, 2000, or until such sooner time as the City Manager is advised that the Mayor is no longer absent.

Councilman Hay moved for the adoption of Resolution No. 00-121. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 90

B. CLAIMS

The following claims were received by the City of Asheville during the period of July 7-20, 2000: Lewis Rathburn Center (Water), City Development, McNutt Service (Fleet Management) and Rebecca Keil (Parks & Recreation).

These claims have been referred to Asheville Claims Corporation for investigation.

C. LAWSUITS

The City received the following complaint on July 5, 2000: Betty Donoho v. City of Asheville, Buncombe County and WNC Air Pollution Control Agency. The nature of the proceeding is a complaint for injunction from paying any excess funds held by the WNC Air Pollution Control Agency to the Clean Air Community Trust and to order these funds to be paid to the School Board. This matter will be handed in-house.

The City received the following Charter Services Complaint on July 11, 2000: Travel Professionals Inc., Young Transportation Inc. and NC Motorcoach Association Inc. vs. Asheville Transit System. The nature of the proceeding is a determination that festival bus shuttle services are "charter service" and should be privatized; to enjoin the Asheville Transit System from providing the festival shuttle services; and order Asheville Transit System to pay compensatory damages in an amount in excess of $10.000. This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Vice-Mayor Cloninger adjourned the meeting at 5:52 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 1, 2000 - 3:00 p.m.

Worksession

Present: Vice-Mayor M. Charles Cloninger, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

CONSENT:

Critical Needs List for Water System Improvements – For City Council Information Only

Summary: The review of a Critical Needs List which identifies critical improvements needed to the Water System.

In July 1999 the Regional Water Authority adopted a Critical Needs List for the first time. This list included a prioritized listing of critical improvements needed to the Water System as developed by the Water Resources Department staff. The first list included a total of $16,872 million of improvements needed to correct problems such as frequently leaking water lines, undersized water lines causing low service pressure, water quality problems, and/or water lines which can no longer serve additional customers. At that time, the Regional Water Authority agreed that this list should be updated annually.

This is the second edition of this Critical Needs List for the City Council's review. The list this year identifies $227,000 of critical need improvements completed within the last year, $7,304,430 of improvements scheduled for construction in the next twelve months ($5,000,000 of which is funded by grants received from the State), and an additional $15,574,200 of improvements needed but not yet scheduled. The total list of projects on this year's list totals $23,105,630. Those projects not yet scheduled are grouped in order of first, second and third priority.

The adoption of a Critical Needs List serves several purposes: (1) identifying the scope of critical problems in the Water System for budgeting and planning purposes; (2) assists in reviewing customer complaints and providing effective information to customers wanting service in these areas of the Water System; and (3) positions us to take advantage of outside funding opportunities in a timely manner. The first Critical Needs List adopted in 1999 was invaluable to the process of applying for State grant funding which resulted in our successful award of $5 million from the State.

The Regional Water Authority unanimously approved the 2000 Critical Needs List for Water System Improvements at their July 18, 2000, meeting.

Staff recommends that the City Council review this report for information purposes.

Raftelis Financial Consulting Inc. Cost of Service Water Rate Study – For City Council Information Only

Summary: The review of a resolution authorizing the Chairman to sign a contract with Raftelis Financial Consulting to perform a cost of service rate study.

At their meeting on June 20, 2000, the Budget/Finance Committee reviewed a proposal from Raftelis Financial Consulting (RFC) to perform a cost of service study. Staff recommended that the Authority enter a contract with RFC to begin a cost of service study as soon as possible in order to have an accurate review of the rate structure in place before next budget year. The Authority has previously approved this study as part of its five-year capital improvement plan and funding has been appropriated in the Fiscal Year 2000/2001 Water Fund Budget.

Development of a cost of service study will involve the following tasks: (1) Collection of relevant data for analysis including determining capacity factors associated with customer classes and performing a bill frequency analysis; (2) Calculation of rates and charges over the next five years for each customer class using a conceptual design that includes a new wholesale customer class. This task includes comparing the newly developed rates and charges with those of similar utilities, with the exception of the wholesale rate; (3) Presentation of proposed cost of service rates to explain to interested groups the rate setting methodology and projected rates and charges; and (4) Preparation of a final report detailing analysis and results.

Mr. Raftelis, of RFC, has served over 300 government utilities in his 25-year career. In particular, he has extensive experience in performing financial feasibility evaluations for various municipalities across the country. He has previously assisted the Authority in the water cost of service and rate study performed in 1995 and the financial feasibility analysis performed in 1996. He is very familiar with our organization and the political atmosphere of this community. Given RFC's prior work on the 1996 Bond Issue and his recent assistance to review the Authority's five-year financial plan, he was able to reduce fees substantially below the amount he billed for the 1995 Cost of Service study.

The Regional Water Authority agreed with staff's recommendation and on July 18, 2000, unanimously approved a resolution authorizing the Chairman to enter a contract with RFC to conduct a cost of service study, that will include the newly created wholesale customer class, in an amount not to exceed $37,900.

Staff recommends that the City Council review this report for information purposes.

Vice-Mayor Cloninger hoped that this study will go into more detail that a prior study performed by RFC.

Acceptance of $2 Million Grant for Phase II – Critical Needs

Summary: The consideration of a resolution authorizing the Regional Water Authority to formally accept a $2 million high unit cost grant offer from the North Carolina Department of Environment and Natural Resources ("DENR").

In September 1999 the Regional Water Authority applied for a second grant with DENR to continue improvements to the Regional Water Distribution System. The Authority had already been awarded a $3 million grant from DENR in July 1999 from an earlier round of applications. Areas of the water system were prioritized according to the State's criteria for grant points, including areas where water pressures to customers were low and areas where water leak repairs were frequent.

On March 15, 2000, the Water Resources Department was notified that DENR had selected the Authority for a $2 million grant from the September application, conditioned on the design being completed and approved by DENR by July 7, 2000. This was completed on July 5, 2000.

DENR will formally request the Authority accept the grant sometime in August 2000. Pursuant to the Water Agreement, the Authority needs the approval of the County of Buncombe and the City of Asheville to formally accept this grant. Adoption of the resolution by the Council will provide the required approval of the City.

Water Resources Department staff recommend City Council adopt the resolution.

Skyland Fire Protection Service District Agreement

Summary: The consideration of a resolution authorizing the City Manager to sign a fire protection agreement with Buncombe County for the Skyland Fire Protection Service District.

The City of Asheville entered into an agreement to provide fire protection for the "Skyland Fire Protection Service District" in 1995. This area is primarily the Biltmore Estate property. The new contract was requested by Buncombe County to standardize contracts for fire protection with all fire departments in Buncombe County.

The Interim Fire Chief recommends City Council authorize the City Manager to sign the fire protection agreement with Buncombe County for the Skyland Fire Protection Service District.

New Street Name – Dawson Place

Summary: The consideration of a resolution accepting the new proposed street name "Dawson Place."

Ron Moser Inc., owner of lots in Glendale Avenue Subdivision, has petitioned the City of Asheville to accept the street name "Dawson Place." The new street will be a cul-de-sac off of Glendale Avenue.

City staff recommends adoption of the resolution.

Contract for Traffic Optimization Study in Central Business District

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with Kimley-Horn Associates in the amount of $63,000 to prepare a traffic optimization study for traffic signals in the Central Business District in downtown Asheville.

In December 1998 City Council adopted a parking study of the downtown, Biltmore Village and West Asheville areas. One of the recommendations of the parking study was to optimize the traffic signals in the downtown area. In 1988, four closed loop systems were installed in the downtown area. Since then the timing of the overall system has not been revised.

This study will recommend improvements to the timing of the traffic signal system in downtown that will reduce traffic congestion, reduce air pollution and improve conditions for pedestrians.

Funds for this project are budgeted in the Fiscal Year 2000-2001 budget.

Staff recommends that City Council authorize the City Manager to sign a contract with Kimley-Horn Associates in the amount of $63,000 to prepare a traffic optimization study for traffic signals in the Central Business District in downtown Asheville.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UDO AMENDMENT REVIEW

City Attorney Oast said that this Unified Development Ordinance amendment is being brought before City Council in order that staff may respond to questions Council may have prior to the public hearing, which is scheduled on August 22, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Ancillary Non-Residential Uses

Urban Planner Dan Baechtold said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to establish a definition for ancillary non-residential uses, to establish ancillary non-residential uses as a conditional use in residential zoning districts, and to establish development standards for this use.

On July 20, 2000, the Planning and Zoning Commission voted unanimously to recommend approval of this wording amendment to the UDO. The Commission directed staff to prepare this amendment to address cases where it may not be appropriate to rezone property from residential to commercial, but it might be appropriate to allow parking, landscaping, or stormwater detention facilities in a residential zoning district.

This proposed amendment establishes parking, landscaping, and stormwater detention for non-residential uses as conditional uses in all residential zoning districts and establishes standards for these uses. The ordinance contains two parts. The first part establishes a definition of ancillary non-residential uses. The second part of the ordinance establishes standards to be used in the review of these uses.

This ordinance adds another tool to the toolbox to be used in evaluating specific development proposals. Each application will be reviewed by the Technical Review Committee and City Council, and must be issued a conditional use permit. Adjacent property owners will be notified as specified in Section 7-5-20 of the UDO. The review of these uses will be site specific. In each case, City Council will have the option to deny the request, approve the request, or to add specific conditions to the approval. It this ordinance is approved, staff will also prepare the necessary wording to amend section 7-8 of the UDO.

Planning and Development staff recommends City Council approve the amendment to the UDO.

Mr. Baechtold noted two changes to the standards in the ordinance City Council has before them today. City Council felt the changes were appropriate and instructed him to revise the ordinance prior to the public hearing.

Vice-Mayor Cloninger asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearing on August 22, 2000.

STATUS REPORT ON PARKING STUDY IMPLEMENTATION

Traffic Engineer Michael Moule said that this is the review of an updated Status Report Spreadsheet used to track the progress of the Parking Study Implementation.

The City's Comprehensive Parking Study was adopted by the City Council in December 1998. The Parking Study Implementation Team was formed and the LX Team Charter was signed in June 1999. The study made about 60 recommendations for potential changes that would improve parking issues within the City. In addition, a few other recommendations have been made by other groups including the Asheville Downtown Association and the Implementation Team itself. A total of 67 recommendations have been incorporated into a single Status Report Spreadsheet. This spreadsheet is used to track the Parking Study Implementation progress on evaluating and implementing the recommendations. Beginning in July 1999, updates are being provided to the City Council twice each year; once in July and once in January.

The following summarizes the current status: Many issues surrounding downtown parking issues have been completed in the past six months. City staff met several times with a group of concerned business owners and residents to discuss downtown parking issues. These meetings were very important in the development of several changes recently approved by City Council including; the parking fee changes, new enforcement personnel, and the new on-street permit parking program. The Finance Department has completed several other changes in 2000, including the installation of electronic parking meters throughout downtown and the installation of new revenue control equipment. Several other major projects are in progress. These include downtown traffic signal optimization, installation of directional signs to the parking garages, and the development of a design for the Battery Park area. The spreadsheet outlines the continuing work being done by employees from several departments to implement many of the remaining recommendations.

Mr. Moule responded to several questions from City Council regarding the study and noted that he would look into some of Council's suggestions.

RESOLUTION NO. 00-122 – RESOLUTION TO AWARD BID FOR ELECTRICAL WORK AT THE CIVIC CENTER

At the request of Vice-Mayor Cloninger, Councilman Hay moved to excuse Vice-Mayor Cloninger from participating in this issue due to a conflict of interest. This motion was seconded by Councilwoman Bellamy and carried unanimously.

Civic Center David Pisha said that this is the consideration of approval to proceed with the buss duct project at the Civic Center.

Failure of the buss duct earlier this spring caused the electrical service at the Center to be interrupted throughout the building. The buss duct is the main electrical feed into the Civic Center. Because of the timing of the incident, it had little effect on events occurring at the facility. There is a minimum lead-time to build a new buss duct of five weeks. Another 3-5 days is required to install it. This installation cannot be undertaken when ice is in the building. It is imperative that this work be completed prior to the Center's busy fall and winter schedule.

Staff has received three quotes for the scope of the work. Following is an overview of the quotes received for this work:

-	$39,500	Emory Electric Inc.
-	$50,270	Electrics of Asheville Inc.
-	$72,360	Grigg Electric Company Inc.

A fourth quote was received but did not comply with the specifications for the project.

Based on current information, we have the time to proceed with the project and complete it in late September. Council has already appropriated the funds for it. The quote staff recommends accepted is under budgeted funds.

The fourth quote was less than the one recommended by staff. It does not replace the buss duct with the same brand of equipment that is currently in place. It is important, however, to replace the existing equipment with a like item. This is because of fault current rating of the switch gear. Changing to a cheaper brand could result in a change of our fault current rating and the existing switch gear could also have to be replaced at considerable extra cost.

Staff recommends City Council accept the bid from Emory Electric, in the amount of $39,500, be accepted.

Councilman Worley moved to suspend the rules and take formal action at this meeting. This motion was seconded by Councilwoman Bellamy and carried unanimously.

Councilwoman Field moved to adopt Resolution No. 00-122. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 91

BELE CHERE 2000

Councilman Worley, 2000 Bele Chere Chair, praised City staff for their work to make the 2000 Bele Chere Festival a success.

RECREATION BOARD MEMBERSHIP

It was the consensus of City Council to ask the Recreation Board and Parks and Recreation Director Irby Brinson their thoughts on expanding the Recreation Board from seven members to either nine or eleven members in order to improve the ethnic diversity of the Board. It was also the consensus of City Council that if there is no opposition to increasing the membership that the candidates be chosen from the current resource list.

BOARD AND COMMISSION APPOINTMENTS

Councilman Worley moved to waive the rules and take formal action on the board and commission vacancies below. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION NO. 00-123 - RESOLUTION APPOINTING A MEMBER TO THE ABC BOARD

Charles Worley has resigned as a member of the ABC Board leaving an unexpired term until November 13, 2000. This appointment will be to fill the unexpired term of Mr. Worley, and appoint the member to serve an additional three year term, term to expire November 13, 2003.

Councilwoman Field moved to appoint Deborah Holmes-Young to serve as a member on the ABC Board to serve the unexpired term of Mr. Worley until November 13, 2000, and then to serve an additional three year term, term to expire November 13, 2003, or until her successor has been appointed. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 92

RESOLUTION NO. 00-124 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE REGIONAL AIRPORT AUTHORITY

The term of Robert Turner as a member on the Asheville Regional Airport Authority expired on June 30, 2000. Mr. Turner is eligible for reappointment.

Councilman Hay moved to reappoint Mr. Turner, as a member on the Asheville Regional Airport Authority, to serve an additional four year term, term to expire June 30, 2004, or until his successor is appointed. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 93

RESOLUTION NO. 00-125 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE AREA CIVIC CENTER COMMISSION

The terms of J. Howard Collins, Nancy Williams, Chris Slusher and Douglas Haldane, as members on the Civic Center Commission, expired on June 30, 2000.

On July 25, 2000, City Council interviewed Mr. Peter Crosa, Mr. Doc Halliday, Mr. Kent Wolfe, and Mr. Robert Dungan. Ms. Lisa Michie was unable to attend the interview. Mr. Michael Kryzanek was not interested in this vacancy.

By a show of hands, Mr. Crosa received 3 votes, Doc Halliday received 3 votes, Mr. Wolfe received 6 votes, Mr. Dungan received 6 votes and Ms. Michie received 6 votes. Therefore, Councilman Worley moved to appoint Kent Wolfe, Robert Dungan and Lisa Michie as members of the Civic Center Commission, to each serve a three year term respectively, terms expiring on June 30, 2003, or until their successors are appointed. This motion was seconded by Councilman Peterson and carried unanimously.

As a result of the tie votes of Mr. Crosa and Mr. Halliday, it was the consensus of City Council to place the remaining vacancy on the August 15, 2000, worksession agenda when Mayor Sitnick would be present to vote.

In addition, because Mr. Halliday is also interested in serving on the Tree Commission, it was the consensus of City Council to postpone any action on that vacancy until the August 15, 2000, worksession agenda as well.

RESOLUTION BOOK NO. 26 – PAGE 94

RESOLUTION NO. 00-126 - RESOLUTION APPOINTING A MEMBER TO THE CIVIL SERVICE BOARD

The term of William Fulp, as a member on the Civil Service Board, expired on May 21, 2000.

Councilwoman Bellamy moved to appoint Ms. Sophie Dixon, as a member of the Civil Service Board, to serve a two year term, term to expire May 21, 2002, or until her successor has been appointed. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 95

RESOLUTION NO. 00-127 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL

Martha Fawbush has resigned as a member of the Asheville-Buncombe Community Relations Council, leaving an unexpired term until December 31, 2000.

On July 25, 2000, City Council interviewed Mr. Ken Fulford, Ms. Clara Jeter, Mr. Michael Burkhead and Mr. Doc Halliday. Rev. D. M. Maureen Killoran could not be reached by telephone and did not respond to interview letter written.

City Council noted that all candidates had excellent credentials and it was hard for them to make a decision.

Councilman Worley moved to appoint Clara Jeter to the Asheville-Buncombe Community Relations Council to fill the unexpired term of Ms. Fawbush and a full three year term, term to expire December 31, 2003, or until her successor is appointed. This motion was seconded by Councilwoman Bellamy and carried unanimously.

City Council instructed the City Clerk to forward the City's resource list to the Buncombe County Board of Commissioners and the Chair of the Community Relations Council so when their vacancies occur, they would have an additional list of interested members of the community.

RESOLUTION BOOK NO. 26 – PAGE 96

RESOLUTION NO. 00-128 - RESOLUTION APPOINTING MEMBERS TO THE POLICE OFFICERS AND FIREFIGHTERS DISABILITY REVIEW BOARD

The terms of Stephanie Cooper, Michael Keleher and James Lewis, as members on the Police Officers and Firefighters Disability Review Board, expired on July 19, 2000.

Councilman Hay moved to reappoint Ms. Cooper, Dr. Keleher and Mr. Lewis to each serve an additional two year term, respectfully. All terms will expire on July 19, 2002, or until their successors have been appointed and qualified. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 97

RESOLUTION NO. 00-129 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ELECTRICAL EXAMINERS

The terms of Eugene Presley, Ronnie McAbee, Terry Ponder, Joe Enderle and Harold Garland expired on July 1, 2000.

Mr. Tom Donoho was a candidate for the electrical contractor vacancy but was not interviewed.

Councilman Worley moved to reappoint Ronnie McAbee (journeyman electrician), Terry Ponder (utility representative), Joe Enderle (licensed engineer) and Harold Garland (layman) to serve a three year terms, respectfully. All terms will expire on July 1, 2003, or until their successors have been duly appointed. This motion was seconded by Councilman Hay and carried unanimously.

By a show of hands, Mr. Presley received one vote and Mr. Donoho received five votes. Therefore, Mr. Tom Donoho was appointed to the Board of Electrical Examiners to serve in the capacity of electrical contractor for a three year term, term to expire July 1, 2003, or until his successor has been appointed.

RESOLUTION BOOK NO. 26 – PAGE 98

RESOLUTION NO. 00-130 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE FAIR HOUSING COMMISSION

Steve Rice and Connie Barnette have each resigned from the Asheville-Buncombe Fair Housing Commission leaving unexpired terms until December 31, 2001.

Councilman Worley moved to appoint Ms. Christiana Tugman to serve the unexpired term of Mr. Rice, term to expire December 31, 2001, or until her successor has been appointed. This motion was seconded by Councilwoman Bellamy and carried unanimously.

The City Clerk was instructed to re-advertise for the vacant seat left by Ms. Barnette.

RESOLUTION BOOK NO. 26 – PAGE 99

RESOLUTION NO. 00-131 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

The terms of Pam Nickless and Shirley Early expired on July 1, 2000. In addition, Chris Knorr has resigned from the Commission, thus leaving an unexpired term until July 1, 2001.

On July 25, 2000, City Council interviewed Frank Thomson, Curtis Walk, Kevan Frazier, and Doc Halliday. Mr. Scott Riviere was very interested in the vacancy, however, he was scheduled to be out of town on the interview date. Mr. John Best called on July 27, 2000, and said that he was out of town, however, he was still interested in being considered for the vacancy.

By a show of hands, Mr. Thomson received 4 votes, Mr. Walk received 4 votes, and Mr. Frazier received 4 votes, Mr. Riviere received 4 votes and Mr. Best received 2 votes. Another show of hands was taken as follows: Mr. Thomson received 6 votes, Mr. Walk received 6 votes, Mr. Frazier received 4 votes and Mr. Riviere received 2 votes. Therefore, Councilwoman Bellamy moved to appoint Mr. Thomson and Mr. Walk as members to the Asheville-Buncombe Historic Resources Commission to each serve a three year term, terms to expire July 1, 2003, and Mr. Frazier was appointed to serve the unexpired term of Mr. Knorr, term to expire July 1, 2001. All terms are until their successors have been appointed. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 100

APPOINTMENT TO THE HOUSING AUTHORITY BOARD OF DIRECTORS

City Clerk Burleson said that the term of Helen Branson, as a member on the Housing Authority Board of Directors, expired on June 11, 2000.

On July 18, 2000, Mayor Sitnick reappointed Ms. Branson to serve a five year term, term to expire on June 11, 2005, or until her successor has been appointed.

RESOLUTION NO. 00-132 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART BOARD

Judith Barber and Caroline Mason have resigned as members on the Public Art Board.

Councilwoman Field moved to (1) appoint Tina McGuire to serve the unexpired term of Ms. Barber, term to expire December 31, 2003, and (2) appoint Kenn Kotara to serve the unexpired term of Ms. Mason, term to expire on December 31, 2000, and then to serve an additional four year term, term to expire on December 31, 2004. Both terms are until their successors have been appointed. This motion was seconded by Councilman Worley and carried unanimously.

It was the consensus of City Council to place the vacancy recently left by Ms. Judy Swan into the next quarterly appointment process.

RESOLUTION BOOK NO. 26 – PAGE 101

RESOLUTION NO. 00-133 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

The terms of Thomas McMahon, Frank Fishburne, Thomas House and Samuel Camp, as members on the Recreation Board, expired on June 30, 2000.

On July 25, 2000, City Council interviewed Ms. Susan Sparboe. In addition, Mr. James Grant and Mr. Jim Drummond were candidates for the vacancies but were not interviewed.

Councilman Hay moved to reappoint Thomas McMahon, Frank Fishburne, and Thomas House to each serve a three year term, terms to expire June 30, 2003, or until their successors have been appointed. This motion was seconded by Councilwoman Field and carried unanimously.

By a show of hands, Ms. Sparboe received 0 votes, Mr. Grant received 4 votes, Mr. Drummond received 2 votes. Therefore, Mr. James Grant is appointed to serve a three year term, term to expire June 30, 2003, or are until his successor has been appointed.

The City Clerk was instructed to contact Ms. Sparboe and Mr. Drummond to let them know that their applications would receive the highest priority when action is taken to expand the membership on the Recreation Board.

RESOLUTION BOOK NO. 26 – PAGE 102

RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION

On November 23, 1999, City Council appointed six members to the seven member Tree Commission. The City Clerk was instructed to advertise for the vacancy in the next quarterly appointment process. This is the second quarterly process this vacancy has been advertised.

On July 25, 2000, City Council interviewed Doc Halliday.

Because Mr. Halliday is also interested in serving on the Civic Center Commission, it was the consensus of City Council to postpone any action on this vacancy until the August 15, 2000, worksession agenda.

NEXT COMMUNITY MEETING

It was the consensus of City Council to hold their next community meeting on Tuesday, August 29, 2000, beginning at 7:00 p.m. at the North Asheville Community Center located at 37 E. Larchmont Road, Asheville, N.C.

REQUEST FOR REPORTS

Councilman Peterson asked for a report on the Tourism Development Authority's recent report on the convention/conference facility. Councilman Hay said that the Future of the Civic Center Task Force will be reviewing the report and will report to Council as soon as possible.

When Councilman Peterson asked for an update on the Grove Arcade renovation project, Vice-Mayor Cloninger said that there will be some information provided in approximately two weeks on this project.

CLOSED SESSION

At 4:22 p.m., Councilman Hay moved to go into closed session to discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations - G.S. 143-318.11(a)(4). This motion was seconded by Councilman Worley and carried unanimously.

At 4:47 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Vice-Mayor Cloninger adjourned the meeting at 4:47 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 8, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Hay gave the invocation.

ADDITIONS TO THE AGENDA

With the consensus of City Council, Mayor Sitnick added a resolution authorizing the City Manager enter into an encroachment agreement with the N. C. Dept. of Transportation for pedestrian improvements along US 25A (Brook and Lodge Streets) under the Consent Agenda.

Mayor Sitnick asked that the issue the public hearing for consideration of a conditional use permit for Riverbend Marketplace (i.e. Walmart) be discussed under Other Business.

I. PROCLAMATIONS:

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 25, 2000, AND THE WORKSESSION HELD ON AUGUST 1, 2000

B. MOTION SETTING A PUBLIC HEARING ON AUGUST 22, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A DEFINITION FOR ANCILLARY NON-RESIDENTIAL USES, TO ESTABLISH ANCILLARY NON-RESIDENTIAL USES AS A CONDITIONAL USE IN RESIDENTIAL ZONING DISTRICTS, AND TO ESTABLISH DEVELOPMENT STANDARDS FOR THIS USE

C. RESOLUTION NO. 00-134 – RESOLUTION AUTHORIZING THE ACCEPTANCE OF A $2 MILLION HIGH UNIT COST GRANT FROM THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR CONTINUED IMPROVEMENTS TO THE REGIONAL WATER DISTRIBUTION SYSTEM

Summary: The consideration of a resolution authorizing the Regional Water Authority to formally accept a $2 million high unit cost grant offer from the North Carolina Department of Environment and Natural Resources ("DENR").

In September 1999 the Regional Water Authority applied for a second grant with DENR to continue improvements to the Regional Water Distribution System. The Authority had already been awarded a $3 million grant from DENR in July 1999 from an earlier round of applications. Areas of the water system were prioritized according to the State's criteria for grant points, including areas where water pressures to customers were low and areas where water leak repairs were frequent.

On March 15, 2000, the Water Resources Department was notified that DENR had selected the Authority for a $2 million grant from the September application, conditioned on the design being completed and approved by DENR by July 7, 2000. This was completed on July 5, 2000.

DENR will formally request the Authority accept the grant sometime in August 2000. Pursuant to the Water Agreement, the Authority needs the approval of the County of Buncombe and the City of Asheville to formally accept this grant. Adoption of the resolution by the Council will provide the required approval of the City.

Water Resources Department staff recommend City Council adopt the resolution.

RESOLUTION BOOK NO. 26 – PAGE 103

D. RESOLUTION NO. 00-135 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "DAWSON PLACE" OFF OF GLENDALE AVENUE

Summary: The consideration of a resolution accepting the new proposed street name "Dawson Place."

Ron Moser Inc., owner of lots in Glendale Avenue Subdivision, has petitioned the City of Asheville to accept the street name "Dawson Place." The new street will be a cul-de-sac off of Glendale Avenue.

City staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 104

E. RESOLUTION NO. 00-136 - RESOLUTION MODIFYING THE CITY COUNCIL MEETING SCHEDULE TO SCHEDULE A CITY COUNCIL COMMUNITY MEETING ON TUESDAY, AUGUST 29, 2000, BEGINNING AT 7:00 P.M. AT THE NORTH ASHEVILLE COMMUNITY CENTER LOCATED AT 37 E. LARCHMONT ROAD, ASHEVILLE, N.C.

RESOLUTION BOOK NO. 26 – PAGE 105

F. RESOLUTION NO. 00-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY FOR THE SKYLAND FIRE PROTECTION SERVICE DISTRICT

Summary: This is the consideration of a resolution authorizing the City Manager to sign a fire protection agreement with Buncombe County for the Skyland Fire Protection Service District.

The City of Asheville entered into an agreement to provide fire protection for the "Skyland Fire Protection Service District" in 1995. This area is primarily the Biltmore Estate property. The new contract was requested by Buncombe County to standardize contracts for fire protection with all fire departments in Buncombe County.

The Interim Fire Chief recommends City Council authorize the City Manager to sign the fire protection agreement with Buncombe County for the Skyland Fire Protection Service District.

RESOLUTION BOOK NO. 26 – PAGE 106

G. RESOLUTION NO. 00-138 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH KIMLEY-HORN ASSOCIATES TO PERFORM A TRAFFIC OPTIMIZATION STUDY IN THE CENTRAL BUSINESS DISTRICT

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with Kimley-Horn Associates in the amount of $63,000 to prepare a traffic optimization study for traffic signals in the Central Business District in downtown Asheville.

In December 1998 City Council adopted a parking study of the downtown, Biltmore Village and West Asheville areas. One of the recommendations of the parking study was to optimize the traffic signals in the downtown area. In 1988, four closed loop systems were installed in the downtown area. Since then the timing of the overall system has not been revised.

This study will recommend improvements to the timing of the traffic signal system in downtown that will reduce traffic congestion, reduce air pollution and improve conditions for pedestrians.

Funds for this project are budgeted in the Fiscal Year 2000-2001 budget.

Staff recommends that City Council authorize the City Manager to sign a contract with Kimley-Horn Associates in the amount of $63,000 to prepare a traffic optimization study for traffic signals in the Central Business District in downtown Asheville.

RESOLUTION BOOK NO. 26 – PAGE 107

H. RESOLUTION NO. 00-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN ENCROACHMENT AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR PEDESTRIAN IMPROVEMENTS ALONG US 25A (BROOK AND LODGE STREETS)

Summary: The consideration of a resolution authorizing the City Manager to enter into an Encroachment Agreement with the N. C. Department of Transportation (NC DOT) for pedestrian improvements along US 25A (Brook and Lodge Streets).

Metropolitan Sewerage District (MSD) has recently improved a sanitary sewer line within the Biltmore Village area. With the Asheville-Buncombe Historic Resource Commission's approval, staff has proposed pedestrian improvements ancillary to MSD's resurfacing of Brook and Lodge Street (US25A). The proposed improvement would aid pedestrians crossing Brook and Lodge Streets (US25A) with the addition of three (3) pedestrian refuge islands, four (4) high visibility crosswalks, and one (1) curb extension (bulbout).

In order to install these improvements along a roadway maintained by the NC DOT, the City must enter into an encroachment agreement with the NC DOT for the improvements within the right-of-way.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a encroachment agreement with N. C. Department of Transportation.

RESOLUTION BOOK NO. 25 – PAGE 108

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO REVISE THE REVIEW AND APPROVAL PROCESS FOR DUPLEXES, TRIPLEXES AND QUADRAPLEXES IN SINGLE FAMILY ZONING DISTRICTS AND TO ESTABLISH NEW DEVELOPMENT STANDARDS FOR THESE USES

Planning and Development Director Scott Shuford said that the Planning and Development Department is requesting that the public hearing scheduled in order to receive comments on the ordinance amendment revising standards for duplexes, triplexes, and quadraplexes in single family zoning districts be postponed indefinitely.

The UDO currently permits duplexes, triplexes, and quadraplexes in single family zoning districts as conditional uses. City Council must review requests for these uses and issue a conditional use permit for them. An amendment to the ordinance was proposed that would revise the review process and establish more rigorous design standards for these small-scale multi-family structures in single family zoning districts. This amendment was reviewed by the Planning and Zoning Commission and initially recommended for approval.

Subsequent to the Planning and Zoning Commission's initial review of this ordinance amendment, concerns were expressed by the community regarding the provisions of the ordinance amendment. The Planning and Zoning Commission and the Planning and Development staff are responding to these concerns by continuing to review the ordinance to identify whether revisions are required and, if so, what these revisions should be. In light of this continued review of the ordinance, holding a public hearing to receive input on the proposed amendment is not necessary at this time.

The Planning and Development staff requests that the public hearing be continued indefinitely.

Council members were concerned with the matter being postponed indefinitely because the issue does need to be resolved. It was their consensus to only table the issue with the understanding that Mr. Shuford would be providing them with updates as appropriate.

Therefore, at the request of City staff, Councilwoman Bellamy moved to table this public hearing. This motion was seconded by Councilman Hay and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 00-140 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE ENKA FIRE DEPARTMENT FOR FIRE PROTECTION SERVICES

Interim Fire Chief Robert Griffin said that this is the consideration of a resolution authorizing the City Manager to sign a fire protection agreement with the Enka Fire Department.

The City of Asheville entered into an agreement with the Enka Fire Department to provide fire protection services in the west area of the City originally in 1991. This was in conjunction with Ordinance No. 1883 for annexation of an area known as West II and became effective in 1994. The City and the Enka Fire Department agree that there are benefits to the City and Enka Fire Department in maintaining a fire protection agreement. The amendment will extend the contract for an additional five years or until 2004. The amendment will update a fire code enforcement provision and a drug free workplace provision.

The Interim Fire Chief recommends City Council authorize the City Manager to sign the fire protection agreement with the Enka Fire Department.

Interim Fire Chief Griffin responded to various questions from Council, some being, but are not limited to: what is the difference between this fire station and the one in north Asheville, what is the timetable for moving the Enka Fire Station, and does the fire station on Haywood Road have to be closed once the new station is built.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-140. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 109

B. RESOLUTION NO. 00-141 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A GRANT FROM THE U.S. DEPARTMENT OF JUSTICE, UNDER THE LOCAL LAW ENFORCEMENT BLOCK GRANT PROGRAM, TO FUND A PROGRAM DESIGNED TO REDUCE CRIME AND IMPROVE PUBLIC SAFETY

Police Chief Will Annarino said that this is the consideration of a resolution authorizing the City Manager to submit a grant application to the U. S. Department of Justice, Bureau of Justice Assistance, to fund a program designed to reduce crime and improve public safety.

The City of Asheville is eligible to apply for a federal project in the amount of $139,346. The federal grant is in the amount of $125,411. The purpose of the grant is to fund programs designed to reduce crime and improve public safety. The nature of the program using these funds will be determined by the City with public input after the grant award. A 10% local match ($13,935) is required which match will come out of Contingency from the 110-0601-414-5097 line item.

Staff recommends the adoption of the resolution authorizing City Manager to apply for the grant through the U. S. Department of Justice, Bureau of Justice Assistance.

Upon inquiry of Councilman Peterson, Police Chief Annarino explained what kinds of things the grant could be used for.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Bellamy moved for the adoption of Resolution No. 00-141. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 110

VI. OTHER BUSINESS:

A. RIVERBEND MARKETPLACE (WALMART) CONDITIONAL USE PERMIT PUBLIC HEARING

Planning and Development Director Scott Shuford said that the Board of Adjustment will consider a variance for the Riverbend Marketplace project on September 5, 2000, in a special meeting. The developer has asked that the conditional use permit for the project be held as soon as possible after the variance hearing due to project timing issues.

At Council's meeting on July 25, 2000, Council asked that staff get the project before them as soon as possible, but in order to avoid public inconvenience, Council suggested the public hearing not be set until after the Board of Adjustment acts on the variance. There is also the issue of holding the hearing in a separate venue (e.g., the Civic Center) to accommodate a large crowd.

Given all these circumstances, he asked Council if they would be interested in setting the conditional use permit public hearing in advance of the Board of Adjustment hearing. The advantage would be a quicker consideration of the conditional use permit as the hearing could be set for as early as September 12 – the first formal meeting after the Board of Adjustment meeting. The disadvantage of doing this is that the Board of Adjustment may continue the variance hearing or not approve the variance, necessitating the revision of the site plan or withdrawal of the project.

After discussion, it was the consensus of City Council to place a motion setting a public hearing on the conditional use permit for Riverbend Marketplace on Council's agenda for August 22, 2000. On August 22, 2000, the motion will be to schedule the public hearing at 5:30 p.m. on Tuesday, September 19, 2000, in the Stephens-Lee Community Center located on Carver Street. This public hearing will be after the 3:00 regular worksession in the First Floor Conference Room of the City Hall Building.

Upon inquiry of Councilwoman Field, City Attorney Oast suggested that City Council vote on September 19, 2000, to either issue or deny the permit and then at the next formal meeting, City staff will come back to Council with a draft order.

Mayor Sitnick asked that the public be made aware that they must be at the public hearing for their letters and comments to be entered into the record.

B. COMMENTS BY JAN HOWARD REGARDING RESERVOIR ROAD

Ms. Jan Howard, resident on Reservoir Road, said that she has been trying to get Reservoir Road (which she alleges is her driveway) closed for the past 8 years and passed out documents which she says supports her cause.

Mayor Sitnick said that she would contact Ms. Howard to set up a meeting.

C. COMMENTS BY C.D. WILLIAMS REGARDING THE UNIFIED DEVELOPMENT ORDINANCE

Mr. C. D. Williams, resident on Weaver Boulevard, hoped that City Council carefully considers each Unified Development Ordinance amendment since it took over a year and many, many hours of discussion to arrive at the adopted document.

D. COMMENTS BY MICKIE MAHAFFEY

Mr. Mickie MaHaffey, representing Peacemakers, suggested that a flashing light be placed on the traffic signal on Biltmore Avenue between Café on the Square and Pack Place to bring attention to motorists that the light is changing.

Mr. MaHaffey also spoke about his concern about air pollution in our area and suggested the City study the types of vehicles they own and operate.

Mayor Sitnick responded to Mr. MaHaffey by stating several ways in which this present Council and the last sitting Council has shown that they are environmentally-minded and sensitive to the environment.

E. COMMENTS BY JOHN QUIGLEY

Mr. John Quigley, member of the Jackson Park/Woolsey Neighborhood Association, was concerned that the project by John Eflen in their area was larger than agreed upon. Planning and Development Director Scott Shuford said that he would meet with Mr. Quigley to investigate their concerns.

F. COMMENTS BY OCTAVIA FIELDER

Ms. Octavia Fielder, President of the Jackson Park/Woolsey Neighborhood Association, supported the City carefully reviewing amendments to the Unified Development Ordinance so as not to destroy the intent of the Ordinance. She also was concerned about the air pollution in Asheville.

Mayor Sitnick invited City Council to a meeting with representatives from the Tennessee Valley Authority on Friday, August 18, 2000, regarding air pollution in the Smokies.

G. COMMENTS BY PETER DAWES REGARDING BUNCOMBE COUNTY FRIENDS FOR ANIMALS

Mr. Peter Dawes alerted City Council that someone offered the Buncombe County Friends for Animals $1 Million to build a new shelter if they would open their books for public inspection. He said that they refused. Since the City contracts with Buncombe County Friends for Animals, he felt they should be made aware of the situation and hoped that the City included verbiage in their contract to view the records of the agencies they contract with.

H. RECOGNITION OF GENE BELL

Councilwoman Bellamy congratulated Mr. Gene Bell who has recently received one of Governor Hunt's Community Service Awards. Mr. Bell is Chair of the Civil Service Board and is involved with several other civic activities.

I. CLAIMS

The following claims were received by the City of Asheville during the period of July 21-27, 2000: Jehru Sullivan (Parks and Recreation), Donald Peek (Water), Larry Crawford (Water), Joyce Sorrells (Parks and Recreation) and Christy Baker (Streets).

The following claims were received by the City during the period of July 28-August 3, 2000: Herston Ownby (Water), Ralph P. Presley (Water), Alamo Rent-A-Car (Fire) and Trina Lee (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

J. LAWSUITS

The City was served with the following Complaint on July 31, 2000: John Foster v. City of Asheville, Ross Dillingham and John Does. The nature of the proceeding is a claim for malicious prosecution; abuse of process; assault and subsequent illegal restraint; compensatory damages and punitive damages. This matter will be handled by an outside attorney.

The City was served with the following Civil Complaint on July 31, 2000: Burley's Rink Supply Inc. v. City of Asheville. The nature of the proceeding is a claim for money owed for work performed on chiller and rink piping equipment located at the Civic Center ice rink. This matter will be handled in-house.

The City was served with the following Notice of Trustee's Foreclosure Sale of Real Property on August 2, 2000: In the matter of foreclosure of Deed of Trust, Robert M. Janney and wife, Sara Belle Krueger dated 6-2-98, recorded on 6-2-98, at Book 1955 at page 169 in the Buncombe County Registry. The nature of the proceeding is default in payment of indebtedness secured by Deed of Trust. This matter will be handled in house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:04 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 15, 2000 - 3:00 p.m.

Worksession

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

CONSENT:

The Consent Agenda item regarding withdrawal of dedication of portion of Steele Avenue was removed from the agenda.

Consumption and Possession of Alcoholic Beverages at 2000 Goombay Festival

Summary: The consideration of a resolution to allow alcoholic beverages on August 25-27, 2000, at the 2000 Goombay Festival.

N. C. Gen. Stat. sec. 18B-300 (c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and/or unfortified wine on public streets, and on property owned, occupied or controlled by the City of Asheville. The City Council has adopted an ordinance pursuant to that statutory authority. Section 11-11 of the Code of Ordinances provides that City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 2000 Goombay Festival to include the areas as described in the resolution.

Carter Cove Road Sewer Project Change Order

Summary: The consideration of a resolution authorizing the City Manager to sign a change order with Cooper Construction Company for the installation of a sanitary sewer line on Carter Cove Road and Blackberry Lane in the amount of $117,830.76 and a budget amendment in the amount of $162,782 appropriating the full amount of revenue from MSD reimbursement for this project.

In December of 1998, City Council awarded a contract to Cooper Construction Company to install a sanitary sewer line and water line in the Carter Cove Road and Blackberry Lane area of North Asheville. This project was known as Beaverdam Annexation Area Carter Cove Sanitary Sewer Improvements. The original amount of the contract was $442,278. Two changes orders have previously been approved by City Council for this project in the amounts of $13,156.20 and $11,134.50 respectively, bringing the current project total to $466,568.70.

The first change order was due to increases in material costs from the time the project was bid until the time the Notice to Proceed was issued. The second change order was issued to provide for additional tree removal on the project.

This final change order request in the amount of $117,830.76 is largely due to the amount of material that had to be removed from the sewer trench. Most of the earth material removed from the trench for the installation of the sanitary sewer line in Carter Cove Road was not suitable for backfill. Additionally, several underground springs were encountered and had to be drained prior to backfilling. With this change order, the final total cost of the project will be $584,399.46.

The budget amendment in the amount of $162,782 to cover the change order and provide contingency funds will be funded with an appropriation of reimbursement revenues received from MSD for installation of sanitary sewer in the annexed areas.

Staff recommends that City Council authorize the City Manager to sign a change order with Cooper Construction Company in the amount of $117,830.76 for the installation of a sewer line on Carter Cove Road and Blackberry Lane. Staff also requests that City Council approve the budget amendment in the amount of $162,782 appropriating funds from MSD reimbursement for this project.

Councilman Worley stated that even though he lives on Carter Cove Road, the City Attorney has advised him that he does not have a conflict of interest on this matter.

Contract with Buckeye Construction Company for Brevard Road Annexation Area Phase 3, Contract 2

Summary: The consideration of a resolution awarding the contract for Brevard Road Annexation Area Phase III Contract "2" to Buckeye Construction Company, Inc., in the amount of $169,794.10.

This project is part of the Brevard Road annexation that occurred in the early 1990's. It is called the Brevard Road Annexation Area Phase III- Contract "2" Sanitary Sewer System Improvements and consists of the installation of approximately 3,528 linear feet of eight inch (8") diameter sanitary sewer line and 660 linear feet of four inch (4") diameter sanitary sewer service line and related appurtenances.

The Engineering Department received and publicly opened five (5) bids on Thursday, August 3, 2000, at 2:00 p.m. After a thorough review of the bid documents by the Engineering Department and the Office of Minority Affairs, Buckeye Construction Company, Inc., was found to be the lowest responsible bidder with a total bid of $169,794.10. The Engineer's estimate for this project was $ 211,175.00.

Funding for this project is included in the fiscal year 2000/2001 Capital Improvement Program (CIP) and will be financed through the issuance of two-thirds bonds.

Buckeye Construction Company, Inc., has performed several projects of this nature in the past without any major problems.

The construction time for this project is identified as 90 calendar days in the contract documents. The contractor will be required to pay the sum of $250.00 as liquidated damages for each and every calendar day that he shall be in default after the time stipulated in the contract.

Staff recommends that City Council adopt a resolution awarding the bid for Brevard Road Annexation Area - Phase III - Contract "2" Sewer System Improvements to Buckeye Construction Company, Inc., the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

COMMUNITY DIALOGUE – ASHEVILLE-BUNCOMBE VISION INC.

Mr. Gregg Starney, representing Asheville-Buncombe VISION, Inc., showed Council a promotional video entitled "Let's Talk! Dialogues for Our Future" which promotes community dialogue. Their goal is to encourage discussion among diverse residents in order to promote understanding of how local issues affect different segments of our community, and to encourage citizens to collaborate on efforts that benefit the whole community.

CITY FUNDING OF ECONOMIC DEVELOPMENT COMMISSION – USE OF CITY FUNDS

Mr. Dave Porter, Vice-President of the Buncombe County Economic Development Commission explained the proposed uses of the City of Asheville's $50,000: Information and Technology Industry (knowledge based industry) - $35,000; Commercial/Industrial/Office Market Analysis and Marketing Piece - $10,000; and Local Business and Industry Resource Guide - $5,000.

Mayor Sitnick suggested the Commission appoint a retiree advisory board who have personal contacts in the fields we are looking to target. This would be a great way to utilize their knowledge.

Mayor Sitnick also suggested that since the Asheville Film Board is very industry based, the Commission might consider working with them to create a local business guide.

On behalf of City Council, Mayor Sitnick thanked Mr. Porter for their efforts to recruit and establish new or expanded business activity, which has a positive impact on the economic health of the community.

UDO AMENDMENT REVIEWS

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on September 12, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Definition of Signs

Chief Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the definition of sign to exclude certain art and works of art from the definition of sign.

The definition of sign currently found in the UDO is worded so that art and works of art are considered signs. As a result of this definition, the use of art and works of art by businesses is limited. Because art and works of art can be considered a sign, the placement of art and works of art at a business can limit the amount of signage that the business can display. Rather than limit their signage, businesses typically decide to abandon plans for incorporating art or works of art into their development.

With this proposed ordinance amendment, the Planning and Zoning Commission is endorsing a more whimsical approach to the incorporation of art and works of art by businesses in their building and site design. The City of Asheville is recognized as an arts city; this amendment acknowledges this recognition and removes a significant impediment to the placement of art and works of art throughout the City by private businesses. While loosening the restrictions on the incorporation of art and works of art in building and site design, the proposed amendment continues to identify distinctions between art and signs:

- The art or works of art cannot include logos in their traditional form;
- The art or works of art cannot include the name of the business; and
- The art or works of art cannot be an obvious portrayal of a product or service provided by the business.

With these limitations, the ability of businesses to incorporate art and works of art in their building and site design is increased while an appropriate distinction between signs and art remains.

The Planning and Zoning Commission voted 6 – 0 to recommend adoption of the ordinance amendment. The Planning and Development Department staff supports the ordinance amendment and recommends that a public hearing be scheduled to solicit public comment on the ordinance amendment.

After discussion, it was the consensus of City Council to delete the restriction that the art or works of art cannot be an obvious portrayal of a product or service provided by the business.

Standards for A-Frame Signs

Chief Planner Gerald Green said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to establish standards for A-Frame signs in the Central Business District.

A-frame signs are currently prohibited in all zoning districts by the UDO. As a result of requests from downtown businesses, the Downtown Commission developed general standards for A-frame signs and requested the Planning and Development staff to consider preparation of an ordinance amendment that would permit the signs in the downtown area and establish standards for them. In developing the proposed ordinance amendment, the Planning and Development staff reviewed the general guidelines developed by the Downtown Commission and obtained standards from other cities. Staff also inspected downtown sidewalks to ensure that A-frame signs could be placed on the sidewalks without restricting accessibility. The draft ordinance recommended for adoption by the Planning and Zoning Commission defines A-frame signs, permits them in the Central Business District, and establishes standards for them. The proposed standards address the following:

- Minimum and maximum sizes for the signs;
- Number of A-frame signs each business may have;
- Location/placement requirements for the signs;
- Safety standards for A-frame signs;
- Insurance requirements for the business placing the sign(s); and
- Permit requirements for A-frame signs.

The intent of the proposed ordinance amendment is to permit the use of A-frame signs by downtown businesses as an additional means of advertising the business and/or the goods and services provided by the business. By identifying certain standards for the signs, pedestrian accessibility and general safety issues will be addressed. The Downtown Commission and the Merchants Action Coalition have endorsed the ordinance amendment.

The Planning and Zoning Commission voted 6 – 0 to recommend adoption of the ordinance amendment. The Planning and Development Department staff supports the ordinance amendment and recommends that a public hearing be scheduled to solicit public comment on the ordinance amendment.

At the request of Councilman Peterson, it was the consensus of City Council that the temporary sign permit be for six months initially, and then the renewal can be valid for one year.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on September 12, 2000.

RECOMMENDATIONS FOR INCREASED FUNDING FOR PARKS AND RECREATION CAPITAL IMPROVEMENTS

Parks and Recreation Director Irby Brinson said that the Parks and Recreation Department is recommending City Council approve projects for Fiscal Year 2001 from the one-cent tax increase dedicated for capital improvements for Parks and Recreation.

Parks and Recreation staff, through a community input session, has developed an initial list of projects which could be funded from the one-cent tax increase for Parks and Recreation capital improvements. This initial list was shared with a citizen group who had participated in the development of the Parks and Greenway Master Plans. In addition, members of the Parks and Recreation Advisory Board, Greenway Commission, Public Art Board, and Parks and Greenway Foundation were invited to a meeting on July 24, 2000, at the Public Works Building. An overview of the process was discussed with the group which resulted in a recommendation that the total $400,000 be used for specific projects in this fiscal year instead of using the $400,000 to pay debt service towards borrowing approximately $4 million. The overall justification for this decision is we need one year to determine whether a future bond referendum will be considered. We do not want to dedicate the $400,000 over a long-term period to pay debt service without having general consensus about pursuing a bond referendum.

Staff identified projects that would be highly visible, geographically and economically distributed, address needs identified in the master plans which would be completed within the fiscal year, and partnered with other funding to increase the impact to the community. He reviewed each of the top six projects:

1.	French Broad River Park Phase IV	estimated cost	$	70,000
2.	Burton Street Playground	estimated cost	$	50,000
3.	Ira B. Jones Ballfield	estimated cost	$	125,000
4.	Broadway Greenway Master Plan	estimated cost	$	75,000
5.	Royal Pines Park Demolition	estimated cost	$	30,000
6.	Reid Recreation Center Renovations	estimated cost	$	50,000
	Total		$	400,000

The Parks and Recreation staff is prepared to begin immediately with the implementation of this list upon approval by City Council.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RE-DESIGNATION OF STATE DEVELOPMENT ZONE

Economic Development Director Mac Williams said that this is the consideration of a resolution approving the re-designation of the State Development Zone as proposed.

The City of Asheville has been notified by the NC Department of Commerce that our municipal State Development Zone will expire December 31, 2000. Application for re-designation is due before September 30, 2000, and will take effect January 1, 2001.

In 1998, the State of North Carolina created Development Zones to encourage and enhance economic development within areas of high poverty. Qualifying enterprises and activities receive significant tax credits for job creation and investment in machinery and equipment. In 1999, the State amended the legislation increasing the benefits but tightening the criteria controlling the size and location of the zone. As stated, the existing zone will expire on December 31, 2000.

Upon notification by the Department of Commerce about zone re-designation, a Task Force was assembled to determine the new zone according to the new criteria established by the State. The team included the following city staff: Mac Williams, Economic Development Director; Charlotte Caplan, Community Development Director; Gerald Green, Chief Planner; and, Mike Matteson, City Development Director. Others representing interested agencies included: Denise Fall, Asheville Area Chamber of Commerce; Sam Powers, AdvantageWest; Ray Burrows, NC Department of Commerce – Business & Industry Division; Jeff Fischbach, NC Dept. of Commerce – Community Development Division; Marvin Vierra, Cherokee Native American Business Development Center; Karen Cragnolin, Riverlink; Rich Olejniczak, Blue Ridge Center; and, Jim Stokoe, Land of Sky Regional Council.

The goal was to identify a zone, based on the new state-imposed criteria, which would encompass areas of high poverty (the total zone must have a minimum of 20% population below the poverty level) and also, areas with reasonable opportunities for economic development / redevelopment.

Staff recommends City Council approve the re-designation of the State Development Zone as proposed.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESULTS OF BUSINESS CLIMATE SURVEY

Economic Development Director Mac Williams said that this is a presentation of the business climate survey conducted in July 2000.

The Economic Development Division conducted a survey in July 2000 of nearly 1000 businesses licensed in the City of Asheville. Almost 200 businesses replied. This survey was one means to better communicate with and get feedback from the business community. The survey is the initial effort of what is hoped will become a semi-annual survey. The purpose is to provide City Council, administration, and staff with regular information in order to improve the City's business climate and services.

An intern from Western Carolina University assisted the Economic Development Director. In addition, WCU's Mountain Resource Center, located in Asheville, provided technical assistance in tabulating the results.

The purpose of the study is threefold: first, to gather some general information about the businesses operating in the City of Asheville; second, to gauge the sentiment of those businesses about current and future conditions; and third, to provide an opportunity for businesses to identify issues they may have working with and/or conducting business in the City of Asheville.

It is the goal of the Economic Development Division to eventually survey every business operating within the City of Asheville. As of June 2000, there were approximately 6,300 individual business licenses on file with the City Business License Office. For several reasons, it was decided to survey approximately 1000 businesses every six months; thus, it will require approximately three years before all licensed firms are surveyed. Businesses were identified from the database in alphabetical order to assure a random selection of business type, size, location, etc.

The survey instrument was modeled on a similar questionnaire which has been used successfully in the City of Greensboro, N.C., for more than ten years. The survey package included a cover letter, survey, and postage paid Business Reply return envelope.

In June 2000, 930 surveys were distributed. 199 valid replies were returned which translates to a response rate of 21.4%.

The following is a general summary of the findings of this initial survey. It is hoped that, over time, with consistency of effort and increased participation, this survey can become a useful information tool to assist the City of Asheville in being more responsive to the needs of our business community.

Survey results confirm the well-known characteristic of the Asheville business base as being small business oriented and heavily weighted in the service and retail sectors. These two business sectors combined represented 59% of the responses. Nearly 70% of the respondents employed less than 10 people and 93% employed less than 50 people.

Most respondents reported that both gross revenues and net profits were either about the same, slightly better, or much better than during the same period of the previous year. However, in both revenues and profits, the respondents were about evenly split between "about the same" and "slightly better" suggesting that businesses held their own during the period but did not significantly increase their revenues or profits.

It follows then that most respondents (73%) foresee maintaining (vs. expanding or reducing) current levels of employment and facility operations over the next six months. It should be added however that, of those businesses that did indicate a change in the next six months, 18.5% indicated they would be adding employees vs. 3.5 % decreasing their workforce. Similarly, 5.5% responded they would enlarge or renovate their facility while 6.5% said they would sell or relocate. (Reasons for selling and places of relocation were neither asked nor offered).

The stability of the business community was indicated by the fact that 48% of the respondents had been in business between 5 – 20 years while another 19% had been in business more than 21years. Businesses less than 5 years old represented nearly 28% of the responses but only 3.5% of those had been in business less than one year.

Participants were afforded an opportunity to provide any general comments. The categories receiving the most attention (in no particular order) included: Parking Concerns, Sign Issues, Traffic & Highway Issues, Civic /Convention Center, Suggested Business Focus areas, City Services, City Fees, and comments directed to City Council.

The Economic Development Division wishes to acknowledge the assistance and support of the following in the development and implementation of the survey process and this report:

The City of Asheville Business Licensing Office and Information Services Division provided the database and technical support necessary in producing the mailing list. The City's Print Shop was utilized to produce some of the survey materials. As noted earlier, this was the initial effort to undertake a survey project of this nature. This required developing, coordinating, and administering a new system for data collection as well as for preparation, tabulation, and reporting of the results. This service was ably provided by an intern from Western Carolina University with assistance by WCU staff through its Mountain Resource Center.

This is intended as a report of an activity and does not require any formal action.

PASSENGER RAIL SERVICE TO WESTERN NORTH CAROLINA

City Manager Westbrook said that this is a request for Council to appoint a Passenger Rail Service Action Committee to advise City Council on upcoming policy issues regarding the passenger rail service to Western North Carolina.

As you know for the past several years, the North Carolina Department of Transportation (NCDOT) has been studying various rail routes across North Carolina. Of particular concern to Asheville as a destination city is when we will receive the passenger rail service, and where the rail station will be located. Recently the North Carolina General Assembly appropriated funding to NCDOT to conduct a study of the feasibility of providing rail service to Western North Carolina. The study will include the following: (1) A phased project timetable for the implementation of passenger service to Western North Carolina; (2) The cost of implementing each phase; and (3) Specific interim goals and performance measures to be used to determine the success in implementing this plan.

The report shall be submitted on or before March 1, 2001, to the chairs of the Senate Appropriations Subcommittee on Transportation, to the chairs of the House Appropriations Subcommittee on Transportation, and to the Fiscal Research Division.

Because some funding has now been appropriated and the process has started with that authorization, he feels it is in the City's best interest to formally appoint a committee to advise the City Council on issues that NCDOT will be studying. Furthermore, he believes NCDOT wants substantial local input on all the factors that will be covered by the study. The action committee will provide the City with a method of seeking public input, organizing and formalizing our recommendations to NCDOT.

Staff recommends that City Council appoint a Passenger Rail Service Action Committee. The committee should include a member of City Council. Staff appointments to the committee should be Transportation Planner Ron Fuller, City Engineer Cathy Ball, City Planner Stacy Merten, Transit Services Director Bruce Black, Economic Development Director Mac Williams, and City Manager Jim Westbrook. It is also recommended that the committee include Bradley Hix with the Asheville Area Chamber of Commerce (who is also involved with the WNC Rail Committee) as well as appropriate representatives of other "interested parties" such as Buncombe County, Tourism Development Authority and RiverLink.

At the suggestion of Mayor Sitnick, it was the consensus of Council to appoint a representative from Biltmore Village to the Committee. In addition, it was the consensus of City Council to appoint Vice-Mayor Cloninger as the member of Council on the Committee.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BOARD AND COMMISSION APPOINTMENTS

Vice-Mayor Cloninger reviewed the next quarterly appointment process with Council.

Vice-Mayor Cloninger said that on July 25, 2000, City Council interviewed Peter Crosa and Doc Halliday for a vacancy on the Civic Center Commission. It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Mr. Crosa to the Civic Center Commission to serve a three year term, term to expire June 30, 2003, or until his successor is appointed.

Vice-Mayor Cloninger said that on July 25, 2000, City Council interviewed Doc Halliday for a vacancy on the Tree Commission. It was the consensus of City Council to have the City Clerk prepare the proper paperwork to appoint Mr. Halliday to the Tree Commission to serve a three year term, term to expire December 31, 2003, or until his successor is appointed.

Councilman Worley reported that the Recreation Board recommended the Board membership be increased from seven to nine members. It was the consensus of City Council to place the resolution increasing the membership on the next formal meeting agenda. In addition, it was the consensus of City Council to appoint Ms. Susan Sparboe and Mr. James Drummond to the Recreation Board at the next formal meeting as well.

CLOSED SESSION

At 4:58 p.m., Councilman Worley moved to go into closed session in order to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Frances C. Briggs; Myrna R. Hendrix; Rose Investments, a North Carolina General Partnership; Travis M. Bach; Haywood Plott and wife, Ruth Plott; Howard W. Meece and wife, Doris B. Meece; Mary Ann Hicklin; Quarngesser; Allyn Family Real Estate Limited Partnership; Thantex Specialties, Inc.; Hubbell Realty Development Corp.; Alliance-Carolina Tool & Mold Corporation; Medical Action Industries, Inc.; Cutler-Hammer, Inc.; Eaton Corporation; Ridgefield Properties, L.L.C.; Ridgefield Women's Cancer Center Properties, L.L.C.; Continental Teves, Inc.; Asheville Endocrinology Properties, L.L.C.; Ridgefield Business Center Property Owners Association, Inc.; George W. Beverly, Jr.; Highwoods Realty Limited Partnership; Highwoods Forsyth Limited Partnership; AP Southeast Portfolio Partners, L.P.; Carolina Power & Light Company; and City of Asheville. The statutory authorization is contained in G.S. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

At 5:55 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Mayor Sitnick and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:55 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 22, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

ADDITION TO THE AGENDA

At the request of City Manager Westbrook, it was the consensus of City Council to add a resolution finding that a portion of the right-of-way known as Steele Avenue is not part of an adopted street plan on the Consent Agenda.

I. PROCLAMATIONS:

A. RECOGNITION OF HUD BEST PRACTICES AWARD FOR CONSOLIDATED PLAN

Mayor Sitnick recognized Community Development Director Charlotte Caplan, Will Kennedy, Mike Sobol, Steering Committee Vice-Chair Althea Goode, and the Chairs for the four focus groups: Beth Maczka, Amy Ray, Peter Larouche, and Mary Robertson for their work on assisting the City of Asheville receiving the HUD Best Practices Award for our consolidated plan. The City received this national award for the way it involved citizens in the preparation of a key plan for its housing and community development programs.

The award, presented to the City by the US Department of Housing and Urban Development (HUD), at its "Best Practices Symposium" in Washington DC, recognizes the City for its exemplary planning process.

B. PROCLAMATION RECOGNIZING THE QUALITY PROGRAMMING CHOSEN BY WLOS-ABC

Mayor Sitnick read the proclamation recognizing WLOS/ABC for choosing quality programming in airing the PRISM Awards 2000 which recognizes entertainment productions that accurately depict drug, alcohol and tobacco use and addiction. She presented the proclamation to Ms. Velinda Fisher, representative of WLOS/ABC.

II. CONSENT:

At the request of Councilman Peterson, Consent Agenda Item "I" was pulled for discussion.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 8, 2000, AND THE WORKSESSION HELD ON AUGUST 15, 2000

B. RESOLUTION NO. 00-142 - RESOLUTION APPROVING THE RE-DESIGNATION OF THE STATE DEVELOPMENT ZONE

Summary: The consideration of a resolution approving the re-designation of the State Development Zone as proposed.

The City of Asheville has been notified by the NC Department of Commerce that our municipal State Development Zone will expire December 31, 2000. Application for re-designation is due before September 30, 2000, and will take effect January 1, 2001.

In 1998, the State of North Carolina created Development Zones to encourage and enhance economic development within areas of high poverty. Qualifying enterprises and activities receive significant tax credits for job creation and investment in machinery and equipment. In 1999, the State amended the legislation increasing the benefits but tightening the criteria controlling the size and location of the zone. As stated, the existing zone will expire on December 31, 2000.

Upon notification by the Department of Commerce about zone re-designation, a Task Force was assembled to determine the new zone according to the new criteria established by the State. The team included the following city staff: Mac Williams, Economic Development Director; Charlotte Caplan, Community Development Director; Gerald Green, Chief Planner; and, Mike Matteson, City Development Director. Others representing interested agencies included: Denise Fall, Asheville Area Chamber of Commerce; Sam Powers, AdvantageWest; Ray Burrows, NC Department of Commerce – Business & Industry Division; Jeff Fischbach, NC Dept. of Commerce – Community Development Division; Marvin Vierra, Cherokee Native American Business Development Center; Karen Cragnolin, Riverlink; Rich Olejniczak, Blue Ridge Center; and, Jim Stokoe, Land of Sky Regional Council.

The goal was to identify a zone, based on the new state-imposed criteria, which would encompass areas of high poverty (the total zone must have a minimum of 20% population below the poverty level) and also, areas with reasonable opportunities for economic development / redevelopment.

Staff recommends City Council approve the re-designation of the State Development Zone.

RESOLUTION BOOK NO. 26 – PAGE 111

C. RESOLUTION NO. 00-143 - RESOLUTION APPOINTING A PASSENGER RAIL SERVICE ACTION COMMITTEE

Summary: The consideration of appointing a Passenger Rail Service Action Committee to advise City Council on upcoming policy issues regarding the passenger rail service to Western North Carolina.

For the past several years, the North Carolina Department of Transportation (NCDOT) has been studying various rail routes across North Carolina. Of particular concern to Asheville as a destination city is when we will receive the passenger rail service, and where the rail station will be located. Recently the North Carolina General Assembly appropriated funding to NCDOT to conduct a study of the feasibility of providing rail service to Western North Carolina. The study will include the following: (1) A phased project timetable for the implementation of passenger service to Western North Carolina; (2) The cost of implementing each phase; and (3)

Specific interim goals and performance measures to be used to determine the success in implementing this plan.

The report shall be submitted on or before March 1, 2001, to the chairs of the Senate Appropriations Subcommittee on Transportation, to the chairs of the House Appropriations Subcommittee on Transportation, and to the Fiscal Research Division.

Because some funding has now been appropriated and the process has started with that authorization, he feels it is in the City's best interest to formally appoint a committee to advise the City Council on issues that NCDOT will be studying. Furthermore, he believes NCDOT wants substantial local input on all the factors that will be covered by the study. The action committee will provide the City with a method of seeking public input, organizing and formalizing our recommendations to NCDOT.

Staff recommends that City Council appoint a Passenger Rail Service Action Committee. At the August 15, 2000, City Council worksession, it was the consensus of City Council that the Chair of the committee be Vice-Mayor Cloninger. Staff appointments to the committee should be Transportation Planner Ron Fuller, City Engineer Cathy Ball, City Planner Stacy Merten, Transit Services Director Bruce Black, Economic Development Director Mac Williams, and City Manager Jim Westbrook. It is also recommended that the committee include Bradley Hix with the Asheville Area Chamber of Commerce (who is also involved with the WNC Rail Committee) as well as appropriate representatives of other "interested parties" such as Buncombe County, Tourism Development Authority, RiverLink and Biltmore Village.

RESOLUTION BOOK NO. 26 – PAGE 112

D. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 12, 2000, TO CONSIDER A MODIFICATION FROM THE SUBDIVISION STANDARDS THAT REQUIRE EACH LOT ABUT A PUBLIC STREET FOR ROCKING PORCH SUBDIVISION LOCATED OFF OF WATERS ROAD**

E. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 12, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY COLLEGES AND UNIVERSITIES, VOCATIONAL AND TRAINING SCHOOLS AS A PERMITTED USE IN THE INDUSTRIAL DISTRICT**

F. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 12, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE DEFINITION OF SIGN TO EXCLUDE CERTAIN ART AND WORKS OF ART FROM THE DEFINITION OF SIGN**

G. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 12, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH STANDARDS FOR A-FRAME SIGNS IN THE CENTRAL BUSINESS DISTRICT**

H. **RESOLUTION NO. 00-144 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2000 GOOMBAY FESTIVAL ON AUGUST 25-27, 2000**

Summary: The consideration of a resolution to allow alcoholic beverages on August 25-27, 2000, at the 2000 Goombay Festival.

N. C. Gen. Stat. sec. 18B-300 (c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and/or unfortified wine on public streets, and on property owned, occupied or controlled by the City of Asheville. The City Council has adopted an ordinance pursuant to that statutory authority. Section 11-11 of the Code of Ordinances provides that City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 2000 Goombay Festival to include the areas as described in the resolution.

RESOLUTION BOOK NO. 26 – PAGE 113

I. MOTION SETTING A PUBLIC HEARING ON TUESDAY, SEPTEMBER 19, 2000, AT 5:30 P.M. IN THE STEPHENS-LEE COMMUNITY CENTER LOCATED ON CARVER STREET TO CONSIDER A CONDITIONAL USE PERMIT FOR RIVERBEND MARKETPLACE (I.E. WALMART) FOR DEVELOPMENT ON THE OLD SAYLES BLEACHERIES SITE LOCATED AT 437 SWANNANOA RIVER ROAD

This item was removed from the Consent Agenda for discussion.

J. RESOLUTION NO. 00-145 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER FOR THE CARTER COVE ROAD SEWER PROJECT

Summary: The consideration of a resolution authorizing the City Manager to sign a change order with Cooper Construction Company for the installation of a sanitary sewer line on Carter Cove Road and Blackberry Lane in the amount of $117,830.76 and a budget amendment in the amount of $162,782 appropriating the full amount of revenue from MSD reimbursement for this project.

In December of 1998, City Council awarded a contract to Cooper Construction Company to install a sanitary sewer line and water line in the Carter Cove Road and Blackberry Lane area of North Asheville. This project was known as Beaverdam Annexation Area Carter Cove Sanitary Sewer Improvements. The original amount of the contract was $442,278. Two changes orders have previously been approved by City Council for this project in the amounts of $13,156.20 and $11,134.50 respectively, bringing the current project total to $466,568.70.

The first change order was due to increases in material costs from the time the project was bid until the time the Notice to Proceed was issued. The second change order was issued to provide for additional tree removal on the project.

This final change order request in the amount of $117,830.76 is largely due to the amount of material that had to be removed from the sewer trench. Most of the earth material removed from the trench for the installation of the sanitary sewer line in Carter Cove Road was not suitable for backfill. Additionally, several underground springs were encountered and had to be drained prior to backfilling. With this change order, the final total cost of the project will be $584,399.46.

The budget amendment in the amount of $162,782 to cover the change order and provide contingency funds will be funded with an appropriation of reimbursement revenues received from MSD for installation of sanitary sewer in the annexed areas.

Staff recommends that City Council authorize the City Manager to sign a change order with Cooper Construction Company in the amount of $117,830.76 for the installation of a sewer line on Carter Cove Road and Blackberry Lane. Staff also requests that City Council approve the budget amendment in the amount of $162,782 appropriating funds from MSD reimbursement for this project.

RESOLUTION BOOK NO. 26 – PAGE 116

K. ORDINANCE NO. 2734 - BUDGET AMENDMENT FOR CARTER COVE ROAD SEWER PROJECT

Summary: See Consent Agenda "J" above.

ORDINANCE BOOK NO. 18 – PAGE 438

L. RESOLUTION NO. 00-146 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BUCKEYE CONSTRUCTION COMPANY FOR BREVARD ROAD ANNEXATION AREA, PHASE 3, CONTRACT 2

Summary: The consideration of a resolution awarding the contract for Brevard Road Annexation Area Phase III Contract "2" to Buckeye Construction Company, Inc., in the amount of $169,794.10.

This project is part of the Brevard Road annexation that occurred in the early 1990's. It is called the Brevard Road Annexation Area Phase III- Contract "2" Sanitary Sewer System Improvements and consists of the installation of approximately 3,528 linear feet of eight inch (8") diameter sanitary sewer line and 660 linear feet of four inch (4") diameter sanitary sewer service line and related appurtenances.

The Engineering Department received and publicly opened five (5) bids on Thursday, August 3, 2000, at 2:00 p.m. After a thorough review of the bid documents by the Engineering Department and the Office of Minority Affairs, Buckeye Construction Company, Inc., was found to be the lowest responsible bidder with a total bid of $169,794.10. The Engineer's estimate for this project was $ 211,175.00.

Funding for this project is included in the fiscal year 2000/2001 Capital Improvement Program (CIP) and will be financed through the issuance of two-thirds bonds.

Buckeye Construction Company, Inc., has performed several projects of this nature in the past without any major problems.

The construction time for this project is identified as 90 calendar days in the contract documents. The contractor will be required to pay the sum of $250.00 as liquidated damages for each and every calendar day that he shall be in default after the time stipulated in the contract.

Staff recommends that City Council adopt a resolution awarding the bid for Brevard Road Annexation Area - Phase III - Contract "2" Sewer System Improvements to Buckeye

Construction Company, Inc., the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

RESOLUTION BOOK NO. 26 – PAGE 117

M. RESOLUTION NO. 00-147 - RESOLUTION EXPANDING MEMBERSHIP OF THE RECREATION BOARD FROM SEVEN TO NINE MEMBERS

Summary: City Council feels it is in the best interest of the City of Asheville to expand the membership of the Recreation Board from seven to nine members.

RESOLUTION BOOK NO. 26 – PAGE 124

N. RESOLUTION NO. 00-148 – RESOLUTION FINDING THAT THE RIGHT-OF-WAY KNOWN AS STEELE AVENUE IS NOT PART OF THE ADOPTED STREET PLAN

Summary: A consideration of a resolution finding that a portion of the right-of-way known as Steele Avenue is not part of the Street Plan adopted under N. C. Gen. Stat. sec. 136-66.2

According to N. C. Gen. Stat. sec. 136-96, upon request, a City shall adopt a Resolution indicating that the dedication described in a declaration of withdrawal is or is not part of the street plan adopted under N. C. Gen. Stat. sec. 136-66.2.

To proceed with this process, George Goosman, attorney at law, has submitted a letter on behalf of Ronald Moser, Inc. William Holt and Mirian D. Holt certifying that there has been compliance with N. C. Gen. Stat. sec. 136-96 in that:

1. The portion of Steele avenue in question was dedicated for public use;
2. The described dedication of withdrawal has never been opened nor used by the public in the past 15 years;
3. His clients are predecessors in title from the original dedicator to the described dedication; and
4. The certification is grounded under applicable law.

Public Works Department staff has determined that a portion of the right-of-way known as Steele Avenue from the southernmost end of PIN No. 9657.06-39-9705 and the southernmost end of PIN No. 9657.06-39-6817 and continuing said abandonment to the end of said right-of-way, including the cul-de-sac at the northernmost end of Steele Avenue as shown on Plat Book 40, Page 91, is not part of the street plan adopted under N. C. Gen. Stat. sec. 136-66.2 and is not a City maintained right-of-way. There is a water line located within the dedicated portion and an easement will be conveyed to the City for its continued maintenance.

City staff recommends City Council adopt the resolution finding that the portion of the right-of-way known as Steele Avenue described within the withdrawal is not part of the street plan adopted under N. C. Gen. Stat. sec. 136-66.2.

RESOLUTION BOOK NO. 26 – PAGE 125

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ITEM PULLED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

MOTION SETTING A PUBLIC HEARING ON TUESDAY, SEPTEMBER 19, 2000, AT 5:30 P.M. IN THE STEPHENS-LEE COMMUNITY CENTER LOCATED ON CARVER STREET TO CONSIDER A CONDITIONAL USE PERMIT FOR RIVERBEND MARKETPLACE (I.E. WALMART) FOR DEVELOPMENT ON THE OLD SAYLES BLEACHERIES SITE LOCATED AT 437 SWANNANOA RIVER ROAD

Councilman Peterson said that since it is anticipated that this public hearing will draw a lot of comments, he suggested City Council set a time in which the public hearing on September 19, 2000, will end and perhaps set a second date to continue the public hearing.

Discussion surrounded other dates City Council would be available if the public hearing was continued and who should be allowed to speak first.

Vice-Mayor Cloninger felt that Council should plan to have the entire public hearing on September 19 and then deliberate at a different meeting. If two public hearing dates are set, then people may decide to chose the second meeting date and possibly it may not be necessary to have that meeting, thus not being able to voice their comments. In addition, if a person decides to go to one hearing and not the other, they will not have the benefit of hearing all the comments.

Councilwoman Field felt it was possible to get through this public hearing on September 19. If it turns out that it cannot be accomplished, then Council can continue it. She felt that after the first several comments, the important points will have been covered and it can be announced that only new points need to be brought before Council. She stated that just by their presence alone, they are making a statement. She agreed with Vice-Mayor Cloninger that we should try to get through the public hearing in one day.

Councilman Worley felt Council's goal should be to get the public hearing in on one date. He agreed with Councilman Peterson that it would be a good idea to stop at a time certain, take a poll of how many others would like to speak, and then determine whether the hearing can be concluded that night or be continued to another date.

Councilman Hay said that, based on past experience, he felt the public hearing could be concluded on one date – especially since this is the only issue Council will be hearing. He suggested City Council be clear that not everyone needs to speak if they have a representative from a group.

Councilman Peterson asked if the public hearing was continued to another date, how would the procedure of allowing cross examination be affected. City Attorney Oast explained that City Council does have the power to subpoena in situations like this, however, he has been working with Planning & Development Director Scott Shuford on some guidelines that will streamline the process to where that will hopefully not be necessary.

After discussion, it was the consensus of City Council to (1) have two microphones set up so people can form a line and be ready to speak; (2) have a sign-in sheet at the door for people who wish to speak; (3) pause the hearing at 11:00 p.m. and take a show of hands of how many others wish to speak and then determine whether the hearing can be concluded by Midnight or 12:30 a.m. or to continue the hearing to another date; (4) let representatives of groups speak first; and (5) make sure that all speakers are sworn in by the City Clerk prior to making comments.

Vice-Mayor Cloninger moved to set a public hearing on Tuesday, September 19, 2000, at 5:30 p.m. in the Stephens-Lee Community Center located on Carver Street to consider a conditional use permit for Riverbend Marketplace (i.e. Walmart) for development on the old Sayles Bleacheries site located at 437 Swannanoa River Road. This motion was seconded by Councilman Worley and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A DEFINITION FOR ANCILLARY NON-RESIDENTIAL USES, TO ESTABLISH ANCILLARY NON-RESIDENTIAL USES AS A CONDITIONAL USE IN RESIDENTIAL ZONING DISTRICTS, AND TO ESTABLISH DEVELOPMENT STANDARDS FOR THIS USE

ORDINANCE NO. 2735 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH A DEFINITION FOR ANCILLARY NON-RESIDENTIAL USES, TO ESTABLISH ANCILLARY NON-RESIDENTIAL USES AS A CONDITIONAL USE IN RESIDENTIAL ZONING DISTRICTS, AND TO ESTABLISH DEVELOPMENT STANDARDS FOR THIS USE

Mayor Sitnick opened the public hearing at 5:40 p.m.

Urban Planner Dan Baechtold said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to establish a definition for ancillary non-residential uses, to establish ancillary non-residential uses as a conditional use in residential zoning districts, and to establish development standards for this use. This public hearing was advertised on August 11 and August 18, 2000.

The Planning & Zoning Commission directed staff to prepare this amendment to address cases where it may not be appropriate to rezone property from residential to commercial, but it might be appropriate to allow parking, landscaping, or stormwater detention facilities in a residential zoning district. On July 20, 2000, the Planning & Zoning Commission voted unanimously to recommend approval of this wording amendment to the UDO.

At the worksession on August 1, 2000, City Council instructed the Planning staff to work with the City Attorney's office to finalize language changes in the wording amendment.

This proposed amendment establishes parking, landscaping, and stormwater detention for non-residential uses as conditional uses in all residential zoning districts and establishes standards for these uses. This ordinance adds another tool to the toolbox to be used in evaluating specific development proposals. Each application will be reviewed by the Technical Review Committee and City Council, and must be issued a conditional use permit. Adjacent property owners will be notified as specified in Section 7-5-20 of the UDO. The review of these uses will be site specific. In each case, City Council will have the option to deny the request, approve the request, or to add specific conditions to the approval.

Ms. Lola LaFey was concerned about relaxing our zoning laws in the City making it easier for businesses to come in and ruin the quality of life in our neighborhoods. Mr. Baechtold responded that this would be mostly limited to small scale expansions and only for parking, landscaping and stormwater detention.

Mayor Sitnick closed the public hearing at 5:50 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Ordinance No. 2735. This motion was seconded by Councilwoman Field.

Councilman Peterson felt that because this is not a rezoning of property, property owners do not have the added protection of using the protest petition. He felt that there are some benefits to the adjacent property owners, but thinks that with the new conditional use process, that is the procedure that should be followed. He felt this amendment will actually make it much easier to change property from a residential use to a more commercial use. This amendment appears to him to be a creeping rezoning of property without actually having to go through rezoning process.

The motion made by Vice-Mayor Cloninger and seconded by Councilwoman Field carried on a 6-1 vote, with Councilman Peterson voting "no".

ORDINANCE BOOK NO. 18 - PAGE 440

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2736 - BUDGET AMENDMENT ESTABLISHING CAPITAL PROJECTS FOR PARKS AND RECREATION CAPITAL IMPROVEMENTS

Parks and Recreation Director Irby Brinson said that the Parks and Recreation Department is recommending City Council approve projects for Fiscal Year 2001 from the one-cent tax increase dedicated for capital improvements for Parks and Recreation.

Parks and Recreation staff, through a community input session, has developed an initial list of projects which could be funded from the one-cent tax increase for Parks and Recreation capital improvements. This initial list was shared with a citizen group who had participated in the development of the Parks and Greenway Master Plans. In addition, members of the Parks and Recreation Advisory Board, Greenway Commission, Public Art Board, and Parks and Greenway Foundation were invited to a meeting on July 24, 2000, at the Public Works Building. An overview of the process was discussed with the group which resulted in a recommendation that the total $400,000 be used for specific projects in this fiscal year instead of using the $400,000 to pay debt service towards borrowing approximately $4 million. The overall justification for this decision is we need one year to determine whether a future bond referendum will be considered. We do not want to dedicate the $400,000 over a long-term period to pay debt service without having general consensus about pursuing a bond referendum.

Staff identified projects that would be highly visible, geographically and economically distributed, address needs identified in the master plans which would be completed within the fiscal year, and partnered with other funding to increase the impact to the community. The top six projects are listed as follows:

1.	French Broad River Park Phase IV	estimated cost	$ 70,000
2.	Burton Street Playground	estimated cost	$ 50,000
3.	Ira B. Jones Ballfield	estimated cost	$ 125,000
4.	Broadway Greenway Master Plan	estimated cost	$ 75,000
5.	Royal Pines Park Demolition	estimated cost	$ 30,000
6.	Reid Recreation Center Renovations	estimated cost	$ 50,000
	Total		$ 400,000

He reviewed each of the top six projects in detail noting that staff is prepared to begin immediately with the implementation of this list upon approval by City Council.

The Parks and Recreation staff requests City Council approval of the top priority projects.

Mr. Brinson stated that these projects are not in anticipation of a bond. He said that the Parks and Recreation Advisory Board and the Parks and Greenway Foundation have discussed a bond, however, nothing final has been decided.

Councilwoman Field said that even though human services and social services are not part of City government, she felt that by building the infrastructure to provide parks and recreational areas for our children is an excellent investment.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2736 and approve the top priority projects. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 443

B. RESOLUTION NO. 00-149 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION

Vice-Mayor Cloninger said that this is the consideration of appointing a member to the Civic Center Commission.

The term of Douglas Haldane, as a member on the Civic Center Commission, expired on June 30, 2000, and on July 25, 2000, City Council interviewed Mr. Peter Crosa and Mr. Doc Halliday.

Councilwoman Field moved to appoint Mr. Peter Crosa to the Civic Center Commission to serve a three year term, term to expire June 30, 2003, or until his successor has been appointed. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 128

C. RESOLUTION NO. 00-150 - RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION

Vice-Mayor Cloninger said that this is the consideration of appointing a member to the Tree Commission.

There currently exists a vacancy on the Tree Commission. On July 25, 2000, City Council interviewed Mr. Doc Halliday.

Councilwoman Bellamy moved to appoint Mr. Doc Halliday to the Tree Commission to serve a three year term, term to expire December 31, 2003, or until his successor has been appointed. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 129

D. RESOLUTION NO. 00-151 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Cloninger said that on August 22, 2000, City Council felt it was in the best interest of the City of Asheville to expand the membership of the Recreation Board from seven to nine members.

On July 25, 2000, City Council interviewed Ms. Susan Sparboe. Mr. Jim Drummond was a candidate, however, City Council did not request he be brought in for an interview.

Councilman Worley moved to appoint (1) Ms. Susan Sparboe to serve a three year term, term to expire June 30, 2003; and (2) Mr. Jim Drummond to serve an initial two year term, term to expire June 30, 2002. Both appointments are until their successors have been appointed. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 130

VI. OTHER BUSINESS:

A. COMMENTS BY MS. LOLA LaFEY

Ms. Lola LaFey voiced concern over the large budget of the Asheville Police Department and federal funding in contrast to other budgeted departments of the City, i.e. Parks and Recreation. She urged City Council to instruct the Police Department to cease videotaping Asheville citizens for their political beliefs.

B. COMMENTS BY MR. DAVID THUNDERSHIELD

Mr. David Thundershield suggested City Council revise their agenda so that public comments could be heard at the beginning of the meetings and not at the end.

Mr. Thundershield asked that City Council instruct the Police Department to stop videotaping citizens based purely on their political beliefs. He said that this violates national police accreditation standards and they are doing it on a regular basis. He also felt the Police Department is over-funded while other worthwhile departments go under-funded. He felt we should be putting money into preventing crime and giving citizens a better start. He was also concerned about abuses by certain police officers that have gone unmitigated in the past.

C. CLAIMS

The following claims were received by the City of Asheville during the period of August 4-10, 2000: Paul Stergion (Water), Garry C. Sayles (Water), Timbers Condos (Sanitation), Ron Norris (Water), Amy Simon (Water) and Steve Britt (Water).

The following claims were received by the City during the period of August 11-17, 2000: BellSouth (Water), Jessica Maddox (Water), Joel Neilson (Water) and Mary Narsiff (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

D. LAWSUITS

The following Petition for Review of Annexation Ordinance was received by the City on August 11, 2000: Frances C. Briggs, et al., v. City of Asheville. The nature of the proceeding is to declare the annexation ordinance for Annexation Area 2001-D to be null and void and to declare Annexation Area 2001-D not eligible for annexation by the City of Asheville. This matter will be handled by outside attorney William F. Slawter.

The following Petition for Review was received by the City on August 11, 2000: Carolina Power & Light Company v. City of Asheville. The nature of the proceeding is to review the annexation proceedings of the Long Shoals annexation Area C. This matter will be handled by outside attorney William F. Slawter.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:32 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday – August 29, 2000
North Asheville Community Center
37 East Larchmont Road

7:00 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

The following topics were raised by residents and addressed by City Council and City staff: speeding traffic on Kimberly Avenue and what can the residents do to make speeders slow down; City needs to work more aggressively with the N. C. Dept. of Transportation to improve Merrimon Avenue; need for traffic calming devises on Kimberly Avenue; request for update on Edgewood Road re-design; Unified Development Ordinance amendment relative to duplexes, triplexes and quadraplexes in single-family zoning districts and standards for those uses; is there an operation clean sweep in the Police Department; how are grants used by the Police Department; is there an excess of police cars; size of Police Department budget; what is Police Department's policy on videotaping citizens; need for more enforcement of large trucks travelling on Kimberly Avenue, which is prohibited; is Weaver Boulevard on the list for traffic calming devices; what is the noise ordinance in the City and does it apply to UNC-Asheville; request for assistance from City in getting a natural gas line; request for sidewalk repair on Merrimon Avenue sidewalk that leads onto greenway; and need to fix our infrastructure and traffic problems before further development of the City.

Mayor Sitnick adjourned the meeting at 9:00 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 5, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor M. Charles Cloninger

CONSENT:

Statewide Emergency Management Mutual Aid Agreement

Summary: The consideration of a resolution authorizing the City Manager to sign a statewide emergency management mutual aid agreement with the North Carolina Department of Crime Control and Public Safety, and its Division of Emergency Management.

As a result of Hurricane Fran in 1996, Governor Hunt commissioned a Task Force to address the State's recovery effort. The Task Force made 84 recommendations that would enhance communication, coordination and recovery efforts, and help provide the resources needed to respond and recover from a disaster. One of the recommendations was for the League of Municipalities and the North Carolina Association of County Commissioners to draft a statewide mutual aid agreement. North Carolina Emergency Management serves as the repository for this statewide mutual aid agreement. This voluntary agreement means that the City may request assistance during a disaster, or Asheville may be asked to provide assistance to another city or town. The needs of Asheville residents are the first priority and the City may decline to provide assistance when the resources are needed in the City of Asheville. The multi-purpose agreement provides efficient and effective assistance among governments, faster reimbursement from the Federal Emergency Management Agency and covers liability and insurance concerns.

The Interim Fire Chief recommends City Council authorize the City Manager to sign a statewide emergency management mutual aid agreement with the North Carolina Department of Crime Control and Public Safety, and its Division of Emergency Management.

Public Auction

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction on Saturday, October 7, 2000, at 10:00 a.m. in the Public Works Complex located at 161 S. Charlotte Street.

The resolution authorizes the City's Purchasing Division to hold a public auction to dispose of motor vehicles, off-road equipment, and other miscellaneous property declared as surplus by various City departments. The auction is scheduled to be held Saturday, October 7, 2000, at 10:00 a.m. in the Public Works Complex, 161 S. Charlotte Street.

City staff requests City Council's approval of the resolution.

Budget Amendment re: $2 Million High Unit Cost Grant

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 (35 Fund) to reflect the increase in revenue from the $2 Million High Unit Cost Grant and the increase to the Critical Needs Phase II appropriation.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Contribution From Other Funds and Appropriated Fund Balance.

In September 1999 the Regional Water Authority applied for a second grant with the N.C. Dept. of Environment and Natural Resources (DENR) to continue improvements to the regional water distribution system. The Authority had already been awarded a $3 million grant from DENR in July 1999 from an earlier round of applications. Areas of the water system were prioritized according to the State's criteria for grant points, including areas where water pressures to customers were low and areas where water leak repairs were frequent.

On March 15, 2000, the Water Resources Department was notified that DENR had selected the Authority for a $2 Million grant from the September application, conditioned on the design being completed and approved by DENR by July 7, 2000. This was completed on July 5, 2000.

Pursuant to the Water Agreement, the City of Asheville and Buncombe County formally accepted the grant in early August.

The Regional Water Authority approved an amendment to Capital Project Ordinance 82-25 at the August 15, 2000, meeting to reflect the increase in revenue from the $2 Million High Unit Cost Grant and the increase to the Critical Needs Phase II appropriation.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 82-25 to reflect the increase in revenue from the $2 Million High Unit Cost Grant and the increase to the Critical Needs Phase II appropriation.

FAA Grant Offer

Summary: The consideration of a resolution approving a grant from the Federal Aviation Administration in an amount not to exceed $500,000.

The Federal Aviation Administration (FAA) has offered a grant agreement to the Asheville Regional Airport. This grant, in an amount not to exceed $500,000, consists of the following projects: Rehabilitate Runway 16/34 Lights (HIRLS); and Improve Runway 16/34 Runway Safety Area and Taxiway Safety Area.

Staff recommends adoption of the resolution and authorize the Mayor to execute the grant agreement for Project No. 3-37-0005-24.

Offer to Purchase Disposal Parcel 76 in the East End/Valley Street Community Improvement Area

Summary: The consideration of a resolution establishing minimum price and authorizing the City Clerk to advertise an offer to purchase Disposal Parcel 76 in the East End/Valley Street Community for the tax value of $300.

Disposal Parcel 76 is a fragment lot located on the east side of Martin Luther King Jr. Drive at the intersection with South Beaumont Street comprising 566 square feet. The lot is irregular in shape and mostly flat about street level. The bid from Dorothy Dean includes the proposal to combine the property with adjoining property currently owned by Ms. Dean on South Beaumont Street. No construction is planned.

Approval of the resolution will establish the tax value of $300 as the minimum price and initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

Provisions for Possession and Consumption of Alcoholic Beverages at 2000 Greek Festival

Summary: The consideration of a resolution to allow alcoholic beverages on October 6-8, 2000 at the 2000 Greek Festival.

N. C. Gen. Stat. sec. 18B-300 (c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and/or unfortified wine on public streets, and on property owned, occupied or controlled by the City of Asheville. The City Council has adopted an ordinance pursuant to that statutory authority. Section 11-11 of the Code of Ordinances provides that City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 2000 Greek Festival to include the areas as described in the resolution.

Provisions for Possession and Consumption of Alcoholic Beverages at 4th Annual Brewgrass Festival

Summary: The consideration of a resolution to allow alcoholic beverages on September 16, 2000 at the 4th Annual Brewgrass Festival.

N. C. Gen. Stat. sec. 18B-300 (c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and/or unfortified wine on public streets, and on property owned, occupied or controlled by the City of Asheville. The City Council has adopted an ordinance pursuant to that statutory authority. Section 11-11 of the Code of Ordinances provides that City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 4th Annual Brewgrass Festival to include the areas as described in the resolution.

Declaration of Withdrawal for Portion of Sunset Terrace

Summary: The consideration of a resolution finding that a portion of the right-of-way known as Sunset Terrace is not part of an adopted street plan.

According to N. C. Gen. Stat. sec. 136-96, if a right-of-way is not utilized within 15 years of dedication, it can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Claxton Law Firm, on behalf of Peter and Jasmin Gentling, has conducted an extensive title research and determined that they are the rightful persons to claim under the dedicator and to make and record a declaration of withdrawal pursuant to North Carolina General Statute sec. 136-96 and has requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating whether the right-of-way to be abandoned is or is not part of a proposed street plan.

Public Works Department staff has determined that a portion of the right-of-way known as Sunset Terrace, beginning at the southeast corner of PIN No. 9649-08-88-3098, and ending at the southwest corner of PIN No. 9649-08-87-4827 as shown on Plat Book 14, Page 70, is not part of an adopted street plan and is not a City maintained right-of-way.

City staff recommends City Council adopt the resolution finding that a portion of the right-of-way known as Sunset Terrace is not part of an adopted street plan.

Budget Amendment for Pritchard Park

Summary: The consideration of a budget amendment, in the amount of $38,312.53, to appropriate funds received from reimbursement by the Transportation Advisory Committee for the Downtown Traffic Evaluation Plan for Pritchard Park.

In May of 1999, City Council approved the development of a Traffic Evaluation Plan for downtown as it related to the improvements at Pritchard Park. This particular proposal requested reimbursement of this Plan by the Transportation Advisory Committee for the MPO Transportation Planning Work Program budget. The upfront costs of this study were paid out of the Pritchard Park budget with the understanding that, once funds were received as part of the MPO, reimbursement would be made to this account.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $38,312.53, to reimburse the Pritchard Park renovation account for the development of the Downtown Traffic Evaluation Plan.

Upon inquiry of Councilwoman Bellamy, Parks and Recreation Director Irby Brinson said that the park renovation should be completed no later than December 15, 2000.

Annual Report of the Minority Business Program

Summary: Presentation of the Minority Business Program Annual Report for Fiscal Year 1999 - 2000.

In May of 1998, City Council adopted the Asheville-Buncombe Minority Business Plan. The Plan was subsequently amended in November 1998 and December 1999, to clarify provisions of the Plan and to expand participation in the Mentor-Protégé Program.

The Plan requires the Office of Minority Affairs to present to the City Council and County Commissioners an Annual Report on the effectiveness of implementation of the Plan. The Report includes, but is not limited to: the number of minority businesses; percentage of minority businesses contracting with the County and City either as a prime contractor or as a subcontractor; percentage of overall reported contracts awarded to minority businesses; percentage of contractors complying with good faith efforts; percentage of goals achieved and goals waived.

The Annual Report for Fiscal Year 1999 – 2000 has been reviewed by the Minority Business Commission and approved at its meeting on August 24, 2000.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

UPDATE FROM THE FUTURE OF THE CIVIC CENTER TASK FORCE

Councilman Hay, Chair of the Future of the Civic Center Task Force, said that over the last several months, the Task Force on the Future of the Civic Center has made fresh progress in identifying future uses of the Asheville Civic Center. Our present Civic Center serves as a convention center, sports arena, and performing arts center. In the future, each facility will meet a unique community need, has its own prospects for success, and has its own funding mechanisms. The Task Force thinks that each should complement the others, but they also believe that each has merit in its own right, regardless of the feasibility of the others.

The Task Force created three different sub-committees; each assigned a different component to investigate. The sub-committees have completed their initial research and have made reports to the Task Force. The reports are as follows:

Convention/Conference Center

In cooperation with the Task Force, the Tourism Development Authority commissioned a study on the need for additional convention center space in Asheville. The result was the Highland Group Report, which questioned the need for additional space and did not support the idea of developing a convention center.

The Task Force believes compelling arguments exist for a convention/conference center downtown, but also acknowledge that without the full support of the hospitality industry, the primary beneficiary of a new convention center, the emphasis for the present should be on the performing arts center and the sports arena. Nonetheless, the Task Force believes that efforts should also be ongoing to explore convention center possibilities with partners such as UNC-A.

Sports Arena

The sub-committee exploring the option of a sports arena has been meeting almost weekly to identify possible locations for the arena and have reviewed a total of 25 – 30 locations. Meetings have included property owners, staff, and others associated with the different locations. The sub-committee has narrowed the locations down to three possibilities: the existing location, a site behind City Hall, and the UNC-A campus. A location on the river was also identified as a strong fourth choice.

In the course of its study, the sub-committee was hearing from operators interested in locating sports teams in Asheville. (As was reported in the Asheville Citizen-Times last week, the NBA is one of those interested parties). Each has encouraged us to look first at upgrading the existing facility. Also, problems identified early in our process with access and parking will now be addressed head-on with the new parking deck on Battery Hill and the realignment of the Broadway exchange.

As a result, the Task Force determined that it should resolve once and for all the question of whether the existing sports arena can be feasibly upgraded to a modern facility, capable of meeting the needs of a variety of new sports and entertainment tenants. Therefore, the sub-committee has developed a Request for Proposal (RFP) for an architectural feasibility study of the Civic Center, with an emphasis on the arena. They are now asking for City Council approval to proceed with the RFP process.

Performing Arts Center

This sub-committee, headed by Herb Smith from the Asheville Symphony, has been visiting performing arts centers throughout the Southeast, including the Peace Center in Greenville, S.C., the Spartanburg Auditorium in Spartanburg, S.C., the Roanoke Performing Arts Center in Roanoke, VA, the Blumenthal Center in Charlotte and the Stephens Center in Winston-Salem, N.C. They have reported on each of these visits and recommend that the entire Task Force visit the Peace Center and the Spartanburg Auditorium to get a first-hand look at the two facilities, which represent renovated and newly constructed centers. These visits will be planned in the near future.

The Task Force feels that they are making substantial progress in finding the right mix of uses for our Civic Center. They were somewhat disheartened in January when the report from our consultants at Hunter Interests was released, but we now feel that it has given them a different perspective and a fresh way of looking at things. The recent NBA interest in our City is an indicator of what the future holds for the Asheville Civic Center. They look forward to finding the perfect equation for our community and adding new, exciting entertainment venues for all of Western North Carolina.

A brief discussion surrounded how the Civic Center would be funded, i.e., fully public funded, fully privately funded or funded in a public/private nature.

Upon inquiry of Councilwoman Bellamy, it was discussed that the best ballpark guess of the RFP would be in the range of $60-100,000 and it would come from contingency or fund balance. Councilwoman Field explained that the more clear the RFP is, it will cost less.

Councilwoman Field wanted to make sure that the consultant knows that the community is attached to the present facility. She personally feels that it is cheaper and better to recycle what we have than to build a new facility, unless the facility is completely inappropriate for the task in the future or the building is unsound.

It was the consensus of City Council to instruct the Task Force to proceed with the RFP for an architectural feasibility study of the Civic Center, with an emphasis on the arena. The Task Force will then review the RFP's and report back to City Council with a request for an appropriation.

DETAILS ON HOUSING TRUST FUND

Ms Charlotte Caplan, Community Development Director, said that this is the consideration of a resolution approving policies and procedures for the Housing Trust Fund, and the request for proposals for Fiscal Year 2000-2001 projects.

On June 13, 2000, City Council approved an allocation of $400,000 in the Fiscal Year 2000-2001 City Budget to create a Housing Trust Fund. This report proposes:

1) General policies and procedures for the management and use of the Fund;

2) A request for proposals (RFP) for FY 2000/01 from developers of new housing for rent or for homeownership.

These documents have been developed by staff after discussion with stakeholders, including housing non-profits, real estate professionals, and developers, and have been approved by the Housing and Community Development Committee.

The key features are mainly as proposed to Council before the creation of the Trust Fund, and include:

- Creating a permanent fund to assist in developing and preserving affordable housing;
- Allowing a wide range of eligible uses in principle, with more specific targeting in each year's RFP;
- Project selection to support the Consolidated Plan and Smart Growth policies;
- Assistance in the form of loans, not grants, with flexible repayment terms;
- No Trust Funds to be used for administration, at least for the first year;
- General oversight and project selection by the Housing and Community Development Committee .

City staff recommends City Council approve the resolution adopting policies and procedures for the Housing Trust Fund and the types of projects to be the subject of a request for proposals this year.

Upon inquiry of Councilman Worley, it was the consensus of City Council to add sole proprietorships to the types of entities that will be eligible to apply for assistance from the Fund.

Councilman Worley expressed concern that second mortgage assistance to home buyers is not precluded by eligible home buyers.

Councilwoman Bellamy was concerned that the City itself is able to operate projects assisted by the Fund and personally did not support that.

Councilwoman Field said that the Housing and Community Development Committee will make recommendations to City Council and the Council will have final approval authority over the projects.

It was the consensus of City Council that the Housing and Community Development Committee have the authority to vary the terms of the loans.

Councilwoman Field hoped that when other entities decide to participate monetarily for affordable housing, that the City be willing and flexible to work with them.

Mayor Sitnick suggested that after adoption of these polices and procedures Ms. Caplan contact Buncombe County to see if they can work with the City.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REVISIONS TO THE TAXICAB ORDINANCE

Revenue Manager Deborah Crowder said that this is the consideration of a revision of the current taxicab ordinance including the implementation of a new rate table.

N.C. Gen. Stat. sec. 160A-304 allows a city to license and regulate all vehicles operated for hire in the city.

Ms. Crowder said that staff has reviewed Sec. 18 of the City of Asheville Code which sets forth the provision for regulation of taxicab businesses and drivers and several minor changes have been made to bring the Code up-to-date. For example, the current language of the Code requires a vehicle to have seat belts and heaters. The revision changes the language to terms like standard safety devices, and also includes the provision for air conditioners. Other terminology changes are *medallion* to *insignia*, *Motor Transport* to *Fleet Management*, etc. She noted that the most significant change in the text of the ordinance is the driver's renewal period has been changed from the December 31 and June 30 dates to allow expiration one year from the date of issue.

The taxicab rate schedule, formerly included in the City's Fees and Charges Manual, has been revised and moved to the Appendix of the City Code. The last rate change was approved in 1987. The schedule is removed from the Fees and Charges Manual because taxicab rates are not fees paid to the city. They are amounts paid, by the customer, to the business. The Fees and Charges Manual retains those amounts paid to the city, by the business or driver, that are associated with the regulation of taxicab businesses and drivers.

City staff recommended that the insurance provision be revised from currently $25,000/person; $50,000/accident; and $15,000/property be increased to $100,000/person; $300,000/accident; and $50,000/property.

Ms. Crowder then reviewed a taxicab rate comparison of eight cities. City staff recommended $1.70 drop; $1.60 per mile; and $4.10/1.5 trip. Staff also recommended that the minimum total fare shall not be less than $3.00.

City staff recommends Council adopt the revised ordinance and rate schedule.

Ms. Crowder said that there has been numerous complaints from the taxi drivers about Airport rules which prohibit them from waiting for return rides on Airport property. She passed out a copy of the Airport's commercial ground transportation regulations. She recommended the Mayor write a letter to the Airport Authority indicating that the City of Asheville is interested in reviewing and resolving the ground transportation issue at the Asheville Regional Airport.

When Councilman Peterson asked what the City could do to require taxicab stands at the Airport, City Attorney Oast said that he is researching that issue.

Mr. Mike Armour, Airport Director, said that in the past they have had difficulty in getting cabs to respond to calls for late night arrivals. In addition, the Airport has very limited curbside capacity. He noted that the contract with Airport Ground Transportation is not an exclusive contract and they do have the ability to enter into other agreements, however, the current ground transportation carries a total of less than 3% of their passengers. He said that the Authority is currently reviewing their Master Plan process and ground transportation is very much a part of that process. He said that the Authority is willing to work with City Council to see if they can come to a solution.

Mr. Spiro Aliferis said that the Airport doesn't mind taxicabs taking customers out there, however, they aren't willing to let them take passengers back. He felt that with the higher insurance recommendations by staff, the per mile figure should be $1.80.

When Councilman Peterson asked what kind of improvements might the public see if Council raised their rates, Mr. Aliferis said that hopefully they can find more drivers and there would be more cabs on the streets.

Mr. Joe Hall noted that the Airport Ground Transportation shuttle charges $20/person to be taken to the Grove Park Inn, whereas, a taxicab is $20 but it holds more people.

After discussion, it was the consensus of City Council to raise the rates to $1.80/drop; $1.70 per mile; and $4.35/1.5 trip. In addition, the minimum total fare shall not be less than

$3.00. In addition, it was the consensus of Council to raise the insurance requirement to $100,000/person; $300,000/accident; and $50,000/property.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UDO AMENDMENT REVIEW

City Attorney Oast said that this Unified Development Ordinance amendment is being brought before City Council in order that staff may respond to questions Council may have prior to the public hearing, which is scheduled on September 12, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Identify Colleges and Universities, Vocation and Training Schools as a Permitted Use in Industrial District

Chief Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to identify colleges and universities, vocational and training schools, and business incubation as permitted uses in the Industrial District.

He said that uses in the Industrial District are currently limited to manufacturing and related uses. While this limited range of uses preserves industrially zoned property for industrial uses, it is not flexible enough to meet the needs of technological changes and new approaches to the uses of industrial sites. This limitation is exemplified by the proposed use of land donated by BASF to Asheville-Buncombe Technical Community College (A-B Tech) . The property is located adjacent to the BASF plant and is zoned Industrial. A-B Tech plans to locate classrooms and a business incubation center in the existing building. The classrooms would be used primarily for vocational education. The business incubation center would provide an area for start up businesses to locate, share resources, and receive assistance in the first years of their existence, helping to ensure their success. Currently, the Industrial District does not permit either of these uses. The proposed ordinance amendment would allow these uses by listing colleges and universities, vocational and training schools, and business incubation as permitted uses in the Industrial District. Future efforts such as that proposed by A-B Tech would be permitted by the proposed ordinance amendment, helping to strengthen the area's economy.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearing on September 12, 2000.

GENERAL OBLIGATION TWO-THIRD BONDS

Finance Director Bill Schaefer said that this is the consideration of resolutions related to the issuance of $1,970,000 City of Asheville General Obligation Two-Thirds Bonds.

In most instances, the least expensive financing source available to municipalities is the issue of General Obligation (GO) Bonds; especially when the GO bonds can be issued without the expense and uncertainty of conducting a referendum to authorize their issue. N.C. General Statutes allow the issue of GO bonds without a referendum in a maximum amount equaling two-thirds of the amount by which the City's outstanding GO debt was reduced in the prior fiscal year. As a result, the City of Asheville may issue up to $1,973,333 in Two-Thirds Bonds in Fiscal Year 2000-2001.

The City of Asheville budget for Fiscal Year 2000-2001 includes $1,300,000 for sewer projects and $800,000 for an aerial ladder fire truck. The budget called for the sewer projects to be financed by Two-Thirds Bonds and the fire truck through an installment purchase. After financing of the sewer projects, the City would still have $670,000 of Two-Thirds Bond capacity which staff proposes be used to finance the majority of the fire truck; with the balance of only $130,000 to be financed by the more expensive lease purchase.

The City's Bond Counsel, in consultation with the Local Government Commission (LGC) and City staff, has established a tentative calendar of events leading to a sale date of December 5, 2000, for the City's Two-Thirds Bonds. In order to meet that schedule, City Council needs to adopt the first four enabling resolutions at the September 12, 2000, formal meeting. The following summarizes each of the resolutions:

1. *Resolution Directing the Publication of Notice of Intention to Apply to the LGC for Approval of Bonds*: Directs the City Clerk to have published on September 13, 2000, a notice of the City's intent to apply to the LGC to issue $1,300,000 bonds for sewer projects and $670,000 bonds for the purchase of a fire truck.

2. *Resolution Authorizing the Finance Director to Prepare an Application to the LGC ...*: Directs the Finance Director to submit the necessary application and associated information regarding the City and its financial condition and to request LGC's approval of the City's use of Parker, Poe, Adams & Bernstein L.L.P. as the City's Bond Counsel.

3. *Resolution Making Certain Statements of Fact Concerning Proposed Bond Issues:* Documents Council's findings of fact as to the following:
   A. The proposed bonds are necessary and expedient;
   B. The amounts of the bonds are adequate and not excessive;
   C. The City's debt management policies have been carried out in compliance with law;
   D. The City's budgetary and fiscal management policies have been carried out in compliance with law; and
   E. The schedule for issuing the bonds does not require a property tax increase and calls for all of the bonds to be issued in December, 2000.

4. *Resolution Declaring the Intent of the City to Reimburse Itself for Capital Expenditures Incurred in Connection With the Extension of Sanitary Sewer Lines From Proceeds of Certain Tax-Exempt Bonds ...*: On August 22, 2000, Council authorized the City Manager to enter into a contract for a portion of the sewer projects which are to be financed by Two-Thirds Bonds. In order for the City to be able to reimburse itself from the proceeds of the Bonds for a construction contract executed prior to the sale of the Bonds, the City must publicly document its intent prior to or within 90 days following the execution of the contract. This resolution documents the City's intent.

City staff recommends City Council adopt the four resolutions.

Mr. Schaefer responded to a question by Councilman Peterson about how much the City will be saving.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ENGAGEMENT OF UNDERWRITERS

Finance Director Bill Schaefer said that this is the consideration of a resolution authorizing the engagement of underwriters for the issue of Water Revenue Bonds and Certificates of Participation.

The City of Asheville Budget for Fiscal Year 2000-2001 calls for the issue of $11,300,000 of Water Revenue Bonds to finance various improvements to the water system and the issue of $11,200,000 tax-exempt Certificates of Participation (COPs) for the City's portion of the Battery Park Parking Deck. (An additional taxable portion of the COPs issue, currently estimated as $4,000,000, will be required to finance the private partner's portion of the project. The debt service for the taxable portion is to be provided, in its entirety, by the private partners.) The services of an underwriting firm will be required for the structuring and sale of both the Water Revenue Bonds and the COPs.

The City requested separate proposals for the Water Revenue Bond issue and the COPs issue from six investment banking firms. In response, we received five proposals to underwrite the Water Revenue Bonds and all six firms provided proposals to underwrite the COPs. City staff members evaluated the proposals based on: experience with similar financings in North Carolina; suggested alternatives for the structuring of the financing; firm's personnel dedicated to the financing; underwriter's counsel; compliance with the City's drug free workplace policies: fee structure; etc.

Based on the results of the evaluation of proposals, City staff recommends the engagement of Robinson-Humphrey, LLC, to underwrite the City's issue of Water Revenue Bonds and both the tax-exempt and taxable COPs.

City staff recommends City Council adopt the resolution which engages underwriters for the issue of Water Revenue Bonds and Certificates of Participation.

Mr. Schaefer responded to various questions from Councilman Peterson.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REQUEST FOR PROPOSALS FOR EAST END PLACE SUBDIVISION

Mr. Randall Barnett, Rehab Loan Specialist, said that this is the consideration of a resolution establishing the minimum price and directing the City Clerk to advertise a Request for Proposals regarding the development of East End Place Subdivision.

The Community Development Division has prepared a plan for the sale and redevelopment of land located in the East End/Valley Street Community Improvement Area known as East End Place and seeks authorization to advertise a Request for Proposals for sealed bids.

East End Place is a proposed subdivision located on a two acre tract on Martin Luther King Jr. Drive. The subdivision plan comprises seven lots and a short cul-de-sac. The plan has been approved by the Technical Review Committee.

The proposed lots have been appraised at $77,000, which is the amount proposed as the minimum price for the land.

The successful redeveloper will be required to pay not less than the minimum price established for the lots; to construct the infrastructure, i.e. street, sidewalk, water lines, sewer and storm drainage; and to build an affordable home on each lot with a projected sale price not to exceed $90,000. The homes proposed must contain at a minimum 960 square feet, 3 bedrooms and 1 1/2 baths. The project must be started within three months and completed within twenty-four months after conveyance of the property. The City through allocated Community Development Block Grant funds will provide $78,000 toward the cost of the infrastructure.

The homes must be sold to households with incomes not exceeding 80% of the area median income. The City through allocated Community Development Program Income will provide secondary financing to the buyers in an amount not to exceed $11,000 per lot.

The advertisement for sealed bids, if approved by Council, will include the provision that proposals will be evaluated on the Redeveloper's qualifications and the quality of the proposed homes as well as the amount bid.

Approval of the resolution will establish the minimum price for East End Place at $77,000 and initiate the sale of the property through the sealed bid process as provided in N. C. Gen. Stat. sec. 160A-268.

Community Development staff recommends adoption of the resolution.

At the request of Councilwoman Bellamy, Mr. Barnette said that he would be happy to meet with the residents in the area and discuss the proposed subdivision plan, addressing any concerns they may have especially with regard to building on the embankment and the proximity of the proposed subdivision with their homes.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

OTHER BUSINESS

It was the consensus of City Council to cancel the October 17, 2000, worksession since there will not be a majority of City Council in town. However, Council instructed the City Manager to wait until closer to the October 17, 2000, worksession date to see if the worksession should be rescheduled to Wednesday, October 18, 2000, or just cancelled entirely for that week.

It was the consensus of City Council to cancel their community meeting for Tuesday, October 31, 2000.

City Council instructed the City Clerk to arrange interviews or prepare paperwork to make appointments to the following boards and commissions: ADA Compliance Committee, Greenway Commission, Minority Business Commission, Opportunity Corporation, Planning and Zoning Commission, River District Design Review Committee, Tourism Development Authority, Victoria of Asheville Board of Directors, and Water Authority.

After discussion regarding the process for appointing Council members to different boards, it was the consensus of City Council to appoint Councilman Hay to the Buncombe County Economic Development Commission.

Mayor Sitnick said that she has had a request to have City Council ask the Public Art Board to discuss the possibility of having a poet laureate for the City of Asheville. Councilwoman Field (liaison to the Public Art Board) said that she would be happy to bring that proposal before the Board.

City Attorney Oast announced that he was just notified that the variance request by Riverbend Marketplace (i.e. Walmart) to construct a Walmart Superstore at the old Sayles Bleacheries site at 437 Swannanoa River Road was denied by the Board of Adjustment.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 12, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy (left meeting at 7:15 p.m.); and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilwoman Bellamy gave the invocation.

ADDITIONS TO THE AGENDA

Councilwoman Field requested that a brief discussion be held about the enforcement of political signs under "Other Business."

Councilman Hay asked that he and Councilwoman Bellamy report on a VISION meeting under "Other Business."

I. PROCLAMATIONS:

A. RESOLUTION NO. 00-152 - RESOLUTION OF APPRECIATION TO RETIRING EMPLOYEE BETTY SAMS

City Manager Westbrook read a resolution of appreciation to Betty Sams who has been employed by the City of Asheville for 20 years. Ms. Sams has requested retirement from her position as Elevator Operator in the Parks & Recreation Department.

Resolution No. 00-152 was adopted by acclamation.

RESOLUTION BOOK NO. 26 - PAGE 131

B. PROCLAMATION PROCLAIMING THE WEEK OF SEPTEMBER 10-16, 2000, AS "IMPROVING END OF LIFE CARE WEEK"

Mayor Sitnick read the proclamation proclaiming September 10-16, 2000, as "Improving End of Life Care Week" in the City of Asheville. She presented the proclamation to Tina Holmes, Carolyn Geister, Debbie Aiton, Kathi Peterson, and Jennifer Atkinson from Williams Funeral Home, who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING THE WEEK OF SEPTEMBER 24-30, 2000, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"

Mayor Sitnick read the proclamation proclaiming September 24-30, 2000, as "Minority Enterprise Development Week" in the City of Asheville. She presented the proclamation to Mr. Mariana Raigo, Vice-President of the Asheville Latin Americans for Advancement Society, who briefed City Council on some activities taking place during the week.

D. **RESOLUTION NO. 00-153 – RESOLUTION IN SUPPORT OF HIGHER EDUCATION BONDS TO ASSIST NORTH CAROLINA'S COMMUNITY COLLEGE AND UNIVERSITIES IN MEETING THEIR FACILITY NEEDS AND ACCOMMODATING THEIR STUDENTS**

Mayor Sitnick read the proclamation which said that higher education historically has played a tremendous role in building the State of North Carolina into the thriving economic, cultural and social leader that it is today. North Carolina's community colleges and universities allow citizens of this State to learn the skills necessary to compete in today's and tomorrow's competitive economy. North Carolina's systems of higher education are acclaimed as being among the best in the country. In the next decade, our community colleges expect more than 57,000 new students to enroll, and our universities' enrollment will grow by more than 48,000 students. Our higher education campuses must upgrade and construct academic, residential and administrative facilities, including critical laboratory and classroom space, to accommodate the growing numbers of students. The $3.1 billion bond package approved by the General Assembly will assist our community colleges and universities in meeting their significant facility needs. $49.9 million has been allocated for the University of North Carolina at Asheville and $14 million has been allocated for Asheville-Buncombe Technical Community College. The bonds are subject to voter approval on the November 2000 ballot and deserve rightful consideration by the citizens of this state. The Asheville City Council strongly supports the higher education bond proposal because it will enable our systems of higher education to better educate tomorrow's students and maintain North Carolina's place as the national leader in higher education learning and training. The Asheville City Council pledges to work to educate and inform the citizens of our State about the importance of the bonds in improving our community colleges and universities, and pledges to encourage voters to approve the bonds this November.

She then recognized Dr. Jim Mullen, Chancellor from UNC-Asheville, and Mr. Ray Bailey, President of Asheville-Buncombe Technical Community College, who spoke in favor of Council's consideration of this resolution.

Councilman Worley moved for the adoption of Resolution No. 00-153. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 132

II. CONSENT:

A. **APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 22, 2000, THE COMMUNITY MEETING HELD ON AUGUST 29, 2000, AND THE WORKSESSION HELD ON SEPTEMBER 5, 2000**

B. **RESOLUTION NO. 00-154 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A STATEWIDE EMERGENCY MANAGEMENT MUTUAL AID AGREEMENT WITH THE N.C. DEPT. OF CRIME CONTROL AND PUBLIC SAFETY**

Summary: The consideration of a resolution authorizing the City Manager to sign a statewide emergency management mutual aid agreement with the North Carolina Department of Crime Control and Public Safety, and its Division of Emergency Management.

As a result of Hurricane Fran in 1996, Governor Hunt commissioned a Task Force to address the State's recovery effort. The Task Force made 84 recommendations that would enhance communication, coordination and recovery efforts, and help provide the resources needed to respond and recover from a disaster. One of the recommendations was for the League of Municipalities and the North Carolina Association of County Commissioners to draft a statewide mutual aid agreement. North Carolina Emergency Management serves as the repository for this statewide mutual aid agreement. This voluntary agreement means that the City may request assistance during a disaster, or Asheville may be asked to provide assistance to another city or town. The needs of Asheville residents are the first priority and the City may decline to provide assistance when the resources are needed in the City of Asheville. The multipurpose agreement provides efficient and effective assistance among governments, faster reimbursement from the Federal Emergency Management Agency and covers liability and insurance concerns.

The Interim Fire Chief recommends City Council authorize the City Manager to sign a statewide emergency management mutual aid agreement with the North Carolina Department of Crime Control and Public Safety, and its Division of Emergency Management.

RESOLUTION BOOK NO. 26 – PAGE 133

C. RESOLUTION NO. 00-155 - RESOLUTION AUTHORIZING THE PURCHASING DIRECTOR TO DISPOSE OF CITY-OWNED PERSONAL PROPERTY BY PUBLIC AUCTION ON SATURDAY, OCTOBER 7, 2000, AT 10:00 A.M. IN THE PUBLIC WORKS COMPLEX LOCATED AT 161 SOUTH CHARLOTTE STREET

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction on Saturday, October 7, 2000, at 10:00 a.m. in the Public Works Complex located at 161 S. Charlotte Street.

The resolution authorizes the City's Purchasing Division to hold a public auction to dispose of motor vehicles, off-road equipment, and other miscellaneous property declared as surplus by various City departments. The auction is scheduled to be held Saturday, October 7, 2000, at 10:00 a.m. in the Public Works Complex, 161 S. Charlotte Street.

City staff requests City Council's approval of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 134

D. ORDINANCE NO. 2737 - BUDGET AMENDMENT TO INCREASE REVENUE FROM THE $2 MILLION HIGH UNIT COST GRANT AND INCREASE THE WATER CRITICAL NEED PHASE II APPROPRIATION

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 (35 Fund) to reflect the increase in revenue from the $2 Million High Unit Cost Grant and the increase to the Critical Needs Phase II appropriation.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Contribution From Other Funds and Appropriated Fund Balance.

In September 1999 the Regional Water Authority applied for a second grant with the N.C. Dept. of Environment and Natural Resources (DENR) to continue improvements to the regional water distribution system. The Authority had already been awarded a $3 million grant from DENR in July 1999 from an earlier round of applications. Areas of the water system were

360

prioritized according to the State's criteria for grant points, including areas where water pressures to customers were low and areas where water leak repairs were frequent.

On March 15, 2000, the Water Resources Department was notified that DENR had selected the Authority for a $2 Million grant from the September application, conditioned on the design being completed and approved by DENR by July 7, 2000. This was completed on July 5, 2000.

Pursuant to the Water Agreement, the City of Asheville and Buncombe County formally accepted the grant in early August.

The Regional Water Authority approved an amendment to Capital Project Ordinance 82-25 at the August 15, 2000, meeting to reflect the increase in revenue from the $2 Million High Unit Cost Grant and the increase to the Critical Needs Phase II appropriation.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 82-25 to reflect the increase in revenue from the $2 Million High Unit Cost Grant and the increase to the Critical Needs Phase II appropriation.

ORDINANCE BOOK NO. 18 – PAGE 445

E. RESOLUTION NO. 00-156 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FEDERAL AVIATION ADMINISTRATION GRANT

Summary: The consideration of a resolution approving a grant from the Federal Aviation Administration in an amount not to exceed $500,000.

The Federal Aviation Administration (FAA) has offered a grant agreement to the Asheville Regional Airport. This grant, in an amount not to exceed $500,000, consists of the following projects: Rehabilitate Runway 16/34 Lights (HIRLS); and Improve Runway 16/34 Runway Safety Area and Taxiway Safety Area.

Staff recommends adoption of the resolution and authorize the Mayor to execute the grant agreement for Project No. 3-37-0005-24.

RESOLUTION BOOK NO. 26 – PAGE 154

F. MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 26, 2000, TO CONSIDER A CONDITIONAL USE PERMIT FOR A PARKING LOT ASSOCIATED WITH MILKO INC. TO BE LOCATED ON PROPERTY ZONED RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT AT THE INTERSECTION OF DEAVERVIEW ROAD AND BEAR CREEK ROAD

G. MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 26, 2000, TO CONSIDER REZONING SEVEN LOTS LOCATED ON ACTON CIRCLE FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT, HIGHWAY BUSINESS AND NEIGHBORHOOD BUSINESS TO HIGHWAY BUSINESS, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

H. MOTION SETTING A PUBLIC HEARING FOR SEPTEMBER 26, 2000, TO CONSIDER REZONING PROPERTY AT CLINGMAN AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

I. RESOLUTION NO. 00-157 - RESOLUTION ESTABLISHING MINIMUM PRICE AND AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE DISPOSAL PARCEL 76 IN THE EAST END/VALLEY STREET COMMUNITY IMPROVEMENT AREA FOR THE TAX VALUE OF $300

Summary: The consideration of a resolution establishing minimum price and authorizing the City Clerk to advertise an offer to purchase Disposal Parcel 76 in the East End/Valley Street Community for the tax value of $300.

Disposal Parcel 76 is a fragment lot located on the east side of Martin Luther King Jr. Drive at the intersection with South Beaumont Street comprising 566 square feet. The lot is irregular in shape and mostly flat about street level. The bid from Dorothy Dean includes the proposal to combine the property with adjoining property currently owned by Ms. Dean on South Beaumont Street. No construction is planned.

Approval of the resolution will establish the tax value of $300 as the minimum price and initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 155

J. RESOLUTION NO. 00-158 - RESOLUTION MAKING PROVISIONS FOR THE CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2000 GREEK FESTIVAL ON OCTOBER 6-8, 2000

Summary: The consideration of a resolution to allow alcoholic beverages on October 6-8, 2000 at the 2000 Greek Festival.

N. C. Gen. Stat. sec. 18B-300 (c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and/or unfortified wine on public streets, and on property owned, occupied or controlled by the City of Asheville. The City Council has adopted an ordinance pursuant to that statutory authority. Section 11-11 of the Code of Ordinances provides that City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 2000 Greek Festival to include the areas as described in the resolution.

RESOLUTION BOOK NO. 26 – PAGE 156

K. RESOLUTION NO. 00-159 - RESOLUTION MAKING PROVISIONS FOR THE CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 4TH ANNUAL BREWGRASS FESTIVAL SEPTEMBER 16, 2000

Summary: The consideration of a resolution to allow alcoholic beverages on September 16, 2000 at the 4th Annual Brewgrass Festival.

N. C. Gen. Stat. sec. 18B-300 (c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and/or unfortified wine on public streets, and on property owned, occupied or controlled by the City of Asheville. The City Council has adopted an ordinance pursuant to that statutory authority. Section 11-11 of the Code of Ordinances provides that City Council may adopt a resolution making other provisions at a special event or community festival.

The Parks and Recreation Department recommends City Council adopt a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 4th Annual Brewgrass Festival to include the areas as described in the resolution.

RESOLUTION BOOK NO. 26 – PAGE 158

L. RESOLUTION NO. 00-160 - RESOLUTION FINDING THAT A PORTION OF THE RIGHT-OF-WAY KNOWN AS SUNSET TERRACE IS NOT PART OF AN ADOPTED STREET PLAN

Summary: The consideration of a resolution finding that a portion of the right-of-way known as Sunset Terrace is not part of an adopted street plan.

According to N. C. Gen. Stat. sec. 136-96, if a right-of-way is not utilized within 15 years of dedication, it can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Claxton Law Firm, on behalf of Peter and Jasmin Gentling, has conducted an extensive title research and determined that they are the rightful persons to claim under the dedicator and to make and record a declaration of withdrawal pursuant to North Carolina General Statute sec. 136-96 and has requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating whether the right-of-way to be abandoned is or is not part of a proposed street plan.

Public Works Department staff has determined that a portion of the right-of-way known as Sunset Terrace, beginning at the southeast corner of PIN No. 9649-08-88-3098, and ending at the southwest corner of PIN No. 9649-08-87-4827 as shown on Plat Book 14, Page 70, is not part of an adopted street plan and is not a City maintained right-of-way.

City staff recommends City Council adopt the resolution finding that a portion of the right-of-way known as Sunset Terrace is not part of an adopted street plan.

RESOLUTION BOOK NO. 26 – PAGE 160

M. RESOLUTION NO. 00-161 - RESOLUTION DIRECTING THE PUBLICATION OF NOTICE OF INTENTION TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF BONDS

Summary: The consideration of resolutions related to the issuance of $1,970,000 City of Asheville General Obligation Two-Thirds Bonds.

In most instances, the least expensive financing source available to municipalities is the issue of General Obligation (GO) Bonds; especially when the GO bonds can be issued without the expense and uncertainty of conducting a referendum to authorize their issue. N.C. General Statutes allow the issue of GO bonds without a referendum in a maximum amount equaling two-thirds of the amount by which the City's outstanding GO debt was reduced in the prior fiscal year. As a result, the City of Asheville may issue up to $1,973,333 in Two-Thirds Bonds in FY 2000-2001.

The City of Asheville Budget for Fiscal Year 2000-2001 includes $1,300,000 for sewer projects and $800,000 for an aerial ladder fire truck. The Budget called for the sewer projects to be financed by Two-Thirds Bonds and the fire truck through an installment purchase. After financing of the sewer projects, the City would still have $670,000 of Two-Thirds Bond capacity which staff proposes be used to finance the majority of the fire truck; with the balance of only $130,000 to be financed by the more expensive lease purchase.

The City's Bond Counsel, in consultation with the Local Government Commission (LGC) and City Staff, has established a tentative calendar (Atch.1) of events leading to a sale date of December 5, 2000, for the City's Two-Thirds Bonds. In order to meet that schedule, City Council needs to adopt the first four enabling resolutions for the Two-Thirds Bonds and a Budget Ordinance Amendment specifying the fire truck financing at the September 12, 2000, Formal Session. The following summarizes each of the Two-Thirds Bonds resolutions:

1. *Resolution Directing the Publication of Notice of Intention to Apply to the LGC for Approval of Bonds*: Directs the City Clerk to have published on September 13, 2000, a notice of the City's intent to apply to the LGC to issue $1,300,000 bonds for sewer projects and $670,000 bonds for the purchase of a fire truck.

2. *Resolution Authorizing the Finance Director to Prepare an Application to the LGC ...*: Directs the Finance Director to submit the necessary application and associated information regarding the City and its financial condition and to request LGC's approval of the City's use of Parker, Poe, Adams & Bernstein L.L.P. as the City's Bond Counsel.

3. *Resolution Making Certain Statements of Fact Concerning Proposed Bond Issues:* Documents Council's findings of fact as to the following:

    A. The proposed bonds are necessary and expedient;
    B. The amounts of the bonds are adequate and not excessive;
    C. The City's debt management policies have been carried out in compliance with law;
    D. The City's budgetary and fiscal management policies have been carried out in compliance with law; and
    E. The schedule for issuing the bonds does not require a property tax increase and calls for all of the bonds to be issued in December, 2000.

4. *Resolution Declaring the Intent of the City to Reimburse Itself for Capital Expenditures Incurred in Connection With the Extension of Sanitary Sewer Lines From Proceeds of Certain Tax-Exempt Bonds ...:* On August 22, 2000, Council authorized the City Manager to enter into a contract for a portion of the sewer projects which are to be financed by Two-Thirds Bonds. In order for the City to be able to reimburse itself from the proceeds of the Bonds for a construction contract executed prior to the sale of the Bonds, the City must publicly document its intent prior to or within 90 days following the execution of the contract. This resolution documents the City's intent.

City staff recommends City Council adopt the four resolutions and the budget amendment.

R. RESOLUTION NO. 00-165 - RESOLUTION APPROVING UNDERWRITERS FOR THE ISSUANCE OF WATER REVENUE BONDS AND CERTIFICATES OF PARTICIPATION

Summary: The consideration of a resolution authorizing the engagement of underwriters for the issue of Water Revenue Bonds and Certificates of Participation.

The City of Asheville Budget for Fiscal Year 2000-2001 calls for the issue of $11,300,000 of Water Revenue Bonds to finance various improvements to the water system and the issue of $11,200,000 tax-exempt Certificates of Participation (COPs) for the City's portion of the Battery Park Parking Deck. (An additional taxable portion of the COPs issue, currently estimated as $4,000,000, will be required to finance the private partner's portion of the project. The debt service for the taxable portion is to be provided, in its entirety, by the private partners.) The services of an underwriting firm will be required for the structuring and sale of both the Water Revenue Bonds and the COPs.

The City requested separate proposals for the Water Revenue Bond issue and the COPs issue from six investment banking firms. In response, we received five proposals to underwrite the Water Revenue Bonds and all six firms provided proposals to underwrite the COPs. City staff members evaluated the proposals based on: experience with similar financings in North Carolina; suggested alternatives for the structuring of the financing; firm's personnel dedicated to the financing; underwriter's counsel; compliance with the City's drug free workplace policies: fee structure; etc.

Based on the results of the evaluation of proposals, City staff recommends the engagement of Robinson-Humphrey, LLC to underwrite the City's issue of Water Revenue Bonds and both the tax-exempt and taxable COPs.

City Council adopt the resolution which engages underwriters for the issue of Water Revenue Bonds and Certificates of Participation.

RESOLUTION BOOK NO. 26 – PAGE 167

S. ORDINANCE NO. 2739 - BUDGET AMENDMENT FOR PRITCHARD PARK PROJECT

Summary: The consideration of a budget amendment, in the amount of $38,312.53, to appropriate funds received from reimbursement by the Transportation Advisory Committee for the Downtown Traffic Evaluation Plan for Pritchard Park.

In May of 1999, City Council approved the development of a Traffic Evaluation Plan for downtown as it related to the improvements at Pritchard Park. This particular proposal requested reimbursement of this Plan by the Transportation Advisory Committee for the MPO Transportation Planning Work Program budget. The upfront costs of this study were paid out of the Pritchard Park budget with the understanding that, once funds were received as part of the MPO, reimbursement would be made to this account.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $38,312.53, to reimburse the Pritchard Park renovation account for the development of the Downtown Traffic Evaluation Plan.

ORDINANCE BOOK NO. 18 – PAGE 449

T. RESOLUTION NO. 00-166 - RESOLUTION CONFIRMING MEMBERS TO THE MINORITY BUSINESS COMMISSION

Summary: The consideration of a resolution confirming the appointment of six members to the Minority Business Commission.

On May 26, 1998, City Council adopted Resolution No. 98-63 adopting a City-County Minority Business Plan.

The composition of the Minority Business Commission consists of 13 members, 10 of whom are nominated by various groups and three of whom are minority business owners nominated by the Minority Business Commission. All nominees are considered and appointment by both the City Council and County Commission.

Mr. Ronnie Blythe, representing Asheville Business Development Center, and Ms. Grace Dorn, representing the National Association for the Advancement of Colored People, both of whom are completing terms on the Commission, have been nominated by their respective organizations for new terms which will extend through August, 2002. Additionally, Ms. Claudia

Thomas, owner of CAT Network Systems, is completing her term and has again been nominated by the Minority Business Commission for a new term through August, 2002.

Ms. Gráinne Brophy, owner of Altura Environmental, Inc., has been nominated by the Minority Business Commission to replace Ms. Vickie Gaddy whose term ended August, 2000. Ms. Brophy's term would run through August, 2002.

Mr. Gene Presley, representing the Council of Independent Business Owners (CIBO), and Ms. Katherine DeBrow, owner of DeBrow Construction, have resigned. Ms. Vonna Cloninger has been nominated by CIBO to serve Mr. Presley's unexpired term through August, 2001. The Minority Business Commission has nominated Ms. Ann Fulcher, owner of Carolina Mountain Construction, Inc., to serve the unexpired term of Ms. DeBrow through August, 2001.

City staff recommends City Council adopt the resolution confirming the appointments of six members of the Minority Business Commission.

RESOLUTION BOOK NO. 25 – PAGE 168

U. RESOLUTION NO. 00-167 - RESOLUTION CANCELING PUBLIC HEARING SET FOR SEPTEMBER 19, 2000, AT 5:30 P.M. AT STEPHENS-LEE COMMUNITY CENTER TO CONSIDER A CONDITIONAL USE PERMIT FOR RIVERBEND MARKETPLACE (I.E. WALMART) FOR DEVELOPMENT OF THE OLD SAYLES BLEACHERIES SITE LOCATED AT 437 SWANNANOA RIVER ROAD DUE TO DEVELOPER'S WITHDRAWAL OF REQUEST FOR PUBLIC HEARING

Summary: Pursuant to Asheville City Code sec. 7-5-5(e), the Asheville City Council has scheduled a public hearing for September 19, 2000, at 5:30 p.m. in the Stephens-Lee Community Center to consider the application for a Conditional Use Permit for the Riverbend Marketplace Shopping Center proposed for the old Sayles Bleacheries site at 437 Swannanoa River Road.

The applicant and the City's planning director have both advised the City Council that, as a result of a decision by the Asheville Board of Adjustment, the status of an essential element of the project is uncertain, and the Conditional Use Permit application is not ripe for consideration, and have accordingly withdrawn the request for a public hearing.

In the event that a new public hearing is scheduled, re-notification and re-advertisement will be required in accordance with City Code secs. 7-5-5(f) and 7-5-20.

Therefore, the public hearing by the City Council scheduled for September 19, 2000, at 5:30 p.m. in the Stephens-Lee Community Center to consider the application for a Conditional Use Permit for the Riverbend Marketplace Shopping Center at 437 Swannanoa River Road, is hereby cancelled.

If a public hearing on the same Conditional Use Permit application is scheduled again, the applicant shall pay all of the costs associated with re-advertisement and re-notification of said public hearing.

If no public hearing is requested on or before December 15, 2000, on said application, it shall be deemed withdrawn.

Upon inquiry of Councilman Peterson, City Attorney Oast said that no special consideration or preferential treatment is being given to this applicant and that if any similar situation would come before City Council, the City would handle it in a similar way.

RESOLUTION BOOK NO. 26 – PAGE 170

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Vice-Mayor Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bellamy and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A MODIFICATION FROM THE SUBDIVISION STANDARDS FOR ROCKING PORCH ROAD SUBDIVISION

Mayor Sitnick opened the public hearing at 5:37 p.m.

Urban Planner Carl Ownbey said that this is the consideration of a motion approving a modification of the subdivision standards to permit a subdivision on Rocking Porch Road to be served by a privately maintained road. This public hearing was advertised on September 1 and September 8, 2000.

The owners, Kenny and Kevin Osley, of the property on Rocking Porch Road (PIN No. 9659.18-42-9085) are requesting a modification of the subdivision standards (7-15-1.k.2.d) to permit a subdivision to be served by a privately maintained street.

Although City Council recently adopted a wording amendment to change the review process for major subdivisions, the ordinance did not amend the requirements for modifications to the development standards. The City Code requires that modifications to the subdivision standards be approved by City Council after a recommendation from the Technical Review Committee (TRC) and the Planning & Zoning Commission. The subdivision standards require that all residential lots abut a publicly maintained street and the owners are proposing residential development from a privately maintained street.

On June 5, 2000, the City was presented with a preliminary plat for a 10 lot subdivision. The plat indicated a private street extension approximately 500 feet in length that will be constructed to City standards. This subdivision is within the extra-territorial jurisdiction and will be served by private wells and septic tanks.

On June 19, 2000, the TRC reviewed the preliminary plat and identified several concerns that needed to be addressed. On July 5, 2000, the Planning and Zoning Commission reviewed the preliminary plat and concurred. After their reviews, both TRC and the Planning & Zoning Commission recommended the modification to the subdivision requirements and approval of the preliminary plat with the conditions.

On August 15, 2000, the owners submitted the revised preliminary plat indicating that the technical revisions to the preliminary plat had been made.

The Planning and Development staff, the Technical Review Committee, and the Planning and Zoning Commission recommend that City Council approve the modification to the subdivision requirements to permit the subdivision of the 12 acre tract of land from a privately maintained roadway.

Mayor Sitnick closed the public hearing at 5:42 p.m.

Vice-Mayor Cloninger moved to approve the modification from the subdivision standards to permit a subdivision on Rocking Porch Road to be served by a privately maintained road. This motion was seconded by Councilman Worley and carried unanimously.

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY COLLEGES AND UNIVERSITIES, VOCATIONAL AND TRAINING SCHOOLS, AND BUSINESS INCUBATION AS A PERMITTED USE IN THE INDUSTRIAL DISTRICT

ORDINANCE NO. 2740 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY COLLEGES AND UNIVERSITIES, VOCATIONAL AND TRAINING SCHOOLS, AND BUSINESS INCUBATION AS A PERMITTED USE IN THE INDUSTRIAL DISTRICT

Mayor Sitnick opened the public hearing at 5:43 p.m.

Chief Planner Gerald Green said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to identify colleges and universities, vocational and training schools, and business incubation as permitted uses in the Industrial District. This public hearing was advertised on September 1 and 8, 2000.

Uses in the Industrial District are currently limited to manufacturing and related uses. While this limited range of uses preserves industrially zoned property for industrial uses, it is not flexible enough to meet the needs of technological changes and new approaches to the uses of industrial sites. This limitation is exemplified by the proposed use of land donated by BASF to Asheville-Buncombe Technical Community College. The property is located adjacent to the BASF plant and is zoned Industrial. A-B Tech plans to locate classrooms and a business incubation center in the existing building. The classrooms would be used primarily for vocational education. The business incubation center would provide an area for start up businesses to locate, share resources, and receive assistance in the first years of their existence, helping to ensure their success. Currently, the Industrial District does not permit either of these uses. The proposed ordinance amendment would allow these uses by listing colleges and universities, vocational and training schools, and business incubation as permitted uses in the Industrial District. Future efforts such as that proposed by A-B Tech would be permitted by the proposed ordinance amendment, helping to strengthen the area's economy.

Mr. Green also read the definition for business incubation which is included in the ordinance amendment.

Upon inquiry of Councilwoman Field on why the ordinance excluded dormitories and other living quarters from the list permitted uses in the Industrial District, Mr. Ray Bailey, President of A-B Tech, said that they are prohibited from having dormitories by state statute.

Mr. Bailey said that there is bus service to Westridge Shopping Center and they would like to work with the City to see if they can get some bus service to this property which is located just across the road from the Shopping Center.

Ms. Patsy Meldrum, attorney representing A-B Tech, spoke in support of the amendment in that it fits within the purposes of the Industrial District.

Mayor Sitnick closed the public hearing at 5:50 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2740. This motion was seconded by Councilman Bellamy and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 451

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE DEFINITION OF SIGN TO EXCLUDE CERTAIN ART AND WORKS OF ART FROM THE DEFINITION OF SIGN

ORDINANCE NO. 2741 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO REVISE THE DEFINITION OF SIGN TO EXCLUDE CERTAIN ART AND WORKS OF ART FROM THE DEFINITION OF SIGN

Mayor Sitnick opened the public hearing at 5:50 p.m.

Chief Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the definition of sign to exclude certain art and works of art from the definition of sign. This public hearing was advertised on September 1 and 8, 2000.

The definition of sign currently found in the UDO is worded so that art and works of art are considered signs. As a result of this definition, the use of art and works of art by businesses is limited. Because art and works of art can be considered a sign, the placement of art and works of art at a business can limit the amount of signage that the business can display. Rather than limit their signage, businesses typically decide to abandon plans for incorporating art or works of art into their development.

With this proposed ordinance amendment, the Planning and Zoning Commission is endorsing a more whimsical approach to the incorporation of art and works of art by businesses in their building and site design. The City of Asheville is recognized as an arts city; this amendment acknowledges this recognition and removes a significant impediment to the placement of art and works of art throughout the City by private businesses. While loosening the restrictions on the incorporation of art and works of art in building and site design, the proposed amendment continues to identify distinctions between art and signs:

- The art or works of art cannot include logos in their traditional form;
- The art or works of art cannot include the name of the business; and
- The art or works of art cannot be an obvious portrayal of a product or service provided by the business.

With these limitations, the ability of businesses to incorporate art and works of art in their building and site design is increased while an appropriate distinction between signs and art remains.

The Planning and Zoning Commission voted 6 – 0 to recommend adoption of the ordinance amendment. The Planning and Development Department staff supports the ordinance amendment.

At the August 15, 2000, worksession, it was the consensus of City Council to delete the restriction that the art or works of art cannot be an obvious portrayal of a product or service provided by the business.

Mayor Sitnick closed the public hearing at 5:52 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2741, with the deletion of the restriction that the art or works of art cannot be an obvious portrayal of a product or service provided by the business. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 454

D. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH STANDARDS FOR A-FRAME SIGNS IN THE CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 2742 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ESTABLISH STANDARDS FOR A-FRAME SIGNS IN THE CENTRAL BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 5:55 p.m.

Chief Planner Gerald Green said that this is the consideration of an ordinance to amend the Unified Development Ordinance (UDO) to establish standards for A-Frame signs in the Central Business District. This public hearing was advertised on September 1 and 8, 2000.

A-frame signs are currently prohibited in all zoning districts by the UDO. As a result of requests from downtown businesses, the Downtown Commission developed general standards for A-frame signs and requested the Planning and Development staff to consider preparation of an ordinance amendment that would permit the signs in the downtown area and establish standards for them. In developing the proposed ordinance amendment, the Planning and Development staff reviewed the general guidelines developed by the Downtown Commission and obtained standards from other cities. Staff also inspected downtown sidewalks to ensure that A-frame signs could be placed on the sidewalks without restricting accessibility. The draft ordinance recommended for adoption by the Planning and Zoning Commission defines A-frame signs, permits them in the Central Business District, and establishes standards for them. The proposed standards address the following:

- Minimum and maximum sizes for the signs;
- Number of A-frame signs each business may have;
- Location/placement requirements for the signs;
- Safety standards for A-frame signs;
- Insurance requirements for the business placing the sign(s); and
- Permit requirements for A-frame signs.

The intent of the proposed ordinance amendment is to permit the use of A-frame signs by downtown businesses as an additional means of advertising the business and/or the goods and services provided by the business. By identifying certain standards for the signs, pedestrian accessibility and general safety issues will be addressed. The Downtown Commission and the Merchants Action Coalition have endorsed the ordinance amendment.

The Planning and Zoning Commission voted 6 – 0 to recommend adoption of the ordinance amendment. The Planning and Development Department staff supports the ordinance amendment.

Mayor Sitnick closed the public hearing at 5:53 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2742. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 456

IV. UNFINISHED BUSINESS:

Councilman Worley moved to amend the agenda to allow a report with regard to VISION. This motion was seconded by Councilwoman Bellamy and carried unanimously.

A. REPORT ON VISION BOARD MEETING

Councilman Hay said that he and Councilwoman Bellamy are on the A-B VISION Board and each year the VISION Board adopts short term projects. He was proud to report that out of 20-30 projects recommended, one recommendation that the Board adopted was his proposal to establish bus service between the City of Asheville and the Town of Black Mountain.

Councilwoman Bellamy was also proud to report that another project adopted by the Board was her proposal to look at 18-34 year olds and find out what we can do to keep our talent in our community and what we can do to attract that age group to our community.

V. NEW BUSINESS:

A. RESOLUTION NO. 00-168 - RESOLUTION SUPPORTING THE REPORT AND RECOMMENDATIONS OF THE COMMUNITY COORDINATING COMMITTEE REGARDING THE I-26 CONNECTOR PROJECT

Mr. W. Louis Bissette Jr. Co-Chair of the Community Coordinating Committee ("Committee") , refreshed Council's memory on the charge of the Committee and how this report documents the goals identified by public input at the I-26 Connector Design Forum held on July 21-22, 2000. The goals described are generated from official records of discussion table comments at the forum and summaries of citizen-developed mission statements at the forum wrap-up session. They have been evaluated by the Community Coordinating Committee and recommended for consideration. These goals provide the foundation for a citizen-based design alternative to be given engineering and environmental study both preliminarily and through the EIS. They also provide recommended criteria for EIS evaluation of all alternatives.

Mr. Brownie Newman, Co-Chair of the Committee, briefly reviewed the report as follows:

Section 1 - Project Goals Identified by the Design Forum

Many facets of the project were discussed at the forum. The themes listed below summarize the most prominent concerns of area citizens. They provide a set of specific goals the community would like to see accomplished through the course of completing the I-26 Connector Project.

We, as a community, want a thorough, full and proper study of an alternative design which will accomplish these goals. At the same time, the community feels strongly that the ultimate completion date for the project should be maintained and expedited, if possible. We are hopeful that building community consensus around the design alternative that best accomplishes these goals will ultimately help expedite the project. Due to the inter-related nature of the issues raised, the immediate proximity of areas to be affected and the need to expedite completion of the work, the strong preference of the Community Coordinating Committee is for these to be addressed as a single project rather than multiple "phased projects."

Key Project Design Goals

1) Separation of local and interstate traffic
2) Matching scale of project to character of community
3) Reunification and connectivity of community
4) Minimization of neighborhood and local business impacts
5) Use of updated traffic modeling software and data
6) Maintenance of compatibility with community's design vision and plans; incorporation of community-selected design features
7) Creation of full interstate movements between I-26 and I-40
8) Minimization of air quality and other environmental impacts
9) Emphasis on safety - during construction and in the design of the final product

Section 2 - Evaluation Criteria

This section restates our community's design goals and establishes a set of criteria, or standards, by which their achievement should be measured.

Evaluation Criteria For:

1) Separation of Local and Interstate Traffic
    A. Eliminate Patton Avenue/Smoky Park Bridges as an Interstate Link
    B. Reclaim land for community use (including expansion of taxable base)
    C. Create Patton Avenue gateway possibilities (which complies with City of Asheville 2010 Plan)
    D. Generate redevelopment possibilities in Corridor in compliance with City's "smart growth" principles
    E. Simplify traffic movements
    F. Create a more convenient and safer driving environment

2) Matching Scale of Project to Character of Community
    A. Be sensitive to the prominence of the highway relative to Asheville's unique topography, landscape and built environment
    B. Recognize the highway's relationship to the river and downtown
    C. Retain the "feel" of a small city in the mountains
    D. Select the lowest design speed compatible with safe and proper functioning of the various components of the highway facility

E. Consider the impact of highway widening and alignment decisions on property takings and neighborhood division
F. Do not use a "Jersey barrier" approach to median design; the raised median in the I-240 cut is a much better example of sensitive median design in a constrained space

3) Reunification and Connectivity Of Community
A. Provide well-defined pedestrian/bicycle facilities throughout the project corridor
B. Improve opportunities for reconnecting neighborhoods and Downtown with the French Broad Riverfront
C. Expand accessibility for Hillcrest Community
D. Create a better local street network (including linkages between West Asheville and Downtown, within Downtown and within West Asheville) to relieve interstate traffic pressure

4) Minimization of Neighborhood and Local Business Impacts
A. Minimize residential property acquisitions
B. Limit impact on neighborhood connectivity
C. Minimize number of businesses needing to be closed or relocated
D. Prioritize safety and traffic-routing during construction
E. Maximize opportunities for hiring of local workers for construction of project

5) Use of Updated Traffic Modeling Software and Data
A. Determine that project scale achieves safe and adequate traffic flow with the minimal number of lanes
B. Create an opportunity to reinforce and/or redirect land use decisions that relate to transportation
C. Optimize transportation alternatives (balancing of thoroughfare plan with mass transit, bike/pedestrian, local street grid improvements and other alternatives)
D. Assess "induced traffic" phenomenon and interrelationship of highway capacity and development patterns

6) Maintenance of Compatibility with Community's Design Vision and Plans
A. Achieve compatibility with riverfront use and development plans (particularly limiting the loss of riverfront property for highway use)
B. Achieve compatibility with "smart growth" direction of city planning
C. Reclaim land for non-highway use
D. Create recognizable community character in design features
E. Develop unique and attractive bridge design(s)
F. Include gateway elements
G. Include local artists in creating design features
H. Use quality materials

7) Creation of Full Interstate Movements Between I-26 and I-40
A. Reduce through-traffic volume (especially trucks) in Asheville central district (I-240)
B. Enhance driving safety on I-240
C. Remove interstate traffic (especially trucks) from West Asheville street network

8) Minimization of Air Quality and Other Environmental Impacts
- A. Determine best highway design with least impact on air quality
- B. Protect water quality
- C. Preserve tree canopy and wildlife habitat

9) Emphasis on Safety - During Construction and in the Design of the Final Product
- A. Improve simplicity of design for weaving, merging, and diverging
- B. Segregate local and through truck traffic
- C. Provide for incident management
- D. Alleviate complexity and safety risks of current road and ramp configuration
- E. Provide effective maintenance of traffic flow during construction

KEY RECOMMENDATIONS

- Make a strong recommendation to the City Council and MPO that the alternative alignment developed at the Design Forum receive serious study for inclusion in the project Environmental Impact Statement.

- Make a strong recommendation to the City Council and MPO that the NCDOT, FHWA and local citizens work together as a "Committee on Visual Design" to develop ideas for bridge design, signage, overpass design, landscaping and other aesthetic issues that reflect our community's character.

- Make a strong recommendation to the City Council and MPO that the NCDOT and FHWA expedite the development of new and updated traffic models for use on the ultimate design of this project, including regional air quality modeling.

- Make a strong recommendation to the City Council and MPO that the NCDOT and FHWA explore engineering and signage options to improve the north-to-east connection of eastbound I-26 traffic with I-40 in an easterly direction as part of this project or a simultaneous project. The specific concerns involve limiting commercial truck through-traffic on I-240 and on lesser-classified roadways proximate to residential areas.

- Make a strong recommendation to the City Council and MPO reflecting the Committee's general consensus that the bicycle and pedestrian connectivity be restored to link neighborhoods and the river while simultaneously exploring traffic calming measures to reduce the vehicular impact on residential streets.

- Make a strong recommendation to the City Council and MPO that the NCDOT and FHWA ensure that all interchange design is community sensitive. To achieve this end, it would be helpful to provide artist's renditions of feasible design alternatives for public review.

- Make a strong recommendation to the City Council and MPO that the NCDOT and FHWA seriously examine safety issues in project construction and design including maintenance of traffic during construction and emergency access after construction.

- Make a strong recommendation to the City Council and MPO that the NCDOT and FHWA release any unneeded right-of-way at the completion of this project to the City of Asheville to be zoned and used in accordance with a land use plan to be developed by the City in cooperation with the NCDOT.

- Make a strong recommendation to the City Council and MPO that the NCDOT and FHWA keep the I-26 Connector project on its current or, preferably, an expedited schedule.

Section 3 - Potential Tradeoffs

We realize that the achievement of our design goals involves tradeoffs. While the accomplishment of some of them may reduce construction costs, the accomplishment of others may increase the overall cost of the project. Aesthetic improvements may carry their added costs. In order to produce a separation of Patton Avenue from I-240, there may need to be additional bridging of the French Broad River which carries with it some visual impact. New and improved traffic and air quality modeling, though providing a more accurate picture of transportation system needs, could slow key decisions about capacity and design speed.

In another areas, the selection of a lower design speed to minimize neighborhood impact may affect travel time. Fewer lanes may create challenges to planning for maintenance of traffic during construction. Shrinking the footprint of the highway could result in a more "engineered" highway in terms of landscaped medians and grade differentials between east and west travel lanes.

It is too early in the process to fully understand the costs and benefits of each alternative design for the project. We mention some possible costs we have considered in order to demonstrate our awareness of them, in order to enhance our capability for addressing them, but most of all, in order to express that, despite the potential tradeoffs, we as a community are united in support for achieving our set of project design goals.

Section 4 - Design Forum Background

In December 1999, the Asheville City Council, in response to active and continuing citizen involvement, requested City staff to formulate plans for a community design process related to the I-26 Connector Project that would allow extensive public input while keeping the project on schedule. A month later, the North Carolina Department of Transportation joined the City in this effort by agreeing to incorporate the idea of an I-26 Connector Design Forum into its public involvement program. It was seen as an opportunity to enhance community-wide input from Asheville area citizens to the design of the I-26 Connector. This, in turn, would expand on recent efforts to solicit neighborhood-based involvement.

In April 2000, the North Carolina Department of Transportation and the City of Asheville agreed to create a Community Coordinating Committee (CCC) to guide this public participation in the design process. In addition to planning the design process format, the composition of the CCC would help achieve community consensus in the identification and interpretation of key issues. Representatives from a broad base of community organizations as well as project stakeholders were chosen to comprise the CCC. The design process they selected took place in two stages.

During mid-June, an Education Forum was held to inform the public about project design issues. This was attended by over 300 people who listened to expert presentations and participated in project component breakout sessions.

In late July, an intensive two-day Design Forum was scheduled to draw from the public both general design concepts and specific design ideas. This Forum attracted between 500-600 community residents over the two-day period. It was staffed by representatives of the Federal Highway Administration, North Carolina Department of Transportation, City of Asheville, the

American Institute of Architects, and several independent consulting engineers and community mediators. Fred Craig, Vice President of Parsons Brinkerhoff's Ohio office, acted as overall Forum facilitator.

The overwhelming sense from participants was one of appreciation for the privilege of taking part in the process. Repeatedly stated was the fact that this highway project could either impose negative impacts or provide beneficial opportunities for the community. Continuing citizen input to defining design criteria was seen as central to maximizing project benefits while minimizing the costs. This report by the CCC contributes to its ongoing function - that of translating community concerns into specific goals which can be achieved through integration into ultimate project design.

Mayor Sitnick praised the Committee for their hard work in compiling this report.

Councilman Peterson said that this is a good example on how citizens can get involved with a project and make a difference.

Councilwoman Field agreed that this was an excellent process. She questioned the issue of who will pay for this, i.e. if Patton Avenue is turned back into a City street, the City takes over a lot of costs that the City doesn't have right now.

Mr. Bissette responded that there is no way to know what the costs are, or whether the project will be within budget. That is something that will need to be worked on as the process continues. He believes that the N.C. Dept. of Transportation wants this to be a success and they want to address as many of the goals as they can and they want to do it within their budget.

Mr. Mickie MaHaffey asked if there was an expected timetable from this point on. Mr. Bissette said that he hoped that the environmental impact statement would be released sometime next year.

In response to an additional question by Mr. MaHaffey, Mr. Newman said that they have asked the NC DOT to perform a new air quality model that will help us determine which of the different scenarios will minimize impacts to air quality.

Mr. Alan Basist spoke in support of bringing 12 acres into the business district in that it will enhance the tax base of Asheville and promote people to want to live in downtown Asheville

Councilwoman Field said that she had some wording issue concerns and felt that perhaps there were too many items on the list and it should be narrowed down to 3-4 top priorities.

Vice-Mayor Cloninger felt that since this report is what the collective community has come up with, that Council should support their recommendations.

Ms. Betty Lawrence spoke in support of the process to date. She felt the report shows the NC DOT that we are aware of the whole situation and that there will be things that the NC DOT will do and there will be things that the City wants to do in order to make the Plan reasonable. Just to look at what the NC DOT's responsibilities would be would leave them feeling as though we want them to fix everything for us.

Councilwoman Field said that she would not vote against this report because the process arriving at this was great. But, she wanted to note that she had concerns about some wording.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Mayor Sitnick moved for the adoption of Resolution No. 00-168. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 171

B. ORDINANCE AMENDING THE CURRENT TAXICAB ORDINANCE INCLUDING THE IMPLEMENTATION OF A NEW TAXICAB RATE SCHEDULE

Revenue Manager Deborah Crowder said that this is the consideration of a revision of the current taxicab ordinance including the implementation of a new rate table.

N.C. Gen. Stat. sec. 160A-304 allows a city to license and regulate all vehicles operated for hire in the city.

Staff has reviewed Sec. 18 of the City of Asheville Code which sets forth the provision for regulation of taxicab businesses and drivers and several minor changes have been made to bring the Code up-to-date. For example, the current language of the Code requires a vehicle to have seat belts and heaters. The revision changes the language to terms like standard safety devices, and also includes the provision for air conditioners. Other terminology changes are *medallion* to *insignia*, *Motor Transport* to *Fleet Management*, etc. The driver's renewal period has been changed from the December 31 and June 30 dates to allow expiration one year from the date of issue.

The taxicab rate schedule, formerly included in the City's Fees and Charges Manual, has been revised and moved to the Appendix of the City Code. The last rate change was approved in 1987. The schedule is removed from the Fees and Charges Manual because taxicab rates are not fees paid to the city. They are amounts paid, by the customer, to the business. The Fees and Charges Manual retains those amounts paid to the city, by the business or driver, that are associated with the regulation of taxicab businesses and drivers.

City staff recommends Council adopt the revised ordinance and rate schedule.

At the September 5, 2000, worksession, it was the consensus of City Council to raise the rates to $1.80/drop; $1.70 per mile; and $4.35/1.5 trip. In addition, the minimum total fare shall not be less than $3.00. In addition, it was the consensus of Council to raise the insurance requirement to $100,000/person; $300,000/accident; and $50,000/property.

City Attorney Oast passed out to Council some technical amendments to the taxicab ordinance which he would incorporate if Council concurred with the amendments. He said that state law does require that regulation of taxicabs be done by franchise. He said that in order to operate a taxicab business in the City, Council would be required to issue a franchise, which does require voting at two different meetings. Any amendments to that franchise, however, would just be a single vote.

Councilman Worley said that he received a call from Mr. Craig Justus, attorney for one of the taxicab companies, and he expressed the concern that the increase in insurance rates will cause an $1,100 per vehicle increase in the insurance rates and he was concerned as to whether or not the City staff took that into consideration in looking at the increase in rates.

Ms. Crowder said that Mr. Justus' concern was considered and the City's Risk Manager John Miall assisted them in arriving at the proposed insurance costs. Mr. Miall then responded as to why he agreed with the higher insurance rates.

Upon inquiry of Mayor Sitnick, Ms. Crowder reviewed with Council the insurance rates of cities they polled.

Discussion surrounded if the proposed rate increase would make up for the increased insurance coverage requirement.

Mr. David Crook said that he was struck by a taxicab over two years ago and is still disfigured and disabled. He noted that he still owes hospital bills and urged Council to go with the higher insurance requirements.

Mr. Craig Justus, representing one of the taxicab companies, said that he was told that at the public information meeting, the position of staff was to increase the rates, not to increase the insurance. He was told that the insurance increase was never presented to the taxicab owners. He said that the change in staff position came out of the comments from Mr. Crook made at the public information meeting and then staff started to research the issue. He said that it was then that staff came up with the insurance coverage increase and presented them to City Council at their 9-5-00 worksession. He said they strongly support the rate increase but feels that they have not had an opportunity to review the insurance increase.

After discussion, Vice-Mayor Cloninger moved to continue this matter until October 10, 2000, in order to give staff ample time to have another public input session to discuss the rate increase and insurance coverage increase requirement. This motion was seconded by Councilman Worley and carried unanimously.

C. RESOLUTION ESTABLISHING THE MINIMUM PRICE AND DIRECTING THE CITY CLERK TO ADVERTISE A REQUEST FOR PROPOSALS REGARDING THE DEVELOPMENT OF EAST END PLACE SUBDIVISION

This matter was pulled from the agenda to be re-scheduled on September 26, 2000.

At this time (7:15 p.m.) Councilwoman Bellamy left the meeting.

D. RESOLUTION NO. 00-169 - RESOLUTION APPROVING POLICIES AND PROCEDURES FOR THE CITY'S HOUSING TRUST

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a resolution approving policies and procedures for the Housing Trust Fund, and the request for proposals for Fiscal Year 2000-2001 projects.

On June 13, 2000, City Council approved an allocation of $400,000 in the Fiscal Year 2000-2001 City Budget to create a Housing Trust Fund. This report proposes:

1) General policies and procedures for the management and use of the Fund;

2) A request for proposals (RFP) for FY 2000/01 from developers of new housing for rent or for homeownership.

These documents have been developed by staff after discussion with stakeholders, including housing non-profits, real estate professionals, and developers, and have been approved by the Housing and Community Development Committee.

The key features are mainly as proposed to Council before the creation of the Trust Fund, and include:

- Creating a permanent fund to assist in developing and preserving affordable housing;
- Allowing a wide range of eligible uses in principle, with more specific targeting in each year's RFP;
- Project selection to support the Consolidated Plan and Smart Growth policies;
- Assistance in the form of loans, not grants, with flexible repayment terms;
- No Trust Funds to be used for administration, at least for the first year;
- General oversight and project selection by the Housing and Community Development Committee .

City staff recommends City Council approve the resolution adopting policies and procedures for the Housing Trust Fund and the types of projects to be the subject of a request for proposals this year.

At the September 5, 2000, worksession, City staff added sole proprietorships to the types of entities that will be eligible to apply for assistance from the Fund.

Councilman Hay noted Councilwoman Bellamy's disappointment that the structure of this allows the City to be an applicant for Housing Trust Fund monies. It is his understanding from Ms. Caplan that the City does not have any plans proposed, at least this round. He said there really may be opportunities to leverage this money, which is one of the objectives, and it may be that the City is the appropriate one to best leverage what we have. He would hate to foreclose that as a possibility in the future by eliminating that from our structure. We can do that on an ad hoc basis and if it seems inappropriate, then City Council does not have to approve it.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 00-169. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 173

VI. OTHER BUSINESS:

A. CLAIMS

The following claims were received by the City of Asheville during the period of August 18-25, 2000: George McCracken (Water), Eleanor Hall (Water), Eugene Hadden (Water) and Renee Falls (Water).

The following claims were received by the City during the period of August 26-31, 2000: Ten Thousand Villages (Water), Thomas Reek (Water), Agnes Bergstrom (Water), Robin Hempel (Water), John Ludovico (Water), Clarence Benton (Sanitation) and Steve Hudzik (Police).

The following claims were received by the City during the period of September 1-7, 2000: Ruth Smith (Streets) and Ronald Hess (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. ENFORCEMENT OF SIGN ORDINANCE

At the request of Councilwoman Field, it was the consensus of City Council to ask the City Attorney to review the recent legislation regarding when people can begin voting to see if our ordinance with regard to enforcement of political signs needs to be clarified.

B. COMMENTS BY MS. SHIRLEY DOZIER

Ms. Shirley Dozier read a prepared statement alleging, among other things, (1) trespass and inverse condemnation for their property at 52 Short Street; (2) illegal down zoning and split zoning of their single lot on Montford Avenue; and (3) harassment by City inspectors.

Mayor Sitnick suggested Ms. Dozier meet with the City Attorney to discuss her complex issues regarding the City.

City Attorney Oast said that he would be happy to meet with Mr. and Mrs. Dozier and has even suggested to them that if they feel like they have a legal claim, that is remedial by the City, that they take it through the proper administrative or judicial channels. City Attorney Oast also said that if the Dozier's have engaged an attorney, he would be glad to meet with them and discuss the legal issues involved.

C. MILLION FAMILY MARCH

Mr. James Muhammad, local Co-Chairman of the local organizing committee of the Million Family March Inc, to be held on October 16, 2000. He presented to City Council the Million Family March program and asked if the Mayor would be willing to endorse the Million Family March.

Mayor Sitnick suggested Mr. Muhammad call her office to discuss the request.

D. COMMENTS BY MICKIE MAHAFFEY

Mr. Mickie MaHaffey, representing Peacemakers, commented about the repeated incidents of police misconduct.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:55 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 19, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Haw Creek Park Restroom/Picnic Facility and Gazebo Bid Award and Budget Amendment to Appropriate Funds from Haw Creek Neighborhood Association

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Carolina Cornerstone Construction to design and implement a restroom/picnic facility and gazebo for Haw Creek Park and a budget amendment to appropriate an additional $15,000 to this project from the Haw Creek Neighborhood Association.

The City of Asheville is continuing its development of a passive park in the Haw Creek community. Initially the parking lot and paved trails were constructed within this 6-acre park. Funds were then secured from the City of Asheville Capital Improvement Budget, the Parks and Recreation Trust Fund Grant, and the Haw Creek Neighborhood Association to implement the last phase of the project which will include a restroom/picnic shelter, gazebo, playground area, woodland trail, landscaping and interpretative signage. The restroom/picnic shelter and gazebo were designed by Mathews and Associates who also developed the construction documents. These documents were bid out and five general contractors submitted bids. The lowest responsible bidder was Carolina Cornerstone Construction, which is a minority-owned company, in the amount of $116,750. The entire budget for this park construction was originally $244,000. Currently, a balance remains in the budget of $158,474.89.

In addition to the above request, a budget amendment needs to be approved to appropriate an additional $15,000 to this project from the Haw Creek Neighborhood Association. Originally, the Haw Creek Neighborhood Association agreed to secure $40,000 in funds towards this project. An appropriation of $25,000 for this commitment was allocated earlier. An additional $15,000 allocation will fulfill this Association's total commitment.

The Parks and Recreation Department recommends that the City Manager be authorized to enter into a contract with Carolina Cornerstone Construction for the construction of the Haw Creek Park restroom/picnic facility and gazebo. City Council approval is also recommended for the approval of the budget amendment in the amount of $15,000 for this project.

Upon inquiry of Vice-Mayor Cloninger, Parks and Recreation Director Irby Brinson said that this project should be completed near the end of December, 2000.

For Information Only – Bid Award for Grouting of Burnette Tunnel

Summary: This is a review of the Regional Water Authority's award of a service contract to Conway Enterprises of Mims, Florida, in the amount of $36,600.00, for injecting pressure grout to plug and stop water seepage through cracks in the concrete tunnel within the Burnette (North Fork) Dam.

The Burnette (North Fork) Dam, as well as the Bee Tree Dam, are carefully inspected annually by an expert structural engineer to insure the safety of these dams. In recent years, this engineer has been Applied Geosciences and Engineering, who has recently merged with and become a part of the firm Schnabel Engineering Associates, Inc. ("SEA"). The structural engineer has reported during recent annual inspections that there are very small seepage cracks in the concrete access tunnel of the Burnette Dam leaching very small volumes of water, but through laboratory analysis, have been free of sediment from within the earthen dam. The engineer had concluded that the dam is very safe but also recommended the seepage cracks be repaired as part of the upcoming Bee Tree Spillway project now scheduled to begin construction in April 2001. The project budget and design also did incorporate this work in the scope for the project.

During the structural evaluation performed by SEA in the spring of 2000, small traces of sediment were found in the samples of the seepage for the first time. The traces are extremely small and provide no immediate danger to the safety of the dam, but the engineer did recommend as a conservative precaution that the grouting work in the Burnette Tunnel be advanced as a separate project and conducted in the fall of 2000. Bid specifications and bidding to perform this work has been conducted since this recommendation was accepted by the Director of Water Resources. Specifications have also been approved by the State of North Carolina Land Quality Section.

SEA received three bids on August 30, 2000, and has evaluated all bids for compliance with the specifications and qualifications to perform the work. A summary of the bids received are as follows:

Conway Enterprises, Mims, Florida	$36,600.00
Edwin Bradley Construction, Paris, Kentucky	39,500.00
Kcompany, Campbellsville, Kentucky	51,600.00

The Regional Water Authority will consider the award of a service contract to Conway Enterprises of Mims, Florida, in the amount of $36,600, for grouting in the Burnette Tunnel and authorize the Chairman to execute change orders to the contract if needed within the authorized budget for the project. Water Resources Director, Tom Frederick will give an update from the Water Authority Meeting.

Staff recommends that the City Council review this report for information purposes.

For Information Only – Contract with Schnabel Engineering for Grouting of Burnette Tunnel

Summary: This is a review of the Regional Water Authority's execution of Task Order No. 4, which serves as an amendment to their engineering services agreement with Schnabel Engineering Associates, in an amount not to exceed $15,000, for construction administration and inspection services in the grouting of seepage cracks in the Burnette Tunnel.

There is a need for the grouting of seepage cracks in the Burnette Dam Tunnel as part of a recommendation to award a service contract. This report addresses an amendment to the engineer's contract for the engineering services to administer the grouting Work and provide adequate quality control and inspection.

Construction administration for the grouting in the Burnette Dam Tunnel is not included in the present contract with Schnabel Engineering but is a very important part of insuring the work is done properly. Construction administration includes defining the exact locations where grouting will be performed, and monitoring the construction techniques and performance of the work. The engineer will provide independent written reports to the owner on the work for the record and will determine when the work is achieved satisfactory for payment.

Staff recommends that the City Council review this report for information purposes.

Budget Amendment (35 Fund) to Provide Funding for Burnette Tunnel Grouting and Pisgah Highway Phase II

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to provide future funding for the NC 151 (Pisgah Highway) Phase II NCDOT Project and to provide funding for grouting of the Burnette Dam Intake Tunnel.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

The NC 151 Phase II NCDOT Non-Betterment Relocation Project in the amount of $633,600 is expected to be complete in Fiscal Year 2002/2003 and will be funded with future funds from a Fiscal Year 2002/2003 Revenue Bond Issue. This project will consist of relocating water lines in the right of way along NC 151 from SR 1110 (Warren Creek Road) at South Hominy to SR 1117 (Fowler Mountain Road). In addition to this NCDOT project, the Fiscal Year 2002 /2003 Revenue Bond Issue will fund several other NCDOT projects, Water Treatment Plant Improvements, Master Plan Improvements, and Annexation Projects.

At this time, it is necessary for the Authority to approve future funding for the NC 151 Phase II NCDOT Project so that a Utility Agreement between the City of Asheville and NCDOT can be signed. This agreement ensures that the utility work to be performed by NCDOT's contractor is fully reimbursed by the Authority.

Funding of $60,500 is also needed for grouting of the Burnette Dam Intake Tunnel. This work was scheduled for Fiscal Year 2001/2002 as part of the Dam Safety Improvements Projects and was to be funded with a Fiscal Year 2001//2002 Revenue Bond Issue. As a result of a recent annual dam safety inspection, this project has been changed to a more urgent status. A sample of the water in the intake tunnel showed that sediment was just beginning to seep through the cracks in the tunnel walls. Although there is no current danger, the structural engineer has recommended that the grouting of the tunnel be done this fall as an extra precaution. Funding is available from the Dam Renovations Project and from remaining balances in the North Conference Room Project and the Fiscal Year 1998/1999 Distribution System Improvements.

The following changes are recommended in the 35 Fund:

Revenues	Current	Recommended
Contributions From Other Funds - Future	$2,805,298	$3,438,898

Appropriations	Current	Recommended
North Conference Room	$22,106	$3,000
FY 98/99 Distribution System Impr.	$85,000	$83,863
Dam Renovations (Dam Safety)	$440,413	$460,656
Future NCDOT Water Projects	$2,805,298	$3,438,898

The Regional Water Authority will consider the approval of an amendment to Capital Project Ordinance 82-25 at the September 19, 2000, meeting. The Director of Water Resources Tom Frederick will give an update from the Water Authority Meeting.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 82-25 (35 Fund) to reflect an increase in the Future NCDOT Water Projects with the Department of Transportation to include the NC 151 Phase II Water Line Relocation Project and to provide funding for emergency grouting to the Burnette Dam Intake Tunnel by reprogramming funds from the North Conference Room and 1998/99 Distribution System Improvements.

Budget Amendment (29 Fund) to Appropriate $12 Million for 2001 Revenue Bond Sale

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to reflect the sale of revenue bonds in the amount of $12 million in approximately February 2001.

By Resolution 92-17 dated May 19, 1992, the Regional Water Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds. Staff recommends the following changes to the capital project ordinance:

Revenues:	
Sale of 2001 Revenue Bonds	$12,000,000
	$12,000,000
Appropriations:	
Bee Tree Spillway	$5,500,000
NCDOT Non-Betterment	2,874,000
NCDOT Betterment	291,000
Building Safety Improvements	1,000,000
Critical Needs Improvements	1,755,000
Master Plan Improvements	275,000
Bond Administration	200,000
Annexation	105,000
	$12,000,000

Another revenue bond issue totaling approximately $10,000,000 is scheduled in our five-year plan for the Fall of 2002 but does not need to be appropriated now.

The Regional Water Authority will consider the approval of an amendment to Capital Project Ordinance 92-17 at the September 19, 2000, meeting. The Director of Water Resources Tom Frederick will give an update from the Water Authority meeting.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 92-17 to establish funding for the $12 million revenue bond issue scheduled for February 2001.

Speed Limit Changes

Summary: The consideration of an ordinance to reduce speed limits on several city streets.

The streets listed below have been identified for speed concerns by residents, City boards and commissions, City Council, the Asheville Police Department, Traffic Engineering staff, or other City staff. The Traffic Engineering staff has conducted field reviews of street geometry and conditions and/or speed studies. Many of these streets which exhibit the worst speeding problems are also being evaluated and prioritized for the installation of traffic calming measures per the Neighborhood Traffic Calming Policy. Determination of the appropriate speed limits for streets is one of the steps outlined in the Policy. The Police Department concurs with these recommendations.

15 Miles Per Hour

The following street is a local residential street which has a combination of street geometry features which warrants speed limits significantly slower than the typical speed limit for local residential streets of 25 mph. These features may include narrow widths, frequent on-street parking, poor sight distance, lack of sidewalks, steep grades, or horizontal or vertical curves. The recommended safe operating speed on this street is 15 mph:

Orchard Road

20 Miles Per Hour

The following streets are local residential streets which have a combination of street geometry features which warrants speed limits slower than the typical speed limit for local residential streets of 25 mph. These features may include narrow widths, frequent on-street parking, poor sight distance, lack of sidewalks, steep grades, or horizontal or vertical curves. The recommended safe operating speed on these streets is 20 mph. These streets include streets in two subdivisions in which the City recently took over maintenance of streets; Hills of Beaverdam and Hawthorne Village:

Clairmont Avenue
Colonial Place
Crescent Lane
Dallas Street
Deaver Street
Dellwood Street
Dorchester Avenue, between Florida Avenue and Burton Street
Elderberry Lane
Foxglove Court
George Washington Carver Street
Hedgerose Court
Houston Street
Larkspur Court
Marne Road
Morning Glory Drive
Nebraska Avenue
Nevada Avenue
Skyview Circle
Skyview Drive
St Dunstans Circle
Sunset Walk
Tacoma Circle
Trillium Court
Vandalia Avenue
Wayside Drive

Windflower Court
Windflower Way

25 Miles Per Hour

Most of the following streets are typical local residential streets without street geometry problems. The appropriate speed limit for typical local residential speeds is 25 mph. A few of these streets are residential collector streets which have a combination of street geometry features which warrants speed limits slower than the typical speed limit for residential collector streets of 30 mph. The recommended safe operating speed on these streets is 25 mph:

Albemarle Road
Arlington Street
Baird Street
Bear Creek Road, between Patton Avenue and Sand Hill Road
Beechwood Road
Birchwood Place
Blake Drive
Blanton Street
Brooklyn Road, between Taft Street and Wyatt Street
Burnside Drive
Caribou Road, between Hendersonville Road and West Chapel Road
Charlotte Street, between Evelyn Place and Woodlink Road
Chicory Lane
Clayton Avenue
Clement Drive
Coleman Avenue
Columbine Road
Courtland Avenue, between Montford Avenue and Courtland Place
Culvern Street
Dailey Drive
Dorchester Avenue, between Haywood Road and Florida Avenue
Edgewood Road (East)
Fairfax Avenue
Fairview Avenue
Fairview Road, between US 74 and Broadview Drive,
Forest Hill Drive
Furman Avenue
Glencliff Road
Gracelyn Road
Grandview Road
Grove Street
Hansel Avenue
Heathbrook Circle
Hibernia Street
Hillside Street
Hudson Street
Jeffress Avenue
Lanvale Avenue
Linden Avenue
Looking Glass Lane, between Wagon Road and Pleasant Ridge Road
Looking Glass Lane, between Browndale Road and Wagon Road
Marlborough Drive
Mayfair Drive

Merchant Street
Morgan Avenue
Mount Clare Avenue
North Street
Oakland Avenue
Olney Street
Overbrook Road
Pearson Drive
Pleasant Ridge Road
Prichard Road
Raleigh Road
Riverview Drive
Robindale Avenue
School Road (Malvern Hills)
Selwyn Road
Shannon Drive
Shiloh Road
Skyview Terrace
Starnes Avenue
Stockwood Road
Stockwood Road Extension
Tacoma Street
Taft Street
Virginia Avenue
Wagon Road
Warwick Road
Wellington Street
Wendover Road
Westwood Place, between Millbrook Road and Hazel Mill Road
Woodvine Road

30 Miles Per Hour

The following streets are typical residential collector streets without significant street geometry problems. The recommended safe operating speed on typical residential collector streets is 30 mph:

Beverly Road (West)
Caribou Road, between West Chapel Road and I-40
Kenilworth Road
Pinchot Drive
Racquet Club Road

The Engineering Department requests that City Council approve the ordinance amending these speed limit changes.

Upon inquiry of Councilman Hay, Traffic Engineer Michael Moule explained how speed limits are set. He explained that the changes will not be in effect until the signs are posted. The most pressing streets will be posted within 2-3 weeks, with the remaining streets being posted as quickly as possible.

It was the consensus of City Council to have future staff reports note what the current speed limit is and what the proposed speed limit will be.

Councilwoman Bellamy asked Mr. Moule to check whether the proper street name is Taft Avenue or Taft Street.

Truck Traffic Prohibited on Residential Streets

Summary: The consideration of an ordinance to prohibit through truck traffic on additional residential streets.

The Traffic Engineering staff has conducted field reviews and collected data on the streets listed below. These streets are residential streets that are not appropriate for truck traffic. Alternative roadways exist that are more appropriate for truck traffic.

Avon Road
Balm Grove Avenue
Barnard Avenue
Columbine Road
Dailey Drive
Dorchester Avenue
Edgewood Road (North)
Florida Avenue
Morgan Avenue
Pinchoit Drive
Woodvine Road

The Engineering Department requests that City Council approve the ordinance prohibiting trucks on various residential streets.

Creation of School Zone Speed Limit on Clinton Avenue

Summary: The consideration of an ordinance to create an additional school zone on Clinton Avenue.

The Traffic Engineering staff has performed the necessary traffic analysis and field review to determine locations for this school zone. The following street has been identified as needing a school zone during the times when students typically go to and leave school:

Clinton Avenue – 20 mph between 7:00 a.m. and 9:00 a.m. and between 2:00 p.m. and 4:00 p.m. on school days, between Sulphur Springs Road and Dunn Street.

The Engineering Department requests that City Council approve the ordinance including Clinton Avenue as a school zone addition.

New Street Name of "Faculty Drive"

Summary: The consideration of a resolution accepting the new proposed street name "Faculty Drive."

Asheville School, Inc., owners of lots off of Asheville School Road, has petitioned the City of Asheville to accept the street name "Faculty Drive." The new street will begin at Asheville School Road and end at the dead end.

City staff recommends adoption of the resolution.

389

New Street Name of "Science of Mind Way"

Summary: The consideration of a resolution accepting the new proposed street name "Science of Mind Way."

Center for Creative Living, owners of lots off of Sandhill Road, has petitioned the City of Asheville to accept the street name "Science of Mind Way." The new street will begin at Sand Hill Road and end at the dead end.

City staff recommends adoption of the resolution.

Maintenance of the Wall Street Parking Deck

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with R.C.I. Painting Contractors for maintenance of the Wall Street Parking Garage.

The Wall Street Parking Garage is seriously in need of periodic cleaning and repainting of the exterior and interior walls and removal of rust and repainting of all metal surfaces. During Fiscal Year 1999-2000, City staff sought estimates from contractors to perform the needed maintenance; however, the estimated cost was well beyond the funding available for the project. As a result, initiation of the project was delayed until the current Fiscal Year when additional funds were made available.

Bids for the project were sought and three responses were received (two bids and one "no bid"). The low bid of $35,500 was submitted by R.C.I. Painting Contractors. Their bid includes: pressure washing all exterior and interior walls; hand scraping to remove flaking paint; application of primer and two coats of paint to all walls; sanding, priming and painting all metal rails, window guards and doors. The work is warranted for twelve years. With contract award at this time, we anticipate that the painting work will be completed prior to onset of cold weather which would require postponement until next spring.

In addition to this painting project, as a separate but related initiative, staff has received proposals and will be awarding a contract for new awnings and any necessary repair of the awning supports at the Wall Street Parking Garage. This contract award will be made by the City Manager.

Council adopt the resolution which authorizes the City Manager to execute a contract with R.C.I. Painting Contractors.

Budget Amendment for Fair Housing Assistance Program

Summary: The consideration of a budget amendment to create a budget of $45,400 for the Fair Housing Assistance Program (FHAP) for Fiscal Year 1999/2000.

The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988, using HUD FHAP funds. The City's Community Development Division serves as Lead Entity and monitors the program.

On August 29, 2000, the City received notification of the grant awarded to the City for the current federal Fiscal Year 10/1/99-9/30/00. This notification required the City to draw down the funds no later than September 15, 2000. City staff has submitted the necessary paperwork to HUD to avoid losing these funds.

Community Development staff recommends adoption of the budget amendment to create a budget for the Fair Housing Assistance Program (FHAP) for Fiscal Year 1999/2000.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

RESOLUTION NO. 00-170 – RESOLUTION ACCEPTING THE N.C. DEPARTMENT OF TRANSPORTATION LETTER REGARDING A PASSENGER STATION LOCATION STUDY

Vice-Mayor Cloninger said that this is the consideration of a resolution authorizing City Council acceptance of a letter from the N. C. Department of Transportation, Rail Division (NCDOTRD), outlining the framework for the site selection study phase necessary for developing a passenger train station in Asheville.

Economic Development Director Mac Williams said that there are nine stops along the proposed Salisbury to Asheville passenger train route. Each stop will need a depot. All but one of the stops already has an existing depot or other suitable existing structure. (The one stop without a structure is in Valdese where an open site has been identified). All will need some level of improvements to accommodate passenger rail service. The General Assembly has mandated NCDOTRD to conduct a feasibility study examining all aspects for the proposed service including costs associated with developing/improving each of the depots. Currently, Asheville does not have a specific site determined for the depot location. Consequently, we have an extra step to take to identify the site before work can begin on the evaluation of the potential cost for the depot structure itself. NCDOTRD and Norfolk-Southern have proposed five sites for initial consideration—three existing structures and two open sites. NCDOTRD, and their consultant, with input from the Local Passenger Train Station Task Force recently approved by Council, will conduct the study to determine the ultimate site location.

Mr. Williams reviewed with Council the following five sites: (1) Historic Biltmore Station at 30 Lodge Street; (2) Biltmore Village site (Slosman property); (3) Historic Southern Railway Depot; (4) site located to the west of the Historic Southern Railway Depot; and (5) former site of the original passenger rail depot located on Depot Street.

Mr. David Bender, Transportation Planner with the NCDOTRD, said that since the deadline for the completion of the WNC Study is set for March 2, 2001, the NCDOTRD has opted to pursue an alternative to the standard Municipal Agreement procedure for the development of the much-anticipated Asheville Station Site Selection Study. Rather than having the City of Asheville go through the open bid procedure, the NCDOTRD has elected to utilize an internal open engineering contract via an existing Limited Service Agreement with the consulting firm, Gannett-Fleming of Charlotte to conduct the study. This open engineering contract agreement will allow the contractor (Gannett-Fleming) to immediately commence work on the site selection study for Asheville. This process is anticipated to accelerate the start of the study by two or more months ensuring a final product by the March 21, 2001, deadline. This agreement will also eliminate the 10% matching cost normally required of the municipality.

Mr. Bender said that although the NCDOTRD is taking a lead role in the management of the site selection study, it is imperative that the consultant work closely with the Asheville Site Selection Task Force, property owners of the study sites, surrounding property owners, Norfolk-Southern and all other stakeholders impacted by this study.

Mr. Bender answered various questions and comments from Council, some being, but are not limited to: if the site selected is on Depot Street, will there be a stop in Biltmore Village; what types of issues will be included in the feasibility study; will there be opportunities for public input; and what is the timeline for this study.

City staff recommends City Council accept the N. C. Department of Transportation, Rail Division, letter describing the framework for the site selection study phase necessary for developing a passenger train station in Asheville.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Cloninger moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilwoman Bellamy and carried unanimously.

Vice-Mayor Cloninger moved to adopt Resolution No. 00-170. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 174

UDO AMENDMENT REVIEW

City Attorney Oast said that this Unified Development Ordinance amendment is being brought before City Council in order that staff may respond to questions Council may have prior to the public hearing, which is scheduled on September 26, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Method of Calculating Front Setback

Chief Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to change the method of calculating the front building setback line.

On September 6, 2000, the Planning and Zoning Commission voted unanimously to recommend approval of this wording amendment. Staff initiated this wording amendment to change an administrative procedure in the Unified Development Ordinance (UDO) to make it more consistent with the City's Smart Growth Policies.

Front setbacks are currently measured from the street right-of-way line. In some cases, this method of calculating the setback pushes buildings back from the street by as much as 50 to 75 feet. In turn, these setback rules essentially mandate that the parking is located in front of buildings in these cases. This result is in direct conflict with the principles of smart growth and walkable communities. These principles say that buildings should be located next to the street to hide parking, promote pedestrian activity, and create a more interesting streetscape. The following amendment to the ordinance will change the way we measure the front setback and the street side setback to allow buildings to be built closer to the street. This change will only be applied in cases where the street is at least four or five lanes wide, and where additional street widening is not anticipated. In these cases, we will measure the front setback from the edge of the travel lane rather than the right-of-way line.

Planning staff recommends inserting the following text (in bold) in Section 7-10-2(b) of the UDO:

(b) Method of calculation

1) Minimum setback. Minimum setback is the space defined by measuring perpendicularly from and along the entire boundary of the lot (property line) to the building line, ~~except~~ Front setbacks shall be measured from the street right-of-way line, **except, on streets**

greater than 45 feet in travel lane width, the setback shall be measured from the edge of the travel lane. The accompanying corner lot, street side setback shall also be measured from the edge of the travel lane. In no case shall the minimum setback be closer to the street than the right-of-way line. A setback may be the front, rear, or side setback. For illustrations of the location of front, rear, or side setbacks, see Figure 10-1. Except as set forth for through lots in subsection 7-10-2(d) below, there shall be one (1) front setback area which is determined at the time of site plan approval or zoning permit issuance.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearing on September 26, 2000.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FESTIVALS AND SPECIAL EVENTS

Parks and Recreation Director Irby Brinson said that City Council requested that Parks and Recreation staff develop a report on Festivals and Special Events either sponsored or co-sponsored by the City of Asheville.

Mr. Brinson reviewed the report on Festivals and Special Events produced, co-sponsored or approved through the Parks and Recreation Department. The information provided gives an outline of the Festival Division, current staffing and revenue generated along with a description along with sponsored, co-sponsored and independent events that occur within the City. The information in the report includes direct costs associated with these events with detailed information provided on other departmental costs. The time frame used to determine this annual breakdown includes events that were scheduled from January 1, 2000, through August 15, 2000. Events shown after August 15 include events from 1999 records since these events have not occurred this year.

The City of Asheville, through its Parks & Recreation Department, provides various festivals and special events in the Asheville area. The purpose of providing festivals and special events is to highlight cultural diversity, enhance community pride, foster tourism and contribute to the long-term economic benefit of the Asheville area. It has been estimated that the combined economic impact of festivals and special events in the Asheville area is approximately $22 million.

Like most cities, Asheville constantly reviews its services to ensure that resources are allocated in the most efficient manner possible. During a worksession on the FY 2000-2001 budget, City Council asked staff to determine the City's cost for providing festivals and special events. This report describes the types of festivals and special events held in Asheville and identifies the cost to the City.

Festivals in Asheville attract over 530,000 attendees each year and have become a significant part of Asheville's quality of life. The economic impact of these events is estimated at approximately $22 million. The City incurs a net cost of approximately $375,000 per year to provide festivals and special events, $150,000 of which is attributable directly to the City's Festival and Special Events Division.

There are three types of festivals and special events held in the City of Asheville. They include City Festivals, Co-Sponsored Festivals, and Independent Festivals. The following is a brief description of each type of festival.

City Festivals and Special Events

City festivals are major special events that are planned, organized and produced by the City of Asheville. The City assumes sole financial and fund raising responsibility for these events. The City produces three major festivals per year. They include *Bele Chere, First Night, and the Fourth of July Celebration.* Bele Chere is the largest summer street festival in the Southeast. It attracts approximately 350,000 people per year and has an estimated economic impact to the Asheville area of $12 million. First Night is Asheville's premier, non-alcoholic New Year's Eve party, focusing on family entertainment and events. The Fourth of July Celebration is a small summer festival that celebrates Independence Day with music, games, food and fireworks.

The City's responsibility for City festivals requires a significant investment of staff time and resources. City festivals are produced by the City's Festival and Special Events Division, which is housed in the Asheville Parks & Recreation Department. The Festival and Special Events Division has a year-round staff of six full-time employees and one part-time employee. In addition, a full-time secretary in the Parks & Recreation Administrative Division provides direct clerical support to Festival and Special Events Division staff. (The secretary was originally assigned to the Festival and Special Events Division but was recently transferred to Parks Administration). A staffing profile of employees responsible for festival production is provided below:

Festival and Special Events Division Staffing

Positions	FTE
Festivals Coordinator	1.00
Sponsorship Coordinator	1.00
Events Specialists	4.00
Part-time Events Specialist	0.75
Total	6.75

The City incurs the following types of expenses to produce a city festival:

- Salaries for full-time and part-time Festival and Special Events Division employees;
- Salaries for full-time secretary in Parks Administration;
- Cost of providing entertainment (i.e., musicians, performers);
- Special event costs (i.e., games, contests, etc.);
- Set up and logistics costs;
- Decoration expenses;
- Purchase of goods for resale (i.e., souvenirs, beverages, etc.);
- Overtime pay for police and fire protection;
- Overtime expenses for sanitation and street maintenance clean-up.

The City attempts to recover festival production expenses from the following revenue sources: Corporate Sponsorships; Beverage Sales; Vendor licensing/rental fees; Souvenir sales; and Event fees/Other.

Co-Sponsored Festivals and Special Events

Co-Sponsored festivals are produced by private or non-profit organizations. These organizations, not the City, assume full financial and fund raising responsibility for producing the festival. The City, however, supports the event by providing in-kind City services (i.e. police protection, sanitation clean-up, etc.) in exchange for recognition as a sponsor in all festival publicity.

To receive in-kind services, a private event producer requests approval for co-sponsorship from the City by submitting a formal application to the Parks & Recreation Department. Parks and Recreation staff reviews each application and prepares a list of recommended co-sponsored festivals for City Council action. As required by City policy, Council must approve the list of recommended festivals on an annual basis before co-sponsorships are granted. Examples of co-sponsored festivals include the *Goombay Festival, Asheville Greek Festival, Downtown After Five, Asheville Merchants Christmas Parade, and Shindig on the Green.*

Because Parks & Recreation staff is not involved in direct production of co-sponsored festivals, minimal staff support is required from Festival and Special Events Division employees. Some level of support, however, is required. The part-time Events Specialist, for instance, is responsible for coordinating the co-sponsorship application process, as well as working with other City departments to ensure that all approved in-kind City services are provided.

The City incurs the following types of expenses for co-sponsored festivals or events. These expenses are not recovered with offsetting revenues: Staff time of Part-Time Events Specialist; Overtime pay for police and fire protection; Overtime pay for sanitation and street maintenance services; Use of City equipment including tents, tables, chairs, etc; and Use of Parks Maintenance staff: delivery, set-up and tear-down of equipment.

Independent Festivals and Special Events

Independent festivals are typically small, neighborhood functions that are produced by private groups or individuals for which the City provides no financial or in-kind support. Independent event producers are charged at a full cost recovery rate for any services requested from the City. For example, if Police support is requested, the City provides off-duty police officers, charging the appropriate hourly rate. The City may, however, incur a minimal cost for independent events, as it is sometimes necessary for the part-time Event Specialist to help independent festival producers obtain necessary city permits.

The purpose of this report is to give City Council an update of our current practices in regard to the way Festivals and Special Events are coordinated within the City. No formal action is required.

There was considerable discussion about in-direct costs associated with festivals.

Mayor Sitnick stated that she wanted to make sure that the City doesn't lose any festivals, but suggested possibly putting a cap on festival events. She also suggested that if the City is fully co-sponsoring an event, that possibly in the following year the City could reduce their co-sponsorship. However, if the event could not happen without the City's co-sponsorship, then that would be something that City Council would need to consider. She wondered if there could be more co-sponsorship from outside City government for some festivals.

Mr. Brinson noted that requests for co-sponsorship has doubled in the past year.

Councilman Hay felt it might be useful to the Parks and Recreation Department for City Council to set some perimeters or guidelines on co-sponsorship.

Councilwoman Bellamy stated that to put a cap on or limit co-sponsorship on some festivals, in particular Goombay or the Greek Festival, would cause a hardship on the festival event. These particular festivals celebrate diversity.

Councilman Worley was concerned about the City losing site of the big picture, which is brining in millions of dollars in economic impact.

Councilwoman Field favored spending money on festivals, which benefit a lot of people, than to fund some outside agencies, which serve only a limited group. She felt festivals are very beneficial to the quality of life.

Mr. Brinson stated that in January (as in past years), he would provide to City Council a list of proposed sponsorship and co-sponsorship festivals for their approval, along with criteria used to determine co-sponsorship.

LOCAL AREA SUPPLEMENT FOR THE DRAFT 2002-2008 STATE TRANSPORTATION IMPROVEMENT PROGRAM

Transportation Planner Ron Fuller said that this is the review and consideration of comments to the 2002-2008 Draft Transportation Improvement Program during the public comment period.

The Transportation Improvement Program (TIP) is the statewide document the North Carolina Department of Transportation uses to identify, schedule and fund improvements to, primarily, state facilities. It is currently out for a 30 day review period by the public. The Transportation Advisory Committee will then meet on September 28, 2000, for a public hearing to gather comments and concerns from the public. The Transportation Advisory Committee welcomes input from the City of Asheville concerning any projects listed. Comments are also welcome for projects that may not be currently identified on the TIP.

He presented the recommendations from staff concerning the major projects in the TIP and highlighted ten individual projects. All recommendations are as follows:

I-4400 – This is a funded project that was requested by Henderson County in Division 14. It involves the widening of I-26 from 4 lanes to 6 lanes. A very small portion of I-26 touches Buncombe County south of NC 280.

I-4401 – This project would add additional lanes on I-40 from the I-26/I-240/I-40 interchange to US 19/23 (Smoky Park Highway) at Exit 44. This is a segment of interstate that routinely experiences congestion. Staff is in agreement that additional lanes would be beneficial.

R-4406 – This project in part in Haywood County and part in Buncombe County. It is outside the official MPO jurisdiction. It is a well traveled segment of highway which serves as an alternate route to I-40. The road likely needs additional lanes, however it is questionable as to the need for five lanes, if that is the recommended alignment.

R-2813 – This project involves the widening of Long Shoals Road from I-26 to US 25. Staff recommends this as a "Gateway Corridor". This would include a landscaped median, sidewalks on both sides of the roadway and bike lanes. It was the consensus of City Council to have the

City Manager send a letter of support for the "Gateway Corridor" concept with sidewalks on both sides of the street and a landscaped median.

U-4005 – This project is part of the upgrade to US 19/23 (future I-26) from I-240 to the Buncombe/Madison County line. It addresses the immediate safety concerns of installation of guardrails in the median. Staff agrees that this is a warranted project.

U-619 – This project has been on the TIP for a number of years. It remains listed as an Unfunded Project. Although the TIP indicates a four-lane alignment, staff would recommend no more than three-lanes. It was the consensus of City Council that this project be 3-lanes and that the NC DOT fund this project with streetscaping.

U-2801 – This project is the widening of Sweeten Creek from I-40 south to Rock Hill Road. This portion is slated to be let for ROW on September 19. It is currently designed as a five-lane facility with a sidewalk on the east side. Due to very tight ROW restrictions, the railroad and a creek, we were unable to get the "Gateway Corridor" concept included as part of this project. The next section, from Rock Hill Road to US 25 is not slated for construction until after 2008. Staff would recommend a request to expedite this portion of the project if at all possible.

U-3403 – This project includes the widening of Brevard Road from Sardis Road to the Blue Ridge Parkway. With the exception of a few hundred feet at the southern end of the project, which will have a landscaped median, the remainder of the project will be a five-lane facility with no sidewalks. NCDOT rationale for the lack of a consistent landscaped median were: tight ROW, numerous businesses and intersections with local roads. The lack of sidewalks was attributed to the fact that the section of roadway lies completely outside the city limits and therefore, no one to participate in construction or maintenance of the sidewalk. Staff recommends a request to NCDOT to ensure that at least a 10 foot strip of land be reserved for future sidewalks.

U-3404 – This project involves the widening of Biltmore in the hospital area to make the existing lanes wider. It was recommended that this project be removed from the TIP. Staff continues to support its removal.

U-4013 – This project involves improvements to Merrimon Avenue from Beaverdam Road to I-240. The feasibility study that was recently done indicated a five-lane scenario, a three lane scenario and a "no build" scenario. The draft TIP appears to be listing the worst case scenario with a 36 million dollar cost estimate. This was the five-lane estimate. It is currently listed as an unfunded project. Staff strongly recommends that Council request NCDOT not consider a five-lane option, rather give strong consideration to the three-lane option. It was the consensus of City Council that this project be 3 lanes and that the NC DOT fund this project.

U-4014 – This project includes the upgrades to the McDowell Street tunnel as requested by Council a few years ago. It is currently listed as an unfunded project.

B-2515 – This project is to replace the bridge over the Swannanoa on Biltmore Avenue. The City has been working with NCDOT to have a "temporary" bridge constructed east of the current bridge (near Decatur Street) that could handle the construction traffic and then left in place to serve as an additional access across the Swannanoa. Staff continues to recommend in favor of this concept.

FS-0113A – This is a feasibility study to look at adding additional lanes to I-26 from Henderson County to I-240. As this is a feasibility study, staff would recommend its completion.

FS-0013B – This is a continuation of a feasibility study to look at adding a new interchange at Dogwood Road west of Asheville.

FS-0113B - This is a feasibility study to look at adding additional lanes to US 19/23 (future I-26) from the Buncombe/Madison County line to I-240. As this is a feasibility study, staff would recommend its completion.

FS-9913A – This is a feasibility study in progress to look at adding a new interchange on I-40 at Meadow Road. Currently, Biltmore Estate has expressed concern over this request and are not supportive of the idea. Staff would defer, awaiting the outcome of the feasibility study, before making a recommendation.

E-4017 – This the addition of the W.T.Weaver Greenway project.

E-4406 – This is scheduled for a feasibility study to look at providing a greenway connection near Recreation Park.

FS-0113C – This project is a request from UNC-A to ask NCDOT to assist in the construction of and improvements to the internal street network for the campus.

FS-9913D – This is a feasibility study in progress to look at improvements to Amboy Road from I-240 to the river (including a new bridge).

As Mr. Fuller highlighted the projects, City Council made various comments and suggestions throughout the report.

City staff would also recommend to NCDOT the addition of a Traffic Signal Feasibility Study. This is a joint effort by NCDOT and the City to address the signal needs throughout the City.

City staff requests City Council review the TIP along with staff's recommendations and formulate recommendations to be sent to the Technical Coordinating Committee and the Transportation Advisory Committee.

Councilwoman Field suggested asked that the Bicycle Task Force continue to consider the possibilities of outline lanes or bike lanes and to work with the Public Works Department to stripe and maintain the areas.

It was the consensus of City Council to instruct a letter be sent to the Technical Coordinating Committee and the Transportation Advisory Committee outlining the recommendations stipulated by City Council at this meeting.

RESOLUTION NO. 00-171 – RESOLUTION URGING SUPPORT OF THE SANTORUM-LIEBERMAN BILL TO INCREASE THE PER CAPITA LIMIT ON LOW INCOME HOUSING TAX CREDITS

Community Development Director Charlotte Caplan said that this is the consideration of a resolution urging Senators Helms and Edwards to support a bill that would increase the funds available for Low Income Housing Tax Credits (LIHTC).

During the next few days, the US Senate Finance Committee is expected to take action on the Santorum-Lieberman New Markets – Community Renewal Bill (S2779). This bill authorizes an immediate (Fiscal Year 2001) increase in the per capita limit for LIHTC from $1.25 to $1.75.

LIHTC is now the primary federal funding mechanism for affordable rental housing. It provides tax credits for investors in projects that provide quality rental housing to families below 60% of area median income. Developers, even non-profit developers, can access the equity generated by selling the tax credits for an approved project and can realize as much as 50% of the cost of development from this source. This translates into lower borrowing costs and lower rents.

Tax credits are distributed through state housing finance agencies and have been capped at their current level since 1986. In North Carolina, out of 110 applications in the latest round only 33 were funded. Developers in our area (Asheville/Buncombe County) have been successful in four out of the last five applications made, with River Glen Apartments in 1997, Wind Ridge in 1999, and Dunbar Place and Crowell Square in 2000.

The proposed 40% increase in the per capita limit would provide about 1050 additional affordable housing units statewide each year.

Ms. Caplan asked for City Council approval at this meeting in order to convey Council's views to Senators Helms and Edwards before Senate action on the Bill.

At Ms. Caplan's request, it was the consensus of City Council to have a resolution in support of increasing the level of HOME and CDBG funding at the next formal Council meeting.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilman Worley and carried unanimously.

Vice-Mayor Cloninger moved to adopt Resolution No. 00-171. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 175

EAST END PLACE SUBDIVISION

Councilman Peterson asked if it would be too late to bring a different plan before City Council with regard to development of the East End Place Subdivision. City Attorney Oast said that since City Council has continued this issue to the September 26, 2000, City Council meeting for action, Council should be careful on what kind of action they may take to dispose of this before it comes back at the scheduled meeting date.

Councilwoman Bellamy noted that she will be attending a meeting with the neighborhood with regard to this issue later in the evening and would report back to City Council at their September 26, 2000, meeting.

INTRODUCTION OF BOND ORDERS AND RESOLUTION ESTABLISHING PUBLIC HEARING ON TWO-THIRDS BONDS

Finance Director Bill Schaefer said that this is the introduction of Bond Orders Authorizing the Issuance of $1,300,000 Sanitary Sewer Bonds and $670,000 Equipment Bonds and the consideration of a resolution setting a public hearing upon said bond orders.

Bond Orders for both the $1,300,000 Sanitary Sewer Bonds and the $670,000 Equipment Bonds are being introduced to City Council at this time in order for text of the Bond Orders to be included in the associated Notices of Public Hearing.

The Bond Orders state: (1) The projects being financed are necessary; (2)The purpose of the projects; (3) The maximum amount of the bonds; (4)Sufficient taxes will be levied to pay principal and interest when due; (5) A sworn statement of the City's debt has been filed and available to the public (the statement will be sworn and available on September 27, 2000); (6) No bonded debt in excess of the Two-Thirds Bonds limitations for the current fiscal year has been incurred; and (7) The Bond Orders will take effect thirty days after adoption and subsequent publication unless petitioned to a vote of the people as provided in N.C.G.S. 159-60.

The proposed resolution sets the public hearing on the Bond Orders for October 10, 2000, at 5:00 p.m.; directs the City Clerk to publish notice of the public hearings; and directs the Finance Director to file the statement of debt and other financial information.

The Bond Orders will be considered for adoption by City Council following the completion of the public hearings on October 10, 2000.

City staff recommends City Council adopt the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ESTABLISHMENT OF A 5TH POLICE DISTRICT WITHIN THE DOWNTOWN AND CENTRAL BUSINESS AREA

Police Chief Will Annarino said that the Asheville Police Department has completed the implementation of the District system with establishment of a 5th police district within the downtown area.

The Asheville Police Department is currently configured into 4 service districts. Effective November 1, 2000, a 5th district, encompassing the downtown area, will be implemented. District Officers will use marked patrol units for rapid call response along with Mounted, Bicycle and Walking patrol techniques. A fulltime Community Service Officer will be dedicated to downtown issues. The personnel and equipment for the 5th District will predominantly be pooled from the existing districts.

Advantages include the following: (1) Full time District Commander and staff dedicated to service delivery and problem solving Downtown; (2) Quicker response to calls for service in central area; (3) More officers in downtown area at any given time; and (4) Enhanced accountability and public service that takes into account the unique characteristics of each community.

This report is for information only and no action by City Council is necessary.

Councilman Hay noted that this is good news and asked that a press release be prepared stressing that this good long term vision and planning.

NC LEAGUE OF MUNICIPALITIES CONVENTION

Councilman Hay nominated Councilman Worley as the voting delegate and Councilwoman Field as the alternate voting delegate for the N.C. League of Municipalities

Annual Business Meeting in Fayetteville, N.C. on October 17, 2000. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ARMY RESERVE CENTER LEASE

City Attorney Oast said that the City has leased their property at 224 Louisiana Avenue (Army Reserve Center) to the United States of America for $1/year since 1950. That lease has expired and after negotiations, a new lease agreement is being drawn up for six years at a rate of $60,000/year.

It was the consensus of City Council to have a resolution placed on the next formal meeting authorizing the City Manager to sign a lease agreement with the United States of America for property at 224 Louisiana Avenue.

CLOSED SESSION

At 6:18 p.m. Councilman Hay moved to go into closed session in order to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Carolina Power & Light Company and City of Asheville. The statutory authorization is contained in G.S. 143-318.11(a)(3). This motion was seconded by Councilman Worley and carried unanimously.

At 6:35 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:35 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 26, 2000 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor M. Charles Cloninger, Presiding; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick

INVOCATION

Councilman Worley gave the invocation.

RECOGNITION

Vice-Mayor Cloninger recognized Ms. Janet Sword and the 6th grade class from Carolina Day School.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 25-29, 2000, AS "KIDS VOTING USA WEEK" IN THE CITY OF ASHEVILLE

Vice-Mayor Cloninger read the proclamation proclaiming September 25-29, 2000, as "Kids Voting USA Week" in the City of Asheville. He presented the proclamation to Ms. Maria Pilos-Narron, Executive Director of Kids Voting USA, who briefed City Council on some activities taking place during the week.

B. PROCLAMATION PROCLAIMING OCTOBER 3, 2000, AS "THOMAS WOLFE DAY" IN THE CITY OF ASHEVILLE

Councilman Worley read the proclamation proclaiming October 3, 2000, as "Thomas Wolfe Day" in the City of Asheville. He presented the proclamation to Mr. Steve Hill, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING OCTOBER 4, 2000, AS "WALK OUR CHILDREN TO SCHOOL DAY" IN THE CITY OF ASHEVILLE

Councilwoman Bellamy read the proclamation proclaiming October 4, 2000, as "Walk Our Children to School Day" in the City of Asheville. She presented the proclamation to Mr. Oliver Gajda, the City's Pedestrian and Bicycle Coordinator, who briefed City Council on some activities taking place during the day.

II. CONSENT:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 12, 2000, AND THE WORKSESSION HELD ON SEPTEMBER 19, 2000

B. RESOLUTION NO. 00-172 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH CAROLINA

CORNERSTONE CONSTRUCTION TO DESIGN AND IMPLEMENT A RESTROOM/PICNIC FACILITY AND GAZEBO FOR HAW CREEK PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Carolina Cornerstone Construction to design and implement a restroom/picnic facility and gazebo for Haw Creek Park and a budget amendment to appropriate an additional $15,000 to this project from the Haw Creek Neighborhood Association.

The City of Asheville is continuing its development of a passive park in the Haw Creek community. Initially the parking lot and paved trails were constructed within this 6-acre park. Funds were then secured from the City of Asheville Capital Improvement Budget, the Parks and Recreation Trust Fund Grant, and the Haw Creek Neighborhood Association to implement the last phase of the project which will include a restroom/picnic shelter, gazebo, playground area, woodland trail, landscaping and interpretative signage. The restroom/picnic shelter and gazebo were designed by Mathews and Associates who also developed the construction documents. These documents were bid out and five general contractors submitted bids. The lowest responsible bidder was Carolina Cornerstone Construction, which is a minority-owned company, in the amount of $116,750. The entire budget for this park construction was originally $244,000. Currently, a balance remains in the budget of $158,474.89.

In addition to the above request, a budget amendment needs to be approved to appropriate an additional $15,000 to this project from the Haw Creek Neighborhood Association. Originally, the Haw Creek Neighborhood Association agreed to secure $40,000 in funds towards this project. An appropriation of $25,000 for this commitment was allocated earlier. An additional $15,000 allocation will fulfill this Association's total commitment.

The Parks and Recreation Department recommends that the City Manager be authorized to enter into a contract with Carolina Cornerstone Construction for the construction of the Haw Creek Park restroom/picnic facility and gazebo. City Council approval is also recommended for the approval of the budget amendment in the amount of $15,000 for this project.

RESOLUTION BOOK NO. 26 – PAGE 176

C. ORDINANCE NO. 2743 - BUDGET AMENDMENT FOR THE HAW CREEK PARK PROJECT FROM THE HAW CREEK NEIGHBORHOOD ASSOCIATION

Summary: See Consent Agenda item "B" above.

ORDINANCE BOOK NO. 18 – PAGE 459

D. RESOLUTION NO. 00-173 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY DISPOSAL PARCEL 76 LOCATED ON THE EAST SIDE OF MARTIN LUTHER KING JR. DRIVE IN THE EAST END/VALLEY STREET COMMUNITY IMPROVEMENT AREA TO DOROTHY DEAN IN THE AMOUNT OF $300

Summary: The consideration of a resolution to convey Disposal Parcel 76 in the East End/Valley Street Community Improvement Area to Dorothy Dean in the amount of $300.00.

On September 12, 2000, the City Council directed the City Clerk to advertise for upset bids on Disposal Parcel 76. The advertisement ran in the Asheville Citizen-Times on September 15, 2000, as provided in N. C. Gen. Stat. sec. 160A-

269. No response was received. Therefore, the offer to purchase from Dorothy Dean in the amount of $300.00 was not upset and the sale to Dorothy Dean should be approved.

Approval of the resolution will authorize the sale of the property to Dorothy Dean for the amount of $300.00.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 177

E. ORDINANCE NO. 2744 - BUDGET AMENDMENT TO AMEND THE WATER 35 FUND TO PROVIDE FUNDING FOR BURNETTE TUNNEL GROUTING AND PISGAH HIGHWAY PHASE II

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to provide future funding for the NC 151 (Pisgah Highway) Phase II NCDOT Project and to provide funding for grouting of the Burnette Dam Intake Tunnel.

By Resolution 82-25 dated October 5, 1982, the Regional Water Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

The NC 151 Phase II NCDOT Non-Betterment Relocation Project in the amount of $633,600 is expected to be complete in Fiscal Year 2002/2003 and will be funded with future funds from a Fiscal Year 2002/2003 Revenue Bond Issue. This project will consist of relocating water lines in the right of way along NC 151 from SR 1110 (Warren Creek Road) at South Hominy to SR 1117 (Fowler Mountain Road). In addition to this NCDOT project, the Fiscal Year 2002 /2003 Revenue Bond Issue will fund several other NCDOT projects, Water Treatment Plant Improvements, Master Plan Improvements, and Annexation Projects.

At this time, it is necessary for the Authority to approve future funding for the NC 151 Phase II NCDOT Project so that a Utility Agreement between the City of Asheville and NCDOT can be signed. This agreement ensures that the utility work to be performed by NCDOT's contractor is fully reimbursed by the Authority.

Funding of $60,500 is also needed for grouting of the Burnette Dam Intake Tunnel. This work was scheduled for Fiscal Year 2001/2002 as part of the Dam Safety Improvements Projects and was to be funded with a Fiscal Year 2001//2002 Revenue Bond Issue. As a result of a recent annual dam safety inspection, this project has been changed to a more urgent status. A sample of the water in the intake tunnel showed that sediment was just beginning to seep through the cracks in the tunnel walls. Although there is no current danger, the structural engineer has recommended that the grouting of the tunnel be done this fall as an extra precaution. Funding is available from the Dam Renovations Project and from remaining balances in the North Conference Room Project and the Fiscal Year 1998/1999 Distribution System Improvements.

The following changes are recommended in the 35 Fund:

Revenues

	Current	Recommended
Contributions From Other Funds - Future	$2,805,298	$3,438,898

Appropriations

	Current	Recommended
North Conference Room	$22,106	$3,000
FY 98/99 Distribution System Impr.	$85,000	$83,863
Dam Renovations (Dam Safety)	$440,413	$460,656
Future NCDOT Water Projects	$2,805,298	$3,438,898

The Regional Water Authority will consider the approval of an amendment to Capital Project Ordinance 82-25 at the September 19, 2000, meeting. The Director of Water Resources Tom Frederick will give an update from the Water Authority Meeting.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 82-25 (35 Fund) to reflect an increase in the Future NCDOT Water Projects with the Department of Transportation to include the NC 151 Phase II Water Line Relocation Project and to provide funding for emergency grouting to the Burnette Dam Intake Tunnel by reprogramming funds from the North Conference Room and 1998/99 Distribution System Improvements.

ORDINANCE BOOK NO. 18 – PAGE 461

F. ORDINANCE NO. 2745 - BUDGET AMENDMENT TO AMEND THE WATER 29 FUND TO ESTABLISH FUNDING FOR THE $12 MILLION REVENUE BOND ISSUE SCHEDULED FOR FEBRUARY 2001

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to reflect the sale of revenue bonds in the amount of $12 million in approximately February 2001.

By Resolution 92-17 dated May 19, 1992, the Regional Water Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds. Staff recommends the following changes to the capital project ordinance:

Revenues:

Sale of 2001 Revenue Bonds	$12,000,000
	$12,000,000

Appropriations:

Bee Tree Spillway	$5,500,000
NCDOT Non-Betterment	2,874,000
NCDOT Betterment	291,000
Building Safety Improvements	1,000,000
Critical Needs Improvements	1,755,000
Master Plan Improvements	275,000
Bond Administration	200,000
Annexation	105,000
	$12,000,000

Another revenue bond issue totaling approximately $10,000,000 is scheduled in our five-year plan for the Fall of 2002 but does not need to be appropriated now.

The Regional Water Authority will consider the approval of an amendment to Capital Project Ordinance 92-17 at the September 19, 2000, meeting. The Director of Water Resources Tom Frederick will give an update from the Water Authority meeting.

The Regional Water Authority recommends approval of a budget amendment for Capital Project Ordinance 92-17 to establish funding for the $12 million revenue bond issue scheduled for February 2001.

ORDINANCE BOOK NO. 18 – PAGE 463

G. ORDINANCE NO. 2746 - ORDINANCE REDUCING SPEED LIMITS ON VARIOUS CITY STREETS

Summary: The consideration of an ordinance to reduce speed limits on several city streets.

The streets listed below have been identified for speed concerns by residents, City boards and commissions, City Council, the Asheville Police Department, Traffic Engineering staff, or other City staff. The Traffic Engineering staff has conducted field reviews of street geometry and conditions and/or speed studies. Many of these streets which exhibit the worst speeding problems are also being evaluated and prioritized for the installation of traffic calming measures per the Neighborhood Traffic Calming Policy. Determination of the appropriate speed limits for streets is one of the steps outlined in the Policy. The Police Department concurs with these recommendations.

15 Miles Per Hour

The following street is a local residential street which has a combination of street geometry features which warrants speed limits significantly slower than the typical speed limit for local residential streets of 25 mph. These features may include narrow widths, frequent on-street parking, poor sight distance, lack of sidewalks, steep grades, or horizontal or vertical curves. The recommended safe operating speed on this street is 15 mph:

Orchard Road

20 Miles Per Hour

The following streets are local residential streets which have a combination of street geometry features which warrants speed limits slower than the typical speed limit for local residential streets of 25 mph. These features may include narrow widths, frequent on-street parking, poor sight distance, lack of sidewalks, steep grades, or horizontal or vertical curves. The recommended safe operating speed on these streets is 20 mph. These streets include streets in two subdivisions in which the City recently took over maintenance of streets; Hills of Beaverdam and Hawthorne Village:

Clairmont Avenue
Colonial Place
Crescent Lane
Dallas Street
Deaver Street
Dellwood Street

406

Dorchester Avenue, between Florida Avenue and Burton Street
Elderberry Lane
Foxglove Court
George Washington Carver Street
Hedgerose Court
Houston Street
Larkspur Court
Marne Road
Morning Glory Drive
Nebraska Avenue
Nevada Avenue
Skyview Circle
Skyview Drive
St Dunstans Circle
Sunset Walk
Tacoma Circle
Trillium Court
Vandalia Avenue
Wayside Drive
Windflower Court
Windflower Way

25 Miles Per Hour

Most of the following streets are typical local residential streets without street geometry problems. The appropriate speed limit for typical local residential speeds is 25 mph. A few of these streets are residential collector streets which have a combination of street geometry features which warrants speed limits slower than the typical speed limit for residential collector streets of 30 mph. The recommended safe operating speed on these streets is 25 mph:

Albemarle Road
Arlington Street
Baird Street
Bear Creek Road, between Patton Avenue and Sand Hill Road
Beechwood Road
Birchwood Place
Blake Drive
Blanton Street
Brooklyn Road, between Taft Avenue and Wyatt Street
Burnside Drive
Caribou Road, between Hendersonville Road and West Chapel Road
Charlotte Street, between Evelyn Place and Woodlink Road
Chicory Lane
Clayton Avenue
Clement Drive
Coleman Avenue
Columbine Road
Courtland Avenue, between Montford Avenue and Courtland Place
Culvern Street
Dailey Drive
Dorchester Avenue, between Haywood Road and Florida Avenue
Edgewood Road (East)
Fairfax Avenue
Fairview Avenue

Fairview Road, between US 74 and Broadview Drive
Florida Avenue, between Burton Street and Dorchester Avenue
Forest Hill Drive
Furman Avenue
Glencliff Road
Gracelyn Road
Grandview Road
Grove Street
Hansel Avenue
Heathbrook Circle
Hibernia Street
Hillside Street
Hudson Street
Jeffress Avenue
Lanvale Avenue
Linden Avenue
Looking Glass Lane, between Wagon Road and Pleasant Ridge Drive
Looking Glass Lane, between Browndale Road and Wagon Road
Marlborough Drive
Mayfair Drive
Merchant Street
Morgan Avenue
Mount Clare Avenue
North Street
Oakland Road
Olney Street
Overbrook Road
Pearson Drive
Pleasant Ridge Drive
Prichard Road
Raleigh Road
Riverview Drive
Robindale Avenue
School Road (Malvern Hills)
Selwyn Road
Shannon Drive
Shiloh Road
Skyview Terrace
Starnes Avenue
Stockwood Road
Stockwood Road Extension
Tacoma Street
Taft Avenue
Virginia Avenue
Wagon Road
Warwick Road
Wellington Street
Wendover Road
Westwood Place, between Millbrook Road and Hazel Mill Road
Woodvine Road

30 Miles Per Hour

The following streets are typical residential collector streets without significant street geometry problems. The recommended safe operating speed on typical residential collector streets is 30 mph:

Beverly Road (West)
Caribou Road, between West Chapel Road and I-40
Kenilworth Road
Pinchot Drive
Racquet Club Road

The Engineering Department requests that City Council approve the ordinance amending these speed limit changes.

ORDINANCE BOOK NO. 18 – PAGE 465

H. ORDINANCE NO. 2747 - ORDINANCE TO PROHIBIT THROUGH TRUCK TRAFFIC ON AVON ROAD, BALM GROVE AVENUE, BARNARD AVENUE, COLUMBINE ROAD, DAILEY DRIVE, DORCHESTER AVENUE, EDGEWOOD ROAD (NORTH), FLORIDA AVENUE, MORGAN AVENUE, PINCHOIT DRIVE AND WOODVINE ROAD

Summary: The consideration of an ordinance to prohibit through truck traffic on additional residential streets.

The Traffic Engineering staff has conducted field reviews and collected data on the streets listed below. These streets are residential streets that are not appropriate for truck traffic. Alternative roadways exist that are more appropriate for truck traffic.

Avon Road
Balm Grove Avenue
Barnard Avenue
Columbine Road
Dailey Drive
Dorchester Avenue
Edgewood Road (North)
Florida Avenue
Morgan Avenue
Pinchoit Drive
Woodvine Road

The Engineering Department requests that City Council approve the ordinance prohibiting trucks on various residential streets.

ORDINANCE BOOK NO. 18 – PAGE 469

I. ORDINANCE NO. 2748 - ORDINANCE CREATING AN ADDITIONAL SCHOOL ZONE ON CLINTON AVENUE BETWEEN SULPHUR SPRINGS ROAD AND DUNN STREET

Summary: The consideration of an ordinance to create an additional school zone on Clinton Avenue.

The Traffic Engineering staff has performed the necessary traffic analysis and field review to determine locations for this school zone. The following street has been identified as needing a school zone during the times when students typically go to and leave school:

Clinton Avenue – 20 mph between 7:00 a.m. and 9:00 a.m. and between 2:00 p.m. and 4:00 p.m. on school days, between Sulphur Springs Road and Dunn Street.

The Engineering Department requests that City Council approve the ordinance including Clinton Avenue as a school zone addition.

ORDINANCE BOOK NO. 18 – PAGE 470

J. RESOLUTION NO. 00-174 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "FACULTY DRIVE" LOCATED OFF OF ASHEVILLE SCHOOL ROAD

Summary: The consideration of a resolution accepting the new proposed street name "Faculty Drive."

Asheville School, Inc., owners of lots off of Asheville School Road, has petitioned the City of Asheville to accept the street name "Faculty Drive." The new street will begin at Asheville School Road and end at the dead end.

City staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 178

K. RESOLUTION NO. 00-175 - RESOLUTION ACCEPTING THE NEW STREET NAME OF "SCIENCE OF MIND WAY" LOCATED OFF OF SAND HILL ROAD

Summary: The consideration of a resolution accepting the new proposed street name "Science of Mind Way."

Center for Creative Living, owners of lots off of Sandhill Road, has petitioned the City of Asheville to accept the street name "Science of Mind Way." The new street will begin at Sand Hill Road and end at the dead end.

City staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 26 – PAGE 179

L. RESOLUTION NO. 00-176 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH R.C.I. PAINTING CONTRACTORS FOR MAINTENANCE ON THE WALL STREET PARKING GARAGE

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with R.C.I. Painting Contractors for maintenance of the Wall Street Parking Garage.

The Wall Street Parking Garage is seriously in need of periodic cleaning and repainting of the exterior and interior walls and removal of rust and repainting of all metal surfaces. During Fiscal Year 1999-2000, City staff sought estimates from contractors to perform the needed maintenance; however, the estimated cost was well beyond the funding available for the project.

As a result, initiation of the project was delayed until the current Fiscal Year when additional funds were made available.

Bids for the project were sought and three responses were received (two bids and one 'no bid"). The low bid of $35,500 was submitted by R.C.I. Painting Contractors. Their bid includes: pressure washing all exterior and interior walls; hand scraping to remove flaking paint; application of primer and two coats of paint to all walls; sanding, priming and painting all metal rails, window guards and doors. The work is warranted for twelve years. With contract award at this time, we anticipate that the painting work will be completed prior to onset of cold weather which would require postponement until next spring.

In addition to this painting project, as a separate but related initiative, staff has received proposals and will be awarding a contract for new awnings and any necessary repair of the awning supports at the Wall Street Parking Garage. This contract award will be made by the City Manager.

Council adopt the resolution which authorizes the City Manager to execute a contract with R.C.I. Painting Contractors.

RESOLUTION BOOK NO. 26 – PAGE 180

M. ORDINANCE NO. 2749 - BUDGET AMENDMENT FOR THE FAIR HOUSING ASSISTANCE PROGRAM

Summary: The consideration of a budget amendment to create a budget of $45,400 for the Fair Housing Assistance Program (FHAP) for Fiscal Year 1999/2000.

The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988, using HUD FHAP funds. The City's Community Development Division serves as Lead Entity and monitors the program.

On August 29, 2000, the City received notification of the grant awarded to the City for the current federal Fiscal Year 10/1/99-9/30/00. This notification required the City to draw down the funds no later than September 15, 2000. City staff has submitted the necessary paperwork to HUD to avoid losing these funds.

Community Development staff recommends adoption of the budget amendment to create a budget for the Fair Housing Assistance Program (FHAP) for Fiscal Year 1999/2000.

ORDINANCE BOOK NO. 18 – PAGE 471

N. INTRODUCTION OF BOND ORDER AUTHORIZING ISSUANCE OF $1,300,000 SANITARY SEWER BONDS

INTRODUCTION OF BOND ORDER AUTHORIZING ISSUANCE OF $670,000 EQUIPMENT BONDS

RESOLUTION NO. 00-177 - RESOLUTION CALLING FOR A PUBLIC HEARING ON BOND ORDERS ON OCTOBER 10, 2000, DIRECTING PUBLICATION OF NOTICE OF SAID PUBLIC HEARING AND FILING A DEBT STATEMENT

Summary: This is the introduction of Bond Orders Authorizing the Issuance of $1,300,000 Sanitary Sewer Bonds and $670,000 Equipment Bonds and the consideration of a resolution setting a public hearing upon said bond orders.

Bond Orders for both the $1,300,000 Sanitary Sewer Bonds and the $670,000 Equipment Bonds are being introduced to City Council at this time in order for text of the Bond Orders to be included in the associated Notices of Public Hearing. Below are the two bond orders being introduced, copies of which have been made available to the City Council:

BOND ORDER AUTHORIZING THE ISSUANCE OF $1,300,000 SANITARY SEWER BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

WHEREAS, the City Council of the City of Asheville, North Carolina deems it advisable to make the improvements hereinafter described; and

WHEREAS, an application has been filed with the Secretary of the Local Government Commission of North Carolina requesting Commission approval of the bonds hereinafter described as required by the Local Government Bond Act, and the Secretary of the Local Government Commission has notified the City Council that the application has been accepted for submission to the Local Government Commission.

NOW, THEREFORE, BE IT ORDERED by the City Council of the City of Asheville, North Carolina, as follows:

Section 1. The City Council of the City of Asheville, North Carolina has ascertained and hereby determines that it is necessary to extend sanitary sewer lines and acquire land and rights-of-way in land required therefor.

Section 2. In order to raise the money required to pay the costs of making the improvements described above, in addition to funds which may be available for such purpose from any other source, bonds of the City of Asheville, North Carolina are hereby authorized and shall be issued pursuant to the Local Government Bond Act of North Carolina. The maximum aggregate principal amount of such Sanitary Sewer Bonds authorized by this bond order shall be $1,300,000.

Section 3. A tax sufficient to pay the principal of and interest on said Sanitary Sewer Bonds when due shall be annually levied and collected.

Section 4. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection.

Section 5. No debt shall be contracted during any fiscal year by the issuance of bonds pursuant to this bond order if the amount of such debt and if all other debt contracted during such fiscal year shall exceed two-thirds (2/3rds) of the amount by which the outstanding indebtedness of the City shall have been reduced during the next preceding fiscal year, unless the incurring of such debt shall be submitted to a vote of the people of the City and shall be approved by a majority of those who vote thereon.

Section 6. This bond order shall take effect thirty (30) days after its publication following its adoption, unless it is petitioned to a vote of the people within thirty (30) days after its publication as introduced, as provided in N. C. G. S. Section 159-60, and in that event, the bond order will take effect when approved by the voters of the City.

BOND ORDER AUTHORIZING THE ISSUANCE OF $670,000 EQUIPMENT BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

WHEREAS, the City Council of the City of Asheville, North Carolina deems it advisable to make the improvements hereinafter described; and

WHEREAS, an application has been filed with the Secretary of the Local Government Commission of North Carolina requesting Commission approval of the bonds hereinafter described as required by the Local Government Bond Act, and the Secretary of the Local Government Commission has notified the City Council that the application has been accepted for submission to the Local Government Commission.

NOW, THEREFORE, BE IT ORDERED by the City Council of the City of Asheville, North Carolina, as follows:

Section 1. The City Council of the City of Asheville, North Carolina has ascertained and hereby determines that it is necessary to purchase firefighting equipment.

Section 2. In order to raise the money required to pay the costs of purchasing certain firefighting equipment, in addition to funds which may be available for such purpose from any other source, bonds of the City of Asheville, North Carolina are hereby authorized and shall be issued pursuant to the Local Government Bond Act of North Carolina. The maximum aggregate principal amount of such Equipment Bonds authorized by this bond order shall be $670,000.

Section 3. A tax sufficient to pay the principal of and interest on said Equipment Bonds when due shall be annually levied and collected.

Section 4. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection.

Section 5. No debt shall be contracted during any fiscal year by the issuance of bonds pursuant to this bond order if the amount of such debt and if all other debt contracted during such fiscal year shall exceed two-thirds (2/3rds) of the amount by which the outstanding indebtedness of the City shall have been reduced during the next preceding fiscal year, unless the incurring of such debt shall be submitted to a vote of the people of the City and shall be approved by a majority of those who vote thereon.

Section 6. This bond order shall take effect thirty (30) days after its publication following its adoption, unless it is petitioned to a vote of the people within thirty (30) days after its publication as introduced, as provided in N. C. G. S. Section 159-60, and in that event, the bond order will take effect when approved by the voters of the City.

Mr. Schaefer summarized that the Bond Orders state: (1) The projects being financed are necessary; (2)The purpose of the projects; (3) The maximum amount of the bonds; (4) Sufficient taxes will be levied to pay principal and interest when due; (5) A sworn statement of the City's debt has been filed and available to the public (the statement will be sworn and available on September 27, 2000); (6) No bonded debt in excess of the Two-Thirds Bonds limitations for the current fiscal year has been incurred; and (7) The Bond Orders will take effect thirty days after adoption and subsequent publication unless petitioned to a vote of the people as provided in N.C.G.S. 159-60.

The proposed resolution sets the public hearing on the Bond Orders for October 10, 2000, at 5:00 p.m.; directs the City Clerk to publish notice of the public hearings; and directs the Finance Director to file the statement of debt and other financial information.

The Bond Orders will be considered for adoption by City Council following the completion of the public hearings on October 10, 2000.

RESOLUTION BOOK NO. 26 – PAGE 181

O. RESOLUTION NO. 00-178 - RESOLUTION SETTING A PUBLIC HEARING FOR OCTOBER 10, 2000, TO VOLUNTARILY ANNEX BURNSIDE, PHASE 4 OF BILTMORE PARK

Summary: The consideration of a resolution fixing the date of a public hearing on October 10, 2000, on the question of annexation of property located west of Overlook Road and identified as Burnside, Phase 4, Biltmore Park.

Biltmore Farms, Inc. has submitted an annexation petition for Burnside, Phase 4, Biltmore Park. This area is adjacent to the existing City limits being immediately west of Burnside, Phase 3 which was annexed on 6/7/2000. Biltmore Park is generally located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 11.4 acres and is platted for 12 single-family residential lots. Street access to this area is provided by White Ash Drive.

Utilities and streets are being developed by Biltmore Farms, Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance.

City staff recommends City Council adopt a resolution fixing the date of a public hearing on October 10, 2000, on the question of annexation of property located west of Overlook Road and identified as Burnside, Phase 4, Biltmore Park.

RESOLUTION BOOK NO. 26 – PAGE 182

P. RESOLUTION NO. 00-179 - RESOLUTION SETTING A PUBLIC HEARING FOR OCTOBER 10, 2000, TO VOLUNTARILY ANNEX OAKBROOK, SECTION 2 OF BILTMORE PARK

Summary: The consideration of a resolution fixing the date of a public hearing on October 10, 2000, on the question of annexation of property located west of Overlook Road and identified as Oakbrook, Section 2, Biltmore Park.

Biltmore Farms, Inc. has submitted an annexation petition for Oakbrook, Section 2, Biltmore Park. This area is adjacent to the existing City limits being immediately east of Oakbrook, Section 1 which was annexed on 8/22/2000. Biltmore Park is generally located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 24 acres and is platted for 40 single-family residential lots and a common area. The annexation also contains a small cemetery. Street access to this area is provided by White Ash Drive and Dianthus Drive.

Utilities and streets are being developed by Biltmore Farms, Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance.

City staff recommends City Council adopt a resolution fixing the date of a public hearing on October 10, 2000, on the question of annexation of property located west of Overlook Road and identified as Oakbrook, Section 2, Biltmore Park.

RESOLUTION BOOK NO. 26 – PAGE 184

Q. MOTION SETTING A PUBLIC HEARING ON OCTOBER 10, 2000, TO CONSIDER REZONING PROPERTY LOCATED AT 38 SYCAMORE ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

R. MOTION SETTING A PUBLIC HEARING ON OCTOBER 10, 2000, TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE THE METHOD OF CALCULATING THE FRONT SETBACK LINE

S. RESOLUTION NO. 00-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE AGREEMENT WITH THE UNITED STATES OF AMERICA FOR THE ARMY RESERVE CENTER AT 224 LOUISIANA AVENUE

Summary: The consideration of a resolution authorizing the City Manager to execute a lease with the United States of America for the Army Reserve Center at 224 Louisiana Avenue, Asheville, N.C.

In June, 1950, the City leased a tract of land at 224 Louisiana Avenue to the United States of America (Government) for construction and operation of an Army Reserve Center. The lease had a 50 year term and a one time payment of $1.00 rent for the entire term. A new lease has been negotiated subject to City Council approval.

The proposed lease to the Government has a term of 6 years at an annual rent of $60,000. The Government will also pay the cost of a completed land survey in the amount of $1,750.

According to the land survey by J. Glenn Haynes, the property comprises 8.857 acres of land. The Government retained ownership of the improvements under the previous lease so the rent is for land only. Richard Jacobs, MAI, was the source of the comparable information and advice to determine the market rent for the property.

Approval of the resolution will authorize the City Manager to execute the proposed lease with the Government for the property at 224 Louisiana Avenue.

City staff recommends City Council adopt the resolution authorizing the City Manager to execute a lease with the United States of America for the Army Reserve Center at 224 Louisiana Avenue, Asheville, N.C.

RESOLUTION BOOK NO. 26 – PAGE 186

T. RESOLUTION NO. 00-181 - RESOLUTION IN SUPPORT OF INCREASED COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME FUNDING

Summary: The consideration of a resolution urging our Congressional delegates to support an increase in the funds appropriated by Congress to HUD for the Community Development Block Grant (CDBG) and HOME Programs.

CDBG and HOME federal funds enable entitlement cities such as Asheville to provide local assistance for housing, urban revitalization, and economic development, benefiting low and moderate income people. Asheville's entitlement grants for FY 2000 are $1,565,000 in CDBG and $1,142,000 in HOME. The total of these grants is 5% less than we received in 1995. Adding the effects of inflation at 2% a year makes the effective amount 16% less than in 1995.

In essence, Congress has maintained roughly level funding for these programs over this period, but the number of entitlement communities and set-aside programs has increased, reducing the amount available to each entitlement community.

Within the next few weeks, Congress will complete its appropriations for Fiscal Year 2001. Current recommendations from the House and Senate Appropriations Committees would fund the CDBG and HOME programs at essentially the same levels as Fiscal Year 2000.

The U.S. Conference of Mayors, the national Community Development Association, and many other national organizations are pressing for "5 and 2": $5 billion for CDBG (a 1% increase over FY 2000) and $2 billion for HOME (a 25% increase). The combined increase would be 11%. Asheville would receive increases of approximately $72,000 in CDBG and $285,000 in HOME.

City staff recommends City Council approve the resolution.

RESOLUTION BOOK NO. 26 – PAGE 187

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Worley moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO A CONDITIONAL USE PERMIT FOR A PARKING LOT ASSOCIATED WITH MILKO INC. TO BE LOCATED ON PROPERTY ZONED RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT AT THE INTERSECTION OF DEAVERVIEW ROAD AND BEAR CREEK ROAD

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

After hearing no questions about the procedure, Vice-Mayor Cloninger opened the public hearing at 5:17 p.m.

Mr. Dan Baechtold, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report). This public hearing was advertised on September 15 and 22, 2000.

Mr. Baechtold said that this is the consideration of issuing a conditional use permit for a parking lot associated with Milko, Inc. to be located on property zoned RM-8 Residential Multi-Family Medium Density District at the intersection of Deaverview Road and Bear Creek Road.

The Technical Review Committee reviewed this project and took action to approve with conditions. This project is the first application for a conditional use permit under the new ordinance for ancillary non-residential uses in residential districts. Although this parcel of land (0.97 acres) is not located behind a "strip" commercial use, it does meet the location requirements set forth in the ordinance (Location Map attached to City Exhibit 3). This project involves the demolition of the existing residential structure, and use of the property as a parking area for employees of the Milko facility. The proposed site plan indicates that all of the mature trees on the property will be saved (Proposed Site Plan attached to City Exhibit 3). There will not be significant grading of the site.

The intersection of Deaverview Road and Bear Creek Road is a location that poses some challenges for determining the best land use. Although there are single-family uses present there, this corner lot is subject to a lot of traffic and is directly adjacent to the Milko industrial facility. Although a parking lot is not the ideal use for this corner, it is also difficult to expect this piece of property to continue as a single-family residential use. The current zoning of the property is Residential Multi-Family Medium Density. Under this proposal, the zoning would not change. Perhaps the ideal use for the property is some type of small-scale multi-family use. Until that time, staff felt it would be appropriate to allow this parking area as long as the existing trees are preserved, and the impacts on surrounding property owners are mitigated.

The approval of this ancillary use in this residential district holds the line on commercial intrusion into the residential zone. Under the ancillary uses ordinance, no further expansion is possible. The zoning of this parcel still reserves the parcel for multi-family use at some point in the future. Although surface parking is not the ultimate highest and best use of the property, allowing it in the interim is probably an appropriate use to provide transition between an intense industrial use and adjacent single-family uses. Planning staff is recommending conditions for the approval to ensure that the project mitigates impacts on surrounding property owners.

Planning and Development staff recommends approval of a conditional use permit for this location with the following conditions: (1) Protect the existing trees by expanding the planting islands, eliminating parking spaces as necessary to protect root zones, and using appropriate tree protection measures during construction; (2) Use pervious paving materials to allow stormwater to filtrate through to the ground; (3) Supplement the existing buffer of white pines by providing additional understory plantings and move the proposed buffer fence closer to the parking lot to provide additional room for plant growth; (4) Present a lighting plan for review and approval that provides the minimum light necessary to provide security and demonstrates that light will not spillover to adjacent properties; and (5) Sidewalks are required along Deaverview Road and Bear Creek Road and the design must be approved by the City Engineer.

Mr. Charles Gaither, President of Milko Inc., briefed City Council on what Milko Inc. is and their economic impact on our region. He explained that they are a good corporate neighbor and that they take their community responsibilities seriously. He said that this property is one of the few parcels that can help relieve their crowded condition. By properly landscaping, lighting, and fencing it, they can move their private vehicle parking. He noted that this will be for personal vehicle parking only. This would allow space for building expansion into what is now their parking area. He felt that by proper screening with trees and shrubs, their plan would cause no disruption to the neighborhood. He felt it may also be preferable to the present situation of having an often uninhabited house that might be used for illicit purposes (Applicant Exhibit 1).

Ms. Connie Chase, adjoining neighbor to the property, passed out pictures and a petition from local residents (Neighborhood Exhibits 1 and 2) supporting their opposition of the parking lot. She explained that the use for the property is residential and the applicant has found a way to get around the system, without having to even go through the Planning & Zoning Commission, to have a parking lot build on the property. She said that this lot has over 80 spaces and since they are open 24 hours a day, there will be people driving in and out of the lot all day and night long. She said that she talked with Mr. Gaither who explained to her that they needed more dry storage space on their property. She suggested since they currently have a parking lot in place, they should keep the exiting lot and look for a dry storage area somewhere else. She said they spent ten years remodeling their home and they counted on the house next to their property as a buffer for the Milko factory. She urged City Council not to allow this conditional use zoning.

Upon inquiry of Vice-Mayor Cloninger, Mr. Gaither acknowledged that they do run three shifts five days a week and two shifts on Saturday. He said that there is approximately 45-50 people on third shift.

After a question was raised by Councilman Peterson about the safety of pedestrians crossing Bear Creek Road, City Traffic Engineer Michael Moule agreed that City Council might want to impose a condition that staff look at further pedestrian issues and crossing improvements across Bear Creek Road and that any improvements made be at the expense of Milko.

Councilwoman Bellamy suggested the possible placement of a pedestrian crossing sign on Bear Creek Road, and after further discussion, that City Council impose an additional condition that Milko create another entrance on their existing property.

Councilman Hay suggested that a condition be worded that pedestrian amenities be included as recommended by the City's Traffic Engineer, which could include all the issues raised by Councilman Peterson and Councilwoman Bellamy. Mr. Moule agreed and noted that the condition could include adjustments to the entrance to the Milko site so that people who walk across Bear Creek Road would be encouraged to use the safer pedestrian crossing area.

Mr. Gaither said that he was open to suggestions on the positioning of a crosswalk across Bear Creek Road and that they do intend to have another entrance through their existing chain-link fence directly across the road from wherever that crosswalk is located.

City Attorney Oast said that a condition can be worded in such a way that any improvements that are required as a result of the City's Traffic Engineer's recommendation would have to be done at the expense of Milko and unless that condition is complied with, then the conditional use permit would have to be revoked.

Councilman Worley requested a condition be added that only parking of personal vehicles be allowed on this lot and no parking of commercial vehicles on this lot be allowed.

Mr. Baechtold noted that since the ordinance states that for uses like this that all activities shall be conducted between the hours of 7:00 a.m. – 9:00 p.m. unless City Council determines other operating hours are appropriate. If City Council intends to allow a third shift to park on that lot, that would need to be specified.

Upon inquiry of Vice-Mayor Cloninger, Mr. Baechtold briefly explained the steps that City staff will take to ensure the parking lot will at least have the minimum light necessary to provide security and that light will not spillover to adjacent properties.

There being no request from the applicant for rebuttal, Vice-Mayor Cloninger closed the public hearing at 5:53 p.m.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

City Attorney Oast said that the Technical Review Committee (TRC) has approved some information but City Council is not bound that that decision. The TRC review indicates that if the project is built, it can satisfy our technical requirements. In addition, he offered to review the conditions for conditional use permits.

Councilwoman Field moved to approve the conditional use permit for a parking lot associated with Milko Inc. at the intersection of Deaverview Road and Bear Creek Road, with the following conditions: (1) Protect the existing trees by expanding the planting islands, eliminating parking spaces as necessary to protect root zones, and using appropriate tree protection measures during construction; (2) Use pervious paving materials to allow stormwater to filtrate through to the ground; (3) Supplement the existing buffer of white pines by providing additional understory plantings and move the proposed buffer fence closer to the parking lot to provide additional room for plant growth; (4) Present a lighting plan for review and approval that provides the minimum light necessary to provide security and demonstrates that light will not spillover to adjacent properties; (5) Sidewalks are required along Deaverview Road and Bear Creek Road and the design must be approved by the City Engineer; (6) The City's Traffic Engineer look at further pedestrian issues and crossing improvements across Bear Creek Road., which issues could include adjustments to the entrance to the Milko site so that people who walk across Bear Creek Road would be encouraged to use the safer pedestrian crossing area and that any improvements that are required as a result of the City's Traffic Engineer's recommendation would have to be done at the expense of Milko; (7) That the parking lot be restricted to personal vehicles only and no commercial vehicles; and (8) With regard to operating hours on the lot, a third shift is allowed to park on the lot. This motion was seconded by Councilwoman Bellamy and carried unanimously.

City Attorney Oast noted that he will bring back an ordinance granting the conditional use permit with the conditions outlined above for City Council consideration at their next formal meeting on October 10, 2000.

B. PUBLIC HEARING RELATIVE REZONING SEVEN LOTS LOCATED ON ACTON CIRCLE FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT, HIGHWAY BUSINESS DISTRICT AND NEIGHBORHOOD BUSINESS TO HIGHWAY BUSINESS AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2750 - ORDINANCE TO REZONE SEVEN LOTS LOCATED ON ACTON CIRCLE FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT, HIGHWAY BUSINESS DISTRICT AND NEIGHBORHOOD BUSINESS TO HIGHWAY BUSINESS

ORDINANCE NO. 2751 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR PROPERTY LOCATED ON ACTON CIRCLE

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Vice-Mayor Cloninger opened the public hearing at 6:00 p.m.

Mr. Dan Baechtold , Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report). This public hearing was advertised on September 15 and 22, 2000.

Mr. Baechtold said that this is the consideration of an ordinance to rezone seven lots located on Acton Circle from RM-6 Residential Multi-Family Low Density District, Highway Business and Neighborhood Business to Highway Business, and issuance of a conditional use permit (conditional use zoning) for a grocery store and associated retail uses.

The Planning and Zoning Commission reviewed this project on September 6, 2000, and took action to recommend approval of the rezoning and conditional use permit with conditions. The majority of this property (3.66 acres) is already zoned Highway Business, and the proposed use is a permitted use in the Highway Business District. About 2.25 acres are zoned Neighborhood Business, and the remaining 1.06 acres are zoned RM-6. This rezoning would change the designation for the entire property to Highway Business – Conditional Use. The property is adjacent to Highway Business zoning on two sides. The applicant proposes to construct a Bi-Lo grocery store of approximately 42,000 square feet on the site, and construct an additional 12,000 square feet of supporting retail use. The conditional use zoning tool offers an opportunity for the City of Asheville to regulate the appearance, function, and impacts of development on this corner. Further, regulation of building placement and design can ensure that this development contributes to the character of this commercial corridor rather than detracts from it.

The primary impact of this development is traffic. Smoky Park Highway is a five-lane facility capable of handling a large volume of traffic (Location Map attached to City Exhibit 3). Acton Circle is a two-lane road that currently carries significant traffic during peak travel times. The developer submitted a Traffic Impact Analysis (TIA) for this development that considers the traffic generated by this site, existing background traffic, and proposed future traffic increases, including traffic generated by the new Home Depot. The City Traffic Engineer and the N. C. Department of Transportation (NCDOT) have reviewed the TIA and concur with the findings. Based on the review, the City Traffic Engineer is recommending conditions for the approval of this project to mitigate the traffic impacts. Those conditions are reflected in the recommendation of the Planning and Zoning Commission and the staff recommendation below.

The Highway Business District is appropriate for this property based on the zoning pattern in the area. Intense commercial uses would be allowed under the existing zoning on the portion that is already zoned Highway Business. Applying the conditional use zoning tool in this case benefits the City of Asheville because it provides the opportunity to regulate the intensity of use on the site, the design and function of the site, and the opportunity to mitigate traffic impacts.

The site plan and building elevation drawings include measures to define and enhance this commercial corner. (Site Plan attached to City Exhibit 3) Two retail buildings will be placed near the street to screen the parking from the street, so that visually, the site will be defined by architecturally pleasing buildings rather than a sea of asphalt. The site plan shows an internal walkway in the parking lot and sidewalks along both public streets. The Planning and Zoning Commission voted unanimously to recommend approval of this request. No one from the public spoke in opposition.

Planning and Development staff recommends approval of a motion to rezone property located at Acton Circle to Highway Business-CU and approval of a conditional use permit with the following conditions: (1) Eliminate left turn movements from the primary driveway on Smoky Park Highway; (2) Construct an additional approach lane from Acton Circle onto Smoky Park Highway (pending NCDOT approval); and (3) At the signalized intersection, add a protected left turn phase from Smoky Park Highway onto Acton Circle in cooperation with NCDOT.

Mr. Baechtold said that based on discussions with the NC DOT, the third condition is not necessary at this time.

Upon inquiry of Councilman Peterson, City Traffic Engineer Michael Moule explained why he didn't feel that there needed to be any additional improvements to the intersection of Acton Circle from Monte Vista.

There being no request from the applicant for rebuttal, Vice-Mayor Cloninger closed the public hearing at 6:18 p.m.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved to adopt Ordinance No. 2750 to rezone seven lots on Acton Circle from RM-6 Residential Multi-Family Low Density District, Highway Business and Neighborhood Business to Highway Business (conditional use zoning). This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 473

Councilman Worley moved to adopt Ordinance No. 2751 granting the conditional use permit for seven lots on Acton Circle with the following conditions: (1) Eliminate left turn movements from the primary driveway on Smoky Park Highway; and (2) Construct an additional approach lane from Acton Circle onto Smoky Park Highway (pending NCDOT approval). Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature reflecting information presented by staff and subject to the conditions outlined by staff. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 475

C. PUBLIC HEARING RELATIVE REZONING PROPERTY LOCATED AT CLINGMAN AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2752 - ORDINANCE TO REZONE PROPERTY LOCATED AT CLINGMAN AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 2753 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR PROPERTY LOCATED AT CLINGMAN AVENUE

Councilman Worley moved to excuse Councilwoman Bellamy from participating in this issue due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Vice-Mayor Cloninger opened the public hearing at 6:24 p.m.

Ms. Stacy Merten, Urban Planner, submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners), and City Exhibit 3 (Staff Report). This public hearing was advertised on September 15 and 22, 2000.

Ms. Merten said that this is the consideration of an ordinance to rezone property located at Clingman Avenue from RM-8 Residential Multi-Family Medium Density District to Central Business District, and issuance of a conditional use permit (conditional use zoning).

The Planning and Zoning Commission, at their September 6, 2000, meeting, reviewed and recommended approval to conditionally rezone a 0.59 acre parcel, consisting of three tracts (PIN Nos. 9648.05-18-1834, 1800, and 0765) located on Clingman Avenue just south of the City Maintenance Facility (Location Map attached to City Exhibit 3). The subject property is located in a RM-8 zoning district that is adjacent to a Community Business I District and in close proximity to the Central Business District. The site is currently vacant. The proposal is to construct a three story condominium complex with 16 units and a community room (Site Plan and Building Drawing attached to City Exhibit 3).

The proposed development is congruous with the City of Asheville's Smart Growth policies in that it is providing for higher density infill development in the downtown area. The proposed development is next to an existing bus stop and within walking distance of Aston Park. In the absence of any other high density zoning district, the Central Business District – CU zoning will permit the project to be developed at a density that will economically allow the construction of a more attractive and appropriate building for this visible urban site. The conditional use permit will ensure that the use and design of the project will be compatible with the existing neighborhood. It is the intent of Mountain Housing to create an appropriate transition from the commercial, urban streets and corners above to the historic, mostly single-family scale development. The project will provide a mix of affordable and market-rate housing.

The Planning and Zoning Commission voted unanimously to recommend approval of the conditional use rezoning with the following conditions: (1) Tree protection device details must be provided; (2) Sidewalk construction details must be provided; and (3) That the project be regulated by the site plans and the building plans as submitted primarily with regard to massing and fenestration and that any minor changes to the building materials be reviewed by the Planning & Development Director.

The Planning & Zoning Commission also highly recommended that a covered transit stop be provided.

The Planning and Development staff recommends approval of the Conditional Use Rezoning, with conditions as outlined above.

Mr. Chris Eller, project engineer with Land Design, noted that their goal is to serve as an anchor to the revitalization of the West End/Clingman Avenue Neighborhood (WECAN), they have maintained the fabric of the existing neighborhood, and after meeting with the neighborhood community, they have given the applicant its unanimous support for this proposed development.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities Inc., passed out to City Council a letter dated August 21, 2000, (Applicant Exhibit 1) and explained the concept of their development of condominiums at the corner of Clingman Avenue and Merritt Street, including the need for the conditional use zoning of Central Business District.

Mr. Robert S. Griffin, Architect, reviewed with Council the main floor plans (Applicant Exhibit 2). He responded to various questions from Council with regard to the project.

Upon inquiry of Councilwoman Field about who will maintain the courtyard area, Mr. Dedman responded that Mountain Housing Opportunities will be involved in the long-term maintenance but that the condominium association will be primarily responsible for the maintenance.

When Councilwoman Field asked why the Central Business District is the requested rezoning, Planning & Development Director Scott Shuford said that it was for the density.

Councilwoman Field felt that the project was great, however, questioned zoning that piece of property Central Business District with no actual connection to the already existing Central Business District zoning.

After a brief discussion about possibly rezoning the City's Parks and Recreation Maintenance Facility (across the street from the subject property) to Central Business District, Mr. Dedman said that he would personally support that, however, he would want to discuss any proposed changes with the WECAN neighborhood association. In addition, Mr. Shuford said that Planning staff is now in the process of working with a Mountain Housing Opportunities project involving the WECAN neighborhood. Once that plan is in place and we see what the designers come up with, City staff can then be in a better position to advise City Council on the ultimate zoning of this general area. He felt it would ultimately be some form of commercial and Central Business District would not be out of place at that location.

Ms. Gloria Howard-Free was concerned about traffic as it now exists on Clingman Avenue, what are the results from the traffic studies that have been performed in order to determine how traffic will flow with the increased density from this project, if the increased traffic will be a safety hazard for people who chose to walk, and also if there has been any environmental impact statement made on this project.

Ms. Merten stated that a traffic impact analysis was not required for this project nor was an environmental impact statement. However, she did note that there were several other design standards reviewed and approved.

With regard to traffic issues raised by Ms. Howard-Free, Traffic Engineer Michael Moule stated that the only unusual traffic situation at this location is that Merritt Street comes into Clingman Avenue at an almost signalized intersection. City staff is looking at doing some marking and signing changes to help facilitate that street to operate. He felt that 16 units in the development will generate approximately 96 trips per day which isn't that many trips compared to what is already on Clingman Avenue.

There being no request from the applicant for rebuttal, Vice-Mayor Cloninger closed the public hearing at 6:48 p.m.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Hay moved to adopt Ordinance No. 2752 to rezone property on Clingman Avenue from RM-8 Residential Multi-Family Medium Density District to Central Business District (conditional use zoning). This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 480

Councilman Hay moved to adopt Ordinance No. 2753 granting the conditional use permit for property located at Clingman Avenue with the following conditions: (1) Tree protection device details must be provided; (2) Sidewalk construction details must be provided; (3) That the project be regulated by the site plans and the building plans as submitted primarily with regard to massing and fenestration and that any minor changes to the building materials be reviewed by the Planning & Development Director; and (4) That a covered transit stop be provided. Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature reflecting information presented by staff and subject to the conditions outlined by staff. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 482

It was the consensus of City Council to have City staff review the zoning of the entire area.

At 6:50 p.m., Vice-Mayor Cloninger announced a short break.

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 00-182 - RESOLUTION ESTABLISHING THE MINIMUM PRICE AND DIRECTING THE CITY CLERK TO ADVERTISE A REQUEST FOR PROPOSALS REGARDING THE DEVELOPMENT OF EAST END PLACE SUBDIVISION

Mr. Randall Barnett, Rehab Loan Specialist, reviewed with City Council the following information presented to City Council at their worksession on September 5, 2000.

The Community Development Division has prepared a plan for the sale and redevelopment of land located in the East End/Valley Street Community Improvement Area known as East End Place and seeks authorization to advertise a Request for Proposals for sealed bids.

East End Place is a proposed subdivision located on a two acre tract on Martin Luther King Jr. Drive. The subdivision plan comprises seven (7) lots and a short cul-de-sac. The plan has been approved by the Technical Review Committee.

The proposed lots have been appraised as indicated and the sum of the values, $77,000, is the amount proposed as the minimum price for the land.

The successful redeveloper will be required to pay not less than the minimum price established for the lots; to construct the infrastructure, i.e. street, sidewalk, water lines, sewer and storm drainage; and to build an affordable home on each lot with a projected sale price not to exceed $90,000. The homes proposed must contain at a minimum 960 square feet, 3 bedrooms and 1 1/2 baths. The project must be started within three (3) months and completed within twenty-four (24) months after conveyance of the property. The City through allocated Community Development Block Grant (CDBG) funds will provide $78,000 toward the cost of the infrastructure.

The homes must be sold to households with incomes not exceeding 80% of the area median income. The City through allocated Community Development Program Income will provide secondary financing to the buyers in an amount not to exceed $11,000 per lot.

The advertisement for sealed bids, if approved by Council, will include the provision that proposals will be evaluated on the Redeveloper's qualifications and the quality of the proposed homes as well as the amount bid.

Approval of the resolution will establish the minimum price for East End Place at $77,000.00 and initiate the sale of the property through the sealed bid process as provided in N. C. Gen. Stat. sec. 160A-268.

Community Development staff recommends adoption of the resolution.

At the worksession on September 5, 2000, City staff was instructed to meet with the area residents again to discuss the proposed subdivision plan, address any concerns they may have especially with regard to building on the embankment and the proximity of the proposed subdivision with their homes.

As a result of said meeting, which occurred on September 19, 2000, Mr. Barnett reviewed with City Council the following chronology and efforts taken in developing the two acres of land on Martin Luther King Jr. into the East End Place Subdivision. In the early 1980's, when the Redevelopment Commission cleared the neighborhood of its slums and blight, it took out several small grocery stores. The neighborhood residents wanted some land to be set aside for a new store. This two acres was zoned neighborhood commercial. The lot sat vacant for over a decade with no interest from developers. In the mid 1990's, some physicians pursued the idea of locating their office on the commercially zoned property. By then, new residents opposed the original plan for a commercial area in their neighborhood. They convinced the City to rezone the property to residential, however, there was still no development interest from the private sector.

In 1997, Community Development staff proposed developing the lot as a City project using CDBG funds. Meetings were held with the neighborhood association to establish a design for affordable housing. A total of 29 people took part in two meetings in May of 1997. Many possible site designs were discussed, and eventually a layout of seven single family homes around a cul-de-sac was adopted, with resident support. By October 1998, the design had been completed by the City's Engineering Department, costed, and approved. Additional CDBG funds were allocated in May 1999. In July 1999, the infrastructure work was bid, but the lowest bid was disappointingly high, at $116,000. This exceeded the funds available. City staff looked into alternative ways to develop the site and decided to try again to attract a private developer to develop the site, using the CDBG funds as a subsidy. This was the proposal submitted to City Council at their September 5 worksession. A further neighborhood meeting was held on September 19, 2000, at the request of City Council. At this meeting, residents' concerns about undermining the slope above the site were satisfied, but new concerns about density were raised. Several residents called for a new design with no more than six units.

Mr. Barnett reviewed with Council the costs to date for this project: Survey, appraisal, application fees -$1,665; Engineering in-house survey and design (250 hours)- $15,000; and Community Development staff time has not been estimated but probably 60-100 hours to date.

Mr. Barnett said that it is staff's proposal to put out an RFP to the community of developers, both profit and non-profit, to take on this project using our CDBG funds to do the infrastructure and have a seven lot affordable housing project on this site.

When Councilwoman Bellamy asked if any of the comments from the neighborhood meeting on September 19, 2000, were incorporated into the plan, Mr. Barnett explained that staff did answer all their concerns, however, they wanted a new design with no more than six units and that was not incorporated into the plan. Other issues raised at the meeting by residents were things like dust from the project, and inconvenience of the neighbors as pavement and sidewalks are being poured. He said that those issues will be worked out with the contractor.

Councilwoman Bellamy explained the residents' concern about having six units instead of seven. She said these homes are not starter homes and most African Americans usually don't move. As a result, they were concerned about the size of the homes with no opportunity to build on.

Mr. Barnett said that that particular concern was addressed in that while the house is being built, the family could work with the builder for future design of what could be added on.

Vice-Mayor Cloninger said that their concern may have been that with seven lots, that the lots wouldn't be large enough to allow for expansion and meet various setback requirements.

Community Development Director Charlotte Caplan said that under this design you can see the culvert that runs at the foot of the slope and very clearly no part of any house can cross that culvert, thereby there is no possibility of the slope being undermined. And although the location of the houses on each lot is only schematic, they will look for the developer to come with a proposal for actually designing the homes. As to the expandability of housing, that is not something they have tried to build in. That was not an issue that was brought up at all in the development of the Consolidated Strategic Plan. They looked at issues like handicapped accessibility; location of housing in relation to transportation, employment and jobs; and the efficient use of land. Having housing units that are capable of being expanded is not a design feature that was considered as something that needed to be built into the plan. She felt that some of the lots would be appropriate for design that had the possibility of building on later, and some of them wouldn't.

Upon inquiry of Vice-Mayor Cloninger, Ms. Caplan said that the exact design of the house and the square footage will be up to the developer. However, staff is proposing to require in the RFP that the homes be not less than 960 square feet and that each of them should have three bedrooms and at least 1-1/2 bathrooms. Obviously in considering the proposals that are received, there is a balancing between the size of the house, the affordability of the house, and also the quality of design and construction. City staff will be reviewing the proposals and evaluating the proposals to maximize both the size and quality and affordability of the homes. She added that if we take out one unit and therefore all of the development costs, not to mention the re-design costs, have to be shared between six houses, rather than seven houses. She would expect the costs of each house to raise by approximately $3-4,000, simply because a smaller number of houses have to share the fixed costs of development.

Councilwoman Bellamy noted that the residents do want this subdivision, however, the site is deceiving and on the ground you can see how seven houses are ineffective. She said the best example of this is the units on George Washington Carver, in that the houses are in close proximity in a small space. She noted several good examples of successful projects in Rankin Heights, in Oakley and in Shiloh.

Councilman Worley said that perhaps the social patterns in this neighborhood in terms of home ownership may not have been taken into account. He said there may not be enough room in the design to allow expansion to reasonably happen. He wanted to be comfortable in striking the right balance realizing that the bigger the house, the less affordable it will be.

Ms. Dorothy McDay, resident on Martin Luther King Drive, was concerned about the increased traffic and where the two cars per each house would park. As close and tight as the seven houses will be will only cause a lot of problems because there is one driveway going in. She was totally against seven houses being built, and even felt that six houses were too many.

Ms. D. Hines voiced concerns about where the vehicles will park that belong to the residents in the new subdivision. She explained that when the houses are so close, that there will be a lot of tension. She was in favor of building housing in the subdivision, but urged Council to reduce the units to six.

Upon inquiry of Vice-Mayor Cloninger, Planning & Development Director Scott Shuford said that the RFPs will not come back to City Council unless Council wants to see the final plan. He explained that subdivisions are approved by the Technical Review Committee and they can be appealed to the Planning & Zoning Commission. Again, this is a concept that shows a couple of shared driveways. The ultimate design may not match this concept. He said that they have had some adjustments in how they would approach a cul-de-sac and they may be able to have a few dollars saved with a smaller cul-de-sac on East End Place.

When Councilwoman Field asked if this site would be better served as multi-family, Mr. Shuford said that the community desires single-family homes.

Mr. Eric Goslin, area resident and real estate agent, said that in the subdivision's current design, he doesn't see how it is marketable. He felt that low income people are not willing to spend nor are they willing to buy into this subdivision because of the shared drive issue and also the fact that there is no availability of land to further add onto the house. Also, access onto Martin Luther King Jr. Drive from two of the houses will be hard due to a blind spot. He suggested having six units built and have one drive going out on East End Place.

Ms. Glenda McDowell, President of the East End/Valley Street Association, urged City Council to do this project. She said that as the years go by, neighborhoods change and so do their opinions. They have been waiting since 1969 for single family homes in this community. In defense of the City, she explained that five homes were originally proposed for this site and it was the residents at the meeting in May of 1997 that wanted seven homes built.

Upon inquiry of Vice-Mayor Cloninger, Ms. Caplan said that if a developer felt he could not market seven units on that property, in all likelihood they would not respond to the RFP.

As an architect, Councilwoman Field said that she sees many ways to expand on the lots. Staff has worked long and hard on this project and she felt it was time to move forward.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Bellamy moved the East End Place Subdivision plan be comprised of six lots. This motion was seconded by Councilman Peterson.

Councilwoman Field made a substitute motion that the East End Place subdivision be comprised of seven lots. This motion was seconded by Councilman Hay. Said motion was defeated on a 3-3 vote, with Vice-Mayor Cloninger, Councilwoman Field and Councilman Hay voting "yes" and Councilwoman Bellamy, Councilman Peterson and Councilman Worley voting "no".

Therefore, a vote was taken on the original motion made by Councilwoman Bellamy and seconded by Councilman Peterson that the East End Place Subdivision plan be comprised of six lots. Said motion carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 188

V. NEW BUSINESS:

A. RESOLUTION NO. 00-183 - RESOLUTION APPOINTING MEMBERS TO THE ADA COMPLIANCE COMMITTEE

Vice-Mayor Cloninger said that this is the consideration of a resolution appointing members to the Americans with Disabilities Act Compliance Committee.

The terms of Carole Williams and Glenda McDowell, as members on the ADA Compliance Committee, expired on August 22, 2000.

At City Council's worksession on September 5, 2000, City Council instructed the City Clerk to prepare the proper paperwork to reappoint Ms. Williams (representing the business or non-profit sector) and Ms. McDowell (representing the education and health/medical profession) to each serve an additional three year term, terms to expire August 22, 2003, or until their successors have been appointed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-183. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 189

B. RESOLUTION NO. 00-184 - RESOLUTION ENDORSING AN APPOINTMENT TO THE OPPORTUNITY CORPORATION OF MADISON AND BUNCOMBE COUNTIES

Vice-Mayor Cloninger said that this is the consideration of a resolution endorsing the reappointment of Ms. Cathy Pollock as one of the City's representatives to the Opportunity Corporation of Madison-Buncombe Counties.

The term of Ms. Cathy Pollock, as a City representative to the Opportunity Corporation of Madison-Buncombe Counties, expired April 22, 2000.

The Opportunity Corporation has asked that the Mayor reappoint Ms. Pollock to serve on their Board for an additional three year term, term to expire in April of 2003.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Bellamy moved for the adoption of Resolution No. 00-184. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 190

C. RESOLUTION NO. 00-185 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING AND ZONING COMMISSION

Vice-Mayor Cloninger said that this is the consideration of a resolution appointing members to the Planning & Zoning Commission.

The terms of Jan Davis and Billie Buie, as members on the Planning & Zoning Commission, expired on August 14, 2000.

At City Council's worksession on September 5, 2000, City Council instructed the City Clerk to prepare the proper paperwork to reappoint Mr. Davis and Ms. Buie to each serve an additional three year term, terms to expire August 14, 2003, or until their successors have been appointed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 00-185. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 191

D. RESOLUTION NO. 00-186 - RESOLUTION APPOINTING MEMBERS TO THE RIVER DISTRICT DESIGN REVIEW COMMITTEE

Vice-Mayor Cloninger said that this is the consideration of a resolution appointing a member to the River District Design Review Committee.

Kimberly Hodges has resigned as a member of the River District Design Review Committee leaving an unexpired term until September 1, 2001.

At City Council's worksession on September 5, 2000, City Council instructed the City Clerk to prepare the proper paperwork to appoint Mr. Ken Fulford (design professional) to serve the unexpired term of Ms. Hodges, term to expire September 1, 2001, or until his successor has been appointed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-186. This motion was seconded by Councilman Peterson and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 192

E. RESOLUTION NO. 00-187 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Cloninger said that this is the consideration of a resolution appointing a member to the Asheville-Buncombe County Tourism Development Authority to serve a three year term.

The term of Don Tomlinson (representing an owner or operator of a hotel with over 100 rooms) expired on August 30, 2000.

At City Council's worksession on September 5, 2000, City Council instructed the City Clerk to prepare the proper paperwork to reappoint Mr. Tomlinson to serve an additional three year term, term to expire August 30, 2003, or until his successor has been appointed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 00-187. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 193

F. RESOLUTION NO. 00-188 - RESOLUTION APPOINTING MEMBERS TO THE VICTORIA OF ASHEVILLE BOARD OF DIRECTORS

Vice-Mayor Cloninger said that this is the consideration of appointing members to the Board of Directors of Victoria of Asheville Inc.

The terms of Doug Spell, Bill Schaefer and Ben Durant, as members of the Board of Directors of Victoria of Asheville Inc., expire on November 29, 2000.

At City Council's worksession on September 5, 2000, City Council instructed the City Clerk to prepare the proper paperwork to reappoint Mr. Spell, Mr. Schaefer and Mr. Durant to each serve an additional three year term, terms to expire November 29, 2003, or until their successors have been appointed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hay moved for the adoption of Resolution No. 00-188. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 194

G. RESOLUTION NO. 00-189 - RESOLUTION APPOINTING A MEMBER TO THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON COUNTY

Vice-Mayor Cloninger said that this is the consideration of a resolution appointing a member to the Regional Water Authority of Asheville, Buncombe and Henderson County to serve a three year term.

The term of J. Lewis Daniels expires on September 30, 2000.

At City Council's worksession on September 5, 2000, City Council instructed the City Clerk to prepare the proper paperwork to reappoint Mr. Daniels to serve an additional three year term, term to expire September 30, 2003, or until his successor has been appointed.

Vice-Mayor Cloninger said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-189. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 195

VI. OTHER BUSINESS:

A. RESOLUTION NO. 00-190 – RESOLUTION CONFERRING MAYOR'S POWERS AND DUTIES UPON VICE-MAYOR

City Attorney Oast read the following resolution: G.S. 160A-70 provides for the election of a Mayor pro tempore, and further provides for the powers and duties of the Mayor to be conferred by Council upon the Mayor pro tempore, in the absence of the Mayor, and Sec. 10 of the Asheville City Code, and Rule 10 of City Council's Rules of Procedure provide to similar effect with respect to the office of Vice-Mayor; and, Mayor Sitnick is absent from the City and is not anticipated to return until October 1, 2000. Now, therefore, be it resolved by the City Council of the City of Asheville that the powers and duties of Mayor are hereby conferred upon the Vice-Mayor, effective immediately and continuing until 8:00 a.m. on October 1, 2000, or until such sooner time as the City Manager is advised that the Mayor is no longer absent.

Councilman Hay moved for the adoption of Resolution No. 00-196. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 25 – PAGE 196

B. LAWSUIT

The City was served with a Petition for Review of Annexation Ordinance on August 11, 2000, which is generally described as follows: Ridgefield Properties, et al. v. City of Asheville. The nature of proceeding is to declare the annexation ordinance for Annexation Area 2001-D to be null and void and to declare Annexation Area 2001-D not eligible for annexation by the City of Asheville. This matter will be handled by William F. Slawter.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Vice-Mayor Cloninger adjourned the meeting at 7:48 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 3, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Senior Opportunity Center Roof Replacement Contract

Summary: The consideration of a resolution authorizing the City Manager to enter into a roof replacement contract for the Senior Opportunity Center.

In an effort to maintain City facilities, City staff, through the capital improvement process, has determined the Senior Opportunity Center requires a new roof. City staff solicited sealed bids from eleven roofing contractors, three of which were minority contractors, to supply and install a new roofing system. City staff received bids from four qualified bidders as follows:

Construction Advantage, Inc.	$43,715.00
Service One, Inc.	$42,483.00
Stroup Sheet Metal Works, Inc.	$42,459.00
Carolina Mountain Roofing and Const., Inc.	$42,187.00

City staff has reviewed all bids and determined that Carolina Mountain Roofing and Construction, Inc. is the lowest bidder. City staff recommends acceptance of the total bid amount of $42,187.00.

Approved funding is available in the capital improvement project account to pay for this roof replacement for Senior Opportunity Center.

The Parks and Recreation Department requests City Council approve the City Manager to enter into a contract for $ 42,187.00 with Carolina Roofing and Construction, Inc., for the roof replacement contract at the Senior Opportunity Center.

Budget Amendment for 2000 Senior Center Appropriation

Summary: The consideration of a budget amendment, in the amount of $12,194, for the annual appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging, to establish a budget for the next phase of improvements at the Senior Opportunity Center and Harvest House.

The City of Asheville applied for funds in September 2000 for the 2000 Senior Center Allocation from the State of North Carolina, Department of Health and Human Services, Division on Aging. The allocation was recently awarded in the amount of $12,194 and designated for facility improvements and purchasing equipment at Senior Opportunity Center and Harvest House.

The Parks and Recreation Department is responsible for the management and operation of two senior centers. The annual allocation from the State of North Carolina will assist the department in implementing facility improvements or purchasing equipment and supplies.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $12,194, to establish a budget for the next phase of improvements at Senior Opportunity Center and Harvest House.

Motorola Renewal Maintenance Agreement on City's Radio System

Summary: The consideration of a resolution authorizing the City Manager to execute a service agreement renewal with Motorola Communications and Electronics Inc. to provide maintenance of the City's radio communication system for another year at the cost of $12,611.30 per month.

Motorola Communications and Electronics, Inc. has provided maintenance services for the City's radio communications system since installation of the system in 1992. Effective with the service agreement covering the period of September 1994 through August 1995, the maintenance cost per unit of equipment has been fixed. The service agreements are renewed annually. The maintenance cost per unit of equipment for the renewal period of September 1, 2000, through August 31, 2001, remains fixed at the original cost per unit.

This renewal agreement reflects a monthly increase of $156.85, which covers additional equipment purchased by the City that has come out of warranty during the past year. The monthly cost of this service is $12,611.30.

Funds have been appropriated in the Finance Department, Information Services Division, in Account No. 110-1005-415-3001 C44108 to cover the monthly cost of this agreement.

The Finance Department requests City Council authorize the City Manager to execute a renewal of the service agreement with Motorola Communications and Electronics, Inc. to provide maintenance of the City's radio communication system for another year at the cost of $12,611.30 per month.

Support for the Pack Square Renaissance Project

Summary: The consideration of a resolution expressing endorsement of and support for the Pack Square Renaissance Project.

The Pack Square Task Force, a public/private partnership created to direct the project, is requesting the approval and adoption of this resolution. Along with numerous other letters of support, the resolution would be used to garner additional public support for the project as well as to aid fundraising efforts. The conceptual plan, which resulted from a three-day public design workshop involving the participation of hundreds of citizens, has previously been presented to Council.

City staff recommends City Council adopt the resolution expressing endorsement for the Pack Square Renaissance Project.

Upon inquiry of Mayor Sitnick, City Manager Westbrook said that adoption of this resolution dos not commit the City to the expenditure of any additional funds.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

RESOLUTION NO. 00-191 – RESOLUTION SUPPORTING ESTABLISHMENT OF NON-STOP COMMERCIAL AIRLINE SERVICE BETWEEN ASHEVILLE AND NEW YORK CITY

Ms. Kathryn Solee, Director of Marketing and Public Relations for the Asheville Regional Airport, explained their efforts to establish regular non-stop commercial airline service between the Asheville area and the New York City area. She said that their purpose is to energize regional economic development through the improvement in air services offered at the Asheville Regional Airport, for the mutual benefit of the region and the airport. With the use of overheads, she explained what the New York City connection would mean to Western North Carolina. She then explained why Continental Airlines would fit that need for Asheville and how Delta Air Lines, US Airways and American do not. She pointed out that the Airport is limited by the FAA on what it can use it funding for, however, they are committed to providing funds for advertising support and cost reductions. She explained how the community could support the service including in-kind support. She then reviewed the action plan and assignments of various groups. She said that she and the Airport Director have an appointment in Houston, Texas, on October 5, 2000, to meet with Continental Airlines to discuss the possibility of them serving Asheville and asked for City Council's support.

Ms. Solee answered questions from Mayor Sitnick about Mid-West Airline and their travel opportunities.

Councilman Worley moved to waive the rules and take formal action. This motion was seconded by Councilwoman Bellamy and carried unanimously.

City Attorney Oast read the following resolution: The Asheville Regional Airport desires to establish regular non-stop commercial airline service between the Asheville area and the New York City area. New York City is the number one travel destination for users of the Asheville Regional Airport. Surveys conducted by the Airport Authority indicate sufficient interest in travel between Asheville and New York, for business and for pleasure, that establishment of regular non-stop commercial airline service will have a ready market, and is likely to be economically feasible. The Airport Authority is currently negotiating with Continental Airlines to provide regular non-stop commercial airline service between Asheville and New York, and Continental Airlines has the opportunity and ground facilities to provide said service. Now, therefore, be it resolved by the City Council of the City of Asheville that the efforts of the Asheville Regional Airport and the Airport Authority to work with Continental Airlines to provide non-stop regular commercial airline service between Asheville and New York City are hereby endorsed and supported. Be it further resolved that if regular non-stop commercial airline service is established between Asheville and New York, the City of Asheville will make every reasonable effort to encourage the use of said service.

Councilman Worley moved to adopt Resolution No. 00-191. This motion was seconded by Councilwoman Bellamy and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 197

REPORT ON SHELTERED WAITING AREA AT TRANSIT CENTER

Transit Services Director Bruce Black said that City Council requested staff look at possible alternatives to the issue of passengers being exposed to weather while they wait at the Transit Center.

As such, an attempt was made to lower the existing heating units. This was not successful. The possibility of finding some sort of heating unit that would work in the present configuration was addressed and there appears to be no such unit. Therefore, an architect was hired and asked to address the issue. The conceptual plans include a recommendation that a waiting room be constructed by adding to the existing ticket building. The conceptual plans are for an addition of a 540 square foot heated room with seating for 41 people.

If Council wishes to pursue this alternative, staff requests authorization for the City Manager to enter into a professional services contract with the architect to design and bid this project. Following receipt of bids, the consideration of award will be presented to Council for action. To move forward with final design, staff estimates a cost of $10,000 - $15,000.

City staff recommends City Council evaluate the proposed alternative and if desirous of moving forward with this alternative, authorize the City Manager to enter into a professional services contract to prepare final plans and bid the project.

Councilwoman Field asked why the City went to a different architect to address the heating issue other than the one who designed the building. Mr. Black said that the architect who designed the building said that the heating system wouldn't work and he advised the Transit Authority not to proceed. However, the Transit Authority elected to proceed anyway and the architect wanted nothing more to do with the project.

Councilwoman Field pointed out that since the fee for the final design is approximately $10-15,000, then the structure will cost between $100-150,000. As an architect, she felt that $100-150,000 was too much to build a 540 square foot building.

There was discussion about other possible ways to try to shelter people from the elements at the Transit Center.

Mr. Black said that the architect was advised that the City wanted to maintain the look of the current transit center. However, he would contact them to see if they would meet with City Council to explore other options and still achieve Council's desire to have a warm, safe and dry place for transit customers at a lower cost.

REPORTS ON BOARDS AND COMMISSIONS

Vice-Mayor Cloninger, Chair of the City Council Boards and Commissions Committee, briefly reviewed with Council the next quarterly appointment process and vacancies.

ADMINISTRATIVE MATTERS

It was the consensus of City Council to cancel the worksession for the week of October 16, 2000, due to the N.C. League of Municipalities Annual Convention in Fayetteville, N.C.

It was the consensus of City Council to appoint Councilwoman Bellamy (delegate) and Councilman Hay (alternate) as the voting delegation at the National League of Cities Conference in Boston, Massachusetts, in December, 2000.

CLOSED SESSION

At 4:14 p.m., Councilman Hay moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in G.S. 143-318.11(a)(5). This motion was seconded by Councilman Worley and carried unanimously.

At 4:35 p.m., Councilwoman Field moved to come out of closed session. This motion was seconded by Councilwoman Bellamy and carried unanimously.

MISCELLANEOUS MATTERS

Brief discussions were held about (1) the proposed television system in the Council Chamber; (2) an article that appeared in the newspaper regarding the Sayles Bleacheries site Board of Adjustment decision and Dennis Hodgson's service on said Board.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:37 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 10, 2000 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Brian L. Peterson

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION OF KEY TO THE CITY TO ROSE QUALLEY

Mayor Sitnick presented the Key to the City to Rose Qualley (Andie MacDowell) .

B. PROCLAMATION PROCLAIMING OCTOBER, 2000, AS "ASHEVILLE SISTER CITIES MONTH"

Councilman Hay read the proclamation proclaiming October, 2000, as "Asheville Sister Cities Month" in the City of Asheville. He presented the proclamation to Ms. Mary Lasher and Mr. Tom Sanders who briefed City Council on some activities taking place during the month.

II. CONSENT:

Councilwoman Bellamy recognized Ms. Corrine Hines, 5th grader at Glory Tabernacle, who has a strong interest in politics.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 26, 2000, AND THE WORKSESSION HELD ON OCTOBER 3, 2000

B. RESOLUTION NO. 00-192 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH CAROLINA ROOFING AND CONSTRUCTION INC. FOR THE SENIOR OPPORTUNITY CENTER ROOF REPLACEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to enter into a roof replacement contract for the Senior Opportunity Center.

In an effort to maintain City facilities, City staff, through the capital improvement process, has determined the Senior Opportunity Center requires a new roof. City staff solicited sealed bids from eleven roofing contractors, three of which were minority contractors, to supply and install a new roofing system. City staff received bids from four qualified bidders as follows:

Construction Advantage , Inc.	$43,715.00
Service One, Inc.	$42,483.00
Stroup Sheet Metal Works, Inc.	$42,459.00
Carolina Mountain Roofing and Const., Inc.	$42,187.00

City staff has reviewed all bids and determined that Carolina Mountain Roofing and Construction, Inc. is the lowest bidder. City staff recommends acceptance of the total bid amount of $42,187.00.

Approved funding is available in the capital improvement project account to pay for this roof replacement for Senior Opportunity Center.

The Parks and Recreation Department requests City Council approve the City Manager to enter into a contract for $ 42,187.00 with Carolina Roofing and Construction, Inc., for the roof replacement contract at the Senior Opportunity Center.

RESOLUTION BOOK NO. 26 – PAGE 198

C. ORDINANCE NO. 2754 - BUDGET AMENDMENT TO ESTABLISH A BUDGET FOR THE NEXT PHASE OF IMPROVEMENTS AT THE SENIOR OPPORTUNITY CENTER AND HARVEST HOUSE

Summary: The consideration of a budget amendment, in the amount of $12,194, for the annual appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging, to establish a budget for the next phase of improvements at the Senior Opportunity Center and Harvest House.

The City of Asheville applied for funds in September 2000 for the 2000 Senior Center Allocation from the State of North Carolina, Department of Health and Human Services, Division on Aging. The allocation was recently awarded in the amount of $12,194 and designated for facility improvements and purchasing equipment at Senior Opportunity Center and Harvest House.

The Parks and Recreation Department is responsible for the management and operation of two senior centers. The annual allocation from the State of North Carolina will assist the department in implementing facility improvements or purchasing equipment and supplies.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $12,194, to establish a budget for the next phase of improvements at Senior Opportunity Center and Harvest House.

ORDINANCE BOOK NO. 18 – PAGE 486

D. RESOLUTION NO. 00-193 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SERVICE RENEWAL AGREEMENT WITH MOTOROLA COMMUNICATIONS AND ELECTRONICS INC. TO PROVIDE MAINTENANCE OF THE CITY'S RADIO COMMUNICATION SYSTEM

Summary: The consideration of a resolution authorizing the City Manager to execute a service agreement renewal with Motorola Communications and Electronics Inc. to provide maintenance of the City's radio communication system for another year at the cost of $12,611.30 per month.

Motorola Communications and Electronics, Inc. has provided maintenance services for the City's radio communications system since installation of the system in 1992. Effective with the service agreement covering the period of September 1994 through August 1995, the maintenance cost per unit of equipment has been fixed. The service agreements are renewed annually. The maintenance cost per unit of equipment for the renewal period of September 1, 2000, through August 31, 2001, remains fixed at the original cost per unit.

This renewal agreement reflects a monthly increase of $156.85, which covers additional equipment purchased by the City that has come out of warranty during the past year. The monthly cost of this service is $12,611.30.

Funds have been appropriated in the Finance Department, Information Services Division, in Account No. 110-1005-415-3001 C44108 to cover the monthly cost of this agreement.

The Finance Department requests City Council authorize the City Manager to execute a renewal of the service agreement with Motorola Communications and Electronics, Inc. to provide maintenance of the City's radio communication system for another year at the cost of $12,611.30 per month.

RESOLUTION BOOK NO. 26 – PAGE 199

E. RESOLUTION NO. 00-194 - RESOLUTION OF SUPPORT FOR THE PACK SQUARE RENAISSANCE PROJECT

Summary: The consideration of a resolution expressing endorsement of and support for the Pack Square Renaissance Project.

The Pack Square Task Force, a public/private partnership created to direct the project, is requesting the approval and adoption of this resolution. Along with numerous other letters of support, the resolution would be used to garner additional public support for the project as well as to aid fundraising efforts. The conceptual plan, which resulted from a three-day public design workshop involving the participation of hundreds of citizens, has previously been presented to Council.

City staff recommends City Council adopt the resolution expressing endorsement for the Pack Square Renaissance Project.

RESOLUTION BOOK NO. 26 – PAGE 200

F. RESOLUTION NO. 00-105 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CHARRON SPORTS SERVICES INC. FOR THE CIVIC CENTER BLEACHER RENOVATION PROJECT

Summary: The consideration of authorizing the City Manager to enter into a contract with Charron Sports Services, Inc., for the Civic Center Bleacher Renovation Project.

The Civic Center has considered the bleachers a major Capital Improvement Project for some time. To purchase new ones, however, could cost as much as one million dollars. Earlier in the year, Council directed the staff to create a plan that would aid the City in maintaining services at the venue until the Task Force made it's recommendations regarding the future direction of the facility. Funding was an important issue.

The staff has found a solution regarding the bleacher project. A firm has been located that will completely renovate the bleachers to an "as new" condition. Those located on the north and west sides of the building will be motorized for ease of installation and removal at events. Original parts will be used where possible. The company also has the ability to reproduce parts comparable to new ones. New handrails will be installed that will greatly reduce the need for labor. The overall labor savings per installation is estimated to be approximately $2,000.00.

In addition, the firm will include in the price a one-year warranty to include both parts and labor. The total cost of the project is $85,895.00. This work only covers the structural work to the bleachers themselves.

Only one company could be found with the capabilities to complete such an extensive project. Some of their employees were involved with the original installation. They can retrofit the bleachers back to a like new condition. They are also giving the City a one-year warranty on both parts and labor. In addition, the City can see immediate financial return from the motorization of two of the three sections. Furthermore, the project is far less expensive than an outright purchase of new equipment.

Funding for this project was approved with the adoption of the Fiscal Year 2000-01 Capital Improvement Program.

The staff recommends that City Council authorize the City Manager to enter into a contract with Charron Sports Services Inc., for the Civic Center Renovation Project.

RESOLUTION BOOK NO. 26 – PAGE 201

G. MOTION SETTING A PUBLIC HEARING ON OCTOBER 24, 2000, TO CONSIDER THE REZONING OF PROPERTY LOCATED OFF OF SWEETEN CREEK ROAD AND ROSSCRAGGON ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO CB II COMMUNITY BUSINESS II DISTRICT, AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

H. MOTION SETTING A PUBLIC HEARING ON OCTOBER 24, 2000, TO INITIALLY ZONE 65 AND 67 LONG SHOALS ROAD TO OFFICE BUSINESS DISTRICT

I. RESOLUTION NO. 00-196 - RESOLUTION MODIFYING THE CITY COUNCIL MEETING SCHEDULE IN ORDER TO CANCEL THE WORKSESSION ON OCTOBER 17, 2000, AND THE COMMUNITY MEETING ON OCTOBER 31, 2000

RESOLUTION BOOK NO. 26 – PAGE 202

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Bellamy and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED AT 38 SYCAMORE ROAD FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT (CONDITIONAL USE ZONING) AND ISSUANCE OF A CONDITIONAL USE PERMIT

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

City Attorney Oast said that a valid protest petition has been filed in connection with the rezoning request which will require an affirmative vote of all six members of Council present in order to allow the rezoning. If the rezoning passes, City Council will then consider the particulars of the conditional use permit requested. With regard to the conditional use rezoning, City Council should remember that they voting on the general legislative question of whether it is appropriate to rezone this property to allow for some particular use with conditions. City Council is not voting at that time to issue the conditional use permit. If, and when, it comes time to vote on the conditional use permit, City Council may then consider what conditions are appropriate for that particular use.

The following Council members disclosed that they visited the site: Mayor Sitnick, Vice-Mayor Cloninger, Councilwoman Bellamy and Councilmen Hay and Worley.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:37 p.m.

Chief Planner Gerald Green said that this is a request to rezone property allow a larger non-residential use than permitted under the current zoning. Throughout our City in all our residential districts, a variety of non-residential uses are permitted. In various zoning districts the scale of these non-residential uses is limited due to the impact on neighborhoods. As part of our on-going strategy to implement the smart growth policies, the Planning & Development staff is reviewing standards for all non-residential uses in residential districts to identify reasonable sizes, the scale of the structures, parking, landscaping, and other items that could adversely impact the residential uses, if not addressed properly. This use before Council tonight is within the scale limits and meets all the criteria that have been identified thus far for day cares within any residential district within the. These standards have not been recommended for adoption by the Planning & Zoning Commission yet because staff is looking at so many non-residential uses, all of which are currently located in residential districts. The use before Council has been characterized as a commercial intrusion, however, staff does not see it as such. In looking at our smart growth policies, City staff has identified a number of issues which are addressed by the proposed use and the proposed zoning change. These include the wise use of natural and manmade resources, development policies which reduce the dependency on automobile travel by placing a variety of uses in close proximity, by encouraging a mixture of uses within an area, by promoting compatible land uses that serve the residents of a community, and by encouraging the traditional neighborhood development pattern in which residences, schools, churches and small scale commercial and office uses are all located in the same neighborhood.

Mr. Dan Baechtold, Urban Planner, submitted into the record the Affidavit of Publication (City Exhibit 1), the Certification of Mailing of Notice to Property Owners (City Exhibit 2), and the Staff Report (City Exhibit 3). This public hearing was advertised on September 29 and October 6, 2000.

Mr. Baechtold said that this is the consideration of an ordinance to rezone property located at 38 Sycamore Road from Residential Single-Family High Density District to RM-16 Residential Multi-Family High Density District (conditional use zoning), and issuance of a conditional use permit for a Montessori pre-school (child day care center) and single-family residence.

The Planning and Zoning Commission reviewed this project on September 6, 2000, and took action to recommend approval (5-1) of the rezoning and conditional use permit with conditions. The request is to rezone one lot of just under an acre in size. The lot is currently occupied by one single-family residence, and the owner operates a Montessori pre-school for eight children. The pre-school is a permitted use in the RS-8 District as a child day care home. The applicant wishes to place a building of 1,100 square feet next to the existing residence, and construct a new circular driveway. The proposed site plan shows minimal site disturbance and minimal removal of existing vegetation. The owner would like to expand the pre-school to a maximum enrollment of 25 children.

The lot is located just off of Beaverdam Road, on a private access road that serves four homes (City Exhibit 4). Two of those homes face Beaverdam Road, and have driveway access onto Beaverdam Road. Thus, the access road provides primary access for just two property owners. Beaverdam Road carries approximately 6,000 cars per day in this location. There is a 30-foot public right of way associated with a portion of the road (City Exhibit 5). This short section of Sycamore Road does not connect to the other portion of Sycamore Road. Therefore, the traffic at drop-off and pick-up times will have minimal conflict with existing residential traffic. The property owner proposes to construct an off street circular driveway to facilitate drop-off and pick-up (City Exhibit 6). The owner also proposes to construct a multi-sided building which will house the day care. He showed a drawing (City Exhibit 7) which shows a prospective on the existing trees along the property boundary which are all to remain, except for a couple of smaller apple trees where they are proposing to construct the building. In addition to the proposed circular driveway, the property owner has offered (and it was a condition of the Planning & Zoning Commission) to widen the paved portion of the access road between 18-20 feet. The property owner has offered to assume maintenance responsibilities of the road if they can work out the agreements with the other people who share that private road. He then showed Council a rendering of what the new building would look like (City Exhibit 8) (City Exhibit 9).

Planning staff recommends approval of the rezoning, and the issuance of a conditional use permit. The zoning change is from one residential category to another residential category. The existing zoning of the property already permits uses such as child day care homes, schools, and churches. Through the conditional use process, the residential density will not increase. The only uses that will be allowed on the site are a single-family residence and a child day care center for 25 children. The only increase in intensity on the site will be an additional 17 children in the Montessori pre-school. With the widening of the access road and the circular drive for drop-off and pick-up, the traffic concerns can be mitigated and also with the appropriate buffering, any other impacts such as noise, can also be addressed.

The conditional use zoning tool provides an opportunity to ensure that the community has appropriately located essential services. Further, the tool ensures that these uses are in harmony with the surrounding area, and that any negative impacts are mitigated. Day care is an essential service to neighborhoods and to the community as a whole. Smart growth principles suggest that strong residential neighborhoods should include essential services such as schools and day care centers.

At the Planning and Zoning Commission public hearing on this matter, several persons spoke in favor of the rezoning request, and several neighboring residents spoke in opposition to the request. Several of those opposed were represented by an attorney. The staff recommendation below includes the recommended conditions of the Planning and Zoning Commission.

Planning and Development staff recommends approval of an ordinance to rezone property located at 38 Sycamore Road to Residential Multi-Family 16 (conditional use zoning) and issuance of a conditional use permit with the following conditions: (1) Uses will be limited to a single-family residence, and a child day care center with a maximum enrollment of 25 children; (2) Site development and building design shall be regulated by the proposed site plan and building elevation drawings that are approved as part of the conditional use permit; (3) Maintain a 25-foot "Type C" buffer between the new building and neighboring property lines and eliminate any parking spaces from this buffer; (4) Widen the access road from Beaverdam Road to the new driveway entrance to a travel width of 18 feet, as determined by the City Traffic Engineer. Property owner will also agree to assume maintenance of this roadway section; (5) Complete the Level I site plan review process; and (6) Buffer area should not be used as credit toward required outside play area.

Councilman Worley asked why the zoning change is requested from RS-8 to RM-16. Mr. Baechtold said that under the RS-8, child day care homes are permitted for eight children in a day care setting, however the RM-16 district allows child day care centers that would not limit the number of children – it is the conditional use permit and the applicant's proposal that would limit the number to 25.

Upon inquiry of Councilman Worley, Mr. Baechtold did state that this proposal would meet the scale for non-residential uses in residential neighborhoods that is in process of working its way through the Planning & Zoning Commission. Mr. Green also noted that if the proposed amendment is adopted by City Council, then there would be no need for a rezoning or a conditional use permit for this type of usage and this number of children, if the applicant met all the standards that are eventually adopted.

Ms. Patsy Meldrum, attorney for the applicant Blue Ridge Montessori School, said that they had no objection to the Mayor and City Council visiting the site. They also have not objection to the evidence presented by the City staff being made a part of the record. She said she will show how this application complies with the standards required for a conditional use permit. It has been recommended and approved by the Technical Review Committee, by the Planning & Zoning Commission and by City staff – all saying that this application complies with the standards required for conditional use zoning and a conditional use permit to be issued. Ms. Meldrum supplied City Council with a document entitled "Blue Ridge Montessori School Conditional Use Permit" which contained the Applicant's Exhibits. She also provided Mr. Lyman Gregory, attorney representing some of the surrounding property owners, with a copy as well. She entered into the record the following: Technical Review Committee minutes of August 21, 2000, showing that this application fully complies with the technical requirements (Applicant Exhibit 1); August 23, 2000, letter from Mr. Dan Baechtold to Ms. Gayle Rayfield regarding the approval by the Technical Review Committee and the conditions recommended (Applicant Exhibit 2); Rezoning petition fact sheet prepared by City staff for the Planning & Zoning

Commission on September 6, 2000 (Applicant Exhibit 3); excerpt from the September 6, 2000, Planning & Zoning Commission meeting minutes showing that the Planning & Zoning Commission recommended approval subject to conditions (Applicant Exhibit 4); and the Staff Report submitted to City Council prepared by Mr. Baechtold with attachments – including proposed staff findings showing that the application complies with all seven of the standards required to be met for a conditional use permit to be issued (Applicant Exhibit 5 and City Exhibit 3).

Ms. Gayle Rayfield, property owner of 38 Sycamore Road and Director of the Blue Ridge Montessori School, gave a brief history of the School which was started in October of 1999 with four children – they now have a waiting list of over 30 parents. She said she has a Masters Degree in Montessori Education. She explained the proposed daily schedule (Applicant Exhibit 6) showing the amount of time the children will be at the school, noting that they do encourage carpooling. She stressed that they are not just a day care, but are actually a Montessori pre-school. The maximum number of children in the center at any one time would be 25 and that would be the same 25 children throughout the day as opposed to a different 25 coming in at different times. She showed a site plan of the existing building to indicate where the parents currently drop off the children and where the play area is for the children (Applicant Exhibit 10). With the use of a tax map (Applicant Exhibit 7) and certified copy of Plat Book 31 at page 65 (Applicant Exhibit 9) Ms. Rayfield oriented Council on the site location. She presented a certified copy of her deed for the subject property (Applicant Exhibit 8). She said that the School currently has two teachers and if the conditional use permit is granted, they would hire at least one other aid in the classroom. She showed the proposed buildings on the site (Applicant Exhibit 11) and where parking is proposed. She said that anyplace that will not be used for the proposed gravel driveway would remain lawn. She presented a drawing of the proposed circle lot (Applicant Exhibit 12 and City Exhibit 6) showing the dimensions of the proposed driveway. She described what the existing building is like compared to the proposed building (Applicant Exhibit 13 and City Exhibit 8). She said that the property is secluded (Applicant Exhibit 14 and City Exhibit 7) and all the trees would remain, except a couple of little crabapple trees. She said they were careful to place the building were no trees would have to be cut. She also outlined where the children's play area would be. She explained why they chose the particular structure for the proposed building (Applicant Exhibit 15 and Applicant Exhibit 16). She said that she was familiar with the Smart-Start Program in Buncombe County and has seen the Executive Summary of "The Early Childhood System in Buncombe County" (Applicant Exhibit 33) which shows the need for child care services in Buncombe County.

Councilwoman Bellamy asked if two cars could pass at the same time on the private road. Ms. Rayfield said that right now she didn't think they could, unless one pulled off the road onto the grass. She said there is a 30 foot right-of-way but most of it is very overgrown. That is why she is proposing to have this repaved and widened. She said she does not have to get an easement from the existing property owner to widen the road (Applicant Exhibit 9).

Councilwoman Bellamy noted that that there is a sharp curve on Beaverdam Road before you get to Sycamore Road. She asked if there are any plans for additional signage after the road is widened because there is a blind spot coming off Sycamore Road. Ms. Rayfield responded that that issue has never been brought up before. She then explained that the speed limit right at the entrance of Sycamore Road was recently lowered to 25 mph (Applicant Exhibit 34).

Upon inquiry of Councilwoman Bellamy, Ms. Rayfield said that the current road width is approximately 12 feet wide and they are proposing to widen it to 18 feet. They will only be paving the portion from Beaverdam Road to the end of where the current paving ends and her driveway begins.

Ms. Rayfield responded to Councilwoman Bellamy's questions regarding parking on the property.

Ms. Meldrum entered into the record a certified copy of Plat Book 29 at Page 154 (Applicant Exhibit 31) showing that the front lots on Sycamore Road, showing that the width of Sycamore Road is 30 feet.

Upon inquiry of Councilwoman Field, Ms. Rayfield explained that Montessori is basically a method of education, a philosophy of teaching using respect for the child and learning through the senses.

Discussion surrounded Councilman Hay's question about access on Sycamore Road. Ms. Meldrum said that there is a recorded plat (Applicant Exhibit 31) showing a 30 foot right-of-way. Another plat (Applicant Exhibit 9) shows the subdivision of Lot 5 into two, and there is still a recorded 30 foot right-of-way which all of the original five lots have the benefit of off of Beaverdam Road (Applicant Exhibit 32). Councilman Hay said that the deed (Applicant Exhibit 8) is to only Lot 5-A, not 5-A plus the remainder of Lot 5. Ms. Meldrum explained that the plat was recorded prior to the deed being recorded, but when that deed was recorded, it was taken subject to that plat, thereby getting the benefit of the recorded right-of-way.

Councilwoman Bellamy asked if the 30-foot right-of-way is being used by any other residents. Ms. Rayfield said that both properties that front on Beaverdam do have access onto Sycamore Road (Applicant Exhibit 17).

Councilman Hay asked Ms. Rayfield if she moved to that property to establish a Montessori school. Ms. Rayfield responded that she did not, however, it did turn out to be a perfect location due to it being a dead-end street with very little traffic and all the trees that surround the property make it private.

City Attorney Oast agreed with Councilman Worley in that if Council did rezone the property and grant the conditional use permit with one of the conditions being to enlarge the pavement and there is not sufficient right-of-way to do that, then the condition could not be met and the use could not be put into place.

Councilwoman Bellamy asked if this new development would require a sidewalk under our current ordinance. Mr. Green responded that sidewalks are required for all new non-residential development and his interpretation at this point would be that a sidewalk would be required along the street frontage. If Council feels that a sidewalk would be appropriate, then they could place that as one of the conditions in the conditional use permit. If Council feels that a sidewalk would not be appropriate, the property owner could go through the a fee in lieu of process.

Ms. Jane Douglas, part-time employer for Blue Ridge Montessori School, spoke to Council about her research on child care homes and child care centers in the north Asheville area (Applicant Exhibit 29). She said her research data is from the N.C. Dept. of Health and Human Services and also from the N.C. Division of Child Development Services. After calling all the centers and finding only one vacancy, her research indicated that there is very little to none child care facilities in north Asheville. Ms. Douglas then explained the utilities on the existing site, including the location of a fire hydrant on Beaverdam Road which is approximately 220 feet from the existing building (Applicant Exhibit 18). She then reviewed with Council a rendering showing the existing buffering and plantings in addition to any proposed plantings and buffering (Applicant Exhibit 19). She then outlined the play area behind the school, noting that there is enough play area, excluding the buffering area, as required by the state licensing board. She also reviewed photographs of the Sycamore Road area showing Ms. Rayfield's property, the school location, Beaverdam Road, and the access to the various homes in the area (Applicant Exhibit 30).

Upon inquiry of Mayor Sitnick, Ms. Meldrum explained what, if any, difference there is between the words Montessori school, child day care center and pre-school.

At 7:17 p.m., Mayor Sitnick announced a short break.

Mr. J. T. Black, licensed real estate agent and subcontractor, said that he has listed and sold property in the Beaverdam area. He explained what a market analysis is and said that he has performed a market analysis for property in the Beaverdam area. He said that he was familiar with Ms. Rayfield's property and other properties immediately adjacent to it. In addition, he is familiar with the plans for expansion of the School. It was his opinion that there would be very little impact to the actual values of the adjoining properties if the conditional use permit were granted.

Ms. Meldrum asked to enter into the record a letter from Mike Miller, real estate agent, who was unable to attend the meeting (Applicant Exhibit 27). Mr. Lyman Gregory, attorney for some adjoining property owners, objected to Mr. Miller's letter being entered into the record under the grounds that Mr. Miller is not present at this public hearing in order to be cross-examined.

City Attorney Oast said that Mr. Gregory is correct. In a court of law the letter from Mr. Miller would be hearsay. He cautioned City Council that they need to base their decision on competent evidence, although he did not know if it was necessary to exclude Mr. Miller's letter -- just that the author is not available for cross-examination and accord this particular piece of evidence the appropriate weight.

Mayor Sitnick said that if City Council is not allowed to enter into the record letters from the public, unless the authors are present, then she would assume that City Council should not enter Mr. Miller's letter into the record. City Attorney Oast said that typically such items are received into the record for whatever they are worth.

Ms. Meldrum explained that she believes this request meet the standards for both the rezoning and also for the conditional use permit. For the rezoning, a question might be raised if this would constitute an illegal spot zoning. Using the opinion of the N. C. Supreme Court in Chrismon v. Guilford County where spot zoning is defined, Ms. Meldrum explained how this property does not constitute spot zoning because of the conditional use process and the conditions imposed. She then went through the seven standards required to be met in order to issue a conditional use permit, and explained why the day care center meets all those standards.

Ms. Felicia Berry, family support specialist, said that she has compiled data from 65,000 surveys and preliminary indications show that there is a lack of quality child care in our area.

Mr. George Oerke, resident at 6 Spooks Branch Road, spoke in support of allow the Montessori School expand.

Ms. Marsha Hudsick, certified teacher in North Carolina, stated that it was extremely difficult to find good quality child care. She felt a multi-use neighborhood is a good solution.

Mr. Lyman Gregory, attorney representing some residents in the Sycamore Road area who are opposed to this request, presented City Council with a packet of Exhibits (Neighborhood Exhibit 1). He stated that he also furnished Ms. Meldrum with the information as well. He said that City Council is being asked to allow what would be an absolutely prohibited use with objectionable impacts into the middle of a residential neighborhood. He explained that child day care homes are a use allowed in RS-8, but they are a use by right subject to special conditions. He felt this would be a commercial child day care center on a one acre tract surrounded in a sea of residential zoning and residential use. Using his exhibits, he showed a picture of the entry into Sycamore Road to the proposed day care center and an aerial view of the neighborhood. In addition, he reviewed the existing zoning and page 96 out of the Asheville City Plan 2010, both showing entirely residential uses around the subject property.

Ms. Patricia Wald, resident at 29 Sycamore, said her only issue with this request is changing the status of her neighborhood in a way that she sees will have a devastating effect on her home and her life as she has known it for the last 20 years. She opposes rezoning of her neighborhood for the following reasons: (1) too much traffic on a small narrow street designed for people coming and going to their homes and it is unsuited for commercial use of any nature; and (2) noise and pollution that accompany that traffic. Her view goes from a residential front lawn to a large commercial driveway. People coming in and out of her neighborhood to use the applicant's business are people who don't live there and probably would not have the same concerns and level of care toward the neighborhood as those who do live there. What is perfect for the customers and the business owner is not perfect for the neighbors. She felt that property values will be negatively affected and homes that go up for sale in the area may take longer to sell. The applicant chose to move to a residential zoning area with the intention of operating a business. She said they have no objection to the need of day care, but it must be established in communities that residents benefit and where it does not disrupt and destroy the quality of life for existing residents. There is no one on Sycamore that has a child attending the day care center. She explained that both sides of Sycamore is one neighborhood. She said that there are 18 homes on the street, including the applicant's home, and 16 are opposed to this request. They believe that their rights as the unquestionable majority of the people directly affected by this request supercede those people living in other areas. She urged City Council to deny the rezoning request and to also deny the issuance of a conditional use permit.

Ms. Brenda Lewis, resident at 21 Sycamore Road, asked to present into the record a petition signed by 37 residents and property owners who are opposed to the rezoning in order to allow a conditional permit to be issued (Neighborhood Exhibit 2). Ms. Meldrum objected to the petition being entered into the record unless off of those who signed the petition are present. Mr. Gregory responded that since a component of this vote is on the legislative rezoning request, this petition would be in order for that portion of the vote. City Attorney Oast suggested that City Council accept the petition into the record for whatever it may be worth, bearing in mind that many of the signatories to that petition are not here and not subject to cross-examination.

Ms. Lewis said that the Sycamore Road residents feel that they have a right to be heard because it is their neighborhood. Ms. Rayfield's clients who do not live in the neighborhood should not be given the same voice as the people who live there. The great majority of people in the neighborhood oppose this use of a residential neighborhood for a business of this size. She said Ms. Rayfield has offered the carpooling of students, buffering, and widening the road at her expense, even though this would encroach upon properties of people who oppose the rezoning. A business of this size and potential noise, traffic and devaluation of property values is totally inappropriate for this small neighborhood. The residents are not against pre-schools and noted that there are several private pre-schools in north Asheville. They hope to maintain the status of their residential neighborhood and they ask that City Council vote against the conditional use rezoning.

Mr. Milo Garren, professional real estate agent and owner of property on Beaverdam Road, felt that there would not be a safe ingress or egress from Sycamore Road onto Beaverdam Road even if the bushes and trees were cut. As a real estate agent, one thing they evaluate is the ingress and egress aspect, along with safety and convenience as factors that affect value. That is the only ingress and egress for some area residents. He said that he has been in the real estate business for 25 years in Asheville and it is awfully hard for him to see how this would not impact negatively the property values of adjoining or abutting properties. It is his opinion that there is substantial injury to the property values, especially those people who are immediately adjacent and especially those people who use this property for their only form of ingress and egress.

Mr. Gregory pointed out that this is not a referendum on day care, it's about the impacts of a specific proposal to this area. He urged Council to focus on the standards that have to be applied for the issuance of a conditional use permit. On the rezoning issue in general, which is a legislative policy decision, you generally look if there is a reasonable basis for that or some kind of change of conditions in the area, which this request is not. He explained why he felt this property does constitute illegal spot zoning, relying on the same Chrismon v. Guilford County case. He then explained how several of the conditional use standards cannot be met for the conditional use permit to be issued. He said that if City Council approves this request, they will be making a significant precedent setting policy change for the City based on just one individual application. He noted that City staff is currently looking at this issue and developing standards, however, they have not been adopted. He felt City Council should wait until those standards are adopted before these kinds of decisions are made.

Mayor Sitnick asked if this conditional use zoning request is granted and becomes RM-16 and Council issues a conditional use permit for the day care center with a maximum of 25 students, is there a point in the future that this applicant, or someone who takes over this property to continue the school, could a request for a change in that condition or does the condition hold for the life of the use. Mr. Green said that the City cannot prevent any property owner from petitioning any change that is permitted through the legislative process in the City. The owner of the property could come in next year and request a different zoning. It is through the review process with City staff, the Planning & Zoning Commission and City Council that inappropriate uses are denied.

Ms. Tina Wolfe, representing her grandmother who lives at the corner of Sycamore and Spooks Branch, said that the day care center does not benefit the community and urged City Council to deny the rezoning request and not issue the conditional use permit.

Mr. Harold Garland, owner of three lots on Sycamore and two lots on Spooks Branch Road, talked to Council about the dangerous curve on Beaverdam Road. In addition, he wondered how the 12 foot right-of-way got expanded to 30 feet because he was involved in that development and it was 12 feet then. He urged City Council to not rezone this property and to not issue the conditional use permit.

Ms. Jacquelyn Schauer, architect in Asheville, said that day care is an important issue but it is a separate issue. She lives within 1/2 mile from this neighborhood and is very familiar with it. She feels that the shift from eight children in a home day care to 25 children day care center is a significant change, given this neighborhood of small lots. She wondered who would monitor the school to verify that they don't exceed the 25 children. She feels it's misleading to say that the parents just drop their children off and drive away because many times parents come in and observe the children, watch performances, attend award ceremonies, etc., and parking could become a problem. She felt this use is inappropriate for this neighborhood.

Ms. Gail Moody, homeowner in east Asheville, said that if Council grants this request, it could impact every residential neighborhood in Asheville. No one would argue that pre-school provides an essential service to the community. What must be determined is whether this is the appropriate place and does it warrant conditional use. The basic community function of the neighborhood is a safe, quite place for people to live. Not only with the operation of a 25 student pre-school not enhance the successful operation of Sycamore road in its basic community function, but the proposed building and circular drive is clearly not in harmony with the character of the small single-family neighborhood.

Ms. Meldrum pointed out that the comment about this being precedent setting and policy changing is not accurate because this is not setting a precedent for allowing this type of day care center in all residential neighborhoods. This is a specific request for a specific lot so it's not setting a precedent because you have to consider these on a case by case basis. Secondly, the City has throughout it's jurisdiction allowed day care homes and day care centers in residential areas and also non-residential uses in residential districts. So again, this is not a change -- it's just merely an affirmation of the policy that has already been in place to allow these types of non-residential uses, because they are compatible with residential uses - as are schools allowed in residential districts. She said she has provided plats showing that these are very different neighborhoods, platted at different times and different size lots. Also photographs of the two areas were shown showing the access to the two areas -- they are clearly two separate neighborhoods. Mr. Garren admitted himself that he is not a traffic engineer and we have clear and convincing evidence that this will not create a traffic hazard from the City's Traffic Engineer. With regard to Mr. Garren's testimony about property values, he said there may be some impact and that the market would decide. There is a case in North Carolina where the Court of Appeals held that where you try to meet the test about substantial injury in order to show that there is substantial injury, you have to have certified appraisals or market studies supporting the naked opinions. In this case there has been absolutely no evidence of certified appraisals or market studies, merely opinion testimony. There has been a lot of discussion about the right-of-way question and concessions made that the Council does not have to determine the right-of-way rights of the various property owners. Clearly it has been conceded that Ms. Rayfield does have access to this lot. She disagreed that there has to be a change for a rezoning to be made. She said that you have to show that the requested change complies with the Comprehensive Land Use Plan and that is exactly what they have done. With regard to standards for issuance of a conditional use permit, she said the case law in North Carolina is that if an applicant for a conditional use permit establishes a prima facie case, they have complied with all the standards required, which is exactly what they have done, then there is a large burden to deny the permit. She said that burden has not been met. There must be competent, material and substantial evidence in the record to show that the prima facie case has been overcome. That has not been made. They have agreed that they will comply with the conditions recommended by the Technical Review Committee and the Planning & Zoning Commission and they respectfully request City Council vote both to approve the conditional use zoning and the granting of the conditional use permit.

Ms. Carolyn Wright, resident at the corner of Sycamore Road and Beaverdam Road, stated that her intersection is not safe as she has had to replace her mailbox, damage to her maple trees and signs being knocked down.

Mr. Gregory said that the burden of proof for obtaining a conditional use permit is that the applicant must make showing on all seven standards. If there is an argument made on the more general standards, the burden does shift to the opponents. We have made our arguments more on the objective standards and the burden of proof remains on the applicant to show that those standards have been met. Secondly, he does not dispute the statement that if the showing is made that the permit should be granted, but he did draw Council's attention that before you get to the permit decision, there is a legislative policy decision, which is not constrained by the proof of the quasi-judicial conditional use permit.

Mr. Garren stated that he was very clear about his opinion on the properties. He said that he did do research on this issue and has been in the business for 25 years. He is not a certified appraiser but has been in a court of law certified as an expert more than one time.

Upon inquiry of Councilman Worley, City Traffic Engineer Michael Moule said that he has not done a full site distance analysis on the traffic curve on Beaverdam Road coming out of Sycamore Road, however, he did review the situation in the field in the early afternoon on a weekday and didn't notice anything exceptionally bad about the site distance problem, although there is certainly a curve there that does limit the site distance.

Mr. Green responded to Councilwoman Field on why City staff felt this particular use was positive in terms of our smart growth policies.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 8:50 p.m.

Vice-Mayor Cloninger said that he would reluctantly vote against this proposal because he hated to vote against any proposal that would expand much needed day care facilities in our community. In addition, he was not opposed to day care facilities in neighborhoods. He felt that when we look at this from a smart growth standpoint, we should consider whether the day care is serving the neighborhood in which it is located. He didn't think that this is the situation here. He was also concerned about the safety issue of ingress and egress onto Beaverdam Road from Sycamore Road because Sycamore Road is located close to that sharp curve. He also felt that the opinions of the neighbors should be considered and respected.

Councilwoman Bellamy agreed with Vice-Mayor Cloninger. In addition, she didn't feel that this project complies with the intent of the RM-16 District. She felt this was a good project but not in the right location.

Councilman Worley said that he was convinced by our smart growth policies and felt this is consistent with those policies. He recognized that the implementation of those policies will be perceived to be painful in many situations because people just don't like change. However, he feels strongly that we need to support those policies and this is a small step towards the implementation of those policies. He drives Beaverdam Road every day and is concerned about the traffic, however, he personally felt that the proposed use would not cause undue traffic. He said he would vote to approve this issue primarily because of the City's commitment to smart growth policies.

Councilman Hay addressed staff in that he does have a concern that Ms. Rayfield doesn't have the absolute right to build what we would expect her to build on that right-of-way. It seems to him that she may be co-owner of that strip of land and it really concerned him when he found out that the person on the other side of the right-of-way was opposed to this. He realized that it is not City Council's concern now, but maybe some of these things need to be worked out before they get this far. Also, he felt this decision does not reflect Council's opinion about day care centers in residential areas. He personally hoped that City staff moves forward with the policy changes they are working on because that is part of smart growth. He said that he would have to vote against this, however, because he does not find that the project would not substantially injure the value of the adjoining properties, which would be one of the things they would ultimately have to vote on the conditional use permit.

Mayor Sitnick echoed comments about not being opposed to child care, especially safe, good child care which this sounds to be. However, it is hard to vote for a conditional use rezoning request if you don" think you can uphold it by the conditions. She explained that there is a vast difference between property value and the value of property and because the value is very subjective to the people who live on it and around it. She would therefore, vote against the conditional use rezoning request.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Worley moved to rezone 38 Sycamore Road from RS-8 Residential Single Family High Density District to RM-16 Residential Multi-Family High Density District (conditional use zoning). This motion was seconded by Councilwoman Field and failed on a 2-5 vote with Councilwoman Field and Councilman Worley voting "yes" and Mayor Sitnick, Vice-Mayor Cloninger, Councilwoman Bellamy and Councilman Hay voting "no".

At 9:05 p.m., Mayor Sitnick announced a ten minute break.

NEW BUSINESS ITEMS – CHANGE IN AGENDA

Councilman Worley moved to amend the agenda to consider waiving the requirement for a sidewalk along Reed Street for the Biltmore Heights Development at this time. This motion was seconded by Councilwoman Bellamy and carried unanimously.

CONSIDERATION OF WAIVING THE UNIFIED DEVELOPMENT ORDINANCE AND THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL REQUIREMENT FOR A SIDEWALK ALONG REED STREET FOR THE BILTMORE HEIGHTS DEVELOPMENT

Councilman Worley moved to excuse Councilwoman Field and Vice-Mayor Cloninger from this issue due to conflicts of interest. This motion was seconded by Councilwoman Bellamy and carried unanimously.

City Engineer Cathy Ball said that this is the consideration of a request from Biltmore Heights to waive Section 7-11-6 of the Unified Development Ordinance that requires a sidewalk be constructed, or a fee in lieu of construction be paid, along Reed Street.

Section 7-11-6 of the Unified Development Ordinance requires that new construction place sidewalks as specified in the Asheville Standard Specifications and Details Manual along street rights-of-way or pay a fee in lieu of constructing a sidewalk. Biltmore Heights has constructed a new office complex located at 11 Yorkshire Street. The project is a corner lot with street frontage on Yorkshire, Margaret, and Reed Streets. The developer plans to put sidewalks on Yorkshire Street to their driveway entrance, and a fee in lieu of construction has already been approved for the remainder of the project that fronts Yorkshire and Margaret Streets.

The developer is requesting that Section 7-11-6 of the UDO for the portion of the project fronting Reed Street be waived and that a sidewalk not be constructed nor a fee in lieu of construction be paid. Reed Street is a City maintained street located in South Asheville.

Staff recommends that a sidewalk be constructed along Reed Street for the following reasons:

- Staff estimates that the Biltmore Heights development is expected to generate approximately 500 trips per weekday.
- This development is adjacent to a residential neighborhood with several pedestrian generators in close proximity.
- Staff approves the developer to vary the five (5) foot setback requirement for a sidewalk set forth within the Asheville Standard Specifications and Details Manual and

acknowledges that "in the event that a sidewalk must be built adjacent to the curb, the sidewalk must be 6 feet wide." A curb would be incorporated into this monolithic sidewalk.

City staff recommends that City Council not waive the requirement that a sidewalk be placed along Reed Street as required by the Section 7-11-6 of the Unified Development Ordinance for the Biltmore Heights development.

Upon inquiry of Councilwoman Bellamy, Ms. Ball explained what is on the surrounding properties.

Mr. G. Carroll Hughes, architect representing the owners Dr. Bill Chambers and Dr. Keith Black, said the they are requesting City Council waive the sidewalk requirement along Reed Street due to extenuating circumstances. He handed out a letter dated October 3, 2000, to Ms. Cathy Ball, along with several photographs. He said the extenuating circumstances include (1) Reed Street is only 18 feet wide; (2) there are gas and water lines along the project side of the street; (3) there is a steep bank from 5-12 feet away from the edge of the street, along the project side of the street; (4) there is a large tree stump between the edge of the street and the to of the slope, which cannot be removed without damaging the existing utility lines and also undermining the existing pavement; (5) there is insufficient room for a 5-foot wide grass strip and a 5-foot wide sidewalk; (6) the City Engineer has suggested a 6-feet wide sidewalk and constructing a turn-down curb edge; (7) CP&L cut the existing trees along Reed Street and has put in a power pole where the sidewalk is proposed; (8) the existing sidewalks along the west side of Hendersonville Road are not 6-feet wide, but are 5-feet wide with no grass strip; (9) the recently installed sidewalks along Hendersonville Road on the other side are only 5-feet wide; (10) the rest of the neighborhood along and around Reed Street have no sidewalks; (11) none of the existing sidewalks are being properly maintained by the City; (12) the standard for the neighborhood in the most improved areas is a straight concrete curb section only with grass and no sidewalks; (13) residential setbacks along Reed Street, adjacent to and beyond Dr. Chambers' development, are too close to the street to comfortably accommodate future sidewalks; (14) there does not appear to be any pedestrian traffic generated along Reed, Yorkshire or Margaret Streets; (15) Dr. Chambers and Dr. Black have already been penalized by City and State regulations on this particular piece of property. They have already incurred substantial costs and noted additional projections if they have to buy a sidewalk at the fee in lieu of rate of $20 linear foot all along the property; (16) six rental units were constructed at the opposite direction and they were not required to construct sidewalks; and (17) they are required to buffer between this property and the adjoining property and they cannot do both. He said that it is the owners' request that no sidewalk, nor fee in lieu of construction, be imposed along this portion of Reed Street. If Council determines that it waives the sidewalk requirement, but finds that it can legally impose a fee, then the owners' respectfully request that the fee be allowed to be used for additional on-site landscaping to benefit the neighborhood, rather than a fee in lieu of buy a sidewalk out of the neighborhood.

Upon inquiry of Councilman Hay, Mr. Hughes said that there is 1,065 linear feet of sidewalk required if we were to put a sidewalk all the way around the tree sides.

Dr. Keith Black said that this complex is unique due to its extremely large amount of bordering sidewalks in relation to the small amount of property. They have always striven to blend into the neighborhood and be an asset as seen with the existing complex and what they are trying to do with this proposed complex. There is not a high pedestrian volume in this area and their patients drive to the complex, not walk. He felt that sidewalks will not enhance the character of this neighborhood. He felt that putting a sidewalk in will create an unnecessary commercial look. He stressed that they do plan to put sidewalks on Yorkshire Street to their driveway entrance, and a fee in lieu of construction has already been approved for the remainder of the project that fronts Yorkshire and Margaret Streets. He then handed City Council a petition containing 71 signatures which read "Let Common Sense Prevail! We, the below citizens oppose a sidewalk along Reed Street. We prefer a green-way with grass and trees to enhance the character of our neighborhood. NOT sprawling concrete with detracts from it. We want character NOT concrete!"

Ms. Ball said that the requirement in the Asheville Standard Specifications and Details Manual is if you are adjacent to the street you are required to put in a 6-foot sidewalk. She did fail to mention, however, that we do have the ability to vary that down to a 5-1/2, with 5 foot sidewalk and a 6-inch curb section. Also, with the changes that were passed in March of this year to the Asheville Standard Specifications and Details Manual, it does require developments to put in curb and gutter or stand-up curb as a part of their sidewalk.

Ms. Ball stated that they don't feel like the topographic constraints are enough that would not warrant the installation of the sidewalk in this area. Given the fact that it is one block off of Hendersonville Road, she felt that even though there may not be a lot of pedestrian use now, there is a potential, with this development, to create a lot of use of that sidewalk. With regard to the telephone pole, she said they have worked to meander sidewalks around utility poles or around hydrants that are impractical to move – so we have allowed some type of variance to fit those in. Sometimes they have had to go down to the minimum allowed by the ADA requirements, but they have allowed some variances either in the field or at a staff level.

Mayor Sitnick explained essentially the long-term vision thinking of City Council on the sidewalk policy.

Councilman Worley moved to waive the requirement that a sidewalk be placed along Reed Street as required by the Section 7-11-6 of the Unified Development Ordinance for the Biltmore Heights development. This motion failed due to lack of a second.

Upon inquiry of Councilman Hay, Ms. Ball said that if, in the construction of the sidewalk, she finds new challenges that makes her re-think the issue of a fee in lieu of construction, she would be open to that.

Councilwoman Bellamy moved to amend the agenda to consider making appointments to the Greenway Commission at this time. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

RESOLUTION NO. 00-197 - RESOLUTION APPOINTING MEMBERS TO THE GREENWAY COMMISSION

Vice-Mayor Cloninger said that this is the consideration of appointing members to the Asheville Greenway Commission.

John Tate (term to expire December 31, 2002), Philip Cusick (term to expire December 31, 2000), and Casey Carmichael (term to expire December 31, 2001), have resigned as members of the Greenway Commission. In addition, Crystal Pace's term expires on December 31, 2000.

On September 12, 2000, City Council interviewed Linda Giltz. On September 19, 2000, City Council interviewed Tom Gallaher, Elizabeth Budd and Matthew Kern. On September 26, 2000, City Council interviewed Paula Robbins. Greg Gregory and Phyllis Stiles are additional candidates but were not brought in for interviews.

Councilman Worley moved to reappoint Crystal Pace to the Greenway Commission to serve a three year term, term to expire December 31, 2003, or until her successor has been appointed. This motion was seconded by Councilwoman Bellamy and carried unanimously.

Ms. Budd received 4 votes, Mr. Kern received 4 votes, Ms. Giltz received 3 votes, Ms. Stiles received 3 votes, Ms. Robbins received 2 votes and Mr. Gregory received 2 votes.

Mr. Gerry Hardesty, Chairman of the Greenway Commission, spoke in favor of appointing Ms. Paula Robbins to the Greenway Commission.

Therefore, it was the consensus of City Council to re-vote. Ms. Budd received 5 votes, Mr. Kern received 4 votes, Ms. Robbins received 4 votes, Ms. Giltz received 3 votes and Ms. Stiles received 2 votes.

Councilwoman Bellamy moved to appoint Ms. Elizabeth Budd to serve the unexpired term of Mr. Cusick, term to expire December 31, 2000, and then to serve a full three year term, term to expire December 31, 2003; Mr. Matthew Kern was appointed to serve the unexpired term of Mr. Tate, term to expire December 31, 2002; and Ms. Paula Robbins was appointed to serve the unexpired term of Mr. Carmichael, term to expire December 31, 2001. All terms are until their successors have been appointed. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 203

CONTINUATION OF PUBLIC HEARINGS

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE THE METHOD OF CALCULATING THE FRONT SETBACK LINE

ORDINANCE NO. 2755 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CHANGE THE METHOD OF CALCULATING THE FRONT SETBACK LINE

Mayor Sitnick opened the public hearing at 10:09 p.m.

Urban Planner Dan Baechtold said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to change the method of calculating the front building setback line. This public hearing was advertised on September 29 and October 6, 2000.

On September 6, 2000, the Planning and Zoning Commission voted unanimously to recommend approval of this wording amendment. Staff initiated this wording amendment to change an administrative procedure in the Unified Development Ordinance (UDO) to make it more consistent with the City's Smart Growth Policies.

Front setbacks are currently measured from the street right-of-way line. In some cases, this method of calculating the setback pushes buildings back from the street by as much as 50 to 75 feet. In turn, these setback rules essentially mandate that the parking is located in front of buildings in these cases. This result is in direct conflict with the principles of smart growth and walkable communities. These principles say that buildings should be located next to the street to hide parking, promote pedestrian activity, and create a more interesting streetscape. The following amendment to the ordinance will change the way we measure the front setback and the street side setback to allow buildings to be built closer to the street. This change will only be applied in cases where the street is at least four or five lanes wide, and where additional street widening is not anticipated. In these cases, we will measure the front setback from the edge of the travel lane rather than the right-of-way line.

Planning staff recommends inserting the following text (in bold) in Section 7-10-2(b) of the UDO:

(b) Method of calculation

1) Minimum setback. Minimum setback is the space defined by measuring perpendicularly from and along the entire boundary of the lot (property line) to the building line, ~~except~~ Front setbacks shall be measured from the street right-of-way line, **except, on streets greater than 45 feet in travel lane width, the setback shall be measured from the edge of the travel lane. The accompanying corner lot, street side setback shall also be measured from the edge of the travel lane. In no case shall the minimum setback be closer to the street than the right-of-way line.** A setback may be the front, rear, or side setback. For illustrations of the location of front, rear, or side setbacks, see Figure 10-1. Except as set forth for through lots in subsection 7-10-2(d) below, there shall be one (1) front setback area which is determined at the time of site plan approval or zoning permit issuance.

Mayor Sitnick closed the public hearing at 10:11 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2755. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 411

C. PUBLIC HEARING ON BOND ORDERS

ORDINANCE NO. 2756 - ORDINANCE ADOPTING THE BOND ORDER ENTITLED "BOND ORDER AUTHORIZING THE ISSUANCE OF $1,300,000 SANITARY SEWER BONDS OF THE CITY OF ASHEVILLE, N.C.

City Clerk Burleson reported to City Council that the bond order entitled "Bond Order Authorizing the Issuance of $1,300,000 Sanitary Sewer Bonds of the City of Asheville, North Carolina," which was introduced at the regular meeting of the City Council on September 26, 2000, and was published on September 29, 2000, with notice that the City Council would hold a public hearing thereon on October 10, 2000, at 5:00 p.m.

At 10:12 p.m., Mayor Sitnick announced that the City Council would hear anyone who wished to be heard on the questions of validity of the sanitary sewer bond order and the advisability of issuing the Sanitary Sewer Bonds. At the direction of the Mayor, the City Clerk distributed the bond order and the published notice of hearing to all requesting them.

Finance Director Bill Schaefer explained the Bond Order and said the City Council of the City of Asheville, North Carolina has ascertained and hereby determines that it is necessary to extend sanitary sewer lines and acquire land and rights-of-way in land required therefor. In order to raise the money required to pay the costs of making the improvements described above, in addition to funds which may be available for such purpose from any other source, bonds of the City of Asheville, North Carolina, are hereby authorized and shall be issued pursuant to the Local Government Bond Act of North Carolina. The maximum aggregate principal amount of such Sanitary Sewer Bonds authorized by this bond order shall be $1,300,000. A tax sufficient to pay the principal of and interest on said Sanitary Sewer Bonds when due shall be annually levied and collected. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection. No debt shall be contracted during any fiscal year by the issuance of bonds pursuant to this bond order if the amount of such debt and if all other debt contracted during such fiscal year shall exceed two-thirds (2/3rds) of the amount by which the outstanding indebtedness of the City shall have been reduced during the next preceding fiscal year, unless the incurring of such debt shall be submitted to a vote of the people of the City and shall be approved by a majority of those who vote thereon. This bond order shall take effect thirty (30) days after its publication following its adoption, unless it is petitioned to a vote of the people within thirty (30) days after its publication as introduced, as provided in N. C. G. S. Section 159-60, and in that event, the bond order will take effect when approved by the voters of the City.

At 10:13 p.m. Mayor Sitnick closed the public hearing after having heard all persons who requested to be heard in connection with the foregoing questions.

Councilman Worley moved that the City Council adopt, without change or amendment, and direct the City Clerk to publish a notice of adoption as prescribed by The Local Government Bond Act, the bond order entitled "Bond Order Authorizing the Issuance of $1,300,000 Sanitary Sewer Bonds of the City of Asheville, North Carolina" which was introduced at the meeting of the City Council held on September 26, 2000. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 490

ORDINANCE NO. 2757 - ORDINANCE ADOPTING THE BOND ORDER ENTITLED "BOND ORDER AUTHORIZING THE ISSUANCE OF $670,000 EQUIPMENT BONDS OF THE CITY OF ASHEVILLE, N.C.

City Clerk Burleson reported to City Council that the bond order entitled "Bond Order Authorizing the Issuance of $670,000 Equipment Bonds of the City of Asheville, North Carolina," which was introduced at the regular meeting of the City Council on September 26, 2000, and was published on September 30, 2000, with notice that the City Council would hold a public hearing thereon on October 10, 2000, at 5:00 p.m.

At 10:13 p.m., Mayor Sitnick announced that the City Council would hear anyone who wished to be heard on the questions of validity of the equipment bond order and the advisability of issuing the Equipment Bonds. At the direction of the Mayor, the City Clerk distributed the bond order and the published notice of hearing to all requesting them.

Finance Director Bill Schaefer explained the Bond Order and explained the City Council of the City of Asheville, North Carolina, has ascertained and hereby determines that it is necessary to purchase firefighting equipment. In order to raise the money required to pay the costs of purchasing certain firefighting equipment, in addition to funds which may be available for such purpose from any other source, bonds of the City of Asheville, North Carolina are hereby authorized and shall be issued pursuant to the Local Government Bond Act of North Carolina. The maximum aggregate principal amount of such Equipment Bonds authorized by this bond order shall be $670,000. A tax sufficient to pay the principal of and interest on said Equipment Bonds when due shall be annually levied and collected. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection. No debt shall be contracted during any fiscal year by the issuance of bonds pursuant to this bond order if the amount of such debt and if all other debt contracted during such fiscal year shall exceed two-thirds (2/3rds) of the amount by which the outstanding indebtedness of the City shall have been reduced during the next preceding fiscal year, unless the incurring of such debt shall be submitted to a vote of the people of the City and shall be approved by a majority of those who vote thereon. This bond order shall take effect thirty (30) days after its publication following its adoption, unless it is petitioned to a vote of the people within thirty (30) days after its publication as introduced, as provided in N. C. G. S. Section 159-60, and in that event, the bond order will take effect when approved by the voters of the City.

At 10:14 p.m. Mayor Sitnick closed the public hearing after having heard all persons who requested to be heard in connection with the foregoing questions.

Councilman Worley moved that the City Council adopt, without change or amendment, and direct the City Clerk to publish a notice of adoption as prescribed by The Local Government Bond Act, the bond order entitled "Bond Order Authorizing the Issuance of $670,000 Equipment Bonds of the City of Asheville, North Carolina" which was introduced at the meeting of the City Council held on September 26, 2000. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 492

D. PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF BURNSIDE, PHASE 4 AT BILTMORE PARK

ORDINANCE NO. 2758 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS BURNSIDE, PHASE 4 OF BILTMORE PARK

Mayor Sitnick opened the public hearing at 10:14 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of an ordinance extending the corporate limits of the City of Asheville to include property located west of Overlook Road and identified as Burnside, Phase 4, Biltmore Park. This public hearing was advertised on September 29, 2000.

Biltmore Farms, Inc. has submitted an annexation petition for Burnside, Phase 4, Biltmore Park. This area is adjacent to the existing City limits being immediately west of Burnside, Phase 3 which was annexed on 6/7/2000. Biltmore Park is generally located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 11.4 acres and is platted for 12 single-family residential lots. Street access to this area is provided by White Ash Drive.

Utilities and streets are being developed by Biltmore Farms, Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance.

City staff recommends City Council adopt an ordinance extending the corporate limits of the City of Asheville to include property located west of Overlook Road and identified as Burnside, Phase 4, Biltmore Park.

Mayor Sitnick closed the public hearing at 10:15 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2758. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 494

E. PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF OAKBROOK, SECTION 2 AT BILTMORE PARK

ORDINANCE NO. 2759 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED WEST OF OVERLOOK ROAD AND IDENTIFIED AS OAKBROOK, SECTION 2 OF BILTMORE PARK

Mayor Sitnick opened the public hearing at 10:17 p.m.

Mr. Paul Benson, Urban Planner, said that this is the consideration of an ordinance extending the corporate limits of the City of Asheville to include property located west of Overlook Road and identified as Oakbrook, Section 2, Biltmore Park. This public hearing was advertised on September 29, 2000.

Biltmore Farms, Inc. has submitted an annexation petition for Oakbrook, Section 2, Biltmore Park. This area is adjacent to the existing City limits being immediately east of Oakbrook, Section 1 which was annexed on 8/22/2000. Biltmore Park is generally located west of Overlook Road and north of Long Shoals Road. This annexation is pursuant to an agreement between Biltmore Farms, Inc. and the City of Asheville.

The area proposed for annexation consists of 24 acres and is platted for 40 single-family residential lots and a common area. The annexation also contains a small cemetery. Street access to this area is provided by White Ash Drive and Dianthus Drive.

Utilities and streets are being developed by Biltmore Farms, Inc. City services will begin on the effective date of annexation. Biltmore Farms, Inc. has requested that the effective date of annexation be six months from the adoption of the ordinance.

City staff recommends City Council adopt an ordinance extending the corporate limits of the City of Asheville to include property located west of Overlook Road and identified as Oakbrook, Section 2, Biltmore Park.

Mayor Sitnick closed the public hearing at 10:18 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2759. This motion was seconded by Councilwoman Bellamy and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 496

IV. UNFINISHED BUSINESS:

A. ORDINANCE AMENDING THE CURRENT TAXICAB ORDINANCE INCLUDING THE IMPLEMENTATION OF A NEW TAXICAB RATE SCHEDULE

Finance Director Bill Schaefer said that this is the consideration of a request to continue to October 24, 2000, a revision of the current taxicab ordinance, including the implementation of a new rate table.

At the formal meeting on September 12, 2000, City Council directed staff to conduct further discussion with taxicab owners and other interested parties, to determine an appropriate rate structure to compensate taxicab owners and operators for the expense of possible increases in minimum insurance coverage requirements.

Staff has been working with taxicab owners and their counsel to assess the impact of increasing required insurance coverages. During a September 27, 2000, public forum on this issue, all of the attendees requested that additional time be allowed in order to gather the data needed to make valid decisions regarding adjustments to insurance requirements and the rate structures. Both staff and attendees agreed that the data could be gathered and analyzed in time to be considered by City Council at their formal meeting on October 24, 2000.

City staff recommends Council continue this agenda item to its formal meeting on October 24, 2000.

Vice-Mayor Cloninger moved to continue this matter until October 24, 2000. This motion was seconded by Councilman Worley and carried unanimously.

B. ORDINANCE NO. 2760 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR A PARKING LOT ASSOCIATED WITH MILKO INC. TO BE LOCATED ON PROPERTY ZONED RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT AT THE INTERSECTION OF DEAVERVIEW ROAD AND BEAR CREEK ROAD

Vice-Mayor Hay moved to excuse Mayor Sitnick from this issue since she was not at the public hearing on September 26, 2000. This motion was seconded by Councilman Worley and carried unanimously.

City Attorney Oast said that this public hearing was held on September 26, 2000, and City Council directed him to prepare an order granting a conditional use permit. He said that this is the consideration of an ordinance adopting findings and conclusions, and issuing a conditional use permit for Milko, Inc.

Following a public hearing on September 26, 2000, City Council voted to issue a conditional use permit to Milko, Inc. The order contains findings and conclusions developed from the public hearing and Council's discussion. The order may be changed as Council wishes prior to adoption.

Adoption of the ordinance, with changes as appropriate, is recommended.

Vice-Mayor Cloninger said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Bellamy moved for the adoption of Ordinance No. 2760. This motion was seconded by Councilman Worley and carried unanimously.

ORDINANCE BOOK NO. 18 - PAGE 498

V. NEW BUSINESS:

A. RESOLUTION NO. 00-198 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN OFFER TO PURCHASE AND CONTRACT FOR A PARCEL OF LAND AT 111 EASTVIEW CIRCLE FOR A FIRE/POLICE STATION

Interim Fire Chief Robert Griffin said that this is the consideration of a resolution authorizing the City Manager to sign an Offer to Purchase and Contract for a parcel of land at 111 Eastview Circle for a Fire/Police station.

A response criterion is a portion of the rating for fire departments that are established by the Insurance Service Office. Presently the City does not meet the response criteria in the far west area of the City creating a need to relocate a fire station that currently provides overlapping service. Therefore, no additional personnel or equipment will be required. Property has been identified that will meet that response criteria and enhance the response and coverage for emergencies. The property is located at 111 Eastview Circle. The property is 2.18 acres with good access to Smoky Park Highway and I-40. The property is zoned residential and abuts commercial property. A fire station is a permitted use in any zoning classification. The property is at the intersection of Eastview Circle and Old Haywood Road. Approximately 70-75% of the property is cleared, with the remainder, which is mostly perimeter areas, being wooded. Soil type is believed to be clay composition and suitable for most types of construction. The owners of the property have agreed to a purchase price and other terms and conditions as specified in the Offer. The property is listed in the Buncombe County Tax Office as the Maude R. H. Revis Estate, which are Mr. Berlon D. Hensley, Darlene Hensley McKinney and husband John A. McKinney. This site will also meet the needs of the Asheville Police Department for a joint facility in the west area of the City.

The Interim Fire Chief recommends City Council authorize the City Manager to sign the Offer to Purchase and Contract for the property at 111 Eastview Circle.

Councilwoman Bellamy said that there were some concerns voiced by residents in West Asheville who are currently located near the station on Old Haywood Road about response time. Interim Fire Chief Griffin said that there will be two companies located at the station on Oregon at Louisiana that will provide the immediate coverage with a four minute response time in that area and just relocate that engine company from Haywood Road.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Cloninger moved for the adoption of Resolution No. 00-197. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 204

VI. OTHER BUSINESS:

A. CITY COUNCIL MEETING DATE CHANGE

Vice-Mayor Cloninger moved to re-schedule the Tuesday, November 7, 2000, City Council worksession until Thursday, November 9, 2000. The worksession will begin at 3:00 p.m. in the First Floor North Conference in the City Hall Building. This motion was seconded by Councilman Worley and carried unanimously.

B. CITY COUNCIL RETREAT COMMITTEE

Mayor Sitnick appointed Councilwoman Bellamy, Councilman Worley and herself to the 2001 City Council Retreat Committee.

C. CLAIMS

The following claims were received by the City of Asheville during the period of September 8-28, 2000: Jacqueline Meadows (Transit Services), Stephanie Hughey (Water), Fran Pignanelli (Streets), Scott Jenkins (Streets), Patsy Schmidt (Parks & Recreation), Diana C. Teaster (Police), Joyce Kilgore (Water), Biltmore Estate (Sanitation), Oteen Baptist Church (Police) and Sue Hunter (Sanitation).

The following claims were received by the City during the period of September 29 – October 5, 2000: Casandra Plummer (Transit Services), Tom Barker (Streets), BellSouth (Water), The Timbers (Sanitation), John Morgan (Water), Joanne Baker (Transit Services), Sharon Hines (Sanitation), Shelia Gilliland (Water), Ronald Thurman (Police) and Jay Fine (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:27 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 24, 2000 - 5:00 p.m.

Regular Meeting

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	None

INVOCATION

Councilman Hay gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING OCTOBER, 2000, AS "AMERICORPS APPRECIATION MONTH"

Mayor Sitnick read the proclamation proclaiming October, 2000, as "Americorps Appreciation Month" in the City of Asheville. She said that she had presented the proclamation last week to Ms. Eula Shaw and Mr. George Gibson. Ms. Shaw and Mr. Gibson both spoke about the outstanding work Americorps did when they cleared the South Asheville Cemetery.

B. RECOGNITION OF ASHEVILLE'S PARKS AND RECREATION DEPARTMENT'S GOLD MEDAL FINALIST AWARD

Mayor Sitnick recognized Recreation Board Chair Frank Fishburne and Parks and Recreation Director Irby Brinson. She said that the Asheville Parks and Recreation Department continues to make Asheville proud, and has just been named one of the top municipal park and recreation department in the entire nation. Asheville received the Gold Medal Finalist Award from the National Sporting Goods Association and the National Recreation and Parks Association at the NRPA National Congress in Phoenix, Arizona, last week. Up to 10,000 park and recreation professionals attended the largest annual park and recreation conference for educational and networking opportunities in the field. Top-notch departments from around the country vied for the award in four different categories based on population size. Asheville is one of three departments to win the Finalist Award, and went up against several dozen departments in Category III for cities with populations of 50,000 to 100,000.

Mr. Fishburne said that the Gold Medal is the most prestigious award given through a partnership with NRPA and NSGA's Sports Foundation to honor the nation's outstanding community park and recreation agencies for excellence in the field of park and recreation management.

Mr. Brinson recognized the following the key staff who put together the materials for the City receiving this Award: Debbie Ivester, Bill Hamilton, Jeff Mueller and Bob Applegate.

C. RECOGNITION OF CITY STAFF AND SPONSORS FOR SUCCESSFUL LEAD-BASED PAINT WORKSHOP

Mayor Sitnick recognized City staff Jeff Baker, Housing Code Coordinator, and Isaac Coleman, Housing Rehabilitation Specialist. In addition, she recognized the following sponsors: UNC-A Lead Poisoning Prevention Unit, the Board of Realtors, Carolina Real Estate Investors

Association, and the Asheville Regional Housing Consortium for their success in the "Clean, Screen, and Stabilize" Workshop held on September 20-22, 2000.

II. CONSENT:

Councilman Peterson asked that Consent Agenda Item G be removed from the Consent Agenda to discuss the location of the public hearing.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 10, 2000

B. ORDINANCE NO. 2761 - BUDGET AMENDMENT FOR LITTLE BEAR CARE CHILD CARE PROGRAM

Summary: The consideration of a budget amendment, in the amount of $2,326, from Smart Start-Buncombe County Partnership for Children through the Special Needs Assistance Program for assistance for inclusive child care at Little Bear Care Program.

The City of Asheville applied to Smart Start for assistance in September 2000 for costs associated with providing extra staff for a child with special needs in Little Bear Care. The allocation was recently awarded in the amount of $2,326, and designated for costs associated with providing extra part-time staff for a child with special needs in Little Bear Care.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $2,326, to establish a budget for the extra part-time staff at Little Bear Care.

ORDINANCE BOOK NO. 18 – PAGE 503

C. ORDINANCE NO. 2762 - BUDGET AMENDMENT FOR JUNIOR GOLF PROGRAM

Summary: The consideration of a budget amendment, in the amount of $16,530, for a grant appropriation from the Dogwood Fund through the Western North Carolina Community Foundation for the new Junior Golf Program.

The City of Asheville presented the Junior Golf Program to the Community Foundation in the Fall 1999. The allocation was recently awarded in the amount of $16,530, and designated for the operational costs of the program.

The Parks and Recreation Department is responsible for the management and operation of the new Junior Golf Program, which is a partnership with the Northwoods Golf Club and Nevada Bob's Golf Shop. The allocation from the Community Foundation will assist the department in implementing the program.

The Parks and Recreation Department recommends City Council approve the budget amendment, in the amount of $16,530, to establish a budget for the Junior Golf Program.

ORDINANCE BOOK NO. 18 – PAGE 505

D. **RESOLUTION NO. 00-199 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH THE N.C. DEPARTMENT OF TRANSPORTATION FOR THE CONSTRUCTION OF W.T. WEAVER BOULEVARD PHASE 2**

Summary: The consideration of a resolution authorizing the City Manager to sign a municipal agreement with the N. C. Department of Transportation (NC DOT) for the construction of W.T. Weaver Greenway Phase 2, and associated budget amendment.

The W.T. Weaver Greenway Phase 2 project consists of the installation of approximately 2,100 linear feet of 10 foot wide asphalt facility. The facility will extend the existing greenway along W.T. Weaver to Broadway Avenue.

The City will be responsible for designing, bidding and constructing the greenway in accordance with NC DOT and Federal guidelines. The NC DOT will reimburse the City of Asheville up to $300,000 for the cost of the installation of the greenway. The cost of installing the greenway is estimated under $300,000. All costs over $300,000 will be the responsibility of the City of Asheville.

In addition to the municipal agreement request, a budget amendment needs to be approved to appropriate an additional $300,000 to this project from the North Carolina Department of Transportation. These funds will be used for the greenway whereas the municipal funds allocated to the project will be spent on roadway improvements along Weaver Boulevard.

Staff recommends the consideration of a resolution authorizing the City Manager to sign a municipal agreement with the NC DOT for the installation of W.T. Weaver Greenway Phase 2 and a budget amendment, in the amount of $300,000, for the construction. City Council approval is also recommended for the approval of the budget amendment in the amount of $300,000 for this project.

RESOLUTION BOOK NO. 26 – PAGE 205

E. **ORDINANCE NO. 2763 - BUDGET AMENDMENT TO APPROPRIATE FUNDS INTO A CAPITAL FUND FOR THE CONSTRUCTION OF A GREENWAY ALONG W.T. WEAVER BOULEVARD**

Summary: See Consent Agenda Item “D” above.

ORDINANCE BOOK NO. 18 – PAGE 507

F. **RESOLUTION NO. 00-200 - RESOLUTION APPROVING AN AMENDED STATE DEVELOPMENT ZONE**

Summary: The consideration of a resolution approving an amended State Development Zone.

The current State Development Zone for the City Of Asheville will expire on January 1, 2001. In August 2000, following Council approval, the City submitted an application to the State for a new, revised zone based on new criteria. That application was returned citing an error in a statistic for one of the areas in the zone. Actually, the problem is not the result of an oversight or a mistake; rather, it is the result of a quirk in the methodology used to calculate that statistic that leaves open the possibility of arriving at more than one answer. Our number is different from the State's number. The problem has been corrected in accordance with the State's finding, and a new application for an amended zone is ready. Because the zone boundary has been amended (slightly reduced), it nevertheless is a new zone requiring formal Council approval. The area being removed from the zone is Census Tract 4, Block Group 1 which corresponds to the mainly residential area between UNC-Asheville and Merrimon Avenue.

Staff recommends City Council approve the amended Zone as proposed.

RESOLUTION BOOK NO. 26 – PAGE 206

G. **MOTION SETTING A PUBLIC HEARING ON NOVEMBER 14, 2000, IN THE CITY COUNCIL CHAMBER, TO CONSIDER A CONDITIONAL USE PERMIT TO CONSTRUCT A WAL-MART SUPERCENTER AT THE INTERSECTION OF GERBER ROAD AND HENDERSONVILLE ROAD**

This item was removed from the Consent Agenda for further discussion.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Vice-Mayor Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Worley and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

MOTION SETTING A PUBLIC HEARING ON NOVEMBER 14, 2000, IN THE CITY COUNCIL CHAMBER, TO CONSIDER A CONDITIONAL USE PERMIT TO CONSTRUCT A WAL-MART SUPERCENTER AT THE INTERSECTION OF GERBER ROAD AND HENDERSONVILLE ROAD

Councilman Peterson requested the public hearing on the conditional use permit to construct a Wal-Mart Supercenter on Gerber Road be located in South Asheville. It was his understanding that the Auditorium at T.C. Roberson High School is available. He said that given the distance and inconvenience, particularly of having it in the Council Chamber, he felt a location in South Asheville would be more suitable. Also, considering that South Asheville has a number of retirement communities where it makes it especially difficult for retirees to get out, and considering the size and uniqueness of this project, he felt that those concerns would justify the hearing be held in a location in South Asheville. He realized that City Council would not want to have their public hearings outside the Council Chamber for every project, but he felt this proposed move would benefit the area residents.

Discussion was held about moving the hearing. Some concerns expressed were: other items scheduled on the November 14 agenda, moving of equipment, City staff moving their presentation materials, hiring of a crew to tape the meeting, additional cost for taping the meeting (the November 14 City Council meeting was to be the first live meeting broadcast), the precedence of moving public hearings to different spaces, parking concerns, and equipment and materials not available.

Councilman Peterson moved to set the public hearing on the conditional use permit to consider the construction of a Wal-Mart Supercenter on Gerber Road on November 14, 2000, at T.C. Roberson High School. This motion died for a lack of a second.

Vice-Mayor Cloninger moved to hold the conditional use public hearing in the Council Chamber. This motion was seconded by Councilwoman Field and carried on a 6-1 vote, with Councilman Peterson voting "no".

Mayor Sitnick asked the City Manager to prepare a brief report to City Council on what is involved with moving a Council meeting, including expenses, etc.

CHANGE IN AGENDA

Mayor Sitnick said that she has had a request to move the two Grove Arcade construction financing items higher on the agenda. Therefore, Councilman Worley moved to amend the agenda and consider the two Grove Arcade construction financing items at this time. This motion was seconded by Councilwoman Field and carried unanimously.

Vice-Mayor Cloninger asked to be excused from participating in these matters because he is a partner in the law firm that represents the Grove Arcade Public Market Foundation. Therefore, Councilman Worley moved to excuse Vice-Mayor Cloninger from participating in these matters due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION NO. 00-201 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONSENT TO ENCUMBER, ESTOPPEL CERTIFICATE, AND NON-DISTURBANCE AGREEMENT FOR THE GROVE ARCADE CONSTRUCTION FINANCING

RESOLUTION NO. 00-202 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A NON-DISTURBANCE AND ATTORNMENT AGREEMENT FOR THE GROVE ARCADE CONSTRUCTION FINANCING

City Attorney Oast said that this is the consideration of resolutions authorizing the Mayor to execute (1) a consent to encumber and estoppel certificate; and (2) a non-disturbance and attornment agreement. Both documents will facilitate construction financing for the renovations to the Grove Arcade.

In August of 1997 the City acquired the Grove Arcade building and leased it to the Grove Arcade Public Market Foundation (GAPMF). The GAPMF subleased part of it to a developer. Through a complex transaction, the subleased development interests in the building are now held by an entity (HGA Development, LLC) that can obtain and market historic tax credits; the new primary developer interest of HGA is CP&L, through its subsidiary, CaroHome. Substantial work has obviously begun on the building since CaroHome has been involved.

HGA is seeking financing from Wachovia Bank, N.A. for the improvements to the building. Under the City's agreement with GAPMF (Article XXII) the City agreed that GAPMF could use its leasehold interest as security for a construction loan. By extension, this same provision applies to GAPMF's assignees (per Article VI). The first resolution is the City's assurance to Wachovia that HGA can pledge its leasehold interest in the Grove Arcade as security for construction financing.

The lease to GAPMF also contains a non-disturbance and attornment provision (Article XXXVII), that essentially provides that if GAPMF's lease from the City is terminated, the City will honor valid subleases and assignments. The second resolution is essentially the City's specific recognition that that provision applies to HGA's development interest.

It is recommended that City Council adopt the resolutions.

City Attorney Oast responded to questions from Councilwoman Field relative to the financing.

Councilwoman Field wanted to make sure that there is no exposure to the City of Asheville. City Attorney Oast said that this does not increase the exposure that the City of Asheville already has.

Mayor Sitnick said that members of Council have been previously furnished with a copies of the resolutions and they would not be read.

Councilman Worley moved for the adoption of Resolution No. 00-201. This motion was seconded by Councilman Hay and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 207

Councilman Hay moved for the adoption of Resolution No. 202. This motion was seconded by Councilman Worley and carried unanimously.

RESOLUTION BOOK NO. 26 – PAGE 208

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED AT THE CORNER OF SWEETEN CREEK ROAD AND ROSSCRAGGON ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO CB II COMMUNITY BUSINESS II DISTRICT AND ISSUANCE OF A CONDITIONAL USE PERMIT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2764 - ORDINANCE REZONING PROPERTY LOCATED AT THE CORNER OF SWEETEN CREEK ROAD AND ROSSCRAGGON ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT (CONDITIONAL USE ZONING)

ORDINANCE NO. 2765 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR PROPERTY LOCATED AT THE CORNER OF SWEETEN CREEK ROAD AND ROSSCRAGGON ROAD

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process by stating that this is a two part process. It requires rezoning, which is a legislative act, and the issuance of a conditional use permit, which is a quasi-judicial site specific act. Even though the public hearing on those two items will be combined, all the testimony needs to be sworn and two votes will need to be taken. The first vote will be to grant the rezoning to the conditional use district category and the second vote will be to issue the conditional use permit. If Council runs into a situation that it votes to rezone, Council doesn't have to vote to issue the conditional use permit on the same night.

After hearing no questions about the procedure, Mayor Sitnick opened the public hearing at 5:54 p.m.

Mr. Gerald Green, Chief Planner, submitted into the record the Affidavit of Publication (City Exhibit 1), the Certification of Mailing of Notice to Property Owners (City Exhibit 2) and the Staff Report (City Exhibit 3). This public hearing was advertised on October 13 and 20, 2000.

Mr. Green said that this is the consideration of rezoning property located at the corner of Sweeten Creek Road and Rosscraggon Road from RM-16 Residential Multi-Family High Density District to CB II Community Business II District, and issuance of a conditional use permit (conditional use zoning).

The potential owners of the property, Ned Gibson and Barney Bryant, are requesting conditional use rezoning for the seven acres of land off Sweeten Creek Road and Rosscraggon Road (PIN Nos. 9654.05-29-3670 and 9654.06-29-6306, 6536) (City Exhibit 3 – Location Map). The 2010 Plan indicates this area as low density residential which exists south (RS-4) and east (outside the City's jurisdiction) of these properties. The areas to the north and west are developed as high density residential up to the railroad tracks. Given the high impact uses permitted in the CB II District, staff recommends restricting the uses to low impact commercial and mixed use development which would be more compatible for this neighborhood. Also, given the residential character of the surrounding community and the residential component of the project, sidewalks would be required along all three street frontages. The conceptual plan (City Exhibit 3 – Conceptual Plan) shows how this mixed use development will be integrated into the surrounding community by providing passive pedestrian amenities and shops with access to the adjacent residential uses.

The Planning and Development staff recommends rezoning this property located at the corner of Sweeten Creek Road and Rosscraggon Road and approval of a conditional use permit with conditions. In addition, the Planning and Zoning Commission reviewed this project on October 4, 2000, and unanimously recommended approval of the conditional use rezoning and the conditional use permit with the condition that the permitted land uses for the site be limited to the following:

- garden center (which shall make up more than 50% of the gross floor area of the property);
- plant sales and greenhouses;
- hardware and garden supply stores;
- offices;
- studios, galleries, and workshops for artists, designers, and craftspeople;
- cafes and delicatessens;
- multi-family residential development including accessory apartments; and
- complimentary / associated retail sales.
- The petitioner must submit complete site plans and elevation drawings for approval by TRC,
- the widening of Sweeten Creek Road must be to taken into account in the site plan design, and
- sidewalks shall be placed on all three street frontages.

In addition, City staff and the applicant have agreed on one additional condition. That condition is that City staff and the applicant and their design professionals continue to work on the site plan to ensure that the pedestrian access, and incorporation of this development into the surrounding residential neighborhood, be at the utmost.

Councilwoman Field liked the mixed use in this project and felt this was a positive step towards our smart growth policies.

Mr. Green responded to a question from Mayor Sitnick relative to the fence in addition to the buffer along a portion of the property.

Mr. Ned Gibson, one owner at B.B. Barnes, was excited about this project in terms of creating an outdoor living center that benefits not only south Asheville, but the entire City.

When Councilman Worley asked about how much residential development might occur on the property, Mr. Gibson said that this is still a very conceptual plan and they would want to leave that open. He did note that residential units may be on the second levels in some of the buildings.

Mr. Steve Ergel, in the commercial insurance business, spoke in support of this project.

Discussion surrounded Councilman Hay's concern about the condition regarding the garden center having to make up more than 50% of the gross floor area of the property. Mr. Green said that it is the applicant's intent is that the garden center be the dominant use. He was not sure if that safeguard is needed, given the intent of the applicant.

Mayor Sitnick noted that four of the uses seemed to be similar: the garden center, plant sales and greenhouses, hardware and garden supply stores, and complimentary and associated retail sales.

Vice-Mayor Cloninger and Councilwoman Field felt the condition which requires the garden center to be made up of more than 50% of the gross floor area of the property should be eliminated.

Councilman Hay said that if it is Council's intent that the garden center, etc., be the dominant use, then he suggested the condition be amended to read "garden center, plant sales and greenhouses, hardware and garden supply stores, which shall be the dominant use." Councilman Peterson and Councilman Worley agreed.

Upon inquiry of Vice-Mayor Cloninger on the definition of "dominant," Mr. Green said that typically if staff tries to identify that, they do it based on square footage.

Mr. Gibson said that it was his understanding, from the Planning & Zoning Commission, that the 50% area was the property area, not floor square footage and that would include the outdoor sales space – which is the predominant use. He said that he is comfortable with the garden center as the predominant use.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 6:25 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Cloninger moved to adopt Ordinance No. 2764 to rezone the property located at Sweeten Creek Road and Rosscraggon Road from RM-16 Residential Multi-Family High Density District to CB II Community Business II District (conditional use zoning). This motion was seconded by Councilwoman Bellamy and carried unanimously.

ORDINANCE BOOK NO. 18 – PAGE 509

Councilman Hay moved to adopt Ordinance No. 2765 granting the conditional use permit for the property located at the corner of Sweeten Creek Road and Rosscraggon Road with the condition that the permitted land uses for the site be limited to the following: (1) garden center, plant sales and greenhouses, hardware and garden supply stores, which shall be the dominant use; offices; studios, galleries, and workshops for artists, designers, and craftspeople; cafes and delicatessens; multi-family residential development including accessory apartments; and complimentary/associated retail sales. In addition, the petitioner must submit complete site plans and elevation drawings for approval by TRC, the widening of Sweeten Creek Road must be to taken into account in the site plan design, and sidewalks shall be placed on all three street frontages. Also, City staff, the applicant and their design professionals shall continue to work on the site plan to ensure that the pedestrian access, and incorporation of this development into the surrounding residential neighborhood, be at the utmost. Said motion also instructs the City Attorney to prepare the Order for the Mayor's signature reflecting information presented by staff and subject to the conditions outlined by staff. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

Councilwoman Bellamy felt this is an excellent idea of mixed use for our smart growth policies.

ORDINANCE BOOK NO. 18 – PAGE 511

B. PUBLIC HEARING TO INITIALLY ZONE 65 AND 67 LONG SHOALS ROAD TO OFFICE BUSINESS DISTRICT

ORDINANCE NO. 2766 - ORDINANCE TO INITIALLY ZONE 65 AND 67 LONG SHOALS ROAD TO OFFICE BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 6:29 p.m.

Ms. Stacy Merten, Urban Planner, said that this is the consideration of an ordinance to initially zone 65 and 67 Long Shoals Road to Office Business District. This public hearing was advertised on October 13 and 20, 2000.

The Planning and Zoning Commission, at their October 4, 2000, meeting, reviewed and recommended approval to zone the recently annexed parcels known as 65 & 67 Long Shoals Road (PIN Nos. 9644.08-79-7334 & 5345) as Office Business. The property is located on Long Shoals Road in the vicinity of Lake Julian, just east of the Overlook Road intersection. This is a 2.13 acre tract, consisting of two parcels, which are currently in residential use. The adjacent property on the north side of Long Shoals Road is zoned institutional. These properties were voluntarily annexed on February 22, 2000.

The purpose of the Office Business is to reserve areas for medium scale office and a limited range of business uses and to serve as a transition area between commercial and residential uses. These parcels are adjacent to the proposed annexation area 'C'. With the widening of Long Shoals Road, this corridor will eventually become a major gateway to the City. Staff has done a preliminary land use plan for the Long Shoals corridor and the proposed zoning is in compliance with this land use plan, which calls for a mixture of uses, avoiding strip commercial development along the corridor.

The Office Business zoning will allow for commercial development but will limit the uses to prevent strip-type highway commercial development. The Planning and Development staff and the Planning and Zoning Commission recommend approval of the initial zoning of this property as Office Business.

Mayor Sitnick closed the public hearing at 6:33 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Worley moved for the adoption of Ordinance No. 2766. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

ORDINANCE BOOK NO. [illegible] 19 - PAGE 1

IV. UNFINISHED BUSINESS:

A. ORDINANCE AMENDING THE CURRENT TAXICAB ORDINANCE INCLUDING THE IMPLEMENTATION OF A NEW TAXICAB RATE SCHEDULE

Finance Director Bill Schaefer said that this is the consideration of a request to continue to November 28, 2000, a revision of the current taxicab ordinance, including the implementation of a new rate table.

At the formal meeting on September 12, 2000, City Council directed staff to conduct further discussion with taxicab owners and other interested parties, to determine an appropriate rate structure to compensate taxicab owners and operators for the expense of possible increases in minimum insurance coverage requirements.

Staff has been working with taxicab owners and their counsel to assess the impact of increasing required insurance coverage. During a September 27, 2000, public forum on this issue, all of the attendees requested that additional time be allowed in order to gather the data needed to make valid decisions regarding adjustments to insurance requirements and the rate structures. On October 10, 2000, City Council agreed to hear the proposal on October 24, 2000. Taxicab owners and their counsel have petitioned staff to extend the preparation time for this matter.

City staff recommends Council continue this agenda item to its formal meeting on November 28, 2000.

Councilwoman Field moved to continue this matter until November 28, 2000. This motion was seconded by Vice-Mayor Cloninger and carried unanimously.

V. NEW BUSINESS:

A. ORDINANCE NO. 2767 - BUDGET AMENDMENT TO REFLECT ADDITIONAL REVENUE AND OFFSETTING EXPENSES IN THE TRANSIT SERVICES DEPARTMENT

Transit Director Bruce Black said that this is the consideration of a budget amendment, in the amount of $410,892, to reflect additional revenue and offsetting expenses in the Transit Services Department.

The City of Asheville received $258,193 in additional state grant funds during the current fiscal year to support transit operations in Fiscal Year 2000-2001. In addition, the Transit Fund has a fund balance available for appropriation that accumulated from additional state grant funds received during the prior fiscal year.

Staff is requesting that these funds be appropriated in the current fiscal year to further enhance transit service. Transit Service Enhancements consist of:

- the addition of more bus service;
- an increase in advertising capability;
- an increased ability to implement the capital portions of the Transit Improvement Plan, including;
    - the purchase and installation of shelters;
    - schedule and route map refinement;
    - the purchase & placement of benches;
    - the purchase of shop equipment; and
    - an increase in the vehicle replacement fund contribution in anticipation of replacement of the fleet with alternative fuel vehicles.

City staff recommends City Council adopt a budget amendment, in the amount of $410,892, to reflect additional revenue and offsetting expenses in the Transit Services Department.

Mayor Sitnick spoke in favor of the many improvements and creative ideas that have been accomplished and initiated regarding transit services.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2767. This motion was seconded by Councilwoman Bellamy and carried unanimously.

ORDINANCE BOOK NO. [illegible] - PAGE 3
19

VI. OTHER BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Comments by Adam Balus

Mr. Adam Balus urged City Council to move the public hearing location on the proposed Wal-Mart Supercenter on Gerber Road from the Council Chamber to a place that is large enough to accommodate the number of people anticipated to attend. He noted that the City has not been bombarded with calls and letters because he has been advising residents to wait until the public hearing to make their comments and present their information in order that it be entered into the record.

After further discussion about the anticipated numbers of citizens who are planning to attend, it was the consensus of City Council to move the public hearing to a location, to be determined by City staff, large enough to accommodate the large crowds anticipated, taking into account the parking needed.

It was also the consensus of City Council to have Planning staff arrange a tour for City Council of the property proposed for the Wal-Mart Supercenter on Gerber Road.

Mr. Balus questioned why the order from the Board of Adjustment regarding the proposed Wal-Mart at the old Sayles Bleacheries site went out seven weeks after the Board made it's ruling. City Attorney Oast could not explain why the Order took so long to be sent out, however, a 30-day delay is not at all unusual since once the Order is written, the Board approves the Order at their next formal meeting.

Comments by Bill Evans

Mr. Bill Evans also urged City Council to move the public hearing location on the proposed Wal-Mart Supercenter on Gerber Road from the Council Chamber to a place that is large enough to accommodate the number of people anticipated to attend.

Need for Increased Trash Pick-Up

Councilwoman Field asked that when there are large events at the Civic Center, that trash cans be emptied at least two or three times over the weekend.

Claims

The following claims were received by the City of Asheville during the period of October 6-12, 2000: Melissa Quinlan (Civic Center), Sharon Allen (Streets) and BellSouth (Water).

The following claims were received by the City during the period of October 13-19, 2000: Michael Lurey (Water), Jennifer Labita (Water), BellSouth (Water), Jesse Samuels (Police) and John Ludavico (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

Closed Session

At 6:58 p.m., Councilman Hay moved to go into closed session to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Carolina Power & Light Company and the City of Asheville. The statutory authorization is contained in G. S. 143-318. 11 (a) (3). This motion was seconded by Councilman Worley and carried unanimously.

At 7:45 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Bellamy and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Thursday - November 9, 2000 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor M. Charles Cloninger; Councilwoman Barbara Field; Councilman Edward C. Hay Jr.; Councilman Brian L. Peterson; Councilwoman Terry Bellamy; and Councilman Charles R. Worley; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Donation of Land on Broadway for Greenway System

Summary: The consideration of a resolution authorizing the Mayor to accept a donation of real property on Broadway from Mark Carlson for the City of Asheville greenway system.

The City of Asheville is interested in establishing greenways or greenway systems throughout the corporate limits of the City of Asheville. Real property has been acquired along Broadway and Reed Creek for the purpose of constructing a greenway. Mark Carlson has offered to donate property he owns (approximately 0.84 acre) on Broadway at and near the corner with Ocala Street (PIN Nos. 9649.13-13-7959, 8905, 8808, 8973 and 9837) for the greenway system. The Parks and Recreation staff have reviewed the proposed donation and found that the property is appropriate for the greenway system.

All of the donors to the Broadway Greenway Project will be recognized at the groundbreaking ceremony.

City staff recommends City Council adopt the resolution authorizing the Mayor to accept a donation of real property on Broadway from Mark Carlson.

Setting Public Hearing on November 28, 2000, to Vacate and Close 135 Merrimon Avenue

Summary: The consideration of a resolution setting a public hearing on November 28, 2000, for the adoption of an ordinance directing that the dwelling located at 135 Merrimon Avenue be vacated and closed.

135 Merrimon Avenue is an apartment house for approximately 38 families. The owners, Robert Janney and wife, Sara B. Krueger, have not substantially responded to the Order of the Chief Code Enforcement Officer to repair, alter, or improve the apartment house so as to render it fit for human habitation. Housing Code Coordinator Jeff Baker, found the following conditions which have been documented by still photos:

- multiple Housing Code violations;
- structural problems including stress cracks in brick piers and decayed support girders;
- non-conformance with requirements for sanitary facilities; and
- stairwells and exits in violation of Vol. 9, Chapter 4 of the State Building Code (not fire rated).

Housing staff has spent a number of hours with the property owner to correct the deficiencies. The property owner, however, to date has failed to take corrective action so as to render the dwelling fit for human habitation. A formal housing hearing was held and a "Findings of Fact and Order" entered and served on the property owners. To date no action has been taken by the owner and the dwelling continues to be occupied by the tenants while in an unfit condition and in direct violation of the provisions of the Housing Code.

Section 4-217(c)(3) of the City's Housing Code, as authorized by N. C. Gen. Stat. sec. 160A-443(5) authorizes City Council to direct by ordinance that the dwelling be vacated and closed.

The following is an overview of some general information regarding this property:

- Fair market value of dwelling is $456,900
- Estimated cost to repair and bring into Code compliance is $179,000
- The Affordable Housing Agencies were notified.

The Building Safety Director recommends adoption of the resolution setting a public hearing on November 28, 2000, ordering that the property located at 135 Merrimon Avenue be vacated and closed.

Riverside Cemetery Metropolitan Sewerage District Easement

Summary: The consideration of a resolution authorizing the Mayor to execute an easement in favor of Metropolitan Sewerage District to make improvements on a sanitary sewer line and associated manholes within Riverside Cemetery.

During the past year the Metropolitan Sewerage District (MSD) has been working with the City of Asheville regarding a sanitary sewer project proposed within Riverside Cemetery. The current line is located along the southern portion of the cemetery adjacent to a creek which flows westward toward US 19/23. MSD would like to improve this line which is in disrepair with minimum impact to the property. MSD staff has met with City of Asheville staff representing the Parks and Recreation Department, Asheville-Buncombe Historic Resources Commission and the Tree Commission. The various divisions have worked with MSD to reach consensus regarding an appropriate design and implementation strategy that will enable the project improvements with minimal disturbance to the cemetery site.

The Parks and Recreation staff recommend the approval of the improvements as proposed by the Metropolitan Sewerage District in Riverside Cemetery along with the associated permanent easement for the new line of pipe.

Skateboard Park Contract

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Perry Bartsch Jr. Construction Company for the construction of retaining walls for the Skateboard Park.

In March of 1999, City Council approved the construction of a Skateboard Park to be located at the corner of Flint and Cherry Streets in downtown Asheville. This park will be constructed on property owned by North Carolina Department of Transportation. The development of the Skateboard Park has been on-going since 1997 when the Department began working with a number of individuals and groups interested in addressing the use of skateboards in the downtown area. This initiative led to the development of a temporary park located on top of the Civic Center parking deck which has proven to be successful with between 30 – 50 participants each day. The overall goal of the Task Force was the development of a permanent park. Construction on this park began in August, 2000, with the Department of Public Works installing storm drainage at the site. The next phase of development includes the construction of retaining walls throughout the park area. After completion of the retaining walls, the park will be ready for installation of the park surface which will allow for use by the skateboarders by late summer or early fall. Competitive bids were solicited for the development of the retaining walls with the low bid going to Perry Bartsch Jr. Construction Company at a cost of $252,775.

The Parks and Recreation Department has committed to raising funds for the park through a variety of means without the use of tax dollars. This fundraising effort continues and the Department is close to announcing a major corporate sponsor for the park. City Council approved the budget amendment for this park in 1999 with the understanding that funds would be reimbursed to the account by the above means.

The Parks and Recreation Department recommends City Council approve the contract with Perry Bartsch Jr. Construction Company, in the amount of $252,775, and that the City Manager be authorized to sign all contract documents.

Vice-Mayor Cloninger noted that he has a conflict of interest on this matter and asked that staff be aware of it when placing it on the agenda for final adoption.

Issuance of $1,970,000 Two-Thirds General Obligation Bonds

Summary: The consideration of a resolution providing for the issuance of $1,970,000 General Obligation Bonds, Series 2000 of the City of Asheville.

On October 10, 2000, City Council adopted Bond Orders authorizing the issuance of $1,300,000 Sanitary Sewer Bonds and $670,000 Equipment Bonds. Those Bond Orders became effective on November 13, 2000, 30 days after their publication during which period no valid petition to a vote of the people was filed with the City Clerk.

The resolution provides the particulars for issuance of the bonds, to include:

- $1,970,000 aggregate principal amount; in $5,000 denominations;
- Semiannual interest payment dates of December 1 and June 1, beginning June 1, 2001 and continuing through December 1, 2020;
- Annual principal payment dates of December 1, 2001 through 2020;
- Provides for early redemption after December 1, 2010 at a premium;
- Requires continuing disclosure of financial information;
- Provides the form of the bonds;
- Designates the bonds as "qualified tax-exempt obligations";
- Directs the Finance Director to establish special funds for the proceeds of the bonds;
- Requests the Local Government Commission sell the bonds through competitive bid;
- Authorizes preparation, execution and delivery of the bonds;
- Authorizes and approves the form and content of the Official Statement and Supplement to the Official Statement with changes, modifications, additions and deletions as deemed necessary by the Mayor, City Manager, or Finance Director;
- Authorizes the Mayor, City Manager, Finance Director and City Clerk to execute and deliver all certificates, documents, opinions or other papers and perform all other acts required in order to implement and carry out the purposes of the resolution.

City staff recommends City Council adopt the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ASHEVILLE HONORS PROGRAM

Former Mayor Eugene Ochsenreiter, Ms.. Sara Bissette and Ms. Harriette Winner explained how they would like to see the City recognize individuals and institutions in the City who over the years have played a prominent role in the City's growth and development.

There have been many individuals and institutions over the years who have assisted in the development and growth of Asheville. Individuals and institutions who have provided leadership in development, the arts, culture, the business world and in other ways have helped establish Asheville as a unique city in which to live, work and recreate. The purpose of the awards would be on an annual basis to select an individual(s) or institution(s) to be honored by the City for their contributions and to hold an appropriate awards ceremony to confer the awards. City staff has met with Mayor Sitnick, Mayor Ochsenreiter, Ms. Sara Bissette and Ms. Harriette Winner to discuss how such a program might work at the conceptual level. The group would recommend that the awards be selected by an independent committee and presented on behalf of the City of Asheville by the Mayor and City Council at the appropriate time.

Staff feels this is a worthwhile endeavor and would provide an additional avenue to recognize individuals and organizations who are so important to the community. If Council would like to pursue an Asheville Honors type of program, the following steps should be taken: (1) Approve a mission statement for the committee; (2) Approve operating principles to guide the committee; (3) Appoint a chair and ask the chair to appoint members to the committee subject to Council approval; and (4) Approve a modest budget for the committee to begin their work and initially promote the program.

Staff recommends that if Council would like to proceed with a recognition program such as described above, Council should approve the mission statement, the operating principles, appointments and an initial budget of $4,000 for the committee.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORT FROM THE BUNCOMBE COUNTY SUSTAINABILITY TASK FORCE

Councilman Hay explained that the Buncombe County Sustainability Task Force is an attempt to model a proactive approach to developing land use and growth policy at the local level and avoid having such decisions imposed upon us from Raleigh.

Mr. Bradley Hix, representative from the Chamber of Commerce, explained the decision-making process and what the make-up is of the Buncombe County Sustainability Task Force. He explained why the task force was formed and what they see their role is. He outlined what specific issues and concerns the task force has been working on.

He explained the following four consensus principles on Smart Growth: (1) The Task Force believes that planning is best done on a local and regional level; (2) Every North Carolina county should work toward a comprehensive growth plan which would not necessarily require zoning; (3) Expand the availability of certain tools to help local governments to achieve desired outcomes of smart growth; and (4) Encourage greater infill development and community redevelopment.

On behalf of City Council, Mayor Sitnick thanked Councilman Hay and Mr. Hix for their efforts to shape statewide policy on smart growth rather than be shaped by it.

REPORT ON SHELTERED WAITING AREA AT TRANSIT CENTER

Transit Services Director Bruce Black said that this is a presentation of alternatives and conceptual plans for the expansion of the Transit Center Ticket Office for the addition of a sheltered waiting room for transit customers.

At the worksession on October 3, 2000, City Council asked that staff review various alternatives for providing shelter at the Transit Center, and asked that the architect who drew the conceptual plans presented at that time be present at the next available Council worksession.

Staff has worked with the architect to address alternatives to the retrofit of the existing building, and also to refining details of the conceptual plans.

Ms. Patty Glazer, Glazer Architecture PA, explained the possible alternatives for the provision of shelter at the Transit Center. Some alternatives are to do nothing, place pre-fab or plastic panels part way down from the ceiling to ground to retain heat, place glass curtains along the shelters edge, place removable panels for wintertime shelter, and build an addition to the existing ticket office.

Ms. Glazer explained the different issues associated with each alternative and stated that to build an addition to the existing ticket office is the best alternative. She also explained that after refining details of the conceptual plans, an approximate cost is $91,930.

City staff recommends City Council evaluate the proposed alternatives and if desirous of moving forward with an alternative, authorize the City Manager to enter into a professional services contract to prepare final plans and bid the project.

Upon inquiry of Mayor Sitnick, City Manager Westbrook explained that since this is a high priority of City Council that they will get funds from the Transit Services existing budget, without endangering existing services.

Councilwoman Field said that since this project will take approximately 6-7 months to complete, she wanted to make sure that we would not slowing down providing bus shelters in other parts of the City.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

UDO AMENDMENT REVIEWS

City Attorney Oast said that these Unified Development Ordinance amendments are being brought before City Council in order that staff may respond to questions Council may have prior to the public hearings, which are scheduled on November 28, 2000. He advised Council that it would be inappropriate for Council to receive comments from the public at this worksession.

Level III Project Review

Chief Planner Gerald Green said that this is the consideration of an amendment to the Unified Development Ordinance (UDO) to revise the procedure for the review of Level III site plan review projects.

Several months ago, City Council directed staff to pursue several concepts for streamlining the public hearing process for cases coming before Council. This proposed ordinance amendment was developed pursuant to that direction. The proposed ordinance amendment would revise the process for the review of Level III site plan review projects. These projects are residential projects of more than 50 units, commercial, office, and institutional projects of more than 100,000 square feet gross floor area, and industrial projects with a site area of more than 15 acres. The UDO identifies Level III site plan review projects as conditional uses, requiring the issuance of a Conditional Use Permit by City Council. The current review process has two steps, the review of the site plan for technical compliance with City standards by the TRC and a public hearing, with final decision, by City Council. With this process, the first opportunity for public discussion and review of the proposed Level III projects is at the City Council meeting. Issues are often identified at the public hearing that take some time to resolve, resulting in lengthy public hearings. The technical approval of detailed site plans by TRC prior to the City Council public hearing results in the impression that the plans have already achieved a significant level of approval.

In revising the Level III site plan review process, the Planning and Development staff sought to achieve the following goals:

- Provide an additional opportunity for public input;
- Provide an opportunity for identification and resolution of issues and concerns prior to review of the site plans by City Council; and
- The revisions should result in no increased cost (time/money) for the applicants.

These goals were met by the revised the Level III site plan review process, which calls for:

- Review of the conceptual site plan by the TRC. The conceptual site plan will provide details on those issues of concern to decision-making bodies and the public but will not require detailed engineering or design, thus reducing the cost of plan preparation;
- Review of the conceptual site plan, with public hearing, by the Planning and Zoning Commission;
- Opportunity for resolution of issues/concerns identified at the public hearing before the Planning and Zoning Commission;
- Review of, and final decision on, the conceptual site by the City Council at a public hearing. If the conceptual site plan is approved, a Conditional Use Permit would be issued by the City Council; and
- Review of detailed site plan by the TRC.

The revised Level III site plan review process identified in the ordinance amendment meets the goals established by the staff, resulting in an improved process that will better meet the needs of the community.

The Planning and Zoning Commission voted 7 to 0 to recommend approval of the wording amendment revising the review process for Level III site plan projects. The Planning and Development staff recommends approval of the wording amendment.

Mr. Green answered various questions and comments from Council regarding this proposed amendment.

Setbacks for Multi-Family Structures

Chief Planner Gerald Green said that this is the consideration of an amend to the Unified Development Ordinance (UDO) to revise the setbacks for multi-family structures.

The proposed ordinance amendment would revise the setback requirement for multi-family structures. Currently, all multi-family structures must comply with increased setback requirements regardless of the adjacent land use. The setback is based upon the number of units in the multi-family structure or development. While this requirement for additional setback has buffered single family uses from large-scale multi-family developments, it also has resulted in the inefficient use of land, the physical separation of multi-family neighborhoods from each other, and the undesirable scattering of open spaces across development sites. The draft ordinance amendment eliminates the requirement for additional setbacks for multi-family structures when they are located adjacent to other multi-family structures or non-residential uses. When multi-family structures are located adjacent to single-family uses, additional side and rear setbacks of 2 feet for each unit more than one in the structure is required. Duplexes, triplexes, and quadraplexes are exempted from the requirement for additional setback when located adjacent to single family uses. This exemption is due to the small scale and minimal impact of these small multi-family structures. In addition, these small scale multi-family structures are conditional uses in single family districts, permitting a case-by-case review of design standards. The proposed ordinance amendment should result in the more efficient use of land, the more even distribution of open spaces, and elimination of physical barriers between multi-family neighborhoods.

The Planning and Zoning Commission voted 7 to 0 to recommend approval of the wording amendment revising the setback requirements for multi-family structures. The Planning and Development staff recommends approval of the wording amendment.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to proceed with the appropriate public hearings on November 28, 2000.

ALTERNATIVE FUELED VEHICLES PLAN

Vice-Mayor Cloninger said that this is the consideration of a resolution endorsing the concept of an Alternative Fueled Vehicles (AFV) Plan for Asheville's vehicle fleet and local partners.

He said that City staff has worked to develop a draft AFV Plan for Asheville's vehicle fleet and local partners. Alternative Fuel Vehicles for fleets have the potential to decrease air pollution in the community. Staff researched various alternative fuels, available equipment and potential funding. The State is providing grants for municipal fleets to convert to fuels or vehicles which reduce air pollutants. Also, Mission-St. Joseph and Buncombe County have expressed interest in participating with the City in such a program. Other potential partners are being solicited.

Public Works Director Mark Combs explained the 1990 Clean Air Act and why alternative fuel vehicles are needed. He explained that compressed natural gas (CNG) has (1) a 80-98% emissions reduction; (2) is produced domestically; (3) is 33% lower cost vs. gasoline/diesel; (4) OEM vehicles are readily available; and (5) it is conducive to local fleet operations. He then explained the challenges for CNG, the CNG operation costs, and vehicle incremental costs in the City's Capital Improvement Plan.

The strategy for the program is (1) develop partnerships; (2) commitment by partners to purchase and use CNG vehicles; (3) construct "rapid fill" CNG station; (4) promote AFV use, pollution reduction strategies; and (4) implement new AFV technologies, as available. AFV Partners include Mission-St. Joseph's, Buncombe County, private AFV owners, and future partners.

He outlined the AFV Program Plan and Asheville's commitment.

He recommended a commitment to develop and fund a City AFV Program, apply for mobile Source Emissions Reduction Grant, apply for reimbursement for "incremental" costs, develop partnership(s) in the community, and continuous implementation of new AFV technology, as available.

Mayor Sitnick said that she would like to send a letter on Council's behalf to Congressman Taylor and Senator Edwards to advise them what the City is doing and if they can offer any other grant assistance for this Plan. In addition she would like to send a letter to the Governor-Elect to let him know what the City of Asheville is doing about air pollution and our strong commitment to air quality.

Transit Services Director Bruce Black explained what potential uses he sees for changing out his bus fleet to CNG.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

SELECTED TRAFFIC CALMING PROJECTS

City Traffic Engineer Michael Moule said that the following the procedures described in Asheville's Neighborhood Traffic Calming Policy adopted by City Council earlier this year, Engineering Department staff have preliminarily selected street segments for traffic calming projects for this fiscal year.

This report summarizes the street segment ranking and project selection process, describes the selected project areas, and describes the time frame for implementing these projects during this fiscal year.

The Neighborhood Traffic Calming Policy clearly outlines the rating criteria for prioritizing street segments for traffic calming. The streets segments are rated on speed and volume of existing traffic as determined by electronic tube counters, crash history, nearby pedestrian generators, roadway geometry, residential density, and the presence of existing sidewalks. Traffic Engineering staff has collected speed and volume data on approximately 100 street segments. All of the rating criteria except crash history have been evaluated for all 100 segments.

At this time, City staff does not have access to any crash report databases that can provide the necessary information with a reasonable amount of staff time and effort. An appropriate database may be forthcoming, but to complete the rankings used to select this year's projects, staff used the following process. First, the street segments were ranked based on the point total for all criteria except crash history. Then, the top 15 were selected at a threshold where it could reasonably be assumed that projects below that threshold could not move up to the top (based on the fact that only 10 points out of a total possible 100 points are available for crash history). A staff person went through the tedious process of reviewing each crash report on or near those 15 street segments. Finally, these 15 street segments were ranked based on the total points for all seven rating criteria.

The Traffic Calming Policy states that once the prioritized list is complete, projects will be selected based on the rankings and several other factors. One of these factors is regional equity; the selected projects are dispersed throughout the City. In addition, the Policy is intended to provide traffic calming on both residential local service streets and residential collector streets, but the rating criteria will generally rank collector streets higher. Therefore, some flexibility in the project selection is necessary to realize the goal of regional equity and to be sure to include projects on residential local service streets. This flexibility is the reason why some street segments with higher rankings were not selected for projects this fiscal year.

The selected street segments are listed below in order of the ratings they received in the prioritization process discussed above. Additional street segments that may be included in each project are described as well.

- **Wyoming Road**: This street is located in the Kenilworth neighborhood in east central Asheville. Although it is built like a typical residential local service street, it carries fairly high traffic volumes and it is part of a popular short cut through the Kenilworth neighborhood. Due to possible diverted traffic, two other streets that will need to be evaluated and possibly treated at the same time are Warwick Road and Forest Hill Drive from Wyoming Road to Kenilworth Road.

- **Wood Avenue**: This street is located in the Oakley Community in east Asheville. This street serves as a major collector street that carries very high traffic volumes for a residential street. Cedar Street is the continuation of Wood Avenue and should have traffic calming measures installed at the same time. In addition, Fairview Avenue will be evaluated for inclusion in this project.

- **South French Broad Avenue from Phifer Street to Hilliard Avenue**: This street is a collector street in central Asheville. Other parts of South French Broad will be addressed with this project; in all, South French Broad will be included from Choctaw to Hilliard Avenue. In addition, due to possible diverted traffic, Dailey Drive, Grove Street, Morgan Avenue, and Blanton Street will also be evaluated and possibly treated at the same time.

- **Gracelyn Road**: This is a north Asheville street in the Grace neighborhood that carries collector street volumes but has the features of a typical residential local service street. Ottari Road runs parallel to Gracelyn Road and will be evaluated for inclusion with this project.

- **Florida Avenue from Burton Street to Dorchester Avenue**: This west Asheville street is built like a typical residential local service street but carries collector street volumes. Dorchester Avenue and Balm Grove Avenue will need to be evaluated for possible inclusion in this project as they run between Florida Avenue and Haywood Road providing the connections for this common neighborhood cut-through.

- **Caribou Road from Hendersonville Road to the I-40 over-crossing**: This street serves as a minor collector for the Shiloh neighborhood, but it does not have roadway features like a residential collector street. Two segments of Caribou Road had high rankings, and both will be included in the project. A third segment of Caribou Road, from I-40 to Sweeten Creek Road, will be evaluated for inclusion in the project. A short segment of Booker Avenue from Caribou Road to West Chapel Road will be included in the project.

It is very critical that the next steps in the project development process happen in a timely manner. Immediately after presenting the selected projects to City Council, Engineering

Department staff will contact residents who live in the vicinity of the selected projects and who have previously contacted the Engineering Department about traffic concerns. An educational meeting will be scheduled for mid-November where residents from all project areas will attend and be informed about the process for project development. Before or soon after this meeting, a citizen committee for each project will be formed to assist City staff in contacting other residents and garnering support. City staff will meet with these committees to finalize the petition area and the committees will be sent out to gather signatures toward the 40% of households needed to hold public meetings. It is the goal of the Engineering Department to have signatures in hand and initial project development public meetings scheduled before the holiday season in December. This will allow conceptual plans to be drafted and final public meetings to be held in January and February. The final petition process and detailed design for a few projects could take place as early as February in time for construction to occur during good weather in the spring.

City Council spoke in support of the selected traffic calming projects identified by City staff.

UPDATE TO TRAVEL DEMAND MODEL FOR THE ASHEVILLE URBAN AREA METROPOLITAN PLANNING ORGANIZATION

Transportation Planner Ron Fuller said that this is the consideration of a resolution authorizing the City Manager to execute a contract with DSAtlantic Corporation in the amount of $145,300 to update the travel demand model for the Asheville Urban Area Metropolitan Planning Organization (MPO), and an associated budget amendment.

As the Lead Planning Agency, the City of Asheville plays an integral part in the function of the MPO. The old Thoroughfare Planning Process that the N. C. Dept. of Transportation (NCDOT) has used is being revamped to reflect a more comprehensive approach to transportation planning. Our current Plan is in the process of becoming a Comprehensive Transportation Plan. One of the most valuable tools in evaluating how traffic is addressed, both in the present and in the future, is a valid travel demand model. Such models are quite complex and data intensive. They require staff that are dedicated and experienced to modeling. With the level of concern we have locally regarding the validity of our Plan and model, the NCDOT and the MPO agree that it would be very beneficial to utilize the professional expertise of consultants who specialize in modeling. City staff issued a Request for Proposals and have selected DSAtlantic. The NCDOT, the City and the MPO staff, all agree that DSAtlantic can complete this update in a timely manner.

The Federal Highway Administration and the NCDOT will reimburse the City of Asheville 80% of the cost of the contract. The total cost of the model update is $145,300. The maximum City's share would be $29,060, which is budgeted in the Engineering Department.

City staff requests that City Council authorize the City Manager to execute a contract with DSAtlantic Corporation, in the amount of $145,300, to update the travel demand model for the MPO and to adopt an associated budget amendment.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

CITY COUNCIL HOLIDAY MEETING SCHEDULE

Due to the upcoming holidays, it was the consensus of City Council to (1) cancel the December 5, 2000, worksession; (2) schedule the December 12, 2000, meeting as a worksession; (3) schedule the December 19, 2000, meeting as a formal meeting; (4) cancel the December 21, 2000, meeting; and (5) cancel the January 2, 2001, meeting.

BOARDS AND COMMISSIONS

City Council instructed the City Clerk to arrange interviews or reappointment papers for vacancies on the following boards/commissions: Board of Adjustment, Downtown Commission, Fair Housing Commission, Firemen's Relief Fund, Metropolitan Sewerage District Board and Transit Commission. It was the consensus of Council to place the Film Board and the Public Art Board vacancies on Council's November 21, 2000, worksession agenda for further discussion. It was also Council's consensus to move the Public Access Channel Commission appointment to the next quarterly appointment process.

CLOSED SESSION

At 6:00 p.m., Councilman Hay moved to go into closed session for the following reasons: (1) to discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations - statutory authority is G.S. 143-318.11 (a) (4); and (2) to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including lawsuits involving the following parties: Leanne F. Young, Janet Rebecca Crisp, Paul Evington, Scott Alan Gaddy, Rock S. Edwards, William R. Annarino, Leroy Lunsford and City of Asheville – statutory authority is G.S. 143-318.11 (a) (3). This motion was seconded by Councilwoman Field and carried unanimously.

At 6:45 p.m., Councilman Worley moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:45 p.m.
